The Winning Edge

Todd Jarrett just keeps on winning with Para, becoming the first USPSA Four-Gun Champion. *page 18*

The Black Watch Companion is one very serious defensive handgun. It combines the proven authoritative power of the .45 ACP cartridge with the lightning speed and positive safety features of the award-winning LDA trigger system.

page 25

THE NEW POWER EXTRACTOR™ UNARGUABLE RELIABILITY

Para's new Power Extractor (or PXT™) eliminates the weakest link in the original design of the 1911, and is the 21st century incarnation of the world's greatest pistol. The new Para Power Extractor is a massive claw that gives you 50 percent more contact with the rim of the .45 ACP case for controlled feeding of the cartridge from the magazine into the chamber and positive extraction for infallible ejection of the empty case.

The Power Extractor's pivoting claw is always under proper

The new Power Extractor, shown in a cutaway of a slide, pivots under spring tension and the hook is 50% larger than the original.

tension, shot after shot. Only from the innovative genius of Para comes a massive internal extractor that enhances the performance of the 1911, while maintaining the matchless esthetics of this classic design.

The question many are asking is not, "Do I want single-action or double-action, and do I want high capacity or single stack?" but "Which Para do I want?" Only Para gives you all of these choices, and all of them come with the new PXT technology.

HI-CAP LTC • Order No. PCX1445E

Para's new Lt. Colonel pistol has just gone high-capacity, offering 14* + 1 rounds of potent .45 ACP firepower. This compact pistol has the same frame as Para's full-size 1911, but the slide and barrel have been shortened to 4.25-inches.

NEW

**WARTHOG
Order No. WHX1045R**

**P12-45
PX1245S***

The P12-45 is small enough to be unobtrusive, yet proportioned correctly to be comfortable and controllable even in a large hand. The P12-45 features a 3.5-inch barrel, 12*+1 round capacity, and improved feeding and extracting reliability compliments of Para's Power Extractor technology. It is available in a satin stainless finish.

**P13-45
PX1345S***

The P13-45 includes all the standard Para features that competing brands offer only as custom extras—low-mount rear sight, dovetail front sight, full-length guide rod, match-quality ramped barrel, flared ejection port, beavertail grip safety and Para's new Spec Ops green and black finish.

**P14-45
PX1445S***

The Para P14-45 is the latest version of the full-size pistol that made every other Model 1911-style obsolete back in 1990. Back then, there was—and still is—no arguing with 14*+1 rounds of .45 ACP firepower.

*Where restricted, models available with 10-round magazines.

HI-CAP SINGLE-ACTION

Today, you have a wide choice of single-action .45 ACP handguns based on the classic Model 1911 design. Only Para offers meaningful improvements on the original John Browning design in terms of performance, safety and accuracy. Para's solid steel frame has stood the test of time and durability, and is a proven winner in the shooting sports and in the field.

From a full-length guide rod at the muzzle to the competition hammer at the rear of the slide, Para Power Extractor PXT™ pistols are loaded with extras including a match trigger, flared ejection port, extended slide lock safety, beavertail grip safety, ultra-thin durable polymer stocks and high-visibility, low-mount, dovetailed, three-dot sights.

Dollar for dollar, the Para Hi-Cap PXT has more custom extras as standard than any other high capacity pistol in its class. Only Para gives you ramped barrels and the patented Power Extractor technology for ultimate reliability and accuracy to give you the winning edge.

Competition Hammer

Beavertail Grip Safety

Full-Length Guide Rod

STEALTH WARTHOG • Order No. NHX1045N

Para's new special edition Stealth Warthog has all the power of the super-compact Warthog, while boasting a non-reflective all-black finish and tritium night sights. Despite its small size, the Stealth Warthog is also remarkably controllable, thanks to its superbly engineered and contoured grip design.

Both the Warthog (shown here) and the new Stealth Warthog have match grade 3-inch cone barrels for exceptional accuracy in micro-compact pistols.

STEALTH WARTHOG NO SIGHTS UNSEEN!

The Para Warthog is the world's smallest .45 ACP, 10+1 round semi-automatic pistol. It is an extraordinary handgun... only 6.5 inches in length and 4.5 inches high including the magazine.

