## Smith & Wesson – An All American Company

Horace Smith and Daniel B. Wesson came from old New England families. Horace learned the firearms trade while working at the National Armory in Springfield, Massachusetts. Daniel's experience came from apprenticing with his brother Edwin Wesson, the leading maker of target rifles and pistols in the 1840s.

The two men formed their first partnership in 1852 in Norwich, Connecticut, with the aim of marketing a lever action repeating pistol that could use a fully self-contained cartridge. This first pistol venture was not a financial success, and by 1854 the company was having financial difficulties.

Faced with their financial difficulties, they were forced to sell their company to a shirt manufacturer by the name of Oliver Winchester. In 1866, using the original lever action design created by Smith & Wesson, Winchester's company emerged as the famous Winchester Repeating Arms Co.

In 1856 Smith & Wesson formed their second partnership to produce a small revolver designed to fire the Rimfire cartridge they patented in August of 1854. This revolver was the first successful fully self-contained cartridge revolver available in the world. Smith and Wesson secured patents for the revolver to prevent other manufacturers from producing a cartridge revolver – giving the young company a very lucrative business.

The partners realized that when their patents expired they would need a new design to maintain their market superiority. The new design was completed in 1869 and the company began marketing it in 1870. The Model 3 American, as it became known in the United States, was the first large caliber cartridge revolver and established Smith & Wesson as a world leader in handgun manufacturing. The two most important customers for the new revolver were the United States Cavalry, which purchased 1,000 units for use on the Western Frontier, and the Russian Imperial Government.

At the age of 65, Horace Smith retired from the company and sold his share of the business to D. B. Wesson, making him the sole owner of the firm. In the late 1800's the company introduced its line of hammerless revolvers. These are still represented in today's handgun line.

Smith & Wesson next introduced what is probably the most famous revolver in the world, the .38 Military & Police or, as it is called today, the Model 10. This revolver has been in continual production since that year and has been used by virtually every police agency and military force around the world.

Smith & Wesson's contribution to the history of handgun and cartridge development continued through the 20th Century. The first Magnum revolver, the .357 Magnum, was introduced by the company in 1935. In 1955 the first American made double action auto-loading pistol, the Model 39, was introduced.

The Model 29 chambered in .44 magnum – the handgun made famous by Clint Eastwood in the movie "Dirty Harry" – was unveiled in 1956. In 1965 S&W began producing the Model 60 – the world's first stainless steel revolver – launching the era of stainless steel firearms.

The accomplishments of Smith & Wesson are so numerous that it is impossible to understand the history of modern handguns without first understanding the history of Smith & Wesson. Smith & Wesson was an industry leader in 1852 when it was first founded and continues to lead the world today with innovations into the 21st century.

# Revolvers

For all practical purposes, there are only two kinds of revolvers made today—those made by Smith & Wesson® and those made by everyone else. For concealed carry, personal and home protection, target shooting, competition and hunting, Smith & Wesson offers more revolvers chambered in more calibers for more applications than any other manufacturer. Anything less than a Smith & Wesson is a compromise.

# Revolvers

"Smith & Wesson revolvers are amazingly fast, accurate and, above all else, 100% reliable. In all of my years of competition I have never out performed my Smith & Wesson revolvers."

Jerry Miculek

## Major Championship Victories

### International Revolver Championships

1992, 1993, 1994, 1995, 1996, 1997, 1998, 1999, 2000, 2001, 2002, 2003

## New Revolvers for 2004

**Model 500**  
Extra Large Frame  
.500 S&W Magnum®  
SKU: 163504

Quite possibly the best tool to bring with you into bear country. Small enough to wear or pack all day when hiking, fishing or hunting.

A variety of additional compensators can be purchased.

**Model 325PD**  
Large Frame  
.45 ACP  
SKU: 163415

Weighing just 21.5 ounces, the 325PD puts the proven stopping power of the .45 ACP in a large frame scandium revolver. The perfect back-country companion.

