

Remington®

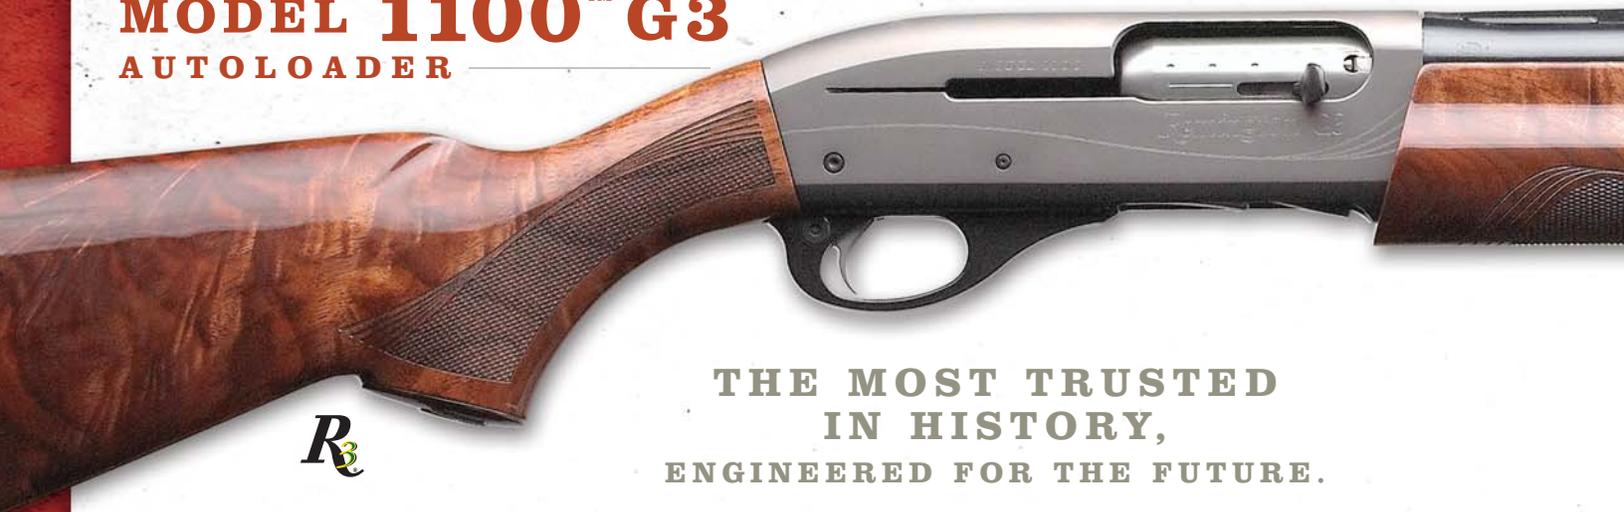

2007 SEASONAL PRODUCTS GUIDE

MODEL 1100™ G3

AUTOLOADER

THE MOST TRUSTED
IN HISTORY,
ENGINEERED FOR THE FUTURE.

Soft recoil, dependability, balanced pointing characteristics – the Model 1100™ G3 is all that made the original Model 1100 America's most trusted semi-auto shotgun, only better.

Available in 12 and 20 gauge, its improved, technologically advanced gas system cycles 2 3/4" and 3" magnum loads with equal efficiency. By coating key internal parts with Teflon®, we've created an action that's easier to clean, smoother and more reliable. The Titanium PVD-coated receiver adds durability and a great new look. Then there's Realwood™ our exclusive high-grade walnut construction that meshes the woods with carbon reinforcements for striking looks that will withstand extreme abuse.

No autoloader has folded more birds or crushed more targets than the venerable Model 1100. We're proud to announce the legacy has advanced – welcome the next generation, the Model 1100 G3.

CUSTOM-MADE TRAVEL CASE INCLUDED

COMPETITION

SHOTGUNS

CONFIDENCE
IS OFFICIALLY TANGIBLE.

There's no firearm better equipped for the high-volume regimen of today's elite shooters than the Model 1100™ Competition. Whether you're a seasoned pro or a weekend enthusiast, this shotgun will truly put you at the top of your game.

By overboring the 30" barrel, we improved shot-to-shot pattern consistency and made what was one of the softest-recoiling actions in the world even easier on your shoulder. The receiver and all internal parts feature a nickel-Teflon® finish for the smoothest, most reliable cycling ever. It's optimized for 2 3/4" target loads and light field loads. And with an optional adjustable comb, you can fine-tune the stock to your mount. The barrel has 10mm target-style rib. All these, plus a host of other upgrades transform an already legendary design into a super-tuned machine for the competitive scene.

The Model 1100™ Tournament Skeet is still setting records. This quick, smooth-swinging semi has a 26" barrel, and is available in both 12- and 20-gauge versions. Our Model 1100 Sporting Series offers discriminating shooters 12, 20, 28 and 410 options. The guns that started it all, the Model 1100 Classic Trap and famous Model 870™ Classic Trap, continue to crush their way to the top of major events every year.

