## ★ OUTERS' HERITAGE ★

### A HUMBLE BEGINNING

Today Outers is known by millions of hunters and shooters for its complete line of gun care accessories. However, this extensive product line wasn't born overnight. The Outers dream was started by Vern Dale and his wife, Marita, in the small town of Onalaska, WI in 1919. For the first few years the Dales

*"...this extensive product line wasn't born overnight."*

operated an automobile service garage. During this time Vern and his wife, a chemist, came up with a gun lubricant they called "Gunslick". In 1934, Dale and

his partner opened Outers Laboratories. In 1935 they made their first sale. The Outers legacy had begun.
