# American Security

## The Industry Leader for over 50 years.

*American Security Products is the world's best-known provider of security safes and security solutions.* Since 1948 we have protected the assets of our clients throughout the world by providing a broad array of safes and consulting services with the highest degree of quality,

integrity and responsiveness. Customers have trusted AMSEC safes for generations.

*The quality of an AMSEC safe starts with our design.* The design of each AMSEC safe draws on over 50 years experience on protecting the physical assets of our customers. There aren't many criminals with over 50 years of experience, so we think that gives us the advantage. After designs are completed, each safe undergoes the industry's most comprehensive testing program. AMSEC uses independent agencies, such as Underwriters Laboratories, to put our designs to the test.

We maintain the tightest tolerances and highest standards of fit and finish in the industry.

*Next, we use the latest in technology.* We have been providing safes and security solutions to the banking industry since 1948. This type of high security technology is built right into our gun safes. Before the American Security name is attached, each safe must undergo a rigid 28-point inspection.

# Products Company

We produce over 60,000 safes each year and we take protecting our customers' assets very seriously. That's how we got to be the largest security safe manufacturer in the world, and that's why you can't buy a better gun safe than an American Security safe.

***Our commitment doesn't end there.*** We have built our company on the commitment to offer the best service in the industry which will insure that AMSEC remains the industry leader. Our corporate center is staffed with highly trained customer service representatives and our service department is supported by 7,500 factory trained technicians throughout the world. Technicians are available 24 hours a day, 365 days a year, to answer questions and help solve problems with any safe shipped anywhere in the world.

***Simply put, our reputation is built on product design, innovative technology, and the best support in the industry.***

It has worked for us for over 50 years and it ensures you complete customer satisfaction. The choice is easy:

***American Security—the best in the business.***

Look for this symbol to find American Security Safes that are Proudly Made in the U.S.A.

# We Stand Behind

In 2003, the National Fire Protection Association (NFPA) reported that there were 402,000 home fires in the United States accounting for over \$6 billion in property damage.

American Security Products Co. is highly acclaimed for offering the industry's best fire protection. We manufacture the industry's broadest range of fire rated products ranging from Underwriter's Laboratories (U.L.) Listed 1 and 2 hour fire safes to our Mercury Class I, Class II and Class III fire protected gun safes.

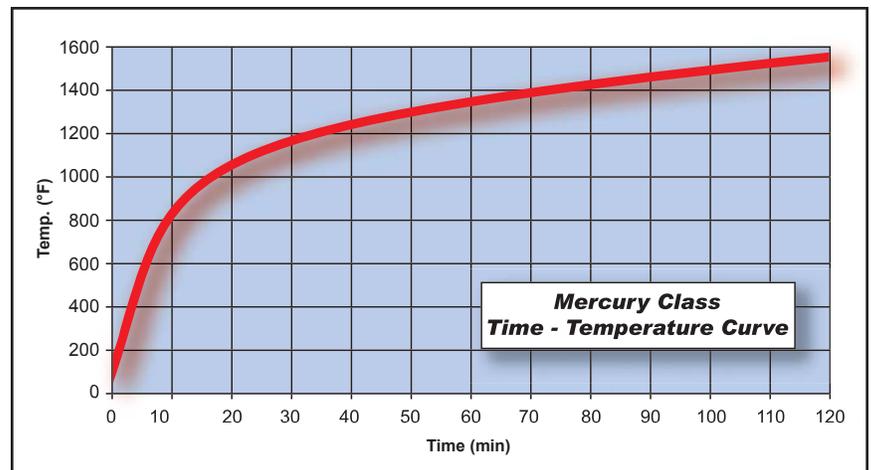

## American Security Products Stands Up to the Heat

Below are actual photos from a recent house fire where the homeowners had their valuables protected by an American

Security Safe. As you can see, the valuables inside remained intact. Even the family photo album was unharmed.

American Security Products Co. gun safes offer the level of fire protection you need to safeguard your valuables. Our HS series features a massive 2" to 3 1/2" body and 2 3/4" door filled with a proprietary high security fire resistant material, offering Class III fire protection. Our BF Series features a massive 2" body and 4" door filled with a proprietary DryLight fire resistant insulation, offering Class II fire protection. The LP Series features a multi-layer insulation with 1 to 3 layers of 5/8" fireboard construction (1 to 2 layers of 3/8" on model 5517), offering Class 1 fire protection.

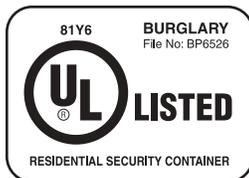

# Our Craftsmanship

\*Each safe is designed to maintain an interior temperature less than 350°F. Paper products will char at approximately 405°F.

