Stalker Hide™ Series

Quiet stalking will be easy with Remington's Stalker Hide Series. The micro polyester tricot fabric is a warp knit material that offers superior strength to weight ratio. It is extremely abrasion resistant and windproof. Constructed with DuPont® Thermolite® Plus or goose down insulation and a Rem-Tech™ laminate, Stalker Hide is warm, comfortable and 100% waterproof yet highly breathable. Burr-proof and non-piling, will not pick up clinging vegetation.

18732

Stalker Hide™ Series – Scent Control

The smell of success doesn't really have one. For success, you need to be more than invisible – you need to be scentless. THERMA-SCENT® Scent Control Insulation provides the ultimate scent control. The fibers are treated with a special agent that targets and kills odor-causing bacteria.

THERMA-SCENT® will help create an odorless micro-climate around your body, reducing your scent emission in the field. Best of all, THERMA-SCENT® continues to fight odors even after the garment is removed.

18734 SCENT CONTROL SYSTEM PARKA

Outer Shell
