

Smith & Wesson

Smith & Wesson
2007 Product Guide

A Message From The President.

Smith & Wesson has embarked on a mission to become a global provider of products and services for the safety, security, protection and sport markets. By focusing on a continued tradition of quality and innovation, this year will be an exciting time of new product introductions.

Consistent with the last 154 years, Smith & Wesson is proud to offer our full line of high quality handguns. In addition we are pleased to expand our long gun offering with the new Elite Series™ and 1000 Series™ shotguns.

Our successful M&P (Military & Police) handgun and rifle line has new models with the addition of compact pistols, the M&P45 and M&P revolvers.

For our collecting enthusiasts, we created Smith & Wesson Classics where we craft fine, hand-engraved firearms and classic Smith & Wesson revolvers, each constructed to represent the exact look of an original.

As Smith & Wesson continues building quality firearms, products and services for sport enthusiasts, personal protection, law enforcement and military professionals – we do this firmly rooted in a tradition of reliability and innovation in materials, performance and engineering. When it comes to providing products for Safety, Security, Protection and Sport – you can depend on Smith & Wesson.

Michael J. Golden

The manufacturer's suggested retail prices and other specifications and terms stated in this publication are subject to change without notice. While Smith & Wesson attempts to provide accurate information, there may sometimes be inadvertent inaccuracies. Smith & Wesson is not responsible for, and reserves the right to correct, any such inaccuracies.

Specialty Kits When it comes to being prepared, Smith & Wesson's new specialty kits are ready and waiting. The Emergency Survival Kits and the Disaster Ready Kit contain a specific handgun and the tools to help you survive until help can arrive or the situation is diffused.

Shotguns The introduction of the Elite Series™ fixed action shotguns and 1000 Series™ semi-automatics creates a whole new category of favorites for Smith & Wesson sporting enthusiasts. Each model personifies the spirit of sport and hunting with embellishments not found in their respective categories.

Pistols The new Sigma Allied Forces™ Model boasts a simple operation and ergonomic design that has been ordered by the United States Army Security Assistance Command (USASAC) Special Projects Office for the Afghanistan National Police (ANP).

M&P The expanded M&P line has grown to over fifteen models and added a full size .45 ACP caliber pistol in both dark earth brown and black, with the bonus features of an ambidextrous frame-mounted thumb safety and lanyard, attachment-point takedown tool.

Classics Bringing back the best of Smith & Wesson's historically renowned revolvers, this new line of Classics finally makes it possible for you to own a piece of history in the making. Each is constructed to represent the look of a Smith & Wesson original.

Revolvers Smith & Wesson offers seven new models in this category, including three M&P revolvers. These .357 Magnum revolvers feature Scandium Alloy frames and Stainless Steel cylinders. Also new this year are two new models with 3-inch barrels, a Model 629 - .44 Magnum Emergency Survival Kit and a Model 60 revolver with a HI-VIZ® front sight.

Performance Center Among the fine crafted Performance Center handguns, designed to deliver the ultimate accuracy, reliability and aesthetics, are the new Model 945, .45 ACP model with two-tone finish and the new .500 S&W Magnum Model 500 revolver with a seven and a half inch barrel.

Shotguns

Revolvers

These two shotgun series embody the reliability and precision that you've come to expect from Smith & Wesson – the Elite Series™ fixed action shotguns with a handcrafted grace that promises years in the field and the 1000 Series™ semi-auto shotguns with unique performance innovations. Together they represent a commitment to hunters and sport shooters at every level.

Shotguns

The Elite Gold™ are side-by-side, 20 gauge shotguns that feature a patent-pending Smith & Wesson designed trigger plate action which enables a gracefully rounded and sculpted receiver; hand-cut checkering and engraving; AAA (grade III) Turkish walnut stocks; and a precise wood-to-metal fit.

Shotguns

Elite Silver™

The Elite Silver™ are over-and-under, 12-gauge shotguns that share the same custom design features as the Gold Series, with the addition of machined, monobloc barrels. Both the Elite Gold and Elite Silver shotguns are crafted with hand engraved receivers finished in a true bone-charcoal case hardening for added protection and distinct coloring.

Heirloom Warranty

Every Elite Series shotgun comes with The Smith & Wesson Heirloom Warranty™, a written proclamation of our extreme confidence in lasting performance.