### Burglary Ratings

(Underwriters Laboratories (UL) testing is performed on a non-profit, impartial basis for the purpose of consumer safety.) AMSEC gun safes

that proudly display the UL Residential Security Container (RSC) burglary classification demonstrated the ability to withstand rigorous prying, drilling, punching, hammering, chiseling, and tampering attacks performed by today's most experienced UL expert technicians.

### DOJ Safety Ratings:

Most of our Gun Safes meet or exceed the standards for California-approved Firearms Safety devices and the requirements of California Penal Code Section 12088, Gun Safe Standards. This includes the HS, BF and LP Series and our Smith & Wesson Home Security Safes.

This safe meets or exceeds the standards for California-approved Firearms Safety Devices and the requirements of California Penal Code Section 12088, Gun Safe Standards

### Intumescent Door Seal

Most of our HS, BF and LP Series safes come with a Palusol Intumescent Door Seal. When the intumescent seal is exposed to high temperature (above 250°F), it expands to as much as 8 times its original thickness. In this expanded or reactive state, it has very high thermal insulating capacity and resistance to breakdown. This provides a strong positive seal between the door and body, preventing heat influx.

## SE6831

SE6831-LG-F-PW-A

### Distinctive Style

Interior is fully upholstered in a handsome desert prophecy suede fabric.

Diamond-stitched door panel with built-in mirror.

Interior is automatically illuminated with lights when door is opened.

Full-length mirrored back panel enhances interior.

Outside features a spy-proof key locking dial and decorative 5-point handle in brass or chrome.

12 Gun Interior Configuration shown

### Fire Protection

Fire rated at 1550°F for a period of 2 hours. Designed to maintain an interior temperature of less than 350°F.

Massive 2" thick body and 2<sup>3</sup>/<sub>4</sub>" door is filled with a proprietary fire resistant material ensuring the contents remain safe.

Palusol™ door seal expands up to 8 times its original thickness when exposed to high temperatures.

### Unsurpassed Security

Equipped with a U.L. Listed Group II lock protected by a massive drill shattering hard plate and two additional spring-loaded relocking devices.

12 Massive 1<sup>1</sup>/<sub>2</sub>" diameter brass plated solid steel locking bolts provide superior door security.

Defense barrier of inner and outer steel plates filled with a fire insulating material to withstand concentrated attacks.

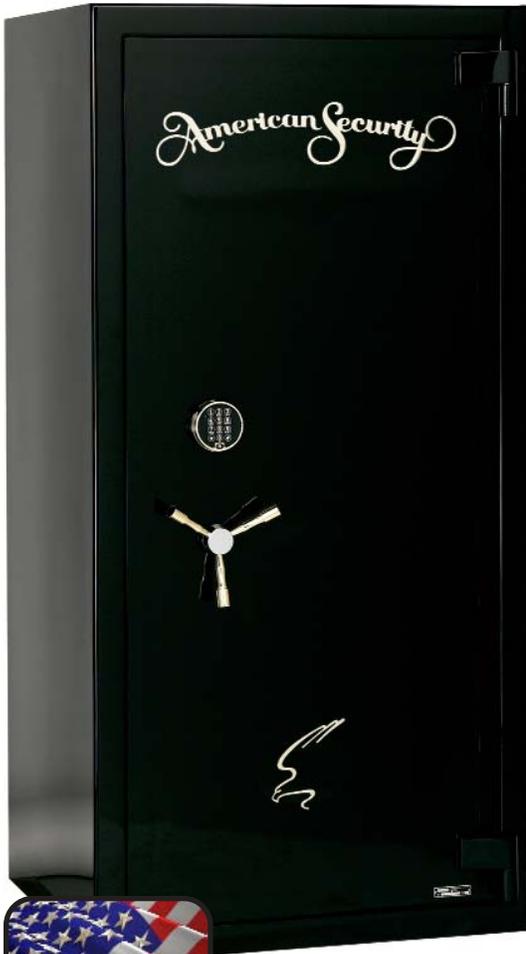

# Series - High Security

## RF6528

The Only Tool Resistant Gun safe in the Market Today

RF6528-LG-F-OX-A  
(w/optional S&G  
electronic lock)

Massive 3<sup>1</sup>/<sub>2</sub>" body and 2<sup>3</sup>/<sub>4</sub>" door built with a defense barrier of outer and inner steel plates creating a single structure enclosing a unique, burglary resistant high security material.

### Distinctive Style

Upholstered in our standard plush tan pin-dot fabric.

