“The LDA is rapidly becoming my favorite 1911. The funny thing is, I now shoot the LDA better than I do a single-action 1911.”

— Jeff John,
Guns Editor

page 16

page 18

Got PXT?

If you don't get a Para PXT 1911, you will hate yourself tomorrow.

The worse jam to have is a double feed. The extractor pulls off the case rim leaving an empty case in the chamber and the slide cycles and tries to feed a new round behind the stuck case. Only Para's exclusive Power Extractor Technology, PXT, prevents double feeds.

During research and development of the Para PXT we took a barrel and machined rings in the chamber so that when a round was fired the case could not come out. When the pistol was fired, the Para® PXT™ did not pull off the lodged case, instead it ripped right through the rim. If the case had been a normal stuck case, it would have come out of the chamber, preventing a double feed.

Don't risk a double feed. Get a Para PXT 1911 today.

The claw of the PXT is 50% larger than a standard extractor, and ripped through the rim of this lodged case.

SLIM HAWG
PSHX645S

The Slim Hawg combines the incredibly small frame of the Warthog with the timeless reliability of the single stack, single-action 1911. This stainless pistol holds 6+1 rounds of .45 ACP firepower, weighs a mere 30 ounces when empty and has Griptor™ grasping grooves to help control recoil and make every shot as accurate as possible.

NITE HAWG
NHX1045N

Para's special edition Nite Hawg has all the power of the super-compact Warthog, while boasting a non-reflective all-black finish and tritium night sights. Despite its small size, the Nite Hawg is also remarkably controllable, thanks to its superbly engineered and contoured grip design.

WARTHOG
WHX1045R

The original super-compact .45 with truly awesome firepower is the Para Warthog. There is no 1911-style, ten-round, semi-auto in the world smaller than the Warthog. The classic Warthog comes in Para's highly-durable Regal finish.

GET WARTHOG POWER

The Para Warthog is the world's smallest .45 ACP, 10+1 round, semi-automatic pistol. It is an extraordinary handgun... only 6.5 inches in length and 4.5 inches high including the magazine. And because of their popularity the Warthog family has grown.

The first addition to the world's most famous micro-1911 family is the Stainless Warthog. Like all Warthogs, the new Stainless Warthog comes with a match-grade ramped barrel and the exclusive Para Power Extractor™. For vital reliability in short-barreled 1911-type pistols, Para created the ultimate dual recoil spring assembly.

All Para pistols are shipped with two magazines. In the case of the Para Warthogs, there is a bonus on the second magazine – it comes with a grip extension. The floor plate on the second magazine adds length to the grip giving you more holding surface and better control, but without altering the capacity of the magazine.

STAINLESS WARTHOG

Product Code:
WHX1045S

High Capacity Heritage

Para invented big-bore high capacity when it introduced its double-stack .45 ACP frame over 20 years ago. As president and inventor, Ted Szabo knew if you are ever in a fight you can always use more ammo and the best place to have it was in the pistol in your hand.

LITE HAWG 9
Product Code:
RHX129E

THE ULTRA-COMPACT PARA WARTHOG

The Warthog was made for action. The pistol's compact frame makes it easy to carry into any situation, yet the small size won't mean a sacrifice in stopping power. The contoured grip and beavertail grip safety give you control over the pistol, without having to risk hammer bite.

Regardless of the situation, you can find the right Para Warthog to back you up. The classic Warthog gives you 10+ rounds of .45 ACP stopping power, while the Hawg 9 has 12* +1 rounds of 9mm.

Or the best Hawg for you may just be one of these with an integral light rail, so you can positively identify your target in low light. The new Lite Hawgs give you a choice of ten rounds of .45 ACP or a dozen rounds of 9mm in the magazine. The X2 combination mini-light and laser from Insight Technology is sold separately.

ONLINE: www.parahawg.com/litehawg

COVERT BLACK SLIM HAWG
PSHX645R

The new, light-weight Covert Black Slim Hawg combines the incredibly small frame of the Warthog with the timeless reliability of the single stack, single-action 1911. This alloy pistol holds 6+1 rounds of .45 ACP firepower, and weighs a mere 24 ounces when empty.

HAWG 9
WHX129R*

The Hawg 9 redefines "high-capacity" by giving you a full 12*+1 rounds of stopping power in a micro-compact frame. This pistol features Para's Regal finish and is chambered for the popular 9mm Luger cartridge and has our light-weight alloy frame.

