.45 BUSHMASTER Page 6

New Bushmaster Models for 2006

NEW for 2006... 5.56mm/.223 Caliber Gas Piston Upper / Bbl. Assembly

Bushmaster incorporates an ultra reliable Gas Piston Operating System into this new Upper Receiver/Barrel Assembly. Much like the systems found on AK-47s and FALs, this system functions with a wide range of ammunition using less gas pressure than a conventional AR15 type gas system.

Includes BMAS Front Flip Sight (Part# YHM-9627)

Excess heat, carbon build up, and gas leaks have been eliminated, as have the gas rings, gas key, and gas tube. This System operates at a lower cyclic rate to improve reliability and control, reduce heat and recoil. High pressure gases are still diverted through the Gas Port in the barrel, but there the similarity ends. Gas pressure pushes a tubular Piston, which drives the Operating Rod rearward. The Rod pushes a striker face on top of the Bolt Carrier to move the Carrier to the rear and cycle the action like the conventional system. Excess gas pressure is bled off through ports in the Piston and exits within the handguards to keep carbon build up and powder residue from fouling the Upper Receiver. A detented plug at the front of the Gas Block allows easy cleaning of the Hard Chrome Plated Piston. This rugged Upper/Barrel Assembly has a Bushmaster 5.56mm / .223 Caliber Chrome Lined 16" M4 Type Barrel with A2 Birdcage Suppressor, and a standard Bushmaster Flat-top Upper with Picatinny Rail and Removable Carry Handle. Bolt and Bolt Carrier are included, and the unit will mount onto any standard pin dimension Lower Receiver. Carries Bushmaster One Year Warranty - Weight 4 lbs.

Bushmaster 5.56mm / .223 Rem. Caliber Complete Gas Piston Upper Receiver / Barrel Assemblies...

A3 Type w. Removable Carry Handle... (BURA3B 16M4-GP) \$1095.00 / A2 Type... (BURA2B 16M4-GP) \$995.00

New Bushmaster Models for 2006

BUSHMASTER CATALOG 2006 V.2

With this second 2006 issue of the **BUSHMASTER** Catalog, we're introducing some new products "of a higher caliber!" See our new 6.8mm SPC Rifle, which gives you a .270 caliber projectile in the same "AR" platform you already know. This cartridge was originally developed by the military, but now commercial manufacturers have adopted it. It makes a powerful, flat-shooting round for deer or other large game.

And, speaking of large game, **BUSHMASTER** is developing - in partnership with Hornady - the .45 Bushmaster. This 20" barreled rifle fires a .45 caliber bullet out of a .284 rimless case. By inserting a blue single round follower into a standard AR type magazine, we can single stack 9 rounds of this powerful cartridge into an AR type rifle to make an excellent hunting weapon for hogs, bear or moose. Look for developing details this Fall on WWW.BUSHMASTER.COM

Another new development is represented in our 5.56mm/.223 caliber Gas Piston Upper Receiver/Barrel Assembly. Harnessing the many advantages of the "gas trap" system - as found in the AK-47 and the FAL - brings a new level of reliability to the AR type rifle. The system operates without carbon build-up within the Upper, and its inherently lower cyclic rate reduces heat and recoil.

These new developments coincide with an ownership change at **BUSHMASTER**. This Spring we became Bushmaster Firearms International, LLC when the original family holdings were acquired by an investment banking group. The contacts and opportunities brought by that organization establish a great platform for Bushmaster growth while retaining our longstanding commitment to the highest quality products and superb customer service for the Consumer, Law Enforcement, Military and International markets.

So, whether for Defense, Law Enforcement, Competition, or Sport Shooting, your Bushmaster has been built to deliver Accuracy, Reliability, and Value. Make Bushmaster your first choice for the highest quality AR15 type rifles.

Bushmaster Gift Certificates

can be the ultimate gift for the shooter in your life – give them the freedom of choice with a Bushmaster Firearms Gift Certificate (available in amounts starting at \$10). Redemption of these certificates is very flexible – easily accomplished through our website, or by phone, fax or mail order. Just be sure to provide us the Certificate Number when placing your order (the actual certificate is not required - just the Certificate number from its lower right corner).

• **Phone Orders** – When ordering through our 800 number (1 800 998 7928), please tell our sales representative that you have a Gift Certificate and would like to use it, and provide us with the Gift Certificate Number. If your purchase total is higher than the Gift Certificate amount, you'll be asked for a Credit Card Number, Expiration Date and billing address so that we can charge any difference to your Credit Card.

• **Mail and Fax Orders** – When ordering via Mail or Fax, just write the Certificate Number next to the payment method.

• **Internet Orders** – choose Gift Certificate as your Payment Method and enter the Certificate Number in Certificate # Box.

Note: Bushmaster Gift Certificates can only be redeemed for Merchandise (not redeemable for cash), and are valid for one year from date of issue. See complete details on the internet, www.bushmaster.com or call 1 800 998 7928

NEW... Bushmaster Carbon 15 "Top Loading" Rifle

Overall Length - 37"
Length (Stock Retracted) - 33"
Weight - 5.8 lbs.

Bushmaster manufactures the AZC-C15RM4FT Model under License to Patent # 6,739,082

Carbon 15 Top Loading Carbine... (Part# AZC-C15RM4FT)
M.S.R.P. \$1050.00 Available through FFL Dealers

- 16" M4 Profile Chrome Lined Barrel - 1 x 9 twist - with Izyz Suppressor
- A2 Standard Front Sight
- Dual Aperture Rear Sight
- Receiver Length Flat-top Picatinny Optics Mounting Rail
- Lightweight Carbon 15 Receivers
- Six Position Telescopic
- Safety Controls Marked on Both Sides of Receiver
- 10 Round Internal Magazine

The unique Carbon 15 "Top Loading" Model has been developed specifically for the California market (and other States with similar restrictions). It offers traditional AR-15 type features, rugged Carbon Fiber composite molded Receivers for light weight and durability, and a 10 Round Internal Magazine - loaded by simply pushing in the Receiver Takedown Pin and then pivoting open the Receivers. This exposes the Internal Magazine components - which are permanently fixed in position within the Lower Receiver. Cartridges can then be inserted into the Magazine Feed Lips in the same manner as any removable AR-15 type Magazine. Internal Magazine capacity is limited to 10 Rounds, and the bottom of the Magazine Well is sealed as shown in photo at right. Shipped in Bushmaster's lockable hard case with Black Web Sling, Orange Safety Block, Sighting In Target, Operation/Safety Manual - One Year Warranty.

The Bushmaster Carbon 15 .22 Rimfire Rifle

Available at FFL Dealers

M.S.R.P. \$790.00
(Part # AZ-C1522LR)

Feature Specification

Feature	Specification
Caliber	.22 Long Rifle - Rimfire
Magazine Capacity	10 Rounds
Overall Length	33"
Barrel Length	16"
Rifling	1 turn in 16" R.H. Twist
Weight w/o magazine	4.1 lbs.
Weight of empty magazine	2.4 oz. (.15 lb.)
Weight of loaded magazine	3.7 oz. (.23 lb.)
Mode of Operation	Blowback / Semi-Auto

The Bushmaster Carbon 15 .22LR Rimfire Rifle is designed to conform to the feel and function of Bushmaster's traditional 5.56mm / .223 caliber models. Receivers, Buttstock and Charging Handle are molded of Carbon Fiber composite for durability, strength and light weight. Chambered for the economical .22 Long Rifle Rimfire, the C1522LR operates in semi-automatic "blowback" mode. Operational controls (charging handle; safety lever; bolt catch; magazine release and trigger) are functionally and ergonomically identical to all AR15 type rifles - making the Bushmaster C1522LR an ideal training arm for developing skills with the AR15 type system - .22 Rimfire ammunition is acceptable for use in indoor ranges. This rifle features a highly accurate 16" Chromoly barrel; Titanium "blowback" bolt; dual aperture rear sight; square post front sight; and Receiver-length Picatinny rail for easy mounting of any scope, optic, red dot or laser sight. Safety Selector Lever markings are color-coded on both sides of the Lower Receiver to quickly determine the rifle's firing status. As with other AR15 type models, captivated takedown pins allow Upper and Lower Receiver separation for easy cleaning and lubrication. Designed and manufactured in the U.S.A., the C1522LR includes a 10 Round Magazine and Operator's Manual and ships in a hard plastic carrying case. Warranted for one year against defects in materials or workmanship.

Carbon 15 .22 LR Rimfire Receiver/Barrel Assembly... This .22 Rimfire dedicated Upper Assembly fits all Bushmaster and other "mil. spec." Lower Receivers. Hone your shooting skills with economical .22 Rimfire Long Rifle ammo - acceptable at most indoor ranges. Complete kit includes all pieces necessary to convert your rifle over to .22 Rimfire (parts will combine to work with all types of stocks - tele included). Chambered for .22 Long Rifle only - semi-automatic blowback operation.

Carbon 15 .22LR Upper Receiver/Barrel Assembly... \$387.00
Includes 10 Rd. Magazine and Adapters (Part # AZ15846K)

For High Power Competition Training... a 20" Barreled .22LR Upper Receiver Assembly... Similar to the 16" Barreled Upper Assembly above (photo in Uppers Section of this catalog), but with a Forged Aluminum Upper; Complete A2 Dual Aperture Sight; Full Length Handguards, and a heavy (.750" diam.) Chromoly Steel Barrel - excellent for High Power Competition Training. Fits most "mil. spec." AR type lowers. **\$469.95** (Part # AZ15847K)

Extra Magazines for the Carbon 15 .22LR Rimfire Rifle or Upper Receiver Assembly... \$24.95 (Part # AZ15280)

Bushmaster Carbon 15 Rifle & Pistol Accessories...

A. Threaded Adaptor for Carbon 15 Models... \$26.50 (AZ15133) A Quick Detach Adaptor like the Carbon 15's standard Brake, but designed to accept standard 1/2x28 threaded brakes and suppressors (may require a crush washer).

B. Silent Sling...\$41.95 (AZ723) Standard on the 97S Rifle, this quality tactical sling will fit any other Bushmaster Carbon 15 Rifle. Durable, black ballistic nylon – easy Velcro strap attachment – offers multiple carry modes.

C. / D. / E. Light & Laser Mounts... These Mounts clamp to the barrel fluting on Type 97 Pistols and Type 97 / 97S Rifles to offer a mounting point for the various lights and lasers. The **SureFire Mount – C.** (AZ718) **\$26.95** takes 1" diam. flashlights (they recommend their #650 Universal Weapon Light). The **Mag-Lite Flashlight Mount – D.** (AZ717L) **\$26.95** holds 3/4" diam. lights, and the **Laser Mount – E.** (AZ719) **\$26.95** accepts 3/4" diam. laser sighting units.

F. Carbon 15 Ambidextrous Safety and Safety Lever The complete **Ambidextrous Safety Assembly... \$33.50** (AZ724) is available as a spare or replacement part for your Carbon 15 firearm, or just the Lever can convert existing safeties on Type 21 or 97 Pistols and Rifles to achieve ambidextrous functioning in "weak hand" mode. Machined of aircraft quality aluminum – black anodized. **Safety Lever only... \$11.95** (AZ724L) is molded of Carbon 15.

G. Quick-Pull Takedown Pin for Top Loading Carbine... \$3.95 (AZC-15120) Makes opening the Receivers of the Top Loading Carbine easier and faster - a sling swivel, a split ring or piece of paracord can be attached for a better grasp.

H. Carbon 15 Youth Sized Buttstock... \$26.50 (AZ15279) Perfectly sized for the younger shooter, or smaller woman, this Carbon 15 molded buttstock easily replaces the standard stock on Bushmaster Carbon 15 rifles by releasing the receiver locking lever (will not fit C15 Pistol receivers). It's 8 1/4" overall length yields an 11 1/4" trigger pull length.

I. Recoil Pad for Carbon 15 Buttstock... \$16.95 (2698827) This molded black rubber recoil pad offers extra shooting comfort. Its a slip-on fit on all older Carbon 15 buttstocks, and will fit the new style buttstock with minor modification.

J. Accessory Rail for Carbon 15 R21/R97/R97S & Lady Rifles... \$57.95 (AZ15694) An anodized aircraft aluminum Rail that offers a mounting point for accessories under the forend - requires by drilling/tapping for installation.

K. Accessory Rail for P21S Pistol Forends... \$52.95 (AZ15695) An anodized aircraft aluminum Rail Segment that attaches by drilling/tapping into the Pistol's forend to provide a mounting point for flashlight or laser accessories.

L. Picatinny Optics Mounting Base for P21/P97 Pistols... \$52.95 (AZ716) A machined, anodized aircraft aluminum Rail that slides onto the Pistol Upper and locks in place with a screw. A solid base for standard optics - remains true to zero when removed/reinstalled - see-thru design allows use of Pistol's existing iron sights.

M. Full Length Optics Rail with Integral Sights... \$147.95 (AZ15198) This Picatinny configuration rail (standard on Type 97S Rifle) can be added to Type 97 or Type 21 Rifles as a factory installation (drilling / tapping required) to offer both integral iron sights and unlimited optics mounting. Aircraft aluminum - matte black hard anodized, the rear sight is a dual aperture flip-up with windage adjustment, and the front sight is an AR standard post - elevation adjustable.

New for 2006!... Bushmasters of a Higher Caliber!

The Bushmaster 6.8mm SPC Rifle... 6.8mm SPC Caliber

- 16" M4 Profile Barrel • Six Position TeleStock • 6.8mm SPC 26 Rd. Mag.

This Gas Operated Semi-Auto packs a bigger punch than our 5.56mm/.223 models - a .270 cal. 6.8mm SPC ("special purpose cartridge") punch specifically developed for the military, but now available commercially. Velocity averages a bit over 2600 FPS (with Hornady 115 Gr. V-Max), and the heavier bullet weights deliver a terminal energy capable of bringing down larger game. Complete Barreled Upper Receivers with Magazine are also available.

A3 Model Includes Removable Carry Handle

A2 Models with Solid Carry Handle also available.

Cartridge Comparison

Specifications:

- Caliber 6.8mm SPC
- Magazine 26 rounds
- Length overall 34.75 inches
- Barrel Length 16"
- Rifling 1 x 10" R.H.
- Weight w/o magazine 6.5 Lbs.

6.8mm SPC Caliber Rifle w. Telestock

A3 Type (BCWA3F 16M468) M.S.R.P. \$1295.00

A2 Type (BCWA2F 16M468) M.S.R.P. \$1195.00

Available through your local FFL Dealer.

6.8mm SPC Upper Receiver/Barrel Assembly

6.8 SPC Uppers available in A2 or A3 configuration

The .45 Bushmaster...

- .45 Bushmaster Caliber - Ammunition developed by Hornady
- 20" Heavy Barrel • 9 Round Single Stack Capacity
- Available in Fall 2006
- check www.bushmaster.com for developing details...

Specifications:

- Caliber .45 Bushmaster
- Magazine 9 rounds
- Length overall 38.25 inches
- Barrel Length 20"
- Rifling R.H. twist 1 turn in 45"
- Weight w/o magazine 8.5 Lbs.
- Mode of Operation Gas Operated - Semi-Auto

The .45 Bushmaster - big bore power in an "AR" platform - one gun industry writer exclaimed... "I've found my new hog-hunting gun!" This powerful cartridge - developed in affiliation with Hornady - is tamed by the AR type gas operating system so that recoil is reduced to a heavy thump, and second shot control is retained. Standard AR type 30 round magazines are fitted with a blue single stack follower to yield a full magazine capacity of nine rounds.

NEW for 2006... 5.56mm/.223 Cal. Gas Piston Upper Rec./ Bbl. Assembly

5.56mm/.223 Rem. Caliber • 16" M4 Profile Barrel • A3 Removable Carry Handle • Gas Block with Rail

With Gas Piston reliability eliminating excess heat, carbon build up, and gas leaks (as well as gas rings, gas key, and gas tube), this new Upper Receiver/Barrel Assembly may be the future of the "AR". The Hard Chrome Plated "Gas Trap" Piston is easily cleaned by removing it through a detented plug at the front of the Gas Block. The Gas Trap specific Bolt and Bolt Carrier are included, and the complete Upper Rec./Bbl Assembly will mount onto any standard pin dimension AR Type Lower Receiver. Includes Bushmaster's One Year Warranty.

Specifications:

- Caliber 5.56mm/.223 Rem.
- Barrel Length 16"
- Rifling R.H. twist; 1 turn in 9"
- Mode of Operation Piston Gas Operated - Semi-Automatic

BUSHMASTER – The Best by a Long Shot! Here's why...

Bushmaster Barrels: We machine our Barrels from either high grade Chrome-Moly Vanadium Steel, or 416 Match Grade Stainless Steel. Our heavy profile Barrels (standard on most models) step down from 1" diam. at barrel nut to .750" at the sight base to improve heat dissipation and decrease barrel whip. Our 5.56mm/.223 caliber barrels are all button rifled - right hand twist - most in 1 x 9", as we've found that twist gives optimum accuracy with a broad range of ammunition, and will stabilize bullets up to 75 grains. The DCM Competition Rifle barrels are 1 in 8" twist for the very heavy bullets used in high power competition. As an additional step, both our DCM and Varminter barrels are lapped for sharpest possible rifling.

Chrome Lined Bore & Chamber: A chromed bore and chamber - as in most of our Chrome Moly Steel Barrels - can double the barrel's life if proper care and regular maintenance procedures are observed. The chrome protects against corrosion, and as it is harder than the barrel steel, it reduces friction, increases velocity, and aids in chambering and ejection. Chrome lined barrels also clean up easier because lead, copper and powder fouling simply does not adhere as easily to the chrome lining - so you'll spend less time cleaning after a day at the range. Note: With any chrome lined barrel, you should avoid leaving ammonia based solvents, bore cleaners, or pastes in long term contact with the chrome lining (i.e. over-night soakings) as the ammonia can react with the chrome to cause oxidation. Regular session cleaning will ensure proper barrel care and long life. We apply a Manganese Phosphate finish to our barrels, and other critical steel parts, to protect against corrosion and rust and to produce a matte black, non-reflective surface color. We do not paint any of our parts. Finally, Bushmaster rifles and carbines are laser boredighted at the factory to assure that the accuracy inherent in our barrels works in coordination with the sights that we put on them.

Bushmaster Receiver Features: Our Receivers are either high tensile strength 7075T6 aircraft quality aluminum forgings (not castings which can contain flaws and/or air bubbles), or injection molded Carbon 15 composite. Bushmaster Receivers fit tightly with two "captivated" push pins (which can't fall out and become lost). No tools are needed for field take down. Receivers incorporate a brass deflector for ejected shell control, and a raised area around the magazine catch button (to prevent accidental magazine release). For durability, our aluminum upper receivers have a baked dry-lube film, and for protection against corrosion, they are Hard Anodize finished, with a Nickel Acetate final seal coat.

Handguards, Buttstock and Pistol Grip: Our standard handguards are molded of black thermoplastic (carbine length) or fiberglass (full length) respectively, and include aluminum heat shields to dissipate barrel heat. Pistol grips are molded of the same thermoplastic material, and have a finger groove, checkered side panels and a serrated back for ergonomic comfort and a solid, non-slip grasp. On standard models, the A2 style Buttstock is fitted (5/8" longer than the original A1 version, with a trigger pull of 13.5 inches), and it includes a trapdoor storage compartment for a cleaning kit or small parts. The Tele-Stocks again available with the "sunset" of the 1994 A.W.B. offer the same rugged six position design that has always been sold to the Military and Law Enforcement. Both stocks include sling loops.

Bushmaster Front & Rear Sights: Bushmaster uses only steel forgings for the front sight base - far superior to castings in tensile strength. We use the standard M16A2 Dual Aperture Rear Sight. It features adjusting knobs for windage and elevation - eliminating the need for a sight tool (as with the A1 sight). The beauty of the dual aperture flip-up is that the same sight can offer both quick target acquisition (field aperture) and fine distance sight picture (with the target aperture). Windage adjustment is 1/2 inch incremental at 100 yards instead of the older version which offered only 1 inch increments. Elevation increments are 1 Minute of Adjustment (M.o.A.) on our standard A2 sight, and 1/2 M.o.A. on our A3 Type Removable Carry Handle. On the DCM Competition Rifle you can order a 1/4 M.o.A. rear sight.

.223 Remington or 5.56mm: We've had numerous inquiries about .223 Rem. versus 5.56mm NATO ammunition. **The short answer is that all Bushmaster barrels are chambered for the 5.56mm cartridge.** Most of our barrels are stamped 5.56 NATO - usually just ahead of the front sight. Despite the fact that our Lower Receivers are stamped CAL.223-5.56MM, our chambers, barrels, and bolts are designed to withstand the higher pressures of the 5.56mm cartridge. We do this for the safety of our customers, and because our rifles have always been built following the military pattern. **In any of our barrels, both the .223 Remington and 5.56mm NATO cartridge can be fired safely.**

So, what's the difference between the two cartridges? They have basically the same exterior dimensions and length, but the 5.56 is usually loaded to produce higher velocity and chamber pressures. It has thicker case walls for the extra strength needed to handle those higher pressures. The difference comes in the chambering of the rifle, and that difference is in "Leade" (more commonly known as the throat) which is the portion of the barrel directly in front of the chamber where the rifling has been removed to allow room for the seated bullet. In a 5.56mm chamber the throat is typically .162" - in a .223 chamber it's usually .085" (about half that dimension). The result of firing a .223 cartridge in the Bushmaster 5.56mm chamber is a slight loss of velocity when measured against the 5.56mm cartridge.

However, if you own other (non Bushmaster) rifles specifically chambered for the .223 Remington, you should not use 5.56mm ammunition in them as it is considered by SAAMI (Small Arms and Ammunition Manufacturers Institute) to be an unsafe ammunition combination. (This 5.56mm/.223 Rem. information from Bushmaster Gunsmithing and the Winchester Law Enforcement Ammunition Website.)

Bushmaster Value: All Bushmaster Rifles are shipped in a hard plastic, lockable, foam lined carrying case - **an \$18.95 value.** Additionally, all rifles include an Orange Safety Block. We do this to provide safe shipping and storage - to help your Bushmaster keep its value over the years - and to remind you to always practice safe firearms handling. Firearms should be stored in a locked case or cabinet and the ammunition for them kept separate and locked for the safety of family and friends.

Bushmaster M4 Type Carbines...

M4 Profile Barrel • Izzy Compensator/Flash Suppressor • Six Position TeleStock • 30 Rd. Magazine

M4A3 Carbine includes A3 Removable Carry Handle

M4A3 Type Carbine

"Izzy" Compensator/Flash Suppressor

M4A2 Type Carbine

Six Position Telestock

Specifications:

Caliber	5.56 mm / .223 Rem.
Magazine	30 rounds
Length (stock retracted)	30.875 inches
Barrel Length	16" overall
Rifling	R.H. twist; 1 turn in 9"
Weight w/o magazine	6.22 Lbs.
Mode of Operation	Gas Operated - Semi-Automatic

Other Stocks / Flash Suppressors / Muzzle Brakes available

- **M4A3 Type Carbine w. Telestock...** (Part # BCWA3F 14M4 IZ) Available from your FFL Dealer **M.S.R.P. \$1265.00**
- **M4A2 Type Carbine w. Telestock...** (Part # BCWA2F 14M4 IZ) Available from your FFL Dealer **M.S.R.P. \$1160.00**

One of our most popular carbines, the Bushmaster M4 Type features a lightweight 14.5" Barrel machined in the distinctive M4 profile. With the "Sunset" of the 1994 A.W.B., we can now offer this model with a permanently attached (pinned and welded over) "Izzy" Compensator/Flash Suppressor, Six Position Telestock and High Capacity Magazine. This configuration yields a total barrel length of 16" to comply with BATF regulations for semi-automatic rifles. The barrel is chrome lined in both bore and chamber for longevity and easy cleaning, and the 1 x 9" twist button rifling will stabilize a wide range of currently available ammunition (bullet weights up to 75 grains). On the A2 Type, the M16A2 dual aperture, rear sight system offers both windage and elevation adjustments (calibrated from 300 to 800 meters).

The M4A3 Type Carbine includes our Removable Carry Handle with 1/2 Minute of Adjustment Rear Sight - calibrated from 300 to 600 meters. The handle clamps onto the Upper Receiver's full length Picatinny rail - which will accept an wide array of scopes, red dot sights, accessories, and night vision equipment. The Bushmaster M4 Carbine - available only through your FFL Dealer - is shipped in a lockable, hard plastic case complete with 30 Round Magazine, Black Web Sling, Orange Safety Block, and Operator's Safety and Instruction Manual. **NOTE:** The "Pre-Ban" features of this model are not legal in some States - consult local regulations.

M4 Type "Post-Ban" Carbine...

- M4 Profile Barrel • Izzy Compensator
- Fixed Tele-Style Stock • 10 Round Magazine

- **M4A3 Type Post-Ban Carbine...** (PCWA3X 14M4IZ) **M.S.R.P. \$1265.00**
- **M4A2 Type Post-Ban Carbine...** (PCWA2X 14M4IZ) **M.S.R.P. \$1160.00**

Bushmaster M4 Type "Patrolman's" Carbine...

- 16" M4 Profile Barrel
- 6 Position TeleStock
- 30 Round Magazine
- A2 Birdcage Flash Suppressor

M4A3 Type Patrolman's Carbine includes A3 Removable Carry Handle

M4A3 Type Patrolman's Carbine

Six Position Telestock

M4A2 Type Patrolman's Carbine

A2 "Birdcage" Flash Suppressor

Overall Length - 36.25 inches
A2 Weight w/o Magazine - 6.35 lbs.

Alternate optional buttstocks, flash suppressor and compensators are available - consult your Bushmaster Salesperson

- **M4A3 Type Patrolman's Carbine (BCWA3F 16M4)** Available from your FFL Dealer **M.S.R.P. \$1230.00**
- **M4A2 Type Patrolman's Carbine (BCWA2F 16M4)** Available from your FFL Dealer **M.S.R.P. \$1125.00**

Bushmaster's M4 Type Carbines are available in kit form - including all parts except the stripped lower receiver. Many options are available - consult with your Bushmaster salesperson. Stripped Lower's must be purchased from an FFL Dealer.

Bushmaster 16" Heavy Barreled Carbine...

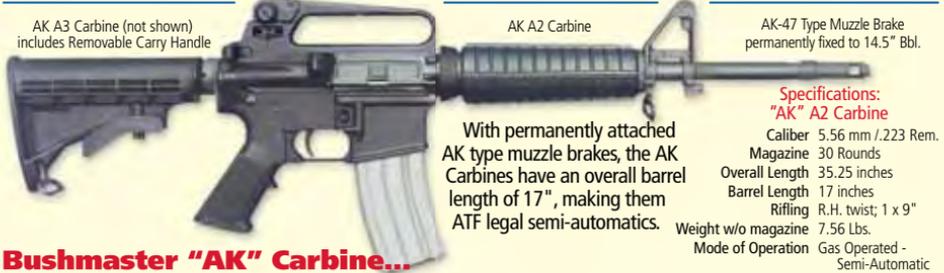

Specifications: 16" Hvy. Bbl. A2 Carbine

Bushmaster Modular Carbine...

B.M.A.S. Flip-up Sights - Front and Rear

16" Fluted Barrel - Chrome Lined in Bore & Chamber with A2 Birdcage Suppressor

Ace Skeleton Stock

B.M.A.S. Four Rail Forend

ErgoGrip Pistol Grip

6 Position Telestock

Specifications:

Caliber 5.56mm / .223 Rem.
Overall Length 34.5" [87.63 cm]
Barrel Length 16" [40.64 cm]
Rifling 1 turn in 9" R.H. twist
Weight w/o mag. 7.3 lbs. [3.31 kg]

Also available without flash suppressor & bayonet lug for States with those restrictions.

Bushmaster's 16" Bbl. Modular Carbine combines many of the most popular items from the Bushmaster Modular Accessories System (B.M.A.S.) into a completely unique firearm. Designed around an A3 type "flat-top" Upper, the Modular Carbine has a 16" Chrome Lined Chrome Moly Steel Fluted Barrel with a Milled Gas Block. It features the Skeleton Stock - with a comfortable rubber buttplate; quick detach sling swivel mount that can be positioned to left or right side of the carbine; a neoprene foam sleeve covering the buffer tube for a comfortable cheek weld (which also deadens the operational sounds of the buffer/action spring). The Modular can also be configured with a Bushmaster 6 Position Telestock.

A B.M.A.S. Four Rail Free-Floater Forend combined with the A3 type "flat-top" Upper Receiver provide all the Picatinny rails necessary for sights, scopes or accessories. Molded Rubber Sure Grips snap over the rail sections to add comfort and rail protection. The Dual Aperture B.M.A.S. Rear Flip-up Sight is a detachable unit with a windage knob calibrated to 1/2 Minute of Adjustment. The B.M.A.S. Front Flip-up Sight clamps around the milled gas block, and an ergonomically contoured Pistol Grip completes this special carbine. The Modular is shipped with a 30 Rd. Mag., Operating & Safety Manual, Orange Safety Block, and Web Sling in a lockable, foam lined carrying case.

- **Modular Carbine w. Skeleton Stock...** (BCWVML 16FMC) Available from your FFL Dealer **M.S.R.P. \$1745.00**
- **Modular Carbine w. 6 Position Tele...** (BCWVMF 16FMC) Available from your FFL Dealer **M.S.R.P. \$1745.00**

Bushmaster Dissipator Carbines...

16" Barrel with Full Length Forend, Full Sight Radius and Special Gas Block Placement under Handguards

A3 Removable Carry Handle

A3 Dissipator Carbine - includes A3 Removable Carry Handle

Overall Length
A2 Stock - 34.75"
Overall Length
TeleStock - 34.5"
A2 Weight w/o Mag
A2 Stock - 7.9 lbs.
A2 Weight w/o Mag
TeleStock - 7.44 lbs.

A2 Dissipator Carbine with Telestock

The gas block in this versatile carbine is located behind the front sight base, and under the handguards, to ensure the correct gas pressure in this carbine length barrel.

Barrel Fluting is optional at \$50.00 extra.

The rifle length handguards offer optimal heat dissipation (hence the name), and placement of the front sight allows for optimal use of the full sight radius designed into the M16A2 sight system. The 16" heavy profile barrel is chrome lined in both bore and chamber for excellent accuracy and long life.

The Dissipator is available with either a Six Position Telestock or an A2 Solid Buttstock.

- **Dissipator A3 16" Bbl. Carbine w. A2 Buttstock...** (BCWA3S 16D) From FFL Dealers **M.S.R.P. \$1205.00**
- **Dissipator A2 16" Bbl. Carbine w. A2 Buttstock...** (BCWA2S 16D) From FFL Dealers **M.S.R.P. \$1100.00**
- **Dissipator A3 16" Bbl. Carbine w. Telestock...** (BCWA3F 16D) From FFL Dealers **M.S.R.P. \$1230.00**
- **Dissipator A2 16" Bbl. Carbine w. Telestock...** (BCWA2F 16D) From FFL Dealers **M.S.R.P. \$1125.00**

The Dissipator is fitted standard with an A2 "trapdoor" buttstock - a 6 Position Telestock is optional. The Dissipator Carbine is shipped in a lockable, carrying case with 30 Round Magazine, Orange Safety Block, Operator's Safety and Instruction Manual and Black Web Sling. Dissipator and Modular models are available in kit form - ask for details.

"Pre-Ban or Post-Ban"?... Most Bushmaster models are available in either configuration. Typically, "Pre-Ban" models (as manufactured prior the Federal Assault Weapons Ban of 1994) would include High Capacity (30 Rd.) Magazine, Flash Suppressor, Bayonet Lug and possibly a Telestock. After the "sunset" of the Assault Weapons Ban in 2004, many States still have regulations prohibiting those "Assault Weapon Features". For those States, Bushmaster manufactures models in "Post-Ban" configurations. If in doubt about firearms configuration legalities in effect in your State, consult your State Legislators, or the Bushmaster Sales Department.

Bushmaster Target Model Rifles...

Removable Carry Handle is included with A3 configuration Rifles

20" A3 Chrome Lined Barrel Target Rifle

Length overall - 39.5 inches

A2 Weight w/o Mag. - 8.43 lbs.

24" A3 Chrome Lined Barrel Target Rifle

20" A3 Stainless Barrel Target Rifle

Caliber 5.56 mm / .223 Rem.

Birdcage Flash Suppressors

Others Optionally Available

Chrome Lined Bore & Chamber

Brush Finished 416 Stainless Steel Barrels

The Target Models qualify as the "standards" of our line – available with heavy profile match grade barrels of either Chrome Lined Chrome Moly Steel or Polished 416 Stainless Steel – button rifled (1 in 9", R.H. twist) to stabilize a wide range of popular bullet weights. An A2 "Birdcage" Flash

Suppressor is fitted, but other optional suppressors and muzzle brakes are available. The A2 Rifle's Upper Receiver features the fixed carrying handle design of the standard military rifle with an integral rear sight. In the A3 configuration, the "flat-top" Upper Receiver incorporates a Picatinny rail which allows easy attachment of accessory scopes, sights, and optic devices. With the A3 Rifle, a removable carry handle is included, and the dual aperture rear sight in that handle has 1/2 Minute of Adjustments in both elevation and windage.

Bushmaster Target Rifles are shipped with A2 "Birdcage" Suppressor, 30 Rd. Magazine, Orange Safety Block, Operating and Safety Instruction Manual, and Web Sling in a lockable, clamshell hard carrying case... an **\$18.95 value**. These Rifles are also available in kit form.

- **A3 20" Chrome Lined Bbl. Target Rifle...** (BCWA3S 20) Available from your FFL Dealer **M.S.R.P \$1195.00**
- **A2 20" Chrome Lined Bbl. Target Rifle...** (BCWA2S 20) Available from your FFL Dealer **M.S.R.P \$1085.00**
- **A3 24" Chrome Lined Bbl. Target Rifle...** (BCWA3S 24) Available from your FFL Dealer **M.S.R.P \$1205.00**
- **A2 24" Chrome Lined Bbl. Target Rifle...** (BCWA2S 24) Available from your FFL Dealer **M.S.R.P \$1095.00**
- **A3 20" Stainless Steel Bbl. Target Rifle...** (BCWA3S 20SS) Available from your FFL Dealer **M.S.R.P \$1235.00**
- **A2 20" Stainless Steel Bbl. Target Rifle...** (BCWA2S 20SS) Available from your FFL Dealer **M.S.R.P \$1125.00**

Bushmaster 11.5" Bbl. Carbines w. 5.5" Suppressor...