Outside features a spy-proof key locking dial and decorative 3-point handle in brass or chrome.

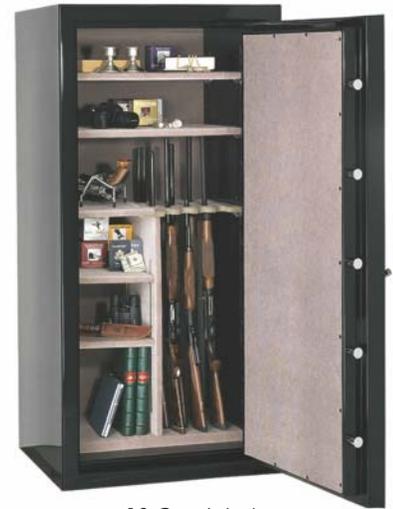

### Fire Protection

Fire rated at 1550°F for a period of 2 hours. Designed to maintain an interior temperature of less than 350°F.

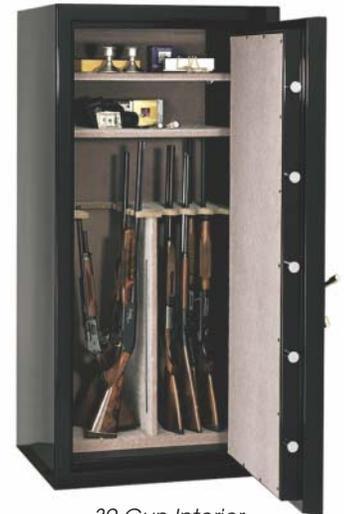

Massive 3<sup>1</sup>/<sub>2</sub>" thick body encloses a high security fire resistant material to protect against intense fires.

### Unsurpassed Security

U.L. Listed burglary resistant TL-30 model is built to withstand severe attacks from the sophisticated equipment used by today's burglars.

18 Gun Interior  
Configuration shown

30 Gun Interior  
Configuration shown

Equipped with a U.L. Listed Group 2M lock protected by a massive drill shattering hard plate and two additional spring-loaded relocking devices.

10 Massive 1<sup>1</sup>/<sub>2</sub>" diameter chrome plated solid steel locking bolts provide superior door security.

This safe meets or exceeds the standards for California-approved Firearms Safety Devices and the requirements of California Penal Code Section 12088, Gun Safe Standards

*Note: Due to substantial weight of this safe, AMSEC can arrange for delivery service to your home, including installation.*

# The Most Unique Gun Safe Line In the Industry

## Real Security:

### Safe Body:

Body encloses a proprietary DryLight insulation eliminating the use of gypsum board. (1)

2" total wall thickness on all sides. (1)

Two layers of steel consisting of an outer and inner steel liner for dual security protection. (1)

4 pre-cut anchor holes and 1 pre-cut electrical access hole.

Awarded the U.L. Residential Security Container (RSC) burglary classification.

### Safe Door:

1/2" steel plate door combined with 1" DryLight insulation. (2)

10 massive 1 1/2" thick locking bolts to provide superior door security. (3)

Commercial grade high security exterior hinges for additional security and full access to the elegant interior. (hinge shown in brass for visual purposes only. Actual hinge will be painted same color as the safe.) (4)

Equipped with a U.L. listed group II lock protected by a massive hardplate. (5)

Bolt detent system holds bolts in the open position preventing damage to bolt work & body.

## Unmatched Fire Protection

Mercury class II fire protection of 1275 degrees for 90 minutes. Designed to maintain an interior temperature of less than 350 degrees.

New DryLight insulation is poured between inner and outer steel walls for premier fire protection.

Dual fire seals around entire door. Silicon seal on door jamb & palusol seal on door giving the door a snug fit with added fire protection. Palusol seal expands up to 8 times its original thickness when exposed to heat.

## DryLight Insulation

American Security Products' DryLight (trademark pending) is an advanced poured concrete insulation material that provides a dry and seamless barrier to protect valuables against intense fires and burglary attacks.

# Series - Burglary/Fire

## Quality Style Throughout

Unique mirrored back wall in the interior of the safe providing higher interior visibility (6)

Bold zinc die cast polished brass or chrome logos (7)

Spy-proof key locking dial with decorative three spoke handle (5)

Interior shelves fully upholstered in a plush velour fabric (8)

Interior shelving can be adjusted to meet your unique storage needs (8)

Interior door panel finished in a fully veloured material

Select from four hand-painted high-gloss and four textured finishes

BF6030-LG-F-BY-A  
w/optional S&G 6120  
electronic lock

Proudly displayed decorative  
zinc die-cast American Eagle  
emblem on lower portion of door

BF7240-LG-F-OX-A  
Standard interior color: Tan

BF6030-LG-F-HG-A

Awarded the UL Residential Security Container (RSC) burglary classification, the BF features a massive 4 $\frac{3}{4}$ " thick door consisting of 1/2" solid steel and an inner steel liner enclosing a unique proprietary fire and burglary resistant material.

