American Revolvers

www.charterfirearms.com

Charter 2000 Revolvers were conceived by American engineers who sought to achieve a **new and distinctive** approach to handgun design. Without disturbing **fine gun tradition** the.....

★★ Points of Superiority ★★

- ★ Smallest, lightest one-piece frame for better strength than designs with sideplates.
- ★ Fewest critical moving parts for simplicity of design and trouble free operation.
- ★ Barrels are one-piece, machined with eight grooves instead of six for higher velocity, flatter trajectory and better accuracy. All barrels shroud the ejector rod.
- ★ Completely blocked hammer system cannot fire unless trigger is held in full rear position — safest revolver design in the world.
- ★ Shortest hammer throw, fastest locktime.
- ★ Wide trigger and hammer spur.
- ★ Lock up is in three places instead of two, at the hand, cylinder stop and ejector rod collar for additional safety, strength and cylinder to barrel lock up.
- ★ No stud to hold cylinder in place when open, only U.S. manufacturer to feature.

◀ The Undercover

At 16 oz. this five shot .38 special is compact and lightweight. Available in 2" barrel. Available in stainless or blue finish. Double or traditional spurred hammer. Fixed sights, shrouded ejector rod, one-piece barrels.

The Bulldog ▶

The Bulldog is tough enough to harness the stopping power of a .44 special ammunition. 2.5" barrel and 21ozs. make this a lightweight powerhouse. Stainless or blue finish. Pancake style grips. Fixed sights.

◀ The Mag Pug

The Mag Pug in .357 standard with ported barrel. 5 shot fixed sights. Weighs 23 ozs. This compact, lightweight is available in stainless or blue finish with pancake grips.

◀ The Pathfinder

The Pathfinder is a 2", 6-shot, 22-Caliber weighing 18 oz. and available in either 22 long rifle or 22 magnum. Partridge front sights, square notch rear sight, and traditional checkered walnut grips makes target shooting comfortable. Available in stainless finish only.

Police Bulldog ▶

The Police Bulldog, built on our large frame features 4" barrel (Tapered or Bull), exposed ejector rod, Partridge front sight, and square notch rear sight, weighs 24 oz. standard with Pancake grip; walnut square grips available. Available in blue finish.

◀ OFF DUTY

The OFF DUTY transforms the Charter fine design into a totally new revolver featuring a heat-treated aluminum casting enabling this 5-shot, 38 special to weigh in at 12.5 oz. The concealed double action only hammer utilizes our unique hammer block design and permits snag-free-operation.

Dixie Derringers ▶

The Dixie Derringers are 1-1/8" barrels, 5-shot chambered in 22 Long Rifle or 22 Magnum. Weighing 5 oz. and 6 oz. respectfully. They are available in stainless steel and feature our patent pending safety system.

**American Made,
Owned, Operated,
and Proud of It!**