A3 Carbine includes the Removable Carry Handle

A3 11.5" Bbl. Carbine

Caliber: 5.56 mm / .223 Remington

11.5" Chrome Lined Barrel with Permanently Fixed 5.5" Flash Suppressor

Length with stock retracted - 31.5 inches

Length overall - 35.5 inches

A2 Weight w/o Magazine - 7.4 lbs.

A2 11.5" Bbl. Carbine

Available From your FFL Dealer

This lightweight carbine features an 11.5" heavy barrel with a 5.5" CAR 15 Flash Suppressor attached by pinning, and then welding over the pins. The total length of the chrome lined barrel and suppressor unit combines to the legal length of 16" for a semi-automatic rifle as required by ATF regulations. A six position telescopic sight is fitted, and a 30 round magazine is supplied (accepts all AR-15/M16 type magazines). Standard A2 sights are adjustable for elevation (1 M.o.A.) and windage (1/2 M.o.A.). On A3 configurations, the Removable Carry Handle is included (with 1/2 M.o.A. rear sight). The Bushmaster 11.5" Bbl. Carbine is shipped in a lockable, foam lined carrying case with Orange Safety Block, Black Web Sling, Operator's Safety and Instruction Manual and 30 Round Magazine.

Bushmaster 11.5/5.5 Suppressed Carbines are available in kit form including all parts except the stripped lower. Many options are available – consult with your Bushmaster salesperson. Stripped Lower must be purchased from an FFL Dealer.

Bushmaster V Match Rifle & Carbine...

V Match 16" Bbl. Carbine / Weight w/o Mag. - 6.8 Lbs. / Overall Length - 34.5"
 V Match 20" Bbl. Rifle / Weight w/o Mag. - 7.99 Lbs. / Overall Length - 38.25"
 V Match 24" Bbl. Rifle / Weight w/o Mag. - 8.83 Lbs. / Overall Length - 42.25"

To add an iron front sight to V Match models, select B.M.A.S. Front Flip Sight - designed to clamp around the Milled Gas Block (#YHM-9360K) **\$106.95**

A3 Removable Carry Handle (shown left) is optional for V Match models - clamps directly onto Upper Receiver (with 1/2 M.o.A. Rear Sight) (#9349063-9) **\$116.95**

The V Match flat-top Upper Receiver and "free-floater"

handguard make these models a great choice for the competitive shooter or the varmint hunter. 5.56mm/.223 Rem. heavy profile, Chromoly Vanadium steel, chrome lined barrels consistently deliver match winning accuracy. Barrel lengths of 16", 20" or 24" are available, and the barrel, and other steel components, are manganese phosphate coated for protection against exterior corrosion or rust. Forged 7075T6 aircraft aluminum receivers incorporate all M16A2 design improvements. The Upper Receiver's precision machined Picatinny rail allows mounting of a wide variety of scopes, sights and optics, and the tubular aluminum V Match knurled handguard lets the barrel "free float" for optimum accuracy. The handguard is black hard anodize finished and machine checked for optimum control and a non-slip grip. Bushmaster V Match Rifles and Carbines are shipped with 30 Round Magazine, Instructional Manual, Sling, Orange Safety Block, and Locking Carry Case. Barrel fluting is available as a \$50 option (add "F" to Part #). Complete rifles are available only through your FFL Dealer. Bushmaster V Match Rifle Kits are available, and include all parts except the stripped lower (purchase through your local FFL Dealer).

- **Bushmaster V Match 20" Bbl. Rifle...** (PCWVMS 20AH) Available from your FFL Dealer **M.S.R.P. \$1115.00**
- **Bushmaster V Match 16" Bbl. Carbine...** (PCWVMS 16) Available from your FFL Dealer **M.S.R.P. \$1105.00**
- **Bushmaster V Match 24" Bbl. Rifle...** (PCWVMS 24AH) Available from your FFL Dealer **M.S.R.P. \$1125.00**

NEW for 2006... The Bushmaster Predator...

All the features of our best selling Varminter below with a new 20" - 1 x 8" twist Barrel...

20" Fluted Bbl.
Rifled 1 x 8"
Not Chrome Lined

Specifications:

Caliber 5.56 mm / .223 Rem.
Overall Length 38.25 inches
Weight w/o Mag. 8 Lbs.
Gas Operated Semi-Automatic

The Predator - built as a result of numerous requests by the hunters who wanted a slightly shorter barrel and lighter swing weight in a carry rifle for predator hunting/calling, this 20" barreled version of the Varminter below will deliver all the accuracy you've come to expect from a Bushmaster. The 20" Barrel is fluted 4150 Chromoly Vanadium Steel (not chrome lined) with sharp 1 x 8" twist rifling for the heavier bullets typically used on bigger varmints and predators. Predator features include a hybrid SAAMI Spec. chamber; Two-Stage Competition Trigger (3 1/2 lb. take-up and 1 lb. let-off); a Vented Tubular Aluminum Free-Floater Forend with Bipod Stud; B.M.A.S. 1/2" Mini-Risers for optimum scope positioning and cheek weld; Hogue ergonomic, ambidextrous pistol grip; a 5 Round Magazine (legal for hunting in most states). Shipped with Safety Block and Operator's Manual in a Lockable, Foam Padded, Hard Case.

- **Predator 20" Bbl. Rifle...** (PCVWMS 20FPRED8) Available from your FFL Dealer **M.S.R.P. \$1310.00**

The Bushmaster Varminter... Built with every option the varmint hunter would want!

24" Competition Fluted Bbl.
Rifled 1 x 9" - Not Chrome Lined

Specifications:

Caliber 5.56 mm / .223 Rem.
Overall Length 42.25 inches
Weight w/o Mag. 8.4 Lbs.
Gas Operated Semi-Automatic

The Varminter - includes all the options a varmint hunting specialist would order in a custom rifle... Featuring: 5.56mm / .223 Rem. Caliber, 24" Fluted Extra Heavy Varmint Barrel of 4150 Chromoly Vanadium Steel (full 1" diam. out to the gas block); 11° competition crowned muzzle; 1 in 9" twist for optimum performance with most varmint cartridges. Machined with a hybrid SAAMI Spec. chamber with longer throat or "Leade" to accommodate 5.56mm ammunition (equally safe for use with .223 ammo). A Competition Two-Stage Trigger 4 1/2 lb. helps focus the shooter's attention on the target. The Vented Tubular Forend free-floats the barrel from the receiver forward - with cooling vents to increase barrel heat dissipation. A Bipod Stud is installed for easy mounting of most bipods - or a sling. Also included are an ambidextrous Rubberized Pistol Grip with comfortable non-slip textured surface; BMAS 1/2" Mini-Risers (to raise scope mounting height for correct sight picture and comfortable stock cheek-weld). Shipped with 5 Round Magazine (legal for hunting in most states), Safety Block, Operator's Manual and Special Maintenance Instructions in a Bushmaster Lockable, Foam Padded, Hard Case.

- **Varminter 24" Bbl. Rifle...** (PCVWMS 24FVAR9) Available from your FFL Dealer **M.S.R.P. \$1325.00**

Bushmaster Stainless Varmint Special...

24" 416 Stainless Steel Bbl.
Rifled 1 x 9"

Specifications:

Caliber 5.56 mm / .223 Rem.
Overall Length 42.25 inches
Barrel Length 24" - Rifling 1 x 9"
Weight w/o Mag. 8.84 Lbs.
Gas Operated Semi-Automatic

Based upon the design of our first Varminter, the "Stainless Varmint Special" combines all the essentials for serious varmint hunting - including a polished, 416 Stainless Steel, 5.56mm/.223 Rem. Caliber 24" Barrel (button rifled, 1 in 9" right hand twist). This highly accurate barrel is free-floated in a vented, tubular aluminum forend and mated to our "flat-top" V Match Upper Receiver. The vented free-floater aluminum forend is supplied with a Bipod/Sling Mount Stud installed. Two Bushmaster Modular Accessories System Scope Riser Blocks are mounted on the flat-top's Picatinny rail to raise your scope 1/2" for a proper sight picture. The lower receiver features a Competition Two-Stage Trigger and the A2 Buttstock is complete with storage compartment. An Adjustable Palm Swell Tactical Pistol Grip offers shooting comfort and correct trigger pull angle. The Stainless Varmint Special ships complete with Five Round Magazine (a legal requirement for hunting in most states, though this rifle will accept all capacity AR15/M16 type magazines), Orange Safety Block, and Operator's Manual in a Lockable Case.

- **Stainless Varminter Special Rifle...** (PCVWMS 24-9SS) Available from your FFL Dealer **M.S.R.P. \$1325.00**

The Bushmaster DCM Competition Rifle...

The 600 Yard Range at Camp Perry – Home of the National High Power Matches and “Birthplace” of the Bushmaster DCM Rifle.

Ready to compete in National High Power Competition Matches – right out of the box!

Bushmaster Firearms has designed a rifle for the serious DCM Competition shooter. In keeping with DCM Competition rules, this rifle looks like a stock “AR15” type rifle but includes competition modifications that will give you the winning edge – right out of the box. **Features:**

① An A2 Rear Sight specially modified to accept interchangeable “micro-aperture” peeps. Its windage and elevation mechanisms feature either 1/2 or 1/4 Minute Adjustments with each click of the windage knob or elevation dial. Precision machined micro-aperture inserts are available in four sizes: .036" - .040" (standard, and most commonly selected by competition shooters) - .046" and .052" sizes. **Please specify when ordering.**

② A Competition Front Sight Post specially ground on three sides for optimum visual clarity - available in your choice of two different widths (.052" or .062" width). **Please specify when ordering. Note: The post is secured within the Front Sight Base by a set screw to avoid the possibility of movement once you have established zero.**

③ A 20" Bushmaster Extra Heavy Competition Barrel – a full 1" in diameter under the handguard – with an 11° Crowned Competition Muzzle. Precision button rifled in a 1 x 8" right hand twist, they are machined from Chrome Moly Vanadium barrel steel, lapped and hardened to Rockwell C26 to 32 - superior to stainless barrels! With a hybrid custom match chambering that uses a tighter SAAMI Spec. headspace from the chamber shoulder to the bolt face, it has longer throat depth or “Leade” that will accommodate the higher pressure 5.56mm ammunition but .223 Rem. caliber can be safely used as well. **Note: These barrels are shipped well oiled. For your safety, they must be cleaned before shooting. Follow all break-in and maintenance instructions included with your rifle.**

④ In the Upper Receiver, the Bolt is matched to the Barrel Extension for positive lockup and optimum accuracy.

⑤ The Lower Receiver houses a finely honed Competition Trigger that is factory set for a DCM legal 4.5 lb. pull. The 1st Stage is 3.5 lbs., and the letoff (2nd Stage) is 1 lb.

⑥ The forearm uses stock style outer handguards over a “free floater” tube that does not contact the barrel. A sling swivel is attached to the leading edge of the tube so as to avoid any possibility of barrel deflection when using a sling.

⑦ The buttstock has been improved for competition with the addition of a 3.62 lb. lead counterbalancing weight which can be trimmed by the competitor to achieve proper balance, and adds to the solid feel of this special competition model. The overall weight of the rifle totals 13.5 pounds.

⑧ “Controlled Ejection Path” - Ejection of spent cases from the Receiver has been engineered so as to drop them all in the same place - a great convenience for the reloader, and a courtesy to fellow competitors next to you on the line.

Any of the accurizing parts built into the Bushmaster DCM Rifle can be ordered as accessory additions for your rifle. For more information, call or go online to: www.bushmaster.com or consult us by email: Sales@bushmaster.com

BUSHMASTER XM15-E2S Complete Lower Receiver Assemblies...

Why Bushmaster Lower Receivers are the Best...

- Precision machined from high tensile strength 7075 T6 Aluminum Alloy Forgings – Bushmaster DOES NOT use castings.
- Bushmaster Receivers are guaranteed for fit and function to ensure that if you ever buy a second Upper Receiver/Barrel assembly, it will be completely compatible and interchangeable with your lower receiver.
- M16 A2 design reinforcement area around front pivot pin and reinforcing ridge over the receiver extension attachment area for extra strength.
- Protective finish: Hard Anodize Military A8625, Type III, Class 2 finish (lusterless, flat, approximate Black No. 36118 Table IX). We do not paint our receivers.
- Surfaces are bead blasted to a non-reflective matte finish prior to anodizing.
- A Nickel Acetate final seal coating protects against corrosion.
- Raised "ridge" around magazine catch button protects against accidental magazine release.
- Standard pivot pin design connects uppers and lowers with captivated front pivot pin and rear take down pin (so the pins can't fall out and become lost).

Lower Receiver Assembly with Pistol Grip
(Part# ALOW W/OSTK)
Complete & Assembled as shown. M.S.R.P.... \$275.00

An FFL is required for the purchase of any Lower Receiver. Contact your local FFL Dealer, prices may vary from suggested retail above.

Complete Lower Receiver Assembly with Six Position "TeleStock", Pistol Grip, and all internal components.

With the Sunset of the 1994 Assault Weapons Ban, Bushmaster can again offer this Lower Receiver Assembly featuring a Six Position Telescoping Stock. This assembly is all Bushmaster highest quality components – complete and ready to use – just snap on your Upper Receiver.

An FFL is required for purchase, or you can order through your FFL Dealer. **NOTE:** Assemblies with Telestocks may still be illegal in some States. Check your own State and County Statutes to determine legality.

Also available - Lower Assembly with ATF approved Fixed Length Tele-Style Stock (not shown - see Pistol Grips / Buttstocks Section). **Lower w. Fixed Tele... M.S.R.P. \$360.00** (Part# A LOW PERMX)

FFL Required for Purchase

Lower Assembly with Telestock...
M.S.R.P. \$360.00
(Part# A LOW TELEP)

Complete Lower Receiver Assembly with A2 Trapdoor Buttstock, or Ace Skeleton Stock...

These lowers are fully assembled and ready for an Upper Receiver. The Solid A2 Buttstock is 5/8" longer than the original A1 version for better trigger pull ergonomics, and includes a "trapdoor" storage compartment for cleaning kit, parts, etc. (Part# A LOW STD)

Suggested Retail Price... \$335.00

The same Complete Lower Receiver Assembly is also available with the light Ace Skeleton Stock, which offers a comfortable rubber buttpad, a neoprene foam sleeve over the extension tube, and multiple mounting points for the Q.D. sling swivel included. (Part# A LOW SKELETON) **Suggested Retail Price... \$415.00**

An FFL is required for purchase of any Lower Receiver. Contact your local FFL Dealer, prices may vary from Suggested Retail Price shown.

Bushmaster "Stripped" Lower Receiver... This is the premium quality base for those who want to build a Bushmaster Rifle "from the ground up". To assemble this machined 7075 T6 Aluminum Forging, you'll need a Complete Lower Parts Kit and your choice of stocks (see Pistol Grips / Buttstocks Section in this catalog). For complete rifle buildup instructions, we recommend the Bushmaster Video or the U.S. Gov't M16A2 Technical Manual (see Gunsmithing Section in this catalog).

Suggested Retail Price... \$195.00 (Part# 9349102-S)

An FFL is required for the purchase of any Lower Receiver.

Bushmaster Carbon 15 "Stripped" Lower Receiver... These are the same lightweight receivers we use on our new C15 M4 Type "Flat-top" Carbine and others. Standard "AR" Parts (like our Lower Receiver Parts Kit) drop right in. Carbon 15 composite components are lighter, cooler in operation and have no surface finish to wear off.

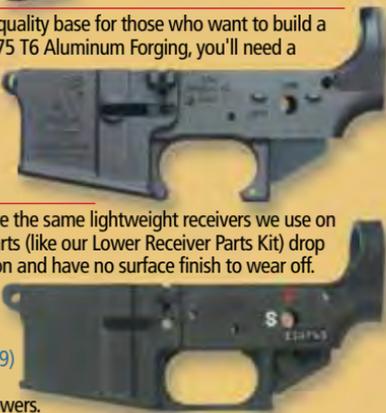

C15 M4 Type Receiver - M.S.R.P. ... \$195.00 (Part# AZ15780)

Also available:

C15 R21/97/97S Receiver - M.S.R.P. ... \$195.00 (Part# AZ15180)

C15 P21/97 Pistol Receiver - M.S.R.P. ... \$195.00 (Part# AZ15179)

For other Carbon 15 Receiver Assemblies, consult your Bushmaster Salesperson. A Federal Firearms License is required for purchase of all lowers.

NOTE: BATF RULING PROHIBITS USE OF M16 COMPONENTS IN LOWER RECEIVER.

See Page 19 for an M16/AR15 parts comparison if you have any doubt about parts in your rifle.

Bushmaster Receivers & Parts 15 Orders 24 Hrs.: 1 800 998 7928

BUSHMASTER Upper Receivers...

Complete A2 Upper Receiver... \$186.95 (Part# A2UR)
Assembled with the A2 Dual Aperture Rear Sight, Ejection Port Cover, and Forward Assist Assemblies. Forged of 7075T6 Aircraft Aluminum, these quality Receivers are machined to mil. spec. or better, and hard anodize finished to a dark gray non-reflective finish. They include an integral brass deflector, and a baked on dry film lube coating inside for long wear and smooth carrier operation. Charging Handle is not included.

Bushmaster A2 Stripped Upper Receiver... \$121.95 (9349063) This ready-to-assemble, fully machined, anodize finished and dry lubed forging is top Bushmaster quality. Start building your AR rifle with the best new stripped Upper Receiver available. Requires a Rear Sight; Forward Assist Assembly and Ejection Port Cover Assembly for completion - all parts and tools to help assemble your Bushmaster Upper are available in this catalog. Also see our Parts Schematic on Pages 40/41.

Bushmaster A1 Upper Receivers... The early AR15/M16 Upper Receiver differed from the current A2 in that its simpler rear sight did not include an elevation adjustment. The Forward Assist Assembly often utilized the "tear-drop" type button although mechanically identical in function to the round type (either are available). Aircraft quality 7075T6 aluminum forgings are used for strength, and they include the integral cartridge case deflector. The finish is a mil. spec., non-reflective hard anodize with a baked on dry film lube coating inside to ensure long wear and smooth carrier operation.

Complete A1 Upper Receiver Assembly... \$154.95 (A1UR) Shown above right - includes Forward Assist Assembly, Ejector Cover Assembly and A1 Sight Assembly.

Stripped A1 Upper Receiver Assembly... \$121.95 (8448524) Shown at right, this is a fully machined and finished forging ready for assembly - does not include Forward Assist Assembly, Ejector Cover Assembly or A1 Sight Assembly.

V Match ("Flat-top") Upper Receiver Assembly - with integral Picatinny rail... \$182.95 (Part# VUR) This is the popular A3 "flat-top" Upper Receiver. It's Picatinny configuration rail allows mounting the wide variety of scopes, sights and optics available for the AR system. It has been carefully machined from a 7075T6 Aircraft Aluminum Forging and is complete as shown with Ejection Port Cover and Forward Assist.

Stripped V Match ("Flat-top") Upper Receiver... \$151.95 (Part# 8448524-V) A fully machined and hard anodize finished 7075T6 Aircraft Aluminum Forging ready for assembly. parts - requires the Ejection Port Cover Assembly and the Forward Assist Assembly shown on next pages.

Carbon 15 Molded Upper Receivers... Injection molded of Carbon Fiber composite developed in the Aerospace Industry, with these light weight and extremely durable Receivers you can build the lightest AR type rifle around. They do not require Ejection Port Covers or Forward Assist Assemblies.

Carbon 15 Flat-top Upper Receiver... \$151.95 (AZ15747) Shown upper right - includes a Picatinny Rail for optics attachment.

Carbon 15 Pistol Upper Receiver... \$139.95 (AZ15067) Pistol Upper (right) is slotted for the Ghost Ring Sight as on P21/97. Call for information and pricing on other Carbon 15 Receivers.

BUSHMASTER Lower Receiver Parts & Kits...

Complete Lower Receiver Parts Kit... Everything necessary to completely build up your Lower Receiver. Kits available with either AR15 or M16* components. (Lower Receiver And Auto Sear are not included).

AR15 Lower Parts Kit ... \$69.50 (Part # ALOW KIT)
M16 Lower Parts Kit* ... \$69.50 (Part # MLOW KIT)

*NOTE: M16 parts require FFL or MG Tax Stamp.
M16 Parts are NOT Legal for Sale in California.

DCM Competition Complete Lower Receiver Parts Kit... \$170.95 (ALOWKITCOMP) All parts shown above plus our Adjustable Two Stage Competition Trigger - save \$25 over separately purchased parts.

Bushmaster Competition Trigger - For the Serious High Power Competitor... (8448592-SCGK) \$127.95

A finely honed competition trigger including all the specially modified parts shown - ready for installation in your Lower Receiver. This Trigger can be set for a 3 1/2 lb. DCM legal 1st Stage, and a 1 lb. (2nd Stage) letoff. Also available...

Two Stage Competition Trigger w. Ambidextrous Safety... \$148.95
 (8448592-SCGKA)

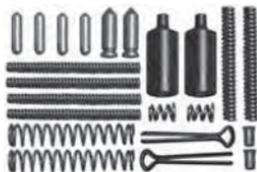

NOTE: This Trigger will not fit in Colt Lowers with Block over Safety. Won't work with Large Colt Pivot Pins.

The "Lost" Parts Kit for AR15 Type Rifle... \$13.50 (Part # CP-KIT)

The first problem with AR15 maintenance and gunsmithing work is the little spring or detent that pops out and falls into that black hole under the workbench! This Parts Kit - of all the most critical springs, detents, inserts and pins - will get your gun back to full function in short order.

Includes: 4 Takedown Pin Detents; 4 Takedown Pin Detent Springs; 2 Buffer Retainers; 2 Buffer Retainer Springs; 2 Firing Pin Retaining Pins; 2 Safety Detents; 2 Safety Detent Springs; 2 Extractor Spring Inserts; 2 Extractor Springs.

Field Repair Kit... High breakage and loss items in a heavy zip-lock bag. Will fit in Stowaway Grip. Includes extractor, 2 extractor springs, 2 extractor spring insert, disconnecter, gas ring set, extractor pivot pin, firing pin, 2 firing pin retaining pins, cam pin and spring package of 6 springs. **\$31.95 ea.**
For AR-15... \$31.95
 (Part # A FIELD)
or M-16*... \$31.95
 (Part # M FIELD)

*NOTE: M16 Parts are NOT Legal for Sale in California.

XM15/AR15/M16 Emergency Survival Kit... This Kit includes more parts than our Field Repair Kit above - all packed in a handy Olive Drab Carrying Case you can wear on a belt. Carrying Case measures approximately 9.25" x 3.5" (outside dimensions).

Includes Cam Pin, Extractor with 2 Pins and 2 Springs, Extractor Insert, Firing Pin, 2 Firing Pin Retaining Pins, Disconnecter and Spring, Hammer with "J" Pin and Spring, Hammer Pin, Trigger Pin, Trigger Spring, Safety Detent and Spring, Magazine Catch Springs, Gas Rings (3), Sight Adjustment Tool, and 2 Armorer's Punches for Field Disassembly.

Specify with part numbers below: **A1 Type:** (Round Front Sight Post) or **A2 Type:** (Square Front Sight Post) and **AR15 (AR)** or **M16 (M)** parts. (Note: M16 parts require an FFL or Form 4 for purchase.)

Survival Kit w. A1 Sight Tool... \$63.95
 (for AR15 - AR EMERG A1 / for M16 - M EMERG A1)
Survival Kit with A2 Sight Tool... \$63.95
 (for AR15 - AR EMERG A2 / for M16 - M EMERG A2)

Bushmaster Receiver Spring Package... \$2.95
 (Part # SM SPRING PACK) Tighten your Receiver's action with this top quality Spring Kit.

Includes Springs for Hammer, Trigger, Ejector, Extractor, Magazine Catch and Disconnecter.

Complete AR15/M16 Pin & Detent Package... \$7.50 (# AR PIN PKG) Includes every pin and detent in the gun - a \$13 value if sold separately. Contains: 2 Hammer/Trigger Pins; 2 Front Sight Taper Pins; Firing Pin Retaining Pin; 2 Takedown Pin Detents; Safety Detent; Bolt Catch Plunger; Extractor Pin; Gas Tube Roll Pin; Front Sight Detent; Ejector Pin; Forward Assist Pin; Bolt Catch Pin; Buffer Detent; Trigger Guard Pin.

BUSHMASTER Lower Receiver Parts & Kits...

MagPul Enhanced Aluminum Trigger Guard for AR15/M16 (MAGO15) \$19.95

A drop-in oversized trigger guard that replaces the standard plastic or metal type, this hard anodize finished piece offers greater access to the trigger (especially when using gloves), reduces chance of accidental discharge, and fills the blister causing gap between the receiver tabs. Installs with a replacement roll pin and a 1/16" Allen Head set screw. Made in U.S.A. / Instructions included.

Complete AR15 Spare Parts Kit... \$39.50 We've taken our Field Repair Kit, our Complete Spring Package, and our Complete Pin & Detent Package and combined them into one "super-kit" that will take care of all your AR15 rifle's spare parts needs. You'll get all these parts and more: every Spring in the Gun (including Buffer Spring); Firing Pin; 3 Firing Pin Retaining Pins; Cam Pin; Disconnecter; Extractor; Extractor Pivot Pin; 2 Extractor Spring Inserts; Gas Ring Set; 2 Hammer & Trigger Pins; 2 Front Sight Taper Pins; 2 Takedown Pin Detents; Safety Detent; Bolt Catch Plunger; Gas Tube Roll Pin; Front Sight Detent; Ejector Pin; Forward Assist Pin; Bolt Catch Pin; Buffer Detent; Trigger Guard Pin. This is a great value for only \$39.50! (Note: If you have our Fixed Length Tele-Stock, please choose the Rifle Buffer Spring Package. Not all parts are shown, and not shown to correct scale.)

Specify your choice of:
Complete AR15 Spare Parts Kit
Parts Kit w. Rifle Buffer Spring
 (Part # ARPARTSKIT)

OR
Complete AR15 Spare Parts Kit
Parts Kit w. CAR Buffer Spring
 (Part # ARPARTSKIT-C)

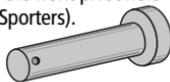

Complete Spring Package... \$10.50 Every spring in the gun, including the Buffer Spring. Please specify if for Telescock Carbine (Part # A COMP SPR PKG-C), or Standard Buffer Spring (Part # A COMP SPR PKG).

AR15/M16 Accu-Wedge... \$6.50 (Part # ACU1B) Accu-Wedge eliminates play between Upper and Lower Receivers for a more solid feel. Buffers the cycling system to reduce wear on the impacting surfaces. Easily installed, no modifications required. Drop the Accu-Wedge into the rear of the

Lower Receiver - close the Upper Receiver, squeeze, and push the Takedown Pin into place.

AR-AR Push Pin... \$10.95 (Part # OAK-01) Replaces the big two-screw bolt in the front pivot hole on Colt receivers (will only fit Colt Sporters). Converts receiver to standard takedown operation - as on the military version.

Anti-Walk Pins... for XM15, AR15 and M16... Set of Two Pins with Circlips... \$6.50 (WE-002) Designed to prevent trigger or sear pin walkout under rapid fire conditions. Steel with black phosphated finish.

AR15 or M16* Ambidextrous Safety Selector...

Don't be penalized for being left handed any longer.

Installs easily into your lower receiver and enables activation of the rifle with either hand. Assembles with a button head Allen Screw. For the M16 part, an FFL, or a copy of your Form 4 is required for sale.

AR15 (Part # MMT-0007K) **\$36.95**

M16* (Part # MMT-0006K) **\$36.95**

*M16 Parts are NOT Legal in California)

Ambidextrous Magazine Release... \$95.95

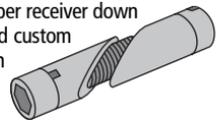

(8448638-ambi) Now, release magazines from either side of the receiver - especially handy for lefties.

This well made assembly is an easy replacement for your stock magazine release - uses stock button and spring. No receiver modification is required, the design reduces the possibility of accidental release, and helps keep out sand and mud. All steel construction with a mil. spec. manganese phosphate finish. Made in U.S.A.

Expandable Tensioning Pin For All AR15 Type Rifles... \$36.95

(Part # ARTP) These pins are designed to cure the looseness between older upper and lower receivers. Install and tighten with an Allen wrench, and this precision pin pulls the upper receiver down onto the lower for a rock hard custom fit. Improves accuracy in even the poorest fitting upper and lower receivers.

Reverse Offset Pin... \$16.95

(Part # WE-003) Allows mounting a Colt Upper Receiver with large pin holes to a mil. spec. (small hole) push pin type Receiver.

BUSHMASTER Lower Receiver Parts & Kits...

Offset Pin... \$6.50
(NES-06) Adapts a Colt Lower Receiver (with large hole) to M16 Forward Assist type Upper Receiver with smaller hole.

M16*A2 Three Shot Burst Set... \$63.95
(3SHOT BURST KIT) Installation of this set in your M16A1 machine gun will give you a Three Shot Burst capability as in the M16A2. New, highest quality parts. An FFL is required for sale, or a copy of your Form 4. Not legal for installation in anything but a licensed machine gun.

*M16 Parts are NOT Legal for Sale in California.

M16* Full Auto Sear... \$31.95
(8448595) Includes Pivot Pin, Bushing and Spring.

Note: An FFL or Tax Stamp is required for purchase.

Individual Lower Receiver Parts for Late Model COLT AR15s... These are the hard to find parts for the late model Colts requiring the larger .172" diameter Hammer and Trigger Pins.

Hammer... \$23.50 (Part # 8448612-SCK)

Trigger... \$21.50 (Part # 8448592-SC)

Disconnecter... \$7.50 (Part # 8448635-SC)

Hammer or Trigger Pin... \$3.50 (Part # 8448609 C)

For All 5 Parts in a Kit - Hammer; Trigger; Disconnecter (Semi-auto); Hammer and Trigger Pins... \$53.95 (Part # AR COLT KIT)

AR15 or M16* "Re-hab" Kit... \$35.95 ea.
Hammer, Trigger, Safety Selector and Disconnecter. Specify whether for **Semi-Auto or Full-Auto**.

*NOTE: M16 Kit must be used in a Title II Receiver for legality. An FFL or Tax Stamp is required.

For Semi-Auto AR15s,
(Part # A REHAB)
\$35.95 or
For Full-Auto M16s,
(Part # M REHAB)
\$35.95

*Note: M16 Parts are NOT Legal for Sale in California.

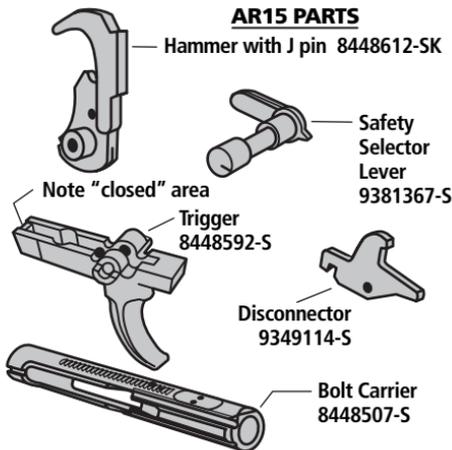

A STATEMENT FROM BUSHMASTER REGARDING MACHINEGUN PARTS

The position of the Bureau of Alcohol, Tobacco and Firearms (ATF) is that if your AR15 type rifle contains even one M16 component, it is a Machine Gun. If you own an AR15 from any manufacturer, check to make sure there are no M16 components in it's assemblies. If there are, remove them immediately. Machine them to AR configuration, or replace them and destroy the M16 components. Refer to the illustrations below to determine if you have M16 components in your assemblies. If you have any questions about your parts, give us a call and we'll be glad to supply you with the legally acceptable parts.

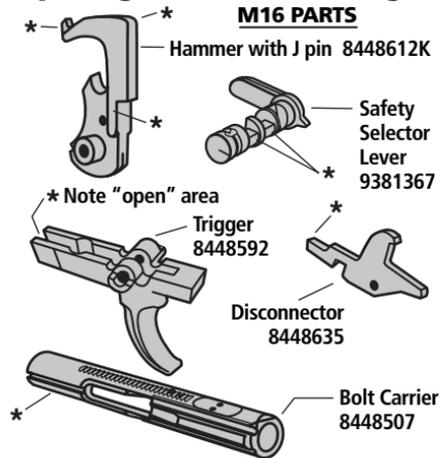

Sales of M16 components by Bushmaster/Quality Parts Co. will only be made to the following categories of customers: (1) Class 3 (NFA) Dealer. (2) Individual who has a registered NFA weapon. (3) Federal Firearms Licensee with a customer who has a registered NFA weapon.

Note the Differences* Between the Corresponding Parts in Each Drawing

AR15 PARTS

M16 PARTS

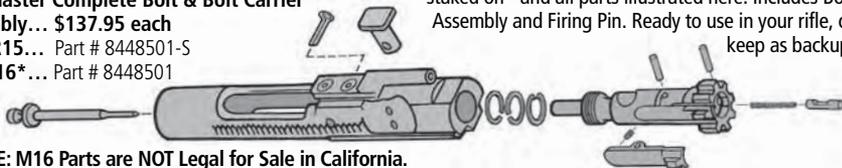

BUSHMASTER Upper Receiver Parts...

Bushmaster Complete Bolt & Bolt Carrier Assembly... \$137.95 each

For AR15... Part # 8448501-S

For M16*... Part # 8448501

A fully assembled, Chrome Lined Bolt Carrier with Key staked on - and all parts illustrated here. Includes Bolt Assembly and Firing Pin. Ready to use in your rifle, or keep as backup.

*NOTE: M16 Parts are NOT Legal for Sale in California.

AR15 or M16 Bolt Carrier Assembly with Key Staked on... \$92.50 each These are new bolt carriers machined of highest quality gun steel - not rewelds or remakes - and they are chrome lined for smooth bolt functioning and long life. The bolt carrier assembly is the "heart" of your rifle - with the most critical machining tolerances of any component in the weapons system. We manufacture to mil. spec. or better, and magnetic particle inspect to insure against cracks or flaws that could cause catastrophic failure or injury.

For AR15... \$92.50 (8448505-S)

For M16*... \$92.50 (8448505)

NOTE: M16 Bolt Carriers must be used in Title II Receivers for legality.

An FFL or Tax Stamp is required for purchase. *NOTE: M16 Parts are NOT Legal for Sale in California.

AR15 or M16 Bolt Carrier without Key... \$78.95 each Same quality Chrome Lined Carrier as shown above, but without the Carrier Key for the "do it yourselfer".

AR15... \$78.95 (8448507-S)

For M16*... \$78.95 (8448507)

CAUTION: Bolt Carrier Keys must be "staked" onto the Carrier for safe and proper functioning in your rifle. See next page to purchase Carrier Key. For information on this procedure, or any AR15 assembly/disassembly work, we recommend the Bushmaster Video or the U.S. Government M16 Technical Manual (see Gunsmithing Section).

