Irlene Mandrell was born in Corpus Christi, Texas, and is the youngest sister of the world famous country trio, The Mandrell Sisters. In addition to her many stage and television appearances, she is a regular participant in all with BuckMasters, Quail Unlimited, NRA, The National Wild Turkey Federation, etc. (Irlene recently finished her Grand Slam in turkey hunting).

Irlene Mandrell is many things including country woman and glamorous star, a working mother, and someone you could feel comfortable with around your own kitchen table.

She is presently the spokesperson for CZ-USA.

## LETTER FROM THE PRESIDENT

Dear fellow shooters and hunters, CZ-USA is approaching its 10th Anniversary. 10 years of serving American customers has left a permanent mark on me. I love the outdoors and the best of friends were met on hunting trips. I have visited very remote places this past year and when I walked to a gun store and asked whether they carry CZ guns and the answer was "yes", I knew we must have done something right. I felt gratitude to all customers, dedicated employees and loyal CZ owners who carried the word out all the way to the remote areas. I felt extremely proud to be associated with CZ over and over again.

10 years ago we started a long journey and every year we have worked hard to convince the shooting public that our products are in fact superior by adhering to the highest standards of quality and by adding new calibers, models and modifications to make sure we are always among the top manufacturers. We have been very proud of the success of Dan Wesson as well as the Safari Classics line and we have a few new projects in works.

At CZ-USA we love our products, we use our products and we listen to our customers - we couldn't have made it without you. Thank you all and let me wish you a successful 2007.

Alice Poluchova  
President, CZ-USA

## CZ-USA

### HUNTING AND SPORTING FIREARMS

At CZ-USA we are constantly adding new products and configurations to our product line to meet the sporting needs of the US customer. We are doing everything that we can to help our customers have a safe and successful experience when using our products in the field, competition, or daily life.

The Uhersky Brod plant is the largest small arms factory in the world, including over 200 acres of buildings alone. The factory was built in 1936. Just 12 months after the ground was broken, the first machines were turned on. Today's portfolio includes superior bolt-action rifles (both rimfire and centerfire) and semiautomatic pistols.

### SAFARI CLASSICS

CZ's dangerous game rifles also known as Brno or ZKK rifles have been a common sight in rifle racks across the African continent for more than 30 years. The reliability and features of the CZ 550 Safari Magnum action prove on daily basis that it is one of the best suited for the pursuit of dangerous game.

Dan Wesson Firearms has always been a trusted name in the Firearms Industry and today it is no different. The Dan Wesson name is synonymous with quality, finish and accuracy. The semi automatic 1911 type pistols and revolvers by Dan Wesson are the newest addition to CZ-USA's portfolio.

## CZ IN THE MEDIA

Matt Berger on the CZ 97B, "This is the most accurate out-of-the-box .45 I have ever fired." *Complete Book of Autopistols, 2006*

Wayne van Zwoll on the CZ Ultimate Hunting Rifle, "The new CZ model has a traditional look, and it handles like most other bolt rifles. However, it shoots uncommonly well." *Rifle Shooter Magazine, July/August 2006*

"...no manufacturer other than Dan Wesson has combined all these modern and innovative design elements into one refined revolver package, and the results are obvious. No other revolver manufacturer offers the same level of overall performance confidence with an average store-bought, off-the-shelf, regular-production gun." *Dick Metcalf, Shooting Times Handgun Buyer's Guide, 2007*

Stan Skinner on the Safari Classics CZ 550, "It is a rifle you can rely on when the chips are down and a big, angry animal launches its charge." *Guns and Ammo, November 2006*

Gun Tests Magazine rated the CZ 75B SA 9mm a 5 Star Best Buy. "This is a proven design with uncomplicated operation. The price leaves plenty of money left over for custom work, extra magazines and practice ammunition." *Roger Eckstine, October 2006*

## RIMFIRE RIFLES

CZ452/453  
CZ513

The rimfire rifles of Ceska Zbrojovka, Uhersky Brod have been favorites of sportsmen and around the world due to their unmatched accuracy, and uncompromising high quality both in materials and craftsmanship. Since CZ-USA has made them accessible to the US market, the legend has only grown. Available in a wide array of models, we have a rimfire to meet any application or budget. From the the 513 Basic to any of the many variations of the 452 and the new SST equipped 453, we have a model to fit your needs.

The accuracy demanded by discriminating shooters is accomplished on all of the rimfire models through the use of hammer forged barrels, lapped to a mirror polish. This is not the cheapest or fastest way to build a barrel, but it is part of our "take the time to do it right" attitude.

The receivers are forged from steel billets, not tubing or plastic. Every trigger in the 452 line is user adjustable for weight of pull, to meet the requirements of the individual shooter whether in competition or in the field.

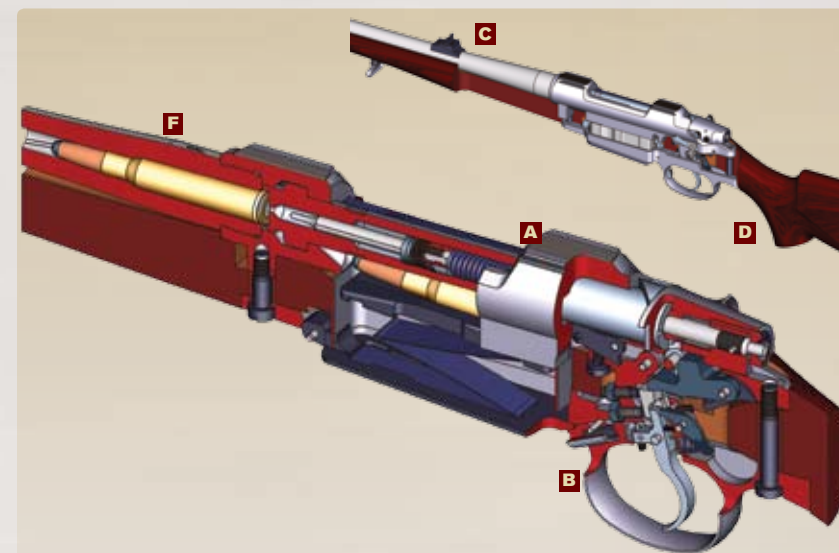

This quality and attention to detail goes into every rimfire we make and has made the CZ-USA rimfires a growing favorite among small game hunters and smallbore competitors in the US.

## CENTERFIRE RIFLES CZ527, CZ550

The Professional Hunter Proficiency Exam in Zimbabwe tests the skills of the soon to be PH. This exam combined with the Rifa Professional Hunter and Guides training/ refresher course provides an insightful glimpse into the rifles these dangerous game professionals trust their lives to as well as those of their clients. According to Don Heath, Editor of African Hunter Magazine, the CZ is by far the most common make seen at the exam.

This reliability, that these professionals depend on is the primary reason they rely on the CZ 550 for stopping dangerous game, but the accuracy, and value that the rifle provides is definitely not a detriment to their decision.

All of the centerfire rifles in the CZ-USA line feature single set triggers and Mauser style extractors for controlled feed and positive extraction.

### INSIDE THE CZ 550 ACTION

The CZ 550 is a Mauser type action. The Mauser 98 action established itself as a viable alternative to the double rifle due to its reliable feeding over 100 years ago.

A - Square bridge receiver with 19mm dovetail | B - Single set trigger | C - Iron sights (folding 3 leaf express style sights are dovetailed into an integral boss on the barrel and are far sturdier than the typical set found on most production rifles) | D - Open grip curve on stock (minimizes the stress to the middle finger by the trigger guard bow while the gun is in the recoil phase) | E - Optional barrel band sling mounting point (not pictured) | F - Hammer forged barrel

### SINGLE SET TRIGGER

A lifetime of hunting will expose you to a multitude of situations. You will be presented with fleeting opportunities that require a quick shot, and when hunting dangerous game you must be prepared for the life or death shot to stop a charge. On the other hand, most shots will give you the opportunity to shoot from a more stable position such as rest, shooting sticks or a practiced kneeling or prone position.