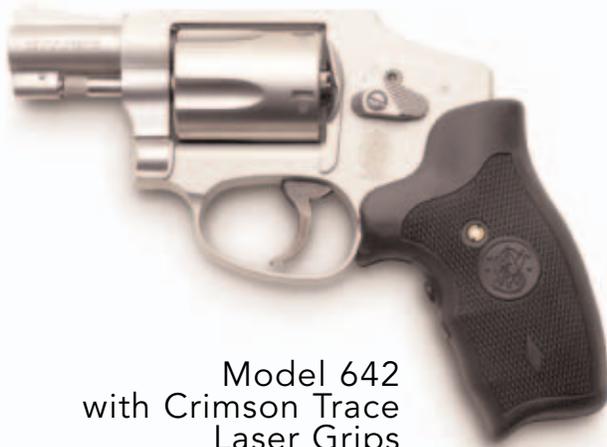

**Model 351PD**  
Small Frame  
.22 Magnum  
SKU: 160228

An AirLite® 7 shot .22 Magnum with a two inch barrel.

# Revolvers

## New Revolvers for 2004

Model 642  
with Crimson Trace  
Laser Grips

Small Frame  
.38 S&W Special +P  
SKU: 163811

The classic DAO Airweight revolver now comes with optional laser grips from Crimson Trace.

Model 637 Carry Combo  
Small Frame

.38 S&W Special +P  
SKU: 163051

Our classic Airweight revolver chambered in .38 S&W +P now comes with a Kydex® carry holster.

Henry Denson  
Born in Americas, GA  
Machine Operator  
32 years of service

# Revolvers

## New American Classics

Unveiled just last year, the world's most powerful production revolver no longer needs an introduction.

Voted Best Handgun of 2003 by *Field & Stream* and 2003 Handgun of the Year by the Shooting Industry Academy of Excellence.

The ultimate hunting handgun for the ultimate hunting challenge. Built to take any game on any continent.

Model 500

Extra Large Frame  
.500 S&W Magnum®

SKU: 163500

# Revolvers

## New American Classics

### Model 329PD

Large Frame  
.44 Magnum\*  
SKU: 163414

The large frame scandium revolver built to handle the time tested .44 Magnum. Carry weight is no longer an excuse to go into the woods alone.

### Model 340PD

Small Frame  
.357 Magnum®/.38 S&W Special +P  
SKU: 163062

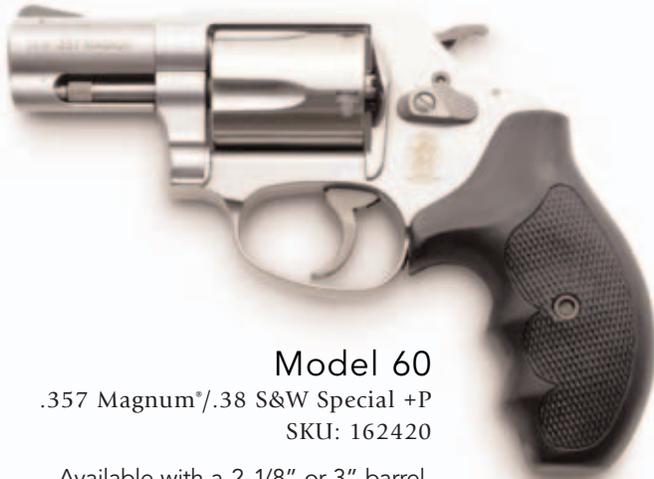

A hammerless, Scandium small frame revolver chambered in .357 Magnum. A gun built for the "jungle," urban or rural. A HIVIZ® front sight makes for quick and easy target acquisition.

# Revolvers

## American Classics

Small Frame | Stainless Steel

The first all stainless steel handgun. The choice for those who insist on an all steel revolver for greater recoil control and time-tested performance.

### Model 60

.357 Magnum\*/.38 S&W Special +P  
SKU: 162420

Available with a 2-1/8" or 3" barrel.  
The 3" comes with adjustable rear sights.

### Model 640

.357 Magnum\*/.38 S&W Special +P  
SKU: 163690

Enclosed hammer for a no snag, easy carry.

Craig Ashley  
Born in Springfield, MA  
Forger  
25 years of service

# Revolvers

## American Classics Small Frame | Airweight®

The original aluminum frame, lightweight revolver for those looking for a non-steel carry revolver chambered in .38 S&W Special +P.