*NOTE: M16 Parts are NOT Legal for Sale in California.

Complete AR15 Bolt Assembly... \$56.00 (8448509) Includes Bolt, Extractor Assembly, Pins, Gas Rings, Ejector Assembly - all highest quality parts completely assembled, and ready to use in your rifle.

AR15 Bolt Assembly
Parts detail illustration...

Forward Assist Assemblies... \$21.50 ea. "Teardrop" or Round Style...

Quality assemblies are machined from 4140 ordinance steel - heat treated to avoid gouged bolt carrier problems or wear on the pawl tip - Manganese Phosphate finished.

Teardrop Style... (9349086-TD KIT)

Round Style... (9349086 KIT) \$21.50 ea.

Ejection Port Cover Assembly... \$12.95

(A EJ COV ASS) Manganese Phosphate finished in matte grey/black color to match hard anodized uppers. All new parts including Cover with Latch, Rod, Spring and Circlip.

Bolt Cam Pin... \$4.50 (8448502) This quality replacement pin is critical to the safe functioning of your AR type rifle. These are machined of hardened steel to military specs. or better, then Manganese Phosphated for protection against rust or corrosion.

Titanium Firing Pin... \$42.50 (13-7015) Titanium is 40% lighter than steel for faster lock time, and greater accuracy. Precision machined and patented. Increases your safety by reducing the possibility of a "slam fire". This pin fits either AR15 or M16.

Bolt Carrier Rebuild Kit... Bring your Bolt Carrier Assembly back up to new specifications. Includes all parts shown to rebuild your Bolt and Carrier. \$37.95 each

For AR15... (A BC REBUILD)

M16*... (M BC REBUILD)

*NOTE: M16 Parts are NOT Legal for Sale in California.
WARNING: Key must be staked onto Carrier

Chromed Steel Firing Pin... A standard, mil. spec. Firing Pin for the AR15 or M16. Keep a spare in the buttstock compartment. For AR15... (8448503-S) \$7.50 For M16... (8448503) \$7.50

Bushmaster Upper Receiver Parts...

Standard Charging Handle Assembly... \$26.50
(Part # 8448517) These are not steel stampings that might bend or distort from heat buildup. Precision machined from 7075T6 aircraft quality aluminum forgings, they are hard anodize finished per U. S. mil. spec. - with latch installed.

AR15/M16 Charging Handle Tactical Latch...

\$21.95 (1005-249-02) Sturdy steel construction – improves on the standard charging handle latch and allows easy weapon charging, or left handed operation when using a scope or other optics. Installation is a simple replacement – don't lose your existing latch spring or pin when you change over to this latch on your charging handle.

NEW! From BUSHMASTER... Enidine Hydraulic Buffer / Rate Reducer... A drop-in replacement for standard buffers - with units designed for either rifles or carbines. This rugged "shock absorber" will add reliability to your AR, reduce felt recoil, improve accuracy and protect your optics from excessive shock. For Full Auto guns, they'll bring firing rate down to a very manageable level, and smooth out the functioning of the gun. Bushmaster installs them in our short barreled Full Auto models. Quality alloy steels with a black oxide finish; action rod is nickel plated for smooth operation. Rear "bumper" is molded black polyurethane.

Hydraulic Buffer / Rate Reducer for Carbines... (Part # HB-1A) \$ 89.95 / For Rifles... (Part # HB-2A) \$ 99.95

PARTS FOR BUSHMASTER COMPETITION RIFLES... (can be fitted to standard models as well)

DCM Competition Lower Receiver Assemblies...

All Include our factory set DCM

Two-Stage Competition Trigger...

• Complete DCM Competition Lower

Assembly... Lower Receiver with A2 Buttstock, Competition Buttstock Weight, Pistol Grip and Two Stage Trigger as shown. (Part# A LOW STD W/CGWT) M.S.R.P. ... **\$430.00**

• **DCM Lower Assembly...** Same assembly as above less Buttstock Weight. (Part# A LOW STD W/CG) M.S.R.P. ... **\$410.00**

• **DCM Lower Receiver Assembly minus Buttstock...** Includes Pistol Grip, DCM Two Stage Trigger and all internal parts - as shown at right. (Part# ALOW W/OSTK W/CG) M.S.R.P. ... **\$360.00**

Lower Receivers available only through FFL dealers.

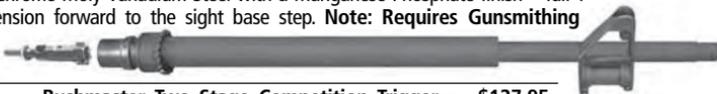

DCM Competition A2 Upper Receiver Assembly with A2 Competition Rear Sight... Includes Forward Assist, Ejection Port Cover and One Competition Sight Micro-Aperture in your choice of four "peep" sizes - please specify size (see descriptions below).

• **DCM Upper Receiver with 1/2 Minute Rear Sight...** \$223.95 (Part # A2URCG2)

• **DCM Upper Receiver with 1/4 Minute Rear Sight...** \$223.95 (Part # A2URCG4)

Bushmaster DCM Competition Heavy Barrel with Factory Matched Bolt and Front Sight Base... \$313.95 (9349054-20CGA) A lapped 20" Barrel, button rifled in 1 x 8, features an 11° competition muzzle crown, and a custom match hybrid chambering with longer throat, or "Leade" to accommodate 5.56mm ammunition. This avoids the higher pressures developed when shooting 5.56mm ammo in a .223 caliber chamber that has a shorter "Leade" (both calibers can be safely used). Finest Chrome Moly Vanadium Steel with a Manganese Phosphate finish - full 1" diam. from the barrel extension forward to the sight base step. **Note: Requires Gunsmithing assembly to achieve optimum accuracy.**

Bushmaster Two Stage Competition Trigger... \$127.95

(8448592-SCGK) This finely honed competition trigger includes all the specially modified parts shown plus instructions - ready for installation in your lower receiver. This trigger can be set for a 3 1/2 lb. DCM legal 1st Stage and a 1 lb. (2nd Stage) letoff. **NOTE: This Trigger will not fit in Colt Lowers with a "Block" over the Safety, and is not designed to work with large Colt pivot pins.**

Also Available... Two Stage Competition Trigger with an Ambidextrous Safety... \$148.95 (8448592-SCGKA)

Bushmaster Competition A2 Rear Sight Assembly... Bushmaster offers these highly accurate Rear Sight Assemblies - and individual parts for them - to the serious competition shooter. The elevation and windage mechanisms on these fine sights feature either 1/2 or 1/4 Minute of Adjustment with each click of the windage knob or elevation dial. The long distance aperture has been machined to allow screw-in installation of one of four different interchangeable Micro-Apertures (one aperture of your choice is included with each complete sight or flip-up assembly). These precision machined flip sight inserts are available in four aperture sizes measuring: .036" / .040" Standard (9 out of 10 shooters find the .040" standard aperture works best, your eyes may differ) / .046" or .052"

• 1/2 M.o.A. Rear Sight with choice of aperture size... \$122.50 (9349072CGA2)

• 1/4 M.o.A. Rear Sight with choice of aperture size... \$122.50 (9349072CGA4)

Bushmaster DCM 1/4 Minute Windage Competition Rear Sight Conversion Kit... \$21.50 (Part # AR 1/4MIN CONVK) Convert your old A2 sight to 1/4 Minute of Adjustment windage configuration with these competition parts. Kit includes 1/4 M.o.A. Drum, Pin, Detent Springs and Balls.

"The Hood"... (9349075CGH) \$15.95 A Competition Rear Sight Shroud, (shown center in photo) this tubular, threaded insert for our competition flip-up eliminates all glare and improves your sight picture. Internally threaded to accept the micro-aperture of your choice.

"The HOOD KIT"... \$40.50 Includes our Competition Flip-up; the Hood Sight Shroud and your choice of one Competition Aperture (sizes at right). Part numbers below indicate the size of the aperture opening. **Choose from...** Part #: CGF36HK / CGF40HK / CGF46HK / CGF52HK

Extra Competition Sight Apertures*... \$10.95 ea. Choose from: .036" (CGI36) / .040" Std. (CGI40) / .046" (CGI46) / .052" (CGI52). These thread directly

into the flip-up in your Competition Sight. Your vision determines which Micro-Aperture suits you best (most shooters prefer the .040" standard).

***Any Three Apertures can be purchased as a set... \$25.95**
Select from sizes listed above.

PARTS FOR BUSHMASTER COMPETITION RIFLES...

A2 Competition Front Sight Post... \$13.95

A quality sight post that is surface ground on three sides for optimum visual clarity - replaces your existing sight post. Available in 2 widths - Specify....052" (9349056CG52) / .062" (9349056CG62)

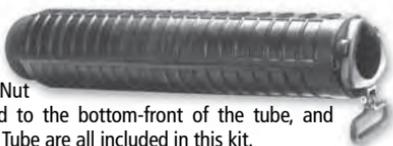

A2 Competition "Flip" Sight... \$26.50

Shipped with One Micro-Aperture. Choose from these 4 Aperture sizes: .036"(CGF36) / .040"(std.) (CGF40) .046"(CGF46) / .052"(CGF52)

Bushmaster DCM "Free-Floater" Kit - A Barrel Nut / Free-Floater Tube / Handguard Combination... \$159.95

(9349059CGA) Designed to meet all DCM regulations, this competition forend allows the Barrel to free float from the Barrel Nut forward for maximum accuracy. A Sling Swivel Loop is mounted to the bottom-front of the tube, and Handguards, Delta Ring, Weld Spring, Snap Ring and a Special Gas Tube are all included in this kit.

DCM Free-Floater Tube & Custom Gas Tube Set... \$132.95 (Part # 2698823)

Standard handguards will require minor modifications to fit.

Competition Handguard Balance Weight...\$31.95

(GPSS-HBW) This lead balancing weight fits inside the bottom half of the standard A2 handguard to add forend weight to your competition rifle (a companion to the buttstock weight above). Weighs approx. 3.5 lbs., it can be cut down for perfect balance. (Handguard half is shown for reference only - not included.)

A2 Buttstock Balance Weight... \$21.50

(Part # 9349119SW) Fits snugly in the standard A2 buttstock compartment without rattle - a 3.62 lb. chunk of lead that can be trimmed to help achieve a perfectly balanced rifle. Its wedge shape and rubber pressure pad ensure a tight, rattle-free fit.

Single-Shot Magazine Follower... \$13.95 (SS-FOL)

A blue plastic follower that installs easily inside most "AR" type .223/5.56mm magazines - allows single shot loading of extra long competition handloads that won't function in regular magazines. Shown separately and installed. Magazine not included.

AR15/M16 Lower Receiver Safety Block... \$7.50 (SB16)

This bright yellow safety block locks into the magazine well when the bolt is retracted and indicates a safe weapon. We use them regularly here at the Bushmaster factory!

Lower Receiver Safety Block with Flag... \$8.50 (SB16F)

Similar to the safety block above, this improved model adds a safety flag that shows out of the open ejection port - a competition and range safety must!

Chamber Checker Safety Flag \$2.50

(CC Chamber Check)

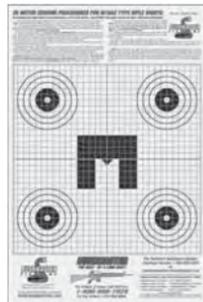

This tough yellow plastic flag slips into the chamber. Close the bolt on it, and it clearly shows your rifle's range-safe status (shown separately, and installed above).

Turner Saddlery AWS Competition Sling... \$74.50 (TS-NMSRS)

A high quality sling approved for DCM High Power Competition for use by CMP and NRA with the AR15/M16 rifle, it is made of a new all weather synthetic (AWS) material that requires no "break-in" and will not stretch. Custom stamped with the Bushmaster logo.

Black - 54-56" long

Bushmaster Sighting-in Targets... \$2.95

(QP-015K) Pkg. of 12 25 Meter Targets with instructions to get your rifle zeroed in right

AR15 Bolt Release Extension...\$47.95 (SSP-1)

A finely machined aluminum lever to help High Power Competitors get back on target faster by keeping the forearm hand in place. After inserting a fresh mag, simply push the lever with the trigger finger to snap the bolt forward - no more reaching over the rifle. It slips over the bolt catch release, and locks in place with supplied set screw and Allen wrench.

PARTS FOR BUSHMASTER COMPETITION RIFLES... Moly-Slide™ Lubricating Paste...

Safety Block for AR15/M16 Rifles and others... \$2.50 (SBBF1) Orange plastic with Bushmaster name molded in. The cone end is inserted into firing chamber - the "handle" end protrudes to show safe condition of rifle. Bushmaster includes this Safety Block with every complete rifle sold.

\$8.50 (MS-100) Works great on competition triggers! A 60% Molybdenum Disulfide (MoS2) lubricating paste for wear resistance, anti-seizing and anti-galling on cams, bushings, and other sliding surfaces. Moly-Slide™ has a very wide working temperature range with minimal evaporative loss. The 1 oz. jar will usually last the average shooter/gunsmith for years - a little Moly-Slide™ goes a long way!

Sinclair International Sight and Muzzle Cover Set... \$14.95 (14-200)

Often seen on the DCM ready line, these popular protective covers are molded from durable bright yellow vinyl to protect "sight zero"; to keep dirt out of the muzzle, and to offer high visibility. The set includes Front and

Rear Sight Covers and two sizes of Muzzle Guard Covers - one for rifles with flash suppressors and another for rifles with plain competition crowned muzzles.

UVEX Sharp-Shooter Safety Eyewear - Includes Free Earplugs... These tough, sporty, and lightweight Uvex Shooting Glasses protect both your eyes and your ears! - they come with free earplugs. Polycarbonate uni-lens blocks 99.9% of harmful ultraviolet radiation from the sun, and is "Ultradura" hardcoated to guard against abrasion and scratching. They're tough enough to meet ANSI Z87.1-1989

and OSHA guidelines, and their wrap-around design provides excellent peripheral vision. Black poly-carbonate frames feature adjustments for temple length and tilt for a custom fit. Each pair of Uvex glasses includes shooters earplugs warranted to reduce noise by 30 decibels (ANSI test S3.19-1974). Three different lens colors available: clear; amber, and espresso. Great eye and ear protection at a great price!

UVEX Sharp-Shooter Safety Eyewear with Free Earplugs...

Espresso Lens... \$12.95 (R-03513)

Amber Lens... \$12.95 (R-03512)

Clear Lens... \$12.95 (R-03511)

AO Safety Economy Hearing Protector... \$14.95 (AOS97035)

This quality set of "ear muffs" - by the makers of the famous Peltor line - offers light weight, rugged construction, and large earcup openings for better fit and comfort. They've been designed for an excellent noise reduction rating of 20 decibels. The noise reduction range for most hearing protectors runs from 0 - 30 db. (the higher the number, the greater the effectiveness). Quality hearing protection at a great price!

Peltor President Hearing Protector... \$24.95 (AOS97069)

The President model from Peltor features exclusive liquid foam ear cushions that are designed for all day comfort. The padded stainless steel wire headband and generously sized earcups automatically self-align for perfect fit and protection. The President offers a noise reduction rating of 24 decibels, and its earcups can be adjusted in height from the headband.

The headband will fold down around the earcups for compact storage.

Shooter's Scope Stand... The most solid spotting scope stand you'll find, it features two 3/4" diam. solid 303 Stainless Rods with torque holes for easy dismantling. The stainless base spike has a tapered point and a groove to prevent rotation. The anodized aluminum base and legs (tightened to the base spike with a heavy T-handle bolt) fold out to 28" diameter. The anodize finish is available in red, black or clear. A 1 7/8" Top Ball is standard and a unique scope mount allows rigid tightening without putting high torque on the hand knobs. Years of testing by High Power Shooters have led to the development of this superb stand. (Scope shown is not included.)

Shooter's Scope Stand... Red Anodized

\$199.95 (Part# FMC-R)

Black Anodized

\$199.95 (Part# FMC-B)

Clear Anodized

\$199.95 (Part# FMC-C)

Bushmaster Upper Receiver / Barrel Assemblies...

Swap them out as needed on your lower receiver to appreciate the versatility designed into the Bushmaster system! Bushmaster Upper Receiver/Barrel Assemblies offer the benefit of the years of AR15/M16 design, materials and finish improvements. Either our Chrome-Moly Vanadium Steel Barrels with hard chrome lining in both bore and chamber, or our Stainless Steel Barrels, are the finest available. The latest M16A2 sight systems; integral brass deflectors and hard anodize finish are incorporated into the receivers. These assemblies are all factory headspaced, test fired, and shipped completely ready to use. They include charging handle, bolt and bolt carrier assemblies, handguards and forends. They can also be purchased without charging handle, bolt and bolt carrier assemblies if you already have those parts in another rifle. Just swap them over – that's the beauty of the Bushmaster weapons system.

CAUTION! With the "Sunset" of the 1994 Assault Weapons Ban on Sept. 13th, 2004, Bushmaster can again offer features of the AR15 type rifle that had been deemed illegal for the past 10 years - such as flash suppressors, bayonet lugs and high capacity magazines. Though this Federal legislation has expired, certain States have retained their own versions of "Assault Weapons Ban" Statutes, and prospective buyers should check their own State and County laws to determine the local legality of these rifle features and accessories.

NEW for 2006... Bushmaster 6.8mm SPC Upper Receiver / Barrel Assembly...

6.8mm SPC Caliber • 16" M4 Profile Barrel • 6 Position Tele-Stock • with 26 Round 6.8mm Magazine

Mount a "Bushmaster of a higher caliber" on your existing Lower! The .270 cal. 6.8mm SPC ("special purpose cartridge") was developed for the military, but is now available commercially. Velocity averages a bit over 2600 FPS (with Hornady 115 Gr. V-Max), and the heavier bullet weights deliver a terminal energy capable of bringing down larger game. Complete 6.8mm SPC Barreled Upper Receiver Assemblies include one 26 Round Magazine.

Bushmaster 6.8mm SPC Caliber
Upper Receiver/Barrel Assembly...

6.8 SPC Uppers are available in A2 or A3 configuration (A3 includes Removable Carry Handle).

A3 Type (Part # BURA3B 16M468) \$760.00
A2 Type (Part # BURA2B 16M468) \$660.00

Bushmaster Carbon 15 5.56mm/.223 Rem. Upper Receiver/Barrel Assemblies...

Bushmaster Carbon 15 "Flat-top" Upper Receiver/Barrel Assembly... features an aluminum Picatinny Rail on a Carbon 15 Upper, a 5.56mm/.223 Rem. Caliber, 16" M4 profile Chrome Lined Barrel with Izzy Compensator. A standard A2 Front Sight Base with a square post, elevation adjustable sight, and standard carbine length handguards are fitted, and this assembly is complete with Bolt, Carrier and Charging Handle.

Bushmaster Upper Receiver/Barrel Assemblies...

NEW! for 2006 Bushmaster Predator 20" Upper Receiver/Barrel Assembly...

Bushmaster Predator 20" Fluted Upper Receiver/Barrel Assembly... \$750.00 (PURVMB 20FPRED8)

Adapted from our very accurate and successful 24" Varminter, the Predator Upper Receiver/Barrel Assembly's 20" Fluted Extra Heavy Barrel is button rifled 1 x 8" to stabilize the heavier 69-77 grain bullets that a predator hunter/caller would choose for bigger varmints and predators. This superb barrel features fluting for increased cooling and weight reduction; an 11° competition crown; 1" diameter heavy profile under the handguard; custom match hybrid chamber with a tighter SAAMI Spec headspace from the shoulder of the chamber to the bolt face, and longer chamber throat or "Leade". This chamber accommodates 5.56mm ammunition without developing higher pressures encountered when firing 5.56mm ammo in a .223 chamber with shorter "Leade" (both calibers can be used safely). This Upper is sold complete with Bolt, Bolt Carrier and Charging Handle to ensure positive lockup between bolt and barrel extension. The Predator Upper also features a Vented Tubular Aluminum Free-Floater Forend with Bipod Stud (free-floats the barrel from the barrel nut forward) and B.M.A.S. 1/2" Mini-Risers to add scope height for correct sight picture and comfortable cheek weld.

Bushmaster Varminter 24" Upper Receiver/Barrel Assembly... \$760.00 (PURVMB 24FVAR9)

This Assembly - from our very accurate Varminter - features a 24" Fluted Extra Heavy Barrel in 5.56mm/.223 Rem. caliber with 11° competition crown; heavyweight 1" diameter under the handguard; custom match hybrid chamber with a tighter SAAMI Spec headspace from the shoulder of the chamber to the bolt face, and longer chamber throat or "Leade". This accommodates 5.56mm ammunition without developing higher pressures encountered when firing 5.56mm ammo in a .223 chamber with shorter "Leade" (both calibers can be used safely). Rifling is 1 in 9" twist for optimum performance with most lighter bullet weight varmint cartridges, and the barrel is fluted to increase cooling and reduce weight. The Varminter Upper's shell ejection path has been modified to drop all your brass in the same place as a convenience for the reloader. A vented forend with bipod/sling stud installed, free-floats the barrel from the barrel nut forward and B.M.A.S. Mini-Risers add 1/2" to scope height for correct sight picture and comfortable cheek weld. This Upper is sold complete with Bolt, Bolt Carrier and Charging Handle to ensure positive lockup between bolt and barrel extension.

"Modular Carbine" Upper Receiver/Barrel Assembly... \$960.00 (Part# BURVMB 16FMC)

This is highly accessorized Upper Receiver/Barrel Assembly from our 16" Modular Carbine features a 16" Chrome Lined Chrome Moly Steel Fluted Barrel with Milled Gas Block. A Four Rail Free-Floater Tubular Forend combines with the A3 type "Flat-top" Upper Receiver to provide all the Picatinny rails necessary for mounting sights, scopes or accessories. Molded Rubber Sure Grip Rail Covers snap over the rail sections to add comfort and protection against heat buildup. The B.M.A.S. Rear Flip-up Sight is a dual aperture detachable unit with windage knob calibrated to 1/2 Minute of Adjustment. The B.M.A.S. Front Flip-up Sight clamps around the milled front gas block and incorporates an elevation adjustable front sight post - all ready for your lower receiver.

Also Available without Bayo. Lug or Suppressor (has Crowned Muzzle) **\$960.00** (Part# PURVMB 16FMC)

"Varmint Special" Upper Receiver/Stainless Steel Barrel Assembly... \$760.00 (PURVMB 24-9SS)

This assembly features a brush finished 24" Barrel machined of 416 Stainless Steel (button rifled 1 in 9") as used on our Stainless Varmint Special Rifle. It includes a Free-floater Vented Tubular Forend with Bipod / Sling Stud installed, 1/2" B.M.A.S. Mini-Risers - with Bolt, Carrier, and Charging Handle - all ready for your lower.

Same Assembly without Bolt, Bolt Carrier Assembly and Charging Handle... \$610.00 (PURVM 24-9SS)

Bushmaster Upper Receiver/Barrel Assemblies...

Bushmaster DCM Competition
Upper Receiver
/Barrel Assembly
\$815.00

(PURA2B 20CG8)

For the serious High Power Competitor – this Upper Assembly features all the “bells and whistles” needed to win! See Page 14 in our Competition Section for complete details on this highly accurate 5.56mm/.223 Remington Competition Upper Receiver/Barrel Assembly. As the Bolt is matched to the Barrel Extension for utmost accuracy, this assembly is not sold without its matching Bolt & Carrier.

This Upper Receiver/Barrel Assembly is legal for installation only on weapons registered as Short Barreled Rifles or Pistols.

**11.5" Upper Receiver
/Barrel Assembly
\$565.00** (BURA2B 11.5)

An ideal package for the Law Enforcement professional, its compact size offers easy handling in close quarters and squad cars. This assembly's short barrel length requires that these uppers be used on full automatics, or registered short barreled rifles or pistols. Configurations with the A3 “flat-top” upper receiver are also available at no extra cost (see Options - Pg. 25). The A2 “Birdcage” Suppressor is standard with this assembly, but other flash suppressors are also available as factory installed options.

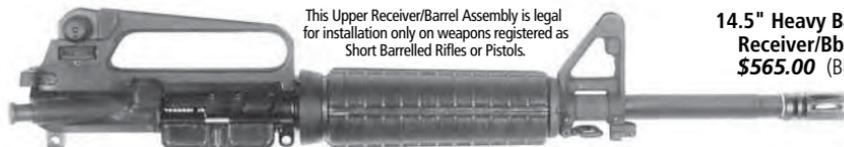

Same Assembly less Bolt, Bolt Carrier Assembly & Charging Handle... \$415.00 (BURA2 11.5)

**11.5" Upper Rec./Bbl. Assembly
with 5.5" Flash Suppressor
\$575.00** (BURA2B 11.5/5.5)

Our 5.5" CAR 15 Extended Flash Suppressor is pinned onto this 11.5" barrel, and welded to meet 16" total barrel length requirements. Choose A2 “handle style” Upper Receiver or A3 “flat-top” Upper Receiver - at same price (Note: A3 Removable Carry Handle is not included). To order, substitute “A3” for “A2” in Part # (see Options - Pg. 25).

Same Assembly less Bolt, Bolt Carrier Assembly & Charging Handle... \$425.00 (BURA2 11.5/5.5)

This Upper Receiver/Barrel Assembly is legal for installation only on weapons registered as Short Barreled Rifles or Pistols.

**14.5" Heavy Barrel Upper
Receiver/Bbl. Assembly
\$565.00** (BURA2B 14.5)

This lightweight carbine upper can be ordered with either the A2 Upper Receiver or the A3 “flat-top” style Upper (see Options - Pg. 25). The 14.5" barrel length makes this Upper legal for use only on weapons registered as pistols or full-automatic rifles. The chrome lined barrel is heavy profile in its full length, and the A2 birdcage suppressor is standard. Other flash suppressors / muzzle brakes are available as optional installations, and if permanently attached, and long enough to create a 16" overall barrel unit, this assembly would become legal for use on semi-automatic lowers.

Same Assembly less Bolt, Bolt Carrier Assembly & Charging Handle... \$415.00 (BURA2 14.5)

Bushmaster Upper Receiver/Barrel Assemblies with the ARMS S.I.R. System...

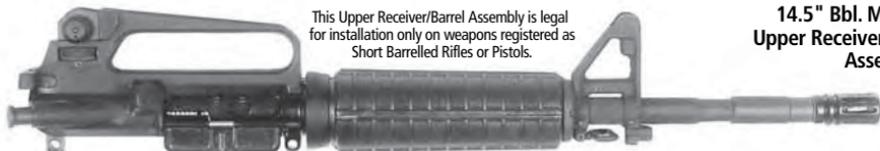

16" Bbl. Upper with S.I.R. Model 50C... \$980.00 (Shown below - Part # BURA3B 16SIR)

See additional ARMS S.I.R. Systems in our Handguards Section of this catalog

These are complete Bushmaster Upper Receiver/Barrel Assemblies with the ARMS S.I.R. System installed and ready for use. Many other barrels can be ordered with the ARMS S.I.R. Systems - consult your Bushmaster Salesperson for details and pricing.

Bushmaster Upper Receiver/Barrel Assemblies...

This Upper Receiver/Barrel Assembly is legal for installation only on weapons registered as Short Barrelled Rifles or Pistols.

14.5" Bbl. M4 Type Upper Receiver/Barrel Assembly...

One of our most popular Law Enforcement configurations, this light weight, chrome lined 14.5" barrel assembly has the "cutout" profile designed to mount the M203 Grenade Launcher. The A2 configuration is shown - see Options on Pg. 25 for ordering A3 versions (flat-top receiver - less carry handle).

14.5" M4 Type Upper Receiver/Bbl. Assembly... \$575.00 (with bayo. lug, A2 flash suppressor: Part# BURA2B 14.5M4)
Same Assembly Less Bolt, Bolt Carrier Assembly and Charging Handle... \$425.00 (Part# BURA2 14.5M4)

14.5" Upper Receiver/Bbl. Assembly with Permanent Izzy Suppressor...

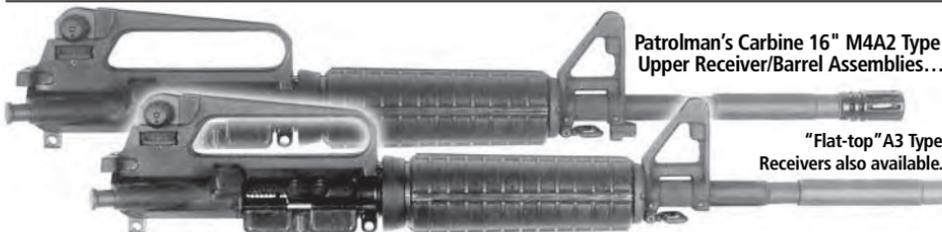

M4A2 Type

M4A3 Type

Izzy Suppressor

Perfect for Three Gun Matches, Saturday plinking, or home protection, the 14.5" M4 Type Upper Receiver/Barrel Assembly becomes a legal 16" length barrel by permanently pinning/welding an Izzy Flash Suppressor, or other 2 3/16" long suppressors onto the barrel. They can be ordered in either A2 (carry handle) or A3 (flat-top) receiver versions (see Options - Pg. 25 for ordering information).

14.5" M4 Type Upper Receiver/Bbl. Assembly with Izzy Suppressor... \$605.00 (Part# BURA2B 14M4 IZ)
Same Assembly Less Bolt, Bolt Carrier Assembly and Charging Handle... \$455.00 (Part# BURA2 14M4 IZ)

Patrolman's Carbine 16" M4A2 Type Upper Receiver/Barrel Assemblies...

"Flat-top" A3 Type Receivers also available.

With a lightweight, M4 profile barrel - stretched to 16" length - the Patrolman's Carbine is popular as a personal duty carbine with many L.E. Officers. See our Options listings - Pg. 25 - for ordering A3 "flat-top" versions (no extra charge).

16" Patrolman's Carbine M4 Type Upper Receiver/Barrel Assembly... \$575.00
 (with bayo. lug, threaded muzzle, A2 flash suppressor: Part# BURA2B 16M4 / with crowned muzzle/no lug: PURA2B 16M4)
Same Assembly Less Bolt, Bolt Carrier Assembly and Charging Handle... \$425.00
 (with bayo. lug, threaded muzzle, A2 flash suppressor: Part# BURA2 16M4 / with crowned muzzle/no lug: PURA2 16M4)

A2 Type Upper Assembly shown
 "Flat-top" A3 Type Uppers - see below

Dissipator 16" Bbl. Upper Receiver/Barrel Assembly...

This 16" Barrel configuration features full length handguards with aluminum heatshields to dissipate heat quickly. The front sight is placed so as to obtain the full sight radius designed into the M16A2 sight system.

Dissipator A2 Type Upper Receiver/Barrel Assembly... \$585.00 / "Flat-top" A3 Type... \$585.00
 with Bayo Lug, Birdcage Flash Suppressor (BURA2B 16D) / with Crowned Muzzle / No Bayo Lug (PURA2B 16D)
Dissipator A3 Type - Bayo Lug, Birdcage Flash Suppressor (BURA3B 16D) / Crowned Muzzle / No Bayo Lug (PURA3B 16D)
Same Assembly Less Bolt, Bolt Carrier Assembly and Charging Handle... \$435.00 ea.
 A2 Type With Bayo Lug, Birdcage Flash Suppressor (BURA2 16D) / with Crowned Muzzle / No Bayo Lug (PURA2 16D)
 A3 Type With Bayo Lug, Birdcage Flash Suppressor (BURA3 16D) / with Crowned Muzzle / No Bayo Lug (PURA3 16D)

Bushmaster Upper Receiver/Barrel Assemblies...

16" Heavy Carbine Upper Receiver/Barrel Assembly...

16" Heavy Carbine A2 Type Assembly

16" Carbine w. A3 Type Upper

Bushmaster's 16" chrome lined, heavy carbine barrels - headspaced, test fired, and ready for use - include short carbine handguards. Available with either A2 solid carry handle Upper Receiver or "Flat-top" (no carry handle) configurations (to order, change Part # to A3).

16" Heavy Barrel Carbine Upper Receiver/Barrel Assembly... \$565.00

(with bayo. lug, threaded muzzle, A2 flash suppressor: Part# BURAZB 16 / with crowned muzzle/no lug: PURAZB 16)

Same Assembly Less Bolt, Bolt Carrier Assembly and Charging Handle... \$415.00

(with bayo. lug, threaded muzzle, A2 flash suppressor: Part# BURAZ 16 / with crowned muzzle/no lug: PURAZ 16)

16" SuperLight Upper Receiver/Bbl. Assy - similar to above but with SuperLight Barrel (see Pg. 33)... \$575.00

(with bayo. lug, threaded muzzle, A2 flash suppressor: Part# BURAZB 16SL / with crowned muzzle/no lug: PURAZB 16SL)

Same Assembly Less Bolt, Bolt Carrier Assembly and Charging Handle... \$425.00

(with bayo. lug, threaded muzzle, A2 flash suppressor: Part# BURAZ 16SL / with crowned muzzle/no lug: PURAZ 16SL)

14.5" Bbl. AK Carbine Upper Receiver/Barrel Assembly...

14.5" AK Carbine with A2 "Carry Handle" Upper

14.5" AK Carbine with A3 Upper

Bushmaster's AK Type Muzzle Brake has been permanently fixed (pinned and welded) onto this assembly's 14.5" barrel, making it the 16" minimum legal length. Order it with either the A2 solid carry handle Upper Receiver or the A3 "flat-top" Upper at no extra cost (A3 Carry Handle is not included) - just substitute "A3" for "A2" in the Part #. This heavy profile, 14.5" barrel is chrome lined in both bore and chamber, and button rifled 1 turn in 9" - right hand twist.

14.5" Barrel - AK Carbine Upper Receiver/Barrel Assembly... \$585.00

(with bayonet lug and AK fixed muzzle brake: Part# BURAZB 14.5AK / with no bayonet lug: PURAZB 14AK)

Same Assembly Less Bolt, Bolt Carrier Assembly and Charging Handle... \$435.00

(with bayonet lug and AK fixed muzzle brake: Part# BURAZ 14.5AK / with no bayonet lug: PURAZ 14AK)

V Match Rifle & Carbine Upper Receiver/Barrel Assemblies... are defined by the "flat-top" Upper Receiver and a hard anodized, tubular, aluminum free-floater forend to offer accuracy and sight mounting versatility. Specify full or "milled" front sight base (milled shown), and threaded or crowned muzzle (both shown below).

