## 2007 SEASONAL PRODUCTS GUIDE

# WINGMASTER HD™

## DROP-DEAD BETTER.™

The company that redefined lethal shotgun range with Premier® Hevi-Shot® is proud to unveil the next generation of heavy-density, big-bird devastation. New Wingmaster HD™

This hard-hitter stretches the kill zone with an ultra-tuned combination of density, shape and energy. At 12.0 grams/cc, it's 10% denser than lead and the scientifically proven optimum density for pellet count and per-pellet energy. Plus, its smooth, round shape delivers awesome aerodynamics and sustained payload energy. It all adds up to the most devastating patterns possible.

Wingmaster HD is also 16% softer than Premier® Hevi-Shot®, which makes it easier on your barrel. And it's significantly more responsive to chokes.

Fact is, the new Heavy-Density master puts more pellets in a 30" circle at any range than any turkey load in its class. It's a lesson big tom will have to learn the hard way. New Remington Wingmaster HD.

## THE ULTIMATE EXTENDED-RANGE PAYLOAD

- Denser patterns
- Devastating pellet energy
- Flies true – near perfect shape

## 12.0 G/CC – BEST PELLET MATERIAL DENSITY

Testing proves Wingmaster HD™ delivers the best combination of pellet energy and pattern density.

## UNIFORM PELLET-TO-PELLET WEIGHT

Wingmaster HD's (Heavy Density) smooth, round shot pellets are more aerodynamic than other lead alternatives. They are uniform in pellet-to-pellet weight and are true to listed shot size.

Other non-toxic shot pellets cannot match up.

Non-toxic and 10% denser than lead, it's the most lethal choice whatever you're shotgunning for:

**WATERFOWL • TURKEY • PREDATORS**

## FEATURES

- HD = Heavy Density (12.0 g/cc)
- Proprietary composite of Tungsten-Bronze-Iron shot
- Round, consistent pellets:
  - Travel straighter and longer
  - Improves long-range lethality
  - Tighter patterns
  - More even pellet distribution
- Uniform pellet density
- 12.0 g/cc density for optimal combination of density and pellet count
- Softer pellets are easier on your barrel and more responsive to chokes
- Better patterns at long and short ranges
- Responds and acts more like lead
- Approved for waterfowl hunting by the USF&W

# LEAD MAGNUMS

## PREMIER® HIGH VELOCITY MAGNUM COPPER-PLATED BUFFERED TURKEY LOADS.

The high-performance lead load for avid turkey hunters. 3" and 3 1/2" 12-gauge payload leaves the muzzle at 1300 fps. Delivers hard-hitting knockdown power. Loaded with our Power Piston® one-piece wad and Magnum-grade Copper-Lokt® lead shot for dense patterns and deep penetration.

## PREMIER® MAGNUM COPPER-PLATED BUFFERED TURKEY LOADS.

Our original Magnum turkey loads. As fine a lead shotshell as you can carry in the woods. Magnum-grade Copper-Lokt® shot is cushioned with special polymer buffering and further protected by our Power Piston® one-piece wad for dense, even patterns. Delivers superb performance and devastating knockdown power out of tightly constricted turkey chokes.

## NITRO MAG® BUFFERED MAGNUMS.

Excellent for turkey or long-range pheasants. Heavy payloads of Magnum-grade shot are packed with shock-absorbing polymer buffering and enclosed in our patented Power Piston® one-piece wad to provide dense, even patterns and uniform shot strings.

## PREMIER® DUPLEX® MAGNUM COPPER-PLATED BUFFERED LOADS.

A specialized layering of Magnum-grade Copper-Lokt® No. 4 shot over No. 6 shot. Larger pellets deliver excellent retained energy and penetration, while smaller pellets enhance pattern density. Awesome versatility for uncertain shooting distances on turkeys and late-season pheasants.

- Patterns like copper, value price

# TARGET LOADS

## PREMIER® NITRO 27® HANDICAP TRAP LOADS.

Designed for long yardage trapshooting and long range sporting clays, our custom powder blend, Power Piston® wad and Premier® STS® primer mix have improved the Nitro 27's performance, allowing more consistent velocities, 15% better pattern performance and softer recoil. So if you're looking for tremendous target-breaking performance choose the improved Nitro 27.