  
 This safe meets or exceeds the standards for California-approved Firearms Safety Devices and the requirements of California Penal Code Section 12088, Gun Safe Standards

## LP6032W & LP5924W

LP6032W-LG-F-BK-A

Attractive and durable  
American Oak wood  
finish interior

### Distinctive Style

The quality packed, affordably priced LP series offer an unbeatable value, featuring a rich velour back cover and fire walls with durable American Oak wood finish interior

Black textured finish with bold zinc die cast polished brass logos.

Spy-Proof dial and "L" handle.

External hinges easily provide full access to your safe.

LP5924W-LG-F-BK-A

### Fire Protection

The LP6032W and LP5924W offer fire protection of 1200°F, for a period of 45 minutes. Designed to maintain an interior temperature of less than 350°F.

Palusol™ door seal expands up to 8 times its original thickness when exposed to high temperatures sealing safe contents from harm.

### Theft Defiant

Awarded the UL Residential Security Container (RSC) burglary classification.

High strength unitized 12 gauge solid steel body.

Massive 1<sup>3</sup>/<sub>4</sub>" recessed door constructed of a 1/4" solid steel plate and a fire insulating material.

Equipped with a 3 wheel combination lock protected by a drill resistant hard plate. (U.L. listed Group II combination or electronic lock available)

3-way boltwork with 5 active 1<sup>1</sup>/<sub>4</sub>" diameter chrome-plated steel locking bolts and three 1<sup>1</sup>/<sub>4</sub>" deadbolts.

Each safe offers 4 precut anchor holes and 1 precut electrical access hole.

This safe meets or exceeds the standards for California-approved Firearms Safety Devices and the requirements of California Penal Code Section 12088, Gun Safe Standards

# Series - Low Profile

## HC1854-HCC

Attractive tan cushion and wood cabinet conceals the horizontal safe discreetly and can be used as a comfortable bench seat in a bedroom, office or den.

Assisted by two hydraulic gas pistons, the door opens and closes gently.

Available in oak or cherry finish. (*cherry finish pictured*)

Inside lined with plush tan velour fabric.

Mercury Class I fire at 1200°F, for a period of 45 minutes. Designed to maintain an interior temperature of less than 350°F.

High strength double wall unitized 14 ga. body and a 3/4" thick formed door.

Group II lock and front read dial protected by a drill resistant hardplate.

5 one-inch chrome-plated steel locking bolts.

Outside Dimensions include wood cabinet: 22 1/2"H x 56 3/4"W x 24 1/4"D

## 5517W

The quality packed, affordably priced 5517 offers an unbeatable value.

Fully carpeted interior includes one adjustable shelf, an eleven-gun storage rack and vinyl floor mat.

Brass spy-proof dial with decorative brass "L" handle accompanied by the renowned American Security Products solid brass logo plate.

Durable black powder coated finish.

Sleek style is designed to fit into a closet.

Mercury Class I fire at 1000° F, for a period of 20 minutes. Designed to maintain an interior temperature of less than 350°F.

Fire-resistant door seal.

High strength unitized 12 ga. body and 1/4" thick solid steel recessed door.

3-way boltwork with five active 1" diameter chrome-plated locking bolts

Equipped with a 3 wheel combination lock protected by a drill-resistant hard plate.

2 pre-cut anchor holes with mounting hardware included, and 2 pre-cut electrical access holes.

### LP5517 LIMITED WARRANTY

1-year parts and labor.  
Beginning from the date of first consumer purchase. Proof of purchase necessary.

This safe meets or exceeds the standards for California-approved Firearms Safety Devices and the requirements of California Penal Code Section 12088, Gun Safe Standards

## Home Security Safes

SW3020

# Smith & Wesson® Home Security Safes

## Handgun Safes

### SWPB1 & SWPB2:

AMSEC "5BE" electronic push button lock is fast and easy to use.

Replaces high cost mechanical lock alternatives with higher reliability.

Easy change combination with programmable override code for lost combinations.

9 VDC battery provides over 5000 openings with low battery indicator.

External auxiliary battery connection

Tamper proof penalty lockout protects against manipulation attempts.

LED status and beeper can be programmed on - off.

S&W deep blue finish with chrome hardware.