LITE HAWG .45
RHX1045E

The new Lite Hawg .45, with its built-in light rail, gives you positive target acquisition regardless of the situation. The added heft of the solid steel frame makes felt recoil minimal even when shooting +P ammo. This pistol holds 10+1 rounds of .45 ACP firepower.

*Where restricted, models available with 10-round magazines.

The Best Service Policy

At Para, we believe that providing you with the best pistol means that we will stand behind that pistol 100% for as long as you own it. We will provide the original retail purchaser of any one of our pistols with all necessary service, free of charge, for the lifetime of the pistol, where adjustment or repair is required due to some defect in materials or workmanship.

PXT™ SINGLE-ACTION, SINGLE STACK

The Para Power Extractor™ is the revolution that created the ultimate 1911. Para's PXT technology eliminated the one weakness in the original 1911 design. Its massive Power Extractor gives you improved feeding and positive extraction of every round, shot after shot.

And for those who want compact and micro-compact pistols Para's exclusive Power Extractor increases their reliability. The Para LTC is the PXT version of the most popular 1911 compact pistol in the world. It has a 4.25-inch barrel on a full-size frame.

The Para LTC pistols just like all Para PXT 1911s give you more value for your money with custom extras that are standard such as match-grade ramped barrels, beavertail grip safeties, extended slide lock safeties and competition triggers.

In 2007, all Para full-size single-stack pistols come with two eight-round magazines. Once again Para continues its high capacity heritage with giving you extra capacity regardless of the size of the pistol.

ONLINE: www.parapxt.com/lcsc

1911 SSP
PX745E

This is our classic single-stack pistol with the ultimate Power Extractor technology. You can pay more money but you will not get a better 1911 anywhere. Standard on all PXT 1911 pistols are match-grade ramped barrels, beavertail grip safeties, extended slide lock safeties, competition triggers and hammers. The SSP adds a full-length guide rod, three white-dot fixed sights and our durable Regal Para Kote finish.

SSP-SE1
PX745E MB
Special Edition

Like all Para PXT 1911s, our first Special Edition pistol is for shooters. It has the custom extras you have most often asked us for, such as an ambidextrous safety, full-length guide rod and the Novak Extreme Duty® adjustable rear sight. Expensive and rare AAA Cocobolo stocks are hand rubbed to bring out their beauty.

STAINLESS SSP
PX745S

NEW

Now our classic PXT 1911 comes in all weather stainless steel. The new Stainless SSP comes with all the custom features that you expect including three white-dot fixed sights, two eight-round magazines and a brushed satin finish.

Fiber Optic Sight

A good sight picture is necessary to make every shot your best shot. That's why our NEW Interchangeable Fiber Optic Front Sight is included on both the new Tactical Duty SSP, and the Todd Jarrett USPSA Limited Edition .45. The fiber optic rod draws in all available light to create a bright, easy-to-see dot on your front sight.

TODD JARRETT
USPSA LIMITED
EDITION .45
Product Code:
PX745J

TAKE YOUR BEST SHOT

To hit your target there are two things your pistol must have: sights you can see, and a great trigger.

If you cannot see your sights, you cannot place your shot on the target. Practical and speed shooting champion Todd Jarrett knows this better than anyone else. When he designed his signature pistols for USPSA competition he specified a fiber optic front sight. In 2007, Para made its rugged and reliable fiber optic front sight standard on its Limited models and on the new Tactical Duty SSP 1911.

Once you have the most advanced iron sight picture in the world, you need to be able to make the shot. If your trigger pull is too heavy, or if it is crunchy with backlash, you are likely to jerk the sights off the target at that crucial moment and miss your shot.

That is why Para provides match grade hammers and triggers on all of its single-action pistols. Our match grade trigger gives you a clean, crisp release. That, combined with the fast lock time of our skeletonized hammer, assures when you press off the shot, you will hit your target.

ONLINE: www.parapxt.com/para1911

1911 LIMITED
SX745S

NEW

Classic design meets cutting edge technology in Para's 1911 Limited. This pistol has the reliable single-stack, single action 1911 frame, but adds the Power Extractor for feeding and extracting reliability, fiber optic front sight, adjustable rear sight, ambidextrous safety and a stunning Sterling finish make this your best looking best shooting 1911.