The CZ single set trigger (SST) system provides the shooter with the options to effectively handle any shooting situation they are presented with.

The SST allows for both a standard hunting trigger and a light target trigger in the same rifle. By operating the rifle in the same manner as any other bolt-action rifle, the trigger is in the "standard" mode with the heavier of the two trigger pulls. By simply pushing the trigger forward until it "clicks" the crisp and light target trigger mode is set.

It has been said that the single set trigger is a better aid to accuracy than a thousand dollar scope.

**CZ 452/453 MAIN FEATURES**

- Action forged from steel billets
- Trigger adjustable for weight of pull
- Hammer forged barrel
- Detachable magazine
- Single set trigger (CZ 453)

**CZ452/453 AMERICAN**

The CZ 452/453 American is a high quality rimfire rifle designed for the US market. The American model is true to the lines of the classic American sporter style rifle. Made without sights, the top of the receiver is machined with a 3/8" wide dovetail groove for mounting standard rimfire dovetail rings. The CZ 452/453 American is shipped with a 5 rd magazine. The safety is located above the rear of the bolt and provides a positive firing pin block. The 453 takes the time tested platform of the CZ 452 and adds a fully adjustable, single set trigger system mechanically identical to that featured on the CZ 527 and CZ 550 centerfire rifles. Single shot adapters, 5 rd magazines and 10 rd magazines are available for this line of rimfire rifles.

CZ 452: ▲ .22 LR, .22 WMR, .17 HMR, .17 HM2 ■ Turkish or American Walnut/Blue | CZ 453: ▲ .22 LR, .17 HMR ■ Turkish or American Walnut/Blue

The CZ 452/453 actions are manufactured from steel billets not tubing or plastic, the barrels are hammer forged and lapped for accuracy and long life. The trigger is adjustable for weight. The safety is located above the rear of the bolt and provides a positive firing pin block.

Single shot adapters, 5rd magazines and 10rd magazines are available for this line of rimfire rifles.

Check out our website for the latest developments of the CZ 452/453 product line.

**NEW!**

**CZ452 AMERICAN 16" BBL**

Features a threaded muzzle with a steel thread protector.

▲ .22 LR ■ Turkish Walnut/Blue

**CZ452 LUX**

The Lux version of the 452 features a Turkish walnut stock and tangent rear sight that is adjustable for windage and elevation. The dovetail is 11mm and comes with a 5 rd magazine.

▲ .22 LR, .22 WMR ■ Turkish Walnut/Blue

**NEW!** Now available in left hand configuration.

**CZ452 FS**

The FS version of the 452 is similar to the CZ 452 Lux except the stock is a full length, Mannlicher type Turkish walnut stock, and the barrel is shorter. The CZ 452 FS is shipped with a 5 rd magazine.

▲ .22 LR, .22 WMR, .17 HMR ■ Turkish Walnut/Blue

The Rimfire rifles produced by Ceska Zbrojovka Uhersky Brod are among the most sought after firearms in the world.

## CZ452 VARMINT

The 452 Varmint is based on the same time proven action as our other .22's, it features a 21" heavy barrel without sights and an 11mm dovetail groove for scope mount attachment. The .22 WMR and .17 HMR models feature 3/8" dovetail. The stock is Turkish walnut. The rifles are shipped with a 5 rd magazine.

▲ .22 LR, .22 WMR, .17 HMR, .17 Mach 2 ■ Walnut/Blue

## CZ453 VARMINT

The 453 takes the time tested platform of the CZ 452 and adds a fully adjustable, single set trigger system mechanically identical to that featured on the CZ 527 and CZ 550 centerfire rifles.

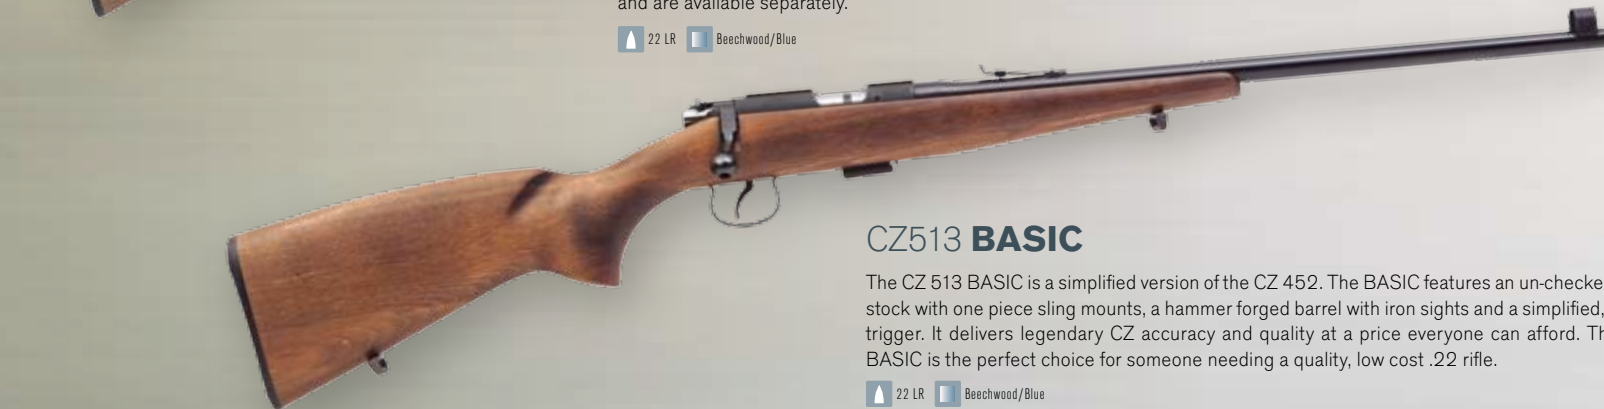

▲ .22 LR, .17 HMR ■ Turkish Walnut/Blue

## CZ452 SCOUT

The Scout is a compact rimfire rifle with a 12" length of pull for young shooters. Its shortened dimensions, reduced weight and single round loading device make it a perfect first rifle for any boy or girl. The single round loading device helps teach ammo conservation and marksmanship. The rifle features adjustable open sights and an 11mm dovetail groove for mounting optics. Rifles are delivered with a single shot adapter. Any of the .22 LR CZ 452 Magazines including both the 5 and 10 rd versions will fit the Scout, and are available separately.

▲ .22 LR ■ Beechwood/Blue

## CZ513 BASIC

The CZ 513 BASIC is a simplified version of the CZ 452. The BASIC features an un-checked beechwood stock with one piece sling mounts, a hammer forged barrel with iron sights and a simplified, non-adjustable trigger. It delivers legendary CZ accuracy and quality at a price everyone can afford. The new CZ 513 BASIC is the perfect choice for someone needing a quality, low cost .22 rifle.

▲ .22 LR ■ Beechwood/Blue

## CZ452 SILHOUETTE

The Silhouette was designed to meet the requirements of the IMSSA for smallbore silhouette competition. It features a synthetic stock and blued finish on all metal surfaces. Made without open sights, the top of the receiver is fitted with an 11mm dovetail groove for mounting a scope. Rifles are delivered with a 5 rd magazine.

▲ .22 LR ■ Synthetic/Blue

## CZ452 STYLE

The Style features a synthetic stock and matte nickel finish on all metal surfaces. Made without open sights, the top of the receiver is machined with an 11mm dovetail groove for mounting a scope. Rifles are delivered with a 5 rd magazine. With the exception of the nickel finish, the style is identical to the silhouette model.

▲ .22 LR ■ Synthetic/Nickel

The CZ 527 has won more awards in the "light rifle" category in Europe than any other rifle ... ever.

