On the 150th anniversary of our founder's birth, we, as a company, honor the man and the legacy that spurred the growth and advancement of the firearm industry into what it is today.

From his first production rifle, the Model 1885 Single Shot, to his final invention, the Superposed over and under shotgun, John Moses Browning revolutionized the way firearms were designed, built and used. Having registered 128 patents on more than 80 different firearms, Browning contributed more to firearm innovation than any other man in history.

Even at an early age, Browning demonstrated his zeal for gunmaking, building his first firearm at the age of ten. By the age of 23, he had already designed and built his first production rifle, the Model 1885, one of the most successful single shots ever made. His dedication to designing and developing firearms continued even to his death, as he was finishing his last invention, the famed Superposed.

Hunters and sport shooters have benefited from the designs of John M. Browning for decades, enjoying such classics as the Auto-5, the Semi-Auto 22 and Winchester Models 86, 92, 94, 95

and 97. In addition, his military inventions include the BAR, .30- and .50-caliber machine guns, the 37mm aircraft cannon and the Colt 1911 pistol, all of which were pivotal instruments in many of the conflicts of the 20th century.

Browning's legacy continues today inside the walls of the Browning Arms Company in Morgan, Utah — a mere 15 miles from his first workshop. Inspired by the work of our founder, we continue to design and develop the most revolutionary and finely crafted firearms in the industry.

We know John Browning would be proud of the company today. His lifetime of enthusiasm and dedication to firearms innovation lives on in the designs of the present. The Citoni, A-Bolt, Gold, BPS and now the Cynergy have all been inspired by the work of a man who was far ahead of his time. As a company we remain dedicated to his memory, his commitment and his work ethic.

Men like John Moses Browning are rare. Fortunately, they leave a rich legacy and tradition of excellence behind. It is this spirit of innovation, dedication, and commitment to high quality firearms that makes us *The Best There Is*.

**JOHN M. BROWNING,  
AMERICAN GUNMAKER BIOGRAPHY**

*John M. Browning, American Gunmaker* is the authentic biography of the man many have called "the world's greatest gun inventor." This unique look at the life of John M. Browning chronicles the gunmaker's work, covering his early years as a young man working at his father's shop, through his many inventions and patents that revolutionized the firearms industry. The book contains a 100-page photographically illustrated technical section that describes, in detail, all of John M. Browning's inventions. This is a great addition to any book collection, particularly for gun enthusiasts, historians and fans of the Browning name.

# CYNERGY TAKING THE INDUSTRY BY STORM — AND ALL OF THEIR AWARDS ALONG THE WAY.

Lauded and applauded, acclaimed and critiqued, no other shotgun has caught the attention of the hunting and shooting industry like the Cynergy did in 2004. As such, the Cynergy was honored with a host of awards, including the prestigious "Shotgun of the Year" award from the Shooting Industry Academy of Excellence. Awards like these don't come by resting upon the laurels of the past. Innovative components, advanced technology, precision balance and sexy good looks all brought the Cynergy to where it is today — the leading-edge shotgun for this century. And for 2005, we are proud to continue this award-winning line with the introduction of the Cynergy in 20 and 28 gauges. The trimmed down stock dimensions and extremely low profile receivers of these new shotguns will surely find the same praise their predecessor enjoys. When form and function come together, when innovation and ingenuity are integrated, you'll find the Browning Cynergy.

## « MONOLOCK HINGE »

The ingenious MonoLock Hinge system is the reason behind Cynergy's low profile receiver — and its strength. The MonoLock Hinge is the integration of the traditional mono-block and the hinge. The MonoLock hinge has significantly more surface area to pivot on, resulting in less wear over time. Rectangular locking pins provide additional strength and feature a unique, Wear-In Relief component that allows wear without hindering lock-up.

The MonoLock Hinge also gives the Cynergy the lowest profile receiver of any over and under shotgun. This innovative design places the barrels in correct alignment with the shooter, making the shotgun a natural, fluid extension of the body. Improved ergonomics enhance shouldering and hand/eye coordination, while reducing felt recoil and muzzle jump.

## « IMPACT EJECTORS »

Browning Impact Ejectors ensure solid ejection of empty shells from the chambers. The ejector is aided by the impact of a second striker spring, which gives more positive ejection than the push imparted on competitors' ejectors. The automatic ejectors positively eject fired shells when the breech is opened. Unfired shells are elevated for easy removal.

## « SAFETY »

Manual thumb safety, combined with barrel selector mechanism.

## « ADJUSTABLE COMB »

Composite Sporting and Composite Field models include an integrated, adjustable comb system to allow the gun to be easily customized to your dimensions. Drop at comb adjustments are made in 1/8" increments. For customization of cast on/cast off, accessory combs can be purchased.

« CHROME CHAMBERS » Cynergy shotguns feature long-wearing, corrosion resistant chrome-plated chambers.

« CHOKE TUBES » 12 and 20 gauge Cynergy shotguns include the interchangeable Invector-Plus™ choke tube system. 28 gauge Cynergy shotguns include the Standard Invector™ system. Choke selection can be customized for the gun's intended purpose (field, sporting, etc.). A broad range of excellent patterning chokes are available, for information see page 102.

« SAFETY LOCK » All Browning firearms are shipped with a free trigger lock, cable lock, padlock or chamber lock depending on model, to assist in the safe storage of firearms.

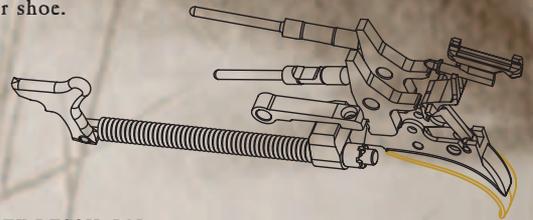

## « BACK-BORED BARRELS »

12 and 20 gauge Cynergy shotguns feature lightweight, back-bored barrels. These barrels have a bore diameter increased to its maximum specification. This reduces the friction of the shot charge against the barrel wall, resulting in increased shot velocity and reduced recoil. Additionally, because there is less constriction or pressure from the forcing cones on a shot charge, there are fewer deformed pellets which leads to more uniform patterns than with standard barrels. Ported barrels are featured on Cynergy Sporting models in 12 and 20 gauge. Barrel porting works in conjunction with the low profile receiver to further reduce felt recoil and muzzle jump. These reductions serve to increase shooting comfort and improve follow-up shot speed and accuracy.

## « MECHANICAL TRIGGER »

Cynergy shotguns feature the Reverse Striker — a striker-based, mechanical trigger system. The mechanical trigger offers the benefits of crisper feel, shorter locktime and less overtravel. This innovative, incredibly fast system outperforms the traditional hammer trigger systems found in most over and under shotguns. Cynergy Sporting shotguns also come equipped with the Triple Trigger™ System, which allows the shooter to adjust the length of pull and switch between a wide checkered, a narrow smooth and a wide smooth canted trigger shoe.

## « INFLEX RECOIL PAD »

Defying recoil pad tradition, the Browning Inflex Recoil Pad system succeeds in styling, versatility and recoil absorption. Inflex is an integrated part of the shotgun, rather than an afterthought. The deep Inflex pad provides long travel recoil reduction for a massive 25% decrease in felt recoil. A slick Parylene coating allows the recoil pad to remain soft, yet prevents the pad from snagging on clothing. Three pad lengths are available in 1/2" increments to provide an impressive length of pull adjustment to fit a wide variety of shooters. A 1/4" spacer is also included for further customization.

# CYNERGY SMALL GAUGE

20&28

The term "low profile receiver" just took on a new meaning with the introduction of the Cynergy in 20 and 28 gauge. With scaled down dimensions to match the smaller gauges, these new over and under shotguns offer a sleek, ultra-thin design that makes for perfect balance and exceptional handling. Whether in the pheasant fields or at a sporting range, this six and a half pound engineering marvel will win the hearts of all who handle it. Like the 12 gauge that came before, the 20 and 28 gauge models feature the innovative MonoLock hinge, recoil-reducing Inflex recoil pad, Reverse Striker mechanical trigger and racy good looks that made the Cynergy the talk of the industry. Take a new 20 or 28 gauge in hand: finding a better fitting, faster handling small gauge over and under might just be impossible.

*New*

## CYNERGY SPORTING SMALL GAUGE

GAUGES: 20 | 28 » OIL FINISH

CHOKES INCLUDED: FULL, MODIFIED, IMPROVED CYLINDER

The luxurious Grade III/IV walnut stock and forearm add to the aesthetics of this extremely lightweight shotgun. The thin, sleek design of the low profile silver nitride receiver places the barrel in correct sight alignment with the HiViz® Pro-Comp front sight and white mid bead. The interchangeable Inflex Recoil Pad with a slick Parylene coating and the striker-based mechanical trigger system make shooting a pleasure. Three new Diana Grade choke tubes are included. The 20 gauge (shown) features ported barrels.

**CYNERGY FIELD SMALL GAUGE**

[ B ]

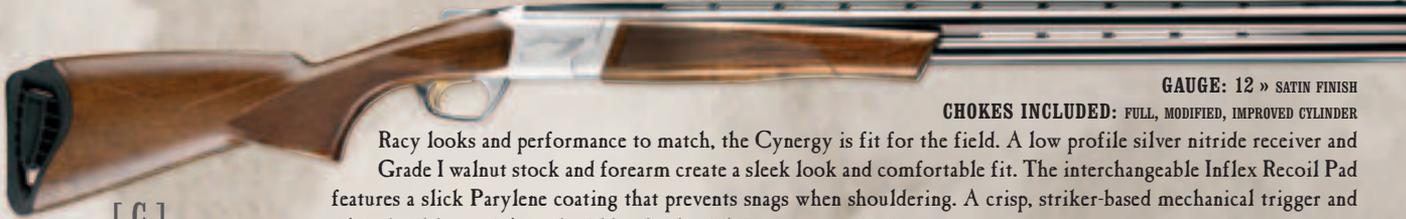

GAUGES: 20 | 28 » SATIN FINISH

CHOKES INCLUDED: FULL, MODIFIED, IMPROVED CYLINDER

At a mere 6½ pounds, the new 20 and 28 gauge Cynergy shotguns are an upland hunter's delight. The low profile silver nitride receiver creates a thin, sleek design unseen on any other shotgun. The interchangeable Inflex Recoil Pad reduces recoil and features a slick Parylene coating that prevents the pad from snagging on clothing. A striker-based mechanical trigger system offers crisp and quick trigger pull, while a white bead front sight and mid bead help with target acquisition.

**CYNERGY FIELD**

[ C ]

GAUGE: 12 » SATIN FINISH

CHOKES INCLUDED: FULL, MODIFIED, IMPROVED CYLINDER

Racy looks and performance to match, the Cynergy is fit for the field. A low profile silver nitride receiver and Grade I walnut stock and forearm create a sleek look and comfortable fit. The interchangeable Inflex Recoil Pad features a slick Parylene coating that prevents snags when shouldering. A crisp, striker-based mechanical trigger and white bead front sight and mid bead aid quick in target acquisition.