TODD JARRETT
USPSA LIMITED
EDITION .45
PX745J*

In 2006, the USPSA kicked off a new division for 1911 Single Stack pistols. The Todd Jarrett/USPSA Limited Edition .45 is the perfect pistol for you to win your class in this new division at your local USPSA club. This pistol features an ambidextrous safety, a fiber optic front sight, and Novak's Extreme Duty® adjustable rear sight.

1911 SSP
.38 SUPER
PX938P

And now, Para has given you yet another beautiful choice, this one is the PXT 1911 SSP in .38 Super with our new Bright Stainless finish and tough synthetic Mother of Pearl stocks (pictured above). The 1911 SSP is also available with cocobolo double-diamond checkered stocks, Product Code: PX938S.

The Best Triggers

The Para match-grade trigger with overtravel stop eliminates backlash for a clean, crisp break. Combine this with Para's competition hammer, which is skeletonized for quicker lock time, and each bullet is launched precisely upon your command. Align the sights, press the trigger, and hit your target. The best trigger brings out the champion in you.

BIG HAWG
Product Code:
PX1445R BH

P18-9
Product Code:
PX189S

PXT™ SINGLE-ACTION, HIGH CAPACITY

The Para Hi-Cap PXT™ has more custom extras as standard equipment than any other high capacity pistol in its class. From a full-length guide rod at the muzzle to the competition hammer at the rear of the slide, Para Power Extractor PXT pistols are loaded with extras. Each pistols includes our easy to depress beavertail grip safety, extended slide lock safety, match grade trigger with overtravel adjustment, skeletonized spur hammer for fast lock time and the best sight picture from our adjustable or three white-dot fixed sights.

Now, the world's most famous micro-1911, the Warthog, has a big brother. It is a full-size duty pistol with an alloy frame. The Big Hawg comes from the genius of Para that created the first production high capacity .45 ACP pistol, the P14-45. We know how much weight you already carry on your duty belt and this Hawg makes your burden a little lighter.

Like all Warthogs, the new Big Hawg comes with match grade ramped barrel, Power Extractor, three white-dot fixed sights and frame with integral plunger tube and grip screw bushings.

And just like our standard P14-45, the Big Hawg comes standard with custom extras you need to be the best shooter you can be.

ONLINE: www.parahawg.com/bighawg

BIG HAWG
PX1445R BH*

Para's new Big Hawg has all the power of the micro-compact Warthog pistols, only in a full-size, lightweight frame. This pistol has 14*+1 rounds of .45 ACP firepower, and features that will make you a better shot, like match grade ramped barrel, Power Extractor, three white-dot fixed sights and frame with integral plunger tube and grip screw bushings.

P14-45
PX1445S*

The P14-45 has become the standard in high capacity big-bore pistols with 14*+1 rounds of .45 ACP firepower. In rust-resistant stainless steel with a classic brushed finish, the P14-45 gives you rugged reliability with three-dot fixed sights for easy targeting.

P18-9
PX189S*

The full-size Para P18-9 offers the highest capacity, 18*+1 rounds, of any 9mm handgun produced today. This Para pistol gives you the winning combination of mild recoil with its full-size stainless steel frame, and a great sight picture from the fully adjustable rear sight.

*Where restricted, models available with 10-round magazines.

The Best Hammers

Para's skeletonized spur hammer has a faster lock time than conventional hammers. You get a clean, crisp release of the hammer each time you press our match-grade trigger, allowing you to break the shot precisely as you come on target.

TODD JARRETT USPSA LIMITED EDITION .40
Product Code: SX1640J

S14.45 LIMITED
Product Code: SX1445S

HI-CAPACITY SINGLE-ACTION LIMITED

Para pistols have always been known for outstanding out-of-the-box performance, from the first shot to the last. But Para is constantly striving to give you more options.

That's why Para offers our Limited Series models... a total package that includes all the most-asked-for custom features for a fraction of the price. Each Limited pistol has a full-length recoil guide system that eliminates spring bind. Front and rear slide serrations make for easier slide retraction. The competition trigger with an overtravel stop eliminates backlash and the ambidextrous safety facilitates southpaw or "support hand" shooting.

