THE HIGHEST STANDARD IN THE

new
for 2005

Look for new products throughout this year's catalog, including the Model 700™ XCR Xtreme Conditions Rifle (shown here).

2005 NEW PRODUCT HIGHLIGHTS

Pages 2-3

MODEL 700™ XCR. The new standard in rugged durability, the Model 700 XCR Xtreme Conditions Rifle is the most corrosion resistant rifle ever made.

Pages 4-5

MODEL 700™ SPS.™ One of the greatest gun values on the market today, the Model 700 SPS marks the next generation of hard-hitting, fully featured, affordable priced rifles.

Pages 4-5

MODEL XR-100™ RANGEMASTER.® Owning a competition-grade target rifle is more affordable than ever thanks to the new Model XR-100 Rangemaster.

Page 20-21

MODEL 11-87™ SPORTSMAN.® Touted as the best autoloader value on the market, the all-new 11-87 Sportsman line of synthetic 2 3/4" and 3" capable autoloading shotguns are reliable, rugged and versatile.

R3® RECOIL PADS. Developed by Sims Vibration Laboratories®, makers of LimbSaver™ noise and vibration dampening archery accessories, the R3 recoil pad uses a 3-step process to absorb vibration, redirect energy and compress under recoil. The result is perhaps the most advanced and effective recoil pad on the market today, equating to significantly reduced felt recoil for greater comfort and faster follow-up shots. Look for the R3 logo on featured guns throughout the catalog.

Pages 24-25

Model 870™ SP-T™ Super Magnum™ Thumbhole

TURKEY GUNS. Remington's famous line of Turkey Guns welcomes three new models this year with the additions of the new Model 870™ SP-T™ Super Magnum™ Thumbhole, the Model 11-87™ SPS-T™ Super Magnum™ NWT Edition, and the Model 870™ Express® Jr. NWT Edition.

HIGH COUNTRY.

There are places still unspoiled by encroaching civilization. Places where the thawing spring snow runs the course nature intended. Places where man's foot has never left its mark. There is a sanctity when you find yourself in such a place. It's when you realize what your feeling is more than just excitement, it's reverence. This is country where mankind shakes hands with raw nature. It's country where the first light of day emerges to illuminate virgin fields in an ethereal glow. And you'll know it when you see it, when you say to yourself in a voice that's just a whisper, "this is Remington® Country."

Made with pride in the USA.

Like those of you who share the passion, we know that hunting is more than a sport, it's an experience. And when an entire weekend turns into a single opportunity, you better be ready to make the most of it. That is why so many hunters choose Remington, and have for nearly 200 years. No other firearms and ammunition manufacturer combines so much tradition and experience with innovative technology and precision craftsmanship. You can feel it in the way a gun fits into your hands. You can see it in

the rich and graceful design. You can sense it, in the way the action flows and in the way it handles.

The reasons for choosing Remington are as numerous as the models of guns and types of ammunition we make. Some say it's the legendary accuracy. Some say it's the unbeatable value. And for some, it's because it was their father's choice, and his father's before that. Regardless of the reason, we remain unwavering on our dedication to producing firearms, ammunition and accessories which embody the highest standards in quality and are instilled with the spirit of a legendary brand – Remington.

ACCESSORIES. Take care of all your gun-related needs with Remington® premium accessories. This year, make sure you check out our new slings, bags, shooting vests, safes and much more. *Pages 60-75*

MODEL 700™ XCR

WILL YOU PUSH IT TO ITS LIMITS? OR WILL IT PUSH YOU TO DISCOVER YOURS?

Extreme conditions call for an extreme gun. This year, Remington® is proud to add the newest flagship to the Remington fleet, the Model 700™ XCR Xtreme Conditions Rifle. Never before has a rifle this durable and rugged been introduced to the world of hunting. The cutting edge in rifle design, the Model 700 XCR uses Remington's proprietary new TriNyte™ Corrosion Control System to make the Model 700 XCR virtually impervious to even the most extreme conditions. The TriNyte System takes firearm protection further than it's ever been before by using proven corrosion-fighting materials and an innovative, state-of-the-art application process. The result is a finish that provides scratch and corrosion resistance far superior to stainless steel alone and better than any other gun on the market.

Designed for shooters by shooters, the Model 700 XCR is built for superior handling in adverse conditions. Its feature laden synthetic stock is not only stylish and comfortable, but a technological marvel. Features include an R3® recoil pad from Limbsaver™ – the most effective recoil pad produced today – and patented rubber overmolding technology from Hogue® – a revolutionary technique incorporated into the grip and fore-end areas to provide the surest grip even in the slickest environments. The new standard in rugged durability, the Model 700 XCR Xtreme Conditions Rifle will have you delivering your appointed rounds while the others stay home.

MODEL 700™ XCR FEATURES:

- Proprietary TriNyte™ Corrosion Control System provides unprecedented corrosion resistance
- New stock featuring patented rubber overmolding technology from Hogue® on grip and fore-end areas and swivel studs
- Features a 24" standard caliber, or 26" magnum clean barrel
- Hinged floorplate magazine & R3® recoil pad from Limbsaver™ are standard features
- Drilled and tapped for scope mounts

For full caliber listings and specifications see page 82.

MODEL 700™

UNRIVALED OUT-OF-THE-BOX ACCURACY.

What makes the Model 700™ the most accurate out-of-the-box rifle sold today? It's in the way it comes together. A stronger and more uniform cylindrical receiver design provides a more consistent bedding area for the action in the stock. Add our famous Remington® "three-rings-of-steel" and you have one of the strongest actions ever conceived.

Strength is good, but its accuracy makes it the envy of every other rifle maker. A completely supported cartridge means tighter chambers and more exact alignment of the cartridge with the bore, while the cylindrical receiver and unique bedding design force the barrel to come to rest in the exact place every time, maximizing consistency from shot-to-shot and giving the Model 700 its renowned out-of-the-box accuracy.

Model 700™ XCR

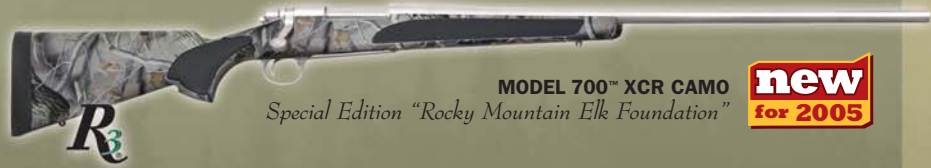

TriNyte™ Corrosion Control System. Sure stainless steel is durable. Still, it can contain trace amounts of carbon which, under harsh conditions, can quickly cause rust and corrosion. Remington's TriNyte Corrosion Control System provides an extra level of protection by encasing the rugged stainless steel barreled action with a multilayer, armor-tough coating consisting of electroless nickel and zirconium nitride.