**CYNERGY FIELD, COMPOSITE**

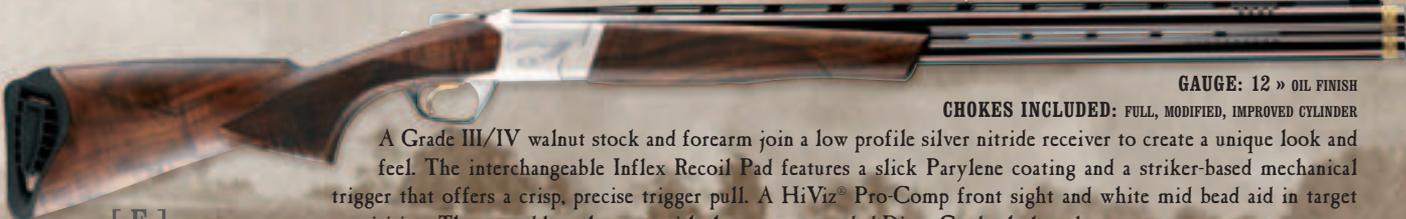

[ D ]

GAUGE: 12 » NON-GLARE COMPOSITE FINISH

CHOKES INCLUDED: FULL, MODIFIED, IMPROVED CYLINDER

A weather-resistant, lightweight composite stock and forearm feature grip enhancing rubber overmoldings, which fit perfectly with the low profile silver nitride receiver. A slick Parylene coating on the interchangeable Inflex Recoil Pad prevents snags when shouldering. An adjustable comb creates a custom fit, while the striker-based mechanical trigger and white bead front sight and mid bead make shots accurate and quick.

**CYNERGY SPORTING**

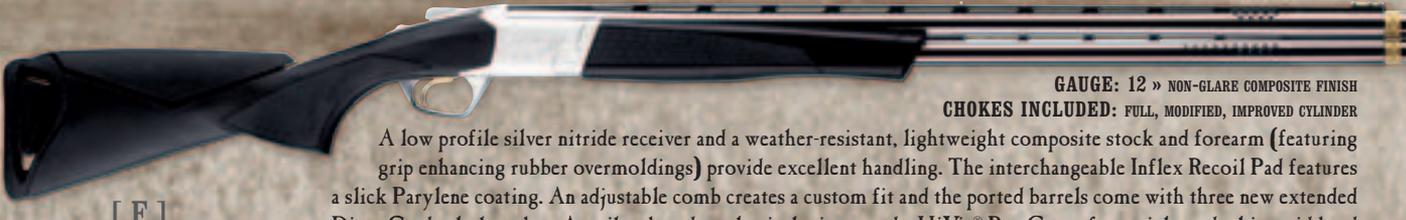

[ E ]

GAUGE: 12 » OIL FINISH

CHOKES INCLUDED: FULL, MODIFIED, IMPROVED CYLINDER

A Grade III/IV walnut stock and forearm join a low profile silver nitride receiver to create a unique look and feel. The interchangeable Inflex Recoil Pad features a slick Parylene coating and a striker-based mechanical trigger that offers a crisp, precise trigger pull. A HiViz® Pro-Comp front sight and white mid bead aid in target acquisition. The ported barrels come with three new extended Diana Grade choke tubes.

**CYNERGY SPORTING, COMPOSITE**

[ F ]

GAUGE: 12 » NON-GLARE COMPOSITE FINISH

CHOKES INCLUDED: FULL, MODIFIED, IMPROVED CYLINDER

A low profile silver nitride receiver and a weather-resistant, lightweight composite stock and forearm (featuring grip enhancing rubber overmoldings) provide excellent handling. The interchangeable Inflex Recoil Pad features a slick Parylene coating. An adjustable comb creates a custom fit and the ported barrels come with three new extended Diana Grade choke tubes. A striker-based mechanical trigger and a HiViz® Pro-Comp front sight and white mid bead make for easy shooting.

# CITORI

EVERYTHING YOU EXPECT  
FROM AN OVER AND  
UNDER SHOTGUN.

*Few other shotguns hold the same allure and respect as the Citori, recognized for its flawless level of craftsmanship and absolutely reliable function. All components are machined to exacting tolerances, heat-treated, and carefully fit together using the traditional lamp-black and file method. This ensures the correct fit of critical components prior to being hand assembled to the action. Precise wood-to-metal fitting is performed to ensure tight, consistent junctions. This high degree of precision yields an over and under shotgun you will take pride in owning. Note the fit and finish from steel to wood and steel to steel. Open and shut the action. Throw it to your shoulder. Sight down the barrels. Find out why the Citori name has gained a reputation over the years as the finest over and under shotgun available.*

« TRIGGER »

Hammers are powered by strong, coil-type main springs for certain primer ignition. All sporting clays, XT and XS series Citori shotguns come equipped with the Triple Trigger™ System, which allows the shooter to adjust the length of pull and switch between a wide checkered, a narrow smooth and a wide smooth canted trigger shoe.

« CHOKE TUBES »

All Citori shotguns include either Standard Invector™ or Invector-Plus™ interchangeable choke tubes. Different chokes can be selected depending on the gun's intended purpose (field, sporting, etc.). For information see page 102. A wide variety of excellent patterning chokes are available.

« BARREL SELECTOR »

The barrel selector allows you to choose which barrel fires on the first pull of the single trigger. The second pull fires the remaining barrel.

« HAMMER EJECTORS »

Browning ejectors are fired by a sharp hammer blow. This strike gives a more positive ejection than the push imparted on competitors' ejectors. The automatic ejectors eject fired shells when the breech is opened. Unfired shells are elevated for easy removal.

« CHROME CHAMBERS »

Citori shotguns feature chrome-plated chambers for excellent wear and corrosion resistance.

« LOCKING BOLT »

The Citori utilizes a transverse-mounted, full-width tapered locking bolt. The tapered locking bolt and hinge pin engages a full-width tapered recess in the rear barrel lugs. The taper allows the bolt to seat deeper over the years. It's the reason people say a Citori wears in ... not out. The hinge pin extends from one side of the receiver to the other for maximum strength.

« BACK-BORED BARRELS »

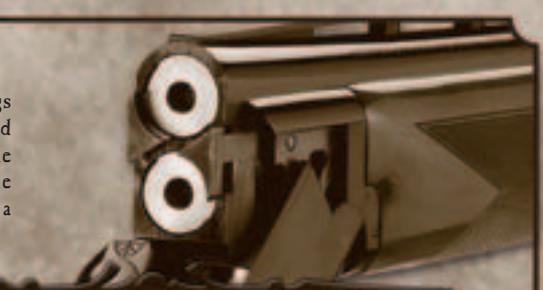

All 12 and 20 gauge Citori shotguns feature back-bored barrels. These barrels have a bore diameter increased to near its maximum specification. This reduces the friction of the shot charge against the barrel wall, resulting in increased shot velocity and reduced recoil. Because there is less constriction and pressure from the forcing cones on a shot charge, there are fewer deformed pellets — this leads to more uniform patterns than with standard barrels.

« SAFETY LOCK »

All Browning firearms are shipped with a free trigger lock, cable lock, padlock or chamber lock (shown) depending on model, to assist in the safe storage of firearms.

« SAFETY »

Manual thumb safety, combined with barrel selector mechanism.

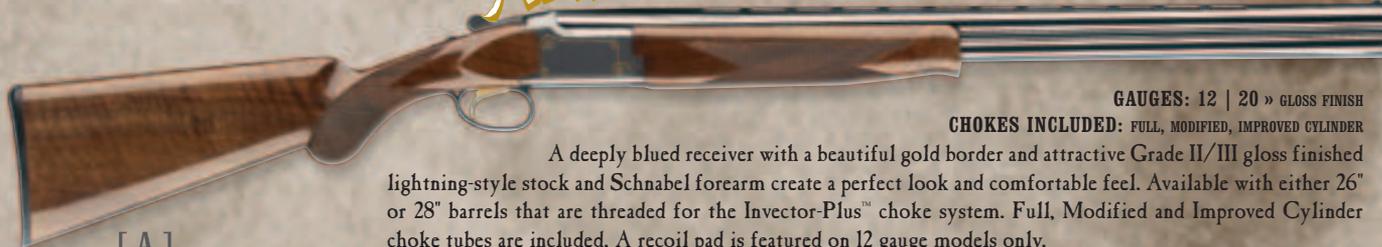

With the Browning Superposed as its forbearer, it's no surprise the Citori enjoys the success and popularity it receives. In honor of the Superposed, three new Classic Citori shotguns will be available in 2005. These new field guns incorporate traditional Browning engraving patterns and handsome Grade II/III wood. 12 and 20 gauge models are available with 26" and 28" barrel options.

## CITORI WHITE LIGHTNING

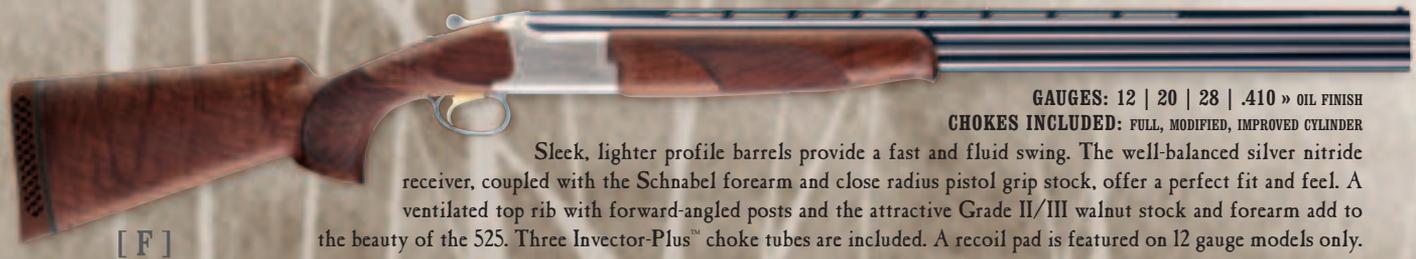

**GAUGES:** 12 | 20 | 28 | .410 » **SATIN FINISH**  
**CHOKES INCLUDED:** FULL, MODIFIED, IMPROVED CYLINDER

A silver nitride receiver with high-relief, intricately sculpted engraving contrasts nicely with the richly blued barrels. The classic rounded pistol grip and lightning-style forearm balance and handle comfortably in your hands. Three Invector-Plus™ choke tubes are included. A recoil pad is featured on 12 gauge models only.

[ E ]

## CITORI 525 FIELD

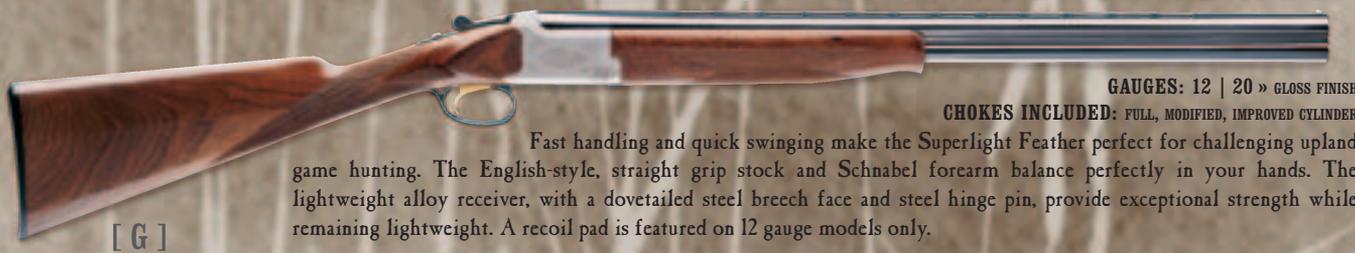

**GAUGES:** 12 | 20 | 28 | .410 » **OIL FINISH**  
**CHOKES INCLUDED:** FULL, MODIFIED, IMPROVED CYLINDER

Sleek, lighter profile barrels provide a fast and fluid swing. The well-balanced silver nitride receiver, coupled with the Schnabel forearm and close radius pistol grip stock, offer a perfect fit and feel. A ventilated top rib with forward-angled posts and the attractive Grade II/III walnut stock and forearm add to the beauty of the 525. Three Invector-Plus™ choke tubes are included. A recoil pad is featured on 12 gauge models only.