**Model 637**  
.38 S&W Special +P  
SKU: 163050

**Model 642**  
.38 S&W Special +P  
SKU: 163810

**Model 638**  
.38 S&W Special +P  
SKU: 163070

Smith & Wesson® Small Frame Revolvers feature three distinct hammer styles for those with different needs:

1. Traditional
2. Centennial®
3. Bodyguard®

Shown here on our Airweight series, these options are available on most other small frame revolvers.

The **637** is a traditionally designed, SA/DA revolver for those looking for a classically styled revolver.

The **642** is an enclosed hammer or "Centennial" style DAO revolver. Its snag-free design will not catch on clothing while being drawn.

The **638** features a shrouded or "Bodyguard" style hammer that can be manually cocked, offering the traditional SA/DA option combined with a snag free design.

# Revolvers

## American Classics

Small Frame | AirLite® Rimfire

A lightweight Rimfire revolver with an 8 round capacity built on an Aluminum-Alloy frame. Available with a 2" or 3" barrel.

Model 317  
.22 LR  
SKU: 160221

Model 317  
.22 LR  
SKU: 160222

Don DeGray

# Revolvers

## American Classics

Medium Frame | Rimfire

The timeless utility of a Rimfire revolver available in .17HMR, .22LR or .22WMR (not shown). The perfect choice for target shooters or small game hunters looking for a new challenge. Why go into the field without one?

Model 617  
.22LR  
SKU: 160584

Model 647  
.17 Hornady Magnum®  
SKU: 160585

# Revolvers

## American Classics Medium Frame

We introduced you to the .38 S&W Special in 1899 and the .357 Magnum® in 1935. Few things in life are as reliable and time tested as these revolvers. Now available in five different models and with a variety of barrel lengths.

**Model 10**  
.38 S&W Special +P  
SKU: 160125

The descendent of the original .38 S&W Special Military and Police revolver introduced in 1899.

**Model 66**  
.357 Magnum®/.38 S&W Special +P  
SKU: 162706

The first stainless steel combat magnum, originally introduced in 1970.

**Jerry Gonzalez**  
Born in Springfield, MA  
Gun Fitter Trainee  
1 year of service

# Revolvers

## American Classics

### Medium Frame

Developed to provide additional strength and recoil control in a mid-size package, the Model 686 revolver series offers full-lug barrels chambered for .357 Magnum\*/.38 S&W Special +P. Available ported or unported with a six or seven round cylinder in three different barrel lengths. This is a .357 Magnum for every application.

The PowerPort is an integral compensator that reduces muzzle flip for better control and quicker follow-up shots.

**Model 686PP**

PowerPort™

.357 Magnum\*/.38 S&W Special+P

SKU: 164272

**Model 686**

.357 Magnum\*/.38 S&W Special+P

SKU: 164231

# Laser Engraving

Laser engraving affords another opportunity to personalize your favorite revolver or pistol. Images, names, initials or scrollwork can all be added to the handgun of your choice through the modern process of LaserSmith engraving. Unlike custom hand engraving, LaserSmith engraving is quick and more affordable.

Contact Smith & Wesson today at 1-800-331-0852 for more information.

# Pistols

Smith & Wesson® offers a complete line of pistols designed to meet the needs of discriminating shooters. From the timeless .22 Rimfire used by millions shooting for the first time to our version of John M. Browning's classic 1911 and every model in between, we offer more models in more calibers than any other pistol manufacturer.

The problem isn't choosing Smith & Wesson, but choosing which Smith & Wesson.

Model 22A  
Full Size  
.22 LR  
SKU: 107400

# Pistols

## New Pistols for 2004

Last year we introduced the world to our version of the classic 1911. This year we expand the options you have in choosing a 1911 from Smith & Wesson.

### Model SW1911 Adjustable

Full Size  
.45 ACP  
SKU: 108284

Adjustable rear sights make this 1911 competition-ready right out of the box. Includes all the features of the SW1911 we introduced last year with the enhanced feature of an adjustable rear sight, as well as an ambidextrous manual safety.

### Model SW1911Sc

Compact  
.45 ACP  
SKU: 108283

A 1911 Scandium Commander for those looking for the time tested reliability of the .45 ACP in a lightweight single action pistol. This is the best, lightweight 1911 designed to date.