Although armor-like in toughness, the TriNyte Corrosion Control System is not armor like in appearance. Advanced technologies such as Physical Vapor Deposition (PVD) coatings mean that the TriNyte Corrosion Control System is only a fraction of a human hair in thickness, resulting in a weather-defying toughness with an ultra-sleek finish.

There's no question we feel the TriNyte Corrosion Control System makes this the toughest rifle in the field today, but don't just take our word for it. In controlled laboratory testing, we subjected the Model 700™ XCR, along with its competitors, to rigorous saltwater corrosion tests. The Model 700 XCR beat the competition hands down. See the results for yourself at www.remington.com/xcr.

The Model 700™ XCR Camo "Rocky Mountain Elk Foundation" rifle comes with a beautifully engraved floorplate.

MODEL 700™ CLASSIC
Limited Edition in 308 Win

MODEL 700™ BDL™

MODEL 700™ FEATURES:

- Receiver machined from solid-steel bar stock resulting in uniformity and strength
- Cylindrical receiver design provides a solid bedding area in the stock for consistent shot placement
- Recessed bolt face locks up inside the counter-bored breech of the barrel which is surrounded by the receiver, forming "three-rings-of-steel" enclosing the cartridge case head for unparalleled strength
- Integral extractor is set in a groove inside the rim of the bolt face, uniformly supporting the cartridge head

~REMINGTON® MODEL 700™ DESIGN FEATURES~

MODEL XR-100™ RANGEMASTER®

COMPETITION GRADE. AFFORDABLY MADE.

Thought a competition-grade target rifle was out of your reach? Think again. New for 2005, the Model XR-100™ Single Shot Target Rifle utilizes the legendary XP-100 single-shot target pistol action. Its single-shot, solid-bottom receiver offers an extremely rigid and stable action, resulting in precision accuracy.

The XR-100 is fitted with a Model 40-XB™ target trigger. It is externally adjustable for pull weights from 1 1/2 - 3 1/2 lbs allowing the shooter to make adjustments at the range without disassembling the rifle, and features our varmint contour 26" barrel configuration. Its action is fitted to a black laminated thumbhole stock with beavertail fore-end and lightening-vent cuts under the barrel channel for better heat dissipation.

MODEL XR-100™ RANGEMASTER® FEATURES:

- Solid bottom single shot receiver for ultimate rigidity
- Equipped with Model 40-XB™ target trigger with external trigger pull weight adjustment
- Black laminated thumbhole stock for precise shot placement and vented fore-end for fast barrel cooling
- 26" varmint contour barrel with concave target crown
- Utilizes the legendary XP-100 single shot target pistol action

MODEL 700™ SPS™ (SPECIAL PURPOSE)

OF ALL ITS GREAT FEATURES, THE MOST REMARKABLE IS ITS PRICE.

There is a cost that comes with high performance, in this case, it's a lot less than you think. The Model 700™ SPS™ offers everything you love about the legendary Model 700, all at an extremely affordable price. Built to carry on the tradition of the Model 700 ADL™ Synthetic, the SPS is leading the way for the next generation of hard-hitting, fully featured, affordable priced rifles. From the rock-solid receiver design to the famous "three rings of steel," the Model 700 SPS offers the unrivaled out-of-the-box accuracy and high-end performance you've come to expect from America's most popular bolt-action centerfire rifle.

The Model 700 SPS features an improved, ergonomically designed synthetic stock for better handling and enhanced overall functionality. Standard amenities include an R3® recoil pad and hinged floor plate magazine. The Model 700 SPS and Model 700 SPS Stainless are available in a variety of short action magnum and standard short and long action caliber offerings, all with a 24" clean barrel. Or choose the magnum or ultra magnum with a 26" barrel. No matter which SPS you choose, you can rest assured your getting one of the greatest gun values on the market today.

MODEL 700™ VARMINT

THAT PRAIRIE DOG HAD IT COMING. FROM ABOUT 500 YARDS AWAY IN FACT.

Built on the famous Model 700™ cylindrical action, Remington® Varmint rifles are well known for being the most accurate rifles we produce for over-the-counter sale. This year, we'd like to welcome two newly designed members to this prestigious pedigree with the addition of the Model 700 VS SF™ II and the Model 700 VSF™.

Think of the Model 700 VS SF II as a facelift for the original VS SF. We've reconfigured our hand laid up composite stock, responding to the requests of varmint hunters across America. Changes include a newly contoured beavertail fore-end, palm swell, twin front swivel studs to accommodate sling and a bipod. Available in a black with spruce green webbing stock, the VS SF II keeps the original VSSF barreled action, only now with blackened flutes.

Like the VS SF II, the Model 700 VS™ gets a makeover in the form of the Model 700 VSF. Its new stock design mimics the VS SF II, but comes in desert tan with black webbing. Its traditional blued VS action now features a fluted barrel for enhanced heat dissipation.

MODEL 700™ VSF™
Varmint Synthetic, Fluted

new
for 2005

MODEL 700™ LV SF™ (LIGHT VARMINT)

AS DEADLY AND SWIFT AS THE PREDATORS YOU HUNT.

You can trace Remington's dedication to the varmint hunter back to 1967 – the year the Model 700™ BDL™ “Varmint Special” was introduced. Since then, Remington® has been an industry leader in varmint rifle technology, bringing you its greatest innovations. It has always been a priority for Remington to listen, and respond to the needs of serious varmint hunters and benchrest shooters – and this gun proves it.

With deadly accuracy and swift handling, the Model 700 LV SF™ is redefining the predator hunt. Based on the reliable Model 700 action, the Model 700 LV SF weighs a mere 6.75 pounds and features a stainless steel, short action, pillar bedded receiver; a blind box magazine; and a jeweled bolt. The 22-inch clean stainless steel barrel has a medium contour (0.657" muzzle O.D.) and is fluted to reduce overall weight and increase heat dissipation. Adding to the weight reduction is a custom designed, black composite stock featuring a semi-beavertail fore-end, swivel studs, and a recoil reducing, R3® recoil pad.

Available in four popular varmint calibers, the Model 700 LV SF is one of the most innovative rifles for the varmint and predator hunter on the move.

MODEL 700™ SPECIALTY

LIGHTWEIGHT CONSTRUCTION. "LIGHTS OUT" PERFORMANCE.

High country demands high standards, that's why we've built the phenomenally light Model 700™ Titanium. Weighing only 5 ½ pounds long action, 5 ¼ pounds short action, and 6 ⅜ pounds magnum – it's the ultimate rifle for high-altitude spot and stalk hunting. The key to its feathery feel starts with a titanium receiver that's impervious to weather (drilled and tapped for mounts). Titanium delivers incredible strength, but at a lighter weight than steel. Complementing the receiver is a bolt featuring spiral-cut flutes and a skeleton handle – both of which further reduce the overall weight. Finally, the stainless-steel barrel features a trim mountain-style contour (non-magnum calibers only) and is fitted in an ultra-lightweight, carbon-fiber composite stock reinforced with aramid fibers and fitted with sling swivel studs.