[ F ]

## CITORI SUPERLIGHT FEATHER

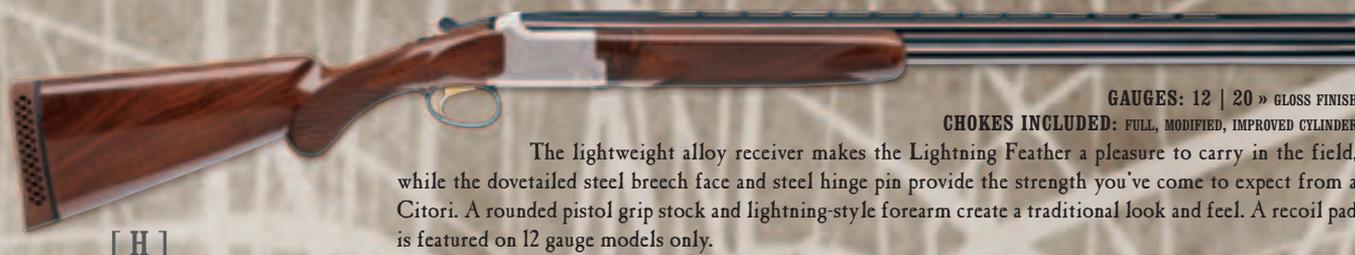

**GAUGES:** 12 | 20 » **GLOSS FINISH**  
**CHOKES INCLUDED:** FULL, MODIFIED, IMPROVED CYLINDER

Fast handling and quick swinging make the Superlight Feather perfect for challenging upland game hunting. The English-style, straight grip stock and Schnabel forearm balance perfectly in your hands. The lightweight alloy receiver, with a dovetailed steel breech face and steel hinge pin, provide exceptional strength while remaining lightweight. A recoil pad is featured on 12 gauge models only.

[ G ]

## CITORI LIGHTNING FEATHER

**GAUGES:** 12 | 20 » **GLOSS FINISH**  
**CHOKES INCLUDED:** FULL, MODIFIED, IMPROVED CYLINDER

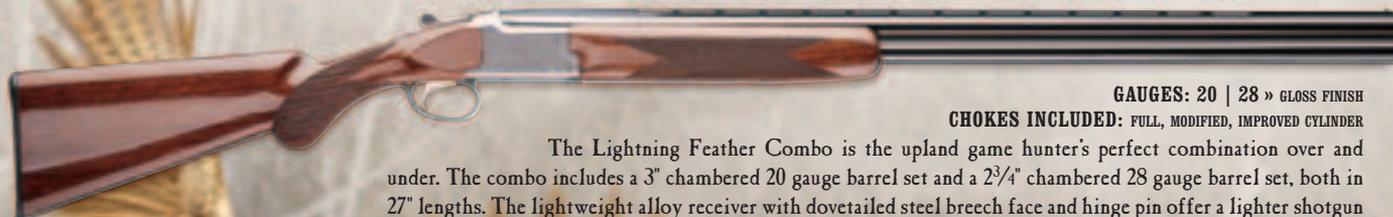

The lightweight alloy receiver makes the Lightning Feather a pleasure to carry in the field, while the dovetailed steel breech face and steel hinge pin provide the strength you've come to expect from a Citori. A rounded pistol grip stock and lightning-style forearm create a traditional look and feel. A recoil pad is featured on 12 gauge models only.

## CITORI LIGHTNING FEATHER COMBO

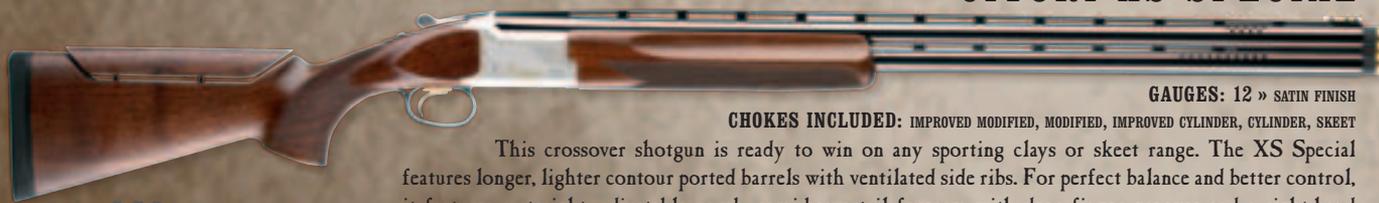

GAUGES: 20 | 28 » GLOSS FINISH

CHOKES INCLUDED: FULL, MODIFIED, IMPROVED CYLINDER

The Lightning Feather Combo is the upland game hunter's perfect combination over and under. The combo includes a 3" chambered 20 gauge barrel set and a 2¾" chambered 28 gauge barrel set, both in 27" lengths. The lightweight alloy receiver with dovetailed steel breech face and hinge pin offer a lighter shotgun without compromising strength. A padded luggage case is included.

[ I ]

## CITORI XS SPECIAL

**GAUGES: 12 » SATIN FINISH**

**CHOKES INCLUDED: IMPROVED MODIFIED, MODIFIED, IMPROVED CYLINDER, CYLINDER, SKEET**

This crossover shotgun is ready to win on any sporting clays or skeet range. The XS Special features longer, lighter contour ported barrels with ventilated side ribs. For perfect balance and better control, it features a straight, adjustable comb, semi-beavertail forearm with deep finger grooves and a right-hand palm swell. The tapered rib is low and flat, with a HiViz® Pro-Comp sight with mid bead for excellent target acquisition. The Triple Trigger™ System (page 6) allows you to customize the length of pull and the feel of the trigger. The Invector-Plus™ choke system is standard and comes with five Midas Grade chokes. The silver nitride receiver features the unique XS Special engraving that adds beauty to this versatile shotgun's functionality.

# CITORI SPORTING: CHAMPION DESIGNS.

Browning Citori Sporting over and under shotguns are designed, engineered, and built to win and win again at any sporting competition. They are true champions in every sense of the word. Balancing exquisitely between its forearm and grip, a Citori Sporting shotgun swings in a fluid motion, acting as a natural extension of your body when swinging on fast flying, hard-to-hit clay targets. You'll also appreciate the remarkable fit and finish of each Citori shotgun — engraved, hand finished and assembled by the industry's finest craftsmen. A Citori Sporting over and under is certainly a shotgun you'll lay down lightly, and pick up vigorously. A champion design, a champion companion, a champion in your hands.

## CITORI XS SPORTING

[ K ]

**GAUGES:** 12 | 20 » SATIN FINISH

**CHOKES INCLUDED:** MODIFIED, IMPROVED CYLINDER, SKEET

A silver nitride receiver with gold accents makes the XS Sporting as beautiful as it is functional. The Schnabel forearm and right-hand palm swell fit comfortably in your hands, while the HiViz® Pro-Comp sight helps pick up targets. The Triple Trigger™ System (page 6) allows you to customize the length of pull and feel of the trigger. A ventilated side rib is standard on both ported and non-porting barrels.

## CITORI XS SKEET

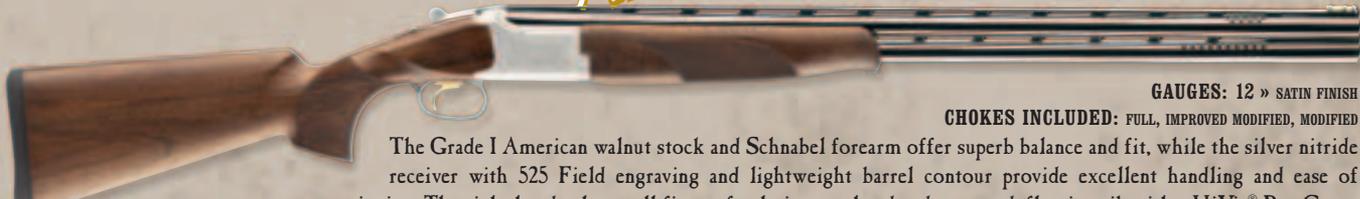

[ L ]

**GAUGES:** 12 | 20 » SATIN FINISH

**CHOKES INCLUDED:** IMPROVED CYLINDER, SKEET (2)

On a skeet range nothing beats the semi-beavertail forearm, ported barrels, exaggerated right-hand palm swell, ventilated side ribs and high-post rib of the XS Skeet. A silver nitride receiver with gold accents adds beauty and the HiViz® Pro-Comp sight acquires targets with ease. The Triple Trigger™ System (page 6) allows for customization, as does the available adjustable comb, which features a 5/8" height adjustment.

## *New* CITORI 525 SPORTING GRADE I

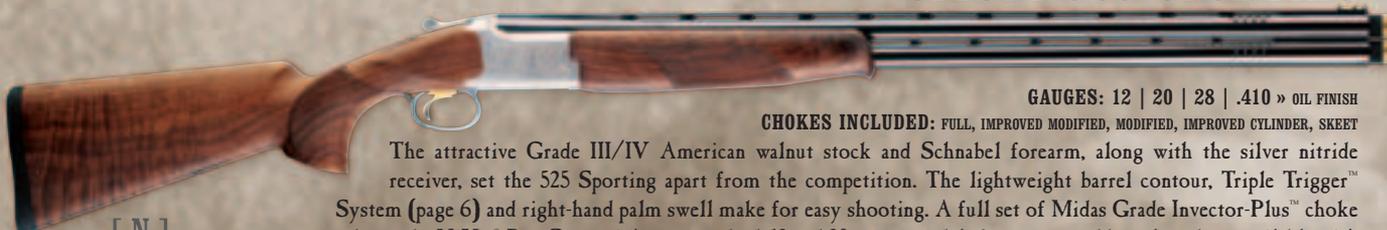

[ M ]

**GAUGES:** 12 » SATIN FINISH

**CHOKES INCLUDED:** FULL, IMPROVED MODIFIED, MODIFIED

The Grade I American walnut stock and Schnabel forearm offer superb balance and fit, while the silver nitride receiver with 525 Field engraving and lightweight barrel contour provide excellent handling and ease of swinging. The right-hand palm swell fits perfectly in your hand and a tapered, floating rib with a HiViz® Pro-Comp sight acquires targets quickly. The Triple Trigger™ System (page 6) allows for customization and three Invector-Plus™ choke tubes are included. Versatile 3" chambers make this a superb choice for both the field and the range.

## CITORI 525 SPORTING

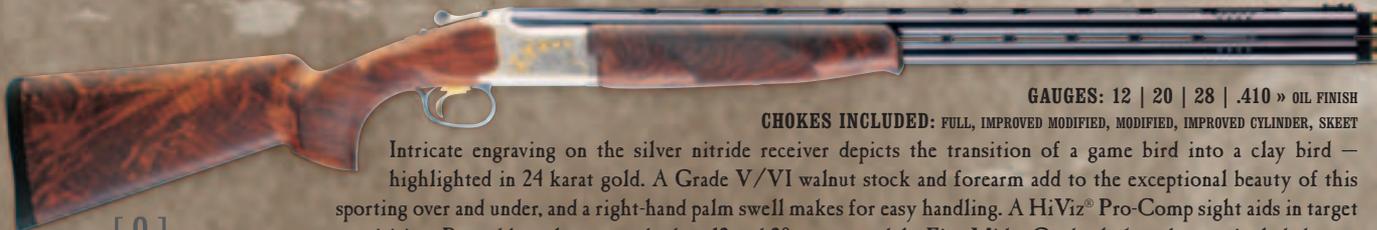

[ N ]

**GAUGES:** 12 | 20 | 28 | .410 » OIL FINISH

**CHOKES INCLUDED:** FULL, IMPROVED MODIFIED, MODIFIED, IMPROVED CYLINDER, SKEET

The attractive Grade III/IV American walnut stock and Schnabel forearm, along with the silver nitride receiver, set the 525 Sporting apart from the competition. The lightweight barrel contour, Triple Trigger™ System (page 6) and right-hand palm swell make for easy shooting. A full set of Midas Grade Invector-Plus™ choke tubes and a HiViz® Pro-Comp sight are standard. 12 and 20 gauge models feature ported barrels and are available with an adjustable comb.