Interior cushioned with foam lining to protect gun from scratches.

Constructed of 16-ga. steel, model SWPB1 body constructed of 18-ga. steel.

Strong, pry resistant custom brass locking bolt

Bolt holes provided to anchor safe

### SWPB48:

Constructed of 14-ga. steel — the heaviest in the industry.

Push button combination lock offers quick entry capabilities.

Deep blue with chrome hardware.

Interior cushioned with foam lining to protect your gun from scratches.

### VersaVault (SWVV1024):

Electronic lock with four button lighted keypad offers more than 65,000 possible combinations.

Key override system.

Designed to be secured for either vertical or horizontal installation with the steel mount plate.

Additional mount plates are available to secure valuables in transit or other locations.

A unique removable internal holster presents firearm for rapid response.

Internal illumination, tamper alarm and low battery indicator are standard.

### Handgun Safe Specifications

# Vault Door

## Specifications

Model	Outside	Door Opening:	Wt.
VD8030	83 <sup>1</sup> / <sub>4</sub> "H x 36 <sup>1</sup> / <sub>2</sub> "W	77 <sup>1</sup> / <sub>2</sub> "H x 26 <sup>1</sup> / <sub>2</sub> "W	395

As time goes on, all collections grow. Not just guns, but personal heirlooms, business and family records, jewelry, photographs and works of art. Instead of buying three different safes over a lifetime, the AMSEC vault door turns your room into a security center. It is designed for easy installation that retrofits a standard 80" x 30" opening.

Massive 1" door offers a defense barrier constructed of 1/8" inner and outer steel plates filled with a fire insulating material that provides a barrier against extreme heat. Select from four textured finishes.

Each vault door offers elegant scrollwork and pinstripes accompanied by the renowned American Security logo.

Brass spy-proof key locking dial with decorative 3-point handle is standard.

5 massive 1<sup>1</sup>/<sub>4</sub>" thick active bolts, with 5 deadbolts you can rest assured that your valuables are protected. (Note: no deadbolts required on inswing door).

Safety Lock Release: In case the door closes behind you, this safety feature allows you to exit the vault quickly.

Minimum opening required: 79<sup>1</sup>/<sub>2</sub>"H x 29<sup>1</sup>/<sub>2</sub>"W

**Make your vault room double as a storm shelter with our in-swing vault door. Offering the same features as our standard vault door, the in-swing vault door will insure opening from the inside even if debris has blocked the door.**

## Upgrade to the "Premium" package

When you choose to upgrade your American Security HS or BF series safe with a "Premium" package, we'll add on some of our most popular options including:

- a) our rich pin dot interior fabric,
- b) a 5-point handle,
- c) fluorescent light kit,
- d) a GunSaver dehumidifier,
- e) an attractive jewelers tray and
- f) an internal power outlet

# ns and Accessories

## Other Options

Choose from a variety of options to add on to your safe.

### GunSaver Dehumidifier

Will constantly guard your guns against the threat of rust, pitting and moisture damage. Electrical access required.

### Pistol Rack

This four gun pistol rack is ideal for organizing pistols inside your safe.

### Desiccant

Prevents rust & moisture damage. Recommended for safes without electrical access.

### Jewelry Tray

Tray conveniently fits into every safe. Burgundy felt lined. 1<sup>5</sup>/<sub>8</sub> x 9<sup>5</sup>/<sub>8</sub> x 11<sup>5</sup>/<sub>8</sub>

### Oak Cabinet

Convenient oak cabinet for easy storage, fits 12-18-30 or 12-18-24-30-42 interiors. Includes easy out access gun rack with 12-18-30 interior. O.D. 34 x 10<sup>3</sup>/<sub>4</sub> x 17<sup>3</sup>/<sub>4</sub>

## Electronic Lock Options

For quick and easy entry, an electronic lock is the choice to make. Locks are powered by batteries located in the dial and you can change your combination.

Electronic Lock options are only available on the BF® line, HS line and the Vault Door.

### AMSEC

AMSEC's Model ESL10 is available in both brass or chrome finish

## Sargent & Greenleaf

Sargent & Greenleaf #6120 round keypad in brass or chrome finish

Sargent & Greenleaf #6120 EZ keypad in brass or chrome finish

### LaGard

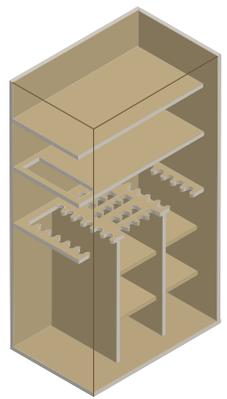

LGBASIC in brass or chrome finish
