New Crossover Cases

The Allen Crossover Cases are designed to offer superior protection for a user's most important guns. We start with dense 1" foam padding that is sufficient enough in itself to protect the gun inside. We add an exterior skeleton of tough molded polymer at the key impact points. Heavy duty zippers and rugged nylon lining ensure the durability of these overbuilt cases.

Camo Hunting Accessories

Applies easily with blow dryer

Snakeskins offer the solution to semi-permanent camo application to guns, and accessories. The snakeskin camo system is designed around a film that shrinks when low heat is applied, allowing the snakeskin material to tightly adhere to a gun or accessory without glue. Small strips of removable tape anchor the snakeskin film to places where fit is critical, like ejector ports and gas vents. Snakeskins can be easily removed from any application without solvents or cleaners. Each kit contains enough film for the intended application.

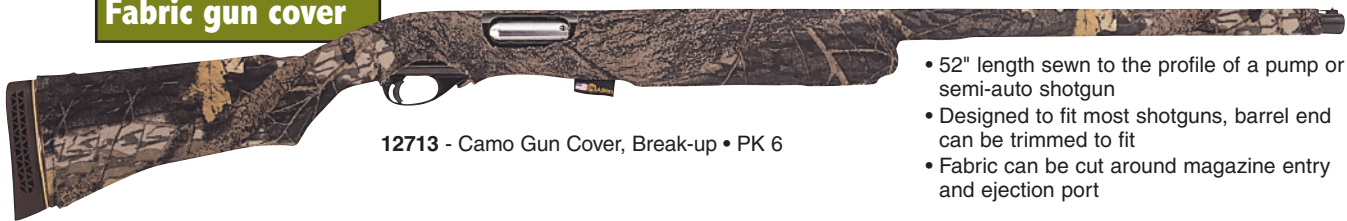

Camo Kits For Your Gun, and Accessories

Gold Stream Microfibre Waders

Discover our new Advanced Micropore Technology

Our latest innovation - Advanced Micropore Technology enables Gold Stream Breathable waders to transfer water vapor away from your skin more effectively. You stay dry and comfortable and the fabric feels soft, not stiff or boardy like other waders.