But there are missions that require you to see and not be seen, and you may need to bring the power of the Warthog on target. Under low-visibility conditions, you need to see your sights. The new Stealth Warthog, with its non-reflective all-black Para Kote™ finish and tritium night sights, answers the call. We affectionately call it the "Nite Hawg" because it lets you own the night.

All Para pistols are shipped with two magazines. And in the case of both the original and the Stealth Warthog, there is a bonus on the second magazine – it comes with a grip extension. The floor plate on the second magazine adds length to the grip giving you more gripping surface and better control, but does not alter the capacity of the magazine.

**STEALTH
P14•45
PX1445E***

The full-size Stealth P14•45 is the classy all-black version of the popular 1911 pistol. It has a thin grip, a beavertail safety, improved sights, a flared ejection port and a host of other features usually associated with costly custom extras.

**P18•9
PX189S***

The 9mm Parabellum cartridge has been in use for more than a century and is now a worldwide standard for law enforcement and the military. The full-size Para P18•9 offers the highest capacity – 18*+1 rounds – of any 9mm handgun produced today.

**WARTHOG
WHX1045R**

The latest super-compact, high-capacity .45 with truly awesome firepower is the new Para Warthog. There is no .45 ACP ten-round, semi-auto in the world smaller than the Warthog. This extraordinary pistol is only 6.5 inches long and 4.5 inches high, including the magazine.

*Where restricted, models available with 10-round magazines.

The fixed sights on the Stealth Warthog are low-mount three-dot tritium night sights.

The rear low-profile sight with tritium inserts (shown here) is dovetailed into the slide of the Stealth Warthog.

STEALTH S14•45 LIMITED
Order No. SX1445E

S12•45 LTD
SX1245S*

The S12•45 Limited features a 3.5-inch match-grade barrel, Novak snag-free adjustable rear sight and Para's elegant Sterling finish. But this pistol is about more than just looks. In addition to 12*+1 rounds of .45 ACP firepower in a compact frame, it has the feeding and extracting reliability of the Power Extractor.

S14•45 LTD
SX1445S*

You could send your full-size .45 off to a custom pistolsmith, pay big bucks and wait for months... and not have a gun approaching the out-of-the-box performance of the Para S14•45 Limited. This pistol is also available in Para's all-black Stealth finish.

STEALTH
S16•40 LTD
SX1640E*

The Stealth S16•40 Limited, with its matte black Para Kote™ Stealth finish, has the incomparable Power Extractor for feeding and extracting reliability, 16*+1 round .40 S&W firepower, and a host of custom-shop extras. The S16•40 is also available in Para's Sterling finish.

*Where restricted, models available with 10-round magazines.

HI-CAP SINGLE-ACTION LIMITED

Para pistols have always been known for outstanding out-of-the-box performance, from the first shot to the last. After all, what other pistols offer such custom-grade amenities as a ramped barrel, reinforced frame, beveled magazine well, a high-capacity double-column magazine and our superior new Power Extractor™ technology as standard equipment? Even so, we are quite aware that Para customers have been known to send their pistols out for custom extras.

That's why Para offers our Limited Series models... a total package that includes all the most-asked-for custom features for a fraction of the price. Each Limited pistol has a full-length recoil guide system that eliminates spring blind. Then there's the front and rear slide serrations which make for easier slide retraction. The competition trigger with an overtravel stop eliminates backlash. The tuned action and the adjustable target sights let you break your shot at just the right moment. The ambidextrous safety facilitates southpaw or "support hand" shooting. And best of all, these features come standard, so you can own a superior pistol with no wait.

S13•45 LIMITED • Order No. SX1345S

13*+1 round .45 ACP capacity in a compact frame plus a host of custom-shop features as standard... you can pay a lot more for a tricked out "factory custom" than you'll pay for a Para S13•45 Limited, but you won't get a better—or more reliable—gun.

NEW

COLONEL • Order No. DCX1445E

High capacity firepower just got easier to carry with the introduction of Para's new Colonel. This LDA pistol has a shortened slide and barrel, but still gives you a full 14*+1 rounds of powerful .45 ACP firepower.

**HI-CAP .45
Order No. DX1445S**

**STEALTH
HI-CAP .45
DX1445E***

The Stealth Hi-Cap .45 is the classy all-black version of this full-size LDA pistol. The non-reflective baked on finish is highly durable and gives the pistol a look that can't be beat. Only Para has ramped barrels and the patented technology of the new Power Extractor™ for ultimate reliability and accuracy to give you the winning edge.