For wilderness or high country pack-in hunts that involve rigorous hiking, we make the appropriately named Model 700 Mountain Rifles. Extremely lightweight, they feature trim stocks and tapered barrels to deliver fast, carbine-like handling with full-bore range and accuracy.

Detachable Magazine

MODEL 710™

LEGENDARY ACCURACY, REMARKABLE VALUE.

Much like the Model 700,™ the Model 710™ possesses exceptional out-of-the-box accuracy, time-honored reliability, crisp, single-stage trigger design, ultra-fast lock time, and the famous "three-rings-of-steel" for superior action strength. But while much of the Model 710's base design is owed to its heritage, its real story starts with advancements made possible through the latest technology. Built in America's newest firearms plant – through state-of-the-art manufacturing systems – the Model 710 breaks new ground for firearms engineering and production. Principle among its many remarkable features is its innovative rugged barrel lock-up design and, all-new for 2005, a solid steel receiver for easier bolt operation. A shorter, 60-degree bolt throw allows for faster follow-up shots. Beyond the superior mechanics, the Model 710 features a uniquely textured gray synthetic stock with cheekpiece. The Remington® Model 710 is more than a remarkable value, it's truly a remarkable gun.

**Model 700™
Titanium**

MODEL 700™ MOUNTAIN FEATURES:

All the features of the Model 700 plus:

- Slim 22" mountain contour barrel to reduce weight
- Hinged floor plate magazine (Model 700 MTN LSS)
- Model 700 MTN DM features a detachable magazine

FOR FULL CALIBER LISTINGS AND OFFERINGS REFER TO PAGE 82.

MODEL 700™ TITANIUM FEATURES:

All features of the Model 700 plus:

- Receiver is machined from solid titanium, resulting in a 1/2 pound weight reduction over steel receivers
- Bolt body is spiral fluted and bolt handle is skeletonized
- Slim 22" "Mountain" (non-magnum only) contour stainless-steel hammer forged barrel further reduces weight (Magnum calibers feature a 24" magnum contour barrel)
- Custom designed, lightweight composite stock, reinforced with carbon and aramid fibers
- Action is pillar bedded
- All these features work together to produce the ultimate lightweight (5 1/2 lbs long action, 5 1/4 lbs short action, 6 3/8 lbs magnum) carry rifle to match the harshest conditions
- Magnum version equipped with the Remington® high-performance R3® recoil pad

MODEL SEVEN™

WE'VE TURNED COMPACT INTO IMPACT.

Model Seven™ With a precision balanced 20" barrel and an overall weight of just 6 1/2 pounds, it's easy to see why many hunters believe the Model Seven bolt action is the ultimate dense-cover rifle. But don't underestimate its range. The Model Seven still features the strength of our Model 700™ action and delivers exceptional accuracy for long-range shots. For youngsters or small-stature adults, the Model Seven Youth is available in four calibers with a 1"-shorter stock and carbon-steel action.

Model Seven™ Magnum. When we first introduced the Model Seven Magnum, chambered for the Remington® Short Action Ultra Mag cartridges, it literally changed the way a lot of serious hunters thought about compact rifle performance. No longer do shooters need to sacrifice ballistic performance for the advantages of a compact, swift handling rifle. Featuring a 22" magnum contour barrel and the same world-renowned action design as the legendary Model 700, the Model Seven Magnum boasts exceptional bolt operation with action strength, accuracy and reliability other factory-built rifles can't begin to match. All in all, it's no stretch to say that you're looking at today's ultimate compact magnum centerfire.

Model Seven™ LS

MODEL SEVEN™ FEATURES:

- 2" shorter overall length than Model 700™ counterparts make the Model Seven perfectly sized for small stature shooters
- Compact design ideal for thick cover hunting
- Boasts legendary strength of the Model 700 action: "Three-rings-of-steel" with the bolt face, barrel and receiver encasing the cartridge head
- Cylindrical receiver design provides a consistent bedding area in the stock
- Available in popular short action calibers as well as in Remington® Short Action Ultra Mag calibers for the ultimate in compact magnum performance

MODEL 673™

THE GUIDE'S FORMULA: MOVE FAST, HIT HARD.

In the mid-60's Remington® introduced the Remington Model 600™ Magnum, a rifle destined to become legendary with many big game guides. Decades later we bring to you a modern version of the classic Model 600 – the Model 673™ Guide Rifle. Based on the Model Seven™ action, this swift-handling rifle features a 22" magnum contour barrel with distinct machined steel ventilated rib and iron sights. It is the definition of fast target acquisition. But to consider the Model 673 as merely a performance oriented rifle is to sell it short. Adorned in a two-tone wide striped, laminated, weather resistant straight comb stock with deep cut checkering and swivel studs – it is an extremely handsome gun. The Remington Model 673. Looks *good*. Moves *fast*. Hits *hard*.

MODEL 673™ FEATURES:

- Machined steel ventilated rib with iron sights for fast target acquisition
- Action based on the popular Model Seven™ platform for strength and consistent shot placement
- High strength wood laminate stock boasts stylish alternating light and dark stripes, reminiscent of the legendary Model 600™ Magnum
- 22" magnum contour barrel allows for maneuverability without sacrificing ballistic performance
- Hinged floorplate magazine

The Model 673™ owes its striking good looks to a weather-resistant laminated stock of alternating dark and light veneers.

MODEL 7400™ & MODEL 7600™

IN A PERFECT WORLD, EVERY DEER WOULD BE A ONE SHOT KILL.

Maybe you flinched? Or the buck turned at the last split-second? Either way, our Model 7400™ and Model 7600™ centerfire rifles get you back on target. Instantly. Because not only are they built to deliver legendary Remington® first-shot accuracy, they're also designed for ultra-fast follow-up shots – without ever having to unshoulder your rifle. For autoloading fans, there's the gas-operated, soft-recoiling Model 7400 autoloader. Prefer a slide-action? There's the Model 7600 pump. Both feature quick-release magazines and Remington's rotary bolt lock-up design for exceptional strength, safety and hallmark reliability.

MODEL 7600™ FEATURES:

- Robust slide-action design allows for fast follow-up shots in the harshest conditions
- Action, slide release and safety based on the design of the Model 870™, America's most popular pump shotgun, for instantaneous end user familiarity
- Weight distribution and slim line design result in shotgun like balance and pointability
- 22" barrel with iron sights and receiver drilled and tapped for scope mounts allow for multiple sighting options
- Rotary-bolt lock-up provides rock solid action strength

RIMFIRE RIFLES

LOOKING FOR A CLASSIC RIMFIRE? CHOOSE YOUR MASTER.