20" Bbl. V Match Rifle Upper

16" Bbl. V Match Carbine Upper

20" Barrel - V Match Upper Receiver/Barrel Assembly... \$605.00

(with bayo. lug, threaded muzzle, A2 flash suppressor: Part# BURVMB 20AH / with crowned muzzle/no lug: PURVMB 20AH)

Same Assembly Less Bolt, Bolt Carrier Assembly and Charging Handle... \$455.00

(with bayo. lug, threaded muzzle, A2 flash suppressor: Part# BURVM 20AH / with crowned muzzle/no lug: PURVM 20AH)

24" Barrel - V Match Upper Receiver/Barrel Assembly... \$615.00

with bayo. lug, threaded muzzle, A2 flash suppressor: Part# BURVMB 24AH / crowned muzzle/no lug: PURVMB 24AH)

Same Assembly Less Bolt, Bolt Carrier Assembly and Charging Handle... \$465.00

(with bayo. lug, threaded muzzle, A2 flash suppressor: Part# BURVM 24AH / with crowned muzzle/no lug: PURVM 24AH)

16" Barrel - V Match Upper Receiver/Barrel Assembly... \$605.00

(with bayo. lug, threaded muzzle, A2 flash suppressor: Part# BURVMB 16 / with crowned muzzle/no lug: PURVMB 16)

Same Assembly Less Bolt, Bolt Carrier Assembly and Charging Handle... \$455.00

(with bayo. lug, threaded muzzle, A2 flash suppressor: Part# BURVM 16 / with crowned muzzle/no lug: PURVM 16)

Bushmaster Upper Receiver/Barrel Assemblies...

20" A2 (Carry Handle) model shown with bayonet lug & flash suppressor.

20" & 24" National Match Target Model Upper Receiver / Barrel Assemblies... Rifled 1 turn in 9", these heavy profile, hard chrome lined barrels deliver Bushmaster accuracy for match competitors worldwide. The A2 Upper Receiver is complete (headspaced, test fired, and ready to snap onto your lower receiver) with dual aperture rear sight, charging handle, forward assist, ejection port cover, bolt, bolt carrier assembly and handguards.

20" Bbl. Target Model Upper Receiver/Barrel Assembly... \$565.00

(with bayonet lug, threaded muzzle, A2 flash suppressor: Part# BURA2B 20 / with crowned muzzle/no lug: Part# PURA2B 20)

Same Assembly less Bolt Carrier Assembly and Charging Handle... **\$415.00**

(with bayonet lug, threaded muzzle, A2 flash suppressor: Part# BURA2 20 / with crowned muzzle/no lug: Part# PURA2 20)

24" Bbl. Target Model Upper Receiver/Barrel Assembly... \$575.00

(with bayonet lug, threaded muzzle, A2 flash suppressor: Part# BURA2B 24 / with crowned muzzle/no lug: Part# PURA2B 24)

Same Assembly less Bolt Carrier Assembly and Charging Handle... **\$425.00**

(with bayonet lug, threaded muzzle, A2 flash suppressor: Part# BURA2 24 / with crowned muzzle/no lug: Part# PURA2 24)

20" & 24" Bbl. "A3" Target Model Upper Receiver / Barrel Assemblies...

Are also available at no additional cost. In the Part#, just substitute "A3" for "A2".

Bushmaster Stainless Steel Barrelled Upper Receiver Assemblies...

These Bushmaster Stainless Steel Barrels are machined to our strictest standards.

A2 Carry Handle configuration... (PURA2B 20SS shown here)

We've had many requests to build Bushmaster accuracy in Stainless Steel configurations - just snap this complete assembly on your lower receiver and you're ready for the high power range. Assemblies are complete with Bushmaster forged Upper Receivers with Match Grade Polished Stainless Steel Barrels (1 in 9" right hand twist, button rifled). Stainless Barrelled Assemblies are also available in A3 "flat-top" configurations at no extra charge. To order, change the A2 in Part # to A3. (Note: A3 Assemblies do not include A3 Removable Carry Handle. They have full front sight bases.)

20" Stainless Steel Bbl. Target Model Upper Receiver/Barrel Assembly... \$615.00

(with bayonet lug, A2 flash suppressor: Part# BURA2B 20SS / with crowned muzzle/no lug: Part# PURA2B 20SS)

Same Stainless Steel Assembly less Bolt Carrier Assembly and Charging Handle... **\$465.00**

(with bayonet lug, A2 flash suppressor: Part# BURA2 20SS / with crowned muzzle/no lug: Part# PURA2 20SS)

Bushmaster Carbon 15 .22 Rimfire Upper Receiver/Barrel Assembly...

A "dedicated" .22 Rimfire Upper Assembly that will fit Bushmaster Lowers - and most AR15 Type Lower Receivers from other manufacturers. Switch over to economical .22 Long Rifle Ammunition to hone your shooting skills - add versatility to your rifle - and have fun "plinking". Chambered for .22 Long Rifle only, it operates in semi-automatic "blowback" mode. Inserts are included for use on Lowers with A2 Buttstock, or Telescoped Lower, or with Bushmaster's Carbon 15 Lower Receiver. This assembly features a 16" Chromoly Steel Barrel (rifled 1 x 16"), a lightweight Titanium blowback bolt, and dual aperture rear flip sight (adjustable for windage) with square post front sight (adjustable for elevation). The Picatinny rail offers easy mounting of any scope, optic, red dot or laser sight.

Carbon 15 .22LR Upper Receiver/Barrel Assembly
\$387.00 # AZ15846K

Also, a 20" Barrelled .22LR Rimfire Upper Receiver Assembly... \$469.95 (Part # AZ15847K)

Similar to above, but with Forged Aluminum A2 Upper; Full Length Handguards, and 20" Heavy (.750" diam.) Chromoly Steel Barrel - excellent for High Power Competition training.

w. Adapters & Mag.

Bushmaster Barrels... are the finest AR15/M16 type barrels made - machined from Chrome-Moly Vanadium steel - Rockwell C26 to 33 hardened. We also offer 20"/24" Heavy Profile Barrels machined from Stainless Steel. Most Bushmaster barrels are hard chrome lined (except the Stainless Steel barrels) to offer corrosion resistance in the bore and chamber. Chrome is more than twice as hard as barrel steel and effectively doubles barrel life with proper care (exactly why the military specifies the process). Chrome's lubricity (i.e. "slipperiness") reduces friction, increases velocity, aids in chambering, extraction, and speeds barrel cleaning. Bushmaster barrels are manganese phosphate finished (again except the Stainless) to guard against exterior rust or corrosion, and to provide the same matte black, non reflective finish found on quality military-type arms.

Rifling... Bushmaster barrels are button rifled with 6 grooves and lands (right hand twist, 1 turn in 9", except for DCM barrels - 1 in 8"). The 1 in 9" twist offers optimal results with the widest variety of commercially available ammunition. Most barrels are heavy profile their full length - to improve accuracy and alleviate barrel whip.

Forged Front Sights... Our front sights are machined steel forgings offering superior tensile strength. We do not use castings, which may crack or break if you accidentally drop your rifle.

Headspacing... Barrel assemblies are headspaced at the factory and are shipped ready for assembly and use. Barrel assemblies can be ordered with either a stepped, crowned muzzle or a threaded muzzle for attachment of a flash suppressor or muzzle brake. BATF rulings permit permanent factory installation of muzzle brakes/suppressors on barrels if the overall length (barrel & brake, etc.) equals at least 16". Ask your Bushmaster representative about factory installed muzzle brake / compensator / flash suppressor options available, or see Muzzle Brakes/Suppressors in this catalog.

"Barrel Only"... Bushmaster barrels can be purchased "Barrel Only" - which includes the barrel; barrel nut; handguard cap and complete front sight assembly with sight post and sling swivel as a savings to those shooters who already have handguards. **"Barrel Only" assemblies of 16" or longer length will not include flash suppressors - order those separately from our Muzzle Brakes / Suppressors / Compensators Section.**

Barrel Fluting... is the process of milling 6 grooves into the barrel's surface to increase cooling capability by increasing the barrel's surface area. Depending upon barrel length, fluting increases surface area by as much as 180% - and can reduce barrel weight by as much as 20%. Because of the extensive machining involved, order fulfillment on fluted barrels can take longer. Ask your sales representative about availability when ordering fluted barrels. To order your Bushmaster barrel with fluting, simply **ADD \$50.00** to the price of the barrel (or assembly), and **add an "F" to the end of the part number.** Note: Fluting is not available on some barrels, such as the A2 Gov't. Profile, the M4 Type Barrel and some Stainless Steel Barrels. Fluting is included on our Varminter and Predator Barrels.

Bushmaster "Short Barrelled" Assemblies...

These chrome lined barrel assemblies may only be used on registered short barrelled rifles, or full auto models for legality. They include barrel, sight, gas tube, delta ring kit, handguards, heat shields and A2 birdcage flash suppressor. **11.5" Barrel Assembly (above left) \$225.00** (A BBL-11.5A) / **11.5" "Barrel Only" \$195.00** (A BBL-11.5)

("Barrel Only" includes barrel, barrel nut, handguard cap and front sight - no flash suppressor). **14.5" Heavy Barrel Assembly (above right) \$225.00** (A BBL-14.5A) / **14.5" Heavy "Barrel Only" ... \$195.00** (A BBL-14.5) Assembly less handguards, gas tube, delta ring kit and flash suppressor.

Note: with a permanently installed Izzy Compensator, or other 1 1/2" suppressors, the 14.5" Heavy Barrel Assembly becomes a legal 16" barrel. Get details from your Bushmaster salesperson.

11.5" Heavy Barrel Assembly with 5.5" Flash Suppressor... \$240.00 (Part# A BBL-11.5WA) A chrome lined 11.5" barrel with 5.5" Flash Suppressor permanently attached (pinned and welded over) for a total length of 16" - making it legal for use on semi-auto rifles. Complete with Handguards, Gas Tube and Delta Ring (as shown here).

11.5" Heavy Bbl. with 5.5" Flash Suppressor - Barrel Only... \$210.00 (A BBL-11.5W) Assembly shown less handguards, delta ring kit and gas tube.

11.5" Heavy Barrel Assembly with AK Muzzle Brake... \$255.00 A chrome lined 11.5" heavy barrel assembly with a 5.5" AK Muzzle Brake permanently attached to make a legal length 16" assembly. (With bayonet lug, pinned brake as shown here: Part# A BBL-11.5WAKA / without bayonet lug: Part# P BBL-11.5WAKA)

11.5" Heavy AK - Barrel Only... \$225.00 (With bayonet lug: A BBL-11.5WAK / without bayonet lug: P BBL-11.5AK) Assembly less handguards, gas tube and delta ring kit.

Bushmaster Barrels & Barrel Parts...

14.5" Heavy Barrel with AK Muzzle Brake... \$250.00 (With bayonet lug, pinned AK Brake [as shown here]: Part# A BBL-14.5AKA / without bayonet lug: P BBL-14AKA) A chrome lined 14.5" heavy barrel with our AK style Muzzle Brake permanently attached to 16" overall length for legality on semi-automatic weapons.

14.5" Heavy AK Barrel Only... \$220.00 Less Handguards, Gas Tube and Delta Ring Kit. Includes the AK Brake. (with bayonet lug: A BBL-14.5AK / without: P BBL-14AK)

Note: With an optional Izzy Brake/Compensator permanently installed, this becomes a legal 16" barrel.

14.5" M4 Type Barrel Assembly... \$235.00 (A BBL-14M4A) This Law Enforcement / Military carbine barrel is under the 16" legal minimum for semi-auto rifles, and can only be installed on registered full autos or legal short barreled rifles. It is machined for the addition of the M203 grenade launcher and has the narrow "government" profile under the handguards for light weight (like the original A1 rifle barrel).

M4 Type Barrel Only \$205.00 (A BBL-14M4) Assembly less Handguards, Gas Tube, Delta Ring Kit and Flash Suppressor.

14.5" M4 Type Barrel Assembly with Izzy Compensator... \$270.00 (With bayonet lug & compensator [as shown here]: Part# A BBL-14M4 IZFHA / without bayonet lug: Part# P BBL-14M4IZA) This assembly - with a factory pinned and welded Izzy Compensator - meets BATF requirements for total length (barrel and compensator) of 16" or over for semi-auto rifles. Includes Barrel, Sight, Handguards, Shields, Gas Tube, Delta Ring and Compensator - ready to assemble into that perfect 3 Gun Match carbine, plinker or home defense special.

14.5" M4 Type with Izzy Compensator - Barrel Only... \$240.00

(with bayonet lug: A BBL-14M4 IZFH / without: P BBL-14M4IZ)

14.5" M4 Type Barrel with AK Muzzle Brake... \$260.00 (With bayonet lug, pinned AK Brake [as shown here]: Part# A BBL-14M4AKA / without bayonet lug: P BBL-14M4AKA) A chrome lined 14.5" M4 type barrel with our AK style Muzzle Brake permanently pinned/welded to make overall length more than 16" for legality on semi-automatic weapons.

14.5" M4 with AK Muzzle Brake - Barrel Only... \$230.00

(with bayonet lug: A BBL-14M4AK / without: P BBL-14M4AK) Same assembly less handguards, gas tube and delta ring kit.

Patrolman's Carbine - M4 Type 16" Barrel Assembly... \$235.00 (With bayonet lug, threaded muzzle, A2 Birdcage Flash Suppressor [as shown here]: Part# A BBL-16M4A / without: Part# P BBL-16M4A) Featuring the light weight (2.14 lbs. for "Barrel Only") of the military M4 Type carbine in a 16" length, and the distinctive M4 profile, this assembly includes barrel, sight, handguards, shields, gas tube and delta ring kit. Other optional factory installed muzzle brakes/suppressors are available.

Patrolman's Carbine - Barrel Only... \$205.00

(with bayo. lug & threaded muzzle: A BBL-16M4 / without: P BBL-16M4) Assembly less handguards, gas tube, delta ring kit, & flash suppressor.

A variety of optional Muzzle Brakes and Flash Suppressors are available for these Barrels - See Pages 46 - 48.

Bushmaster Barrels & Barrel Parts...

16" Heavy Carbine Barrel Assembly... \$225.00 A complete barrel assembly including all parts from Upper Receiver forward: Barrel, Gas Tube, Handguards, Shields, Delta Ring Kit, Sight. (with Bayonet Lug, Threaded Muzzle, A2 Birdcage Flash Suppressor: Part# A BBL-16A / without bayonet lug or threaded muzzle: P BBL-16A)

16" Heavy Carbine - Barrel Only... \$195.00

(with Bayonet Lug & Threaded Muzzle: A BBL-16 / without: P BBL-16) Assembly less handguards, gas tube, delta ring kit and suppressor.

Bushmaster SuperLight 16" Barrel Assembly... \$235.00 (with Bayonet Lug, Threaded Muzzle, A2 Birdcage Flash Suppressor [as shown below]: Part# A BBL-16SLA / without: P BBL-16SLA) The lightest 16" barrel we've ever offered - tapers from .670" to .565" under handguards, .625" under sightbase, and to .570" at the muzzle - similar to the original Vietnam era A1 barrel profile. Note: due to diameter at muzzle, no "slip-on/pinned" type muzzle brakes will fit this barrel. Use only 1/2" x 28 T.p.i. threaded accessories.

Superlight 16" Assy - Barrel Only... \$205.00

(with bayo. lug & threaded muzzle: A BBL-16SL / without: P BBL-16SL) Assembly less handguards, gas tube, delta ring kit and suppressor.

16" Dissipator Heavy Barrel Assembly... \$245.00 (with Bayonet Lug, Threaded Muzzle, A2 Birdcage Flash Suppressor [as shown below]: Part# A BBL-16DA / without: P BBL-16DA) A 16" chrome lined barrel with full length, heat shielded Handguards for excellent cooling and the full sight radius designed into the A2 sight system. Includes all parts forward of the Upper Receiver.

16" Dissipator Barrel Only... \$215.00

(With Bayonet Lug, Threaded Muzzle: Part# A BBL-16D / Without: Part# P BBL-16D)

Assembly less Handguards, Gas Tube, Delta Ring and Suppressor.

Dissipator M4 Type 16" Barrel Assembly... \$255.00 (with Bayonet Lug, Threaded Muzzle, A2 Birdcage Flash Suppressor: Part# A BBL-16DM4A / without [shown below]: P BBL-16DM4A) A lighter version of the Dissipator barrel design with an M4 type profile - retains the benefit of the full sight radius. Headspaced at the factory - includes all parts forward of the Upper Receiver.

Dissipator M4 Type - Barrel Only \$225.00

With bayonet lug & threaded muzzle: Part# A BBL-16DM4 -

Without: Part# P BBL-16DM4

Assembly less handguards, gas tube, delta ring and suppressor.

M16A2 Type 20" Barrel Assembly... \$235.00 (With bayonet lug, threaded muzzle, A2 Birdcage: Part# A BBL-20A2A - Without bayonet lug, threaded muzzle, or A2 Birdcage Flash Suppressor: Part# P BBL-20A2A)

These Gov't. profile barrels - light in weight and reduced in diameter under the handguards are ideal for restoring that older rifle or building a new light-weight.

Complete barrel assemblies (as

shown at left) include all parts from upper receiver forward (handguards, gas tube, delta ring kit, etc.)

M16A2 Gov't. Type 20" - Barrel Only... \$205.00
With bayonet lug & threaded muzzle: Part# A BBL-20A2

Without bayonet lug or threaded muzzle: P BBL-20A2

"Barrel Only" assemblies **DO NOT** include handguards, gas tube, delta ring kit or flash suppressor.

Bushmaster Barrels & Barrel Parts...

20" National Match Heavy Barrel Assembly... \$225.00 (w. Bayo Lug & Threaded Muzzle: A BBL-20A / without: P BBL-20A) Chrome lined in both Bore and Chamber, 1 x 9" Button Rifling and heavy profile, this complete assembly includes all parts forward of Upper Receiver: Handguards; Gas Tube; Delta Ring Kit, Front Sight, etc. all ready for assembly onto your Upper Receiver.

These barrels are now available with a variety of optional flash suppressors or muzzle brakes. Order from our Muzzle Brakes, Flash Suppressors/Compensators Section (Pgs. 46-48).

20" National Match Heavy Assembly - Barrel Only... \$195.00

(w. Bayo Lug & Threaded Muzzle: A BBL-20 / without: P BBL-20)

A Chrome Lined 20" Barrel same as immediately above, but without the Handguards, Gas Tube or Delta Ring Kit. "Barrel Only" does not include Flash Suppressor. Ask your Sales Representative about factory installed Muzzle Brakes / Flash Suppressors / Compensators.

24" National Match Heavy Barrel Assembly... \$235.00 (w. Bayo Lug & Threaded Muzzle: A BBL-24A / without: P BBL-24A)

24" Assy. "Barrel Only"... \$205.00

Assembly without Handguards, Gas Tube

Delta Ring or Flash Suppressor. (w. Bayo Lug & Threaded Muzzle: A BBL-24 / without: P BBL-24)

Bushmaster 20" Stainless Steel Barrel Assembly... \$275.00 (P BBL-20SSA) Many of our High Power Competition customers have asked for Stainless Steel Barrels, and Bushmaster now manufactures this superbly accurate 20" Heavy Barrel. Machined of brush finished 416 Stainless Steel, in 1 in 9" twist, this Barrel Assembly comes complete with Front

Sight, Sling Loop, Handguard Set, Gas Tube, Delta Ring Kit and Barrel Nut - all ready to install on your Upper Receiver.

Front Sight is now available with Bayonet Lug - Please specify when ordering.

20" Stainless Steel Assembly - Barrel Only... \$245.00

(P BBL-20SS) Save money on a Stainless Steel Barrel upgrade - use existing Handguards, Gas Tube and Delta Ring.

24" Varminter Extra Heavy Fluted Barrel... \$391.95

from our very accurate "Varminter" Rifle (Part # P BBL-24FVAR9A)

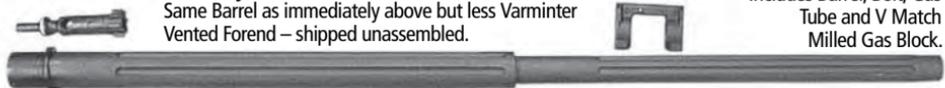

Machined from finest Chrome Moly Vanadium Steel; fluted for light weight, and Manganese Phosphate finished. This non-chrome lined barrel is button rifled 1 x 9"; has a hybrid SAAMI Spec. chamber with longer throat or "Leade" to accommodate 5.6mm ammunition and is 1" diam. out to the gas block with an 11° competition muzzle crown; V Match Sight Base/Gas Block and Varminter Vented Forend. We recommend assembly onto your Upper Receiver by an experienced AR15 gunsmith to achieve full accuracy as parts are shipped unassembled.

24" Varminter Extra Heavy Fluted BARREL ONLY... (Part # P BBL-24FVAR9) \$313.95

Same Barrel as immediately above but less Varminter Vented Forend - shipped unassembled.

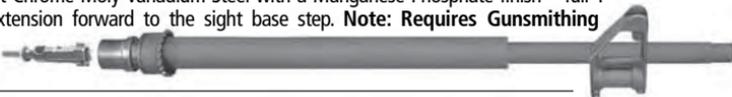

Includes Barrel, Bolt, Gas Tube and V Match Milled Gas Block.

Bushmaster Barrels & Barrel Parts... 24" Stainless Varminter Barrel Assembly... \$391.95 (P BBL-24A-SS) A highly accurate 24" Barrel as used in our Stainless Varminter Special Rifle - brush finished 416 Stainless Steel, in 1 in 9" twist, this Barrel Assembly comes complete with Vented Aluminum Free-floater Forend, Sling Stud, Gas Block, Gas Tube, Bolt and Barrel Extension. Shipped unassembled - requires gunsmithing. Or 24" Stainless Varminter "Barrel Only"... \$313.95 (P BBL-24SS) Barrel Only includes: 24" Stainless Barrel with Gas Block, Gas Tube, Bolt and Barrel Extension.

Bushmaster DCM Competition Heavy Barrel with Factory Matched Bolt and Front Sight Base... \$313.95 (9349054-20CGA) A lapped 20" Barrel, button rifled in 1 x 8, features an 11° competition muzzle crown, and a custom match hybrid chambering with longer throat, or "Leade" to accommodate 5.56mm ammunition. This avoids the higher pressures developed when shooting 5.56mm ammo in a .223 caliber chamber that has a shorter "Leade" (both calibers can be safely used). Finest Chrome Moly Vanadium Steel with a Manganese Phosphate finish - full 1" diam. from the barrel extension forward to the sight base step. **Note: Requires Gunsmithing assembly to achieve optimum accuracy.**

Bushmaster Replacement Barrels for Carbon 15 Rifle & Pistols... Match Grade 416 Stainless Steel factory replacement barrels - 5.56mm/.223 - precision machined, polished and button rifled 1 turn in 9" for optimum accuracy. As these barrels require special torquing care and a unique barrel wrench, factory installation is required (no charge).

Barrel for Carbon 15 Model R21 & Bushmaster Lady Rifles... \$159.95 (AZ15367)

Barrel for Carbon 15 Model R97 / R97S Rifles... \$209.95 (AZ15368)

Barrel for Model P21 Pistol... \$139.95 (AZ15313) **Barrel for Model P97 Pistol...** \$179.95 (AZ15314)

A. Front Sling Swivel... \$3.50 (8448571)
B. Front Sling Swivel Rivet... \$.80 (8448697)
C. Barrel Extension... \$15.95 (9349054BE)
D. Barrel Nut... \$12.95 (9349054BN)

NOTE: Bushmaster DOES NOT sell Front Sight Bases separately due to difficulties of drilling/retro-fitting them to barrels.

Magazines & Magazine Accessories...

NOTE: With the 2004 "Sunset" of the Federal Gun Legislation of 1994, many features of AR15 Type Rifle are again available - BUT **not** in all States! A number of States have their own Statutes regarding the legality of what they call "Assault Weapons" - and the High Capacity Magazines used in them. To avoid the possibility of legal problems, check your local Statutes (both State and County - they can differ!) before ordering the High Capacity Magazines (greater than 10 round capacity) shown on this page. If in doubt, consult your Bushmaster Salesperson (1 800 998 7928).

20
Round

30 Round

Bushmaster 30 Round Magazine... \$20.95 (8448670) This magazine is top quality - featuring mil. spec. manufactured components including a hard anodized aluminum box with a baked Teflon finish, standard green AR follower, tempered steel spring, and a removable baseplate stamped with the Bushmaster Snake Logo. This magazine can be easily disassembled for cleaning and lubrication, and we guarantee it will provide excellent fit and function in all 5.56mm / .223 Rem. caliber AR15 type rifles.

Bushmaster 20 Round Magazine... \$24.95 (8448670-20) Similar to the 30 Round, this 20 Round capacity aluminum magazine features mil. spec. components in a shorter, slightly curved body (this is not a straight body design). The baseplate with stamped Bushmaster logo is removable for easy component cleaning and lubrication.

NEW... Bushmaster 26 Round Magazine for 6.8mm SPC... \$35.95 (8448670-68) This magazine for our new 6.8mm SPC Rifle and Upper is similar the 30 Rd. .223 magazine above, but due to the larger case size holds only 26 rounds. It has a dark grey hard anodized aluminum box with a brown follower, and Bushmaster logo'd baseplate.

Bushmaster 10 Round Magazine... \$20.95 (8448670-10) Manufactured to ATF's strictest "Post-Ban" requirements, these magazines are offered in those States that do not recognize the "sunset" of the 1994 A.W.B. Guaranteed to provide excellent fit and function in all .223/5.56mm AR15 type rifles, it features mil. spec. components; hard anodized aluminum box with a baked Teflon finish; standard green follower, with Bushmaster Snake Logo on the base. **Note:** This magazine cannot be disassembled. It can be cleaned with a strong detergent/hot water solution, then dried with compressed air while depressing the follower and spring. Re-lubricate when dry.

Bushmaster 5 Round Magazine... \$20.95 (8448670-5) Similar to this 10 Rounder but blocked for hunting use (laws in many States limit magazine capacity to 5 rounds for hunting).

Bushmaster 10 Rd. Straight-Body Magazine... \$20.95 (30-452) A quality U.S.A. made, 10 Rd. steel

.223 Rem. / 5.56mm magazine with black finish and black follower. Works great in the Bushmaster M175 Bullpup, but can be used in all AR type rifles - and is accepted for High Power Match use by the Civilian Marksmanship Program and the National Rifle Association. Bushmaster ships these magazines with our DCM Competition Rifles.

Spare Magazines for Bushmaster Carbon 15

.22LR Rimfire Rifle & .22LR Rimfire Upper Assembly... These 10 Rd. Mags are proprietary to the Bushmaster .22LR Rimfire Rifle and Upper Kit, and accept only .22 Long Rifle Caliber. A strong Carbon 15 Composite shell houses the metal magazine body, spring, and orange plastic cartridge follower - the shell can be disassembled for cleaning.

Bushmaster Carbon 15 .22LR Magazine... \$24.95 (AZ15280)

40 Round Magazine for the

AR15/M16... \$24.95 (MG-0007) These are newly manufactured .223 / 5.56mm Caliber 40 Round Magazines with a matte gray finish box and standard mil. spec. green follower. Due to local laws, we cannot ship these magazines to a number of States. Check your local regulations before ordering high capacity magazines.

30 Round Polymer Magazine for the Bushmaster

9mm Pistol & Carbine... \$28.95 (AZ9-00001) Manufactured in USA, this molded black polymer magazine - 9mm NATO caliber - is shipped standard with our newest pistol and carbine. Body is ribbed for a non-slip grip, and it can be disassembled for cleaning.

FN .308 20 Round Magazine \$21.95 (MAT-004)

New 7.62mm (.308) FN FAL mags in wax paper wrappers. Black steel bodies, floorplates, and steel followers. **Also:**
.308 - 10 Rd. Mag. \$33.95 (8448670-10-308)
.308 - 5 Rd. Mag. \$33.95 (8448670-5-308)

Original Steel FN Magazine Loader... \$8.95 (MAT-001)

Magazines & Magazine Accessories...

Bushmaster Magazine Rebuild Kits... New Mil. Spec. parts to refresh your tired magazines - including New Spring, New Green Follower and Bushmaster Baseplate - use your own magazine bodies.
30 Rd. Mag. Rebuild Kit... \$6.50 (8448670-30K)
20 Rd. Mag. Rebuild Kit... \$6.50 (8448670-20K)

Green Magazine Followers... New, green plastic replacement parts to help your magazines feed and function better.
For 30 Rd. Magazines... \$1.95 (8448672)
For 20 Rd. Magazines... \$1.95 (8448672-20)

The "L.U.L.A." Mag Loader... \$25.50 (Part # 8448670-LULA) L.U.L.A. is a "Loader/Un-Loader Accessory" that will load a 30 Rd. Mag in about 35 seconds, and unload it in 5! They're very popular in the Bushmaster shooting room and are used by the Israeli Military as well. Fits all capacity 5.56mm/.223 AR15/M16 type magazines including Thermolds and Orlites.

NEW!... L.U.L.A." Mag Loader for 9mm... \$31.95 (Part # 24218) Similar in design and operation to model pictured above, but for 9mm stick magazines.

The MagPul... \$10.95 / Set of 3 (MP-3) A unique AR15/M16 magazine accessory developed from infantryman's ingenuity and the need to make fast magazine changes. GI's applied loops of duct tape or paracord to the bottom of the magazines to speed magazine interchange and to deaden the sound of mags in a storage pouch. This modern, moulded black rubber MagPul improves upon the original concept with rough exterior texturing for positive grip, a semi-rigid finger loop for fast removal, and a snug fit on all AR type mags. Set of three.

MagPul Ranger Floor Plate with Loop for 5.56mm Magazines... (MAG020-BLK) \$21.95 Set of 3

This U.S. made floorplate assembly for 30 Rd. AR15/M16 Magazines incorporates an integral loop, floorplate lock, and mag identifier. When installed on the base of a magazine, the MagPul Ranger provides unsurpassed speed and controllability during high stress, tactical magazine changes. The loop is molded of pliable Santoprene over a stainless steel plate - a patented design based upon the tried and true para-cord loops and duct tape tabs used in special warfare units worldwide. Shown assembled and in pieces, instructions included. Can be modified to fit 20 Rd. magazines.

(Mag. not included)

MagPul Rubber Floor Plates for 5.56mm Magazines (MAG024-BLK) \$18.95 Set of 3... The MagPul L Plate is a replacement floorplate assembly for 30 Round AR15/M16 Magazines that incorporates a rubberized bumper pad of durable Santoprene overmolded onto a stainless steel plate. A durable hard plastic baseplate replaces the original magazine baseplate, then the bumper pad locks onto that and the tabs of the magazine body. Sold in sets of 3. Can be modified to fit 20 Rd. magazines. Instructions included. Made in U.S.A.

(Mag. not included)

Bushmaster Magazine Springs...

Quality steel tempered for long memory / positive feed.
20 Round Magazine Spring... \$3.95 (8448671-20)
30 Round Magazine Spring... \$3.95 (8448671)

Stripper Clip Guides... (shown left) Stamped steel with phosphate finish...
\$1.00 ea. (Part # EGSS-02)

Stripper Clip (below)... .35¢ ea. (Part # EGSS-01)

Stripper Clips... in quantities of 25 or more. - .30¢ each

The EasyLoader... \$42.50 (8448670-EL223)

The EasyLoader - for Stripper Clips... \$42.50 (8448670-EL223C) The EasyLoader works with a pull of the handle to loads all sizes of AR Magazines (other .223 cal. magazines as well). The larger model (8448670-EL223) is designed for loose ammo - just drop the rounds in, close the cover and pull the slide. The smaller model (8448670-EL223C) handles ammo already loaded in Stripper Clips. Made in U.S.A.

Model for use with loose ammunition.

Model for use with Stripper Clips.

(Mag. not included)

Magazines & Magazine Accessories...

Buttstock Mag Pouches for the AR15... Strap on an extra magazine with these heavy duty pouches - models for either the full A2 buttstock or the CAR Telescoping stock. Black nylon webbing construction for durability and velcro straps for easy installation and removal.

A2 Solid Buttstock Magazine Pouch... \$31.95 (TTMP)

Magazine Pouch for Telestocks... \$31.95 (TTTS)

AR15/M16 Magazine Gripper for 20 & 30 Rd. Magazines \$23.50 (MG-01)

A heavy duty, black anodized aluminum dual clamp and screw kit designed to join either 20 or 30 round magazines. Offers the operator fast tactical reloads. Includes Allen wrench and instructions.

(Magazines not included)

First Samco Magazine Coupler... \$12.95 (FBS-MCUP1)

This plastic magazine coupler firmly joins two 30 round magazines. Molded of black plastic with steel clamping screws.

Triple Magazine Connector... \$26.95 (BC-100) Clamp three 30 round magazines together in this solid, black anodized aluminum mount to give you 90 rounds total. Clamps bolt together with Allen head screws.

(Magazines not included)

AR15/M16 Magazine Connector \$25.50 (51-08-01) Hold twice the ammo with this side by side magazine clamp - fits both 20 and 30 round mags. When you empty one magazine, drop them out, move over to the full one, and quickly reinsert. Made of heavy steel with flat black finish. Screw slot is sized for use with a coin. Works with AR 180 magazines as well.

(Magazines not included)

3 Magazine Pouch \$16.95 ea. Sewn of Cordura nylon, with a silent clasp, suspension ring, and two belt clips. (Mags not included.)

Black... \$16.95 (6451)
Olive Drab... \$16.95 (6452)

Redi-Mag Model A1 \$79.95 (RM-15A1) with Bolt Release Button...

Carry your spare magazine and make quick swaps from an empty one to a full one. Just drop them out, move the fresh one over, and push the bolt release button to resume firing. Redi-Mag is made of sturdy steel and is finished to match your rifle. (Mags not included)

AR15/M16 Magazine Dust Covers... \$7.50 (AT115223) These flexible, black molded rubber caps snap over the the magazine top to keep out dust and water. Sold in Sets of Four - designed to fit standard AR15/M16 metal bodied magazines.

AK47 Magazine Dust Covers... \$7.50 (AT10762) Specifically molded to fit AK magazines - similar to AR type shown. Sold in Sets of Four.

Mag. not included

Magazines & Magazine Accessories...

These shell case deflectors snap onto various AR15 models to keep hot brass away from your face and away from other competitors on the firing line. This product should be particularly appealing to left handers who've experienced "hot brass in the face"! These deflectors will drop all the cases in the same place at your feet (very convenient for reloaders), and are allowed under NRA High Power Competition Rules. See below for models for A2's, Flat-tops, and the A3 Removable Carry Handle.

A. For A2 Fixed Carry Handle... \$22.95 (# BD-A2)

B. For A3 Flat-tops... \$22.95 (#BD-A3-flattop) / C. For A3 Removable Handle... \$22.95 (# BD-A3 Handle)

Rigid Brass Catchers for AR-15 type Rifles...