**HI-CAP .40
DX1640S***

The Hi-Cap .40 is the popular .40 S&W LDA counterpart of the Hi-Cap .45. This full-size semi-auto incorporates the three vital LDA safety features: a thumb safety that disengages the trigger; a grip safety that locks the hammer assembly; and an internal firing-pin-block to guard against the possibility of accidental discharge.

**STEALTH
HI-CAP 9
DX189E***

The all-black Stealth Hi-Cap 9 combines an impressive 18+1* rounds of 9mm firepower with the advanced LDA trigger, giving you a high-power pistol that's both accurate and reliable. The Hi-Cap 9 is also available in Para's stainless finish (Order No. DX189S).

*Where restricted, models available with 10-round magazines.

LDA HIGH CAPACITY

The LDA trigger has dramatically reshaped the criteria by which shooters perceive and evaluate semiautomatic trigger performance. Imagine the instant readiness of a double-action coupled with the smooth, crisp trigger of a single-action with no transition and perfect shot-to-shot consistency.

But Para didn't just stop there. Through using high-tech, aerospace-grade investment castings for the frames and slides of all Para pistols, they managed to create a pistol with unparalleled durability.

Todd Jarrett has shot over a million rounds through his Para pistols in the last 14 years. The 18.9 LDA that he uses in IDPA competition has logged 105,000 rounds of 9mm ammunition since 1999.

And for those of you who live in areas where magazine capacity is restricted, Para still has options for you. All high capacity pistols from Para are offered with 10-round magazines. For ordering specifications, see page 32.

This 18.9 LDA is the pistol that Todd Jarrett used to win the 2003 Winter IDPA Championship. The current PXT Stealth model is the Hi-Cap 9 (Order No. DX189E).

HI-CAP LIMITED .45 • Order No. TX1445S

Para LDA High Capacity Limited pistols give you an even greater edge, taking double-action to a new level of performance. The LDA Hi-Cap Limited .45 includes as standard equipment a host of the most-asked-for custom shop performance features... items such as premium match-grade barrel, competition hammer, front and rear slide serrations, tuned trigger, trigger overtravel stop, adjustable rear sight and ambidextrous safety.

**HI-CAP LIMITED .45
Order No. TX1445S**

LDA HI-CAP LIMITED

The Para LDA Limited High Capacity pistols are the best of the best. You have the winning advantage of the remarkable Light Double-Action trigger combined with our famous high capacity frame and all the extra features you would expect from a custom shop pistol. And you don't have to wait months or years to put your hands on one of the "Limiteds." Para's LDA Limited Series gives you competitive performance right out of the box!

You can purchase a Para pistol with confidence, knowing that Para maintains the highest quality control standard in the firearms industry – bar none! While several competitors boast that their barrels are air-gauged to verify consistency within one thousandth of an inch (.001"), Para works to a match-grade plus or minus four ten-thousandths of an inch (+/- .0004").

An ambidextrous slide lock safety is one of the many custom extras that come standard on Limited pistols.

Para inspection is the toughest in the industry. Para uses a CNC Coordinate Measuring Machine that checks every single dimension of a component against a computer model. Finally, every Para pistol is test-fired before it is allowed to leave the plant. So whatever Para pistol you choose, you can be assured that it is the most advanced, best-performing and reliable pistol of its kind.

**STEALTH HI-CAP LTD .45
TX1445E***

Para's Stealth Hi-Cap Limited .45 gives you yet another choice—offering our popular .45 model in a classy new non-reflective finish. Included as standard equipment are a host of the most-asked-for features that you'd normally obtain only as costly aftermarket additions. This superb pistol holds 14*+1 rounds of .45 ACP.

**HI-CAP LTD .40
TX1640S***

Included as standard in this .40 S&W caliber pistol are features like a premium match-grade barrel, competition hammer, front and rear slide serrations, tuned trigger, trigger overtravel stop, adjustable rear sight, ambidextrous safety, and of course the increased reliability and extraction that only comes from Para's new Power Extractor technology.

**STEALTH HI-CAP LTD 9
TX189E***

The all-black Stealth Hi-Cap Limited 9 gives you the latest in shooting technology. The LDA trigger system offers a sweet, smooth trigger pull with every shot, while the new Power Extractor gives you increased feeding and extracting reliability.