MODEL 1100™ COMPETITION

MODEL 1100™ G3

MODEL 1100™ G3
12 gauge

Remington® Realwood™ construction. This Remington-exclusive process bonds two pieces of solid, semi-fancy American walnut with a carbon reinforcement to produce an amazing blend of strength, durability and stunning good looks.

PREMIER® STS® OVER & UNDER

A CRUSHING DEVELOPMENT.

Developed using input from professional shooters worldwide, our 12-gauge Premier® STS® Series Competition Over and Under is quickly grinding its way to the top of the competitive scene. Superbly balanced with a sleek, low-profile receiver and built rock-solid, it's taking command of sporting clays, trap and skeet fields everywhere.

Every facet of its design is optimized to excel in high-speed, high-volume shooting sports arenas. The barrels are overbored (0.735") with lengthened forcing cones to enhance pattern consistency and lessen felt recoil. For ultra-smooth operation and long-term protection from heat and wear, we added an electroless nickel-plated receiver. A 10mm target-style rib with ivory front bead and steel midpost aid in target acquisition. We even fine-tuned the point of impact using input from professional target shooters. A set of five ProBore™ choke tubes with knurled extensions helps you quickly adapt to changing conditions and courses.

For added comfort, there's a right-hand palm swell, and the lustrous gloss wood finish is complemented by a gold trigger and engraved receiver. Other features include a target-Schnabeled fore-end and premium hard case. Barrels are offered in both 28" and 30" lengths. At Remington, we don't stay the course, we master it. A few rounds through the Premier STS Competition will be all the proof you need.

MODEL SPR310™ & SPR100™

JUST THE BREAK YOU'VE BEEN LOOKING FOR.

A solid, dependable break-action shotgun should be part of every target shooter's arsenal. When they're priced like this, we'd recommend two. Two in particular. Our SPR Over and Unders have superb balance, a natural point and an impressive list of features you'll find on much more expensive guns. The Sporting model has a single selective trigger, auto selective ejectors, richly blued chrome-lined barrels, checkered walnut stock and fore-end, and more.

SPR 100 Single Shots are rugged, smooth-handling shotguns we produce for a modest price while maintaining our strict standards for performance. Three models: Sporting/Trap, Youth Vent Rib and the MAX Nickel .410.

CHROME-LINED BARRELS

MODEL SP-10™ SPECIAL PURPOSE

A PERFECT 10.

It's America's most popular 10 gauge for a reason. A smooth operator, the Model SP-10™ features a corrosion-resistant gas system, in which the cylinder — not the piston — moves, helping soften the recoil. Built to excel in extreme conditions, the Model SP-10 delivers the ultimate 3 1/2" bird-leveling payload.

Reach out and bust a tom in grand fashion with our new Model SP-10™ Thumbhole Camo. Its thumbhole stock, adjustable Williams® fiber-optic Fire Sights™ and handy 23" barrel make it the ultimate gobbler stopper. It's also fully decked in Mossy Oak® Obsession™ camo.

Other models come equipped with 26" or 30" vent-rib Rem™ Choke barrels with twin beads and interchangeable Full and Modified Rem chokes. Choose Mossy Oak® Obsession™ or Satin finishes. All models feature R3® recoil pads with LimbSaver® technology for enhanced shooting comfort.

MODEL 11-87™ SUPER MAGNUM

PULL A SUPER MAG FAST ONE ON THAT OLD LONGBEARD.

Take thunderous command of the turkey woods with our 12-gauge Model 11-87™ Super Magnum™ Special Purpose Turkey Shotguns. The fast, reliable gas-operated actions will handle the most massive 2 3/4" magnum to 3 1/2" Super Magnum turkey loads on the market with flawless efficiency. Whether you prefer the traditional styling of the SPS-T™ or the Thumbhole Stock model with its added features, these shotguns are ready to go the distance. In fact, both models include Super-Full Turkey Rem™ Chokes to stretch your kill zone.

The SP-T™ Super Magnum Thumbhole's stock design offers exceptional stability and comfort, and even helps lessen felt recoil. It's equipped with adjustable Truglo® fiber-optic sights for long-range accuracy and enhanced visibility. Our SPS-T™ features twin beads. Both models have 23" barrels for quick handling and are fully decked in ultra-effective Mossy Oak® Obsession™ camouflage. Trust us, nothing can prepare that old gobbler for this team of heavy hitters.

MODEL 870™ SPECIAL PURPOSE TURKEY

TAKING SPECIALIZED TURKEY SHOTGUNS TO THE MAX.

Maximum distance and accuracy inspire every model in our Special Purpose Turkey line, and our latest addition is an absolute masterpiece. Introducing the New 870™ Super Magnum™ MAX Gobbler. Its Knox® SpecOps™ pistol-grip stock has an adjustable length of pull and uses state-of-the-art recoil-dampening technology, including an R3® recoil pad with LimbSaver® technology, for the steadiest, most comfortable shot possible. Fast handling and precise shot placement are hallmarks of the 23" barrel, outfitted with bright, fully adjustable Williams® fiber-optic Fire-Sights for awesome low-light performance. And to ensure you'll be the last thing that boss tom never sees, we also dressed our new design in the new Realtree APG™ camo. Paired with 12-gauge, 3 1/2" Wingmaster™ HD Turkey loads and a Super-Full Rem™ Choke, this gun truly redefines lethal shotgun range.