- A lifetime of reliability for you
- A lifetime of reliability for your heir

C-Cylinder IC-Improved Cylinder M-Modified IM-Improved Modified F-Full D&T-Drilled & Tapped

The inspiration for our M&P Series (Military & Police), the Smith & Wesson .38 Military & Police revolver, has been a favorite of worldwide law enforcement agencies, military organizations and private citizens since 1899. Never in the history of firearms has any model been in continual production and service so long.

The new and expanding Smith & Wesson M&P line now includes rifles, full-size pistols, compact pistols and revolvers – all designed from direct input addressing the evolving needs of today's military and police. By answering your need for more durable, versatile, safe, and high-performing firearms with this newly created and perfected product line – Smith & Wesson continues to proudly prove our 100-year dedication to military personnel and police officers worldwide.

M&P Series

M&P Series

Pistol Features

Among the unique M&P pistol features, four stand out as favorites among law enforcement and military professionals: easily changed palmswell grips in three sizes, an ambidextrous slide stop, reversible magazine catch and an enlarged trigger guard to accommodate gloved hands. Made with a Zytel® polymer frame with a rigid stainless steel chassis and a through-hardened black Melonite® stainless steel barrel and slide – the M&P pistol is both tough and reliable.

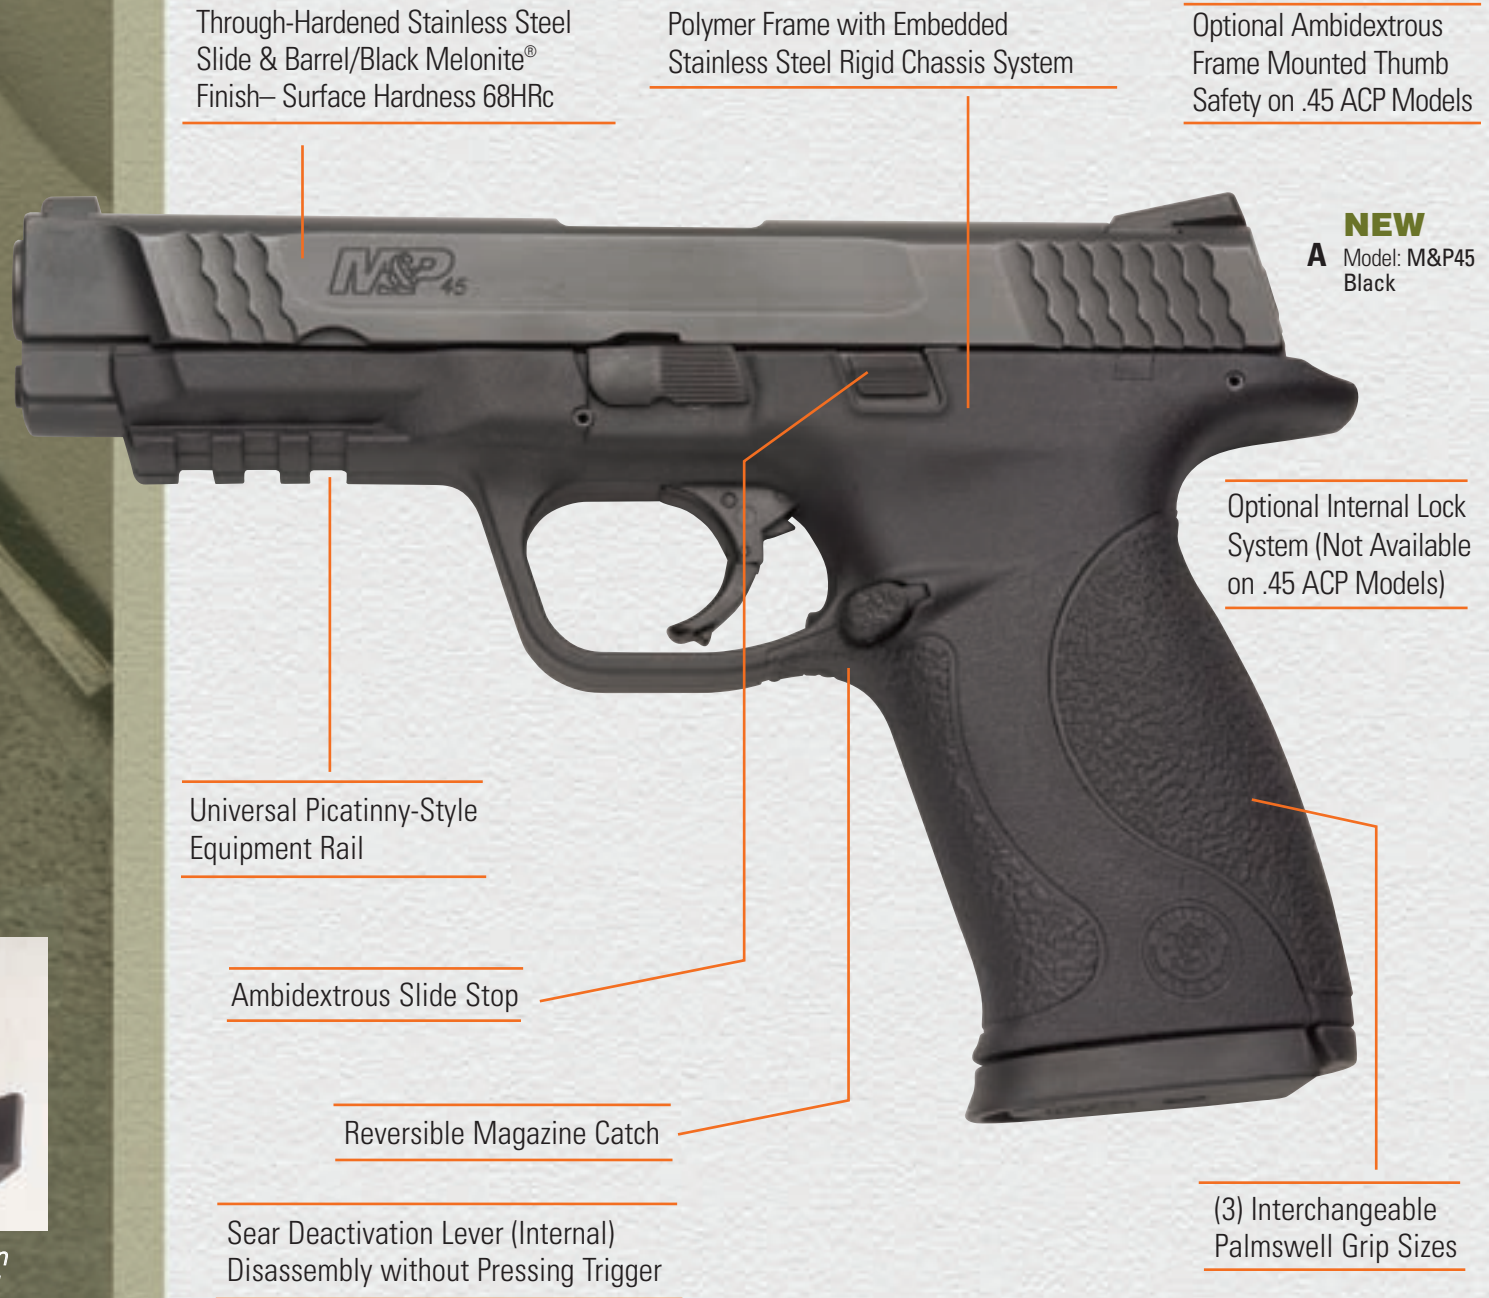

M&P45 Dark Earth Brown Model Features:

Ambidextrous frame-mounted thumb safety

Steel lanyard on takedown tool

M&P Series

Rifles

Smith & Wesson M&P15 rifles are based on the popular semi-automatic AR-15 rifle. These rugged, lightweight rifles chambered in 5.56mm NATO are built to perform flawlessly under varied conditions. As tough as it is effective, the rifle comes standard with a chrome-lined 16-inch barrel, bolt carrier and gas key while its six-position adjustable stock easily accommodates varied shooters and shooting positions.

John Moses Browning began his gunsmithing career in Ogden, Utah — over 125 years ago. With more than 100 handgun and rifle patents, he is the father of the 1911. The Model 1911 has evolved since those early days. Smith & Wesson, made a commitment to this special pistol, growing our family of SW1911s to include the widest variety of materials, finishes and unique features.