*Where restricted, models available with 10-round magazines.

SPEC OPS TAC-FOUR • Order No. CTX1345G

The Para Tac-Four LDA pistol offers 13*+1 rounds of .45 ACP firepower along with the extra sight radius of a tactical-length 4.25-inch barrel. And now carrying the Tac-Four just got easier with Para's new highly durable Green Polymer Carry Case. Extra cases are available from the Para Pro Shop—your single online source for all Para factory parts and accessories. For more on the Pro Shop, see page 33.

CARRY 12
Order No. CTX1245N

HI-CAP CARRY OPTION™

Para is the company that made High Capacity and Light Double-Action synonymous with .45 ACP. Para's Carry Option pistols are the ultimate defensive handguns thanks to the security and shootability of the LDA trigger system plus recoil absorbing, solid stainless steel construction in a compact package.

At Para, we want to give you the option of carrying the best with no compromise, that's why Para gives you the most choices – from ultra flat, single stack to high capacity carry pistols. And only Para Carry Safe™ pistols give you the confidence of a hammer down carry with the assurance of our triple safety system on all LDA pistols.

Because there are times when every round counts, Para's new Carry Option pistols give you the advantage of high capacity magazines with 12 and 13 rounds of proven .45 ACP stopping power. Combine that with features such as a flush hammer and bobbed beavertail for concealability, add the reliability of Para's Power Extractor™ technology, and you've got a defensive handgun that gives you the winning edge.

The Carry 12's three-dot tritium night sights are shown at left.

CARRY 12
CTX1245N*

The compact Carry 12 has a 3.5-inch barrel and 12*+1 rounds of potent .45 ACP firepower, the security and shootability of the LDA trigger system plus recoil absorbing solid stainless steel construction. It comes standard with three-dot tritium night sights so you can see your sights under the most demanding situations.

TAC-FOUR
CTX1345S*

Although the Tac-Four is designed as a defensive handgun, don't be surprised at competition-level results when you take it to the range... the remarkable anti-flinch LDA trigger system is that good! The flush hammer and bobbed beavertail make for a more concealable, snag-free and easy-drawing package.

**SPEC OPS
TAC-FOUR**
CTX1345G*

Not only is the Spec Ops Tac-Four one of the most powerful carry pistols on the market today, but it looks good too. Featuring Para's highly durable new green and black finish, this pistols also packs 13*+1 rounds of .45 ACP firepower.

*Where restricted, models available with 10-round magazines.

STEALTH CARRY • Order No. CWX645B

The super-compact .45 ACP Para Carry has just taken on new duties. The new all-black Stealth Carry has a non-reflective, highly-durable Para Kote™ finish with rich black polymer stocks and a subdued medallion making it the perfect companion for those deep cover assignments. And to help make sure that every shot goes where you want it to, the new Stealth Carry comes with the Novak Extreme Duty® fully adjustable rear sight.

NEW

PARA CCW
Order No. **CCWX745S**

CARRY
CWX645S

The award-winning Para Carry was declared the "World's Smallest DAO .45 Auto" by the editors of GUNS & AMMO magazine when it was introduced in 2001. And measuring just 6.5 inches long and 4.75 inches high, it is the smallest autoloading .45 ACP pistol ever in production.

CCO
CWX745S

With its 3.5-inch barrel and extra concealability features, this may well be the ultimate defensive handgun. This one has it all... 7+1 rounds of .45 ACP, flush hammer and bobbed beavertail, low-profile slide lock and the new Griptor grasping grooves on the front strap of the pistol that aid in controlling recoil during rapid fire.

CCW
CCWX745S

Winner of the 2003 GUNS & AMMO Gun of the Year Award, the Para CCW is one of a special series of single stack LDA autos engineered to offer the ideal balance between concealability and shootability, and what handgun writer Wiley Clapp refers to as perhaps "the optimum concealed carry pistol." The 4.25-inch barrel and noticeably short pistol butt make for a compact handgun that's easy to carry.

LDA SINGLE STACK CARRY OPTION™

When you're going undercover, you need a carry pistol that is compact and easy to conceal. But Para realizes that just because the pistol is smaller, it doesn't mean you should have to settle for less. Now, Para brings you GRIPTOR™ grasping grooves, located on the slide and front strap of every Single Stack Carry Option pistol. These grooves give your hand more holding surface, while helping you to naturally control recoil during rapid fire.