These hard plastic brass catchers hold a minimum of 60 casings. Molded of black, nylon reinforced plastic, they snap on and off your rifle easily.

All priced at: \$37.95 ea.

Order with Part Numbers below...

A. For AR15/M16 A2 Fixed Handle Rifles...

(Part # EL-AR-001)

B. For AR15/M16 "Flat-top" Rifles without A3 Type Carry Handle... (Part # EL-AR-002)

C. For AR15/M16 A3 Removable Carry Handle...

(Part # EL-AR-003)

Universal Magazine Tool... \$6.50 (UMT) A pocket sized tool that will load or unload any magazine on the market today. Molded of heavy black plastic - includes a convenient brass key chain. Shipped with simple instructions for use.

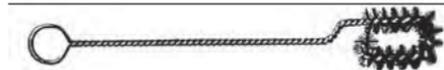

Bag Style Brass Catcher... \$42.50 (2693828) A flexible black Cordura nylon bag with an internal frame and a zippered opening on the underside for easy emptying of shell cases. A 2" wide velcro strap wraps around the handguard to hold the bag and frame in place so that it fits flat-top and other AR15 type rifles.

ShotLock Cable Lock for AR15 / M16 \$8.50 (SLC3000)

This keyed, 13" cable lock system will ensure the safe storage of your rifle. It locks through the open ejection port and magazine well, and its vinyl covered cable prevents damage to finishes - useful on a variety of other rifles and pistols as well.

Mag-Brush... Keeps your magazine well and mags clean - which will help keep your firing chamber clean.

For Rifles... AR15, Mini 14 & 9mm UZI

\$6.50 (MAG206)

Mag-Brush for .22; 10 mm; .38 Super...

\$6.50 (MAG204)

Bushmaster Firearms International, LLC • 999 Roosevelt Trail • P.O. Box 1479 • Windham, ME 04062 U.S.A

SHIPPING... Orders will be shipped promptly via United Parcel Service (UPS) or First Class U.S. Mail. **UPS Red Label Next Day Service, UPS Blue Label 2 Day Service and UPS Orange Label 3 Day Services** are available upon request. All orders must be accompanied with Cash; Credit Card Information; Money Order or Cashier's Check or they will be shipped UPS C.O.D. (C.O.D. to Continental U.S., Alaska and Hawaii and only by UPS - \$8.50 fee extra per package - UPS only accepts Postal Money Orders as payment). We request telephone numbers and/or E-mail address when you order to provide the best possible service in case of questions. In an effort to preserve your privacy, we do not sell our mailing lists. An F.F.L. (Federal Firearms License) is required for the purchase of Complete Rifles, serial numbered Lower Receivers, or M16 components. Other parts and accessories do not require special licenses. Personal checks are held 15 days to clear. No refunds after 15 days of invoice date. Returned parts will incur a 20% restocking charge.

NOTE: UPS now requires "CONFIRMATION DELIVERY" with Receiving Adult Signature Necessary (21 yrs. or older) for any Lower Receiver shipments - from Stripped Lowers up to, and including, Complete Rifles. This Adult Signature requirement is a UPS regulation and cannot be waived.

If your UPS Package arrives damaged, you must alert the UPS Driver, or call UPS to notify them of damage problems and to initiate a claim. The UPS toll-free national telephone line for this purpose is 1-800-PICKUPS.

INTERNATIONAL ORDERS... Due to the costs of international order processing, Bushmaster will only accept international orders valued at \$500.00 or more. Bushmaster has established dealers in countries outside the U.S.A., please contact them for your Bushmaster product needs if less than this \$500.00 minimum.

For Shipping Parts Only...

Shipping, Handling & Insurance Charges for UPS Ground Service or U.S. Mail are:

\$0.00 - \$19.99 = \$6.50 / \$20.00 - \$49.99 = \$9.00 / \$50.00 - \$99.99 = \$11.50

\$100.00 - \$249.99 = \$14.50 / \$250.00 - \$499.99 = \$18.00 / \$500.00 and up = \$21.00

For Shipping Complete Firearms...

Standard Rifle - UPS Ground - \$16.50 ea. / DCM Rifle - UPS Ground - \$19.50

Pistols - BY LAW - must be shipped Overnight Air.

Free Shipping on backordered "Parts" only. Shipping Charges on parts orders over 20 lbs. will be calculated by weight only using our UPS published rates plus insurance of .50¢ per \$100.00 value.

UPS C.O.D. Fee - \$8.50 per package. NOTE: UPS will only accept Postal Money Orders as payment for C.O.D.s!

UPS Red Label Next Day, Blue Label 2 Day and Orange Label 3 Day Services are available upon request.

Customer Service, Exchanges, Backorders, Gunsmithing, Bushmaster Warranty...

NOTE: With the "Sunsetting" of the Gun Legislation of 1994, many features of "Pre-Ban" rifles are again available - BUT not in all areas! California, Connecticut, Hawaii, Massachusetts, Maryland, New Jersey, New York, Puerto Rico, and possibly others, all have their own Statutes regarding what they call "Assault Weapons". To avoid the possibility of legal problems, check your local laws before purchasing some items offered in this catalog.

CUSTOMER SERVICE... Our telephone personnel are highly experienced and well informed firearms enthusiasts. If you have any questions about Bushmaster products, you'll find a courteous member of our firm willing and able to answer them - just call our **Toll-Free Customer Service line (1-800-883-6229)** between 8:30 am - 6:00 pm, Monday through Friday, (E.S.T.). We will also be happy to promptly answer your questions, or order inquiries, via E-mail to: Customerservice@bushmaster.com

EXCHANGES... Should items you order from Bushmaster not be to your expectations, please contact our customer service department for a **Return Merchandise Authorization (RMA) Number**. Unused items may be returned within 30 days, include a copy of your invoice. **Note: Any custom Barrel Assembly not shown in catalog may not be returned.** No refunds allowed after 15 days of invoice date. Restocking charge 20%. Include invoice with your return - its upper left corner can be used as return label. Return all pieces of kits - wrap and package them securely. Insure package for your protection. Include the reason for return of each item in an accompanying letter and we will do everything possible to speed your exchange.

BACKORDERS... We make every attempt to deliver your order from available stock - immediately. Should there be a backorder on a part, we'll ship the bulk of your order and WE pay the shipping on the backordered part (with the exception of complete rifles). UPS Red Label Next Day Service, UPS Blue Label 2 Day Service or UPS Orange Label 3 Day Service are available at additional charge. For C.O.D. Service from UPS, please add \$8.50 per package (**Note: UPS will only accept Postal Money Orders as C.O.D. payment**).

BUSHMASTER GUNSMITHING... Our company policy is to offer gunsmithing assembly at no charge when parts are purchased from us (with the exception of sight bases). We will also offer our professional gunsmithing services to any customers who care to ship us their firearms or assemblies for repair or buildup - and we will work on brands other than Bushmaster. Gunsmithing time is charged at \$40.00 per hour, and we charge a \$16.50 fee for return shipping of your rifle, upper or parts (\$19.50 for DCM Rifles due to extra weight). For a gunsmithing estimate, please call **1-800-998-7928** or E-mail to: Techsupport@bushmaster.com

BUSHMASTER LIMITED ONE YEAR WARRANTY... Bushmaster Firearms are warranted to be free from defects in materials and workmanship. Any such defect of which Bushmaster Firearms International, LLC is given written notice, as provided below, within one year and ten days from the date of first purchase by a customer will be remedied by Bushmaster Firearms International, LLC. This warranty is granted by **Bushmaster Firearms International, LLC, P.O. Box 1479, 999 Roosevelt Trail, Windham, Maine 04062.**

To initiate a Warranty claim, call Bushmaster Customer Service (toll free: 8:30 AM to 6:00 PM E.S.T. - Monday thru Friday 1-800-883-6229) to get an RMA number ("Return Merchandise Authorization"). Warranty claims should state (in writing) the model and serial number of the firearm concerned, a description of the difficulty experienced, and the date of purchase. The firearm concerned should be shipped (transportation charges prepaid), to the **Warranty Service Department, Bushmaster Firearms International, LLC, 999 Roosevelt Trail, Windham, ME 04062.** Firearm shipment should be insured by the owner, as **Bushmaster Firearms International, LLC will accept no responsibility for loss or damage in transit.**

Shipping and insurance charges for the return of a firearm to its owner will be paid by Bushmaster Firearms International, LLC if the related claim is a proper claim for warranty work.

Under no circumstances shall Bushmaster Firearms International, LLC be responsible for incidental or consequential damages with respect to economic loss or injury to property, whether as a result of express or implied warranty, negligence or otherwise. Some states do not allow the exclusion of limitation of incidental or consequential damages, so the above limitation may not apply to you. Bushmaster Firearms International, LLC will not be responsible for the results of careless handling, unauthorized adjustments, defective, low quality, reloaded, or improper ammunition, corrosion, neglect, ordinary wear and tear, or unreasonable use. Furthermore, the liability of Bushmaster Firearms International, LLC under this warranty shall be limited solely to the obligation to repair or replace the firearm, and to pay transportation and insurance charges for return of the firearm to owner.

NOTE: Handguns and long guns are classified as FIREARMS or DANGEROUS WEAPONS. Guns are surrendered by Bushmaster Firearms International, LLC with the express understanding that it assumes no responsibility for resale handling under local laws and regulations.

A NOTE REGARDING LEAD... Discharging firearms in poorly ventilated areas, cleaning firearms, or handling ammunition may result in exposure to lead, a substance known to cause birth defects, reproductive harm, and other serious physical injury. Have adequate ventilation at all times. Wash hands thoroughly after exposure to lead.

COMPENSATORS / FLASH SUPPRESSORS / MUZZLE BRAKES...

IZ-102660-FH

Bushmaster "Izzy" Flash Suppressor/Compensator... \$36.95 (IZ-102660-FH) This design - one of a series designed by a Bushmaster employee - features 3 gas ports, a machine turned ribbed design, and a closed bottom. It has been bored out to function as a Flash Suppressor, but also effectively controls muzzle rise in rapid fire. Machined of quality gunsteel - manganese phosphate finished - 2 3/16" overall length - threaded 1/2" x 28 T.p.l. (threads per inch) for standard 5.56mm/.223 Rem. caliber barrels. Install using a 3/4" open end wrench and a crush washer or peel washer.

And, for plain muzzle 5.56mm/.223 caliber "Post-Ban" guns - **Bushmaster "Izzy" Flash Suppressor/Compensator... \$36.95 (IZ-102660-SFH)** Same design as above, but slips over muzzles of .700" diameter and is held in place with a taper pin and high strength Loctite® for extra safety. Warning: This Compensator requires factory installation, or professional gunsmithing, to drill and install the taper pin.

IZ-102660-SFH

For Threaded Muzzles (# IZ-102660-PRBF)

The Bushmaster Izzy Muzzle Brake... A Bushmaster

employee designed 5.56mm/.223 Caliber Muzzle Brake - production approved by the BATF. Featuring four gas ports and a ribbed design to improve cooling, it is machined of 4140 gun steel with a manganese phosphate finish, and has proven to be very effective in controlling muzzle rise. Both a slip-on/taper pinned version for barrels with plain crowned muzzles (shown at right - length 2 5/8"), and the threaded model (shown left - threaded 1/2" x 28 T.p.l. - length 2 3/16")

can be installed without regard to port location (timing) and will still be effective, however most are installed with ports positioned 12 - 3 - 6 - 9 o'clock. The slip-on, pinned version requires factory installation or professional gunsmithing to drill and install the taper pin, and for extra safety, high strength Loctite® should be used in addition to the taper pin.

For Plain Crowned Muzzles (# IZ-102660-PSTF)

Bushmaster Izzy Brake... for plain muzzles .700" diameter - requires gunsmithing... \$36.95 (IZ-102660-PSTF) or **Bushmaster Izzy Brake... for threaded barrels - requires lock washer... \$36.95 (IZ-102660-PRBF)**

Phantom 2 Flash Suppressor... \$36.95 (YHM-28-5C1) An improved version of the effective Phantom Flash Suppressor - machined without a bottom slot to avoid a dust signature when firing from the prone position. It offers superior flash hiding with excellent performance in all conditions. Fits standard threaded muzzle barrels (1/2" x 28 T.p.l.), and is made from gun quality steel with a final phosphate coating to mil. specs. Overall Length is 2 3/16" - machined flats allow installation with a 3/4" wrench. **NOTE:** A Crush Washer or Peel Washer is required for correct timing (order on Pg. 48).

Phantom Flash Suppressor... \$36.95 (YHM-29) Precision CNC machined from quality gun steel and phosphate coated to military standards, this "five port" flash suppressor (5 gas slots equally spaced) eliminates all flash and offers excellent performance with night vision equipment. This design offers superior strength to the earlier forked type, and it won't hang up on brush or clothing. Length is 2 3/16" overall. For threaded muzzle barrels only (1/2" x 28 T.p.l.). This Suppressor does not require specific timing, so no Crush or Peel Washer is required.

A2 Bird Cage Flash Suppressor... \$6.50 (9349051) Standard 5 Slot Design for threaded muzzles (1/2" x 28 T.p.l.) without a bottom slot so it won't create a dust signature when you are firing from the prone position. A Peel Washer or Crush Washer is required for correct installation timing.

Note: Even if pinned on/welded over, the A2 Birdcage Flash Suppressor is NOT long enough to make a 14.5" barrel legal for use on a semi-auto rifle.

1 3/4" overall length

A1 Bird Cage Flash Suppressor... \$6.50

(8448576) The original "Birdcage" from the Viet Nam era, this suppressor has six equally spaced slots all around - needs no specific slot timing. Standard 1/2" x 28 T.p.l. threading. For installation use the Flash Hider Lock Washer.

A1 Flash Hider Lock Washer... .60¢ (8448577)

1 3/4" overall length

MUZZLE BRAKES / COMPENSATORS / FLASH SUPPRESSORS...

"CAR 15" Flash Suppressors... All top quality, manufactured in the U.S.A. - the six slot design makes these suppressors very effective for your short barreled carbine.

For threaded barrels only (1/2" x 28 T.p.i.).

Choose from:

A. CAR 15 Extended Flash Suppressor... 5.5" overall length - threaded for all Pre-Ban barrels.

\$15.95 (Part # MMT-500)

B. Shorty Look Slipover Flash Suppressor...

Internal threads allow a "slip-over" installation onto barrel - giving your gun a "shorty" look without sacrificing accuracy. 5" overall length.

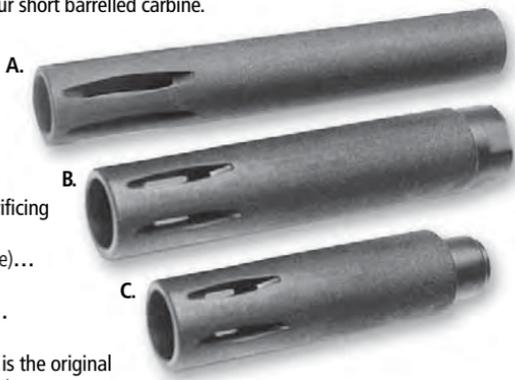

For Standard Diameter Barrels (.610" at muzzle)...

\$15.95 (Part # MMT-0019)

For Heavy Diameter Barrels (.720" at muzzle)...

\$20.95 (9349SFSH)

C. CAR 15 "Original" Flash Suppressor... This is the original 4.5" M177 carbine design. \$15.95 (1005-914-3902)

Y COMP and Mini Y COMP Muzzle Brake for "POST-BAN" Rifles... These highly effective compensators for the 5.56mm/.223 AR type rifle are CNC machined from quality bar stock steel - with manganese phosphate final finish. They slip over the muzzle on Post-ban AR's and are held in place with a steel taper pin. Drilling for the taper pin is required for installation. The Y Comp features three angled ports on each side for gas deflection, and adds 2 5/8" additional length to the Post-Ban barrel. The Mini Y Comp adds 1 3/4" additional length to the barrel and has two angled ports each side.

Note: Bushmaster will only warranty factory installations of these muzzle brakes. There is no charge for the installation of the brake if you buy it from us, and have us install it.

Y COMP Muzzle Brake... \$48.95 (YHM-258P) or Mini-Y COMP Muzzle Brake... \$31.95 (YHM-259P)

Y COMP and Mini Y COMP Muzzle Brake for threaded muzzle Barrels... Similar to the "slip-on" models above, these 5.56mm/.223 compensators are threaded to fit "Pre-Ban" AR barrels. The Y Comp overall length is 3 1/4" - the Mini Y Comp is 2 5/16" overall length. Order either a Crush Washer or Peel Washer for installation. These muzzle brakes are for barrels with muzzles threaded 1/2" x 28 T.p.i. (threads per inch).

Y COMP Muzzle Brake... \$48.95 (YHM-258) or Mini-Y COMP Muzzle Brake... \$31.95 (YHM-259)

Russian Design AK74 Type Muzzle Brake... Thought to be originally an American design, this brake is a 5.56/.223 caliber copy of the Russian Military brake found standard on the AK74 Rifle. A very effective muzzle brake design, it will screw onto threaded muzzle barrels and lock in place with its Allen head set screw (Note: a peel washer will be required for correct timing during installation). 3" overall length. Muzzle climb is controlled by directing gas upward through three gas ports. Recoil is diminished by four ports which direct gas away at a 45 angle from the weapon, and a contoured flat at the end of the brake directs gas sideways. The two gas streams cancel each other and absorb the force of recoil. The lower picture shows a version designed to slip over "post-ban" non-threaded muzzles (.700" diam.) and pin in place (a taper pin is included. Note: The "post-ban" brake requires taper pin drilling and should be installed by Bushmaster, or a qualified gunsmith.

For Threaded Muzzles... \$27.95 (MMT-0012A)
Fits standard threaded barrels - 1/2" x 28 T.p.i.

"Post-Ban" model for NON-Threaded Muzzles
\$27.95 (MMT-0012PB) Requires drilling / pinning.

MUZZLE BRAKES / COMPENSATORS / FLASH SUPPRESSORS...

5.5" AK74 Muzzle Brake for AR15/M16

Type Carabines ... \$31.95 (MMT-0013) A very functional muzzle brake for the short barrelled carbine - 5.5" overall length, when permanently

installed on the 11.5" barrel, makes a legal 16" barrel length. Peel washer is included for proper "timing" (positioning of the brake on the muzzle). Threaded to fit all standard muzzles: 1/2" x 28 T.P.I. (threads per inch).

Flash Suppressors/Compensators for the Bushmaster .308...

Bushmaster "Izzy" .308 Flash Suppressor/Compensator... \$36.95

(Part # IZ-308-PRBFH) Designed by Bushmaster's Law Enforcement Sales Director, this very effective Suppressor has three gas ports (9-12-3 o'clock positions and is to be aligned on the barrel so the closed bottom will be from creating a dust signature. Its large internal diameter makes it function as a Flash Suppressor, but it also effectively controls muzzle rise in rapid fire. Machined of quality gunsteel the ribbed design increases cooling. It is manganese phosphate finished; 2 3/16" overall length; threaded 5/8" x 24 T.p.I. (threads per inch) specifically for the .308. Installation requires an open end wrench and a .308 crush washer.

IZ-308-PRBFH

Bushmaster .308 Crush Washer for correct timing on installation... (Part# TD308002-3) \$6.50

Also, a threaded version of the AK Brake is available for the Bushmaster .308... \$37.95 (MMT-0023A)

Similar to the Russian Military brake on the AK74 Rifle - a very effective muzzle brake design - it will screw onto threaded muzzle .308 barrels and is locked in place with an Allen head set screw. 3" overall length. through Three gas ports on top of this brake (12 o'clock position) control muzzle climb by directing gas upward. Recoil is diminished by four ports which direct gas away at a 45 angle from the weapon, and a contoured flat at the end of the brake directs gas sideways. The two gas streams cancel each other and absorb the force of the recoil.

Fits .308 barrels threaded - 5/8" x 24 T.p.I.

Note: A Crush Washer is required for correct timing during installation. See above: (Part# TD308002-3) \$6.50

Threaded Muzzle Brake / Flash Suppressor Adaptor for Bushmaster Carbon 15 Models...

The Bushmaster Carbon 15 Rifles and Pistols have been manufactured with a unique Quick Detach Compensator that slips onto the Carbon 15 model's specially machined muzzle, and locks in place by means of a spring loaded, ball detent collar. We now have available this collar adaptor which allows the installation of standard flash suppressors and compensators on these Carbon 15 models by simply threading them onto the collar and slipping it onto the muzzle in the usual manner. This adaptor is machined from highest quality steel and aluminum, matte black finished, and threaded with the common 1/2" x 28 T.p.I. pitch to fit standard .223 / 5.56 suppressors/compensators.

Carbon 15 Model Threaded Muzzle Brake / Flash Suppressor Adaptor... (Part # AZ15133) \$26.50

Note: If you intend to attach a suppressor or compensator which requires a particular position ("timing") for fully effective functioning, order a Crush Washer (# 12991533B - \$2.95) or a Peel Washer (# 9349052 - \$3.15) below.

Gov't. Issue Type Blank Firing Adapter... \$15.95

(RAY-008) This device allows the AR15 type gas system to function with blank ammo. Made of heavy steel with a finish of bright red paint for safety. This assembly is designed to fit over the standard A2 birdcage flash suppressor.

WARNING! Remove this adapter BEFORE Firing Live Ammo!

Shoot-Away Muzzle Cap (RCL-10) .45¢ ea.

A red plastic muzzle cap designed to slip over AR15/M16 Barrels to keep out dirt and moisture. The thin plastic can be shot through safely if necessary.

A2 "Crush" Washer... \$2.95 (12991533B)

Used at the Bushmaster factory for timing (positioning) suppressor and muzzle brake installations - for one time use only. It must be replaced after removal.

A2 Peel Washer... \$3.15 (9349052) A re-usable multi-layer washer for the correct timing (positioning of the slots or gas ports) of suppressor or brake installations on threaded muzzle barrels.

Bushmaster .308 Crush Washer for correct installation timing... (Part# TD308002-3) \$6.50

PISTOL GRIPS & BUTTSTOCKS...

A2 Standard Pistol Grip...

\$12.95 (9349127) Standard issue A2 hollow pistol grip of molded black plastic - with raised finger ridges, checkered panels and a ribbed backstrap.

Pistol Grip Screw & Washer...

Screw... .65¢ (AN501D416-18)

Washer... .45¢ (MS35335-61)

Pistol Grip Plug... \$4.50 (SCH-5)

Turns any standard A2 pistol grip into a "stowaway" grip for storage of small items. Molded of black rubber, snug friction fit holds it inside the grip cavity.

Hogue AR15/M16 Pistol Grip... \$31.95 (15000)

We use this comfortable, ambidextrous, textured rubber grip on our Varminter. Its an easy, one screw installation on your AR15/M16 (don't lose the safety detent or spring when changing over!). Hogue also offers companion free-floater forends (see Handguards section).

Pistol Grip only \$31.95 (15000)

Rifle Forend only \$79.95 (15002)

2 Piece Set... (Grip and Forend)

For Rifle \$106.95 (15003)

For Carbine \$106.95 (15013)

Carbine Forend only...

(Includes special gas tube) \$79.95 (15004)

First Samco Tactical Stow Grip...\$25.95

(FBS-G27) Comfortable and ambidextrous, this "G27" type storage grip is molded from a synthetic material proven to minimize slippage when wet. Its extended beavertail and finger ridges provide excellent control - locking insert seals its internal storage compartment.

Forward Combat Grip... For AR rifles, this grip mounts beneath the front sight to offer solid control of muzzle rise in rapid fire. Use on any rifle or carbine with an unobstructed section of barrel for clamp-on attachment. **Specify if for Standard or Heavy AR Barrel...**

With A2 Standard Pistol Grip... \$20.95

Std. Barrel [.610" diam.]... (FWD GRIP-S)

Heavy Barrel [.720" diam.]... (FWD GRIP-H)

With Stowaway Grip... \$28.95

Std. Barrel [.610" diam.]... (FWD GRIP-WS-S)

Heavy Barrel [.720" diam.]... (FWD GRIP-WS-H)

The "Gapper"... \$3.95

(SCH4085) Fills that

blister causing void between the pistol grip and the back of the trigger guard - molded of flexible black polyurethane. Fits snugly, or can be glued in place. Greatly increases grip comfort (shown at left separately, and installed).

See the Bushmaster Modular Accessories System Section of this Catalog for additional accessories.

NEW ErgoGrip Tactical Deluxe Pistol Grip...

\$42.00 (#SCH4045) is universal to the AR15/M16 rifle platform. This is a heavier, ambidextrous grip that fills the hand well - injection molded with an overmolded rubber Sure

Grip™ textured finish, and web support rear extension for improved control. A pressure fit rubber plug is included that creates an internal storage compartment for batteries, cleaning accessories, etc.

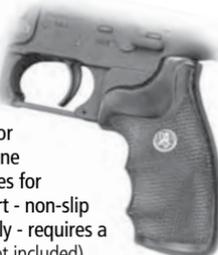

AR15/M16 Tactical Grip... \$63.95

(ARG01) The ultimate tactical grip for the AR15, this adjustable palm swell style grip adapts easily to different sized hands and puts pressure in the palm of the hand to allow a deliberate and calculated trigger pull. Molded of heavy black plastic, it installs easily on any AR15/M16.

Pachmayr "Vindicator" Grip... \$54.95

(04173) An ergonomically designed, hard rubber grip for the AR15 with a solid feel, fine checkering and finger grooves for excellent control and comfort - non-slip even when wet. Installs easily - requires a long 3/16" Allen Wrench (not included).

ErgoGrip Vertical Forend... \$52.95 (ARG-FWD)

Mounts to all Picatinny rail and Weaver base type rails, this ergonomically designed forearm grip offers comfort and fire control. A hex nut through an aluminum mount block clamps the handle solidly onto the rail.

AR15/M16A2 Stowaway Grip... \$13.95

(56PT87SPG2) This M16A2 configuration grip - with a serrated backstrap and finger groove - features a trap door storage compartment for cleaning gear or small parts.

PISTOL GRIPS & BUTTSTOCKS

Six Position Fiberite Telescoping Stock Assembly...

\$106.95

(Part #1005-087-8988-PK)

Our standard issue tele-stock, this heavy duty design incorporates a six position latch assembly, and is made of the toughest materials available. Its ribbed body offers extra strength, as does the six position receiver extension machined from a solid aluminum extrusion. Its lower lip face acts as a timing edge to insure that the buffer retainer is held correctly and the extension is positioned in the correct location. An original design metal buffer with cylindrical weights (not plastic with BB shot) is included, and a sling loop is fitted in the standard position - alternately "top" slings can be attached through the slotted body.

Also available... **Complete Fixed Position Tele-Style Stock Assembly...** (1005-087-8988PEK) **\$106.95** This assembly includes the full length A2 Buffer Tube, Buffer and Spring.

The "Skeleton" Stock - this radically different stock design for all AR15 type rifles offers a comfortable neoprene foam sleeve and a skeleton frame that slides right on to the existing buffer tube of your rifle, then clamps tight with a new buttplate screw and the skeleton frame screws. A comfortable rubber buttplate is included, as well as a swiveling sling loop that can be mounted forward left, or right, or on the bottom of the buttplate. Length 10.5" / Weight 14.03 oz. (*This part number does not include buffer tube, buffer or spring - use already existing parts or buy the kit below).

Skeleton Stock Kit for Changeover from a Tele-stock... \$154.95 (SKELETON-STOCK-K) The Skeleton Stock is also available as a kit for those wishing to swap over from a telestock - includes Skeleton Stock with Buttplate and Hardware (as above) plus standard buffer tube, standard buffer and spring.

Replacement Foam Sleeves for Skeleton Stocks... For Standard Length model above. **\$4.50** (SKEL-FOAM-OT-8.2), or for the Shorty Skeleton Stock shown below... **\$3.95** (SKEL-FOAM-OT-5.5)

NOTE: These sleeves install easier with WD40.

Complete Bushmaster Lower Receiver with Skeleton Stock...

FFL Required for Purchase

M.S.R.P. \$415.00 (Part# A LOW SKELETON) See Page 15.

Original Style Fiberite

Tele-Stock Assembly...

\$106.95 (ALEO-001K) For those preferring the original style fiberite tele-stock body, we offer this assembly. It has the original four position telescoping aluminum extrusion extension tube, and includes an original design metal telescoping buffer with cylindrical weights, and the carbine length buffer spring. Always use a Telestock Assembly Wrench for tightening the extension tube onto your lower - available in our Gunsmithing Section.

AR15/M16 "Skeleton" Stock... \$112.95

(Part# SKELETON STOCK)*

Shorty Skeleton Stock Kit including CAR Buffer and Spring... \$148.95 (SKEL-SH-STK-KIT) Similar to the original Skeleton Stock above, but with an overall length of 7 3/4" - weight of 12.8 oz. The neoprene sleeve around the buffer tube offers a comfortable cheek weld. A 1/2" rubber recoil pad, a sling swivel (mounts either left or right side, or on buttplate base), a short Buffer Tube, a CAR Buffer and Spring, and all necessary screws are included to swap over from any AR type rifle or carbine.

For those who already own a CAR Buffer and Spring, the **Shorty Skeleton Stock** without those parts is... **\$134.95** (Part # SKEL-SH-STK).

Skeleton Stock Extended Recoil Pad... (SKEL-1IN-BUTTPAD) \$13.95 This extra thick, molded rubber Recoil Pad fits all the Skeleton Stocks including the Shorty Model. 1" inch in thickness, and 3.2 oz. in weight, for extra shooting comfort and extra trigger pull length. Installs easily in place of existing pad - screws are included.

PISTOL GRIPS & BUTTSTOCKS...

Cheekpiece for Bushmaster Six Position Telestock
\$37.50 (7200)

Designed to fit the newer Bushmaster Six Position "ribbed body" telestocks (see previous page) - it snaps securely onto the telestock body with molded projections that lock into the rib indentations. A watertight small parts storage compartment is molded into the upper portion of the cheekpiece, and a screw-in plug with a rubber o-ring seal prevents water or dust entry.

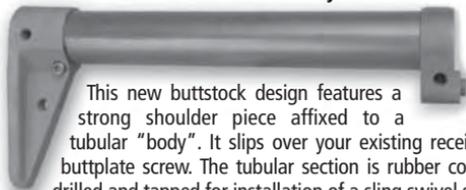

Cheekpiece for older "Fiberite" TeleStocks
\$37.50 (7000)

This quality telestock cheekpiece allows the use of scope, laser, or night vision devices with comfort. Molded of tough black plastic, it snaps on to most older style fiberite telestocks with a secure pressure fit. Featuring a built-in watertight storage compartment (o-ring sealed screw-in plug at top rear of the unit), this assembly will help take all the "rattle" out of fiberite telestocks.

Note: For use on Fiberite Telestocks - will only fit the original type telestocks (as shown here).

Bushmaster Modular Accessories System Stock... \$73.50 (YHM-9569) **Note:** No Receiver Extension Tube is shipped with this part #. Use your existing extension tube.

This new buttstock design features a strong shoulder piece affixed to a tubular "body". It slips over your existing receiver extension tube and locks in place with the standard buttplate screw. The tubular section is rubber covered for non-slip shooting comfort, and seven holes are drilled and tapped for installation of a sling swivel stud (such as the BMAS Sling Stud - Part #YHM-9469).

B.M.A.S. Stock Kit with Receiver Extension... \$96.50 (YHM-9569K) A Receiver Extension Tube is included with this kit for easy changeovers from a telestock

See other Bushmaster Modular Accessories System components in the B.M.A.S. Section of this catalog.

Delta Style Stock Cheekpiece

\$74.50 (6200)

A quality accessory for your A2 buttstock - designed to improve accuracy by eliminating parallax problems. It shoulders easily and provides the proper cheekweld for telescopic sight use. Installs with no alteration to original butt cap or sling loop, and is designed specifically for the new style A2 stock (can be modified to fit the A1).

Hook Style Buttstock for AR15/M16...

\$44.95 (16-01-02)

A molded fiberglass polymer stock offering the eye relief of the newer M16A2 type with 1" additional length of pull. The "hook" gives added stability to sandbag rest when shooting with left hand across the body and into the hook. Uses the standard issue buttplate but offers almost double the storage - easily replaces the standard stock.

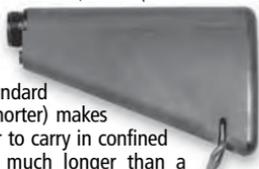

Complete Buttstock Assembly with "Hook Style"

Buttstock... \$95.50 (AR STK ASSY CHO) Includes Stock, Trapdoor Buttplate Assembly, Buffer, Buffer Tube, Buffer Spring, Spacer and Screw.

Bushmaster Stubby Stock... \$69.50 (9349119-S-KIT)

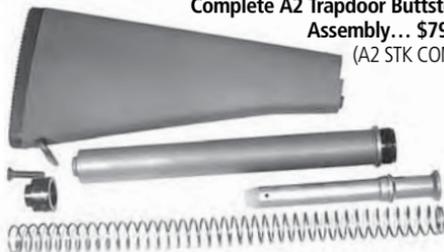

Includes Carbine Length Buffer and Action Spring

This version of the standard A2 buttstock (3.25" shorter) makes the AR type rifle easier to carry in confined quarters as it is not much longer than a compressed telestock. It's just long enough to be legal length with 16" barreled guns, and is also sized well for women and younger shooters. Comes complete with carbine length Buffer and Spring. A standard rear sling loop is mounted, and the solid buttplate (no trapdoor storage compartment) is smooth and comfortable on the shoulder. Length 7.25 inches / Weight 14.6 oz.

Complete Bushmaster Lower with Stubby Stock... M.S.R.P. \$340.00 (A LOW STUBBY) An FFL is required for purchase - or see your FFL Dealer.

Complete A2 Trapdoor Buttstock Assembly... \$79.95 (A2 STK COMP)

The newer A2 design is 5/8" longer than the original A1 type for greater shooting comfort and an improved trigger pull length of 13.5". A convenient trapdoor storage space in the buttstock provides room for spare parts or an Otis Buttstock Stowage Cleaning Kit (see our Gunsmithing Section). This complete assembly includes Buttstock with Trapdoor Buttplate, Sling Loop, Buffer, Buffer Tube, Buffer Spring, Spacer and Vented Buttplate Screw.

PISTOL GRIPS & BUTTSTOCKS...

Now Available... Camouflage Finished Pistol Grip/Buttstock/Handguard Sets...

These 3 Piece Sets, or individual parts can now be added as accessory items to your rifle or carbine. High quality, tank dipped parts in either Desert Camo or RealTree® Camouflage Pattern - see color pictures on Pages 11 & 12.