Para is a company of champions, and World Class shooter Todd Jarrett has designed the ultimate Para pistol to bring out the champion in you (pictured at left, Product Code: SX1640J). When you purchase a Todd Jarrett pistol, a portion of the proceeds go directly to USPSA, helping ensure that the shooting sports will continue for future generations of handgun owners.

ONLINE: www.parapxt.com/tjpistol

S14.45 LIMITED
SX1445S*

You could send your full-size .45 off to a custom pistolsmith, pay big bucks and wait for months... and not have a gun approaching the out-of-the-box performance of the Para S14.45 Limited. This pistol offers a full 14*+1 rounds of powerful .45ACP firepower, where legal.

S16.40 LIMITED
SX1640S*

The S16.40 Limited has the incomparable Power Extractor™ for feeding and extracting reliability, 16*+1 round .40 S&W firepower, and a host of custom-shop extras. In fact, when World Champion Todd Jarrett is competing in single-action USPSA events, the Para S16.40 Limited is his gun of choice.

TODD JARRETT USPSA LIMITED EDITION .40
SX1640J*

This customized competition pistol features Novak Extreme Duty® adjustable rear sight combined with a fiber optic front sight which absorbs light to give you the best sight picture even at dusk. It also has a magazine well as cavernous as "Jaws" so you can smoke reloads like Todd.

*Where restricted, models available with 10-round magazines.

CARRY 9

Product Code:
CWX79R

NEW

LDA SINGLE STACK CARRY OPTION™

When you're going undercover, you need a carry pistol that is compact and easy to conceal.

Para's award-winning Carry Safe™ line of pistols with their triple safety system let you carry them hammer-down but ready for action when needed. And all of the Para Carry Option pistols have flush hammers and a rounded grip safety to prevent snagging on clothing. Add the reliability of the Para Power Extractor™ and the LDA's sweet trigger and you have a series of carry pistols that can't be beat.

New for 2007 are the Para Carry 9 in 9mm and two models in .45 GAP. The Carry 9 is a 9-round pistol (8 in the magazine and one in the chamber). The Carry Gap and CCO Gap pistols have the stopping power of the .45 ACP, but the compact .45 GAP cartridge means you get a smaller frame and a more compact grip for better recoil control. Only Para gives you the options you want on Carry Safe pistols.

ONLINE: www.para-lda.com/gap

CARRY
CWX645S

The award-winning Para Carry, measuring just 6.5 inches long and 4.75 inches high, was declared the "World's Smallest DAO .45 Auto" by the editors of GUNS & AMMO magazine when it was introduced in 2001. Yet this small pistol also proves to be remarkably controllable, thanks to the Griptor grasping grooves and smooth pull of the LDA trigger.

CCO
CWX745S

With its 3.5-inch barrel and extra concealability features, this may well be the ultimate defensive handgun. This one has it all... 7+1 rounds of .45 ACP in its compact frame, flush hammer and bobbed beavertail, and the new Griptor grasping grooves on the front strap of the pistol that aid in controlling recoil during rapid fire.

CCW
CCWX745S

Winner of the 2003 GUNS & AMMO Gun of the Year Award, the Para CCW is one of a special series of single stack LDA autos engineered to offer the ideal balance between concealability and shootability, and what handgun writer Wiley Clapp refers to as perhaps "the optimum concealed carry pistol." The 4.25-inch barrel and noticeably short pistol butt make for a compact handgun that's easy to carry.

Novak Sights from Para

Novak's Extreme Duty® adjustable rear sight is available on the Covert Black Carry (Product Code: CWX645B) and other select models. The Novak sight has tough sides to protect the wide, rear sight blade giving you the precision of a target sight picture with the durability of a fixed sight. And, the sight has Novak's famous snag-free contours for easy carry.

Hawg Power: Put it to Work for You

Our family of Hawgs started with the world's best micro-compact 1911, the Warthog. In Para's High Capacity tradition, we made the Warthog a 10-round pistol. The compact, hi-cap Warthog is ready to go into any theatre of action. Since the first Hawg, you have asked for single-stack versions like the Slim Hawg and the new alloy-frame Covert Black Slim Hawg. Sometimes you just need a BIG HAWG and it is here, with a light-weight 14-round frame. Put the power of a Para Hawg to work for you today.

The Best Protection

Para is the company that made High Capacity and Light Double-Action synonymous with .45 ACP. Para's Carry Option pistols are the ultimate defensive handguns thanks to the security and shootability of the LDA trigger system plus flush hammer, bobbed beavertail and low-profile slide lock safety for concealability.

