UNCLE BUD'S

The Industry Leader In -
Shooting Bags and Benches
GUARANTEED!

"I looked up over a large rock and there he was at 50 yards, starring right at me.....What a sight!! He was 12 years old and scored 172 5/8.
Blackstone and Uncle Bud's I Thank You,"
Randy Pittman

The best products produce the best results
Uncle Bud's - More than just a rest.

BULLS BAGS[®]

Best

The #1 Shooting Rest in the World

UNCLE BUD'S BULL'S BAGS

..... the **HEART** of our Shooting System !

Don't be fooled by
"Wanna - Be" imitations!

UB-1005

15"
Bench
Model

Patented Design

U.S. Patent #5,233,779

- 4 chamber butterfly design is self-tightening
- Holds your firearm like a vise
- Increases stability
- Reduces the amount of recoil felt by the shooter

UB-1001

9"
Field
Model

Why We're The Best

- Suede leather helps protect the finish of your firearm - increases friction
- You adjust to the feel you want
- One bag eliminates the need for a 2 bag system
- Does not affect your point of impact
- Two bag systems create 2 points of upward pressure and one point of downward pressure - creates flex in your shooting pattern
- Most compact, user-friendly and *effective* shooting aid in the industry

UB-1501

UB-1701

Different Styles for Different Needs

- Field model is 9 1/2" long - weighs approx 25 pounds filled with sand
- Bench model is 15 1/2" long - weighs approx 40 pounds filled with sand
- Both models are available in:

the Revolutionary

UDDER BAG

GREAT

UNCLE BUD'S UDDER BAG

..... the **READY TO USE** Shooting System !

UB-1905

Gross Typical 10pt 176
Net 172 5/8
Non-typical 16 pt 196 1/8
Alberta, Canada

Patented Design

U.S. Patent #5,875,580

- 2 chamber butterfly bag design is self-tightening when used with our adjustable steel alloy stand
- Uses friction rather than weight to hold your firearm securely
- Increases stability
- Reduces the amount of recoil felt by the shooter

UB-1901

UB-1901

Why We're The Best

- Suede leather helps protect the finish of your firearm - increases friction
- Shooting bags are pre-filled with sand for *immediate* use
- Steel stand is easily assembled for a complete shooting system with bag
- Same high quality features found in our original BULL'S Bags
- Lightweight yet provides a very secure, stable shooting platform

Different Styles for Different Needs

- Field model is 9 1/2" long - weighs approx 7 pounds filled with sand
- Bench model is 15 1/2" long - weighs approx 12 pounds filled with sand
- Both models are available in

UB-1901	UB-1905
- 500 denier Cordura Black

UB-1905

UNCLE BUD'S CSS - MORE THAN JUST A SHOOTING REST!

U.S. PATENT #'s: 5,233,779; 5,875,580; 5,884,966; 5,149,900

Improved ADVANCED SHOOTING BENCH

HI-TECH

UNCLE BUD'S PORTABLE SHOOTING BENCH
..... the **LIGHTWEIGHT** Bench Shooting System !!

UB-2000

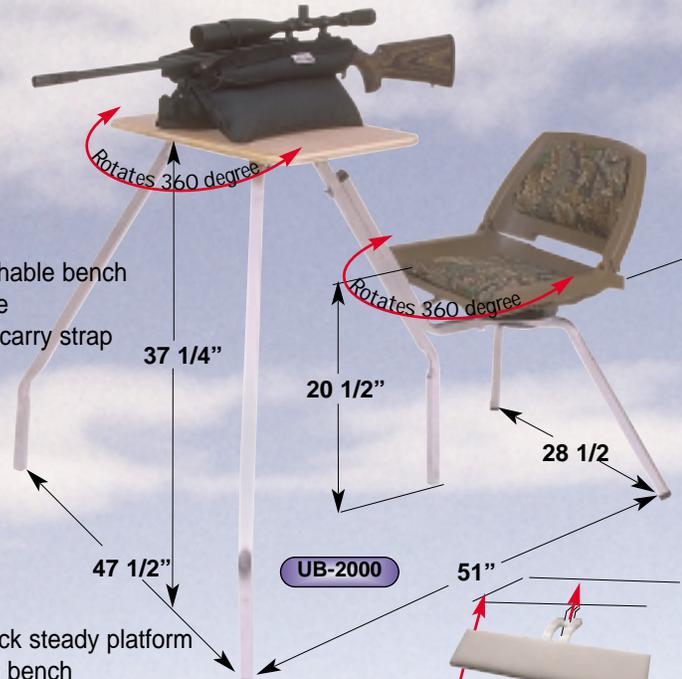

Patented Design

U.S. Patent #5,884,966

- High quality portable seat with detachable bench
- Increases stability due to wide stance
- Easy to fold and carry with attached carry strap
- Rotating Plywood top 16" x 24"

Why We're The Best

- Lightweight - (25 lbs) yet extremely stable for a rock steady platform
- Shooter's weight adds to the overall stability of the bench
- Folds out in seconds for quick set-ups
- Easy to transport when folded
- Extremely versatile - options available
 - **Bionic Arm** (Shown Below w/Terminator II) Adjustable Rest
Can be used with camera mounts or gun rest - Part #2011
 - **Forearm Rest** - Padded, Adjustable Rest - Part # 2015

Optional Forearm Rest
Moves up & down

UB-2015

UB-2000

TERMINATOR II

U.S. Patent #5,149,900

UB-2001

Why The Terminator II

- Lightweight - 16 lbs - yet extremely stable
- Folds out in seconds for quick set-ups
- Easy to transport when folded
- Extremely versatile - complete flexibility
- Bionic Arm moves into firing position quickly

 - **Add-On Bench Kit** (UB-2010) available to make our UB-2000 Bench Rest

UB-2001

UNCLE BUD'S CSS - MORE THAN JUST A SHOOTING REST!