## CITORI 525 GOLDEN CLAYS

[ O ]

**GAUGES:** 12 | 20 | 28 | .410 » OIL FINISH

**CHOKES INCLUDED:** FULL, IMPROVED MODIFIED, MODIFIED, IMPROVED CYLINDER, SKEET

Intricate engraving on the silver nitride receiver depicts the transition of a game bird into a clay bird — highlighted in 24 karat gold. A Grade V/VI walnut stock and forearm add to the exceptional beauty of this sporting over and under, and a right-hand palm swell makes for easy handling. A HiViz® Pro-Comp sight aids in target acquisition. Ported barrels are standard on 12 and 20 gauge models. Five Midas Grade choke tubes are included.

## New CITORI XT TRAP GOLD WITH ADJUSTABLE COMB

[ P ]

GAUGES: 12 » GLOSS FINISH

CHOKES INCLUDED: FULL, IMPROVED MODIFIED, MODIFIED

An intricate "Golden Clays" engraving depicting the transition of a game bird into a clay bird highlights this great new trap over and under. A Grade V/VI American walnut stock and semi-beavertail forearm add to the beauty of the receiver. An adjustable comb, adjustable GraCoil recoil reduction system and the Triple Trigger™ System (page 6) all allow for customization. A HiViz® Pro-Comp sight with mid bead makes target acquisition quick. Three Invector-Plus™ choke tubes are included.

## CITORI XT TRAP

[ Q ]

GAUGES: 12 » GLOSS FINISH

CHOKES INCLUDED: FULL, IMPROVED MODIFIED, MODIFIED

A silver nitride receiver with gold accents on this smooth swinging trap gun will turn heads at the range. Ported barrels mounted to the semi-beavertail forearm reduce recoil and the ventilated side ribs and high-post rib acquire targets easily. Available in either a Monte Carlo stock or an adjustable comb model with a 5/8" height adjustment. A right-hand palm swell simply adds to the comfort, while the Triple Trigger System™ (page 6) allows for customization.

# THE CITORI XT TRAP GOLD: THE TRAP GUN WITH THE MIDAS TOUCH.

*Few trap guns exhibit the elegance of the new Browning Citori XT Trap Gold. The classy silver nitride receiver is highlighted by the beautiful “Golden Clays” gold inlay engraving of a game bird transforming into a clay bird. Adding yet another touch of class is the marbled Grade V/VI American walnut stock and forearm that features a high gloss finish to accentuate its rare beauty. In addition to its looks, the Citori XT Trap Gold is built for shooting and winning. The GraCoil recoil reduction system, adjustable comb, Triple Trigger™ System and HiViz® Pro-Comp sight are only a small example of a long list of medal-winning features.*

## **BACK-BORED BARRELS AND THE INVECTOR-PLUS™ CHOKE SYSTEM.**

*A shotgun is only as good as the pattern it produces, and the combination of back-bored barrels and the Invector-Plus™ choke system makes a Browning shotgun The Best There Is®.*

*Back-boring a barrel allows expanded gases to exert more energy at the wad base, causing less constriction on the shot charge. This results in higher velocities and fewer deformed pellets for more uniform patterns. The Invector-Plus system also features a longer choke taper for more evenly spaced constriction, and more pellets being delivered to the effective part of the shot pattern. The Invector-Plus system is found on all new Browning 12 and 20 gauge shotguns.*

*New*

## CITORI GRADE IV LIGHTNING

GAUGES: 12 | 20 | 28 | .410 » GLOSS FINISH

CHOKES INCLUDED: FULL, MODIFIED, IMPROVED CYLINDER

A new high-relief engraving on a grayed receiver, combined with a beautiful Grade III/IV gloss finished walnut stock and forearm make this Citori one of the finest over and unders made. In addition, the engraving encompasses all major surfaces, including the trigger guard and tang screws. The 12 gauge models depict pheasants on the left and mallards on the right. The 20 and 28 gauge and .410 bore models feature quail and grouse on opposing sides of the receiver. A recoil pad is featured on 12 gauge models only.

## CITORI GRADE VII LIGHTNING

GAUGES: 12 | 20 | 28 | .410 » GLOSS FINISH

CHOKES INCLUDED: FULL, MODIFIED, IMPROVED CYLINDER

Deep relief engraving garnishes the entire receiver, trigger guard, top-tang, takedown lever and forearm bracket of the most decorated Citori in the family. Engraved game birds are crafted in 24 karat gold with the 12 gauge models depicting two flushing ringnecks and a pointer on the right side and three mallard drakes on the left side. The 20 and 28 gauge and .410 bore models feature quail and grouse, with the bottom engraving on all models featuring a pointer. All gauges are available with either a distinctive grayed or deeply blued receiver. A recoil pad is featured on 12 gauge models only.

# CITORI HIGH GRADE

Perfectly fit junctions of steel and wood. High-relief, gold-enhanced engraving. Marbled stocks and forearms. These characteristics only denote the aesthetic beauty of the Citori — a Citori's inner beauty is just as impressive. Full width tapered locking bolts. Positive, automatic ejectors. Back-bored barrels. Components machined to exacting tolerances, fit with the traditional lamp-black and file assembly. Each aspect of a Citori, inside and out, exhibits perfection and performance.

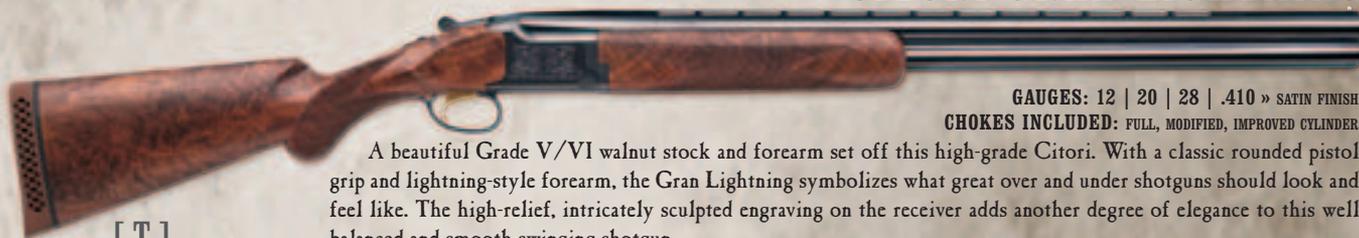

## CITORI GRAN LIGHTNING

GAUGES: 12 | 20 | 28 | .410 » SATIN FINISH

CHOKES INCLUDED: FULL, MODIFIED, IMPROVED CYLINDER

A beautiful Grade V/VI walnut stock and forearm set off this high-grade Citori. With a classic rounded pistol grip and lightning-style forearm, the Gran Lightning symbolizes what great over and under shotguns should look and feel like. The high-relief, intricately sculpted engraving on the receiver adds another degree of elegance to this well balanced and smooth-swinging shotgun.

[ T ]

# BT-99

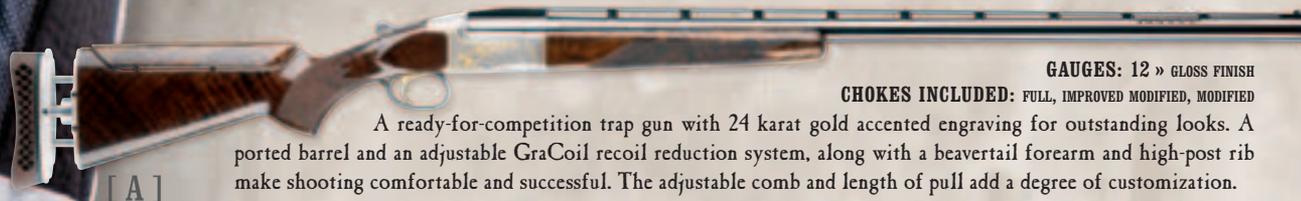

## A PROVEN TRAP POWERHOUSE.

When we introduced the BT-99 trap gun in 1969, it became an overnight sensation and a mainstay at trap ranges, finding its way into the hands of thousands of both beginner and veteran shooters. As always, the BT-99 shotgun is appreciated for its simplicity, quality and performance.

«**BARREL**» The BT-99 features a back-bored barrel and utilizes the Invector-Plus™ choke tube system to provide more consistent patterns. «**CHOKES**» Interchangeable Invector-Plus. «**FOREARM**» A beavertail forearm helps control recoil and assists hand-eye coordination. «**EXTRACTOR**» The BT-99 features an extractor only. «**RIB**» High-post, 1/32" rib.

### BT-99 GOLDEN CLAYS WITH ADJUSTABLE COMB

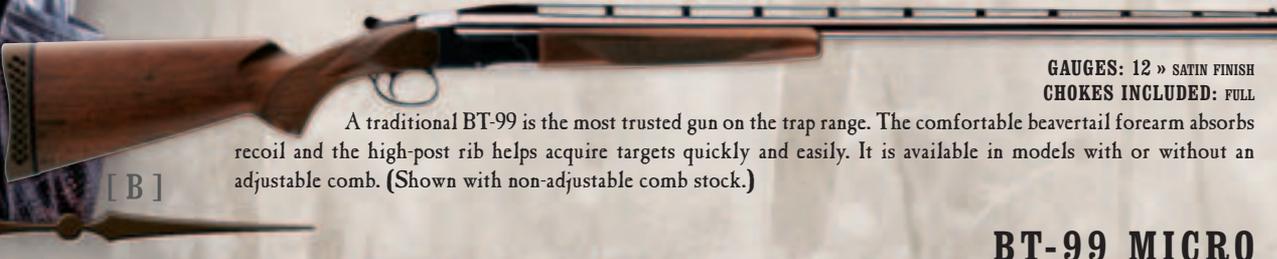

[ A ]

**GAUGES:** 12 » GLOSS FINISH

**CHOKES INCLUDED:** FULL, IMPROVED MODIFIED, MODIFIED

A ready-for-competition trap gun with 24 karat gold accented engraving for outstanding looks. A ported barrel and an adjustable GraCoil recoil reduction system, along with a beavertail forearm and high-post rib make shooting comfortable and successful. The adjustable comb and length of pull add a degree of customization.

### BT-99 / BT-99 WITH ADJUSTABLE COMB

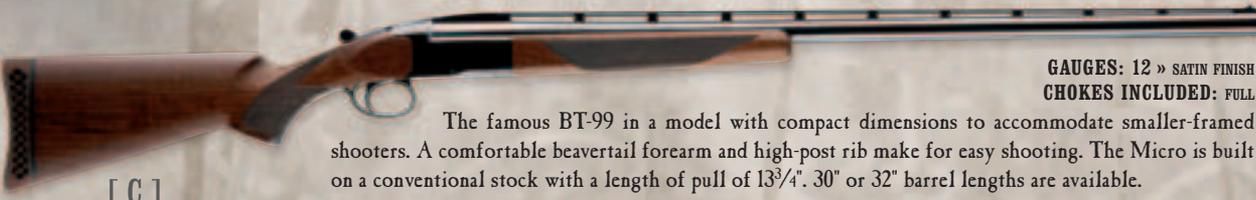

[ B ]

**GAUGES:** 12 » SATIN FINISH

**CHOKES INCLUDED:** FULL

A traditional BT-99 is the most trusted gun on the trap range. The comfortable beavertail forearm absorbs recoil and the high-post rib helps acquire targets quickly and easily. It is available in models with or without an adjustable comb. (Shown with non-adjustable comb stock.)

### BT-99 MICRO

[ C ]

**GAUGES:** 12 » SATIN FINISH

**CHOKES INCLUDED:** FULL

The famous BT-99 in a model with compact dimensions to accommodate smaller-framed shooters. A comfortable beavertail forearm and high-post rib make for easy shooting. The Micro is built on a conventional stock with a length of pull of 13 3/4". 30" or 32" barrel lengths are available.