ONLINE: www.para-lda.com/hicapcarry

ON DUTY WITH PARA

There are places no one wants to go: dark, dangerous and with an uncertain fortune at the other end. Para builds tough guns for tough guys who defend and protect the common good.

At Para, we want to give you the option of carrying the best with no compromise, that's why Para gives you the most choices – from ultra flat, single stack to high capacity carry pistols. And only Para Carry Safe™ pistols give you the confidence of a hammer-down carry with the assurance of our triple safety system on all LDA pistols. Many agencies have already tested and approved Para for both on- and off-duty use; perhaps your agency should find out why.

INDIVIDUAL OFFICER PURCHASE

For those in Law Enforcement who have to purchase their own duty pistols, or simply choose to carry the latest technology, Para has the easiest program in the industry for you. We have a special Individual Officer Purchase Kit that you can use at any storefront gun shop in the country. Everything about this program is tailored for you, the Law Enforcement professional. Call us today to receive your Para Individual Officer Purchase Kit.

ONLINE: www.para-lda.com/officer

CARRY 12
CTX1245N*

Para's Carry 12 is one of the most powerful carry pistols on the market today. With a 3.5-inch barrel and 12*+1 rounds of .45 ACP, you get a gun that is easy to conceal but won't make you sacrifice any fire-power. And it comes standard with low-mount, three-dot tritium night sights for easier target acquisition regardless of the situation.

TAC-FOUR
CTX1345S*

Although the Tac-Four is designed as a defensive handgun, don't be surprised at competition-level results when you take it to the range... the remarkable anti-flinch LDA trigger system is that good! The flush hammer and bobbed beavertail make for a more concealable, snag-free and easy-drawing package.

TAC-FORTY
CTX1540S*

The Newest LDA, the Tac-Forty, makes you a champion everyday. With 15 rounds of .40 caliber firepower in a duty sized pistol, this pistol is made for you - especially if you serve and protect the common good. This pistol gives you the security of a hammer-down carry for a lightning fast first shot, and the famous 1911 grip lets you hit where you point.

*Where restricted, models available with 10-round magazines.

The Best Double-Action

Para's LDA, or Light Double-Action, triggers are a known advantage on the range where the smooth trigger pull helps you hit your target more consistently, shot after shot. But the advantage doesn't stop there. Para's LDA Carry Safe pistols allow a hammer-down carry for instant readiness and a trigger pull so light and smooth, that you'll be less likely to jerk your shot off target.

BLACK WATCH COMPANION
Product Code:
CX7455

TAC-S
Product Code:
DCX745E

LDA SINGLE STACK

While many people in the industry have tried to create a double-action autoloading pistol, they have always had to struggle against the heavy trigger pull that was required to cock and release the hammer. But it was the genius of Para that finally broke through the old way of thinking. Para refused to accept that a double-action trigger had to be long and heavy, making it hard to hit your target.

Para's light double-action (LDA) trigger system gives you the smoothest trigger you have ever felt on a double-action handgun of any kind, whether it is a revolver or an autoloader.

The LDA was not invented to replace the single-action trigger on the 1911 pistol. We could have put the LDA trigger into any style of pistol. We consider the ergonomics of the 1911-type pistol to be the best in the world for an autoloading pistol.

For those who must have a hammer-down carry, or just prefer a double-action trigger, we give you the LDA with its natural stroke that is consistent every pull. It is the sweetest trigger you have ever tried!

BLACK WATCH COMPANION
CX7455

The Black Watch Companion combines great looks, single stack slimness, and, chambered in the potent .45 ACP caliber, it is a defensive pistol worthy of protecting a king. The Black Watch Companion has Para's ultimate Light Double-Action (LDA) trigger system, and holds 7+1 rounds of .45 firepower.

TAC-S
DCX745E

The Tac-S is the single stack version of Para's best selling high capacity LDA, the Tac-Four. You get the great feel of a 1911-style pistol with a trigger that makes you a better marksman. The Tac-S gives you 8+1 rounds of potent .45 ACP firepower, solid steel construction, and the security and shootability of the LDA trigger system.

LDA SSP
DX7455

The LDA Super Sport Pistol is Para's full-size single stack pistol. The LDA SSP combines the natural balance and pointability that comes from the classically slim single stack design with the impressively smooth trigger pull that only an LDA pistol can give you.