For those sportsmen who still love the look and feel of classic rimfire rifles, our Model 572™ BDL™ Fieldmaster® and Model 552™ BDL Speedmaster®, may very well be the finest available. They combine richly blued carbon-steel barrels with stocks of generously checkered, high-gloss American walnut. But don't let the good looks fool you – these are serious shooters. The Model 572 BDL Fieldmaster is one of the most popular pump-action 22 rimfires made in America today. Ultimately versatile, it handles 22 Short, 22 Long and 22 Long-Rifle cartridges interchangeably. Other features include adjustable big-game sights, positive cross-bolt safety and grooved receiver for scope mounts.

The Model 552 BDL Speedmaster is the only American-made 22 autoloader that handles 22 shorts, 22 longs and 22 long-rifle cartridges interchangeably. Like its pump-action counterpart, it features adjustable big-game sights, positive cross-bolt safety and grooved receiver for scope mounts.

MODEL 7400™ FEATURES:

- Gas-operated action yields softer recoil and speed for quick, accurate follow-up shots
- Weight distribution and slim line design result in shotgun-like balance and pointability
- 22" barrel with iron sights and receiver drilled and tapped for scope mounts allow for multiple sighting options
- Rotary-bolt lock-up provides rock-solid action strength

MODEL 504™ & 504-T™

RIMFIRE RIFLE. CENTERFIRE ATTITUDE.

What do you get when you cross a rimfire with Remington's legendary bolt-action rifle dependability and accuracy? The Remington® Model 504.™ Crafted to exacting quality and design criteria, the Model 504 is destined to become the standard by which other bolt-action rimfire rifles are judged.

This year, Remington's proud to introduce the newest member to the Model 504 family – the Model 504-T™ LS HB. Designed with serious target shooters and varmint hunters in mind, this Model 504-T comes with a free-floating heavy target contour barrel and a brown laminate Monte Carlo stock. Satin blued finished and available in 17 HMR and 22 LR – with the latter featuring an Eley Match chamber.

You'll know as soon as you shoot one – the Model 504 is clearly setting the standard by which other bolt-action rimfire rifles are judged.

MODEL 504™

MODEL 504-T™ FEATURES:

- Heavy target barrel for serious accuracy (0.90" O.D. @ Muzzle)
- 22 LR version features Eley™ Match chamber
- Brown laminate Monte Carlo stock with palm swell (for right-hand shooter) and beavertail fore-end
- Detachable magazine box (6-rounds on 22 LR, 5-rounds on 17 HMR and 17 Mach 2)
- Rock solid receiver design machined from solid ordnance grade steel results in centerfire rifle type strength and rigidity
- Newly designed trigger group is fully adjustable by a Remington® Authorized Repair Center

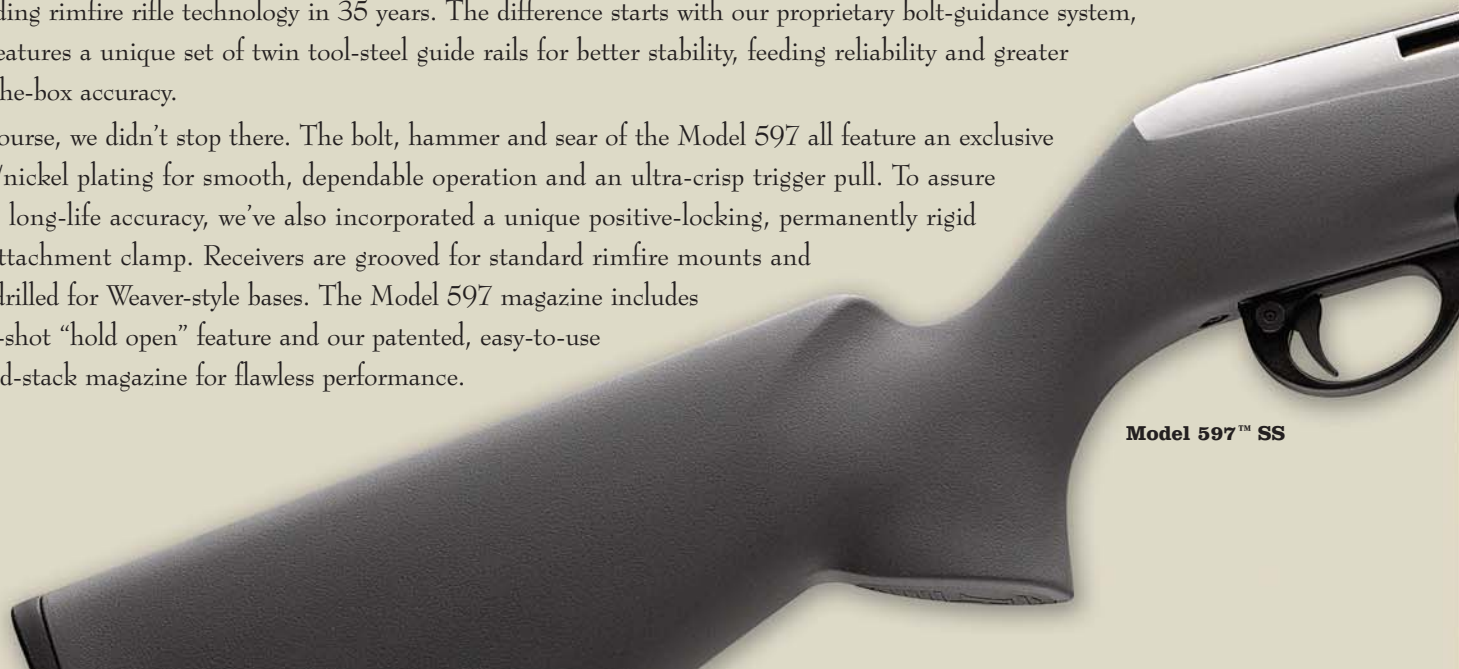

- Barreled action is securely anchored in the stock utilizing two bedding points
- Bolt features dual extractors for positive feeding and uniform cartridge support
- 20" satin blued clean barrel with 5-R button rifling (22 LR only), the same rifling used in Model 40-XR™ custom target rifles, and recessed target crown
- Receiver is drilled and tapped for scope mounts
- Cocking indicator visible from rear of bolt plug

MODEL 597™

WHERE TECHNOLOGY MEETS CRAFTSMANSHIP.

The Model 597™ is easily the most advanced autoloading rimfire rifle ever built, and the first breakthrough in autoloading rimfire rifle technology in 35 years. The difference starts with our proprietary bolt-guidance system, which features a unique set of twin tool-steel guide rails for better stability, feeding reliability and greater out-of-the-box accuracy.

Of course, we didn't stop there. The bolt, hammer and sear of the Model 597 all feature an exclusive Teflon®/nickel plating for smooth, dependable operation and an ultra-crisp trigger pull. To assure reliable, long-life accuracy, we've also incorporated a unique positive-locking, permanently rigid barrel attachment clamp. Receivers are grooved for standard rimfire mounts and tapped/drilled for Weaver-style bases. The Model 597 magazine includes our last-shot "hold open" feature and our patented, easy-to-use staggered-stack magazine for flawless performance.