Designed to fit the small base calibers perfectly, the CZ 527 is a true micro length Mauser style action featuring controlled round feed, a detachable magazine, a hammer forged barrel and a single set trigger.

The dovetail on all CZ 527s is 16mm.

The CZ 527 Lux and CZ 527 FS are traditional European style models featuring open sights and a Turkish walnut stock, while CZ 527 American, CZ 527 Varmint and CZ 527 Prestige are models made specifically for the US market featuring a classic American style stock with 18 LPI checkering.

Check out our website for the latest developments of the CZ 527 product line.

scope and rings not included

## CZ527 CARBINE

The Carbine is an intermediate range "brush gun". This handy rifle features open sights, a straight comb Turkish walnut stock and weighs less than 6 pounds!

▲ .223 Rem, 7.62x39 ■ Turkish Walnut/Blue

## CZ527 LUX

## CZ 550 MAIN FEATURES

- Mauser style claw extractor
- Square bridge receiver
- Hammer forged barrel
- Single set trigger

The CZ 550 American and CZ 550 Varmint are models made specifically for our U.S. customers featuring an American pattern stock with 18 LPI checkering.

The CZ 550 embodies aesthetic elegance and ergonomic design. On closer inspection, the heart of the machine shows its time-honored features. The Mauser style claw extractor for positive feeding and extraction, and compact trigger mechanism, which can be used as a single stage or a single set trigger. The CZ 550 has a positive 2-position safety. All CZ 550's feature a classic square bridge receiver with a 19mm dovetail milled right into the receiver for the mounting of optics. For accuracy and long life these rifles are fitted with hammer forged barrels.

PREMIUM  
GRADE

SAFARI CLASSICS  
CUSTOM GRADE RIFLES FEATURE

- CZ 550 Safari Magnum action with two position positive safety
- Single set trigger set up to your specifications
- Glossy blue or matte blue finish on metal parts
- No.1 Fancy grade American Walnut stock with straight comb and dual crossbolts
- Barrel band
- Chambered in 5 legendary African calibers .300 H&H Mag, .404 Jeffery, .450 Rigby, .505 Gibbs & .500 Jeffery

CZ 550 SAFARI CLASSICS

Rugged, heavy duty and always goes "bang" when the trigger is pulled... the CZ 550 action remains a variant of the true magnum Mauser that is properly proportioned to accept the longest big-game cartridges. Safari Classics by CZ is currently offering five calibers in custom grade CZ 550 Safari rifles: .300 H&H Mag, .404 Jeffery, .450 Rigby, .500 Jeffery, and .505 Gibbs.

The Safari Classics rifles feature single set trigger set up to your specifications, glossy, satin, matte or rust blue finish on metal parts, #1 Fancy grade American Walnut stock with dual crossbolts and straight comb glass bedded to the individual action and a barrel band. The rifles chambered in .505 Gibbs and .500 Jeffery include a mercury recoil reducer installed in the stock as well. We have also added several optional upgrades for the 2007 season that can be specified at the time when you place your order. These upgrades include bolt jewellery, installation of muzzle break and action job etc.

▲ .300 H&H Mag, .404 Jeffery, .450 Rigby, .500 Jeffery, .505 Gibbs    ■ Custom select wood

African hunting is one of the most exciting and rewarding of all hunting. Africa is a continent blessed with the richest variety of game, ranging from the smallest of antelope to the biggest and toughest of them all, the Cape Buffalo, Rhino and African Elephant.

It is here where the hunter longs to be, matching his skills against those of his quarry.... it is here where hunters demand the most from their dangerous game rifles.

Reliability, power, magazine capacity, positive feeding and extraction, fast pointing express sights - all are considered basic features of bolt actions intended to be dangerous-game rifles.

SAFARI CLASSICS AMMUNITION

CZ-USA offers its own headstamped ammunition to complement the Safari Classic rifles. The Solids are crafted from a single alloy for superior strength, rigidity and hardness for the ultimate in deep, bone-crushing penetration. Our Soft and hollow point expanding ammunition incorporate only premium bullets for all-around performance on big game, delivering deep penetration and controlled expansion.

The .404 Jeffery was introduced in 1909 by Jeffery of England to duplicate .450/400 (3 1/4") performance in a cartridge designed for bolt action rifles. The .404 drives a 400 grain bullet at a muzzle velocity of 2170 fps.

The .450 Rigby is based on the classic .416 Rigby case. While it has been around for only just over 10 years, this cartridge has gained a reputation as the most effective dangerous game stopping cartridge for standard magnum sized actions. The 465 grain bullet delivers over 2300 fps at the muzzle.

The .505 Gibbs was developed as a proprietary cartridge for use in the Mauser type bolt action rifles by George Gibbs around 1910. The bullet weight is 525 grains and it leaves the muzzle at 2300 fps.

The .500 Jeffery is a rebated rim cartridge developed by the German company Shuler in 1928 for use in Mauser rifles. While there has been considerable confusion and multiple standards on the design, The CZ rifles and ammunition are built according to the most recent (1998) CIP specification. Pushing a 535 grain bullet at 2300 fps, the .500 Jeffery delivers truly impressive stopping power.

### CZ 550 ULTIMATE HUNTING RIFLE

The CZ Ultimate Hunting Rifle (UHR) is the perfect complement to the Safari Classics line of dangerous game rifles. This rifle delivers the pinpoint accuracy hunters demand for surgical shot placement on plains game. The UHR is a CZ 550 based rifle in .300 Winchester Magnum that comes in at 8 lbs, and includes a minute of angle accuracy guarantee to 600 yards. By maintaining quality control standards unheard of in the industry, the Ultimate Hunting Rifle delivers a level of accuracy formerly only available from high-end custom riflemiths. The UHR allows the hunter to realize the full potential of the components in their rifle system. By ensuring that the rifle itself is very accurate, guaranteed MOA to 600 yards, the only variables left in the system are the optics, ammo and ability of the hunter.

Keeping in mind that the Ultimate Hunting Rifle is the foundation of a shooting system capable of extreme precision, CZ-USA has put a package together including a premium scope, rings and hard case to help realize the rifle's full potential. The Ultimate Hunting Rifle package incorporates a Nightforce 5.5-22x50 scope with target turrets, lighted reticle, and side parallax adjustment. The scope included in the package combines the premium quality of the Nightforce

line with the rangefinding capability of their R2 reticle. By incorporating this scope into the system, you help to eliminate one more potential barrier to extreme accuracy.

The rings developed for the CZ Ultimate hunting rifle are machined out of 1 piece of solid steel. The bottom half of both the front and rear ring are connected by a steel bridge. By machining from one piece of steel, imperfect ring alignment is reduced greatly. In addition the steel bridge connecting the rings increases the rigidity of the action. CZ's Scope mounting system incorporates a 19mm dovetail machined into the double square bridge of the receiver. By eliminating a separate base and screws used to attach the base, multiple opportunities for failure are eliminated completely from the system.

▲ .300 Win Mag ■ Turkish Walnut

The UHR was developed to perform with premium ammunition. Without consistent, quality ammunition, no rifle can reach it's maximum accuracy. The development of the rifle was done with Dynamic Research Technologies DRT 200gr ammo. Other Ammo that has proven to be accurate in the UHR is the 165gr. Hornady SST Interlock.

CZ-USA does not endorse irresponsible, extreme long-range hunting. When combined with practice, premium ammunition and optics, the UHR is intended to extend the range of the ethical hunter by 250 yards.

Dick Metcalf, on Ultimate Hunting Rifle technology: "the allowed tolerances are so small as to be nonexistent, and by eliminating all possible error, misalignment and consequent stress form the entire receiver, chamber, bore and optical sight axis, the UHR enables the shooter to realize every ounce of capability available in his ammunition and sight." Petersen's Hunting, February/March 2006

### CZ750 SNIPER

With an effective range of 800 yards, the CZ 750 Sniper is ideal for use by the elite military and law enforcement snipers it was designed for. The synthetic thumbhole sniper style stock is adjustable for comb height as well as length of pull. The underside of the fore-end is fitted with a 220mm long rail that provides multiple attachment points for a bipod.