Other specialized hard-hitters include the Model 870™ SP-T™ Thumbhole with a Thumbhole stock design for extra stability, a 3" chamber, 23" barrel and Truglo® fiber-optic sights; and the Model 870 SPS-T™ 12-gauge Super Magnum™ with a 23" barrel and twin beads – both dressed in Mossy Oak® Obsession.™ For optional scope mounting, all models have drilled and tapped receivers.

MODEL 870™ XCS MARINE MAGNUM

THE MOST DURABLE AND RELIABLE ON LAND OR SEA.

The original Model 870™ Marine Magnum® set the standard for all-conditions reliability, and our latest upgrade to its design launches it beyond the capabilities of any shotgun out there. Featuring the extreme corrosion and abrasion resistance of our proprietary TriNyte™ Black Corrosion Control System,® the new 12-gauge Model 870™ XCS (Xtreme Conditions Shotgun) Marine Magnum will serve and protect in the most extreme conditions on earth. For even more rugged endurance, all metal parts are coated with electroless nickel, and the trigger group is specially equipped to resist fouling and oxidation.

The law-enforcement-style SpeedFeed® I stock and R3® recoil pad with LimbSaver® technology work in conjunction to tame the recoil of even the most potent 2 3/4" or 3" magnum rounds. The stock is equipped with a shell holder to keep up to four extra rounds at your fingertips. Match these features with a 7-round capacity and 18" cylinder bore barrel, and you have the ultimate special-purpose firearm. Anywhere, anytime – count on it.

NEW

MODEL 870™ XCS MARINE MAGNUM®

FEATURES

- Black TriNyte™ Corrosion Control System on barrel and receiver creates an armorlike barrier against rust and abrasion
- Its Model 870 action is the rugged standard for dependability and smooth operation
- 18", cylinder bore, bead-sighted barrel
- 2-shot magazine extension – 7-shot capacity
- SpeedFeed® I stock with shell holder keeps 2-4 extra rounds at your fingertips
- Corrosion-resistant trigger group with plated components
- Durable black synthetic stock and fore-end
- Sling swivel studs
- R3® recoil pad with LimbSaver® technology

TriNyte™ Corrosion Control System. Consisting of electroless nickel and proprietary PVD coating, this armor-tough, multi-layer coating is the world's most effective barrier against rust and abrasion for firearms, yet is only a fraction of a human hair in thickness. The only thing you'll notice is the near invincibility.

MODEL 870™ EXPRESS® SUPER MAGNUM

THE ORIGINAL WORKHORSE,
BUILT BIG AND FIERCE
AS THEY COME.

Simply put, this is the most versatile, reliable pump shotgun ever built. It handles it all – 2 3/4" loads to big, thumpin' 3 1/2" mags, the nastiest conditions and years of hard use. If the birds are strutting, our Model 870™ Super Magnum™ will shuck and deliver.

Choose full Mossy Oak® Break-Up™ camo or the matte black synthetic models. Both have 23" barrels for fast handling and easy carry, and include Super-Full Turkey Rem™ Chokes for extended reach. All this, with the same balance and feel you've come to expect from our legendary Model 870 (the most popular, dependable pump gun in history). Gobblers beware: the American standard has stepped up to Super Mag.

MODEL 870™ EXPRESS®
SUPER MAGNUM
TURKEY SYNTHETIC

MODEL 870™ EXPRESS®

AMERICA'S FAVORITE
PUMP SHOTGUN.

Its solid, dependable action makes it America's favorite, and the addition of our new wood laminate places it among the best looking and weather-resistant as well. Take a look in the duck blinds, cropfields, deer stands and turkey woods near you, and you'll most likely find more Model 870™ Express pumps than any other shotgun. It's a matter of rugged dependability, great pointing characteristics and versatility. And precisely why the Model 870 has been the standard for slide-action performance for more than 50 years.

Our Express family covers virtually any hunt with a range of vent-rib do-alls; specialized deer, and turkey combo models; and an array of stock choices including laminated wood, durable black synthetic and Mossy Oak® Break-Up™ camo finishes. New for 2007, we've added a 20-gauge black synthetic model with a 7-shot capacity. It's equipped with an 18" barrel for quick handling and sling swivel studs. You get awesome firepower with the benefit of lighter, 20-gauge recoil.

This is one of the most reliable, best-shooting shotguns you can own, and we're proud to make them. But even prouder of the fact you've made them America's Pump Guns.

MODEL 870™ EXPRESS®
TURKEY/DEER COMBO

MODEL 870™ EXPRESS® SUPER MAGNUM TURKEY CAMO

MODEL 870™ EXPRESS® SUPER MAGNUM TURKEY CAMO

Model 870™ Super Magnums will function with 2 3/4", 3", and 3 1/2" shells interchangeably

Breakthrough bolt re-design keeps cycle stroke equal for all three sizes of 12-ga. shotshells

Super Magnum™ receiver is same size as all 12-ga. 870™ shotguns for similar balance

Trigger mechanism retains same dimensions and crisp feel of all 12-ga. Model 870s

Magazine length unchanged for same balance point; capacity is three 3 1/2", and four 2 3/4" or 3" shells

Superior design and inherent strength of 870™ receiver easily accommodates the power and longer length of 3 1/2" shells

FEATURES

- Functions with 2 3/4", 3" and 3 1/2" shells interchangeably
- Superior design and inherent strength of America's favorite pump shotgun, the Model 870™

AUTOLOADING
SHOTGUNS

AN AUTOMATIC CHOICE FOR FIELD, WOODS AND WATER.