The Best Double-Tap

The famous "Double-Tap" is the requirement on most USPSA/IPSC targets. Practical shooters train to place two shots with two flash sight pictures as quickly as possible on the cardboard targets. Shoot too fast and you get one A and one B or C, or even worse, one A and a miss. The natural stroke of the LDA trigger gives you an extra couple of hundredths of a second between flash sight pictures—just long enough to let the front sight settle in the rear notch giving you two A hits. Winning is Sweet.

LDA HI-CAP LIMITED

The Para LDA High Capacity Limited pistols are the best of the best. You have the winning advantage of the remarkable Light Double-Action trigger, combined with our famous high capacity frame and all the extra features you would expect from a custom shop pistol.

You can purchase a Para pistol with confidence, knowing that Para maintains the highest quality control standard in the firearms industry – bar none! While several competitors boast that their barrels are air-gauged to verify consistency within one thousandth of an inch (.001"), Para works to a match-grade plus or minus four ten-thousandths of an inch (+/- .0004").

Para's Limited LDA models have been especially popular with those who protect our communities and the nation by serving in law enforcement. The Limited LDAs, with extras standard like ambidextrous safety and adjustable sights in highly effective calibers like .40 S&W and .45 ACP as well as 9mm, bring out the best marksman in you. So whether you're on duty, or shooting competitively on the range, you can rest at ease, knowing that your pistol will never give you anything less than the best.

ONLINE: www.para-lda.com/limited

HI-CAP .45
DX1445S*

The Hi-Cap .45 gives you 14*+1 rounds of .45 ACP stopping power. This full-size semi-auto incorporates the three vital LDA safety features: a thumb safety that disengages the trigger; a grip safety that locks the hammer assembly; and an internal firing-pin-block to guard against the possibility of accidental discharge.

COVERT BLACK
HI-CAP .45
DX1445E*

The Covert Black Hi-Cap .45 is the classy all-black version of this full-size LDA pistol. The non-reflective baked on finish is highly durable and gives this pistol a look that can't be beat. Only Para has ramped barrels and the patented technology of the new Power Extractor™ for ultimate reliability and accuracy.

HI-CAP
LTD .45
TX1445S*

The Hi-Cap Limited .45 gives you the latest in shooting technology. This superb pistol holds 14*+1 rounds of powerful .45 ACP, has an incomparably light double-action trigger pull, and includes as standard all of the extras that will make you a better shooter.

*Where restricted, models available with 10-round magazines.

LIGHT THE NIGHT: No Targets Unseen!

Now, Para has created the ultimate duty pistol with the addition of our universal light rail to both Para's LDA high capacity pistols, and to classic single stack models. The new Para Nite-Tac cuts through the darkness and illuminates your subject for positive threat identification. Lights sold separately.

LIGHT RAIL PISTOLS

Para continues to listen to its customers. You asked for our popular Nite-Tac LDA with a thinner, narrower frame. You got it. The Para LDA Nite-Tacs with universal light rail and our incredible light double-action (LDA) trigger system are now available with classic single stack frames. Para gives you the choice of steel frames with the Covert Black Para Kote finish or stainless steel with the classic brushed stainless finish.

Like all Nite-Tacs, add your favorite light, or light and laser to our universal rail underneath the dustshield of the pistol. Para spared no expense in designing this frame. The massive integral light rail reinforces the dustshield of the traditional 1911-style pistol and it is beefed up for hard work. It will not flex like add on light rails bolted to thinner dustshields.

Get the Nite-Tac that best fits your hands and cut through the darkness to illuminate your target.

ONLINE: www.para-lda.com/nitetac

Para's classic single-action, single stack 1911 pistol is now outfitted with a light rail. The Covert Black 1911 Nite-Tac has a competition hammer, a full-length guide and the clean, crisp trigger release that you are used to on the Para PXT 1911s. This pistol also comes in rust-resistant stainless steel, Product Code PRX745S.

If you want a single-stack Nite-Tac pistol with a Light Double-Action (LDA) trigger, this is it. The LDA trigger offers you a hammer down carry and the sweetest, smoothest trigger of any double-action pistol in the world. This pistol is also available in Para's non-reflective black Para Kote Finish, Product Code is RX745B.