Two scope mounting options are available for the 750 Sniper. A weaver rail comes installed, or by removing the rail, the integrated CZ 19mm dovetail may be used. The 750 Sniper features a muzzle brake, thread protector, mirage shield and two 10 round detachable magazines.

Specs: 26" 4 groove barrel, 1 in 12" twist.

### NIGHTFORCE NXS 5.5-22x50

The Ultimate Hunting Rifle package incorporates a Nightforce 5.5-22x50 scope with target turrets, lighted reticle, and side parallax adjustment. The scope included in the package combines the premium quality of the Nightforce line with the rangefinding capability of their R2 reticle. By incorporating this scope into the system, you help to eliminate one more potential barrier to extreme accuracy.

The rings developed for the CZ Ultimate hunting rifle are machined as a single unit out of a solid piece of weight saving aircraft grade aluminum. The bottom half of both the front and rear ring are connected by a reinforcing bridge. By machining from one piece of Aluminum, imperfect ring alignment is reduced greatly. In addition, the bridge connecting the rings increases

the rigidity of the action. CZ's Scope mounting system incorporates a 19mm dovetail machined into the double square bridge of the receiver. By eliminating a separate base and screws used to attach the base, multiple opportunities for failure are eliminated completely from the system.

CZ's beautifully handcrafted shotguns merge old world craftsmanship with state of the art modern technology.

All CZ's double guns are built on frames proportionate to their gauge. For added durability all exterior barrels are hard black chromed with chrome lined interior. These affordable shotguns are topped off with hand checkered, select Turkish Walnut delighting the most discriminating aficionado.

.410 ga. and 16 ga. shotguns come with fixed chokes in improved cylinder and modified. All of the other CZ shotguns come with screw in chokes in Cylinder, Improved Cylinder, Improved Modified, Modified, and Full.

CZ's new line of shotguns is manufactured by a well-respected company with over 75 years of history in making shotguns. In the Turkish town where our shotguns are made, there are no restaurants, movie theaters, or internet cafes, but they do have sporting clays, trap, and skeet ranges. They know shotguns.

## OVER/UNDER

Over & Under shotguns have an aura about them. Traditionally a "gentleman's" gun, complicated to build, more delicate than a field grade pump, beautiful to behold, but above all expensive.

CZ is recasting the old image of the stack-barreled gun with a new line of Over & Unders that are still beauties to behold, but built as tough as the pump action duck guns from by gone years.

## REDHEAD

The Redhead comes with a single selective trigger and extractors (auto ejectors on 12 and 20 ga. models). The Redhead is available in 12, 20 and 28ga with screw-in chokes and choked IC & Mod in .410. Coin finished receiver.

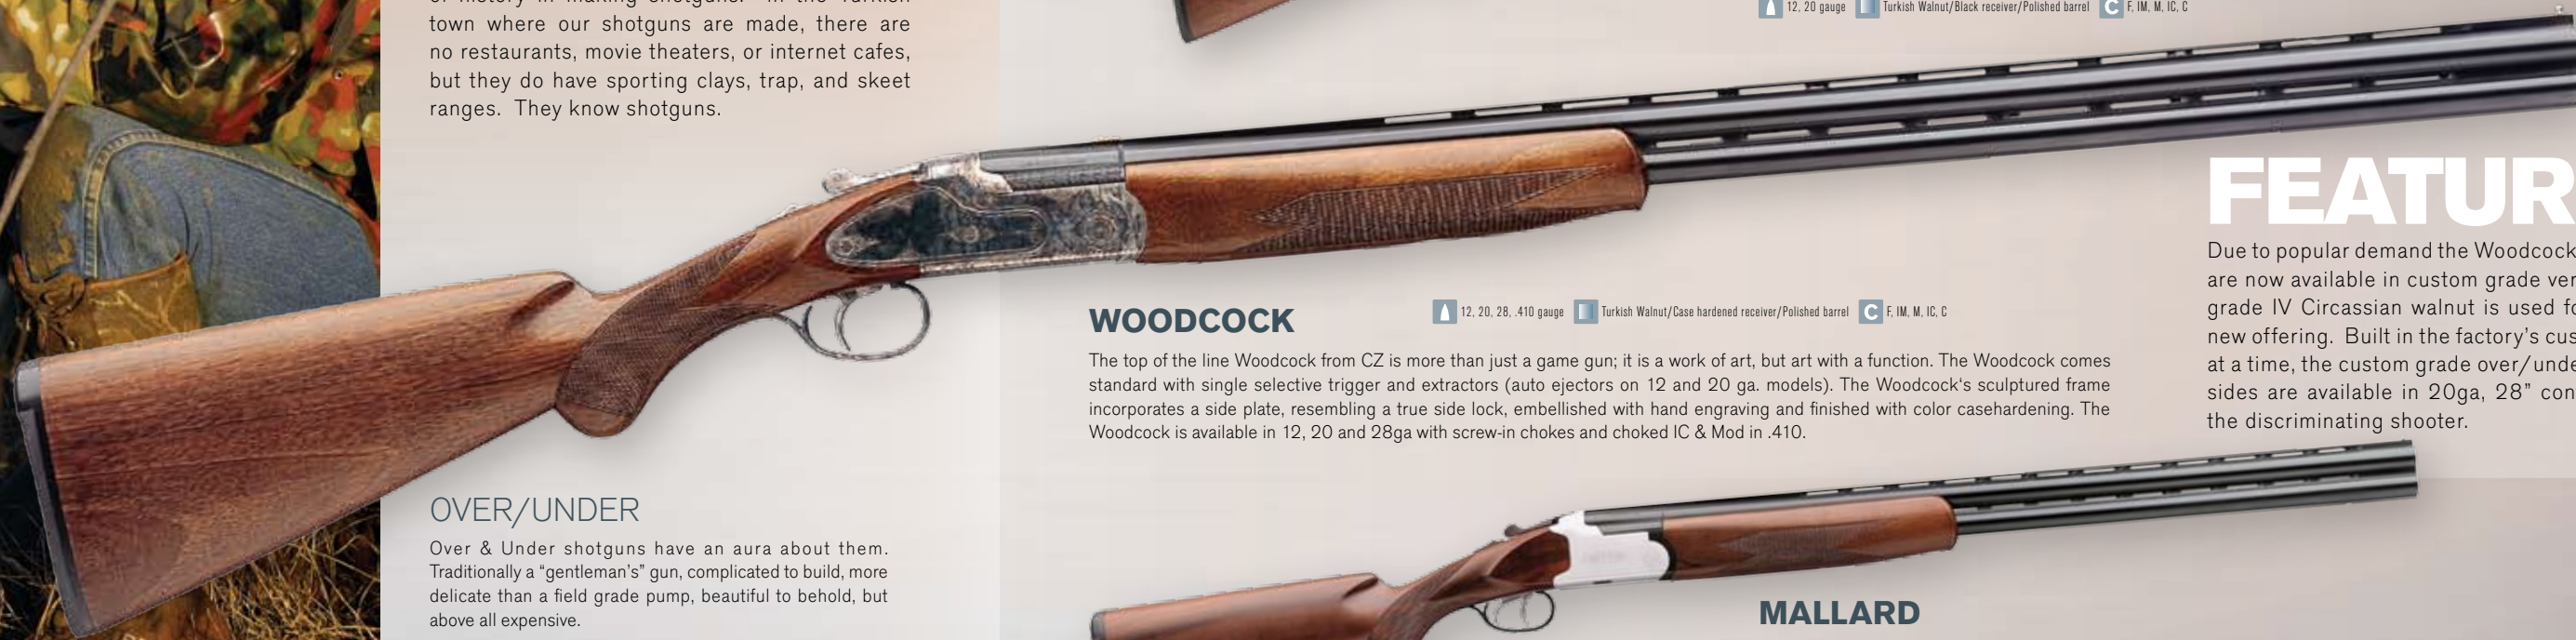

▲ 12, 20, 28, .410 gauge ■ Turkish Walnut/Silver receiver/Polished barre C F, IM, M, IC, C

## CANVASBACK

A single selective trigger is standard equipment on the Canvasback. The Canvasback is available in 12 and 20 ga, 26" or 28" barrels, with a set of 5 screw-in chokes. Black chrome finished receiver.