NEW! From BUSHMASTER... Enidine Hydraulic Buffer / Rate Reducer... A drop-in replacement for standard buffers - with units designed for either rifles or carbines. This rugged "shock absorber" will add reliability to your AR, reduce felt recoil, improve accuracy and protect your optics from excessive shock. For Full Auto guns, they'll bring firing rate down to a very manageable level, and smooth out the functioning of the gun. Bushmaster installs them in our short barreled Full Auto models. Quality alloy steels with a black oxide finish; action rod is nickel plated for smooth operation. Rear "bumper" is molded black polyurethane.

Hydraulic Buffer / Rate Reducer for Carbines... (Part # HB-1A) **\$ 89.95 / For Rifles...** (Part # HB-2A) **\$ 99.95**

Rubber TeleStock Butt Pads... These molded black rubber pads securely fit the buttplate of the TeleStock to offer recoil reducing comfort and positive, non-slip shouldering.

A.) For new "ribbed" style TeleStocks...

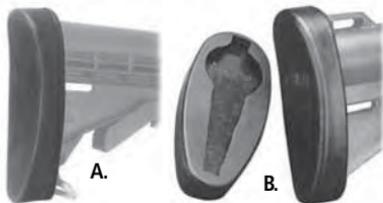

\$20.50 (Part # 2698828)

B.) For older style TeleStock... Also fits the

Carbon 15 Rifles with the original design

buttstock - can be modified to fit new reinforced

Carbon 15 Buttstock... **\$16.95** (Part # 2698827)

Extended Buttplate for AR15/M16... **\$24.50** (16-09-02) This glass-filled, black plastic composite buttplate adds 1 1/4" length to the standard issue AR15/M16 buttstock - replaces the existing buttplate (Note: It does block access to the buttplate trapdoor). It also fits on the Stubby Stock.

INDIVIDUAL A2 SOLID BUTTSTOCK PARTS...

A2 Solid Buttstock (9349119) **\$37.50**

HANDGUARDS & ACCESSORIES...

A2 Rifle Handguards... \$21.95/pair (Part # 9349059)

Compression molded of black composite polymer material (not injection molded - they will not melt during full auto fire). Non-reflective matte black finish designed to fit rifles with Triangular Handguard Cap. Include Internal Aluminum Heat Shields to protect hands from barrel heat buildup under rapid fire.

A2 Carbine Length Handguards... \$21.95/pair

(Part # 1005-914-4572) Same black composite polymer construction as above - heatshields included. These can only be used with the Round Handguard Cap (see Pg. 35 for Handguard Cap prices and part numbers).

M4 Dual Heatshield Handguards... \$45.50/pair (1005-914-4574)

The M4 type Handguard is more oval in shape and taller in cross section, and the dual heatshields effectively increase barrel cooling - especially in rapid fire. This improved handguard set will fit most carbines with either type of round handguard cap. Molded of black thermoplastic composite material with dual heavy, aluminum shields (one black finished/one silver).

M4 Handguards with Single Heatshield ... \$42.50/pair (1005-914-4573)

Bushmaster DCM "Free-Floater" Kit - a Barrel Nut / Free-Floater Tube / Handguard Combination... \$159.95 (Part # 9349059CGA) Meets all regulations for DCM competition, this forend system free floats the barrel from Barrel Nut forward for optimum accuracy. A Sling Swivel Loop is mounted to the bottom-front of the tube - Handguards, Delta Ring, Weld Spring, Snap Ring and a Special Gas Tube are included.

DCM Free-Floater Tube / Custom Gas Tube Set \$132.95 (# 2698823) Add your own rifle length handguards to this Competition free-float tube (minor modifications to handguards are required). Set includes a custom bent gas tube - Upper Rec. disassembly/Front Sight removal is required.

Vented Free-Float Tube Forend... \$95.95

(VAR-01K) This vented, free-floating, three piece forend can be easily installed on your rifle for improved accuracy - we use it on our Varminter and Predator Rifles. A new barrel nut and locking ring replace your existing barrel nut (front sight, gas tube and barrel nut removal required). The aluminum free-float tube screws on, and after "timing" the cooling vents, a locking ring holds it in position. The center of the tube is knurled for a non-slip grip, and a standard stud is included for bipod or sling. All three parts are high quality aircraft aluminum - black anodize finished. **Also available:** .308 Free Floater Forend... For .308 Rifle (VHG-3R) \$106.95 / For .308 Carbine Mid-Length (VHG-3M) \$101.95

Bushmaster V Match "Free-Floater" Tubular Aluminum Forends... \$63.95 each

These hard anodized finished aluminum assemblies fit over standard and match profile barrels - "free floating" the barrel for optimum accuracy. Screwed directly onto the Upper Receiver replacing Handguards, Barrel Nut and Handguard Cap (requires removal of the front sight base - will not fit Dissipator Barrels).

First Samco M44 Four Rail Handguard Set... This First Samco Handguard Set features four Picatinny Rails hidden under four removable rubber rail covers. The rails - positioned at 12-3-6-9 o'clock offer unlimited accessory attachment - the rubber covers add excellent grip comfort and protect the rails when not in use. Internal metal heat shields dissipate rapid fire heat. A handguard tool (see our HGD-Tool) is recommended for installation. **Photo shows Carbine Set mounted with left side and bottom rubber covers removed.**

First Samco M44 for Carbine... \$112.99 (Part # FBS-M44S)

First Samco M44 for Rifle... \$136.99 (Part # FBS-M44L)

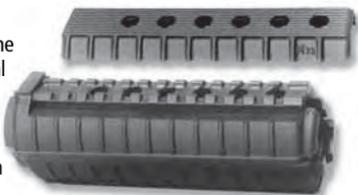

V Match Free-Float Forend For Rifles... (# SGW-02) \$63.95 each
For Carbines... (# SGW-01)

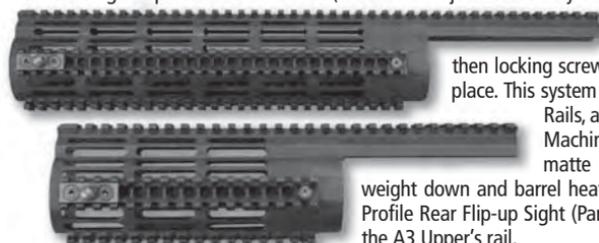

HANDGUARDS & ACCESSORIES...

First Samco M-33 Handguard Set... \$89.95 (Part # FBS-M33) The First Samco Two Rail Handguard Set for Carbines features integral Picatinny rails under removable covers. You can install this handguard set so as to position the rails vertically (12 and 6 o'clock) or horizontally (3 and 9 o'clock). Molded of high density black polymer, with stainless steel heat shields and comfortable rubber rail covers - available in carbine length only - a direct snap-in replacement for standard guards.

Bushmaster Modular Accessories System (B.M.A.S.) Integral Flat-top Forend... For Rifles: (Part # P-12) **\$290.00 / For Carbines:** (Part # P-4) **\$249.00** This Integral System fits the A3 type "flat-top" rifle or carbine, and mounts using a replacement barrel nut (included - major disassembly of rifle required). With the new barrel nut in

place and aligned for the gas tube, the Forend slides onto the A3 Upper's rail, then locking screws and a "locking block" clamp it firmly in place. This system free-floats the barrel, offers four Picatinny Rails, and a sling mounting plate with swivel stud. Machined from aircraft aluminum, finished in matte black hard anodized, and vented to keep weight down and barrel heat to a minimum. **NOTE:** The B.M.A.S. Low Profile Rear Flip-up Sight (Part # YHM-9680) will fit behind this unit on the A3 Upper's rail.

Bushmaster Modular Accessories System (B.M.A.S.) Four-Rail Free-Floater Handguard... The four Picatinny rails machined into these free floater forends offer your AR type rifle or carbine unlimited mounting options for sights, scopes, grips, lights, lasers, etc. Venting slots all around aid in barrel cooling, and rail front edges are drilled and machined to accept the B.M.A.S. Swivel Sling Stud (Note: That stud would not function as a bipod mounting point). These forends are machined from aircraft quality aluminum and hardcoat anodized to mil. specs. The rifle model fits 20" and longer barrels; the carbine version is designed for 16" barrels. Assemblies include forearm, barrel nut and jam nut.

Note: Barrel/Front Sight disassembly is required for installation.

For Rifle... \$169.95 (Part # YHM-9480)

For Carbine... \$148.95 (Part # YHM-9479)

Bushmaster (B.M.A.S.) Four Rail Split Handguards...

The "split" design of this handguard set allows easy installation of a 4-Rail accessory system to any AR type Rifle. These light weight and beautifully machined sets of aircraft aluminum handguards snap right in place of your standard carbine or rifle handguards, and offer four full length Picatinny configuration rails for attachment of the flashlight/laser sight accessories of your choice. The rails are positioned at 12 - 3 - 6 - 9 o'clock, and the top handguard can be used in conjunction with an M203 Grenade Launcher. Thoroughly vented to keep your barrel cool, they are finished in mil. spec. matte black anodize to eliminate glare and protect against corrosion.

B.M.A.S. 4-Rail Split Handguard: Carbine Length... (YHM-9670) \$191.50 / Rifle Length... (YHM-9803) \$212.95

Sure-Grip Panels for Multi-Rail Forends... These black rubber grip panels for Picatinny rail forends - with the Bushmaster logo molded into them - snap tightly onto the rails for protection and comfort. Two lengths available...

A. Sure-Grip Full Length Rail Cover... \$10.95 ea. (SCH-6L) 5 3/4" long for full length coverage on carbine forends. Covers fifteen rail slots. Black rubber with 3 molded Bushmaster logos.

B. Sure-Grip 1/3rd Length Rail Cover... \$3.50 ea. (SCH-6) 1 3/4" black rubber grip panel (covers five rail slots) for Picatinny rail forends with BFI logo molded in.

HANDGUARDS & ACCESSORIES...

Hogue Free-Floater Carbine and Rifle Forends...

Hogue Forend

A unique aluminum free-floating forend with a central rubberized band for comfort and insulation against heat and vibration. Like our V Match tubes, Hogue forends require removal of the front sight and barrel nut for installation. The Hogue Two-piece Forend will fit our Dissipator models. A companion pistol grip is also available (we use them on our Varminter & Predator).

Sold as a set with the Hogue Rubber Pistol Grip (shown right), or priced individually:

Rifle Forend only... \$79.95 (15002)

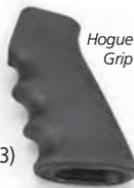

2 Piece Rifle Set... \$106.95 (15003)

Carbine Forend only... \$79.95

(15004) Includes specially bent Gas Tube.

2 Piece Carbine Set... \$106.95(15013)

Pistol Grip only... \$31.95 (15000)

Hogue Grip

CAR & Rifle Length M203 Handguards... The bottom of these handguards are open to allow attachment of the M203 Grenade Launcher, and both are Gov't. issue, molded black nylon with internal aluminum heat shields. For installation, just snap them on in place of standard handguards.

CAR M203 Handguard... \$51.50 (Part # 12990563)

Rifle M203 Handguard... \$46.50 (Part # 8448377)

AR15/M16 Handguard Removal Tool... \$21.95

(Part # HGD-Tool) This handy tool provides the leverage needed to compress the weld spring inside the delta ring, and eliminates the need for a second person to help remove AR15/M16 handguards. We use this tool frequently at the Bushmaster plant. Manufactured from strong, powder coated 1/4" round steel stock with protective vinyl coatings in all critical contact areas. Works equally well on straight or tapered delta rings.

B.M.A.S. Handguard Rails... Add accessory mounting points to any standard Rifle or Carbine handguard with these Picatinny configuration Rails. Mounting requires removal of the handguard and inner shield - they screw through the existing vent holes. Anodized aluminum Rails are tapered so that accessories mount on same plane as barrel and bore. They are drilled to align with existing handguard vents for proper barrel cooling. The Car Length Rail will fit on a Rifle length handguard if desired. As handguards have the possibility of movement, we do not recommend installation of optics or lasers on these rails.

Handguards not included.

B.M.A.S. Rail for Rifle Handguard... \$60.50 (YHM-Hgd-Rail-Rif)

B.M.A.S. Rail for CAR Handguard... \$40.50 (YHM-Hgd-Rail-CAR)

Streamlight M-6 Tactical Laser Illuminator... Streamlight's rugged targeting laser/flashlight combination features a 4 position master switch (flashlight illumination only / visible laser only / both / off); a Halogen lamp and two 3 volt Lithium batteries all in a small (3.4" x 1.57" x 1.9") and lightweight (3.7 oz.) black polymer case. It is designed to slide onto any Picatinny type rail or use the bolt-on AR mount on standard handguards (as shown here - mount shown below left). Also available is an optional Remote Pressure Pad On-Off Switch (as shown on this carbine). A "flashlight only" model - the Streamlight M-5 - is very similar, and lighter (3.3 oz.). Also, either the M-5 or M-6 models can be easily adapted to pistol use.

STREAMLIGHT

Streamlight M-6 Tactical Light/Laser w/batteries... \$441.50 (SL-M-6)

Streamlight M-5 Tactical Light w/batteries... \$249.95 (SL-M-5)

< Remote Pressure Pad On-Off Switch... \$74.50 (SL-PresPad)

This adhesive backed pressure pad switch (shown left) can also be used with Streamlight's M-3 and M-5 Tactical Lights.

Rail Mount Switch Kit for Streamlight / Surefire Flashlight Pressure Switches... \$12.95 (SCH-4366-KT)

This 3 piece kit will conveniently mount either the Streamlight or Surefire switch onto any Picatinny Rail section without messy adhesives or velcro. The base piece snaps onto the rail and the insert encapsulates the switch pad - molded black Santoprene Thermoplastic.

Streamlight M16/AR15 Tactical Light Mount...

\$21.50 (SL-Mount) This Picatinny Rail Section bolts onto standard hand guards (through the vent holes) with supplied inner reinforcing plate.

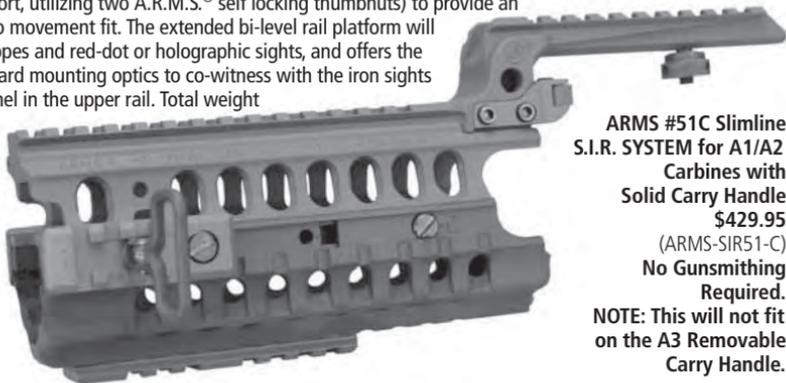

Now Available... Camouflage Finished Pistol Grip/Buttstock/Handguard Sets...

These 3 Piece Sets, or individual parts can now be added as accessory items to your rifle or carbine. High quality, tank dipped parts in either Desert Camo or RealTree® Camouflage Pattern - see color pictures & details on Pages 12.

The **ARMS S.I.R. (Selective Integrated Rail) System** is a high quality, technical forend for the AR15 Type Carbine that combines barrel free-floating, light weight, and a multitude of accessory attachment rails. This #51C Slimline model in the ARMS S.I.R. System is intended to fit the A1/A2 Solid Carry Handle Carbines, leaves the barrel totally free-floating, and is approximately 1/4" narrower than other models for a more comfortable grip. The S.I.R. Model 51C clamps solidly onto the Upper Receiver's fixed carry handle (both the carry handle channel and the handle front support, utilizing two A.R.M.S.® self locking thumbnuts) to provide an extremely rigid, no movement fit. The extended bi-level rail platform will mount various scopes and red-dot or holographic sights, and offers the possibility of forward mounting optics to co-witness with the iron sights through the channel in the upper rail. Total weight

is 18.9 oz. including the two side and one bottom accessory rail segments and sling swivel. These parts can be removed or added as needed.

ARMS #51C Slimline S.I.R. SYSTEM for A1/A2 Carbines with Solid Carry Handle
\$429.95

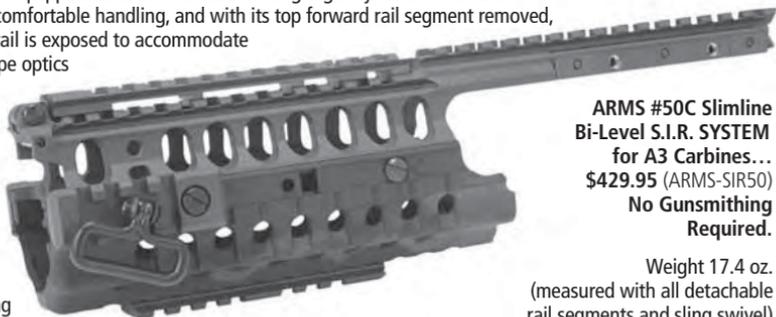

(ARMS-SIR51-C)

No Gunsmithing Required.

NOTE: This will not fit on the A3 Removable Carry Handle.

ARMS S.I.R. SYSTEM Model #50C - This civilian version Bi-Level Slimline model is designed for flat-top equipped carbines with carbine length gas systems. It features the Slimline profile for comfortable handling, and with its top forward rail segment removed, a Bi-Level dovetail rail is exposed to accommodate

heads-up display type optics such as EOTech Sights, and lasers, to co-witness with iron sights. No modifications to the weapon are required for mounting, and side and bottom rail segments and a sling loop are included.

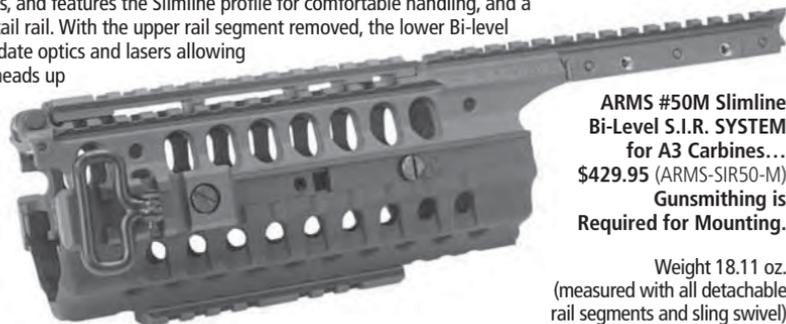

ARMS #50C Slimline Bi-Level S.I.R. SYSTEM for A3 Carbines...
\$429.95 (ARMS-SIR50)

No Gunsmithing Required.

Weight 17.4 oz.
(measured with all detachable rail segments and sling swivel)

ARMS S.I.R. SYSTEM Model #50M - Fits flat-top equipped carbines with carbine length gas systems, and features the Slimline profile for comfortable handling, and a Bi-Level top dovetail rail. With the upper rail segment removed, the lower Bi-level rail will accommodate optics and lasers allowing

co-witnessing of heads up displays such as EOTech Sights. Installation requires removal of the Delta Ring on your carbine. Side and bottom rail segments and a sling loop are included.

ARMS #50M Slimline Bi-Level S.I.R. SYSTEM for A3 Carbines...
\$429.95 (ARMS-SIR50-M)
Gunsmithing is Required for Mounting.

Weight 18.11 oz.
(measured with all detachable rail segments and sling swivel)

NOTE: Only the ARMS #40 Flip-Up Rear Sight (see Sights/Scopes Section) and the B.M.A.S. Lightweight Rear Flip Sight (Part # YHM-9680) will work with the ARMS S.I.R. System and fit on the rail behind any of the S.I.R. models.

Spec-Ops Mamba**Smarter - Stronger - Better!**

Combat Sling for Telestocked M4 & other Carabines (100240101) **\$39.95...** The first sling designed for full contact engagement - for either left or right handed shooters, this quality USA made product offers fast and easy transitions with a "tensioned triangle" design to eliminate interference with body-mounted load bearing equipment. It's tubular web construction is super strong, and twist and tangle-free. Compatible with SOPMOD components, the Mamba's static-side "traverse" strap prevents the sling from tangling in weapons mounted sighting or lighting systems. The Mamba does not use any metal snap clips, velcro or other noise-making hardware.

100% Made in the USA**Guaranteed for Life!****Mamba Combat Sling for Fixed Stock Rifles**(100240201) **\$39.95...**

Designed with a custom positioning "Speed-lok" feature, the Spec-Ops Mamba Slings allow the

wearer to balance and position the weapon according to situational requirements. A unique stretch section built into the sling allows the user to strike an opponent with the weapon's muzzle ("barrel thump") while still keeping the weapon slung and in ready position. Adjusting buckles allow "pre-setting" the sling for operator's body size.

Also available: The Spec-Ops Universal Mamba Sling (100240501) **\$49.95...** for ambidextrous mounting to either carbines or full stocked rifles - with all the Spec-Ops Mamba features described above.

And, The Master Blaster Combat Sling (100300101) **\$29.95...** Designed for combat shotguns and tactical rifles, this sling features two adjustments for quick transitions & body sizing, and quality tubular web construction.

The "Mamba" Power Strike Zone

Viking Tactical Slings... High quality black 1" web slings that are fully adjustable while in use. Available in a Wide Padded model (upper photo) or Standard 1" web model, these can be used on either

Telestocked Carbine or with the Adapter (shown at far right),

on an A2 Solid Buttstock Rifle. **Specify: Viking Tactical Padded Sling... \$40.95 (VTAC-MK2) or Viking Tactical Standard Web Sling... \$34.95 (VTAC-MK1) or Viking A2 Stock Connector... \$8.95 (VTAC-MK3)**

**Turner Saddlery AWS Competition Sling... \$74.50**

(Part # TS-NMSRS) An extremely durable sling for DCM High Power Competition use with the AR15/M16 rifle - approved by CMP and NRA. Made of All Weather Synthetic (AWS) material which requires no break-in, and will not stretch. 54 - 56" with steel hooks. Stamped with the Bushmaster logo.

Padded Sling... For AR15/M16, or a variety of other rifles. Black webbing with a comfortable shoulder pad, and two black metal buckles. Specify 1" or 1 1/4" webbing width:

1 1/4" Wide Padded Sling...**\$13.95** (Part # AS-60)**1" Wide Padded Sling...****\$13.95**

(Part # AS-60-1)

Gov't. Issue Sling... \$5.50 (12624561) A 1 1/4" wide black nylon web sling - 54" long - with two black metal buckles.

SLINGS & BIPODS...

Quake Industries "Claw"

Non-Slip Sling... \$38.95 (51000-0)

A high quality 1" black webbing sling with a flexible, molded rubber shoulder pad that offers silence and comfort - won't slip or roll off your shoulder.

B.M.A.S. Rail Sling Mount... \$24.50 (YHM-9485S)

Attach a sling to any accessory rail (Picatinny or Weaver type) with this B.M.A.S. Rail Sling Mount. Clamps onto rail system or forend, and locks down with one button head Allen screw. Includes a swivel sling mount stud.

See additional sling mounting accessories for the AR15 Type Rifle in the B.M.A.S. Section of this catalog.

Sling Mount Loops... For vertical carry mounting of various slings, the front loop mounts onto the sight assembly. For buttstock application, attach the loop onto the stock's rear sling loop. Phosphate finished - heavy spring steel wire.

Front & Rear Set - Two Loops... \$8.50 (2698877K)

or, Sold Individually... \$5.50 each (2698877)

Bushmaster Modular Accessory System Tactical Sling Adapter... \$14.95

(Part # 1005-914-2942-T) Made for attaching various types of tactical slings, it allows mounting either web type slings or those that have "lobster claw" type clips. This phosphate finished steel adapter plate replaces the receiver end plate of your telescopic, and allows ambidextrous sling mounting on either the primary, or offside shoulder position for a comfortable "tactical" carry of the weapon. Removal of the stock and receiver extension is necessary for adapter installation.

Harris Ultralight Bipods... Versatile, sturdy, light, and fast - Harris Bipods are real quality. Folding legs have completely adjustable spring-return extensions. The sling swivel attaches to the clamp. Quality manufactured with heat treated steel and hard alloys - all black anodized finish. These bipods swivel 45° for instant leveling on uneven ground, and the hinged base has a tension adjustment and buffer springs to eliminate looseness. Leg Length: Extended - 13" / Retracted - 9". Harris Model L will mount directly onto Varminters & Predator. V Match rifles require installation of Sling Bipod Stud below right. Ribbed AR Handguards require the HE-001 adaptor below. For mounting to accessory rails, use the Samco FBS-BP1 (below) or our B.M.A.S. Aluminum Bipod Adapter (YHM-638) on Page 76.

Harris Model L - for XM15/AR15/M16 & others... \$118.95 (HE-002) [as shown]

Harris Bipod Adapter for AR15 Handguards... \$11.95 (HE-001)

First Samco Equipment Mount for Rails...

\$31.99 (FBS-BP1) Mounts

to any Picatinny or Weaver type rails with a button lock mechanism. Molded of high density black polymer with a standard stud for sling or bipod mounting.

Bushmaster Sling/Bipod Stud... \$5.95 (B-0807)

This universal bipod mounting stud will mount any standard, Quick Detach type sling swivel. 3/8" shaft is threaded 10/32 - use a #21 drill bit before tapping. We use these on our Varminter models.

Quick Detach Sling Swivels... \$12.95 / pair

(KNS-4) These 1 1/4" Loop Quick Detach Sling

Swivels are heavy steel with a phosphate finish and a screw locking knob to ensure that the sling won't work loose from the rifle. Fits any firearms with standard sling mounting studs installed.

A2 Buttstock Sling Stud... \$14.95

(KNS-5) This phosphate finished steel stud replaces the old rear sling loop on standard A2 solid buttstocks. Unscrew the lower screw in the buttplate, then slip this in the loop cavity and replace the screw. Accepts any standard Quick Detach type sling swivel.

Steel Side-Sling Adapter... \$34.95 (Part # 12598617K) This adapter - the same as used in the original M203 grenade launcher kit - allows mounting a sling to the side of the barrel for easier ready position carry. Machined from gun steel, it is adaptable to both standard (.625" diam.) and heavy barrels (.750" diam.) by flipping the double concave lock plate when installing.

See the Bushmaster Modular Accessory System Section (B.M.A.S.) of this catalog for additional Bipod Studs and Mounting Adapters.

BUSHMASTER GUNSMITHING...

Remember, Bushmaster offers Free Gunsmithing and Assembly on most Parts & Accessories when those parts are purchased from us – another Bushmaster value making us – The Best... By a Long Shot!

See Pages 40/41 for a complete Bushmaster XM15 Disassembly Schematic Diagram / Parts Reference

Our company policy is to offer Gunsmithing Assembly at No Charge when parts are purchased from us (with the exception of sight bases). We will also offer our professional gunsmithing services to any customers who care to ship us their AR15 Type firearms or assemblies for repair or buildup - and we will work on brands other than Bushmaster. Gunsmithing time is charged at \$40.00 per hour, and we charge a flat \$16.50 fee for return shipping of your rifle, upper or parts. For an estimate on your gunsmithing needs, call 1-800-998-7928 during business hours, or E-mail a complete description of your needs to: Techsupport@bushmaster.com

BUSHMASTER STANDARD ARMORER'S TOOL KIT... \$85.95 (Part #s A1 ARM KIT / A2 ARM KIT) A standard selection of indispensable tools for all AR15 assembly, disassembly and maintenance procedures (choose from A1 or A2 version - tools included differ). Kit includes: Dual Slot Barrel Vise Jaw Blocks; Drift Punches; Barrel Wrench; Receiver Push Pin Tool; Technical Service Manual; Sight Tool; Cleaning Kit; Spring Package w/Standard Buffer Spring; and Assorted Pins and Caps.

DELUXE ARMORER'S TOOL KIT... \$180.95 (Part #s A1 DARM KIT / A2 DARM KIT) A complete tool kit for all necessary repairs and installations (choose from A1 or A2 version - tools differ). Kit includes: Dual Slot Barrel Vise Jaw Blocks; Drift Punches; Armorer's Barrel Wrench; 200 Page Technical Manual; Sight Tool; Cleaning Kit; Tele-Stock Wrench; Go; No-Go and Field Headspace Gauges; Firing Pin Protrusion Gauge; Receiver Push Pin Tool; Spring Package with Standard Buffer Spring; and Assorted Pins and Caps.

MASTER ARMORER'S TOOL KIT... \$319.95 (Part #s A MARM KIT) Total AR assembly and disassembly tools for the professional! Includes: Armorer's Action Block Kit; Lower Receiver Vise Block; Heavy Duty Combination Armorer's Wrench; Barrel Vise Jaw Blocks; Drift Punch Set; Rifle Cleaning Kit; .223 Go/No-Go/Field Headspace Gauges; Firing Pin Protrusion Gauge; A1 and A2 Sight Tools; Receiver Push Pin Tool; 200 page M16 A2 Marine Corp. Technical Manual; M16 A1 Technical Manual; Armorer's Video; Tetra Gun Care Kit; 2 complete spring packages (with carbine & rifle buffer springs), and an assortment of pins, detents and caps for fast and foolproof assemblies and installations. A great value - cost of components purchased separately would exceed \$325!

 **Receiver Push Pin Tool... \$7.50** (IMP-1) This handy tool is designed to push out tough Takedown and Pivot Pins in your lower receiver. Machined from black nylon material so it won't mar the gun's finish, it also helps install the small Pivot Pin Detent and Spring, and will fit into the buttstock storage compartment.

Barrel Vise Jaw Blocks... \$15.95 (AMER-001) A dual slot design for the installation of barrels, front sight removal rear sight work, cleaning, or any job that requires immobilization of the rifle - just insert them into your vise. These heavy aluminum blocks are not limited to AR15/M16 service work - they make an excellent all around gunsmithing tool, and they will not mar the finish of the rifle or barrel.

Headspace Gauges... High quality machined steel gauges for Bushmaster 5.56mm Caliber Rifles and Carbines - including instructions for use. Also available, a headspace gauge set for all .308 Caliber Rifles... (Part #s below).

 **5.56mm NATO Caliber Go-Gauge... \$30.00** (HGO223G) Used to determine adequate headspace. Chamber depth enough or oversized bolt.

 **5.56mm NATO Caliber No-Go Gauge... \$30.00** (HGO223N) Used to determine excess headspace. Chamber depth too great, or undersized bolt.

 **5.56mm NATO Caliber Field Gauge... \$30.00** (HGO223F) Used to determine overly excessive headspace due to chamber and bolt wear.

.308 Cal. Go-Gauge... \$30.00 (HGO243G)

.308 Cal. No-Go Gauge... \$30.00 (HGO243N)

.308 Cal. Field Gauge... \$30.00 (HGO243F)

Drift Punch Set... \$22.95 (STA PNCHSET) A Set of Four excellent Starret Punches - 1/16", 3/32", 1/8", 5/32" - all the necessary sizes for any work on the AR15/M16 rifle, as well as many other mechanical projects.

U. S. Gov't. Tech Manuals... Complete Maintenance, Repair and Troubleshooting Information for either the A1 or A2 model (A2 shown here). Approx. 300 fully illustrated pages - 8 1/2" x 11".

For M16A2... \$11.95
(Part # TM9-1005-319-23P)

For M16A1... \$11.95
(Part # TM9-1005-249-24P)

BUSHMASTER GUNSMITHING...

The Bushmaster DVD...

\$25.95 (ADS-002) Complete assembly and buildup details for the XM15/AR15/M16 rifle. This live, 60 minute, digitally photographed DVD will help you understand the complete Bushmaster system in extensive step by step detail. Our Armorer describes the tools needed for every operation, shows the details of all subassemblies, and demonstrates function checks - all in sharp, digital close-ups. A brief history of the rifle's development is included, along with an overview of the wide variety of customizing parts and accessories available. Safety rules, and armorer's assembly tips from our 40 years of knowledge and experience with the AR15 rifle system will walk you safely through any maintenance or repair work. It's a "must-see" for any shooter, dealer or armorer.

Also available... The Bushmaster Video...

\$21.95 (ADS-001) All the live video instruction and rifle assembly information of the DVD above but in standard VHS Videocassette format - 60 minutes.

Bushmaster Operating & Safety Manual... \$2.95

(BFIMANA20P) 64 Pages Field Stripping; Cleaning, Maintenance on all Bushmaster XM15 and Carbon 15 Models - with Parts Diagrams, Safety Tips and Sight Zeroing.

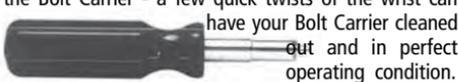

AR15/M16 Gas Tube Wrench... \$31.95

(MBC-01) This tool eases the installation or removal of the rifle's gas tube. 5 1/4" long with black plastic handle. Also fits works on AR10 / SR25 rifles.

Bolt Carrier Carbon Scraper... \$31.95

(MBC-02) A sturdy workbench tool for the AR15/M16 gunsmith. Makes quick work of cleaning out carbon buildup inside the Bolt Carrier - a few quick twists of the wrist can have your Bolt Carrier cleaned out and in perfect operating condition.

Field Bolt Carrier Carbon Scraper... \$20.95 (Part # BC01) This tool steel scraper quickly removes carbon buildup in all AR15/M16 bolt carriers. Just slide a section of cleaning rod into the hole in the end, insert in your carrier, and twist. And, it is small enough to fit into the buttstock storage compartment.

Firing Pin Protrusion Gauge...\$15.95 (MMT-0005) Checks firing pins for minimum (.028") and maximum (.036") protrusion. Excess pin protrusion can pierce the primer - causing the rifle to blow up. Insufficient protrusion results in rifle's failure to fire. Use this gauge to measure pin protrusion on AR15/M16 rifles or any center fire rifle.

Heavy Duty Combination AR-15 Armorer's Wrench... \$ 31.95 (Part# 1570) This tool combines many of the functions necessary for the AR15 / M16 Armorer. A two sided wrench at one end fits either multi-point or peg style barrel nuts on barrels up to 1" in diameter, and a breaker bar or torque wrench can fitted into the 1/2" square drive opening. The wrench's other end fits Telescock Locking Nuts, and a large flat screwdriver blade is also included for use on standard buttstock screws. Two other slots fit A1 and A2 birdcage flash hiders and receiver extensions. Heavy steel construction with a black/grey "hammered" paint finish.

Armorer's Barrel Wrench... (Part # RM-001)

\$11.95 For AR15/M16 barrel removal and installation. The original Gov't. issue tool in oiled paper wrap with 1/2" square drive opening for a torque wrench or breaker bar - also functions as flash suppressor and receiver extension wrench. Note: this wrench will not fit our DCM profile barrels.

Tele-Stock Wrench for new style (ribbed) stocks... \$6.50

(Part # 223-telewrench2) This economical tool will keep the locking nuts tight on newer type telestocks (fixed and collapsible). Three lugs accurately engage the indents on the lock nut, and an additional hole fits the end of the receiver extension tube for disassembly work. Stamped steel construction with vinyl coated handle.