Para's award-winning Carry Safe™ line of pistols with their triple safety system let you carry them hammer down but ready

for action when you need them. And all of the Para Carry Option pistols have flush hammers and a rounded grip safety to prevent snagging on clothing. Add the feeding and extracting reliability of the exclusive new Para Power Extractor™ that comes in all Para pistols, and you have a series of Carry Option pistols that can't be beat.

Novak's Extreme Duty® fully adjustable rear sight, available on the Stealth Carry and S12•45 Limited, features the classic snag-free contours for which Novak is known.

1999

2000

WHEN WE WIN, YOU WIN

Para's Unprecedented Four "Gunny" Awards

The world's toughest and most experienced firearms critics are the writers and editors of the firearms press. They shoot and review thousands of guns every year. And every year, they unfailingly give top reviews to Para. One of the most respected publications in the firearms field, GUNS & AMMO magazine, has awarded its prestigious annual "Gunny" award to Para an unprecedented four times: in 1999 for the Para 14•45 LDA; in 2000 for the 7•45 LDA; in 2001 for the Para Carry; and in 2003 for the Para CCW, cited as "the optimum concealed carry pistol."

PARA CARRY
CWX645

We at Para are proud to have been chosen for these distinctions by GUNS & AMMO's editors and readers. More important—you are the real winner! What these awards really mean is that when you buy Para, you're getting a pistol that's rated the best by the best, with performance, quality and reliability that can't be topped.

Todd Jarrett is the first to win all four USPSA national championships, and he did it with four different Para pistols.

Para pistols, with their cut rifling and fully ramped barrels, are known for their consistent accuracy and gave Jarrett the winning edge when he won the Production, Limited, Limited 10 and Open divisions at the USPSA nationals.

"It's important to have a gun you can trust," said Jarrett who's been shooting Para pistols since 1990.

"And the LDA, bar none, is the lightest, sweetest trigger pull on the market today. There are no other triggers like it."

2001

2003

STAINLESS STEEL LTC • Order No. PCX745S

Para's popular Lt. Colonel compact, single stack, 1911 pistol is now available in all-weather stainless steel. The LTC has the same frame as a full-size 1911 but the slide and barrel have been shortened to 4.25-inches. All models of the LTC hold 7+1 rounds of .45 ACP. The Para LTC is also available in either an alloy or steel frame with our Para Kote™ Regal finish.

NEW

Every model Para comes with an integral ramp and supported chamber, match-grade barrel to give you utter reliability and outstanding accuracy.

PXT™ SINGLE-ACTION, SINGLE STACK

For years customers, dealers, distributors and writers have suggested to Para's President, Ted Szabo, that he build a classic single-action, single stack 1911 to complement his company's innovative high capacity and his revolutionary light double-action (LDA) 1911-style pistols.

But Szabo finds no satisfaction in simply copying someone else's design if there's no way to improve it. He realized the weakness in Browning's original 1911 design was the extractor. If the extractor does not maintain the proper tension, it can cause feeding problems during the extraction and feeding cycle of the slide.

Using the latest CAD/CAM design computers, Szabo studied the function of the extractor and looked at what areas could be improved. By giving the extractor a greater range of movement, he created not only a better extractor, but also improved feeding. The other area of improvement was the size of the claw on the extractor; it is 50 percent larger for positive feeding and extraction of every round.

The Power Extractor™ takes the classic 1911 into the 21st Century and is now in every new Para pistol.

The rear of the Power Extractor is the same size as the original, but you have a massive claw at the front for utter reliability.

OPS
PCWX745S

NEW

The new super compact Para OPS pistol has a 3.5-inch barrel and is the single-action mate to the LDA CCO. In addition to a flush hammer, bobbed beavertail and a low-profile slide lock, it features the new **GRIPTOR™** grasping grooves that give your hand more holding surface on the front strap of the pistol, and naturally help you to control recoil.

LTC
PCX745E

Para's Single-Action, Single Stack line brings the Power Extractor technology to this series of classic pistols. The LTC has a 4.25-inch barrel and offers 7+1 rounds of potent .45 ACP firepower. It is available in stainless steel, and models that have the Para Kote™ Regal finish come with either an alloy or steel frame.