▲ 12, 20 gauge ■ Turkish Walnut/Black receiver/Polished barrel C F, IM, M, IC, C

## WOODCOCK

▲ 12, 20, 28, .410 gauge ■ Turkish Walnut/Case hardened receiver/Polished barrel C F, IM, M, IC, C

The top of the line Woodcock from CZ is more than just a game gun; it is a work of art, but art with a function. The Woodcock comes standard with single selective trigger and extractors (auto ejectors on 12 and 20 ga. models). The Woodcock's sculptured frame incorporates a side plate, resembling a true side lock, embellished with hand engraving and finished with color casehardening. The Woodcock is available in 12, 20 and 28ga with screw-in chokes and choked IC & Mod in .410.

# FEATURED

Due to popular demand the Woodcock and Ringneck are now available in custom grade versions. Select, grade IV Circassian walnut is used for this elegant new offering. Built in the factory's custom shop, one at a time, the custom grade over/unders and side by sides are available in 20ga, 28" configurations for the discriminating shooter.

## MALLARD

A no nonsense working double, the Mallard comes standard with double triggers and extractors. Available with 28" barrels in either 20ga. or 12ga. Coin finished receiver.

▲ 12, 20 gauge ■ Turkish Walnut/Silver receiver/Polished barrel C F, IM, M, IC, C

## SIDE BY SIDE

Fine upland game guns trace their lineage from the slender, well-balanced English guns developed for driven birds. Though perfect for their intended use, these fine double guns were built primarily for overhead shooting, where as the upland game in America is normally taken over a pointing dog at the flush. Whether ruffed grouse from thick New England cover or bobwhite in the Georgia pines, American upland game shooting is as often as not the quintessential snap-shot.

Designed for generations of heavy use, we're confident that your CZ classic game gun will become more than just your faithful companion afield, we hope it will become a family heirloom.

Durango

### DURANGO, AMARILLO

The CZ Durango has a single trigger, while the Amarillo has double triggers. Both feature hand checkered walnut stocks with an old style round knob pistol grip, 20 inch bbls, color case-hardened receivers. To give CZ toting Cowboys the advantage, the chambers have been "slicked up" to make the job of the extractors and fingers a little easier.

- A** 12, 20 gauge
- T** Turkish Walnut/Case hardened receiver/Polished barrel
- C** F, IM, M, IC, C

### HAMMER COACH

CZ's new hammer coach gun will make you think you're "riding shotgun" from the moment you pick it up. Following in the tradition of the guns used by the stagecoach guards of the 1880's, our newest cowboy gun features double triggers, 19th century color case-hardening and fully functional external hammers.

- A** 12 gauge
- T** Turkish Walnut/Case hardened receiver/Polished barrel
- C** M, IC

Ringneck

Bobwhite

Ringneck and Bobwhite now available in 16ga.

### BOBWHITE, RINGNECK

The Bobwhite features a straight English style grip and double triggers. The Ringneck sports a round knob pistol grip and a single trigger. Both are hand checkered 20 lines to the inch. 12, 20 and 28 ga. include 5 screw in chokes. 16 ga. and .410 bore have fixed chokes of IC & Mod.

- A** 12, 16, 20, 28, .410 gauge
- T** Turkish Walnut/Case hardened receiver/Polished barrel
- C** F, IM, M, IC, C

CZUB has been designing and manufacturing small arms since 1936. 70 years of experience has led to many innovative pistol designs, the most recent being the P-01, the 2075 RAMI, and the new CZ 75 SP-01. State-of-the-art technology, CNC machining

centers and skilled personnel, as well as the right attitude ensure that these designs are realized in the highest standards of quality, apparent in all of the handguns in the CZ-USA line.

## CZ 75

The CZ 75 B is issued by more government, military, police, and security agencies than any other pistol in the world. Designed in 1975, the CZ 75 utilizes all the best features from service pistols around the world. An entire family of pistols is available based on the basic CZ 75 design, compacts, decockers, single action only, ambidextrous, alloy frames and even competition pistols. More and more of the top pistol shooters in the US are choosing the CZ 75 family of pistols for both IPSC and IDPA competition.

*"The CZ 75 represents a significant step forward in autopistol design. In the thirty years since it first appeared, the CZ 75 has exerted an enormous influence on service pistol design, and it remains one of the best of the genre despite its age."*

Gene Gangarosa, Jr.  
Combat Handguns®, 2004

### CZ 75 MAIN FEATURES

- All steel construction (except alloy framed compacts)
- High capacity double stack magazines
- Hammer forged barrels
- Ergonomic grip and controls
- Unparalleled accuracy
- Slide-in-frame design for better recoil control
- 3 dot sighting system (Tritium night sights available)
- Easy operation of controls
- Smooth double action and crisp single action
- Extended service life due to advanced design and superior materials
- Firing pin block safety (except CZ 75 Kadet)

CZ Firearms are manufactured to exact tolerances on modern CNC machinery in a ISO 9001 certified factory. Here are highlights of our guns:

A. Forged Steel Slide | B. Steel Frame | C. Frame and slide are phosphate coated before the final polycoat finish is applied, achieving maximum corrosion resistance | D. Hammer forged one-piece bbl | E. DA/SA Trigger System: Smooth double and crisp single action | F. Checkered non-slip grips | G. Manual safety allows for cocked and locked or hammer down carry | H. Firing pin block safety | I. Double-stack high capacity magazine | J. Slide serrations for ease of operation | K. Squared, serrated trigger guard for multiple grip options | L. Magazine brake for tactical reloads | M. Large external extractor, unequaled for reliability | N. Slide in frame design for improved recoil handling | O. Ergonomic grip, faster pointing

### TACTICAL BLOCK

CZ's New Tactical Block is a modular system for CZ handguns that incorporates an impact tool, accessory rail, bayonet, and muzzle protector to prevent the slide from going out of battery as a result of muzzle contact. \*The Tactical Block fits most CZ 75 variants equipped with an accessory rail on the dust cover.

### LASER GRIPS

Once properly sighted in, the laser dot marks exactly where the bullet will strike, regardless of how the gun is being held. Raise the gun, grip it like you normally would to shoot, and a pressure-sensitive switch instinctively turns on the laser. The Crimson Trace laser vividly shows exactly where the gun is aiming at all times. This feature is extremely useful in training, low-light, high-stress and many other situations.

### CZ75 B STAINLESS

The new CZ 75 Stainless is the first stainless steel firearm that bears the CZ name. With the exception of an ambidextrous manual safety and rubber grips, the stainless version is functionally identical to the CZ 75 B. The only difference is an improvement in corrosion resistance. Many will argue that there is an improvement in appearance as well.

▲ 9mm Luger F Stainless Steel

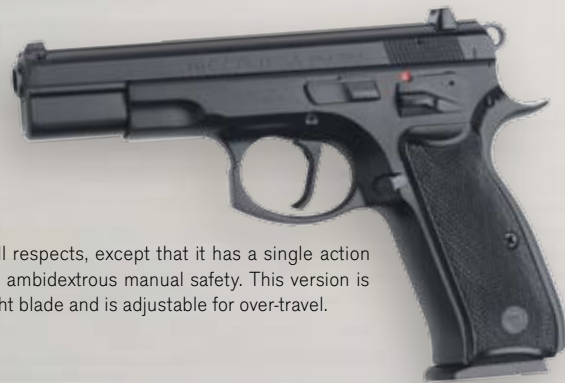

## CZ75 B

Designed in 1975, the CZ 75 utilizes all the best features from service pistols around the world. An entire family of pistols is available based on the basic CZ 75 design: compacts, decockers, single action only, ambidextrous, alloy frames as well as competition pistols.