MODEL 597™ 22 LR METAL MAGAZINE.

Redesigned to provide flawless feeding of each round, the new Model 597 magazine offers unprecedented reliability. Constructed from a lightweight, magnesium-based alloy and cast as one piece via a non-conventional die-cast process, our metal magazine holds ultra-precise dimensional tolerances and yields an exceptional surface finish. Its extreme rigidity is ideal for demanding, high-volume use. For those who already own an older Model 597, you can own the improved magazine as a Remington® accessory.

MODEL 597™ FEATURES:

- Bolt-guidance system features twin, tool-steel guide rails
- Sear and hammer are Teflon®/nickel-plated for crisp, smooth trigger pull
- Non-glare matte finish
- Adjustable big game iron sights (excluding heavy barrel and magnum models)
- Patented drop-out style staggered-stack box magazine (10-shot metal detachable magazine, 8-shot for magnum) assures reliable feeding and fast, easy reloading
- Last-shot "hold open" bolt for added safety
- Unique attachment system rigidly joins barrel to receiver for perfect alignment and enhanced accuracy

Model 597™
Available in 22 LR, 17 HMR and 22 WMR
(17 HMR and 22 WMR without iron sights)

CUSTOM SHOP

AMERICA'S FINEST CUSTOM SHOP.

There are many sources for beautiful guns. But none quite like those from the Remington® Custom Shop. Why? Most custom gunmakers specialize in just one element of the gun, say, stock making. Or barrel making. Or engraving. Their own specialty is then combined with components obtained elsewhere. The result can indeed be very handsome. But in the end, it's still a conglomeration. At the Remington Custom Shop, every part of the firearm is created right here – by the nation's oldest gunmaker and the most experienced craftsmen. It starts with the soul of the gun, field proven actions for which Remington is most famous. Then, your dream gun is masterfully created using a wide variety of options from caliber to trigger pull weight and wood finish to engravings and inlays. Many of the options are shown here, but there's much, much more to see. To find out more, visit our website at www.remington.com or call us at 1-800-243-9700.

MODEL 332™

A MODERN APPROACH TO A CLASSIC DESIGN.

A rebirth of the Remington® Model 32,™ the Model 332™ embodies everything you love about the old field shooting classic. From its superb style and handling to its flawless performance, this Remington masterpiece is destined to achieve legendary status.

Sure the Remington Model 332 still possesses the same classic lines as the Model 32. The same balance. Same feel. Same 100% Remington reliability. Like a stylish, high-gloss American walnut stock and a generous, 20-line-per-inch checkering pattern just to name a few.

Based on a modified box lock action of under lock design, the Model 332 provides exceptionally low profile for superior pointability that closely resembles that of a side-by-side – without sacrificing strength, safety or ease of loading.

The mechanical set trigger, a fast-operating safety/barrel selector and standard automatic ejectors all perform flawlessly under any shooting condition. The Model 332 features light-contour barrels made from high-strength chrome-moly steel. Its elegant receiver panel features the original Model 32 “Pointer & Setter” engraving surrounded by an oval of fine scrollwork. The fore-end and classic, straight comb stock are adorned with generous 20-line-per-inch checkering. Its high glossed wood and high-polished deep blue steel add a richness to this gun that’s unmistakably 332.

MODEL 332™ FEATURES:

- Superb styling and handling based on the legendary Remington® Model 32™
- 3" chambers, available in three barrel lengths 26", 28" and 30"
- Barrels made of high strength chrome-moly steel
- More slender grip on the stock and deep finger grooves in the fore-end for superior pointing and control
- Fully brazed side ribs mean a solid barrel/monoblock assembly
- Mechanical trigger with dynamically balanced sears
- Hardened trunnions for durability
- Receiver milled from a solid block of ordnance grade steel

- Automatic ejectors
- Furnished with Improved Cylinder, Modified and Full Rem™ Chokes
- 8-millimeter wide steel vent rib with twin beads

For complete model listings and specifications see page 83.

MODEL 1100™

A DESIGN PROVEN BY TIME, TREASURED BY GENERATIONS.

More than 40 years ago, the Model 1100™ forever changed the way American shooters viewed autoloading shotguns. It was the first autoloader to combine the repeat-shot versatility of early-century models with the sleek, modern lines and handling qualities of revered double barrels. It’s been a field-proven favorite ever since. Its superb balance, handling, durability and soft recoil from the gas operated action are the foundation of the Remington® autoloading legacy. The Remington Model 1100, a classic gun that’s still ahead of its time.

Model 1100™ Classic Field
16- and 20-Gauge

MODEL 1100™ CLASSIC FIELD SHOTGUNS FEATURE:

- Our most popular autoloading shotgun
- Model 1100™ Classic Field is handsomely styled with American walnut stock and fore-end and a polished plain-sided receiver roll-marked with “Classic Field”
- The classic field stock features machine cut checkering, traditional white diamond grip cap, white line spacers and one-piece butt plate

- A great choice for an upland autoloader, with light weight, fast handling, low recoil and great balance
- Available in 16- and 20-gauge

For complete model listings and specifications see page 83.

MODEL 11-87™ SPORTSMAN®

AS GOOD AS IT IS TO BE A SPORTSMAN, IT'S EVEN BETTER TO HUNT WITH ONE.

This year, Remington® is proud to introduce an all-new family of synthetic Model 11-87™ autoloading shotguns. It's called the Sportsman® line, and it's quite possibly the best autoloader value on the market. Reliable. Rugged. Durable. The Sportsman line of autoloading shotguns delivers versatility and performance in a wide range of popular 11-87 models.