Safety Block for AR-15/M16 Rifles and others... \$2.50

(Part # SBBFI) Molded orange plastic with Bushmaster name. Cone end inserts into the firing chamber - handle protrudes to indicate a safe firearm condition.

AR15/M16 Lower Receiver Safety Block... \$7.50

(SB16) This bright yellow safety block locks into the magazine well when the bolt is retracted and indicates a safe weapon. We use them regularly here at the Bushmaster factory!

BUSHMASTER GUNSMITHING...

Lower Receiver Vise Block... (Part # OM-006)
\$31.95 Clamp it in a vise, and it's magazine shape locks into the magazine well of any AR15-XM15-M16 lower receiver for assembly or maintenance work. Machined from high density polyethylene. Use in either normal or inverted positions - will not distort receiver or harm the finish.

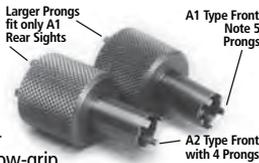

(Vise and Receiver shown are not included.)

Also available, a larger version for the Bushmaster .308... \$39.95 (OM-007)

Sight Adjustment Tools...

Adjustment tools for A1 & A2 Front Sights, and A1 Rear Sight. Machined steel with black oxide finish - designed to fit in the stow-grip or buttstock trapdoor compartment.

For A1 Rifles... (Round Sight Post) **\$8.50** (RAY-006)

For A2 Rifles... (Square Sight Post) **\$8.50** (RAY-005)

Gunslick® Ultra Gun Care Cleaning Kits...

Multi Caliber Cleaning Kits with highest quality components.

.30 - .32 Caliber model will keep your Bushmaster .308 - or any other .30 Cal. rifle clean and ready for the range.

Gunslick® Kits contain: 2.25 oz. of Ultra-Lube Advanced Gun Oil; 2 oz. of Ultra-Klenz Advanced Gun Cleaner; a quality, 3-piece Cleaning Rod of blackened steel with overmolded "soft grip" T-Handle; Phosphor Bronze Brush; Wool Mop; Cotton Patches; Cleaning Tip and Jag; and a Muzzle Guard. All these parts are packaged in a sturdy blue plastic, reusable storage box - everything you need for complete firearms care.

Dewey Coated Rods... Top quality rods featuring one-piece construction with an unbreakable ball bearing handle. 8-32 female threaded to accept standard brushes or other manufacturer's accessories. Includes a universal style brass patch loop. The rod's nylon coating protects rifling and preserves the barrel's accuracy.

Dewey 22CF-24" - for barrels to 20" - \$27.95 (Part# DEWEY-100)

Dewey 22CF-30" - for barrels to 24" - \$27.95 (Part# DEWEY-200)

Dewey 22CM-36" * - 8-32 male threaded w. adapter - \$28.95 (Part# DEWEY-22CM-36)

*Use Dewey 22CM-36" with a Breech Rod Guide in barrels 24" or longer.

Bushmaster Armorer's Action Clamp for all AR15/M16 type rifles... \$41.50 (OM-003) This new Armorer's Action Clamp is an improvement over earlier versions, and works with all models of AR type rifles (even early A1's), including the popular A3 "flat-top" Upper Receiver - even when its Carry Handle is in place! Used in conjunction with an Armorer's Barrel Wrench (available from our Catalog or Website), it eliminates barrel vise jaw blocks for removing or replacing barrel assemblies, and is necessary when installing tubular aluminum V Match handguards or competition free-floating tubes.

(Upper receiver is not included)

Now, also available for the larger Bushmaster .308... \$53.95 (OM-004)

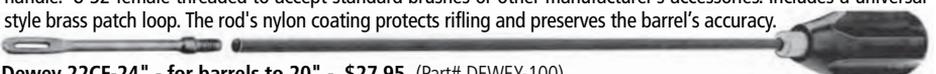

AR15 Multi-Tool... \$12.95 (Part # BT-MCT) This handy tool packs several "AR" related functions into a compact package lighter than 2 rounds of ammo. The Multi-Tool is a (1) front sight adjustment tool; (2) a bolt face cleaning tool (removes residue and powder fouling); (3) a disassembly punch (large one for the take down pin, the smaller for lower receiver pins - neither will mar the finish of your rifle); (4) a tool useful as a Phillips screwdriver or a scraper; and (5) it includes a Lanyard loop to tie it to your web gear or tool bag. The high carbon stainless steel insert is heat treated to Rockwell 48-50 for long life.

Gunslick® Ultra Gun Care .22 / .223 Cal. Cleaning Kit...
 (Part# 62008-223) **\$ 15.95**
 or...

Gunslick® Ultra Gun Care .308 Cal. Cleaning Kit...
 (Part# 62014-308) **\$ 15.95**

These quality kits are offered in either .22 Caliber or .30 - .32 Caliber versions. The .22 Caliber kit

BUSHMASTER GUNSMITHING...

(Part# DEWEY-30C-36) A 36" long, one piece, .30 Caliber, nylon coated rod - comes with a jag and brush adapter (12/28 male thread). A thick coating on the rod protects the bore from scratches and its ball bearing handle allows the rod to spin as it follows the rifling - ideal for the Bushmaster .308 or any other .30 caliber barrel.

Dewey .308 Cleaning Rod... \$28.95

Dewey Delrin Cleaning Rod Guides... Maintain the original accuracy of your rifle by protecting the all important muzzle of the barrel - use these guides with all types of cleaning rods. Dewey Delrin Guides direct your cleaning rod straight into the barrel and prevent it from contacting the muzzle - some models have brass inserts to guard against rod wear.

Models for: AR15/M16 Postban... (.700" diam. at muzzle)

\$9.95 (DEWEY-1100)

AR15/M16 PreBan... \$7.95 (DEWEY-300)

M1 Garand... \$7.95 (DEWEY-400)

M14 & M1A... \$7.95 (DEWEY-500)

Mini 14... \$7.95 (DEWEY-600)

Mini 30... \$7.95 (DEWEY-700) Also fits Bullpup

Ruger 10-22... \$7.95 (DEWEY-800)

Dewey AR15/M16 Breech Rod Guide...

\$23.95 (Part# DEWEY-1000) For all M-16s and AR-15s. Guides cleaning rod straight into the barrel from breech end. An O-Ring seal prevents oil and debris from coming back into the action (spare O-Rings and ring installation tool included). For barrels 24" and longer, we recommend using a 36" rod with this rod guide (see Dewey Rod Dewey-22CM-36 above).

Dewey .308 Breech Rod Guide... \$25.95

(Part# Dewey-AR-10) This guide replaces the bolt carrier in your Bushmaster .308 Rifle/Carbine and ensures that the cleaning rod will go straight into the bore without harming the chamber or throat. O-Rings seal off the chamber to prevent any back-flow of cleaning solvents and debris into the action, trigger and magazine areas. Spare O-Rings and a cone shaped aluminum tool for their installation are included. Rod guide construction is aluminum and black delrin plastic.

Otis Technology Gun Cleaning CD...

\$5.95 (2001) All the tips, techniques and information needed to keep any rifle, pistol, shotgun or blackpowder piece in perfectly functioning, spotless condition - compiled in a handy MiniDisc CD format. A full color printed brochure with highlights from the CD is included - both are packaged in a ziplock bag - "The Industry Guide to the Proper Care and Cleaning of Firearms"

Dewey Cleaning Rod Adaptor...\$3.25 (Part#

DEWEY-22-M-ADPT) A machined brass adaptor threaded (female 8-36 / male 8-32) to accept the military type cleaning brushes - allowing them to be used with Dewey and other commercial cleaning rods.

Otis Buttstock Stowage Cleaning Kit... \$46.95

(Part # 224-2)

A 16 pc. cleaning kit for the AR15/M16 packed in a wedge shaped Cordura pouch shaped to fit inside the rifle's buttstock

storage compartment - lifetime

guaranteed by Otis Technology. Includes Bore and Chamber Brushes, Memory-Flex Rod, Double End Brush, Slotted Patch Tip, Patches, NATO Adapter, Bore Light, Chamber Rod, T-Handle, CLP Solvent, and more.

Otis Tactical Cleaning System...

\$47.95 (Part # 750)

This premier 23 component weapons cleaning system cleans all rifles .177 to 50 caliber, shotguns .410 to 10 gauge, and pistols .177 to 45 caliber. It is packed into a zippered, round, black nylon soft-pak that measures only 4" diam. by 2" thick, and includes 5 brass bore brushes; 3 forged brass tips; 3 memory-flex rods; a t-handle; a shotgun adapter; all caliber patches and patch savers; 1/2 oz. bottle of bore solvent; a NATO adaptor for military brushes and a bore reflector/safety flag. A cleaning manual is included as well. Weighs approx. 9.3 oz.

BUSHMASTER GUNSMITHING...

Gov't. Issue M16 Cleaning Kit... \$10.50 (Part # A CLEAN) This complete kit includes a T-Handle; a 4 piece rod; swab holder; bore and chamber brushes. Will fit in the standard buttstock compartment of the AR15, XM15 or M16 rifle. All threading is the military 8-36.

Cleaning Kit Case... \$8.95 ea. New Gov't. Issue nylon cases with snaps and velcro closures. Available in **Black** (Part # PO303B), or **Olive Drab** (Part # PO3030D).

Cleaning Kit COMBO...

The 7 Piece Gov't. Issue Cleaning Kit shown above packed in the nylon Cleaning Case Kit. Specify Black or Olive Drab Case...

w. Black Case... \$16.95 (Part # cleankitB)
w. Olive Drab Case... \$16.95 (Part # cleankitOD)

AR15/M16 Handguard Removal Tool... \$21.95

(Part # HGD-Tool) This handy tool provides the leverage needed to compress the weld spring inside the delta ring, and eliminates the need for a second person to help remove AR15/M16 handguards. We use this tool frequently at the Bushmaster plant - manufactured from strong, powder coated, 1/4" round steel stock with protective vinyl coatings in all critical contact areas. Works equally well on both straight and tapered delta rings.

.223 Rem. / 5.56mm Caliber Chamber & Bore Brushes... High quality necessities for AR15/M16 maintenance and barrel cleaning...

Chamber Brush...

\$2.00 (BR-001)

Bore Brush...

\$1.60 (A190)

Threading is Military 8-36

TetraGun ProSmith™ Cleaning Rods...

These sturdy 3/16" diameter rods will fit the bore of everything from .22 rimfire and .223 on up to big bore magnums. Made from #416 heat-treated stainless steel, and Corvel M coated for maximum barrel protection, ProSmith™ rifle cleaning rods are equipped with a free-spinning Delrin handle with screw-on bushing and brass collar. These rifle rods may be used with most commonly available 8-32 thread brushes, jags and other cleaning tools. Order the Dewey adaptor above to use military (8-36) threaded brushes. Specify rod length...

TetraGun ProSmith™ Cleaning Rod - 29" Length... \$26.95 (920-C)

TetraGun ProSmith™ Cleaning Rod - 36" Length... \$27.95 (925-C)

The Bushmaster Gun Pad... \$9.95 (QP-014) It's a sturdy counter-top protector for gunsmithing assembly work and it doubles as a computer mouse pad. This big (18" x 12") brightly colored pad has crisp images representing the Bushmaster family of rifles and pistols. It's surface is laminated and the backing is soft, non-skid foam padding.

BIRCHWOOD CASEY

BIRCHWOOD CASEY HIGH QUALITY GUN REFINISHING PRODUCTS...

Birchwood Casey Super Black Touch-Up Pens... \$6.95 ea. Touch-up nicks, and scratches on black anodized aluminum, polished and matte finished alloy gun receivers, trigger guards, scopes or black painted surfaces - a fast drying, lead-free paint with superior adhesion and durability for gunsmithing uses. The felt tip chisel point touch-up pen holds 1/3 fl. oz.

For Gloss Black Finish... \$6.95 (Gloss - 15101) / **or For Flat Black Finish... \$6.95** (15102)

Birchwood Casey Aluminum Black Metal Finish... (15125) \$8.50 3 fl. oz. This room temperature chemical is used by gunsmiths and the metal industry to blacken aluminum parts and to restore scratched or marred areas quickly. A fast acting liquid, it's easy to apply, and makes no dimensional changes to the part. Final color will vary from deep gray to black depending on the alloy of the aluminum part it is applied to.

BUSHMASTER GUNSMITHING...

The Tetra Gun Cleaning Pack... \$23.50 (5337100802)

A superior firearms maintenance and preservation system based on a revolutionary breakthrough in synthetic polymer technology that will fight corrosion - reduce friction - reduce wear - improve performance - and make gun cleaning easier. **Tetra's Gun Cleaning Pack Contains...**

- **1 oz. Tetra Gun Lubricant:** A synthetic, polymer based lubricant and conditioner for action and all moving parts.
- **1 oz. Tetra Gun Grease:** Synthetic polymer based white grease for use on all metal to metal contact surfaces.
- **3.75 oz. Tetra Gun Spray:** Synthetic polymer based cleaner and light lubricant - removes dirt, combustion residue, old lubricants and solvents, and offers corrosion protection.
- **4 oz. Tetra Copper Solvent:** Concentrated copper, lead, powder, and plastic remover. Removes stubborn fouling from barrels and provides fast, effective cleaning without "barrel etching".

Tetra Field Kit... \$7.95 (TETRAFIELDKIT) All the necessities to keep your gun functioning on the range or in the field. Includes: 1 oz. tube Tetra Gun Grease and 1 oz. plastic bottle Tetra Gun Oil.

Tetra Gunsmith's Kit... \$31.95 (TETRAKIT) Professional quantities of high quality Tetra products: 2 - 1 oz. tubes of Tetra Gun Grease / 8 oz. Tetra Gun Oil / 8 oz. Tetra Gun Spray.

Tetra Gun Blue & Rust Remover... \$5.50 (5337100001) **3 fl. oz.** Removes old bluing and rust quickly and effectively without damage to base metal - a necessity before re-bluing or browning.

Tetra Gun Liquid Gun Blue... \$5.50 (5337100002) **2.7 fl. oz.** A great product for touch-up or complete re-bluing of firearms. This fast-acting cold liquid yields a non-streaky, uniform blue-black finish to steel (won't work on stainless steel, aluminum or nonferrous metals).

Tetra Gun Copper Solvent... \$8.50 (5337100501)

Removes stubborn fouling without "barrel etching". All-in-one copper, lead, powder and plastic remover in concentrated liquid form. 4 fl. oz. bottle.

Cleaning Patches... \$5.50 (Part # 923) **Bag of 100...** Sized for the AR15/M16 rifle bore, 100 soft white cotton flannel cleaning patches - a necessity for all firearms maintenance!

Individual Tetra Products...

Tetra Gun Grease...

BUSHMASTER A1 SIGHT PARTS...

A1 Rear Sight Parts... Highest quality Sight Parts for those who prefer the simplicity of the original A1 design.

A1 Rear Sight Assembly... \$12.95 (A1 RSITE ASSY) The original M16A1 configuration - adjustable with A1 sight tool or bullet tip.

A1 Windage Screw... \$3.15 (8448534)

A1 Windage Drum... \$3.15 (8448535)

Rear Sight Flat Blade Spring... \$.55 (8448536)

A1 Windage Drum Detent... \$.55 (8448537)

A1 Windage Drum Roll Pin... \$.55 (MS16562-96)

A1 Drum Detent Spring... \$.55 (8448538)

A1 Sight Aperture... \$6.50 (8448539)

A1 Round Front Sight Post...

\$3.95 (8448572)

Original M16A1 round post.

BUSHMASTER SIGHTS, SCOPES & MOUNTS...

See Pgs. 40/41 for complete Bushmaster Carbine Schematic Parts Diagram

Adjustment Knob for A1 Rear Sight... \$9.95 (LMT-001K) This knob converts the A1 rear sight to the latest M16A1E1 configuration. The phosphate finished steel knob is knurled for quick adjustment (no sight tool needed) and more precise half-click calibration. Knob only - use existing roll pin for changeover.

Complete A1 Rear Sight Assembly with our A1 Adjustment Knob... \$14.95 (A1-RSIGHT-KIT) Includes Knob; A1 Sight Aperture; A1 Windage Screw; Flat Spring; Ball; Spring and Roll Pin

A2 Square Front Sight Post... \$5.50 (9349056)
Standard M16A2 steel square post design.
See our Competition Section (Pg. 22) for Sight Posts in two competition widths to suit your eyesight.

A2 Front Sight Post for Flat-Top Colts \$5.50 (9349056-M) Colt A3 Removable Carry Handle Sights are taller than A1 & A2 Rear Sights, and require an .040" taller Front Sight Post. Also for use with Swan Sleeves & ARMS #40 sight.

KNS Precision Front Sights... Quality replacement front sights for the AR15/M16 offering .010 diam. crosshair wires for a precise sight picture and hooding for reduced glare. The Tactical Model Dual Range sight (right) offers an adjustable elevation dot for close range targets below the long range crosshairs. It adjusts with an Allen wrench, and includes a spare vertical crosshair.

Standard Model... \$39.95 (KNS1)
Wide Hood Model... \$37.95 (KNS2)
Tactical Model... \$52.95 (KNS3)

Williams Fire Sight for AR15/M16... \$42.50 (9349054FSB-WFS) This front sight design incorporates a light gathering element to improve the sight picture in low light situations (see the tubular piece that mounts along front edge of the AR sight base). The assembly is fully elevation adjustable, and all sight pieces are CNC machined of black finished aluminum. No drilling or tapping is required for installation on your front sight base.

Aluminum Scope Mount... \$21.95 (RAY-002) An anodized, machined aluminum, "see-thru" Picatinny rail mount (Weaver also) which allows use of existing iron sights. It attaches to the carry handle with a thumbnut.

Front Sight Replacement / Repair Parts...

Front Sight Detent... \$1.50 (8448573)
Front Sight Detent Spring... \$.85 (8448574)
Front Sight Taper Pin... \$1.00 (9349054BTP)

Complete Rear Sight Assembly for AR-15/M-16 Type Rifles... \$53.50 (AR A2 RSA) Latest M16A2 design with Dual Apertures and knob adjustment for elevation and windage. Dial in targets out to 800 Meters - in 100 Meter increments. Manganese Phosphate finished steel.

Also available, a complete 1/2 M.o.A.

Rear Sight Assembly for the A3 Removable Carry Handle... \$53.50 (Part # AR A3 RSA)

A2 Rear Sight Replacement/Repair Parts...

Rear Sight Elevation Index... \$7.50 (9349066)
Rear Sight Elevation Index Screw... \$1.00 (9349065)
Rear Sight Elevation Knob... \$6.50 (9349067)

Rear Sight Elev. Spring Pin... \$.55 (MS16562-121)
Rear Sight Helical Spring... \$.55 (9349069) [3 req'd]
Rear Sight Ball Bearing \$.55 (MS19060-4808) [3 req'd]
Rear Sight Windage Knob... \$6.50 (9349077)
Rear Sight Windage Screw... \$4.50 (9349076)
Rear Sight Windage Knob Pin... \$.55 (MS16562-98)
Rear Sight Flat Blade Spring... \$.55 (8448536)
Rear Sight Flip-up Aperture... \$8.50 (9349075)
Rear Sight Base... \$23.50 (9349074)

Trijicon Luminous Tritium Front Sight Post... \$57.95 (CP-25F) This AR type front sight post (shown right) is functionally identical to the standard front sight post and fits either A1 or A2 models and includes Sight Tool. Illumination from the Tritium insert is guaranteed for 10 years by Trijicon.

Trijicon Rear Sight Aperture... \$38.00 (CP-25R) This quick, effective ghost ring style flip-up aperture for the AR type rifle houses two Tritium inserts in the larger aperture. Illumination is guaranteed for 10 years.

Trijicon Tritium Sight Set... \$89.95 (CP-25) Both Front and Rear Sights as shown above, plus Front Sight Detent and A1/A2 Sight Adjustment Tool.

BUSHMASTER SIGHTS, SCOPES & MOUNTS...

**The Trijicon Advanced Combat Optical Gun Sight...
Trijicon A.C.O.G. for AR15/M16... \$975.00 (TA01)**

The finest optical design, 100% U.S. made components and Mil-C-14806A multi-layer coated glass elements make the ACOG the ultimate telescopic sight. Tritium elements cause the black daytime reticle in the ACOG 4x32 to glow red at night and in low light. A forged aircraft aluminum housing is precision machined and hard anodized to match the finish of the M16. The ACOG's unique internal adjustment system (only the prism housing moves) makes this the most rugged scope available – it will withstand exposure to temperature extremes, salt spray, fog, fungus, humidity, sand, dust, shock, vibration and aerospace seals make the ACOG waterproof. A see-through channel in the integral base permits use of the iron sights while the scope is mounted. Attachment to the rifle's carry handle is with one or (optionally) two screws. Trijicon ACOGs are adaptable to H&K; Sig 550; Beretta AR 70/90 with various A.R.M.S. adaptors. Dovetail adaptors for popular hunting/target rifles are available.

TA01 Reticle

Trijicon TA51 Mount for ACOG... \$84.95 (TA51) Knurled thumbnuts allow quick installation/removal on any mil. spec. Picatinny rail flat-top model. The ACOG Scope (above) mounts into the center channel with two screws - use Loctite to keep it from "shooting loose".

Trijicon Reflex Gun Sight for AR15/M16 with 4.3 Minute of Angle Sight Dot... Military evaluations have proved that "this sight is a winner" - a rugged system with no switches to turn off, or batteries to change. The fluorescent fiber optic system glows brightly during the day and varies in brightness automatically according to target area ambient light. The aiming dot is illuminated by light from the target area and from a tritium lamp, providing optimum target contrast at all times while eliminating the need for battery power. The reflex sight aids the human sense of balance while aiming with both eyes open. Hunters and competition shooters will also appreciate how quickly this sight puts you "on target". The AMBER aiming dot is far superior to traditional red dots because of the human eye's sensitivity to amber. The 4.3 MoA dot is small enough to avoid covering too much target at distances, but large enough for close range, quick target acquisition.

- **4.3 M.o.A. Dot Reflex Sight... \$428.95 (RX05-14)** with Amber Dot Reticle and Mount for Flat-top Receivers (shown above)
- **4.3 M.o.A. Dot Reflex Sight... \$472.50 (RX05-10)** with Amber Dot Reticle and Mount for A2 Carry Handle Receivers

Additional Trijicon Reflex Sight Models...

- **6.5 M.o.A. Reflex Sight... \$505.95 (RX01-10)** with Amber Dot Reticle and AR15/M16 Carry Handle Mount
- **6.5 M.o.A. Reflex Sight... \$484.95 (RX01-14)** with Amber Dot Reticle and AR15/M16 Flattop Mount
- **4.3 M.o.A. Reflex Sight for M4A1... \$495.00 (RX01NSN)** This sight is specifically designed for the M4A1 and supplied to U.S. Special Forces with Amber Dot Reticle, Flat-top Adaptor, Polarizing Filter, and Dust Cover.

Reflex Sight Accessories... Genuine Trijicon accessories - fit all Reflex models with sunshades (as shown above).

- **Polarizing Filter for Reflex... \$19.95 (RX20)**
- **Lens Dust Cover for Reflex... \$8.50 (RX21)**
- **Anti-Glare Filter for Reflex... \$44.95 (RX22)**

Trijicon ACOG TA01NSN Special Forces Sight... \$1115.00

(Part # TA01NSN) This Trijicon ACOG fits the AR15/M16 "flat-top" rifles and includes the TA51 Flat-top Mount shown here. ACOG is an acronym for Advanced Combat Optical Gunsight - and this one is the choice of many Special Forces groups. It has been designed to withstand shock, vibration, temperature extremes, water, dust, sand and hard surface drops. Unique modifications to this model include an integral rear ghost ring aperture and a tritium glow-in-the-dark front sight for close combat back-up sighting. This model's TA51 Mount also works with the Trijicon TA01, and is sold separately above.

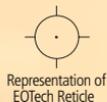

TA01NSN Reticle Representation

BUSHMASTER SIGHTS, SCOPES & MOUNTS...

The EOTech 510 HDS HOLOGraphic Diffraction Sight (HDS)... \$379.00 (EOT-510) ...is the first system to apply holographic technology to small arms. When used in Close Quarter Battle (CQB) environments, this revolutionary optic delivers amazing speed and accuracy gains, an uncompromised use of peripheral vision, and leaves no muzzle side operator signature. When the situation is critical, fast, accurate target acquisition can make the difference. The HDS delivers speed gains for the initial weapon presentation, in multiple target situations, and in conditions where either the operator or the threat(s) are moving rapidly. Engaging around physical barriers or in awkward shooting positions are now made with ease while ensuring rapid reticle to

target lock-on. The HDS locks onto the target as fast as your eyes do. The HDS has been designed and tested to provide consistent, reliable performance even in the most hostile operational environments. It is waterproof, fogproof, shockproof, and temperature proof. The Heads Up Display is constructed with a 3 layer, shatterproof laminate glass that is 3/16" thick for added durability. Additional protection of the Heads Up Display is provided with a rugged "roll bar" type hood. The HDS does not emit any muzzle side position revealing light signature - the projected reticle pattern is visible only to the operator. N Battery powered with a 1 M.o.A. aiming dot.

EOTech Model 552 HDS Sight... \$479.00 (Part # EOT-552)

EOTech's Model 552 Holographic Diffraction Sight (HDS) features the rugged quality of all their models, but incorporates the convenience of common AA battery power. In normal operation, there are 20 reticle brightness settings in either 4 or 8 hour auto-shutdown modes. With "heads-up display" technology adapted from F-14 Tomcat Fighters, the Holographic Diffraction Sight is the first electro-optic sighting system to apply holographic technology to small arms.

The Model 552 features a night vision mode capability which can only be used with night vision equipment such as ANSPV7 Goggles or ANSPV14 Night Vision Scope/Goggle (must be used with night vision equipment to achieve full Night Vision Mode compatibility - but can be used as a normal holographic sight). With this system, 1 M.o.A. groupings can be achieved out to 300 yards. Windage and Elevation can be adjusted in 1/4 M.o.A. increments.

EOTech uses state of the art digital electronics design, and is waterproof, fog proof and shockproof. Twenty brightness levels ensure proper brightness control in either low light or bright sunlight. A microprocessor provides automatic battery check indicator, up/down brightness scrolling and programmable auto shut down features. All electronics are encapsulated in shock absorbing resin compound, and the HDS has been extensively tested on recoil simulators. The sight's tubeless design provides an unobstructed field of view for two-eyes-open shooting. Simply look through the 1/4" thick shatterproof laminate window, place the reticle image on the target and shoot. 1 M.o.A. aiming dot reticle patterns are instantly visible in even the lowest light, instinctive to center regardless of the shooting angle or position, and remain in view between shots. Additionally, anti-glare coatings on the optical surface eliminate any muzzle side reflective signature, and a rugged "roll-bar" hood protects the display. The EOTech HDS will mount to any Picatinny configuration rail.

Bennie Cooley Co-Witnessing Adjustable Mount...

\$165.00 (Part # EOT-12)

Absolute Co-Witness in EOTech Window

Co-Witness in Lower 25%

This sight mounting platform for the AR15/M16 is hailed as the most versatile

co-witnessing mounting system made. It is vertically adjustable for easy alignment and custom fitting of any red dot optic (EOTech Holographic, Trijicon Reflex, Aimpoint Comp or others) in relation to the iron sights of the rifle or carbine. It mounts into the A2 Carry Handle with a large hex-head nut/threaded post, and height adjustments are made to the Picatinny front rail with 8/32 button head retaining screws and the supplied 3/32 Allen wrench.

BUSHMASTER SIGHTS, SCOPES & MOUNTS...

Leatherwood M-600 3-9x40mm Computer A.R.T. (Automatic Ranging & Trajectory) Riflescope for 5.56mm/.223 Rem. Caliber... \$389.00 (LW-40)

These scopes were developed during the Vietnam war, and are improved and in use in Iraq today. With the "Computer" design, the shooter doesn't need training in range estimation or correction - only the skills to make well aimed shots. By zooming the scope and framing a target of known size in the reticle pattern, the rifle is automatically set for the range to the target. Then the shooter just holds "dead-on", and the automatic calibration built into the Leatherwood Computer ART Scope does the work! The M-600 3-9 x40mm will "Auto-Range" from 200 to 600 meters. Optics are bright and precise, "Computer" controls zoom smoothly from 3 to 9 power, and flip-up dust covers offer lens protection. Aircraft aluminum construction, top quality optical glass, clear control knob increment markings, a non reflective finish, and integral ring/Picatinny mounting clamp make this a complete sighting system.

Leatherwood M-1200 6-24x50mm Computer ART Riflescope for .308 - .50 BMG... \$619.00 (LW-50)

This Scope - for .308 to .50 BMG Calibers - offers "Auto-Ranging" capabilities for ranges from 300 to 1200 meters (a shorter 200 meter range setting is also provided). This scope allows the shooter to adjust the scope for long range, and still have all the internal adjustment for initial zero and fine adjustment. Zoom power is 6x to 24x with a 50mm adjustable objective, and the reticle is a "No-Math" Mil Dot configuration. All air to glass surfaces are fully multi-coated to give a brilliant high resolution image, and adjustments are covered tactical type with 1/8 minute clicks. The scope is shown above mounted on a Bushmaster .308 rifle. This complete sighting system includes rings and a clamp-on flat-top mount that will fit both Picatinny and Weaver rails.

Leatherwood Hi-Lux 30mm Red Dot Sight... \$83.95 (LW-RD30)

This compact Red Dot Sight for 5.56mm / .223 Rem. Caliber, and other Picatinny or Weaver Rail applications, was designed to offer quick target acquisition, and easy "two eyes open" shooting. After zeroing in the sight, just place the red dot on your target, and you're ready. The non-magnifying Leatherwood Hi-Lux 30mm Red Dot features a 1 M.o.A. Dot, highest quality optical glass, elevation and windage adjustments, heavy aircraft aluminum construction, and a matte black non-reflective finish. The brightness of the red sighting dot

is controlled by an 11 position rheostat on the top of the sight with clearly marked increments on the control knob. That large knob also serves as the battery case - holding one long-lasting 3 Volt Type ECR2032 lithium battery. Ribbed rubber rings protect the sight body against knocks and drops, and mounting on your rifle's Picatinny/Weaver rail is made simple with the two knurled thumbnuts on the sight's integral base. The Leatherwood 30mm Red Dot is fully waterproof, shockproof and backed by a Limited Lifetime Warranty.

Leatherwood Hi-Lux 50mm Red Dot Rifle Sight... \$105.95 (LW-RD) The larger Leatherwood Red Dot Sight offers a 50mm viewing area with an 88 foot Field of View at 100 yards. It includes an integral Picatinny type rail mount with large thumb screw clamp nuts to make installation/removal easy and offers excellent repeat zero. The 1

M.o.A. red dot system is powered by a readily available ECR2032 lithium battery (included). Dot brightness is controlled by a twelve step rotating switch - windage and elevation adjustments are built in as well, and covered by protective caps. Construction is of robust aluminum throughout with high quality, fully coated optical glass protected by ribbed rubber edge guards front and rear. The Leatherwood 50mm Red Dot Sight is shown here on a Bushmaster .223 flat-top rifle, but is adaptable to many other firearms as well.

BUSHMASTER SIGHTS, SCOPES & MOUNTS...

Leatherwood Computer A.R.T. Scopes Instructional Video... \$10.95 (LTAPE)

Describes features and operation of the Automatic Ranging and Trajectory Computer Riflescopes. Sighting-in instructions and recommendations are included.

Leatherwood Riser Blocks for Picatinny

Rail Flat-tops... \$13.95 each (LW-RB) These black anodized aluminum mounts clamp onto Picatinny configuration rails to offer the extra height necessary to achieve a proper sight picture and comfortable cheek weld on the buttstock when using scopes with the AR type rifle. They attach with Allen Head screws, and two risers are required for most mounting applications (one for each ring).

The I.O.R. Bucuresti 4 x 24mm M2 .223 Tactical Model... \$387.95 (IOR-B-4x24-M2) I.O.R. Bucuresti is one of Europe's oldest and largest optical factories. Versions of this scope have been in military service for over 30 years - all made to strictest military standards. It has a bullet drop compensated cam calibrated for the .223 cal. 62 grain projectile in ranges from 200 to 800 meters. For low light shooting, the seven stage battery powered reticle will assist target acquisition as it glows red. Batteries are the readily available 2032 3V Lithium type.

The I.O.R. M2 .223 Tactical model features:

- a battery illuminated NATO Style Range-finding Reticle; an adjustable diopter; 30mm tube diameter; and a 29' field of view at 100 yards.
- a Carl Zeiss developed T3 lens coating system, with full multi-coating and anti-reflection treatment to eliminate glare and maximize light transmission
- "0" ring sealed 6061 T6 Mil. Spec. alloy housings
- Superior optical glass by Schott Glasswerk of Germany
- Nitrogen Filled / Waterproof / Fogproof / Shockproof

Representation of I.O.R.'s NATO Style Range-finding Reticle

I.O.R. Bucuresti 4x24mm M1 Tactical Rifle Scope for .308... \$399.00 (IOR-B-4x24-M1) This I.O.R. Scope has a bullet drop compensated cam calibrated for the .308 cal. 168 grain projectile in ranges from 100 to 1000 meters. The lenses are superb quality Schott glass, and the NATO style ranging reticle is illuminated (red, 7 stage switch) for low light use. Battery power is from the commonly available #2032 3V Lithium type (one included). It is water-proof, fog-proof and recoil-proof, and features an adjustable diopter; 30mm tube diameter; and a 29' field of view at 100 yards. This scope is dry nitrogen filled, and able to operate in any weather conditions from -40° to +140°. Length - 10"; weight - 14 oz.; includes a protective rubber front cap. Rings are not included - we recommend High, 30mm Q. D. types from I.O.R. or A.R.M.S. - available in this catalog.

I.O.R. NATO Reticle Representation for 4 x 24 M1

Rings not included with this scope.

I.O.R. Bucuresti Quick Detach Rings... Mount these fine I.O.R. scopes with matching I.O.R. 30mm heavy steel scope mount rings. Available in either medium or high versions, they feature sturdy quick-detach levers and four clamping screws on each ring assure a rigid mount with removability and a guaranteed return to zero. The High Ring Set (pictured here) is designed for the A3 type flat-top upper receivers.