**NEW!**

**A** 9mm Luger **F** Black polycoat, Glossy blue, Satin nickel, Dual tone (nickel frame/blue slide)

Now available with Crimson Trace LaserGrips!

## CZ75 SA

The SA model is identical to the CZ 75 B in all respects, except that it has a single action trigger mechanism, extended beavertail, and an ambidextrous manual safety. This version is perfect for sport shooting. The trigger is a straight blade and is adjustable for over-travel.

**A** 9mm Luger, .40 S&W **F** Black polycoat

## CZ75 B

In .40 S&W, the CZ 75 B features an ambidextrous manual safety.

**A** .40 S&W **F** Black polycoat, Glossy blue, Satin nickel, Dual tone (nickel frame/blue slide)

## CZ75 BD

This model is a decocker version of the basic CZ 75 B model. The decocking lever mounted on the left side allows the hammer to be easily lowered on a loaded chamber for a safe "hammer down" carry.

**A** 9mm Luger **F** Black polycoat

## CZ75 COMPACT

Shorter version of CZ 75 B with a 3.9" barrel.

**A** 9mm Luger **F** Black polycoat, Glossy blue, Satin nickel, Dual tone (nickel frame/blue slide)

## CZ75 COMPACT .40 S&W

New compact model is equipped with an ambidextrous manual safety, and a steel frame. The dust cover on the frame of the new compact model features an M3 rail to accept tactical lights and lasers.

With the versatility of the single/double action for hammer down or cocked and locked carry, 10+1 round magazine capacity, and an unloaded weight of 37.8 oz, the CZ 75 Compact in 40 S&W makes an excellent choice for concealed carry or duty weapon.

**A** .40 S&W **F** Black polycoat

## CZ75 D COMPACT

This light alloy frame de-cocker model features extended magazine release, low profile, snag-free sights, loaded chamber indicator, serrated front and back strap for improved handling, rubber grip panels and a lanyard loop in the butt.

**A** 9mm Luger **F** Black polycoat

## CZ75 KADET PISTOL

The Kadet pistol is the perfect training or plinking pistol, weighted and balanced just like the CZ 75. Like its centerfire counterpart the CZ 75 Kadet is an all steel model complete with adjustable sights.

**A** 22 LR **F** Black polycoat

## CZ75 KADET ADAPTER

Fits most CZ75 and CZ85 models including Compacts, SP-01 and the P-01. Does not fit 75 TS or Standard IPSC models.

**A** 22 LR **F** Black polycoat

## CZ75 SP-01 SHADOW

Designed by by CZ-USA Shooting team captain Angus Hobdell this pistol has all of the match components required. Featuring the CZ Competition Hammer, for smooth DA and light crisp SA trigger pull, CZ Competition Rear Sight, for a superior sight picture, CZ Fiber Optic Front sight for faster sight acquisition. Modified Slide Release, Lighter recoil and main spring for use with "minor power factor" competition ammunition. The Shadow is trimmed out with CZ's durable non-glare PolyCoat finish and slim coco bolo grips. Each gun is tested and zeroed before leaving the CZ Custom Shop.

▲ 9mm Luger F Black polycoat

## CZ75 SP-01

The CZ 75 SP-01 is the first full size handgun (4.72" bbl) from CZ to feature the improved manufacturing technology and ergonomics of the NATO approved CZ 75 Compact P-01 model. Featuring an integral 1913 accessory rail on the dust cover, rubber grip panels, and CZ's corrosion resistant black polycoat finish, the SP-01 is the newest model to join the family of pistols based on the CZ 75 (SA/DA) platform. Borrowing from the improved grip geometry of the CZ 75 Compact P-01, the SP-01 utilizes an extended beavertail to protect shooter's strong hand as well as allowing for a deeper and more secure grip. The new grip geometry with checkering in key areas on the front and back straps combined with the redistribution of mass provided by the accessory rail noticeably decreases the perceived recoil from previous models and allows for more rapid target acquisition and transitions.

The SP-01 was designed as a military and law enforcement duty sidearm. The new model is currently in use by security forces fighting the war on terrorism. Thanks to its exceptional accuracy and superior handling characteristics, the CZ 75 SP-01 has also found supporters in the field of sport and target shooting. Its list of users on the competition circuit include World Champions Adam Tyc and Angus Hobdell (1st and 3rd place respectively in 2005's IPSC championship, World Shoot XIV).

▲ 9mm Luger F Black polycoat

## CZ75 SP-01 TACTICAL

The Tactical variant of the SP-01 utilizes an ambidextrous decocker in place of the manual safety, and comes standard with 3 dot tritium night sights.

▲ 9mm Luger F Black polycoat

Angus Hobdell  
Steel Challenge Master 2006

See how our products perform under the demands of world class competition.

## CZ75 TACTICAL SPORT

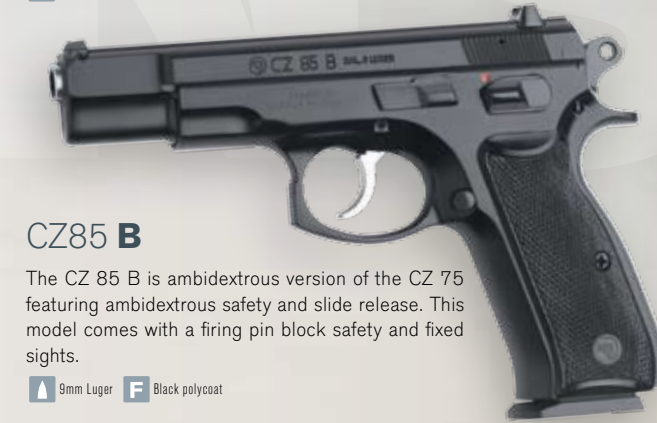

This model was built from the ground up for IPSC competition. With the addition of the 10 round Limited class (Limited 10) in USPSA (United States Practical Shooting Association), the CZ 75 Tactical Sport is the perfect gun for competition. The pistol features a longer, full-length dust cover and slide than the CZ 75 B and a slightly larger grip to accommodate the newly designed heavy duty magazine. Other features include: fixed rear sight, ambidextrous safety, extended magazine release, SA trigger, checkered front and rear strap and a gaping magazine well for the fastest magazine changes.

▲ 9mm Luger, .40 S&W F Dual tone (nickel frame/blue slide)

## CZ85 COMBAT

The CZ 85 combat is an upgraded model of the CZ 85 featuring an adjustable rear sight, drop free magazines and over-travel adjustable trigger. The lack of a firing pin block safety allows the replacement of the firing pin without tools, thus the "Combat" designation. The 85 Combat is used by top shooters in IDPA "Stock Service Pistol" division and USPSA "Production" division competition.

▲ 9mm Luger F Black polycoat, Glossy blue, Satin nickel, Dual tone (nickel frame/blue slide)

## CZ85 B

The CZ 85 B is ambidextrous version of the CZ 75 featuring ambidextrous safety and slide release. This model comes with a firing pin block safety and fixed sights.