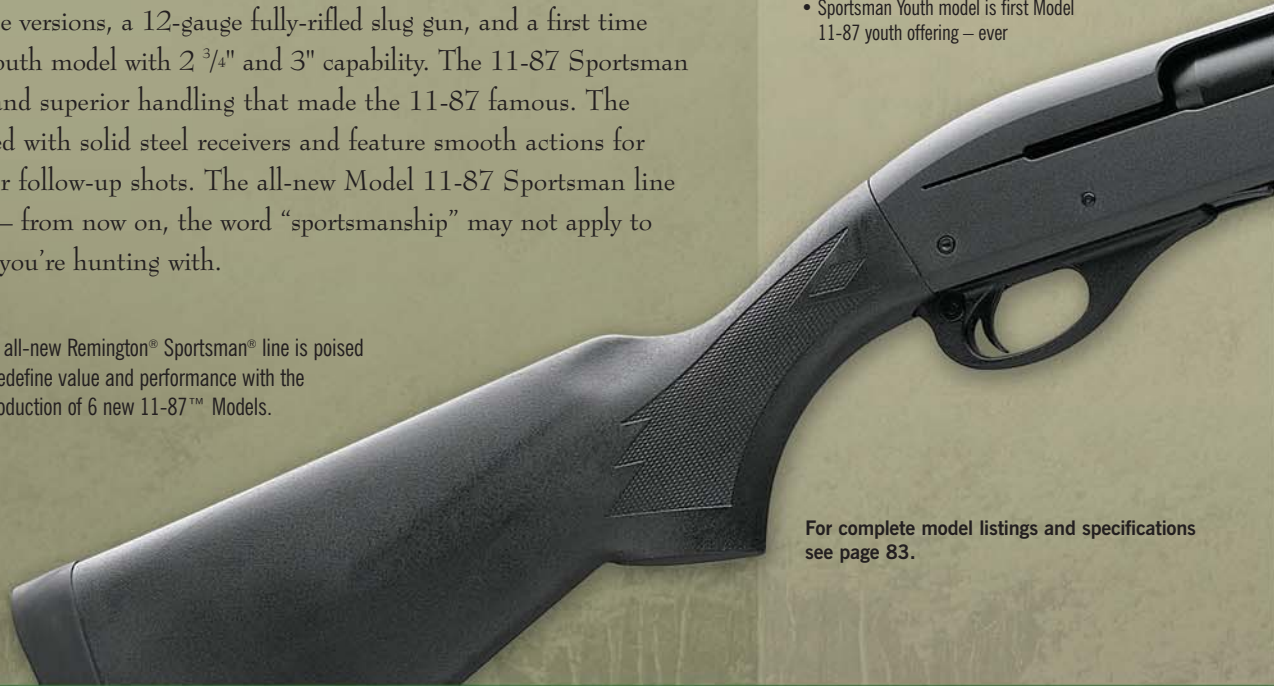

Touted as the value-priced workhorses of Remington shotguns, Sportsman offerings include 12- and 20-gauge versions, a 12-gauge fully-rifled slug gun, and a first time offering of a 20-gauge youth model with 2 3/4" and 3" capability. The 11-87 Sportsman provides the soft-recoil and superior handling that made the 11-87 famous. The Sportsman is constructed with solid steel receivers and feature smooth actions for reduced wear and quicker follow-up shots. The all-new Model 11-87 Sportsman line of autoloading shotguns – from now on, the word “sportsmanship” may not apply to how you hunt, but what you're hunting with.

new
for 2005

The all-new Remington® Sportsman® line is poised to redefine value and performance with the introduction of 6 new 11-87™ Models.

MODEL 11-87™ SPORTSMAN® SERIES FEATURES:

- Ergonomically designed for superior handling
- Constructed with solid steel receivers for strength and durability
- Feature smooth operating actions that reduce wear and provide for quick follow-up shots
- Black synthetic stock and fore-end
- Available in 12- and 20-gauge
- Sportsman Youth model is first Model 11-87 youth offering – ever

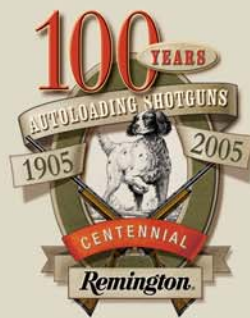

For complete model listings and specifications see page 83.

MODEL 11-87™ SUPER MAGNUM™

LEGENDARY REMINGTON® RELIABILITY WITH 3 1/2" CAPABILITY.

If you could only have one shotgun, many would agree that the Model 11-87™ Super Magnum™ tops the list of candidates. It can handle just about any game in any field or flyway. The unmatched versatility of the Model 11-87 Super Magnum results from the unique metering system of its patented gas-operated action. And this year, we're featuring a very special NWTF edition.

This Limited Edition Model 11-87™ SPS-T™ Super Magnum comes with a Team NWTF medallion in the stock. For every special edition Model 11-87 sold, a portion of the proceeds will be donated to the National Wild Turkey Federation. Fully covered in Mossy Oak® Obsession®, this Model 11-87 features a TRUGLO® adjustable rifle sighted barrel and Turkey Super Full Rem™ Choke.

MODEL 11-87™ SUPER MAGNUM™ FEATURES:

- All the power of a 3 1/2" 12-gauge shotgun coupled with the soft recoil of the Model 11-87 gas system
- Ultra-fast Model 11-87 autoloading action for rapid follow-up shots
- All of the superior handling and ergonomics of the standard Model 11-87
- A broad selection of barrel and choke options provide great versatility to match any situation

- Solid steel receiver for strength and durability

For complete model listings and specifications see page 83.

MODEL 11-87™ PREMIER®

EVERY NEW SEASON SHOULD BEGIN WITH A PREMIER.

A beautiful and versatile gun, the Model 11-87™ Premier® is an intimidating performer. Its patented pressure-compensating gas system is a key reason why. When shooting lighter 2 3/4" field loads, an integral pressure relief valve remains closed, using all of the shell's pressure to operate the action. When shooting heavier 3" loads, the valve opens proportionately to bleed off unneeded pressure.

Naturally, versatility is also a major advantage of the Model 11-87 Premier. The same gun you use one day on the skeet range can be used the next day in the goose blind. Switch shells. Change a Rem™ choke. And you're in business. That's real versatility. Going from great function to great looks, the Model 11-87 Premier's custom-grade finish and finely grained American walnut stock are exactly what makes it so, well, "premier." Finally, you'll find the Model 11-87 Premier in a range of field-proven versions, including the standard 12- and 20-gauge models.

Model 11-87™ Premier®

MODEL 11-87™ PREMIER® FEATURES:

- Model 11-87 gas operation softens recoil
- The patented pressure-compensating gas relief valve enables dependable operation with lighter 2 3/4" loads to heavy 3" magnums
- Stainless steel magazine tube for easy maintenance and smooth operation
- Nickel-plated piston and piston seal for corrosion resistance
- Handsome American walnut stock and fore-end with high-gloss finish
- Easily interchangeable barrels and Remington's Rem™ choke system
- Available in 12- and 20-gauge, deer gun, Upland Special and left-hand configurations

For complete model listings and specifications see page 83.

MODEL 870™ WINGMASTER®

THE MOST POPULAR SHOTGUNS EVER MADE. PERIOD.

The original design of the Model 870™ Wingmaster® is so smooth and so reliable that today – more than five decades after its introduction – it's still the standard by which all other pump-action shotguns are judged. Available in standard 12-gauge, 3 1/2" Super Magnum™, 16-, 20-, 28-gauge and 410 bore, the Model 870 Wingmaster combines unique, timeless solid steel design and rugged reliability with a custom-quality finish. Its American walnut stock is generously covered with machine-cut checkering. Of course, beneath the attractive exterior is the workhorse Model 870 action – an unmatched shell-shucker with dual non-binding action bars. In the field, its classic balance and natural pointing qualities provide the handling speed for the most evasive and challenging birds. Yet it has the strength to handle the heaviest magnum payloads for long-range waterfowl. And because they practically never wear out, there are more Model 870s in use today than any other shotgun.