U.S. PATENT #'s: 5,233,779; 5,875,580; 5,884,966; 5,149,900

Introducing the Revolutionary

NEW UB-2005 BAG

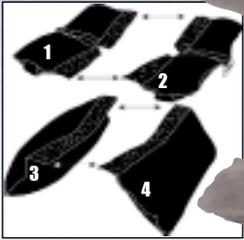

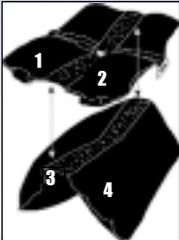

NEW

Uncle Bud's engineers have done it again!
Listening to comments from our customers,
we've designed a new MULTI-PURPOSE
bag for the millennium - and beyond!

UB-2005

This bag is sure to corner the market!

UB-2005

Our exciting new version of our successful BULL'S BAG offers you the ultimate in versatility. Our patented butterfly design - now with Velcro hinge in the center - allows you to separate or keep as one unit, any of the 4 compartments. Possibilities are endless - handgun, rifle, shotgun, heel and toe, shooting rest, see what you can come up with and let us know!

Filled with sand (all 4 units) this new bag weighs approx 32 lbs. This could be the last set of shooting bags you'll ever own!!

UNCLE BUD'S CSS - MORE THAN JUST A SHOOTING REST!

U.S. PATENT #'s: 5,233,779; 5,875,580; 5,884,966; 5,149,900

PISTOL REST SHOOTING BAG

NEW

If you own one of our Udder Bags w/frame, *Uncle Bud's* New PISTOL REST Shooting Bag provides you more!

- Purchase our Pistol Rest bag (Item UB-5050), already filled with sand and convert your Udder Bag frame to a Pistol Rest in seconds!
- If you don't already own an Udder Bag with frame, you can purchase the frame and Pistol Rest bag as a set (Item UB-5055). Bags come pre-filled to save you time!

UB-5055

- Uncle Bud's frames and bags provide a stable shooting platform with flexibility
- Allows you to configure different elevations for multiple shooting applications
- Pistol Rest bag and frame weighs ONLY 5 Lbs filled with sand!
- Pistol Rest bags come pre-filled with sand
- Bags are 500 denier Cordura nylon and suede leather for long life and good looks

Tan Rust pistol bags is for photo ONLY!
Pistol Bag comes in Black Cordura and Suede

ROTATING SWIVEL REST PLATFORM SHOOTING BAG

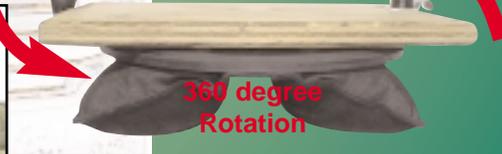

Look at the possibilities when you combine this 360 degree rotating rest with our Bull's Bags or Udder Bags w/frame.....

UB-1965

ROTATING SWIVEL REST PLATFORM (accessory)

Firing long hand guns at long distances has just been solved.

DODGE may have written the book on

RAM trucks, But **Uncle Bud's** wrote the book on **shooting off them!**

Rock Steady for those long shots.

- Conforms quickly to any surface
- Rock steady for those long shots
- Increased accuracy and flexibility
- Diversified for quick change in firing position
- 35 lbs when used with Field Bulls Bag
- 14 lbs when used with the Field Udder Bag
- Firing hand guns at long distances - no problem!
- Ultimate window bag for shooting varmints!
- Make those long range shots - from almost any position

Increased accuracy and flexibility

Conforms quickly to any surface.

QUICK SIGHT

The *Intelligent Secondary Sight Device*

Smart

The **Intelligent Secondary Sight Device**

UB-5500

QUICK SIGHT mounts on top of your scope. This leaves your scope down close to the barrel, where it belongs.

QUICK SIGHT uses light gathering pins. Because the pins are mounted on top of your scope, they gather all available light.

QUICK SIGHT can mount on your rifle scope or shotgun barrel.

QUICK SIGHT comes with orange and green pins for front and back, as well as "U" and "V" shaped back pins.

QUICK SIGHT is the intelligent sighting device for low light, or when game is too close to find in the scope.

NEW Binocular Strap

Uncle Bud's makes available another "best in its class"

UB-6091

Uncle Bud's Binocular Strap holds your binoculars securely against your body, allowing you to move freely without your binoculars bouncing around!

- You can quickly access your binoculars by simply stretching the elastic bands while pulling the binoculars to your eyes.
- Also works great with cameras.

GETTING YOUR TROPHY REQUIRES SOME SMART CHOICES...

Whether you choose our Bull's Bags; Portable Shooting Bench; Terminator II; Udder Bags and Frames; New Millennium Bag; Pistol or Window Rests; Quick Sights or Binocular Straps -