From the first revolver created by Horace Smith & D.B. Wesson in 1852, Smith & Wesson's tradition of superiority has remained unrivaled. Within five basic frames, our wide range of revolver models and calibers exceeds every other manufacturer in the world. From concealable small frames, the century's favored medium frame, and the tough large frames, all the way to the ultra-powered extra-large frames – every Smith & Wesson is accurate and reliable right out of the box. One of the best decisions any shooter can make is purchasing a Smith & Wesson revolver.

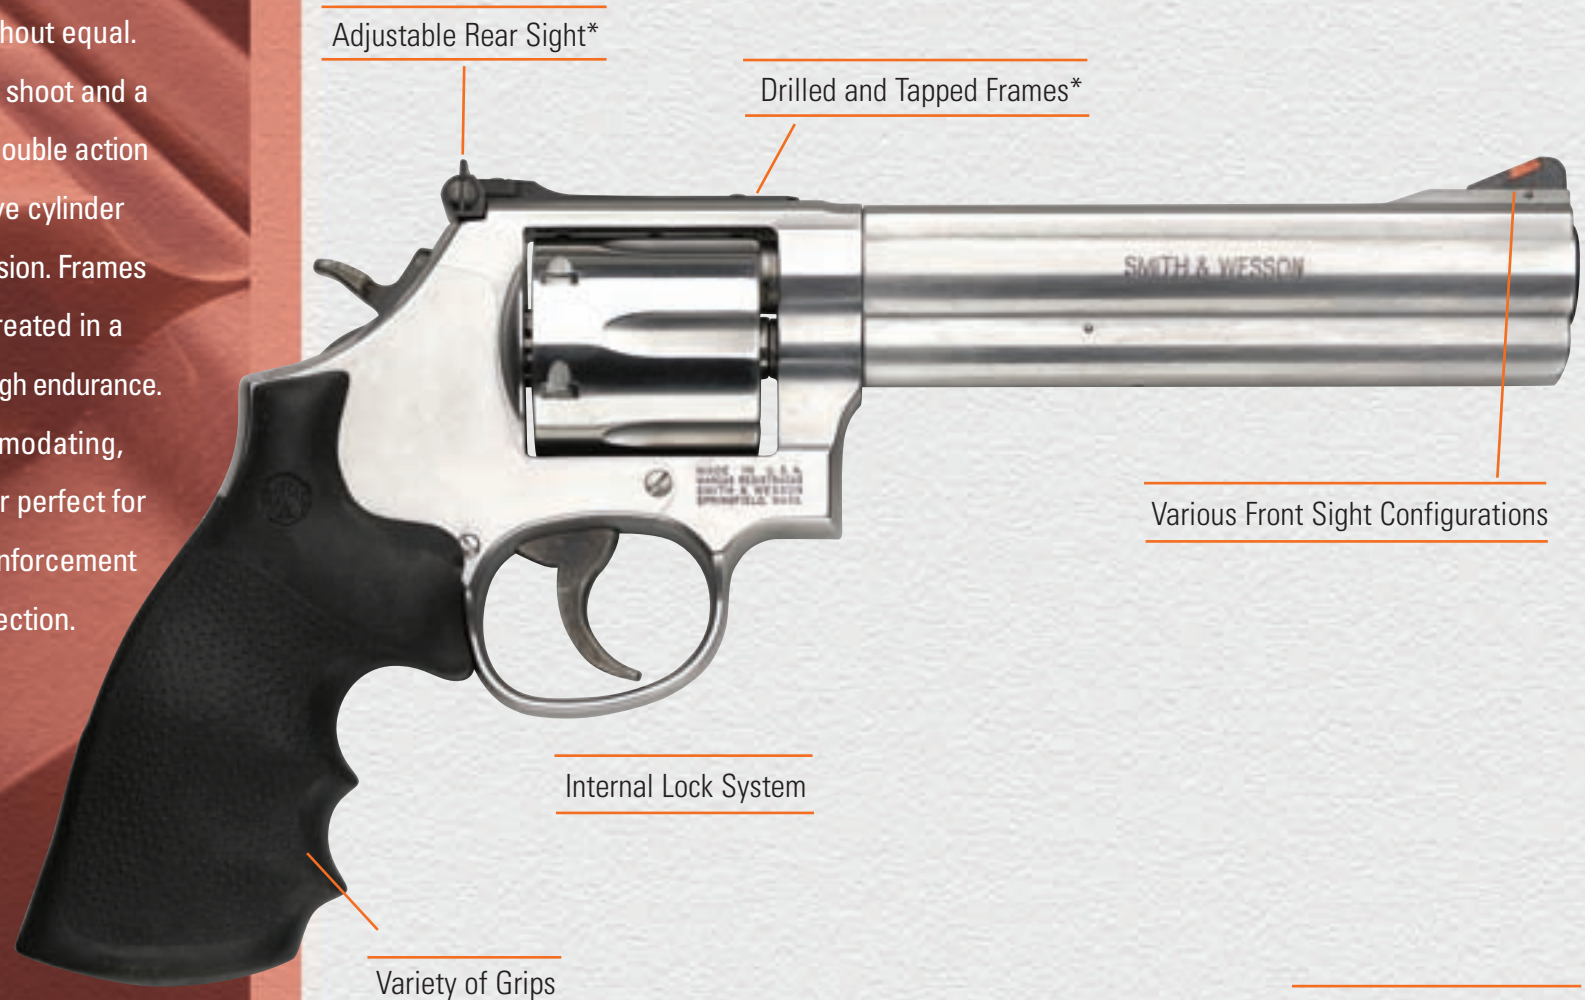

Revolvers

Revolvers

Features

Smith & Wesson revolvers are without equal. Each is versatile, accurate, easy to shoot and a pleasure to own. From the smooth double action to crisp single action, our innovative cylinder design ensures accuracy and precision. Frames of every size are forged and heat-treated in a process that ensures long-lasting, tough endurance. Load-balanced and recoil accommodating, there is a Smith & Wesson revolver perfect for everything from competition, law enforcement and game hunting to personal protection.

Why Choose Scandium Alloy Revolvers?

Smith & Wesson's unique Scandium Alloy high-strength frames allow for the lightest revolvers capable of firing .357 S&W Magnum.

Frame Materials:
Stainless Steel
Scandium Alloy
Aluminum Alloy
Carbon Steel

Revolvers

Small (J) Frame

The J-Frame has become the most popular small-frame personal defense revolver available. With decades of reliable performance to its credit, there are models capable of firing .22LR, .22 Magnum, .38 special or the much more powerful .357 Magnum loads. Three hammer designs are available: exposed Chiefs Special®, fully enclosed Centennial and the hammer-shrouded Bodyguard®.