This slick-handling, reliable autoloading shotgun is an incredible value for today's hunter. It's more affordable than ever to own a gas-operated 12 gauge that handles everything from 2 3/4" field loads to 3 1/2" magnum rounds. For a morning's dove shoot with No. 8s, pounding ducks with steel 2s or anchoring a tom with a heavy payload of No. 4, its tunable gas system delivers smooth cycling and softens felt recoil for fast follow-up shots. Dual extractors on the bolt face ensure reliable, ultra-positive ejection.

The vent-rib barrel and receiver have a matte finish for non-glare concealment. Its black synthetic stock is impervious to the elements and stands up to abuse. And it comes from the factory with four choke tubes – improved cyclinder, modified, full and super-full – to cover a season of applications.

We just made your next shotgun purchase an automatic decision – no matter what you're hunting for.

YOUTH SHOTGUNS

INVESTING IN OUR FUTURE.

Young shooters are more likely to become stewards of the shooting sports if they're initiated with a gun that fits properly. This is what drove us to redesign our standard, premium-grade stocks with a shorter length of pull. It's now easier than ever for smaller-statured shooters to get on target and on the road to a lifetime of enjoyment in the outdoors. Our Youth Shotguns are built around the rugged, reliable Model 870™ pump action.

The 20-gauge Model 870™ Express® Jr. with a Mossy Oak® Break-Up™ stock and fore-end has a length of pull that's a full 1" shorter than our standard youth models, so it's perfect for the youngest shooters in your family. Also available is the Model 870 Express Youth Turkey gun with a Mossy Oak Break-Up stock and fore-end. Bring them up right. Raise them on Remington.®

MODEL 700™ SPS™ VARMINT

TRUE TO ITS REPUTATION,
IT'LL EARN YOU ONE.

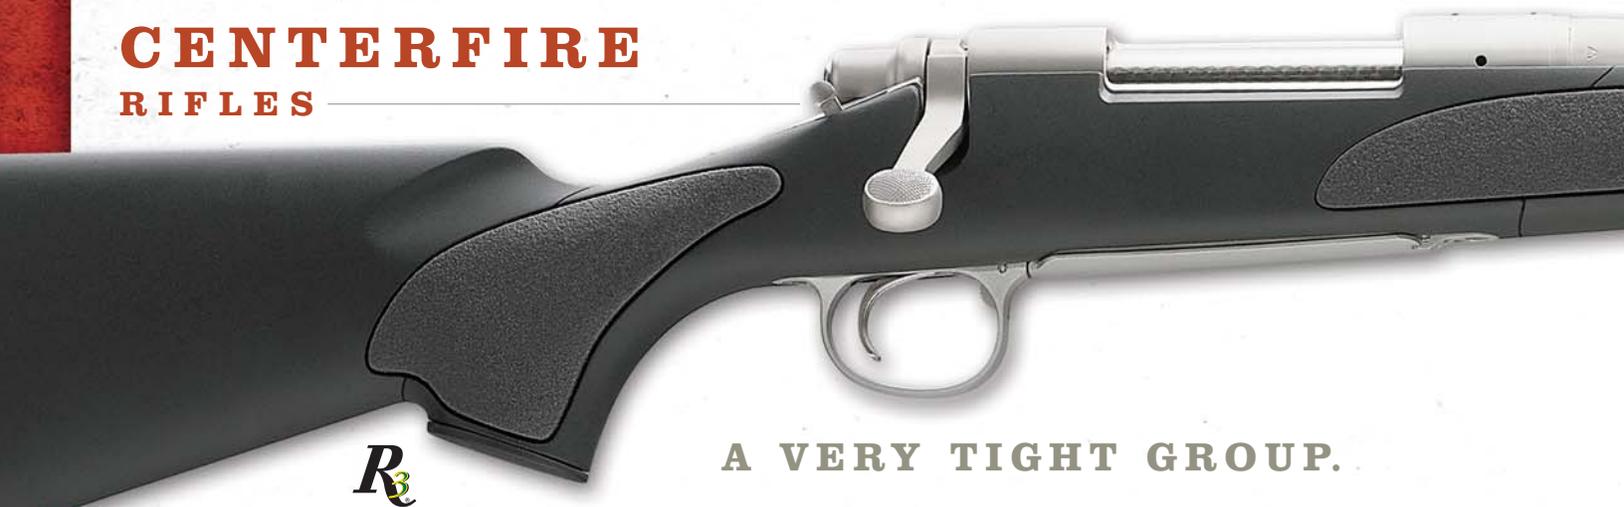

"Why yes, that's really five shots." Tell your friends it's genetics. Fact is, when it comes to precision, there's no finer pedigree in the industry than Remington varmint rifles. And with the introduction of our new Model 700™ SPS™ Varmint, staking claim to our legendary accuracy is more affordable than ever.