Model 870™
Wingmaster® Jr.

new
for 2005

MODEL 870™ WINGMASTER® FEATURES:

- Remarkable reliability and durability
- The smoothest pump-action shotgun on the market
- Superior balance, handling and looks
- Points, swings and functions better than anything else in its class
- The highly polished and richly blued receiver is milled from a solid billet of steel for the ultimate in rugged dependability

- A wide array of barrel and choke options make versatility a Wingmaster® hallmark
- Twin-action bar for non-binding action
- Available in standard 12-gauge, 3 1/2" Super Magnum™, 16-, 20-, 28-gauge and 410 bore

**Model 870™ Wingmaster®
Dale Earnhardt Limited Edition**

**DALE EARNHARDT LIMITED
EDITION SHOTGUN:**

A legendary gun deserves a legendary name. And that's exactly why we're offering the Model 870™ Wingmaster® in the Dale Earnhardt Limited Edition for 2005. A fitting tribute to one of NASCAR's legends, Remington® offers this beautifully appointed Model 870 Wingmaster – the third in a four-year series. Its 12-gauge 28-inch light contoured barrel is complimented with an attractive American walnut stock and fore-end. Couple that with a polished blued receiver engraved with Dale's likeness and a 24-karat gold signature and "Seven Time Winston Cup Champion" banner, and this firearm is truly one-of-a-kind. More than a great collectible, a portion of the proceeds go to the Dale Earnhardt Foundation.

Model 870™ Classic Trap

Twin action bars on the Model 870™ positively eliminate binding or twisting so you get those important extra shots off fast and super smooth.

MODEL 870™ SPECIAL PURPOSE TURKEY

SPRING FEVER? MAY WE SUGGEST SOMETHING IN MAXIMUM STRENGTH.

No species of game is more wary than the wild turkey. Fortunately, no turkey guns are better made than the ones you see here. Truth is, Remington® offers the most expansive selection of turkey guns in the industry. That's because we know, for every specific circumstance, there's a specific gun.

Take the Model 870™ SPS-T™ 20-gauge, for example. Matched with our 20-gauge magnum turkey loads this camo-clad beauty is perfect for anyone looking to head into the woods with a lighter gun delivering superb handling without sacrificing the magnum power.

New for 2005, our Model 870 SP-T™ Super Magnum Thumbhole comes fully covered in Mossy Oak® Obsession® camo. Equipped with our R3® recoil pad and a 23" TRUGLO® adjustable rifle sight barrel, the SP-T Super Magnum Thumbhole model offers superior handling for precise shot placement.

Model 870™ SP-T™
Super Magnum Thumbhole

MODEL 870™ SPS-T™ AND SP-T™ FEATURES:

- The Model 870™ SPS-T™ comes in a Mossy Oak® Break-Up® camo
- The Model 870™ SP-T™ Super Magnum™ Thumbhole comes in a Mossy Oak® Obsession® camo
- Ultra reliable Model 870 pump action
- Supplied with Turkey Super Full Choke Tube (0.665")
- Comes in Standard 3" 12-gauge, 3 1/2" 12-gauge Super Magnum™ and 20-gauge Magnum™ (Non-thumbhole model only)
- Twin bead sights or TRUGLO® fiber-optic rifle sighted barrel
- Fitted with Remington's high-performance R3® recoil pad

For complete model listings and specifications see page 84.

SPECIAL PURPOSE WATERFOWL

ALL ARRIVING FLIGHTS ARE ABOUT TO BE GROUNDED.

The Remington® line of Special Purpose Waterfowl guns – they'll never know what hit 'em. An effective waterfowl gun must be able to resist the elements and continue to work reliably and efficiently. That's why Remington makes a complete line of Special Purpose Shotguns built to handle all types of waterfowl and the environments they live in.

Well rounded, and packed with features, the Model 11-87™ SPS™ Waterfowl is as reliable as they come. Or, if you prefer a pump-action, you might take a look at the equally impressive Model 870™ SPS™ Super Magnum™. Of course, there's always the perennial favorite, the 12-gauge Model 11-87 SPS and new for 2005, the Mossy Oak® Obsession® 10-gauge Model SP-10™ Magnum™. To you, these are the ultimate waterfowl guns. To ducks and geese? Air traffic control – with an attitude.

SPECIAL PURPOSE MARINE MAGNUM®

Perhaps the perfect all-purpose 12-gauge utility shotgun, the Model 870™ Marine Magnum® is built to last. With an electroless nickel plating covering its entire metal surface, including the inside of the barrel and receiver, the Model 870 Marine Magnum resists corrosion in even the harshest environments. Its synthetic stock features generous checkering for easy and secure handling and a high-performance R3® recoil pad for less kick. Comes with 18" cylinder barrel with single-bead front sight, six-round magazine, padded Cordura sling, and swivel studs.

Model 870™
Marine Magnum®

MODEL 870™ EXPRESS® SUPER MAGNUM™

UNRIVALED IN HISTORY, DEPENDABILITY AND VERSATILITY - CHAMBERED FOR 2 3/4" TO 3 1/2" MAGNUMS.

Because it handles everything from light 2 3/4" loads to heavy 3 1/2" magnums interchangeably, you've got a shotgun that's unrivaled in versatility. No other pump gun even comes close. You can go from shooting heavy 3 1/2" loads at high-passing waterfowl to shooting light 2 3/4" loads at fast-darting doves without a hitch. And it does it all with the same action stroke, balance and feel of our original Model 870™ (the most popular pump gun in history). Best of all, it comes at a very affordable price. Stock choices include flat-finished hardwood, durable black synthetic or popular camo finishes. To get the most versatile of any Model 870 Express® Super Magnum™, choose the two-barrel Combo. For deer hunting with slugs, you get a 20" fully-rifled barrel with adjustable factory sights and a standard 26" vent-rib Rem™ Choke barrel for just about any other shotgunning imaginable. And don't forget, this year we're offering the all new Model 870 Express Super Mag Fall Flight™. Fully covered in Skyline® Fall Flight camo, this 12-gauge features a 3 1/2" chamber, 30" barrel.

MODEL 870™ EXPRESS® SUPER MAGNUM™ FEATURES:

- Will function 2 3/4", 3" and 3 1/2" shells interchangeably
- Superior design and inherent strength of America's favorite pump shotgun, the Model 870
- Super Magnum receiver same size as all 12-gauge Model 870 shotguns for same balance point
- Innovative bolt design keeps cycle stroke equal for all 3 lengths of 12-gauge shotshells
- Magazine capacity is three 3 1/2" shells and four 2 3/4" and 3" shells
- Available in wood, synthetic and camouflaged versions as well as a combo package, which features both a vent rib and rifle-sighted deer barrel for maximum versatility

Model 870™ Express® Super Magnum™ Turkey Camo

Model 870™ Express® Super Magnum™

For complete specifications see page 84.