# Pistols

## New Pistols for 2004

### Model 22A Camo

Full Size  
.22 LR

SKU: 107435

Our classic Rimfire pistol now available with a Mossy Oak Break Up® Camo finish. For plinking, target shooting or competition. The only thing more enjoyable than memories of days on the range or in the field is making new ones.

### Model 908S Carry Combo

Compact  
9mm

SKU: 103891

This 908S pistol now comes with a Kydex® carry holster.

## New American Classics

The SW1911 – John M. Browning's timeless design. Smith & Wesson's timeless commitment to quality and innovation.

The SW1911 features an external extractor system, Wolff springs, a Texas Armament match trigger, a Chip McCormick hammer and thumb safety, a Briley barrel bushing, Wilson magazines & safety and Novak Lo-Mount Carry Sights.

This is a 1911 John M. Browning would be proud of. You'll only need to shoot it once to find out why.

Model SW1911

Full Size  
.45 ACP  
SKU: 108282

Our first all Scandium frame pistol. A lightweight, compact 7+1 capacity chambered for the powerful .40 S&W.

Features include a 3.5" barrel, Hogue rubber grips, Novak Lo-Mount Carry three-dot sights and a matte black finish weighing it at an amazing 25.6 ounces.

A perfect blend of technology and power in a small, lightweight package.

Model 4040PD

Compact  
.40 S&W  
SKU: 104414

# Pistols

## New American Classics

Model SW99 Compact  
Compact  
9mm  
SKU: 120210

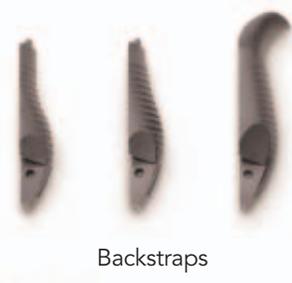

SW99 - A modern pistol for modern times, collaboratively designed and built by Smith & Wesson and Walther – two of the world's most historically accomplished handgun manufacturers.

A stainless steel barrel and slide built on a polymer frame combined with the ability to custom fit the gun to your hand make this pistol ready to meet the demands you will place on it. Modern striker firing system and traditional Double Action operation. Full size or compact, in 9mm and .40 S&W, or full size in .45 ACP.

The legacies of Horace Smith, Daniel Wesson and Carl Walther live on.

Model SW99  
Full Size  
.45 ACP  
SKU: 120206

## American Classics

### Rimfire

Seems like only yesterday that your father brought you to the range for the first time. Those sure were good times — just you, Dad and his Smith & Wesson®.

Smith & Wesson offers a full line of Rimfire pistols for shooters of all skill levels. And they're endorsed by shooters the world over because of their outstanding accuracy and dependability.

So, whether your game is making a tin can dance or cutting the ten-ring at 50 feet, there's a Smith & Wesson for you.

Memories aren't the only things that should last a lifetime.

# Performance Center

## New for 2004

When the world's most experienced and demanding shooters are in the market for a new handgun, they turn to the Smith & Wesson® Performance Center®.

The Performance Center produces limited run, unique design and special feature firearms. By combining old world hand craftsmanship and modern computer technology, they push the envelope of handgun design and engineering.

Performance Center handguns are the culmination of the history and innovation that is Smith & Wesson.

### Model 327

## Handguns

Before we made a gun specifically for women, we asked them what they wanted. Then we listened.

You may wonder if anyone else ever did.

This unique line of LadySmith® handguns features small and medium frame revolvers chambered in .38 S&W +P or .357 Magnum® and a compact 9mm pistol.

# Handcuffs

Fabricated from the finest quality carbon or stainless steel, our handcuffs, restraint chains and leg irons feature heat-treated internal lock works.

Double locks prevent tampering and smooth ratchets allow for swift cuffing, giving you an extra measure of safety. NIJ-approved strength with unmatched durability, Smith & Wesson leads the world in handcuffs and restraints.

## Model 1 Nickel

Model 1 Handcuffs are universal sized handcuffs. They open 12% larger and close 11% smaller than standard handcuffs.

Smith & Wesson can customize handcuffs to fit your agency's specifications. Whether you want a different chain length, mix-and-match cuffs, or special laser engraving, we're a one-stop shop for all of your unique requests.