The Model 700™ SPS Varmint is capable of punching tiny groups straight out of the box because it's built on the Model 700 bolt action, the most solid, dependable and trusted in existence.

Its 26" heavy contour barrel is perfectly matched to its high-velocity caliber offerings, including the hot 204 Ruger. Plus, the ergonomically designed black synthetic stock has a vented beavertail fore-end for enhanced grip, reduced weight and better heat dissipation. And sharp predator eyes won't spot the tough, non-reflective matte blued finish on the barrel and receiver.

Other standard features include a hinged floorplate magazine, sling swivel studs, and a drilled and tapped receiver. Lasting impressions also seem to come standard.

CENTERFIRE RIFLES

R3

A VERY TIGHT GROUP.

No matter which model you choose, rifles of the Remington® bloodline have two common traits: outstanding out-of-the-box accuracy and a dependable, rock-solid build. They truly are in a class of their own. In fact, the Model 700™ is regarded as the most accurate, dependable production rifle in existence. It started with our three-rings-of-steel-design and grows stronger every year with a new round of innovative upgrades.

Our **Model 700™ XCR Xtreme Conditions Rifle**, is the most durable hunting rifle ever built. It's super-tuned for accuracy and coated with our TriNyte™ Corrosion Control System to excel in the harshest environments on earth. The stock features patented Hogue® rubber overmolding for superior handling and an R3® recoil pad with LimbSaver® technology.

The **Model 700™ BDL™** has been an American favorite for more than 40 years. It features a high-gloss American walnut stock with a Monte Carlo comb and a distinctive black fore-end cap, plus a hinged floorplate, hooded front sight, adjustable rear sight, and sling swivel studs.

Our short-action **Model 799™** is a scaled down version of the classic Mauser 98 action. The Mini-Mauser action features a clean 20" hammer-forged barrel, richly blued finish and durable laminate stock. Featuring dual opposing forward-locking lugs and Sako®-style extractors, the bolt delivers incredibly smooth feeding and ultra-positive extraction. Both the bolt and receiver are machined steel. Its rugged construction and reliable operation make the mini Mauser one of the most trusted actions of all time.

The **SPR18™** Single Shot Rifle is a solid, dependable design that will give you precise command of that one round, again and again. It comes with your choice of blued or nickel receiver, adjustable sights, a hammer-forged spiral fluted barrel with an integral 11mm scope rail, and walnut stock and fore-end.

MODEL 700™ VARMINT

**STUNNING FROM THE BENCH,
LETHAL IN THE FIELD.**

Built on the famous Model 700™ cylindrical action, Remington® Varmint rifles are the most accurate production rifles we produce. You'll be stunned by the degree of precision you get straight out of the box. The varmints won't be so lucky.

Our new Model 700™ VL SS™ Thumbhole offers a comfortable, rock-steady grip, plus the exceptional durability and good looks of a laminated wood stock. It has a heavy-contour stainless barrel and comes in three calibers, including 204 Ruger.

The Model 700 VS SF™ II is a finely tuned tack-driver. Its H.S. Precision composite stock is reinforced with aramid fibers and features a contoured beavertail fore-end. It's black with green webbing and has ambidextrous finger grooves and palm swell. Twin front swivel studs accommodate a sling and a bipod. And a full-length aluminum bedding block creates an ultra-stable, accuracy-enhancing platform for the barreled action. The 26" heavy-contour barrel is fluted for fast heat dissipation. Our Model 700 VSF™ has the same stock design, but is colored desert tan with black webbing. Its action is satin blued with a 26" heavy-contour fluted barrel.

For those who prefer the more traditional heft of a wood stock, the time-tested Model 700 VLS™ with its brown laminate stock and satin blued barrel, is there to do the job.

MODEL 700™ LV LIGHT VARMINT

**AS DEADLY AND SWIFT
AS THE PREDATORS YOU HUNT.**

You can trace Remington's dedication to the varmint hunter back to 1967 – the year the Model 700™ BDL™ “Varmint Special” was introduced. Since then, we've been bringing you the foremost in varmint rifle accuracy and innovation. This leadership role is fostered by the requests of serious varmint hunters and benchrest shooters. Hence the creation of the ultimate predator and varmint rifle.

With deadly shot-to-shot precision and weighing a mere 6.75 lbs, the Model 700™ LV SF™ redefines varmint rifle mobility. It's built on the finest bolt action of all time, the Model 700, and features a stainless steel, short-action, pillar-bedded receiver; a blind box magazine; and a jeweled bolt. The 22" clean stainless steel barrel has a light varmint contour (0.657" muzzle O.D.) and is fluted to reduce overall weight and increase heat dissipation. Adding to the weight reduction is a custom-designed, black composite stock featuring a semi-beavertail fore-end, swivel studs, and a recoil-reducing, R3® recoil pad with LimbSaver® technology.

Available in five popular varmint calibers, the Model 700 LV SF is one of the most innovative rifles for the varmint and predator hunter on the move.