## GUN CLUB™ TARGET LOAD LINE.

An excellent choice for economical shooting. These high-quality shells are loaded with the same care as our top-of-the-line STS® loads and feature a Power Piston® wad and the reliable STS® Primer mix. Many shooters are discovering that they can get acceptable reloading life while stretching their shooting dollar.

# GRAND DOMINATION

HARLAN CAMPBELL, JR.  
Men's Trap All-American  
Team Captain

## COMPETITORS AT THE GRAND CHOOSE REMINGTON® AS THEIR WINNING AMMUNITION.

Great champions think alike. For the third year in a row, shooters who used Remington shells won more trophies than competitors using other brands at the 2005 ATA Grand American World Trapshooting Championship. Remington not only out-performed other ammunition

in the competition, but it also sold more than any other brand at the Grand. And for good reason! Remington STS® and Nitro 27® target loads provide softer recoil, better pattern performance, and more consistent velocities (not to mention the most reloadable hull on the market). Isn't it time you switch to Remington and step into the winner's circle?

## PREMIER® STS® TARGET.

The standard in target shooting reliability. Absolutely consistent from shot to shot. Bar none, the most reliable, most reloadable shells you can shoot. Available in 12, 20, 28 and 410.

**MANAGED-RECOIL™ STS® TARGET.** Dramatically reduced recoil – 40% less in the 12-ga. load – with target-grinding STS® consistency and pattern density. Ideal for new shooters and recoil-sensitive individuals.

# COMPONENTS

**REMINGTON® RELOADING COMPONENTS.** If you reload your own cartridges, then you shouldn't settle for anything but the best reloading components in the business – Remington. We offer industry-leading products that are changing the way sportsmen think about reloading.

**KLEANBORE® MUZZLELOADING PRIMERS.** The cleanest-burning muzzleloading primer ever.

- From 2 to 15 times more shots between cleanings
- Dramatically reduced chamber buildup for easier bullet seating
- Specifically designed for black powder substitutes
- Accuracy and velocity equal to standard shotshell primers

Bore scope photo of muzzleloader breech using a competitor's 209 primers after 2 shots.

# MANAGED-RECOIL™

REDUCE RECOIL TO IMPROVE YOUR CHANCES OF SUCCESS IN THE FIELD.

At some point, all shooters feel the negative effects of recoil. Some hunters experience the frustration of missing a target because of flinching. Others know the aggravation of losing the opportunity for a second shot because of the time it takes for scope recovery. Then there's the shoulder pain after a day of hunting or practicing, which may deter future practice sessions. To fight these effects of recoil, Remington® developed Managed-Recoil™ ammunition.

The Managed-Recoil ammunition succeeds where other recoil-control ammunition fails. Past attempts at curbing recoil have focused solely on the amount of gunpowder in the ammunition. Remington's Managed-Recoil focuses on the entire cartridge by incorporating a specially designed bullet built to perform at lower velocities.

## FEATURES

- Fully effective hunting performance with less than 50% of the recoil of standard cartridges
- Less anticipation of recoil
- Increased shooter confidence and improved shot placement
- Quicker scope recovery for faster second shot placement
- Point of aim is within 2" of a standard cartridge at 100 yards
- Target practice without the recoil pounding
- Specially designed bullets are optimized to deliver 2x expansion with over 75% weight retention on shots out to 200 yards

FULLY EFFECTIVE ENERGY AND EXPANSION OUT TO 200 YARDS:

No scope readjustment necessary. Remington® Managed-Recoil™ Point of Impact is nearly identical to full velocity loads.

Point of impact comparison at 100 yards.

- 30-06 Sprg. 125-grain Managed-Recoil™
- 30-06 Sprg. 150-grain PSP Core-Lokt

May not operate all recoil or gas-operated firearms

## 50% LESS RECOIL

Remington® Managed-Recoil™ centerfire cartridges deliver 50% less recoil than standard velocity ammunition. Managed-Recoil 270 Win, 308 Win and 30-06 actually deliver less recoil than a standard velocity 243 Win!

