
US M3-A1 "GREASE GUN" .45 CAL SEMI-AUTO

- A faithful re-creation of the venerable M3-A1, using several original USGI parts. Each gun comes with one 30 round magazine.
- Includes a new 16.5 inch barrel and a wire stock welded open for compliance with current gun laws.
- A dead ringer for the original in shape and weight.

- *The O.S.S. version -- hide that long barrel with a dummy suppressor!*

- Short display dummy barrels are also available. We can also work with you to register your M3A1 with BATF as a short-barreled rifle (SBR).

BROWNING 1919 A4 .30 CAL

- Designed for semi-automatic operation only.
- Complete package includes tripod, T&E, pintle, operations manual, and 200 links.
- All USGI parts reconditioned to as new
- Guaranteed to function perfectly with mil-spec ammo.
- BATF approved design.
- Transfers on a 4473 Yellow Form. No tax stamp required.
- Available .308, 30-06, or both calibers.
- A6 configuration available.
- Guaranteed to be the most reliable, authentic M1919 semi-auto available.
- Functions with metal links or cloth belts.

Because of our involvement with new products, our production of M1919-SA's will be reduced. Order yours early !

INTRODUCING NEW PRODUCTS

Sten Mark II and Mark III semi-auto firearms.

One of the newest Valkyrie Arms product offering is in pre-production and we are now accepting orders.

Using most original parts, our new production semi-auto Sten is available in both MKII and MKIII variations. A MK 5 model is also planned in the near future.

The MKII will also include a dummy display barrel in addition to the regular barrel.

All models will comply with BATF guidelines.

Introducing the DeLisle Sporter Carbine

Short-action rifle with 16½ inch barrel; uses standard .45 caliber 1911 magazines. Red Dot sight included.

THE DELISLE COMMANDO CARBINE® .45 cal. Bolt-action, Silent Carbine

Designed to be a truly silent weapon, the DeLisle is considered by many to be the most effective firearm of its type ever produced.

With only 167 originally produced, the DeLisle is one of the rarest of the WWII firearms. Now, for the first time, collectors can own one.

Using original blueprints, our DeLisle is a dead-ringer for the original. Every detail has been painstakingly reproduced, to make a truly authentic collector's piece.

Also available with dummy suppressor, for non-Class III states.

Introducing the DeLisle 2000

An updated version of the DeLisle Commando Carbine.

Folding stock, pistol grip, regular .45 cal 1911 mag.

Weaver rail for scope or red dot sight. Includes red dot sight.

Includes state of the art suppressor.

CUSTOMER FEEDBACK

"I took my new M1919-SA out to the range this weekend - 3,000 rounds without a hitch! You can use me as a reference for your guns anytime."

Terry Dyer - Machine gun gunsmith

"Words to describe my M1919-SA? impressed, way cool, unbelievable - and none of those words do it justice."

Lloyd D. - Gunsmith

"Nicest copy [of the DeLisle] that I've ever seen."

Herb Woodend, Former Director of the British Pattern Room at Enfield Lock, England

"[DeLisle] works unbelievably well; most noticeable sound is 'thump' of the 230 grain projectile hitting target."

Ian Skennerton on his website at www.skennerton.com

"I feel your company fills a void for the collector who cannot obtain a fully automatic weapon ... and will try to steer any business I can your way. Thank you."

Tom P.

"I received my gun last week and it was more than I expected. The finish, look, and feel are classic. Thanks for a beautiful weapon."

Mike M.

Northridge, CA

"I got to fire my .50 on Christmas eve morning - it worked perfectly! I really, really enjoy the gun. Thank you!"