MODEL 700™ VS SF™ II
Varmint Synthetic, Stainless Fluted

PALM SWELL

FLUTED BARRELS

BI-POD AND SLING SWIVEL STUDS

MODEL 700™ VARMINT FEATURES

- All features of the legendary Model 700 plus:
- 26" heavy contour barrel (0.820" Muzzle O.D.) for the ultimate in long-range accuracy
 - Concave target-style barrel crown
 - Composite stock with beavertail fore-end (VLS features laminated stock)
 - Stock features full-length aluminum bedding blocks for enhanced stability and shot-to-shot consistency (VS SF™ II and VSF™ only)
 - Six longitudinal flutes reduce barrel weight and increase heat dissipation (VS SF II and VSF only)
 - Tactical style dual front swivel stud system for convenient mounting of bi-pod and sling (VS SF II and VSF only)

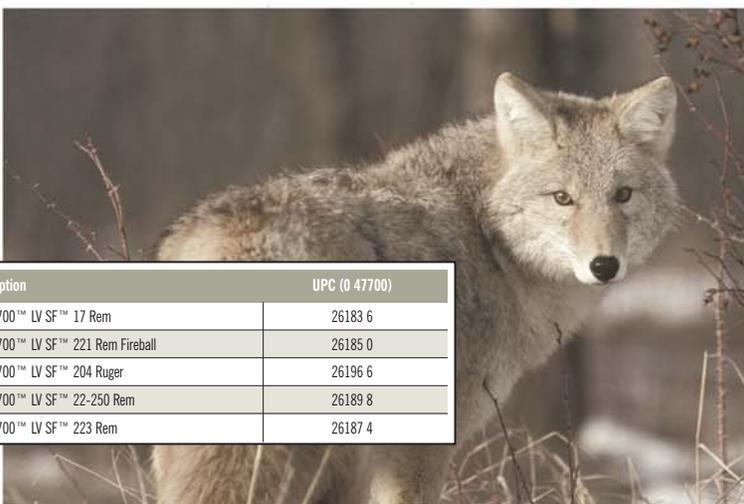

For specifications, see page 37.

MODEL 700™ LV SF™
Light Varmint, Stainless Fluted
(Scope not included)

MODEL 700™ LV SF™
Light Varmint, Stainless Fluted

FEATURES

- Weighs in at a mere 6 3/4 lbs
- Features a stainless steel, short-action receiver, a blind box magazine and jeweled bolt
- 22" stainless steel barrel has a light varmint (0.657" muzzle O.D.) and a satin stainless finish
- Six longitudinal flutes reduce barrel weight and increase heat dissipation
- Black composite stock featuring a semi-beavertail fore-end
- Offered in five very popular varmint calibers
- Model 700™ LV SF™ comes equipped with Remington's high-performance R3® recoil pad with LimbSaver® technology

MODEL XR-100™

RANGEMASTER®

**YOUR SHOT
AT GREATNESS.**

The Model XR-100™ Single Shot Target Rifle puts competition-grade accuracy within the reach of virtually any aspiring benchrest aficionado. Simply put, nothing in its class can compete. It's built on the legendary XP-100 single-shot target pistol action with a solid-bottom receiver. This design creates the extremely rigid, stable platform necessary for one-ragged-hole accuracy.

The Model XR-100™ is fitted with a Model 40-XB™ Target trigger. It is externally adjustable for pull weights from 1 ½ - 3 ½ lbs. The heavy, varmint-contour barrel is 26", and the action is fitted to a black laminated stock with a thumbhole design for comfort and stability at the bench. Lightening vent cuts in the beavertail fore-end aid barrel cooling and make it the ultimate in shot-to-shot consistency.

MODEL XR-100™
RANGEMASTER®

MODEL 504™

**RIMFIRE RIFLE,
CENTERFIRE ATTITUDE.
NOW WITH CUSTOM OPTIONS.**

Now available with a Shilen® custom button-rifled barrel in 17HMR, the Model 504™ continues to raise the bar in rimfire performance. Our legendary standards for bolt-action dependability, accuracy and quality control have changed the way hunters and shooters view the potential of a rimfire rifle.

World-class accuracy comes standard with the new 17HMR model featuring a 20" Shilen custom barrel. Shilen produces some of the finest custom barrels in the industry. The incredibly tight production tolerances deliver a degree of precision you have to squeeze a few round through to believe. Plus, the richly blued barrelled action is precision anchored at two points. All models have a fully adjustable trigger group, clean barrels, a beautifully finished satin American walnut stock with stylized grip cap and swivel studs, and a drilled and tapped receiver.

If you've never owned a premium rimfire rifle, the Model 504™ will instantly show you what you've been missing.

MODEL XR-100™
RANGEMASTER®

BASED ON XP-100 SINGLE-SHOT ACTION

THUMBHOLE GRIP

40-X EXTERNALLY ADJUSTABLE TRIGGER

FEATURES

- Solid-bottom single-shot receiver for ultimate rigidity
- Equipped with Model 40-X target trigger with external pull weight adjustment
- Black laminated thumbhole stock for stability and comfort, and vented fore-end for fast barrel cooling
- 26" varmint contour barrel with concave target crown
- Utilizes the legendary XP-100 single-shot target pistol action

Vented Fore-End

MODEL 504™

MODEL 504™

NEW 17 HMR with Shilen® Custom Barrel

For specifications, see page 37.