# GOLD PRECIOUS METAL.

*Words like fit and finish, perfect balance and comfortable feel are why the Browning Gold is a perennial favorite in the duck blinds, pheasant fields and competition courses throughout the country. Nothing in the field or on the range beats the Gold.*

## « SIGHTS »

Camo turkey models come with HiViz® TriViz™ fiber optic sight system. Gold Sporting Clays, Evolve and Fusion models feature the HiViz TriComp sight system. This system consists of eight, different colored, interchangeable LitePipes that can be adjusted to match varied light conditions or shooting styles.

## « RIB »

Ventilated rib with matte sighting plane, tapered on Sporting Clays.

## « SPEED LOADING »

With the action open, any load inserted into the magazine is sent directly to the chamber, ready to be fired.

« TRIGGER » Gold-colored. The trigger guard is large and has carefully rounded edges to accommodate gloved fingers. Additionally, the Gold's trigger assembly can be removed in seconds for cleaning.

« SAFETY » The oversized cross-bolt safety is mounted on the trigger guard, allowing quick operation while keeping an eye on the target, and it's easily reversed by a gunsmith for left-hand use.

## « SAFETY LOCK »

All Browning firearms are shipped with a free trigger lock, cable lock, padlock (shown) or chamber lock, depending on model, to assist in the safe storage of firearms.

## « MAGAZINE CUT-OFF »

All Gold 3½". Fusion, Evolve and Gold FLD shotguns utilize a magazine cut-off. This feature allows you to retain shells in the magazine and eject a round from the chamber without feeding from the magazine.

## « ACTION »

In the 12 gauge 3" chambering, the Gold's self-regulating gas system shoots all loads interchangeably — from light, 1 oz., 2¾" target loads to the heaviest 3" magnums. The larger 3½" chambered version is built to handle a similar range — 1⅛ oz., 2¾" field loads up to hard-hitting 3½" magnums. With lighter loads, the unique gas system in these guns utilizes most of the energy of expanding gases to operate the action. With magnum loads, excess gas is vented out the lateral vents in the piston. The Gold has a gas valve on the inside of the gas piston. Because the gas piston and valve operate independently, less pressure is exerted on the piston, resulting in greater longevity and more efficient operation than other gas-operated autoloaders. Additionally, the extremely short piston stroke of the Gold limits the amount of combustion gas that gets into the receiver, resulting in cleaner operation.

## « MAGAZINE CAPACITY »

2¾": Four in magazine, one in chamber.  
3": Three in magazine, one in chamber.  
3½": Three in magazine, one in chamber. The Gold Light 10 gauge holds four in magazine, one in chamber. A three-shot magazine adapter is included. Magazine capacity is reduced by one when using slugs.

## « CHOKE TUBES »

All Gold shotguns include interchangeable Full, Modified, and Improved Cylinder Invector-Plus™ tubes. Sporting Clays models include Modified, Improved Cylinder, and Skeet tubes. 24" barrel turkey models include an Extra-Full Turkey tube. See page 102.

## GOLD EVOLVE™

[ A ]

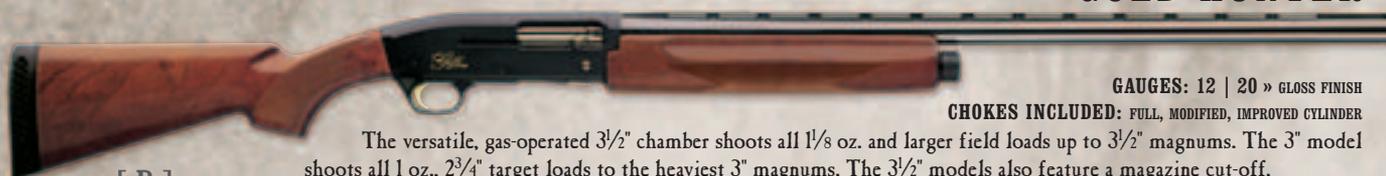

*Gold* evolve

**GAUGES:** 12 » SATIN FINISH

**CHOKES INCLUDED:** FULL, MODIFIED, IMPROVED CYLINDER

With a stylized receiver, magazine cap and ventilated rib, the Evolve brings a unique look to the Gold line. The shim adjustable stock has a 1/4" adjustment range (1/8" up, 1/8" down) and the HiViz® TriComp sight acquires targets quickly. The lightweight alloy magazine tube and barrel reduce weight and provide an effortless swing. The magazine cut-off adds versatility.

## GOLD HUNTER

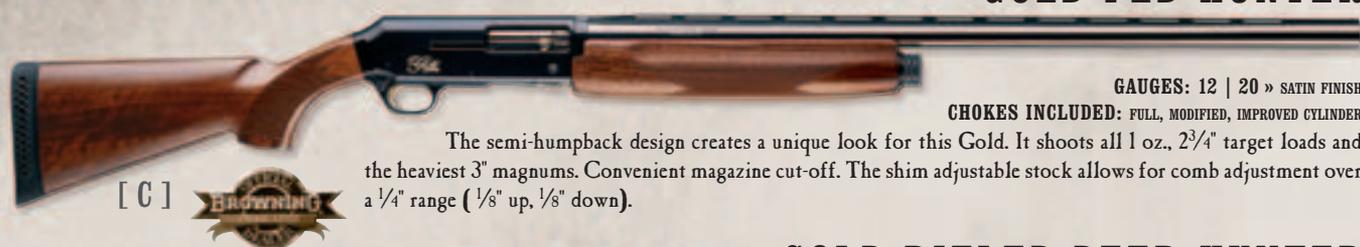

[ B ]

**GAUGES:** 12 | 20 » GLOSS FINISH

**CHOKES INCLUDED:** FULL, MODIFIED, IMPROVED CYLINDER

The versatile, gas-operated 3 1/2" chamber shoots all 1 1/8 oz. and larger field loads up to 3 1/2" magnums. The 3" model shoots all 1 oz., 2 3/4" target loads to the heaviest 3" magnums. The 3 1/2" models also feature a magazine cut-off.

## GOLD FLD HUNTER

[ C ]

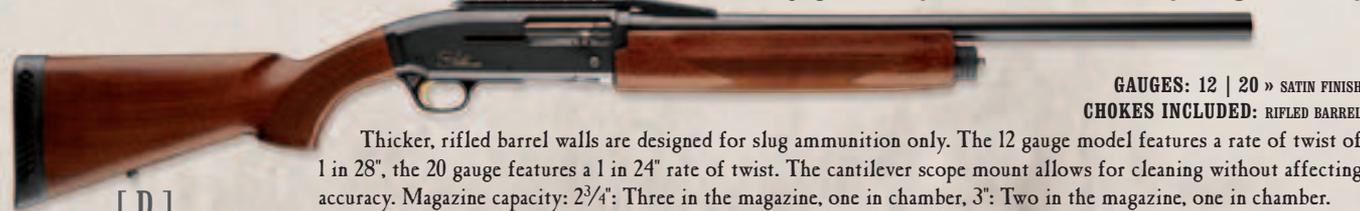

**GAUGES:** 12 | 20 » SATIN FINISH

**CHOKES INCLUDED:** FULL, MODIFIED, IMPROVED CYLINDER

The semi-humpback design creates a unique look for this Gold. It shoots all 1 oz., 2 3/4" target loads and the heaviest 3" magnums. Convenient magazine cut-off. The shim adjustable stock allows for comb adjustment over a 1/4" range (1/8" up, 1/8" down).

## GOLD RIFLED DEER HUNTER

**GAUGES:** 12 | 20 » SATIN FINISH

**CHOKES INCLUDED:** RIFLED BARREL

Thicker, rifled barrel walls are designed for slug ammunition only. The 12 gauge model features a rate of twist of 1 in 28", the 20 gauge features a 1 in 24" rate of twist. The cantilever scope mount allows for cleaning without affecting accuracy. Magazine capacity: 2 3/4": Three in the magazine, one in chamber, 3": Two in the magazine, one in chamber.

## GOLD UPLAND SPECIAL

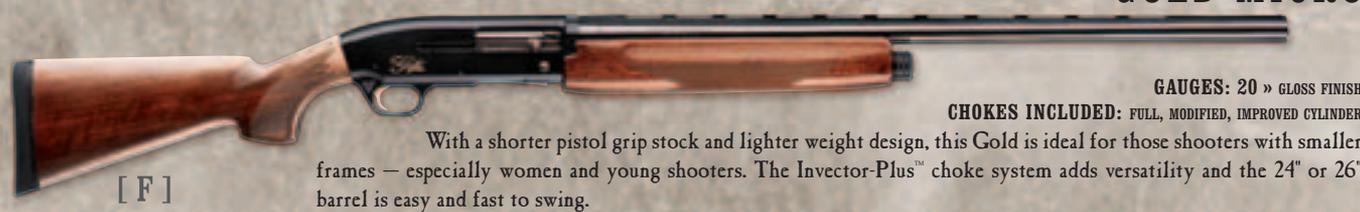

[ E ]

**GAUGES:** 12 | 20 » SATIN FINISH

**CHOKES INCLUDED:** FULL, MODIFIED, IMPROVED CYLINDER

A streamlined, straight grip stock is easy to shoulder and quick to shoot. Compact 24" or 26" barrel options provide a smooth, effortless swing. Magazine capacity: 2 3/4": Four in magazine, one in chamber, 3": Three in magazine, one in chamber.

## GOLD MICRO

[ F ]

**GAUGES:** 20 » GLOSS FINISH

**CHOKES INCLUDED:** FULL, MODIFIED, IMPROVED CYLINDER

With a shorter pistol grip stock and lighter weight design, this Gold is ideal for those shooters with smaller frames — especially women and young shooters. The Invector-Plus™ choke system adds versatility and the 24" or 26" barrel is easy and fast to swing.

## GOLD FUSION

GAUGES: 12 | 20 » OIL FINISH

CHOKES INCLUDED: FULL, IMPROVED MODIFIED, MODIFIED, IMPROVED CYLINDER, SKEET

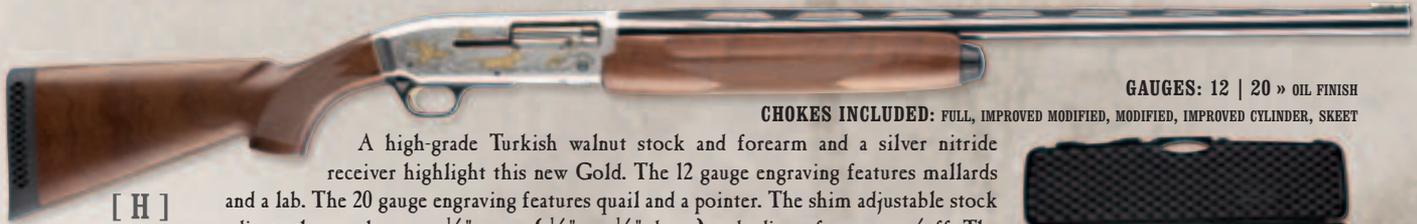

An alloy magazine tube and lightweight barrel reduce the weight of this quick-shooting Gold. The magazine cut-off adds versatility and the shim adjustable stock system moves the comb over a 1/4" range (1/8" up, 1/8" down) and adjusts for cast on/off. The HiViz® TriComp sight system acquires targets quickly, while the Turkish walnut stock and forearm add to its beauty. A 2 oz. First Shot™ lubricant, five interchangeable Invector-Plus™ choke tubes and a hard case are included.