The K-Frame revolver is one of the most important developments in Smith & Wesson history. Built specifically to handle the .38 S&W cartridge, the .38 Military & Police debuted in 1899. This model is now known as the Model 10. Since this introduction, the K-Frame has been a favorite of target shooters as well as military and police shooters. Today, the K-Frame is available in both .22 Long Rifle and .38 S&W Special.

Medium (L) Frame

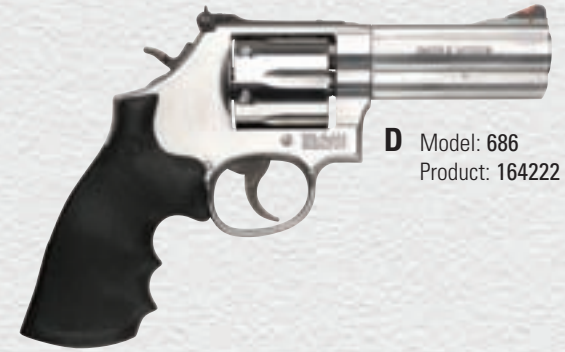

Smith & Wesson L-Frame revolvers are built to suit the demands of the serious gun enthusiast. Available in six and seven round cylinders, the L-Frame has a strong and durable frame and barrel for continuous Magnum® usage. As police officers and hunters will attest, this gun is made to withstand heavy use.

*PP= PowerPort Barrel

Smith & Wesson's X-Frame revolvers are the most powerful production revolvers ever built. The model 460XVR was released in 2005 and sports the highest muzzle velocity of any production revolver on earth. This handgun launches 200-grain, .460 S&W Magnum bullets at 2,300 feet per second. They are also equipped with compensators to reduce felt recoil.

Extra Large (X) Frame

The Model 500 is one of the most powerful production revolvers ever built. Introduced in 2003, the Model 500 with its all-stainless steel frame and two-piece barrel, lifted industry standards and handgun tolerances to new heights. The 500's massive five round cylinder holds a round powerful enough to stop the largest game.