# Custom Engraving

The artistic tradition of hand engraving Smith & Wesson firearms is as old as the company itself. Since 1852 we have offered one of a kind, hand engraved hand-

guns. Our master engraver will turn your favorite firearm into a collectable work of art commemorating a special date, event, memory or accomplishment.

You can have a design of your own or one you develop in collaboration with our master engraver beautifully engraved on the handgun of your choice, creating a family heirloom for generations to come.

Contact Smith & Wesson today at 1-800-331-0852 to discuss custom hand engraving today.

## Gunsmithing Services

The skilled craftsmen that engineer and build our Performance Center pistols also do complete after-market gunsmithing on all Smith & Wesson firearms. This work will not void the original factory warrantee.

We offer multiple work packages for older and new revolvers and pistols. Some of our Gunsmithing Services Include:

### Pistol (3rd Generation)\*

- Polish Ramp & Hood
- Tune Action
- Install New Magazine Springs
- Test Fire

### Master Revolver Action Job\*

- Install Trigger Stop
- Chamfer Charge Holes
- Polish Rebound Spring and Hammer Stud Boss
- Detail Lockwork Surfaces
- Stone Hammer and Trigger Contact Areas
- Polish Yoke Barrel Bosses

### Revolver Performance Package\*

- Check and adjust if necessary: Timing, B&C gap, forcing cone, hammer and trigger studs, hammer nose or firing pin, hammer nose bushing
- Weigh mainspring and rebound spring, check for end shake, clean lockwork

### Revolver Custom Carry Package

- Includes bobbed hammer for D.A. only
- Reset barrel and cylinder gap, chamfer charge holes, radius trigger
- Polish rebound, rebound spring, hammer stud boss, yoke barrel bosses, and forcing cone
- Detail lockwork surfaces
- Stone hammer and trigger contact areas
- Install trigger stop and duty action mainspring

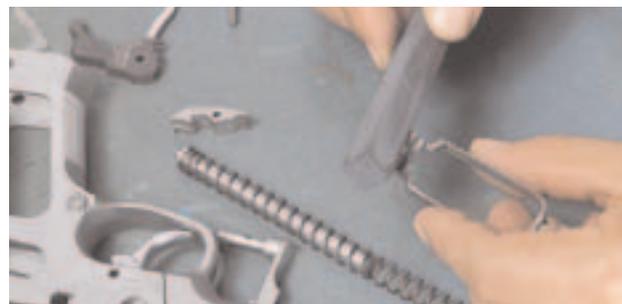

### Restoration Package (1958 and later)

- Re-blue, Re-nickel, or Re-polish stainless
- Install new lockwork
- Replace stud as needed

### \* Express Service Packages

*These packages are designed for unaltered guns 1990 or newer. Major components replacement such as Barrel, Cylinder, Frame or Slide cannot be done as Express Service.*

For more information about these and other Performance Center Gunsmithing Services, contact Smith & Wesson at 1-800-331-0852.

## Academy, Shooting Sports Center and Retail Store

### Academy

Established in 1969, the Smith & Wesson Academy is the nation's oldest private law enforcement training facility. The Academy has trained law enforcement personnel from all 50 states and over 50 foreign countries. Classes are conducted at the modern facility in Springfield, Massachusetts or on location around the world. The Smith & Wesson Academy offers state of the art instruction designed to meet the training needs of law enforcement worldwide.

For more information, contact (413) 846-6461.

### Shooting Sports Center & Retail Store

Members of the law enforcement community aren't the only ones that benefit from a trip to Smith & Wesson. Designed to support and enhance a variety of shooting activities, the Shooting Sports Center has multiple civilian training ranges, a 20 lane rental range and classrooms. Inexperienced to expert shooters can take classes to qualify them to receive a license to carry a pistol and to increase basic and advanced handgun proficiency.

The Smith & Wesson Retail Store, located inside of the Shooting Sports Center offers an extensive collection of authentic trademark apparel and accessories like shirts, jackets, and hats. The store is fully stocked with Smith & Wesson firearms, ammunition and related shooting supplies. It also offers logo items like knives, clocks and collectibles.

For more information contact (413) 846-6400.