- **I.O.R. Bucuresti Quick Detach Rings... Medium Height (1/2" rise) \$85.95 / pair (IOR-B-QD-Ring-Me)**
- **I.O.R. Bucuresti Quick Detach Rings... High (3/4" rise) \$99.95 / pair (IOR-B-QD-Ring-Hi)**
- **I.O.R. Bucuresti Ring Inserts...** (Not Pictured) Precision machined steel inserts for mounting 1" scopes in the 30mm ring sets shown. ...per set of 4... \$21.95 (IOR-B-1in-Insert)

Simmons AETEC Master Series 2.8 - 10 x 44mm Scope... \$189.95

(Part # 2101) The aspherical lens system found on this quality scope was first used on expensive binoculars and cameras. Simmons has adapted this technology to the rugged

AETEC scope - allowing a wide field of view with a completely flat image and edges that are as bright as the center. The Master Series AETEC 2.8 - 10 x 44 mm Scope offers longer eye relief than conventional wide angle systems and features a fully multi-coated lens system and 1/4 min. adjustments. True one piece tube construction is utilized - meaning the entire scope is machined - from premium grade aluminum - as a single unit from end to end. It is waterproof, fog proof and weatherproof, has Suregrip™ rubber coated adjusting knobs, and Hydroshield™ water and condensation resistant lens coatings.

Aetec Reticle Representation

BUSHMASTER SIGHTS, SCOPES & MOUNTS...

Mark Brown Custom CQB-A3 Mount... \$209.95 (MBC-03) For any "flat-top" or V Match Upper, this mount incorporates a standard A2 rear sight (adjustable for windage and elevation). It is designed for most red dot type sights of 30-50mm tube diameter. Machined from aluminum alloy with a black anodize finish - steel sight parts are manganese phosphate finished. **Note: The EOtech and Trijicon Reflex Sight are too tall to work with this mount.**

Kwik-Site See-Thru Scope Mount and Scope Ring Set... \$53.95 (KSN-M16) For A1 or A2 rifles with the solid carry handle, this mount features a wide see-thru channel to enable the use of existing open sights. Mounts to the handle with a large thumbnut.

A pair of 1" (internal diam.) horizontally split scope rings is included with this set.

Aluminum Scope Ring Sets... \$15.95 per pair Top quality, matte black finished ring sets to fit any Picatinny rail. U.S.A. made - heat treated aluminum with 8-32 socket head screws in 1" Low, Med. or High Profile horizontally split design. 30mm style is vertically split. Wrench included with each set. **Specify:**

1" Low (W-20524) / **1" Medium** (W-20515)

1" High (W-20525) / **30mm Medium** (W-20513)

Snap-on Forearm Light Mount \$31.95 (HPM3) This heavy plastic base (shown installed and separately) snaps onto AR-15/M16 Rifle Forends (won't fit the CAR handguards). Detents grip the forend vent holes for a firm mount. On its side is a rail segment designed to accept the Streamlight M Series Flashlights (see Streamlight M-5 and M-6 on Pg. 55 of this catalog).

M203 Grenade Launcher

Quadrant Sights for A2 & A3 Type Rifles... These are Government Issue Quadrant Sights for the M203 Grenade Launcher. Sights include a Flip-out Post & Aperture System, combined with an elevating scale set in 25 meter increments from 50m to 400m. There are models for both the A2 Solid Carry Handle rifles and carbines, and the A3 Removable Carry Handle type (they are not interchangeable).

For A3 Removable Handle Rifles... \$105.50 (Part # 12598114)

For A2 Solid Carry Handle Rifles... \$ 81.95 (Part # 9346304)

First Samco Tactical Light Mounts...

These mounts will accept 1" or 15/16" diameter flashlights and hold them solidly onto your rifle or carbine with an internal rubberized pad-clamp. It slides onto the First Samco M33 Handguard rail (see Page 54 in this catalog - or any Picatinny type rail - and locks in place with a rugged push button mechanism. Molded of high density black polymer.

• **First Samco 15/16" Tactical Light Mount... \$31.95** (FBS-FAS-3) For Streamlight Scorpion and other 15/16" diameter flashlights.

• **First Samco 1" Tactical Light Mount... \$31.95** (FBS-FAS-2) For Surefire & other 1" diameter tactical flashlights.

A.R.M.S. SIGHTS, SCOPES & MOUNTS...

A.R.M.S. #39A2 Bi-Level Rail... \$148.95 (ARMS 39) Mounts to M16A1 & A2 Carry Handle for multiple combinations of attachments, and provides rigid support of the dovetail platform that is extended over the handguards. A "brush breaker" on the front will prevent branches from snagging under the rail, and a "see-thru" channel in the #39A2 Upper Rail allows the use of existing iron sights.

Note: This Rail System will not mount on the A3 Removable Carry Handle.

See the A.R.M.S. S.I.R. System in the Handguards Section of this catalog - Page 56.

A.R.M.S. SIGHTS, SCOPES & MOUNTS... See the A.R.M.S. S.I.R. System in our Handguards Section.

A.R.M.S. #2 Scope Mount for M16A1/A2... \$68.95 (5855-01-299-777) An excellent handle mount type scope platform for the AR15/M16 rifles featuring the Swan universal mounting platform which accepts most all current military and police sighting systems, including NATO Stanag and Weaver type rails, without the need for adaptors. Other features include: see-thru channel for iron sight use; fast positioning with fixed toggle bolt; self-locking thumbnut - will not loosen; repeatable zero hold.

A.R.M.S. #5 MultiBase... \$68.95 (ARMS 5) A quick detach, multiple eye relief mount featuring a spring loaded clamping bar and NATO Stanag & Weaver rail fastening. Easily mounts to Picatinny/Weaver type rail or flat top receiver with locking, captivated thumbnuts.

A.R.M.S. #19 Weaver/Stanag Throw Lever Mount... \$159.95 (ARMS 19) Mount scopes, sights, etc. directly onto the A3 flat-top receiver with guaranteed repeat zero or, with an ARMS#2 carry handle mount, interfaces to M16A1/A2/M4.

A.R.M.S. #19A Throw Lever Channel Mount for ACOG Sights... \$170.00 (ARMS 19 A) The "channel" mounts Trijicon ACOG Scopes to mil. spec. Picatinny/Weaver rails with convenient A.R.M.S. repeat zero throw lever (positioned on left side so as not to obstruct the rifle's ejection port).

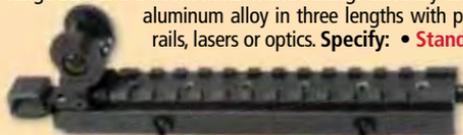

A.R.M.S. #40L Low Profile Flip-Up Rear Sight... \$119.95 (ARMS 40L) A design improvement on the ARMS #40 below, this sight achieves a super low profile (.610 height when folded) and uses the same rugged lock down quick release lever and "no knockdown" stainless steel retention spring. A unique "sandwiched" dual aperture flip-up combines a stationary close combat aperture and a 300 meter long distance accuracy aperture. The automatic zero stainless steel retention plate and clamping bar/pin won't rust, other parts are matte black finished. This sight includes a newly designed, miniaturized windage adjustment knob, will fit any mil. spec. flat-top Picatinny rail, and is as robust as the rest of the ARMS #40 series. It carries U.S. Pat. No. 5,533,292. **Note:** This sight is designed to work in conjunction with the A.R.M.S. SIR System forends shown on Page 56. Due to the aperture height on this sight, you should order the .040 taller Front Sight Post on Page 65 of this catalog (Part # 9349056-M).

A.R.M.S. #40 Standard A2 Flip-Up Rear Sight... \$116.95 (ARMS 40) Similar to the sight on the Swan Sleeve system below, this U.S. Patented sight locks down with a quick release lever when not in use (shown in both deployed and lock-down positions). Its flip-up combines a 250-300 meter close combat aperture and a 500-600 meter aperture with a horizon line feature that helps lead distant targets. The automatic zero stainless steel retention plate and clamping bar/pin won't rust, all other parts are matte black finished - fits any mil. spec. flat-top Picatinny rail. The newest design of this sight includes a non-protruding, flatter windage adjustment knob. **Note:** This sight is designed to work in conjunction with the A.R.M.S. SIR System forends shown on Page 56. Due to the aperture height on this sight, you should order the .040 taller Front Sight Post shown on Page 65 (Part # 9349056-M).

A.R.M.S. Swan Sleeve... This rail sleeve with Integral Flip-Up Rear Sight provides a platform for various scope/sight mounts via the A.R.M.S. standard mil. spec. dovetail rail system. The spring loaded flip-up rear sight (shown "up") aligns with standard existing front sights but requires the taller (.040) front sight post - see Pg. 65). Except when locked down, the rear sight stays in battery, and provides windage adjustment with standard 250-300m range zero and a 500m horizon line setting. Currently used by U. S. Armed Forces, Swan Sleeves are strong, anodized aluminum alloy in three lengths with provisions to accept a wide variety of additional attachment rails, lasers or optics. **Specify:**

- **Standard Receiver Length...** (shown) **\$159.50** (ARMS 38std)
- **Extended Length (8.46")...** **\$175.50** (ARMS 38ex)
- **Super Extended Length (14" - includes "brush breaker")...** **\$190.00** (ARMS 38s-ex)

A.R.M.S. #22 Throw Lever Rings... \$123.50 per pair Patented 30mm steel rings secured with A.R.M.S. dovetail system to an extruded aluminum platform. "No-Mar" pads protect the rail and spring loaded levers act as shock absorbers - guaranteed repeat zero hold. Available in three heights: **Low - 1/4" rise** (ARMS 22L) / **Medium - 1/2" rise** (ARMS 22M) / **High - 3/4" rise** (ARMS 22H)

A.R.M.S. #37 Ring Inserts \$29.00 (ARMS 37) Steel inserts that allow use of 1" diameter scopes within 30mm ring sets.

BUSHMASTER MODULAR ACCESSORIES SYSTEM (B.M.A.S.)...

B.M.A.S. is a complete selection of quality accessories specifically designed to enhance the performance and versatility of your Bushmaster (or other brand) AR15 type Rifle or Carbine. They're all manufactured from superior materials to the tightest tolerances and quality standards - and in most cases, they can be easily installed with simple hand tools. Get into the "System", and get the most from your Bushmaster!

Bushmaster Modular Accessories System (B.M.A.S.) Front Flip Sight for V Match Rifles and Carbines... \$106.50

(Part # YHM-9360K) A high quality front sight that clamps around the V Match milled sight base/gas block - designed to be used with any open iron rear sight. This patent pending Front Flip Sight is machined from aircraft aluminum with an anodized finish, installs with an Allen wrench, locks up or down with a push button and is elevation adjustable. A standard front sight post is included, and the base is drilled and tapped for our B.M.A.S. Sling Swivel Stud (see YHM-9364 below). Sight shown installed at left, complete and deployed at right.

B.M.A.S. Flip Sight Sling Swivel Stud... \$4.95

(YHM-9364) Threaded 3/8 x 24 to fit the B.M.A.S. V Match Front Flip Sight above - accepts any quick detach type sling swivel like our KNS-4 on Pg. 58.

Bushmaster Modular Accessories System Detachable Front Flip Sight and Three-Rail Gas Block... \$127.95

(Part # YHM-9370K) The B.M.A.S. Detachable Front Flip Sight (patent pending) is designed to clamp snugly on the gas block's top Picatinny rail with a pair of socket head screws for repeat zero every time. Machined from aircraft aluminum billet, it locks up or flips down at the touch of a button. A standard A2 front sight post with spring and detent locking system offers elevation zeroing just as with the original M16A2 sight system.

The B.M.A.S. 3-Rail Gas Block can be ordered on new barrels as a factory installed option, or we can factory retrofit existing sight bases on .750" diameter barrels. It's three rails are in standard Picatinny configuration to allow addition of flashlight or laser as side mounted accessories. The B.M.A.S. Three Rail Block is precision milled from alloy steel; finished in black manganese phosphate; and drilled and tapped on the bottom for the addition of a sling swivel stud (Note: this stud is not intended as a bipod mount).

- B.M.A.S. Detachable Front Flip-up Sight only...\$77.50 (Part # YHM-9371K)
- B.M.A.S. 3-Rail Gas Block only...\$56.50 (Part # YHM-9370)
- Front Flip-up Sight/Three-Rail Gas Block SET... \$127.95 (Part # YHM-9370K)

B.M.A.S. Folding Front Sight/Gas Block... \$94.95

(Part # YHM-9394) This Gas Block/folding Front Sight Combination is all steel construction, easily actuated with the push of a button, and locks in the deployed position. It includes a standard AR front sight post, detent and detent spring, and is the same weight as a standard AR sight tower. The sight's split design allows it to be mounted onto barrels that already have pinned or welded muzzle brakes or suppressors. It attaches easily with 4 cap screws (use of Loctite is recommended), and includes a Bayonet Lug and Sling Loop. All pieces are Manganese Phosphate finished for protection against corrosion.

Shown flipped up in the foreground and folded in the shadowed image. This unit fits all standard AR-15 type barrels with a .750" diameter at Gas Port.

B.M.A.S. Low Profile Clamp-on Front Sight... \$78.95

(Part # YHM-9584K) A low profile design Front Sight of quality alloy steel that folds flat at the touch of its side button to allow clearance for any large bell scope you might choose to mount. It flips up to lock in the deployed position with zero repeatability, and includes a standard, AR Front Sight Post and Detent System. Black phosphate finished - made in USA.

B.M.A.S. Fixed Clamp-on Front Sight... \$50.50

(Part # YHM-9495K) A standard height, fixed style front sight, this unit adds the convenience of a quick detach knurled thumbnut and clamping bar for easy removal. Returns to zero upon reattachment and includes standard AR Front Sight Post and Detent System - adjustable for elevation.

BUSHMASTER MODULAR ACCESSORIES SYSTEM...

B.M.A.S. Handguard Mounted Flip-up Sight... \$76.50 (Part # YHM-9627)

The Bushmaster Modular Accessories System solution to a handguard mounted back-up iron sight is this low profile, front flip-up unit. It attaches to any forend Picatinny rail, and folds down out of line of sight at the push of a button. It locks up in a deployed position, and mounts easily with a large knurled thumbscrew. Low profile, durable and lightweight all steel construction - manganese phosphate finished - includes AR square post, detent and spring - elevation adjustable.

B.M.A.S. Clamp-on Rear Flip-Up Sight... \$79.95

(YHM-9440) An aircraft grade aluminum, flip-up auxiliary sight featuring dual apertures, 1/2 M.o.A. windage adjustment, black anodized finish, convenient right hand adjustment knob and full height sight apertures. Height when folded is 1/8" lower than similar designs.

B.M.A.S. Flat-Top Fixed Rear Sight... \$95.95

(YHM-643K) This AR15 type fixed Iron Sight offers the option of mounting optics further forward on the flat-top rail. The sight's base is a heavy, black anodized aluminum block - other parts are steel. Windage and elevation adjustments are 1/2 M.o.A.

B.M.A.S. Low Profile Rear Flip Sight... \$95.95 (Part

YHM-9680) Bushmaster's flip-up rear sight for AR15 type Flat-top Receivers features a steel base, a quick release thumb screw, and an aluminum stem. This sight locks up (deployed position) with the push of a button, and folds down to .840 inches above the upper receiver. Windage adjustment is 1/2 M.o.A., and a standard dual aperture rear peep is fitted. Mounts to any Picatinny rail and will "co-witness" with standard AR15, M16 and M4 type front sights. Once sighted-in on your rifle, it can be removed and reattached with no loss of "zero" - also fits behind the A.R.M.S. S.I.R. System forends.

Bushmaster A3 Type Removable Carry Handle with 1/2 M.o.A. Rear Sight... \$116.95

(9349063-9) Add versatility to your "flat-top" - the Bushmaster Carry Handle clamps solidly onto the Picatinny Rail of any V Match or "Flat-top" Upper Receiver with two knurled thumbnuts, and includes an A2 Dual Aperture Rear Sight with 1/2 M.o.A. windage and elevation adjustment. Machined from aircraft aluminum forging, with steel sight and clamp parts.

B.M.A.S. Integral Flat-top Forend...

A Flat-top Forend System designed to fit the A3 type "flat-top" rifles or carbines - mounts using a replacement barrel nut (included - major disassembly of rifle required). With the new barrel nut in place and aligned for the gas

tube, the Forend slides onto the A3 Upper's rail, then locking screws and a "locking block" clamp it firmly in place. This system free-floats the barrel, and features a sling mounting plate with swivel stud. Machined from aircraft aluminum, finished in matte black hard anodized, and vented to keep weight down and barrel

heat to a minimum. The Low Profile Rear Flip-up Sight (YHM-9680 above) fits behind this unit on the A3 Upper.

For Rifles: (Part # P-12) \$292.95 / For Carbines: (Part # P-4) \$250.00

BUSHMASTER MODULAR ACCESSORIES SYSTEM...

Rifle Length

B.M.A.S. 4 Rail Split Handguards...

Carbine Length - \$191.50 (YHM-9670)

Rifle Length - \$212.95 (YHM-9803)

The "split" design of these B.M.A.S. Handguard Sets allows quick and easy installation of a Picatinny configuration 4-Rail accessory system on most AR type Rifles (**Note: will not fit our DCM rifle or .308**). Machined of quality aircraft aluminum, they snap right in place of standard carbine or rifle handguards, and offer four full length rails for the flashlight/laser sight accessories of your choice. Rails are positioned at 12 - 3 - 6 - 9 o'clock, and the top handguard can be used in conjunction with an M203 Grenade Launcher. They're vented to keep your barrel cool, finished in mil. spec. matte black anodize to eliminate glare and protect against corrosion.

Carbine Length

B.M.A.S. Four Rail Free Floater Forearms for Rifle and Carbine...

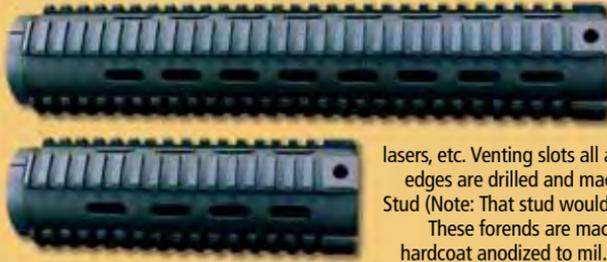

Four solid Picatinny rails machined into these free floater forends offer your AR type firearm unlimited mounting options for sights, scopes, grips, lights,

lasers, etc. Venting slots all around aid in barrel cooling, and rail front edges are drilled and machined to accept the B.M.A.S. Swivel Sling Stud (**Note: That stud would not function as a bipod mounting point**).

These forends are machined from aircraft quality aluminum and hardcoat anodized to mil. specs. The rifle model fits 20" and longer barrels; the carbine version is designed for 16" barrels. Assemblies include forearm, barrel nut and jam nut.

Note: Barrel disassembly is required for installation.

Four Rail Rifle Forearm ... \$169.95 (YHM-9480) / **Four Rail Carbine Forearm... \$148.95** (YHM-9479)

B.M.A.S. Handguard Rails... Add an accessory mounting point to any standard Rifle or Carbine handguard with these Picatinny configuration Rails. Mounting requires removal of the handguard and inner shield - they screw through the existing vent holes. The anodized aluminum Rails are tapered so that mounted accessories will be

on a level plane with barrel and bore, and they are vented to align with existing handguard vents for proper barrel cooling.

The Car Length Rail will fit on a Rifle length handguard if desired. As handguards have the possibility of movement, we do not recommend installation of optics or lasers on these rails.

B.M.A.S. Rail for Rifle Handguard... \$60.50 (YHM-Hgd-Rail-Rif)

B.M.A.S. Rail for CAR Handguard... \$40.50 (YHM-Hgd-Rail-CAR)

Handguards not included.

B.M.A.S. Rail Extension... \$36.95 (YHM-9474) This 5" rail extension attaches to any flat-top upper receiver to raise and forward mount a variety of optics. Extension's height is the same (1/2") as our B.M.A.S. scope risers (next page). Shown at right on flat-top, and separately, it is precision machined of aircraft aluminum with a hard anodize finish.

B.M.A.S. Quick Detach Rail Extensions - Available in 4" - 7" - 11.25" Lengths... These precision machined Rail Extensions - in standard Picatinny rail dimensions - mount on all AR15/M16 flat-top Upper Receivers to elevate the scope/optic mounting surface approx. 1/2". The two longer lengths can join and solidify the Upper Receiver to any Four Rail Forend offering the extra mounting surface length necessary for very large/long scopes or "scout-style" mounting. All 3 Rails offers the convenience of quick detach/reattach with knurled thumbnuts. Anodize finished machined aluminum with phosphated steel thumbscrews and clamping bars.

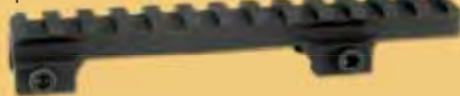

- **4" Q. D. Rail Extension... \$39.95** (YHM-9595)
- **7" Q. D. Rail Extension... \$62.95** (YHM-9592)
- **11.25" Q. D. Rail Extension... \$86.95** (YHM-9590)

7" B.M.A.S. Quick Detach Rail Extension

BUSHMASTER MODULAR ACCESSORIES SYSTEM...

Bushmaster Modular Accessory System Scope Riser... \$31.95 (Part # YHM-227A) This Riser / Rail Segment will solve the problems of scope movement or rocking that might be encountered with individual riser sections. A 5.25" Rail Section in standard Picatinny configuration will mount on any Flat-top Upper to raise the platform 1/2". Perfect on varmint rifles – accepts most types of scopes, red dot sights, and other optics. Machined from aircraft quality aluminum and hardcoat anodized to military specifications.

B.M.A.S. Multi-Rail Flat-top Riser... \$116.50 (YHM-9492) This riser for the AR-15 flat-tops clamps onto the Receiver's rail to allow see-thru use of existing iron sights while offering multiple rail platforms for optics, lights, lasers, etc. It includes threaded holes for a sling mount studs on either side, and is machined of aircraft aluminum with a hard anodize finish.

A.
1 1/4"
Length

B.M.A.S. Scope Risers... Increase scope mounting height on flat-top style AR's by 1/2 inch to achieve proper cheek weld (two Risers are required - one for each scope ring). Hard anodized aircraft aluminum, they fit all Picatinny/Weaver base dovetails.

A. 1 1/4" Length... \$15.95 ea. (Part # YHM-226) / **B. 3/4" Length... \$13.50 ea.** (Part # YHM-9490)

B.M.A.S. Angled Accessory Mounts... These handy mounts allow attachment of various accessories at a 45° angle on any "flat-top" Upper Receiver, or any multi-rail (Picatinny or Weaver type) forend. They are useful for flashlights or laser aiming devices, or with a pair, you could mount a scope in an "offset" position and still retain use of iron sights. Three different lengths are available: a "One Slot" type (3/4" length); "Three Slot" type (1 3/8" length); and "Five Slot" type (2 1/8" length). Machined from aircraft quality aluminum and finished in a matte black hard anodize, all attach to your rail surface with socket head screws.

One Slot Mount (A)... \$16.50 (YHM-9486A)

Three Slot Mount (B)... \$26.50 (YHM-9690A)

Five Slot Mount (C)... \$30.95 (YHM-9691A)

B.M.A.S. Front Sling Mount & Accessory Rail... \$78.50 (Part # YHM-9574) Designed to clamp into the standard AR Front Sight, this mount combines a sling stud and Picatinny rail section for attachment of flashlight or laser accessories. Two discs fit into the sight, lock together with Allen head screws, then the rail screws into those and is oriented by means of the large knurled nut. Anodized aluminum with steel screws and stud.

Two discs fit into the sight, lock together with Allen head screws, then the rail screws into those and is oriented by means of the large knurled nut. Anodized aluminum with steel screws and stud.

Shown installed and separately.

B.M.A.S. Triple Mount Rail Kit... \$84.95 (YHM-639K)

Designed to fit both Post & Pre-Ban barrels (with bayonet lug), there are inserts included with this kit that allow fitting to either .720" diam. (20"/24") or .740" diam. (14.5"/16") barrels. This triple mount will accept all Picatinny/Weaver base attachments, and is machined from solid, black anodized, aircraft aluminum with Allen head clamping screws.

B.M.A.S. SuperLight Barrel Bushings... \$13.95 (YHM-640-4) This set of steel bushings fit the thinner Bushmaster SuperLight Barrels - order in addition to Triple Mount Kit above.

BUSHMASTER MODULAR ACCESSORIES SYSTEM...

B.M.A.S. Bipod Adapter \$31.95 (Part # YHM-638) This attachment will adapt Harris (or other) bipods to the B.M.A.S. Triple Mount described on the previous page. Aircraft aluminum - black anodized to mil. spec. - with steel bipod stud. Mounts to any Picatinny or Weaver type rail.

B.M.A.S. Tactical Sling Adapter... \$14.95 (1005-914-2942-T) A Tactical Sling Adapter made for attaching various types of slings - allows mounting either web slings or those that have "lobster claw" type clips. This phosphate finished steel adapter plate replaces your telescopic receiver end plate, and allows ambi sling mounting on the primary, or offside shoulder position for a comfortable "tactical" carry. Stock and Receiver Extension removal is necessary for installation.

B.M.A.S. Folding Foregrip

\$79.50 (YHM-9640)

The mounting base on this broomstick style grip incorporates the B.M.A.S. push-button mechanism for fast deployment. Base mounts to any Picatinny rail with one Allen head screw - can be mounted to fold the handgrip forward or backward according to personal preference or other accessory usage.

Bushmaster Modular Accessories System Stock with Receiver Extension Tube and Buttplate Screw... \$96.50

(Part # YHM-9569K) This kit is designed for those wishing to swap over completely from a telescopic, and includes all necessary parts from the Upper Receiver back. This new lightweight buttstock design features a strong shoulder buttplate piece affixed to a rubber covered, tubular "body". The solid aluminum buttplate has ridges to keep it from slipping on your shoulder. The stock is drilled and tapped in 7 locations for installation of a sling swivel stud (such as the B.M.A.S. Swiveling Sling Stud #YHM-9469). The tubular body of the stock is rubber covered for action spring sound deadening, and cheekweld comfort.

B.M.A.S. Rail Sling Mount... \$24.50

(YHM-9485S) Attach a sling to any accessory rail (Picatinny or Weaver type) with this B.M.A.S. Rail Sling Mount. Locks onto the rail with claw feet and clamps with an Allen Head Screw. Includes a Swiveling Sling Mount Stud.

B.M.A.S. Front Sight Sling Mount...

\$31.95 (YHM-9468) This Bushmaster Modular Accessories System Sling Mount easily installs with three Allen Screws to position the sling along the side of the front sight for a comfortable carry (shown separately and installed). It includes a swiveling stud which accepts standard quick detach sling mounts.

B.M.A.S. Swivel Sling Stud... \$4.50

(YHM-9469) Fits our Four-Rail Forearms and other B.M.A.S. accessories to provide a sling attachment point that won't deflect the barrel when the sling is pulled tight. Rotates 360° - machined steel with black phosphate finish - threaded 5/16 x 32. Use with any standard Q.D. sling loop.

B.M.A.S. Solid Vertical Forearm Grip... \$36.95

(YHM-9400) Slides onto Picatinny rail forends and tightens with few twists to add stability and control of muzzle rise in rapid fire.

< B.M.A.S. Forward Pistol Grip Assembly...

\$42.50

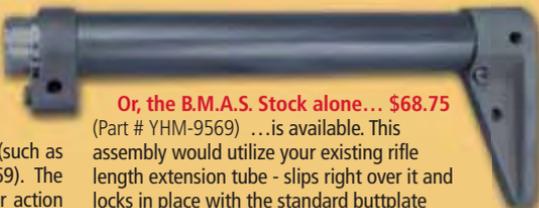

(9349127-FWDGRP)

This unit combines a rail mount clamp with a standard AR A2 composite plastic pistol grip that allows easy attachment onto any Picatinny rail section.

Or, the B.M.A.S. Stock alone... \$68.75

(Part # YHM-9569) ...is available. This assembly would utilize your existing rifle length extension tube - slips right over it and locks in place with the standard buttplate screw. All other features are as described at left.

BUSHMASTER ACCESSORIES / APPAREL...

The **Bushmaster Rifle Case** is economical storage, or travel protection for your Bushmaster, or other firearms. With 47" x 9" x 3" dimensions, this case holds a full sized AR15/M16 rifle, or a scope mounted AR with receivers separated. It's a "clamshell" style design molded of durable black plastic with eggcrate foam lining and four snap closures. You can lock it with a padlock, and the Bushmaster name is molded into side panels. Shipping for 1st Case is \$7.50 / Addtl. Cases: \$6.00 each.

Bushmaster Rifle Case... \$18.95
(Part #10483)

Eagle Padded Rifle Cases for AR Type Rifles & Other Firearms... \$79.95 Designed for professional use and sewn with craftsmanship and care of heavy #1000 denier black Cordura nylon. With closed cell foam padding for shock protection and additional water resistance, each case features a lockable outside cargo compartment; adjustable magazine pouches; reinforced 2" wide carrying handles; heavy duty YKK zippers; and a 2" wide, padded shoulder strap attached to welded steel D rings. These quality Eagle cases will fit most standard military type AR15/M16 rifles, but are useful as an all around carrying case for other rifles as well. Made by Eagle in the U.S.A.

• **Full Size Rifle Case... \$79.95** (RC-4123) Approx. internal dimensions: 40" x 11" (pictured here)

• **Carbine Sized Case... \$79.95** (RC-36) Approx. Internal Dimensions: 36" x 11" (like logo'd case below)

• **30" Carbine Sized Case... \$79.95** (RC-3223) Fits FNC, LAR Para 30" & Tele AKs

• **Extra Long Barrelled Rifle Case... \$79.95** (RC-4608) Approx. Internal Dimensions: 45" x 10"
This case will fit FAL 44 1/2" & LAR-HB 45" rifles.

Bushmaster Logo Embroidered Carrying Cases...

Shown at left is our Bushmaster Carbine Case with the Snake Logo Embroidered in Red & White. Approx. Internal Dimensions: 36" x 11"

• **Logo'd Carbine Case... \$85.95** (RC-36A)

A case for full sized rifles, with the Bushmaster logo embroidered in red and white - same quality features and construction as the Eagle Cases described above. Approx. Internal Dimensions: 40" x 11"

• **Logo'd Rifle Case... \$85.95** (RC-4123A)

Discreet Carrying Case for Carbines...

When low profile is needed, and personal protection has to be readily available, this 32" black Cordura case does the job. Includes Four Interior Magazine Pouches (for up to 40 Rd. Mags) and a Padded Outside Pocket for accessories.

Approximate Internal Dimensions: 32" x 13"

• **Discreet Case for Carbines... \$85.95** (DC-CAR-15)

• **Discreet Case for Rifles... \$85.95** (DC-M16/AR15)

• **Discreet Case for Uzi Short Bbl. SMG's... \$85.95** (DC-22) Approx. Internal Dimensions of 22" x 11"

Ciener .22LR Caliber Conversion Kit for AR15/M16... \$169.95

(JAC-008A) Use .22LR ammo for target practice or plinking in your XM15 - AR15 - M16. This conversion kit contains all parts necessary to convert your rifle from gas operated 5.56mm/.223 Rem. to .22 Rimfire "blowback" operation. It eliminates overpower for indoor ranges and decreases noise in populated areas. No permanent changes are made to your rifle and it can be quickly returned to centerfire configuration. All parts manufactured of heat treated 4040 Chromoly steel. Includes Instruction Manual, Blowback Bolt, Hard Plastic Case and 10 Rd. Magazine. Made in U.S.A.

• **Extra Ciener 10 Round Magazines... \$42.50 each** (JAC-005A)

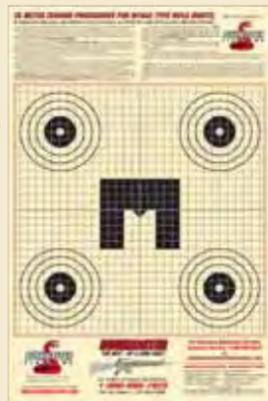

BUSHMASTER ACCESSORIES/APPAREL...

The "Life Jacket" Safety Device for AR15/M16 Rifles... \$29.95 (LJ-1)
 "More secure than a Trigger Lock – more portable than a Safe" Lock up your prized AR with the Life Jacket. This tough polycarbonate clamshell enclosure locks up your AR type rifle and covers the entire action. Two separate keyed locks and keys are included. Foam padded interior protects your rifle's finish, and dual, tamper resistant hinge pins will secure almost all AR type rifles - with fixed carry handle or removable; all barrels with standard or DCM type free-floater forearms. **Note: To use the Life Jacket on a rifle with our V Match tubular aluminum forend, some material will have to be removed from the front opening.**

The Bushmaster Gun Pad... \$9.95 (QP-014) It's a sturdy counter-top protector for gunsmithing assembly work (shown below), and it doubles as a computer mouse pad. This big (18" x 12") brightly colored pad has crisp images representing the Bushmaster family of rifles and pistols. It's surface is laminated and it has a soft, non-skid foam padded backing.

M7 Bayonet with M10 Scabbard... \$34.95 (GC-BAYO SCAB KIT) Fits 20" & 14.5" Bbl. AR15/M16 and AR180. A quality Gov't. type Bayonet and Scabbard - made in the U.S.A. ...

Bushmaster Sighting-in Targets... \$2.95 > (QP-015K)
 Pkg. of 12 25 Meter Targets with instructions to get your rifle zeroed in right!

Bushmaster Logo Mug... \$4.95 (QP-016)
 Will your shot groups improve if you drink coffee from the Bushmaster logo mug? We hope so - let us know!
 Heavy, black ceramic mug printed red & white.

Bushmaster Logo Decal... \$1.95 (QP-013)
 4 1/2" wide, screen printed red and black on white vinyl with adhesive backing.

Bushmaster Two-Tone Cap... \$9.95 (QP-002TTRB)
 With a look inspired by NASCAR, this new Bushmaster Hat design features the snake logo embroidered in Red, Black and White on a bright red and black cotton twill hat with white trim on the bill. It is universally sized with an adjustable strap and buckle mechanism in the back. Quality Bushmaster headgear - assembled in the USA from foreign components.

Bushmaster Canvas Cap... \$9.95 (QP-002BR) This new heavy duty Bushmaster Hat features our snake logo embroidered in Red, Black and White, and is sewn from a light brown canvas material (much like "Carhart" jacket material) - excellent on those cooler days. This "one size fits all" cap is adjustable to a wide range of sizes with a rear strap and buckle mechanism. Manufactured from heavy, quality foreign components and assembled in the USA.

Bushmaster Black & Tan Caps... \$9.95 ea. We've embroidered our logo onto a soft brushed twill khaki tan cap or our traditional black baseball style cap. The embroidery is in red & white, or red, black and white, depending on hat color. They're durable, comfortable, and have an adjustable back strap so that one size fits all.

Black Cap... \$9.95 (QP-001) / Tan Cap... \$9.95 (QP-001T)