1911 SSP
PX745E

This Super Sport Pistol is our full-size 1911 Single-Action, Single Stack pistol with our patented Power Extractor for ultimate reliability. This 1911 has the elegant Regal finish and is loaded with extras such as match-grade ramped barrel, competition trigger and hammer, low mount three-dot fixed sights and Cocobolo stocks.

**BLACK WATCH SSP
Order No. DX745E**

Para's Black Watch SSP has it all—the great looks of its two-tone black and green Para Kote finish, the comfortably thin single stack grip, the incredibly smooth LDA trigger pull, and the feeding and extracting reliability that only comes from Para's Power Extractor technology. Add extras such as a flared ejection port, beavertail grip safety, and high visibility, low-mount, dovetailed, three-dot sights, and you have one of the best values in the art of the handgun.

LDA SINGLE STACK

While many people in the industry have tried to create a double-action autoloading pistol, they have always had to struggle against the heavy trigger pull that was required to cock and release the hammer. But it was the genius of Para that finally broke through the old way of thinking that a double-action trigger had to be long and heavy, making it hard to hit your target.

Para's light double-action (LDA) trigger system gives you a smooth trigger pull shot after shot. Because Para's LDA trigger is so consistent, people like *Guns* Editor Jeff John have found, "The LDA is rapidly becoming my favorite 1911. The funny thing is, I now shoot the LDA better than I do a single-action 1911."

The LDA was not created to replace the single-action pistol, it was created to give you the choice of trigger systems in the most popular handgun platform of all time, the 1911. Para is the only maker of 1911-style pistols that gives you the choice of single-action or our exclusive light double-action.

For those shooters like John who like a trigger pull that "is more like an exceptionally well-tuned revolver's trigger pull than anything else" Para created the LDA. If you have not experienced the remarkable LDA trigger system visit a Para Partner Range to try one today and see why we call this trigger, "sweet!" Para is the only one that offers you single stack or high capacity models to fit your hands, allowing you to be the best shooter.

**BLACK WATCH
COMPANION
CX745S**

The Black Watch Companion combines the power of the .45 ACP cartridge with the lightening speed and positive safety features of the award-winning LDA trigger system. All of this comes in a compact package. Even with a 3.5-inch barrel and shortened frame, you still get the 7+1 capacity of a full-size pistol. The Black Watch Companion has a black slide, green frame with black fire controls and premium cocobolo stocks with gold medallion.

**TAC-S
DCX745E**

The Tac-S is the single stack version of Para's best selling pistol in 2003, the Tac-Four. The Tac-S gives you 7+1 rounds of potent .45 ACP firepower, the extracting reliability of the Para's Power Extractor technology, solid steel construction, and the security and shootability of the LDA trigger system.

**LDA SSP
DX745S**

The LDA Super Sport Pistol is Para's new full-size single stack pistol. The LDA SSP combines the natural balance and pointability that comes from the classically slim single stack design with the impressively smooth trigger pull that only an LDA pistol can give you.

The LDA trigger system, with its hammer-down carry and the sweetest, smoothest double-action trigger, is always ready when duty calls. You get the great feel of a 1911-style pistol with a trigger that makes you a better marksman.

TAC-S
Order No. DCX745E

SHOOT BETTER WITH A PARA LDA

Why is it that so many people like Jeff John have experienced shooting better with a Para LDA?

Todd Jarrett is the only USPSA Grand Master to have won all four National Championships: Open, Limited, Limited 10 and Production. He won the third championship in 2002 and his production pistol was a Para 16.40 LDA.

Jarrett is also one of those rare individuals who can teach others to do what he has done with a handgun. He spends a good part of every year on the road teaching competition shooters, law enforcement officers and military how to shoot a handgun fast and accurately. If you have ever been fortunate enough to attend one of his classes, you know what a phenomenal instructor he is.

One of the secrets to Jarrett's success is his ability to analyze every aspect of his shooting

game. Jarrett keeps detailed training records and is constantly reviewing them.

He was training for the 2002 World Speed Shooting Championships best know as the Steel Challenge. To win the Steel Master Title you have to have the top aggregate score in the Rimfire Championship, the Limited Championship and the Open Championship.

Jarrett was practicing on the Steel Challenge course and comparing his runs with his Single-Action S16•40 Limited pistol and with his 16.40 LDA. What he noticed was that his times across the course of fire were similar, but his hits on the steel plates were more consistent with his 16.40 LDA.