▲ 9mm Luger F Black polycoat

Dual tone

## CZ P-01

**NEW!**

- Forged aircraft grade aluminum alloy frame for light but reliable day-to-day carry.
- Hammer forged barrel
- M3 rail to accept tactical lights and lasers
- Dual slide serrations for easy operation
- Re-contoured trigger for smoother, consistent trigger pulls
- Generous squared trigger guard for gloved hands, lanyard loop on butt
- Checkered rubber grips, serrated front and back strap for superior handling
- Easy disassembly for cleaning
- NATO SPEC, NSN 1005-16-000-8619
- Light alloy frame with decocker
- Enhanced geometry for better handling

### CZ P-01

The P-01 is based on the CZ 75 design, but with improvements in Metallurgy, quality control and design. The components of the P-01 are completely interchangeable. This required some very careful re-design so that the reliability and accuracy were not impaired. The P-01 is the only NATO spec pistol on the market that is available to the public. After 3 years of some of the most aggressive small arms testing ever, the CZ P-01 won the honor of replacing the CZ 75's previously used by the Czech National Police.

**Reliability:** The U.S. Army "Mean Rounds Between Failure" (MRBF) requirement is 495 rounds for 9mm pistols. During testing of the CZ P-01, the average number of stoppages was only 7 per 15,000 rounds fired, this is a .05% failure rate, an MRBF rate of 2142 rounds!

## CZ 2075 RAMI

- CZ 75 Quality and Reliability
- 6.5" long x 4.7" high x 1.25" wide
- 3" barrel
- Weighs less than 25 ounces
- SA/DA action
- Manual safety
- Low profile, snag-free sights
- 10+1 in 9mm, 8+1 in .40 S&W

### CZ2075 RAMI

The CZ 2075 RAMI is a sub-compact semi-automatic based on the proven CZ 75 line of pistols.

The trigger mechanism operates in selective DA and SA mode depending on the shooter's preferences. Several safety devices are used including a firing pin block and a manual safety. Incorporating the CZ double-stack magazine design, the little RAMI accommodates 10 rounds of 9mm Luger or 8 rounds of 40 S&W, plus 1 in the chamber.

With a 3" barrel, and unloaded weight of less than 25 ounces, the black polycat, alloy frame RAMI is ideal for concealed carry.

▲ 9mm Luger, .40 S&W F Black polycat

### CZ2075 RAMI P

The new CZ 2075 RAMI P trades the aluminum alloy frame of the original RAMI with one of polymer, and lightens the slide to make the new RAMI P even more carry friendly. The new model also adds more aggressive slide serrations and adjustable sights. The number of internal parts has also been decreased contributing to the reduction in weight and cost without a reduction in reliability.

▲ 9mm Luger, .40 S&W F Polymer

**NEW!**

## CZ 97 FEATURES

- .45 ACP
- SA/DA action
- All steel construction
- Dual slide serrations
- Wood grips
- Extended Beavertail
- Loaded chamber indicator
- Double stack magazine

## CZ 97 B

The CZ 97 B is the first .45 pistol made by CZ. It is operationally identical to the CZ 75 B (SA/DA action, firing pin block safety and magazine brake). The CZ 97 also features a loaded chamber indicator, screw in barrel bushing and its double stack magazine holds 10 rounds.

▲ .45 ACP F Black polycat, Glossy Blue

## CZ100 B

The CZ 100 pistol belongs to the new breed of high capacity semi-automatic pistols incorporating polymer frame technology. The combination of the polymer frame and steel slide reduces weight significantly, enhancing the comfort of day-to-day carry. The trigger mechanism is a DAO type, incorporating a firing pin block safety. Its elegant shape and design facilitates shooting in gloved hands. It also features loaded chamber indicator and adjustable 3 dot sights.

▲ 9mm Luger, .40 S&W F Black polycat

## CZ83

The CZ 83 is a compact all-steel semi-automatic handgun, designed on the blowback breech principle. The trigger mechanism is a DA/SA type. The CZ 83 features an ambidextrous manual safety, and magazine catch. The CZ 83 is an ideal concealed carry pistol.

## DW AGS (ALASKAN GUIDE SPECIAL)

The Dan Wesson Alaskan Guide Special is designed to be a companion on rugged outdoor adventures in the wilderness areas. From its modern frame and barrel design to the durable matte black "Yukon Coat" finish, the AGS is made to perform for the rugged outdoors person. Chambered in the mammoth 445 SuperMag Cartridge it will also allow the user to chamber and fire any of the standard 44 magnum variants (44 magnum, 44 special, and 445 SuperMag). Equipped with a 4" barrel and

compensated barrel shroud, the AGS is a powerful sidearm that will stop the meanest of large game and predators. The modern design and grip angle allows for a well balanced compensated revolver that tames the recoil and allows great control with the use of the powerful SuperMag cartridges. The barrel assembly is interchangeable with all Dan Wesson Firearms 445 SuperMag barrel assemblies.

optional grips shown

**NEW!**

Revolvers chambered in .357 Magnum are coming in late 2007

## VH8 FEATURES

- Single & double action
- Hand Polished stainless steel heat-treated alloy frame
- 416R stainless steel Match barrel
- Fully adjustable white outline rear sights
- Interchangeable front sight
- Hogue rubber finger groove grips
- Front cylinder/crane lock-up&rear compression ball
- Interchangeable barrel system
- 4 way barrel nut
- Barrel & grip removal tools included
- Vent Heavy 8" Barrel assembly, drilled & Tapped for scope mount
- Will chamber and fire .44 Special, .44 magnum and 445 SuperMag ammunition
- Master Gunsmith built

## DW VH8

The Dan Wesson 445 SuperMag is a versatile revolver system providing the options of ammunition and barrel interchangeability. The 445 SuperMag, with approximately 25%-35% more performance than the standard 44 Magnum, is a superior long range hunting and target revolver. Capable of knock-down performance surpassing 200 yards for Silhouette and 150 yards for hunting applications. Versatility in ammunition is natural to the 445, allowing the user to chamber and fire 445 SuperMag ammunition or any of the standard 44

caliber variants. You can also use 44 special and 44 magnum ammunition in your 445 SuperMag. The rugged design of the revolver allows it the strength to handle high performance cartridges demanded by today's hunting and long range target shooters. The modern design and grip angle allow for a well balanced revolver that tames the recoil and allows great control. Additional vent heavy and compensated barrel assemblies are available from 4" to 10" lengths and are easily changed by the customer.

## AGS FEATURES

- Single & double action
- Yukon Coat" stainless steel heat-treated alloy frame
- Fully adjustable white outline rear sights
- Interchangeable front sight
- Finger groove rubber grips
- Front cylinder/crane lock-up & rear compression ball
- Interchangeable barrel system
- Four-way barrel nut
- Barrel & grip removal tools included
- Will chamber and fire .44 Special, .44 magnum and .445 SuperMag ammunition
- Master Gunsmith built

## DW 1911 FEATURES

- Fitted '70 Series frame & slide
- Match grade 425 trigger group, adjustable trigger
- 416R Forged one piece stainless steel Match barrel
- Extended thumb safety
- Tuned Extractor
- Beveled magazine well
- Lowered & relieved ejection port
- Rear cocking serrations
- Extended magazine release
- Master gunsmith built

## DW COMMANDER CLASSIC BOBTAIL

The Dan Wesson Firearms 1911 Commander Bobtail is built around the innovative Ed Brown Bobtail carry feature. The abbreviated, curved mainspring housing makes the Commander 1911 size pistol a more discrete and comfortable carry companion with great control and fast pointing features. This pistol is fitted, hand polished and Master gunsmith built in the USA for decades of reliable service as a primary or back-up firearm. Available in 45 acp & 10mm.

## DW RZ-10

Due to overwhelming customer demand, the Dan Wesson Firearms Razorback 1911 is returning in one of its most popular configurations. The Razorback gets it's name from the serrated Clark style target rib machined on the top of the slide. Chambered in the powerful 10mm cartridge, the RZ-10 is a very versatile 1911 package suitable for target shooting and handgun hunting of medium sized game such as boar and deer.

