Synthetic Stocks

## STOCKS FOR THE RUGER 10/22®

Your Ruger 10/22 never looked so good or performed so well! This stock was designed to provide a drop-in fit for your Ruger 10/22 action fitted with a .920" heavy barrel. It features positive checkering on the grip and forearm areas, and is engineered to provide ultimate balance and performance. The CoreLite Ruger 10/22 is light and durable, and comes with sling swivel studs and non-slip rubber recoil pad installed. Does not fit Ruger 10/22 Magnum®.

Ruger 10/22 .920" Barrel Channel Mossy Oak® Breakup™ (Pictured) .....	130-163

## MAUSER 98 STOCKS

The Mauser 98 stock from CoreLite is the most convenient stock ever made for sporterizing surplus and commercial Mauser 98 rifle actions! Available with two different barrel channels - F34 and F54 - making the stock a drop-in fit with threaded and short-chambered Adams & Bennett Barrels in those contours. There's no barrel channel inletting required. Just drop your barreled action into the stock, tighten the guard screws, and go to the range! Fajen® pioneered the development of stocks that were keyed for a drop-in fit with threaded, short chambered barrels. CoreLite has pioneered the same concept in synthetic stocks! Military Mausers with the original stepped barrel will fit F34 stocks with removal of the rear sight band and minor fitting. Available in Phantom Black or Mossy Oak Breakup (Mossy Oak in F34 barrel contour only). Note: If the original bolt handle has been bent down or replaced, it will be necessary to "rasp-in" a bolt handle notch in the stock.