STEALTH LIMITED
Order No. TX745E

LDA SINGLE STACK LTD

The Steel Challenge stages all consist of five steel plates that must be hit or the shooter suffers a large penalty for missing a plate and stopping his time on the designated stop plate. Jarrett would shoot and hit his first plate with his LDA and, as he swung to the next plate, the two-hundredths of a second longer that it would take Jarrett to cycle the LDA trigger over his single-action trigger allowed the muzzle of the pistol to settle down from the recoil, giving him just that much longer to align it with next plate. The natural stroke of the LDA trigger aided in keeping the pistol on target as Jarrett stroked it through its hammer drop.

The LDA trigger has a longer, more natural stroke than the quick tap of a single-action trigger so you are less likely to slap the trigger and jerk the pistol, and your shot, off target. It is that smoothness in stroking the LDA trigger that gives you the consistency of hitting your target shot after shot.

If you want to shoot better, try a Para LDA. And if you want the winning edge in practical shooting competition, consider all of the out-of-the-box extras that come standard on the LDA Limited pistols—from adjustable competition sights to ambidextrous safeties.

LIMITED
TX745S

Start with the natural balance and pointability of Para's Single-Stack LDA pistols and add the performance-enhancing custom-shop extras of the Limited Series; the result is the peerless Para Limited. Built-in features include premium match-grade barrel, competition hammer, front and rear slide serrations, tuned trigger, trigger overtravel stop, adjustable rear sight and ambidextrous safety.

STEALTH LIMITED
TX745E

The all-black Stealth Limited features Para's new baked-on Para Kote™ finish. This new finish, only available from Para, is on the slide, frame and fire controls, and is extremely durable. Built-in features on the Stealth Limited include premium match-grade barrel, competition hammer, front and rear slide serrations, tuned trigger, trigger overtravel stop, adjustable rear sight, ambidextrous safety and the extracting and feeding reliability that only comes from the Para Power Extractor.

STEALTH HI-CAP LIMITED .45
Order No. TX1445E

This all-black pistol features Para's popular non-reflective Stealth finish, and is the perfect companion for any assignment. We know that modern law enforcement requires high-capacity handguns in highly effective calibers. That's why the Stealth Hi-Cap Limited .45 gives you 14*+1 round of potent .45 ACP firepower along with a host of custom-shop features like competition hammer, tuned trigger, trigger overtravel stop and adjustable rear sight.

ON DUTY WITH PARA

Para's Limited LDA models have been especially popular with those who protect our communities and the nation by serving in law enforcement. The Limited LDAs, with extras standard like ambidextrous safety and adjustable sights in highly effective calibers like .40 S&W and .45 ACP as well as 9mm, bring out the best marksman in you. Many agencies have already tested and approved Para for both on- and off-duty use; perhaps your agency should find out why.

INDIVIDUAL OFFICER PURCHASE

For those in Law Enforcement who have to purchase their own duty pistols, or simply choose to carry the latest technology, Para has the easiest program in the industry for you. We have a special Individual Officer Purchase Kit that you can use at any storefront gun shop in the country. Everything about this program is tailored for you, the Law Enforcement professional. Call us today to receive your Para Individual Officer Purchase Kit.

The Stealth Carry (Order No. CWX645B) with an overall length of 6.5 inches combines the security of the LDA trigger system with .45 ACP firepower to give you the ultimate undercover pistol.

UNLIMITED CHOICES

Para offers more than 45 models in single-action, double-action and your choice of single stack or high capacity pistols. Only Para gives you choices in size from micro-compact to full-size duty pistols in the most popular calibers, .45 ACP, .40 S&W and 9mm. And now you have the choice of satin stainless steel or the tough new Para Kote™ finishes to protect your firearm on duty.

TRIPLE SAFETY

Thanks to Para's remarkable triple safety system (firing pin block, grip and slide lock safeties), an LDA pistol can actually be safely carried hammer-down yet it's always ready when a quick response is required. Left-handed officers will appreciate the ambidextrous slide lock safety, standard on all Limited pistols and available as a special order on other models.

ADJUSTABLE SIGHTS

All Para Limited pistols come with fully adjustable rear sights which allow you to adjust for windage and elevation.