MODEL 870™ EXPRESS®

AMERICA'S FAVORITE PUMP SHOTGUN.

If you could take a look in every duck blind, stop by every pheasant field or check out every tract of timber where deer and turkey are hunted, you'd probably see more Model 870™ Express® pumps than any other shotgun. The standard for over 50 years, and for good reason. Their versatility, reliability and (best of all) affordability, makes them shotguns anyone can own. That's why we call them America's Pump Guns.

MODEL 870™ EXPRESS® SHOTGUNS FEATURE:

- Receiver milled from a solid billet of steel for strength and durability
- Twin action bars insure smooth, reliable non-binding action
- Legendary pointability and accuracy
- Youth versions available
- Non-glare matte finish
- Rem™ Choke vent rib barrel
- Offered in 12-, 16- and 20-gauge

YOUTH FIREARMS

INVESTING IN OUR FUTURE.

We've gone the extra step to redesign some of our standard, premium-grade stocks for a shorter length-of-pull – then fitted them to some of our finest, most proven rifles and shotguns. All Youth rifles we make are counter-balanced with a shorter 20" (22" on long action offerings) barrel and all Youth shotguns with a 21" (20" for youth deer gun) barrel to keep them from becoming muzzle-heavy while also retaining effective ballistics. Two centerfire rifle choices are available. The first is our compact Model Seven™ bolt action chambered for 260 Remington, and a synthetic model, chambered for 223 Remington, 243 Win and 7mm-08 Remington. The other is our legendary Model 700™. The Model 700 SPS™ Youth Synthetic is available in a short action synthetic stock configuration, chambered for either 243 Win or 308 Win, and the SPS Youth Synthetic long action is chambered for either 270 Win or 30-06 and is specifically designed to take advantage of our new Managed-Recoil™ ammunition. All synthetic stocked youth rifles feature the R3® recoil pad.

In Youth shotguns, in addition to existing offerings in the Model 870™ Express line, we're featuring three new pump shotgun offerings this year – the Model 870™ Wingmaster® Jr., the Model 870™ Express® Jr. NWTf Jakes Gun – both with shorter 12" length of pull stocks and 18 3/4" barrels, as well as a Model 870™ Express Synthetic Youth Combo featuring a 21" vent rib barrel and a 20" fully rifled barrel.

The all-new Model 11-87™ Sportsman Youth shotgun brings 20-gauge 2 3/4" and 3" capability to the youth autoloading shotgun line. Now smaller stature shooters can benefit from full range capability in a soft recoiling gas autoloading shotgun. Like its pump-action counterparts, the Model 11-87™ Sportsman Youth features a one-inch shorter length-of-pull stock and a 21" vent rib, Rem™ Choke barrel. Although we call it our Youth firearm line, the rifles and shotguns here are ideal for more than just young shooters. They're also perfect for any hunter needing a shorter overall length of pull.

The Limited Edition Model 870™ Express® Jr. comes with a Team NWTf medallion in the stock. For every special edition Model 870 sold, a portion of the proceeds will be donated to the National Wild Turkey Federation.

EXCEPTIONAL QUALITY. UNBELIEVABLE VALUE.

SPARTAN™

GUNWORKS
BY Remington.

Last year we introduced you to Spartan™ Gunworks – an imported family of break-action shotguns designed to offer exceptional quality at a reasonable price. The response was so good, we're expanding the Spartan line to include additional side-by-side, over and under, single shot shotguns, and new rifle and combination models. Now more than ever, Spartan is changing the way you feel about value-priced firearms.

Painstakingly crafted
by skilled

artisans, each Spartan gun possesses the quality and a long list of features you would expect to find in comparable guns costing hundreds, even thousands, more.

At Remington®, we don't share our name with just anyone. We know that after you try one, you'll agree, that when it comes to quality and value, the leader is Spartan Gunworks.

SIDE-BY-SIDE.

The side-by-side shotgun can be defined as one of the most classic shotgun designs of the 20th century. Over the years, we've watched as the production costs of this famous style gun caused it to become a prize attainable only by the wealthy. Not any more.

Thanks to Spartan™ Gunworks, the side-by-side is ready, once again to become a fixture of America's hunting landscape. Spartan offers four high-quality, reasonably priced side-by-side shotguns that'll make you proud in the field.

Spartan side-by-side shotguns.

Good news for you,
bad news for
game.

OVER AND UNDER

OVER PERFORMING. UNDER BUDGET.

The headline says it all. Nothing beats the over and under design for durability and reliability in the field. Spartan™ offers six impressive models to choose from with features you'd find on similar guns at twice the price. Features like a single selective trigger, auto selective ejectors, checkered walnut stock and fore-end, chrome-lined barrels, deep blue finish, and much more.

It's flawless performance in a classic design. The Spartan line of over and under shotguns, destined to be a field favorite.

SINGLE SHOT

FOR THOSE WHO PREFER THE SINGLE LIFE.

Many of us remember the single shot as our first shotgun. Because of its reliability, ease

of use, and affordability, the classic single shot has long been considered the perfect beginner's shotgun.

The fact is, the single shot is a great all-purpose gun, and Spartan™ offers four excellent models to choose from. Spartan single shot model shotguns offer unbeatable craftsmanship at a value price without skimping on the features.

Model SPR100

SPARTAN™ GUNWORKS SINGLE SHOT FEATURES:

- Chrome-lined hammer forged barrels
- Nickel plated steel receivers
- Cross bolt safety
- Cocking indicator
- Titanium coated trigger
- Walnut stock and fore-end
- Youth model
- Selectable ejector or extractor
- Deep blued barrel finish

RIFLES AND COMBOS

MULTIPLE COMBINATIONS, ENDLESS APPLICATIONS.

Rich in heritage and old world craftsmanship, Spartan™ offers a line of guns as versatile as

the grounds you hunt. First, the head-turning over and under shotgun/rifle combination – the only gun built for short range knockdown

power, and long distance lethality.

Seen any good safari movies recently? They were probably sporting a side-by-side rifle, a compelling classic faithfully produced by Spartan. And finally, the time-honored single shot rifle. One gun, one bullet. In all of hunting, there's no other guns more noble, and Spartan is proud to present the Model SPR18 to carry on this tradition of skill and accuracy.

Model SPR22
Double Rifle

SPARTAN™ GUNWORKS COMBO FEATURES:

Rimfire/Shotgun:

- Rifle barrel over shotgun barrel
- Adjustable sights with 11mm scope rail
- Single selective trigger* with cross-bolt safety

Shotgun/Centerfire:

- 12-gauge barrel over rifle barrel
- Barrels regulated with jack screw (SPR94 and SPR22)