Receiver machined from solid ordnance-grade steel results in centerfire-rifle-type strength.

Bolt features dual extractors for positive feeding and uniform cartridge support.

Model 504 trigger group, fully adjustable by a Remington® Authorized Repair Center.

20" satin blued carbon steel barrel with 5-R Button rifling (same as Model 40-XR Target Rifle) and recessed target crown.

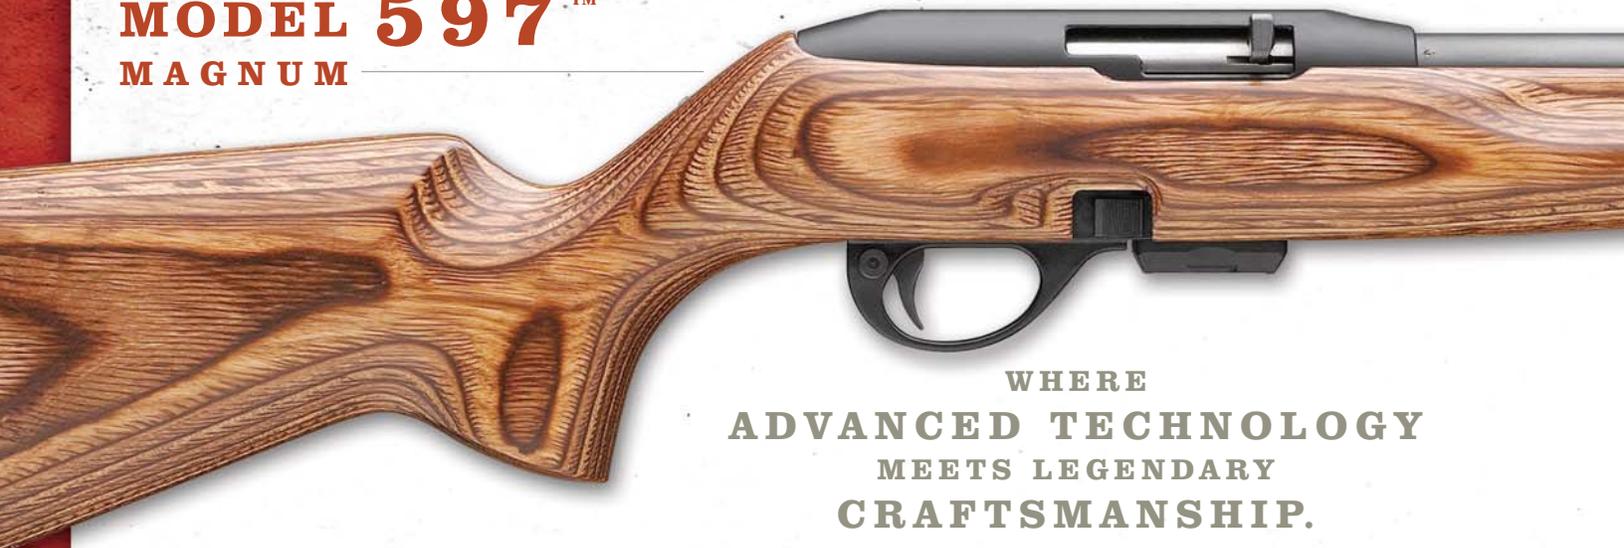

Dual bedding points anchor the action to the stock for consistent shot placement.

Six-round detachable metal magazine box fits flush with bottom of the stock.

FEATURES

- Detachable magazine box (6 rounds on 22LR, 5 rounds on 17HMR)
- Rock-solid receiver design machined from solid ordnance-grade steel results in centerfire-rifle-type strength and rigidity
- Newly designed trigger group is fully adjustable by a Remington Authorized Repair Center
- Barreled action is securely anchored in the stock utilizing two bedding points
- Bolt features dual extractors for positive feeding and uniform cartridge support
- 20" satin blued clean barrel with 5-R button rifling (the same rifling used in Model 40-XR custom target rifles, 22LR only) and recessed target crown
- Receiver is drilled and tapped for scope mounts
- Cocking indicator visible from rear of bolt plug
- 17 HMR features Shilen® custom barrel

MODEL 597™ MAGNUM

WHERE
ADVANCED TECHNOLOGY
MEETS LEGENDARY
CRAFTSMANSHIP.