NEW PARA KOTE™ FINISHES

Para has long been known for producing practical pistols that feel good and shoot better, while still looking superb even in their classic stainless finish. But now Para goes one step further, giving you five distinct finishes perfect for show or combat. The all new Para Kote finishes are baked on and specially formulated for durability, ensuring that your Para will continue to look as good as it shoots. For more information about which finishes are available for each model Para, see the pistol specification charts starting on page 30.

PARA'S LIFETIME SERVICE POLICY

At Para, we believe that providing you with the best pistol you can own means that we will stand behind that pistol 100% for as long as you own it. Since the beginning of the Millennium, Para has offered a Lifetime Service Policy to each original retail purchaser of its pistols.

This means that we will provide the original retail purchaser of any one of our pistols with all necessary service, free of charge, for the lifetime of the pistol, where adjustment or repair is required due to some defect in materials or workmanship.

STERLING

Para's elegant new Sterling finish, available only on Limited Models, is all stainless steel completed by a black slide with polished sides. Comes with thin, tough black polymer stocks for Hi-Cap models, and double-diamond checkered cocobolo stocks for Single-Stack pistols.

PICTURED: S14•45 Limited • SX1445S

ULTRA DURABLE PARA KOTE™

BLACK WATCH

Para's Black Watch finish gives you a classy pistol that's perfect for combat, but still attractive enough for show. Features black slide, green frame with black fire controls and completed by double-diamond checkered cocobolo stocks.

PICTURED: Black Watch Companion • CX745S

STEALTH

This new non-reflective finish is perfect for those undercover assignments. It features a black slide and a black frame with black fire controls, and the baked on Para Kote™ finish is more durable than ever. Comes with black polymer grips for Hi-Cap and Carry Option pistols, and cocobolo grips for Single-Stack pistols.

PICTURED: Stealth Hi-Cap .45 Limited • TX1445E

SPEC OPS

Whether you're on a mission overseas or in the middle of a stakeout at home, the non-reflective olive drab Spec Ops finish is the choice for you. It features a green slide and green frame with black fire controls. All Spec-Ops pistols come with durable black polymer stocks.

PICTURED: Tac-Four • CTX1345G

REGAL

This stately new finish combines a black frame and slide with shiny stainless steel fire controls. Single-Stack models feature Para's striking double-diamond checkered cocobolo stocks with gold medallion and black polymer stocks with subdued medallion for Hi-Cap pistols.

THE WINNING EDGE...

People express their creativity in many ways. The traditional sculptor starts with a piece of marble and removes stone with his tools to reveal the figure or object hidden within that stone. Mold making is a unique three dimension art. In creating a mold you must conceive of the object and remove all the material that is the object. The cavity that is created is then filled with material that becomes your sculpture.

For me, the art of handgun design has been my lifelong passion and my sculptures come from the molds we make here at Para. Just as artists from one generation look to the genius of the previous generation, I have been inspired by John Moses Browning. Browning created a beautiful work of art when he designed the 1911 pistol. For some people it is the ultimate example of form and function. As great as Browning's 1911 was, I dreamed of making it even better by giving it more capacity.

There is a fallacy that more ammunition in a firearm is a bad thing; what is bad is not the firearm or the ammunition but the intent with which it is used. Handguns in the hands of the just are used to defend society from those who would trespass on our freedom and our lives. You may talk of the freedoms of speech, press and assembly but those freedoms are guaranteed by "the right of the people to keep and bear Arms."

Evil lies in the hearts of men and in the bureaucracies they create to exercise their tyranny over others. Strip the people of their right to defend themselves and their other freedoms are the toothless mutterings of slaves dreaming of liberty.

I know what it means to have your dreams of freedom crushed by a totalitarian government that is afraid of the free expression of art. When the government ceases to trust the people and takes the elitist attitude that only its bureaucracy knows what is best for others, then all forms of creative expression are suppressed and freedom lost.

I like to think that at Para we have created the art of high capacity to be used by those who would defend and serve the common good. The molds that we create in life are the future and because we need to pass on the right molds to our children, we are a sponsor of the Heritage Fund. With the sale of each Para pistol we are contributing to the future of the shooting sports and the right of a free people to self-defense.

No matter what we wish, only you can make the choice to use your Para firearm safely and responsibly. It has always been our hope and desire that you will always use our handguns to give you the winning edge in the shooting sports and, for those in law enforcement, the winning edge over those who would usurp the property and freedom of others. In 2005, may Para help you to better protect and serve your community and your country!