## LETHAL PUNCH OUT TO 200 YARDS

Managed-Recoil™ rounds pack a lethal punch at the most common deer-hunting ranges. In fact, their energy levels exceed 1,100 ft. lbs. at 200 yards. Managed-Recoil 30-30 delivers 919 ft-lbs at 100 yards and is fully effective on deer sized animals out to 125 yards.

# MANAGED-RECOIL™ APPLICATIONS

## YOUTH AND WOMEN

Managed-Recoil™ allows youth and women to practice and hunt effectively and comfortably with half the recoil. It even lets you use an existing gun without readjusting the scope because "point of aim – point of impact" is nearly identical to standard cartridges at 100 yards.

## PRACTICE MAKES PERFECT

For target shooters and hunters who target shoot to improve their performance, Managed-Recoil™ cartridges provide more time on the range, without the bruises to prove it. It offers great hunting performance at ranges out to 200 yards, and you can switch to full-power ammunition without scope adjustment.

## HUNTING WITH CONFIDENCE

Most deer hunting shots are taken well within 200 yards, Managed-Recoil™ cartridges provide effective performance, with less than half the recoil. The result is less anticipation of recoil, better shot placement and quicker scope recovery.

## RECOIL-SENSITIVE HUNTERS

For shooters that are unable to tolerate the recoil of a standard cartridge, Managed-Recoil™ Cartridges are the perfect solution. Effective performance with half the recoil.

# PREMIER® ACCUTIP™

## THE MOST ACCURATE RAPID EXPANSION POLYMER-TIPPED BULLET AVAILABLE.

Premier® AccuTip™ cartridges utilize a precision-engineered polymer-tip bullet that offers match-grade accuracy and rapid expansion at all velocities for deadly downrange performance. Premier AccuTip provides a higher ballistic coefficient for super-flat trajectory, higher retained energy and better on-game results. Choose Premier AccuTip for deer-sized game or AccuTip-V™ for varmint hunting. Either way, Remington AccuTip delivers performance that blows the competition away.

243 WIN, 95-GR.  
PREMIER® ACCUTIP™  
5 SHOTS, .4", 100 YDS.

**AccuTip-V™**  
Available in varmint calibers with the thin-jacketed AccuTip-V bullet for explosive performance.

# UMC® AMMUNITION

## UMC® RIFLE CARTRIDGES.

Made in the USA, value-priced and ideal for high volume shooting, our UMC centerfire rifle ammunition is loaded in seven popular calibers including the 30-06 Sprg, 308 Win, 7.62x39mm, 30 Carbine and 303 British. The 45 and 50 grain jacketed hollow point loads in 223 Remington and 22-250 Remington are perfect for varmint hunters.

## UMC® HANDGUN CARTRIDGES.

All UMC ammunition is American-made in Lonoke, Arkansas using first-quality factory-fresh brass and clean-shooting Kleanbore® primers to provide the best value for practice, personal defense and hunting.

## UMC® LEADLESS™ HANDGUN CARTRIDGES.

A must have for shooters that frequent indoor ranges, economical UMC® LeadLess™ cartridges virtually eliminate lead exposure at the firing line. Specially designed bullet actually prevents the vaporization of lead from the bullet's base upon firing. Standard

bullet weights duplicate the ballistics of conventional loads.

Nose profile designed to function smoothly in all action types

**COMPETITION/TARGET RIMFIRE.** When it comes to competition-grade rimfire ammunition, there's only one name good enough to share the Remington® brand – Eley. A company with a reputation for the world's most accurate and reliable rimfire ammunition, Eley, Ltd. has teamed up with Remington to offer three grades of their premier .22 long rifle ammunition for the serious target shooter: Target Rifle, Club XTRA and the elite Match EPS. Remington Target ammunition offers the accuracy and economy for Match practice and developmental shooting.

**RIMFIRE.** Prairie dogs. Tin cans. Or a bulls-eye. No matter what you put in your sights, Remington® offers the perfect .22 rimfire ammunition for any occasion. Remington rimfire ammunition delivers the quality you expect. That's because we put the same level of care into making our rimfire ammunition as we do our centerfire ammunition, so you'll get the maximum performance from every shot.