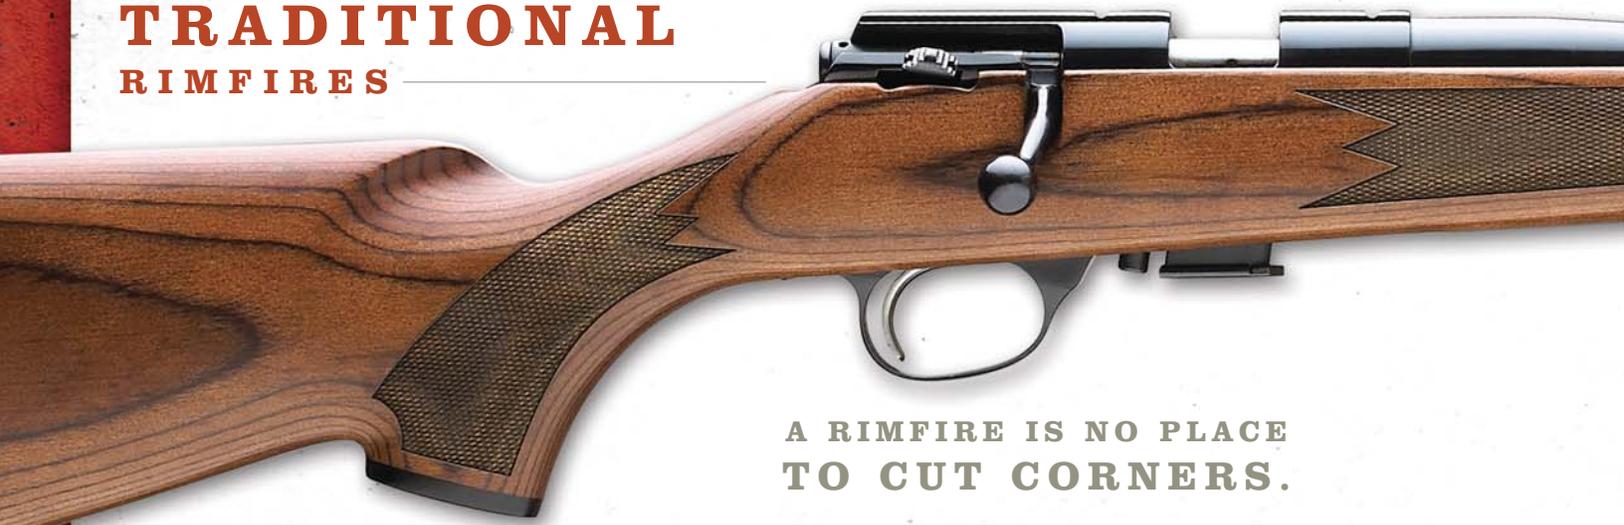

The Model 597™ is easily the most advanced semi-automatic rimfire rifle ever built, and marks the first breakthrough in autoloading rimfire rifle technology in 35 years. The innovation starts with our proprietary bolt-guidance system, which features a unique set of twin tool-steel guide rails for better stability, feeding reliability and greater out-of-the-box accuracy.

Of course, we didn't stop there. The bolt, hammer and sear of the Model 597 all feature an exclusive Teflon®/nickel plating for smooth, dependable operation and an ultra-crisp trigger pull. To ensure long-term accuracy, we've also incorporated a positive-locking, permanently rigid barrel-attachment clamp. Receivers are grooved for standard rimfire mounts and drilled and tapped for Weaver-style bases. Rounding out the list of impressive design features is a last-shot hold-open feature and our patented, slick-feeding staggered-stack magazine.

NEW MODEL 597™ SYNTHETIC
SCOPE COMBO (3-9x32mm)

TRADITIONAL RIMFIRES

A RIMFIRE IS NO PLACE
TO CUT CORNERS.

Remington rimfire rifles are built with the same standards for accuracy and flawless function as our high-end centerfires. For hunting small game, target shooting or afternoon plinking, there's no better choice.

Our **Model Five™** is a solid, tack-driving bolt action ideal for seasoned hunters and shooters, and beginners alike. It's available in standard 22 long rifle and 22 WMR. The American-made brown laminated stock combines good looks with extreme weather resistance. Mount a scope to its grooved receiver or use the fully adjustable open sights. It's fed by a five-shot detachable box magazine.

New for this year, we're offering our venerable **Model 572™ BDL™** Smoothbore with a 22" smoothbore barrel. It's optimized for use with 22 shot cartridges for plinking and dispatching rodents as quick as you can shuck the fore-end. Features include a richly blued carbon steel barrel, high-gloss American walnut stock, bead sights, tubular magazine and a grooved receiver for scope mounting.

MODEL 597™
MAGNUM LS HB

MODEL 597™
LS HB

For specifications, see page 37.

Unique attachment system rigidly joins barrel to receiver for perfect alignment and enhanced accuracy

Model 597™ bolt travels on twin tool-steel guide rails for flawless functioning

Last-shot hold-open for positive identification of empty chamber

Sear and hammer are Teflon®/nickel-plated for crisp, smooth trigger pull

Patented drop-out style staggered-stack box magazine assures reliable feeding and fast, easy reloading

FEATURES

- Bolt-guidance system features twin, tool-steel guide rails
- Offered in both textured synthetic or laminated wood stocks
- Non-glare matte finish
- Patented, 10-shot metal detachable magazine, 8-shot for magnum
- Last-shot hold-open bolt for added safety

Model 597™ 22 LR Metal Magazine. Redesigned to provide flawless feeding of each round, the new Model 597 magazine offers unprecedented reliability. Constructed from a lightweight, magnesium-based alloy and cast as one piece via a non-conventional die-cast process, our metal magazine holds ultra-precise dimensional tolerances and yields an exceptional surface finish. Its extreme rigidity is ideal for demanding, high-volume use. For those who already own an older Model 597, you can own the improved magazine as a Remington® accessory.