## DW POINTMAN SEVEN

The Dan Wesson PM-7 is a true rock solid, 70 series 1911 match pistol, developed with the competitive and casual target shooter in mind. Hand crafted by Master Gunsmiths in the USA, this pistol is built to outperform customer's expectations. The model 7 incorporates many name brand custom grade parts from manufactures such as Ed Brown & STI, making the value packed Model 7 one of the best match pistols in its class. Available in 45 ACP & 10mm.

CZ's New Tactical Block is a modular system for CZ handguns that incorporates an impact tool, accessory rail, bayonet, and muzzle protector to prevent the slide from going out of battery as a result of muzzle contact. \*The Tactical Block fits most CZ 75 variants equipped with an accessory rail on the dust cover.

ABOUT OUR WEBSITE

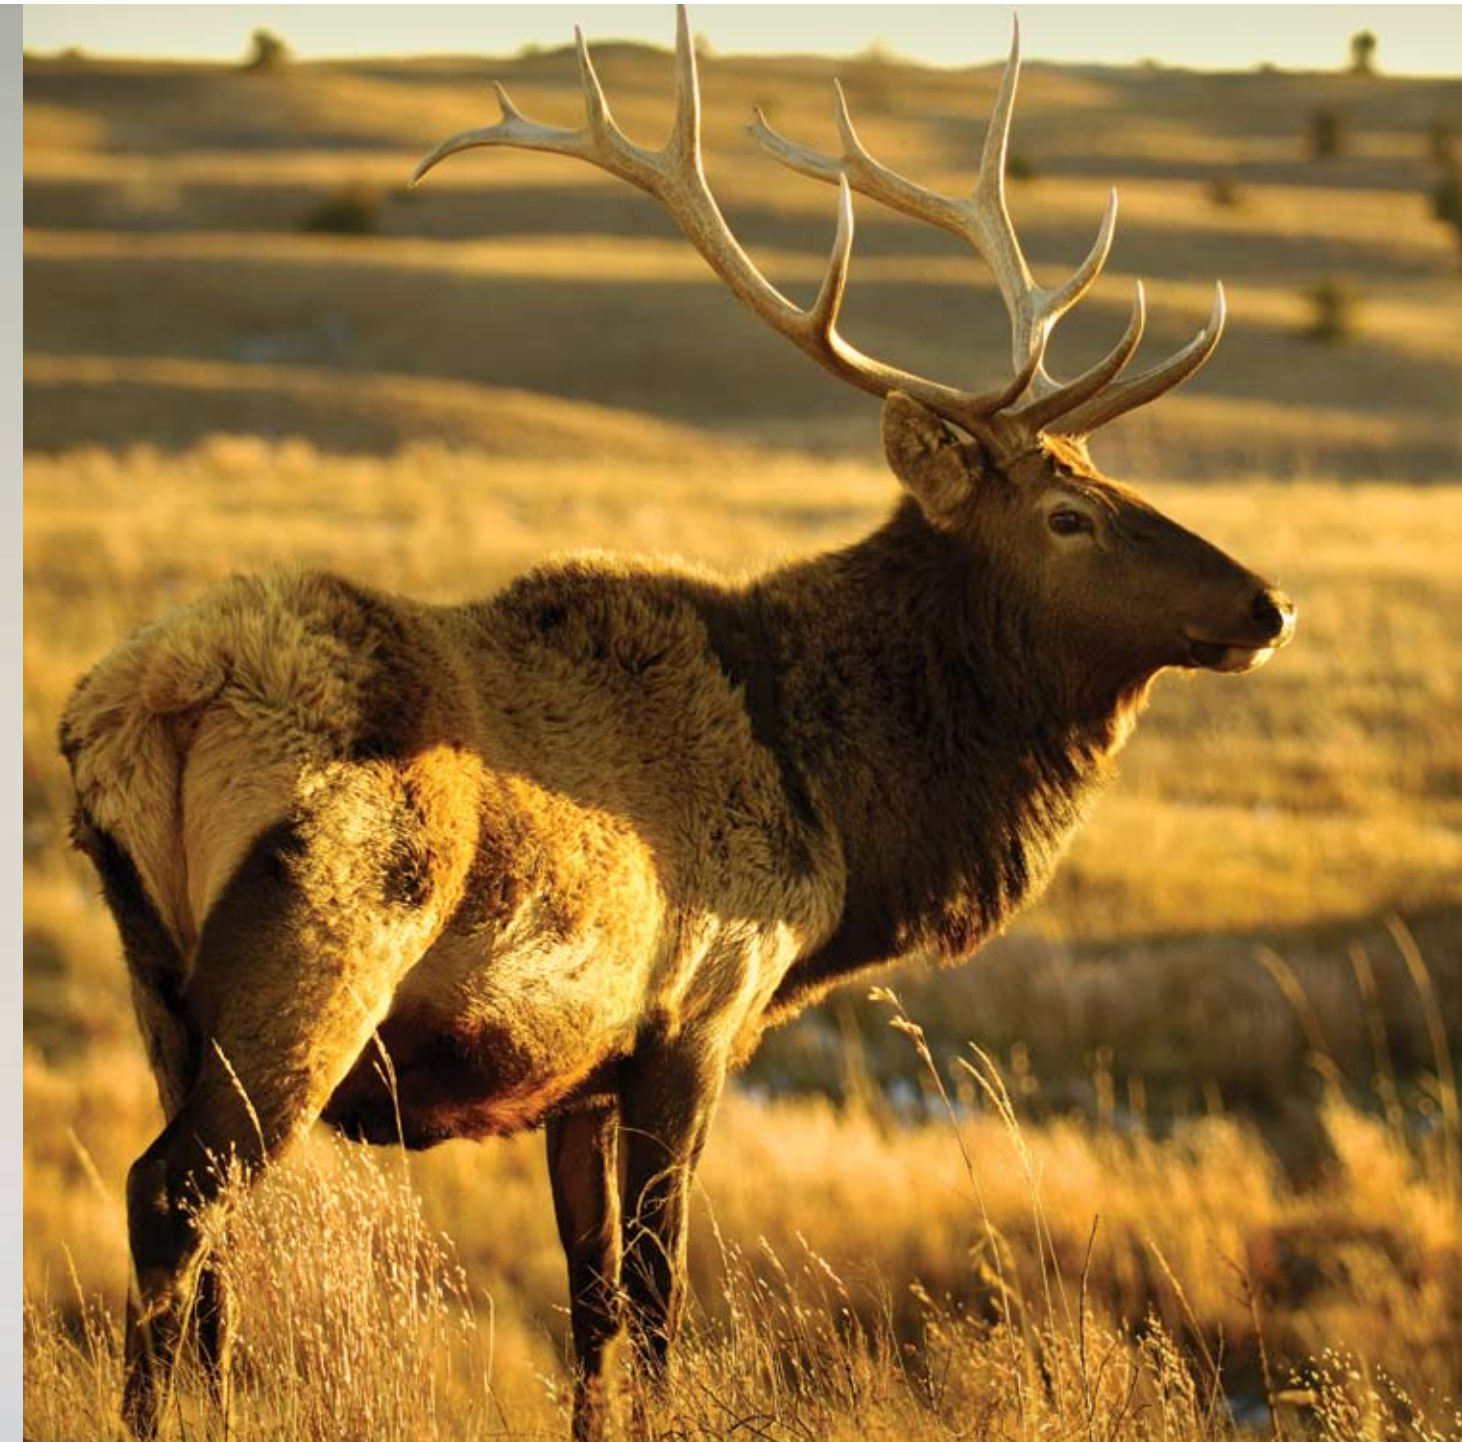

Feel free to browse through our website at [www.cz-usa.com](http://www.cz-usa.com) and take a virtual look at our catalog. This is where you can find: new products, CZ-USA authorized dealers, links to manufacturers of CZ accessories, and competition events where you can see CZ products in action.

For even more detailed information than you can find in the catalog, you can download the owner's manual from the website, or follow the link to the CZ Forum, where thousands of CZ enthusiasts share information all the time.