[ G ]

*New*

## GOLD FUSION HIGH GRADE

GAUGES: 12 | 20 » OIL FINISH

CHOKES INCLUDED: FULL, IMPROVED MODIFIED, MODIFIED, IMPROVED CYLINDER, SKEET

A high-grade Turkish walnut stock and forearm and a silver nitride receiver highlight this new Gold. The 12 gauge engraving features mallards and a lab. The 20 gauge engraving features quail and a pointer. The shim adjustable stock adjusts the comb over a 1/4" range (1/8" up, 1/8" down) and adjusts for cast on/off. The HiViz® TriComp sight system acquires targets easily. Includes a hard case, 2 oz. First Shot™ lubricant and five interchangeable Invector-Plus™ choke tubes.

# BROWNING AND THE NWTF

Founded in 1973, the National Wild Turkey Federation is a non-profit organization with over 450,000 members throughout the United States and 11 foreign countries.

The NWTF has spent millions of dollars on research, conservation and education, which has resulted in a wild turkey population expansion from 1.3 million birds in 1973 to an estimated 5.6 million today.

We are pleased to support the NWTF as a partner in their conservation and educational efforts by offering products bearing the NWTF logo. The BPS in 10, 12 and 20 gauge, and Gold shotguns in 10 and 12 gauge feature an NWTF package.

This package is designed specifically with turkey hunters and turkey country in mind. The full coverage of Mossy Oak® New Break-Up® camouflage prevents spooking these extremely wary-eyed game birds, while the weather-resistant composite stock and forearm with the Dura-Touch® Armor Coating enhances grip and takes on any weather condition. A 24" barrel topped with a HiViz® TriViz™ fiber optic sight is perfect for quickly acquiring your target in thick brush. And finally, the NWTF logo is proudly displayed on the buttstock. In addition to the Browning NWTF shotguns, see page 69 for the NWTF Conservation Series safe.

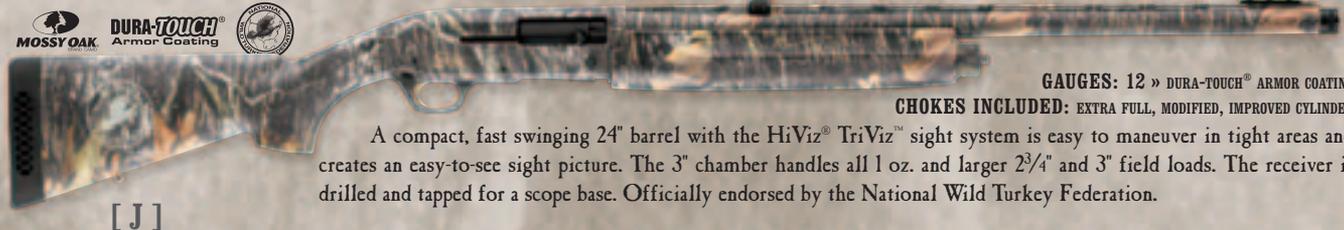

## NWTF GOLD ULTIMATE TURKEY, MOSSY OAK® NEW BREAK-UP®

**GAUGES:** 12 » **DURA-TOUCH®** ARMOR COATING  
**CHOKES INCLUDED:** FULL STRUT TURKEY, MODIFIED, IMPROVED CYLINDER

Officially endorsed by the National Wild Turkey Federation, the Ultimate Turkey includes the tight patterning extended Full Strut Turkey choke tube and a comfortable neoprene sling. The receiver is drilled and tapped for a scope base, or use the HiViz® TriViz™ sight system that makes a triangular sight picture for easy target acquisition. The 24" barrel is quick to swing in thick cover. Shoots 1/8 oz. and larger field loads up to 3 1/2" magnums and features a magazine cut-off.

## NWTF GOLD, MOSSY OAK® NEW BREAK-UP®

**GAUGES:** 12 » **DURA-TOUCH®** ARMOR COATING  
**CHOKES INCLUDED:** EXTRA FULL, MODIFIED, IMPROVED CYLINDER

A compact, fast swinging 24" barrel with the HiViz® TriViz™ sight system is easy to maneuver in tight areas and creates an easy-to-see sight picture. The 3" chamber handles all 1 oz. and larger 2 3/4" and 3" field loads. The receiver is drilled and tapped for a scope base. Officially endorsed by the National Wild Turkey Federation.

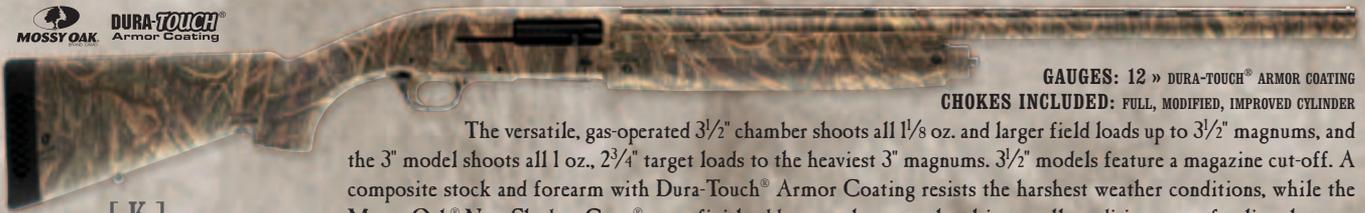

NWTF Gold turkey guns feature the HiViz® TriViz™ fiber optic sight.

**GOLD, MOSSY OAK® NEW SHADOW GRASS®**

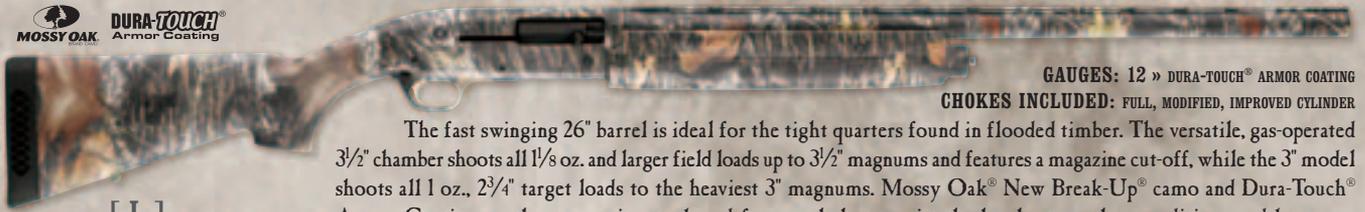

[ K ]

**GAUGES:** 12 » DURA-TOUCH® ARMOR COATING

**CHOKES INCLUDED:** FULL, MODIFIED, IMPROVED CYLINDER

The versatile, gas-operated 3½" chamber shoots all 1⅛ oz. and larger field loads up to 3½" magnums, and the 3" model shoots all 1 oz., 2¾" target loads to the heaviest 3" magnums. 3½" models feature a magazine cut-off. A composite stock and forearm with Dura-Touch® Armor Coating resists the harshest weather conditions, while the Mossy Oak® New Shadow Grass® camo finish adds concealment to the ultimate, all conditions waterfowling shotgun.

**GOLD, MOSSY OAK® NEW BREAK-UP®**

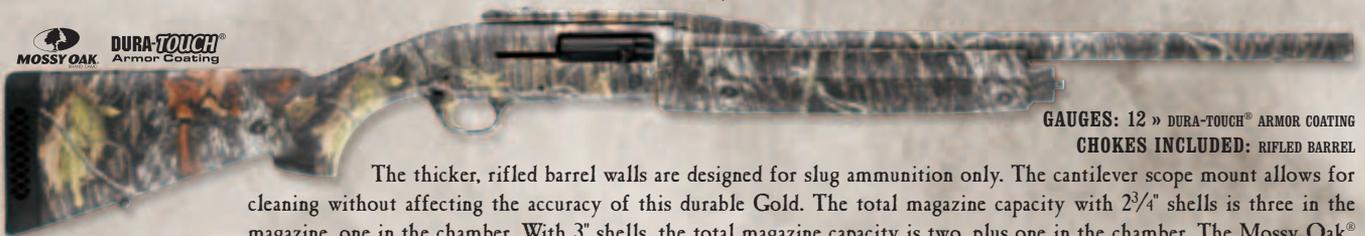

[ L ]

**GAUGES:** 12 » DURA-TOUCH® ARMOR COATING

**CHOKES INCLUDED:** FULL, MODIFIED, IMPROVED CYLINDER

The fast swinging 26" barrel is ideal for the tight quarters found in flooded timber. The versatile, gas-operated 3½" chamber shoots all 1⅛ oz. and larger field loads up to 3½" magnums and features a magazine cut-off, while the 3" model shoots all 1 oz., 2¾" target loads to the heaviest 3" magnums. Mossy Oak® New Break-Up® camo and Dura-Touch® Armor Coating on the composite stock and forearm help to resist the harshest weather conditions and keep you concealed from the wary eyes of waterfowl.

**GOLD RIFLED DEER, MOSSY OAK® NEW BREAK-UP®**

[ M ]

**GAUGES:** 12 » DURA-TOUCH® ARMOR COATING

**CHOKES INCLUDED:** RIFLED BARREL

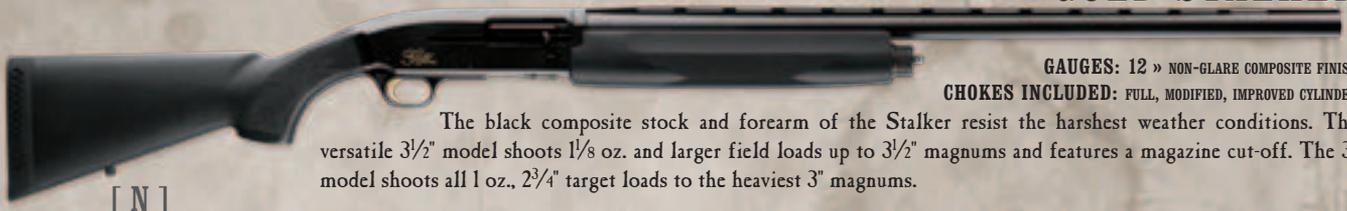

The thicker, rifled barrel walls are designed for slug ammunition only. The cantilever scope mount allows for cleaning without affecting the accuracy of this durable Gold. The total magazine capacity with 2¾" shells is three in the magazine, one in the chamber. With 3" shells, the total magazine capacity is two, plus one in the chamber. The Mossy Oak® New Break-Up® camo and Dura-Touch® Armor Coating conceal and protect the weather-resistant composite stock and forearm. Rate of twist: 1 in 28".

**DURA-TOUCH®  
Armor Coating**

*Dura-Touch® Armor Coating gives the stock a velvety feel and a sure grip — especially in wet weather. You maintain a firm, controlled grip in all weather conditions.*

## GOLD STALKER

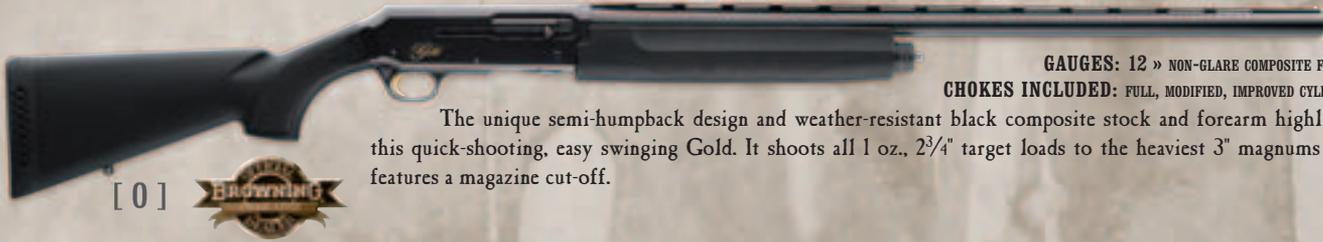

**GAUGES:** 12 » NON-GLARE COMPOSITE FINISH  
**CHOKES INCLUDED:** FULL, MODIFIED, IMPROVED CYLINDER

The black composite stock and forearm of the Stalker resist the harshest weather conditions. The versatile 3½" model shoots 1⅛ oz. and larger field loads up to 3½" magnums and features a magazine cut-off. The 3" model shoots all 1 oz., 2¾" target loads to the heaviest 3" magnums.