The new Covert Black Nite-Tac .45 comes in carbon steel with our tough Para Kote non-reflective Covert Black finish, shown above, or in brushed stainless steel (Product Code: RX1445S). Each Nite-Tac has a five-inch barrel, three-dot fixed sights and weighs 41 ounces empty without a light attached. Lights are sold separately.

*Where restricted, models available with 10-round magazines.

Todd has used Para pistols exclusively for the last 15 years, logging over a million rounds of ammunition through them as he has competed in practical shooting competition.

SHOOT WITH THE BEST...

Todd Jarrett has been a dominant force in practical shooting in the United States for the past decade. This soft spoken southern gentleman makes legends quiver in their holsters when he approaches the shooting line.

Then as he burns down the field course shooting "A"s faster than they can imagine with his tuned Para pistol they shake their heads and wonder what to do next.

Todd has won nine US National Titles, and over 60 area and state championships. He has been a member of the United States Practical Shooting Association

Todd Jarrett USPSA Limited Edition .40
Product Code: SX1640J

(USPSA) "Gold Team" since 1990. He has competed internationally since 1992 and held the International Confederation's (IPSC) World Champion title from 1996 to 1999.

He is the only USPSA Triple Crown winner, the first Grand Master to have won National Championships in all four USPSA handgun divisions, in addition to being a three-time Steel Master in World Speed Shooting competition.

A true champion, Todd loves to share his winning knowledge with others. He has designed two single-action Para pistols for practical shooting so you too can have the Para winning edge.

PARA PRO SHOP

The Para Pro Shop is your source in the U.S.A. for original Para-Ordnance factory magazines, Para wearing apparel and other Para logo accessories for shooters. Browse products and shop online at the Para Pro Shop website: www.paraproshop.com, or Call Toll-Free: (888) 999-9386.

A. Para PXT Green Polo Shirt - Product# 0000900

This shirt has embroidered Para and PXT logos on it. Sizes M-XL.

B. Para PXT Tan Cap - Product# 0000800

Tan cap with embroidered Para and PXT logos on it. One size fits all.

C. Leather Waistbelt Pack with Holster Pocket - Product# 0001000

This waistbelt pack has four zippered pockets.

D. PXT Magazines

All Para PXT magazines are made in our factory to exacting specifications so they perfectly fit your Para pistol. The magazine tubes are made of high tensile strength steel and carefully formed on precision dies. The back of the tubes are meticulously welded so they are virtually seamless. The tubes are then plated with a special nickel formula to reduce rusting and increase lubricity.

PXT MAGAZINES

The Pro Shop offers a full selection of factory magazines for every type of Para pistol. Use the chart below to determine the appropriate magazine for your model pistol.

Closing the GAP Between Design, and Delivery

My passion has always been John Browning's 1911 pistol. I have said in the past and I still believe today that "it is the best platform for an auto-loading pistol." It's been my vision to both improve that platform and give you more options, so you can choose the right pistol for your situation.

When Gaston Glock came out with his short version of the .45 ACP cartridge many asked why we needed a duplicate of the world's greatest defense cartridge. I immediately recognized the advantage of the .45 GAP cartridge. With today's advanced powders and superior case designs, you could have the same firepower in a shorter cartridge. This meant that you could bring the proven advantage of the .45 ACP cartridge to more people.

We are a world of individuals; we all have different size hands. Make the cartridge shorter and you decrease the size of the magazine and the frame as well. Thus, the pistol's grip is smaller in circumference and fits more hands.

I reasoned that in a compact pistol, you want the ergonomics of the 1911 grip angle but in a carry pistol you do not want to carry it "cocked and locked." It is too easy for the pistol to become "cocked and unlocked."

My development of the LDA trigger system provides a hammer down carry with the advantage of a fast and smooth first shot. Two years ago, we brought a couple of LDA .45 GAP prototypes to the SHOT Show to get people's opinions of them.

A lot of people with small hands told us they liked how the prototype GAP pistols fit their hands. But, I was really surprised when a big, burley DEA agent came up and told us that he thought they were the perfect size .45 caliber carry pistols. The response of the public was unanimous, we should build them.

I am pleased that our new LDA Carry Gap with a 3-inch barrel and the LDA CCO Gap with a 3.5-inch barrel are now available. You asked for it. We said we would make it. Once again, we have kept our promise to you.