[ N ]

## GOLD FLD STALKER

**GAUGES:** 12 » NON-GLARE COMPOSITE FINISH  
**CHOKES INCLUDED:** FULL, MODIFIED, IMPROVED CYLINDER

The unique semi-humpback design and weather-resistant black composite stock and forearm highlight this quick-shooting, easy swinging Gold. It shoots all 1 oz., 2¾" target loads to the heaviest 3" magnums and features a magazine cut-off.

[ O ]

## GOLD RIFLED DEER STALKER

**GAUGES:** 12 » NON-GLARE COMPOSITE FINISH  
**CHOKES INCLUDED:** RIFLED BARREL

Thicker, rifled barrel walls are designed for slug ammunition only. The cantilever scope mount allows for cleaning without affecting the accuracy. The black composite stock and forearm of the Stalker resist the harshest weather conditions. The total magazine capacity with 2¾" shells is three in the magazine, one in the chamber. With 3" shells, the total magazine capacity is two, plus one in the chamber. Rate of twist: 1 in 28". (Scope and rings not included.)

[ P ]

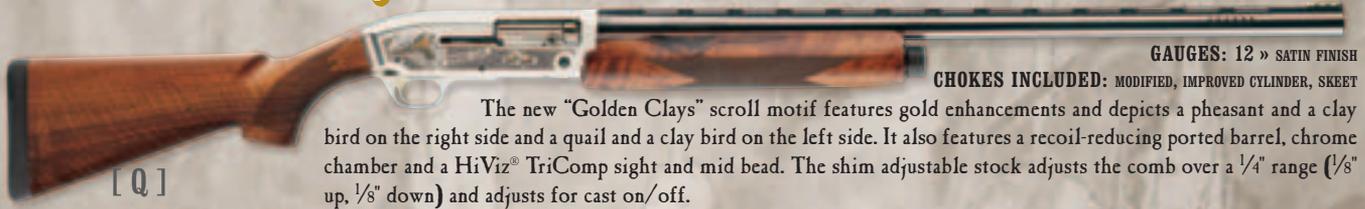

## SPORTING CLAYS PISTONS

All Browning Gold Sporting Clays shotguns include two interchangeable gas pistons for optimal performance with light or heavy loads. These pistons can be switched in minutes without tools. The interchangeable pistons can also be ordered directly from our Arnold, MO Parts Department by calling 1-800-322-4626.

DESCRIPTION	CODE#	SUGG. RETAIL
Heavy Sporting Clays Piston	B111-604813	\$63.25
Light Sporting Clays Piston	B111-604913	63.25

## New GOLD "GOLDEN CLAYS" SPORTING CLAYS

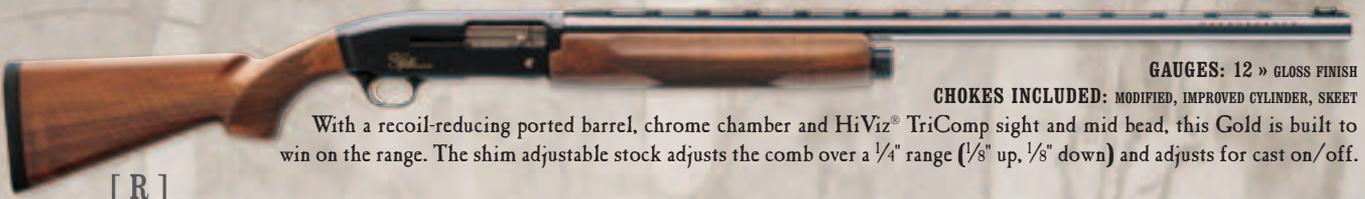

GAUGES: 12 » SATIN FINISH

CHOKES INCLUDED: MODIFIED, IMPROVED CYLINDER, SKEET

The new "Golden Clays" scroll motif features gold enhancements and depicts a pheasant and a clay bird on the right side and a quail and a clay bird on the left side. It also features a recoil-reducing ported barrel, chrome chamber and a HiViz® TriComp sight and mid bead. The shim adjustable stock adjusts the comb over a 1/4" range (1/8" up, 1/8" down) and adjusts for cast on/off.

[ Q ]

## GOLD SPORTING CLAYS

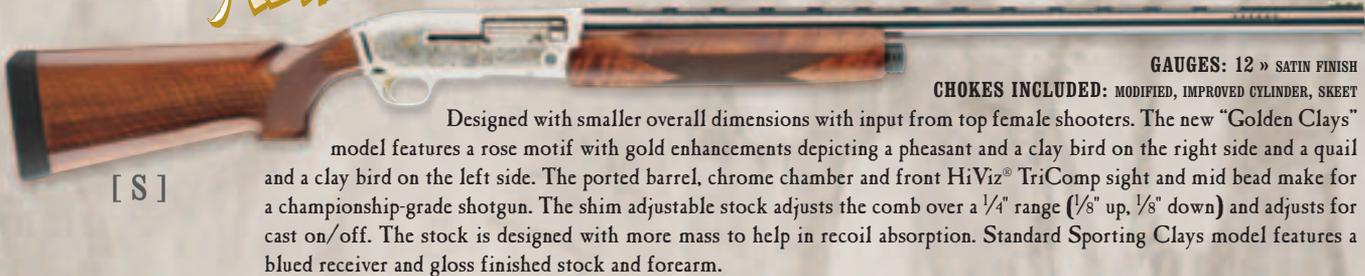

GAUGES: 12 » GLOSS FINISH

CHOKES INCLUDED: MODIFIED, IMPROVED CYLINDER, SKEET

With a recoil-reducing ported barrel, chrome chamber and HiViz® TriComp sight and mid bead, this Gold is built to win on the range. The shim adjustable stock adjusts the comb over a 1/4" range (1/8" up, 1/8" down) and adjusts for cast on/off.

[ R ]

## New GOLD "GOLDEN CLAYS" LADIES SPORTING CLAYS

GAUGES: 12 » SATIN FINISH

CHOKES INCLUDED: MODIFIED, IMPROVED CYLINDER, SKEET

Designed with smaller overall dimensions with input from top female shooters. The new "Golden Clays" model features a rose motif with gold enhancements depicting a pheasant and a clay bird on the right side and a quail and a clay bird on the left side. The ported barrel, chrome chamber and front HiViz® TriComp sight and mid bead make for a championship-grade shotgun. The shim adjustable stock adjusts the comb over a 1/4" range (1/8" up, 1/8" down) and adjusts for cast on/off. The stock is designed with more mass to help in recoil absorption. Standard Sporting Clays model features a blued receiver and gloss finished stock and forearm.

## THE GAS POWERED GOLD

John M. Browning first patented the gas operating system on January 6, 1890. On July 11, 1892, another patent was filed that involved drilling a hole into the barrel to tap the high-pressure gases. A modern version of this same system is used today to make the Browning Gold shotgun the smoothest, softest recoiling shotgun on the market. This allows faster follow-up shots and saves your shoulder from a day of hard shooting.

NOTE: Weights listed are approximate.

When you're ready for a 10 gauge, we're ready to give you the most reliable 10 gauge shotguns on the market. Whether you choose the autoloading Gold Light or the fast-action BPS pump, you'll be sure to notice the added downrange power in a gun that is still easy to handle.

## GOLD LIGHT 10 GAUGE

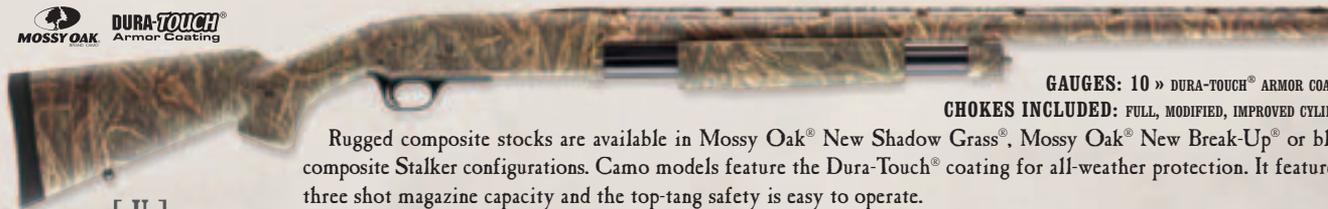

[ T ]

Choose from models with Mossy Oak® New Shadow Grass® or Mossy Oak® New Break-Up® camo with 26" or 28" barrel lengths to bring down those big toms or fast-flying geese. The soft recoiling gas-operated action makes it enjoyable to shoot, while the composite forearm and stock with Dura-Touch® coating is built for all weather conditions. It also features a three shot magazine capacity and a lightweight aluminum receiver that is drilled and tapped for a scope base on the NWTF model. The NWTF model also features a 24" barrel with a HiViz® TriViz™ sight, an Extra Full Turkey choke tube, and is officially endorsed by the National Wild Turkey Federation.

GAUGES: 10 » DURA-TOUCH® ARMOR COATING

CHOKES INCLUDED: FULL, MODIFIED, IMPROVED CYLINDER

## BPS 10 GAUGE

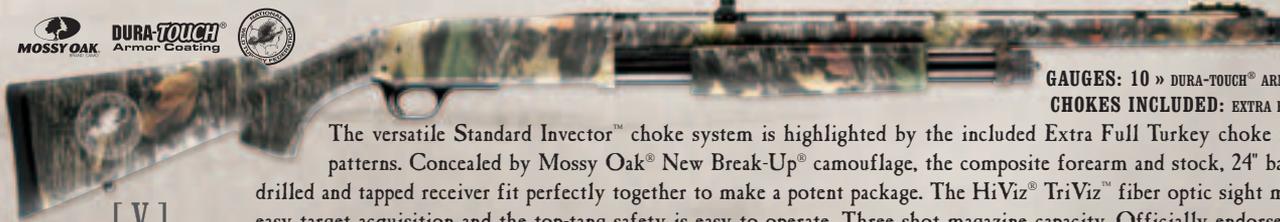

[ U ]

Rugged composite stocks are available in Mossy Oak® New Shadow Grass®, Mossy Oak® New Break-Up® or black composite Stalker configurations. Camo models feature the Dura-Touch® coating for all-weather protection. It features a three shot magazine capacity and the top-tang safety is easy to operate.

GAUGES: 10 » DURA-TOUCH® ARMOR COATING

CHOKES INCLUDED: FULL, MODIFIED, IMPROVED CYLINDER

## NWTF BPS 10 GAUGE, MOSSY OAK® NEW BREAK-UP®

[ V ]

The versatile Standard Invector™ choke system is highlighted by the included Extra Full Turkey choke for tight patterns. Concealed by Mossy Oak® New Break-Up® camouflage, the composite forearm and stock, 24" barrel, and drilled and tapped receiver fit perfectly together to make a potent package. The HiViz® TriViz™ fiber optic sight makes for easy target acquisition and the top-tang safety is easy to operate. Three shot magazine capacity. Officially endorsed by the National Wild Turkey Federation.

GAUGES: 10 » DURA-TOUCH® ARMOR COATING

CHOKES INCLUDED: EXTRA FULL TURKEY

# BPS THE WORKHORSE OF SHOTGUNS.

*The Browning BPS shotgun is what a pump shotgun is meant to be. Extremely reliable, the BPS is built to take on the worst conditions waterfowl, upland, turkey and deer hunting can bring. With dual, machined steel action bars, steel receiver, bottom ejection and top-tang safety, the BPS is the shotgun to have for all seasons.*

« CHOKE TUBES »

With the exception of the Game Guns, all BPS shotguns include either Standard Invector™ or Invector-Plus™ interchangeable Full, Modified and Improved Cylinder choke tubes. Turkey models feature an Extra-Full Turkey tube.

« SIGHTS »

Nickel silver sight bead on hunting models. 24" Mossy Oak® New Break-Up® models feature the HiViz® TriViz™ fiber optic sight system.

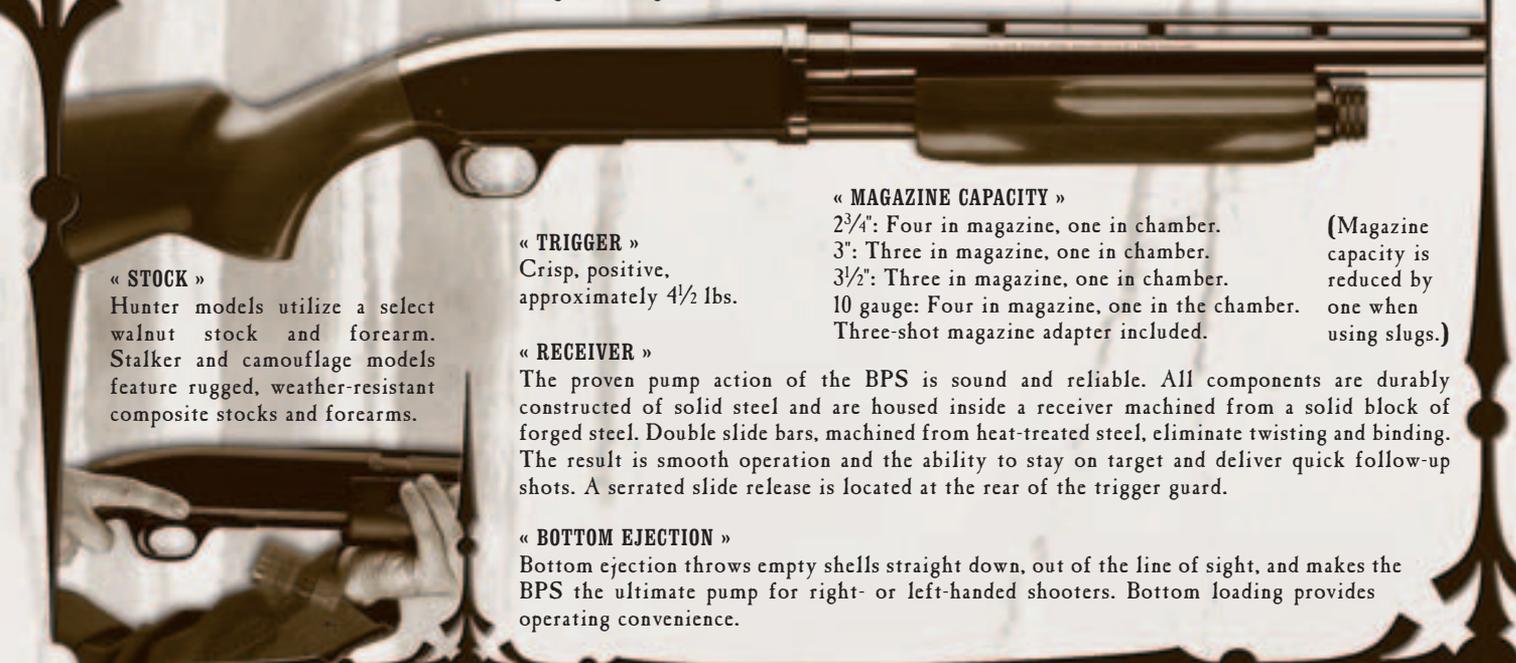

« BARREL »

With the exception of the Game Guns, all BPS 12 and 20 gauge shotguns feature back-bored barrels and the Invector-Plus™ choke tube system (see information on back-bored barrels on page 13). All 28 gauge and .410 bore BPS models are standard bore and utilize the Standard Invector™ choke tube system. A high-post, ventilated rib with matte sighting plane provides maximum heat ventilation and raises the line of sight, keeping recoil off the cheek and on the shoulder.

« SAFETY LOCK »

All Browning firearms are shipped with a free trigger lock (shown), cable lock, padlock, or chamber lock depending on model, to assist in the safe storage of firearms.

« SAFETY » The thumb-operated, top-tang safety on the BPS can be easily operated by right- and left-handed shooters, even with gloved fingers.

« STOCK »

Hunter models utilize a select walnut stock and forearm. Stalker and camouflage models feature rugged, weather-resistant composite stocks and forearms.

« TRIGGER »

Crisp, positive, approximately 4½ lbs.

« RECEIVER »

The proven pump action of the BPS is sound and reliable. All components are durably constructed of solid steel and are housed inside a receiver machined from a solid block of forged steel. Double slide bars, machined from heat-treated steel, eliminate twisting and binding. The result is smooth operation and the ability to stay on target and deliver quick follow-up shots. A serrated slide release is located at the rear of the trigger guard.

« MAGAZINE CAPACITY »

2¾": Four in magazine, one in chamber.  
 3": Three in magazine, one in chamber.  
 3½": Three in magazine, one in chamber.  
 10 gauge: Four in magazine, one in the chamber.  
 Three-shot magazine adapter included.

(Magazine capacity is reduced by one when using slugs.)

« BOTTOM EJECTION »

Bottom ejection throws empty shells straight down, out of the line of sight, and makes the BPS the ultimate pump for right- or left-handed shooters. Bottom loading provides operating convenience.

## BPS, MOSSY OAK® NEW BREAK-UP®

[ A ]

**GAUGES:** 12 | 20 » DURA-TOUCH® ARMOR FINISH  
**CHOKES INCLUDED:** EXTRA FULL, MODIFIED, IMPROVED CYLINDER  
 Choose from field models with 3" or 3½" chambers.

The composite stock and forearm houses either a 26" or 28" barrel.

The special NWTf Turkey model (shown) features a 24" barrel (22" on 20 gauge), a HiViz® TriViz™ fiber optic sight, Extra-Full Turkey choke tube and the NWTf logo on the stock. The receiver on all BPS Turkey models is drilled and tapped for a scope base. Officially endorsed by the National Wild Turkey Federation.

## BPS, MOSSY OAK® NEW SHADOW GRASS®

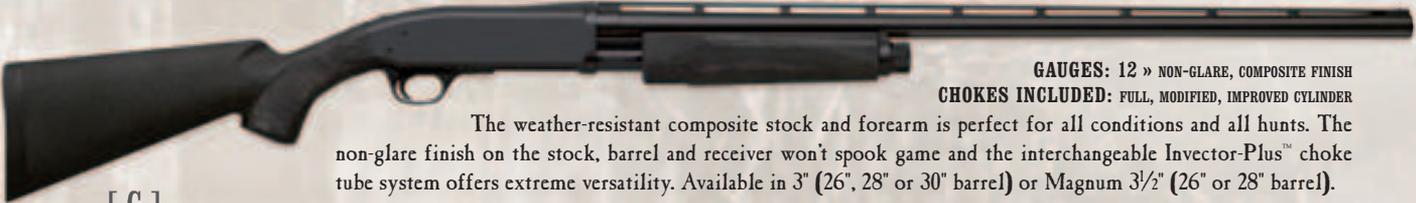

[ B ]

**GAUGES:** 12 » DURA-TOUCH® ARMOR FINISH  
**CHOKES INCLUDED:** FULL, MODIFIED, IMPROVED CYLINDER

A rugged composite stock and forearm with Dura-Touch® armor finish is built for all weather conditions. Available in 3" or 3½" chambers with a 26" or 28" barrel. Bottom ejection is perfect for right- and left-hand shooters.

## BPS STALKER

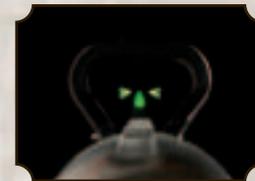

[ C ]

**GAUGES:** 12 » NON-GLARE, COMPOSITE FINISH  
**CHOKES INCLUDED:** FULL, MODIFIED, IMPROVED CYLINDER

The weather-resistant composite stock and forearm is perfect for all conditions and all hunts. The non-glare finish on the stock, barrel and receiver won't spook game and the interchangeable Invector-Plus™ choke tube system offers extreme versatility. Available in 3" (26", 28" or 30" barrel) or Magnum 3½" (26" or 28" barrel).

NWTf BPS turkey guns feature the HiViz® TriViz™ fiber optic sight.

## BPS FIELD GUNS: DESIGNED TO PERFORM, BUILT TO LAST.

*The BPS pump shotgun was introduced in 1978, and has been a proven mainstay in our line ever since. It has strong, double action bars that eliminate twisting and binding so the action cycles smoothly. It features bottom ejection so shells are thrown out of your line of sight and makes the BPS perfect for right- and left-handed shooters. The top-tang safety is convenient and allows you to easily check safety status. Pump shotgun aficionados demand a gun that will hold up to the rigors of fast, rugged action, and nothing compares to the durability of the finest pump shotgun on the market. Enjoy shooting a pump? Then shoot The Best There Is®.*

### BPS HUNTER

**GAUGES:** 12 | 20 | 28 | .410 » SATIN FINISH

**CHOKES INCLUDED:** FULL, MODIFIED, IMPROVED CYLINDER

12 and 20 gauge models feature finely finished select walnut stocks and forearms, the interchangeable Invictor-Plus™ choke tube system, and are available with a 26" or 28" barrel. A recoil pad is included on 12 gauge models only.

28 gauge and .410 bore models feature the versatile Standard Invictor™ choke tube system and a select walnut stock and forearm. The 28 gauge is available in a 2¾" chamber with a 26" or 28" barrel. The .410 is available in a 3" chamber with a 26" barrel.

[ D ]

### BPS RIFLED DEER HUNTER

**GAUGES:** 12 » SATIN FINISH

**CHOKES INCLUDED:** RIFLED BARREL

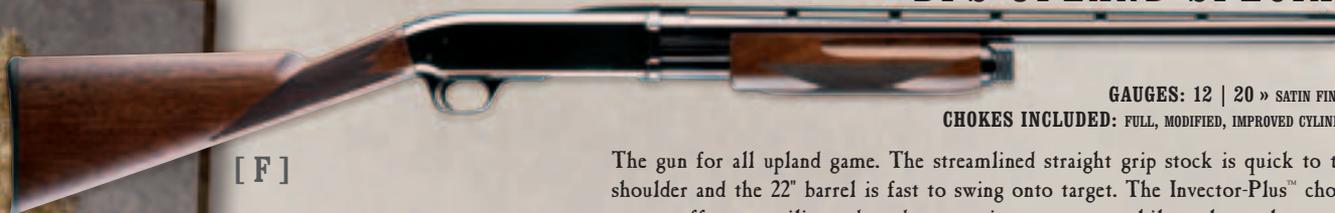

Thicker, rifled barrel walls are designed for slug ammunition only. A low profile cantilever scope mount allows for cleaning without affecting its accuracy. The short 22" barrel is perfect for thick woods. Rate of twist: 1 in 28".

[ E ]

## BPS UPLAND SPECIAL

[ F ]

GAUGES: 12 | 20 » SATIN FINISH

CHOKES INCLUDED: FULL, MODIFIED, IMPROVED CYLINDER

The gun for all upland game. The streamlined straight grip stock is quick to the shoulder and the 22" barrel is fast to swing onto target. The Invector-Plus™ choke system offers versatility and produces consistent patterns, while a select walnut stock and forearm adds to its fine looks. Choose from 12 or 20 gauge.

## BPS MICRO

[ G ]

GAUGES: 20 » SATIN FINISH

CHOKES INCLUDED: FULL, MODIFIED, IMPROVED CYLINDER

The easy to swing 22" barrel, closer pistol grip stock and lighter weight make it ideal for women and young or smaller shooters. A select walnut stock and forearm adds a classic look.