Performance Center

Performance Center experts have been providing specialized services for the most demanding gun enthusiasts since 1990. To meet the requirements of professionals, competitive shooters, collectors and discriminating sport enthusiasts who demand superior precision – Performance Center experts conceptualize, engineer and handcraft our products from the ground up. Our craftsmen remain actively involved in competitive shooting and are all highly skilled and experienced gunsmiths. The resulting products are some of the best-made and most efficient firearms that the shooting world has ever seen.

Performance Center guns are original designs created from the ground up. From hand cutting and fitting to fine tuning for precision, these are top performers in the industry. Performance Center guns are the ultimate expression of old-world craftsmanship blended with modern advantages. Quite simply, these are the best of the best.

Performance Center

Features

Hand-Cut Chamber & Polished Feed Ramp

The facilitated cartridge seating and head spacing of the chamber reduces wear while increasing accuracy and reliability. The polished feed ramp adds even more reliability by eliminating ammunition feeding friction.

Precision Crowned Muzzle

Gas escapes evenly as the bullet exits to result in added stabilization of the bullet and better accuracy.

Hand-Lapped Frame & Slide Rails

This process eliminates play between frame and slide for reduced wear and increased reliability.

Hand-Polished and Stoned Internal Action

The resulting crisp, clean action reduces wear and increases reliability.

Oversized Beveled Magazine Well

The beveled magazine well is funneled extra-large for high-speed changes.

Performance Center

Pistols

Performance Center handguns fulfill the needs of discriminating shooters around the world. Whether for hunting, competition, tactical or personal protection, the Smith & Wesson Performance Center custom builds handguns for all your needs. Performance Center handguns are designed to deliver the ultimate accuracy, reliability and aesthetics.

Smith & Wesson makes it possible for you to own a piece of history-in-the-making with these Classic revolvers. They're the finest new handguns possible with designs harkening back to the most famous and collectible guns that Smith & Wesson ever constructed. Each is based on a model known for legendary performance then enhanced with modern advantages. They're the timeless best of both worlds – Smith & Wesson Classics.

Classics

Engraving

Custom Engraving

Smith & Wesson firearms have been true masterpieces in performance for over 150 years. Now, they can also become timeless art pieces. Any new revolver or pistol from Smith & Wesson, or a classic firearm you already own, can be custom engraved to create a one-of-a-kind masterpiece. The artistic application of precious metals and the timeless art of embellishment results in a sculpture that reflects not only the skill and vision of the master engraver, but also the artistic expression of the owner. Only Smith & Wesson can provide the added value of authenticity, direct from the manufacturer.

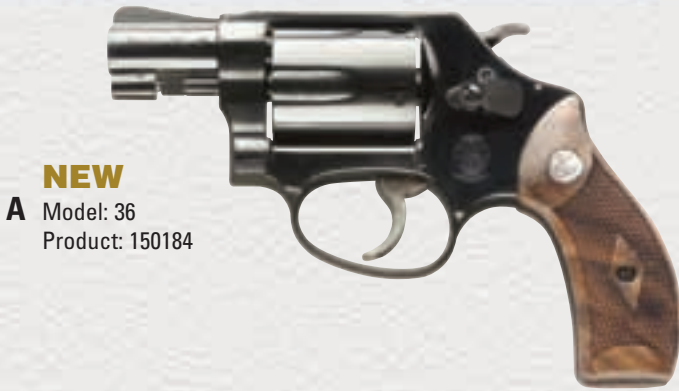

Laser Engraving

Choose to add scrollwork, lettering or animal motifs to your gun with LaserSmith technology as an inexpensive fast way to add elegance, character and individuality to any carbon or stainless steel component of your Smith & Wesson handgun. (Alloy frames cannot be engraved.)

Smith & Wesson Handcuffs

Since 1920, Smith & Wesson has produced quality handcuffs using the same engineering, materials and workmanship as in the famous Smith & Wesson handguns. Fabricated from the finest carbon or stainless steel, the internal locks of these handcuffs are heat-treated and the ratchets are smooth for ease of cuffing. All of the Smith & Wesson handcuffs come with a double locking system to prevent tampering and provide that extra measure of security. Pin lock models feature a pushpin that provides a means to prevent tampering and further tightening, which could cause injury.

Academy

Smith & Wesson Tactical Vision™

The Tactical Vision with built-in LED or Infra-Red light system works to ensure no corner is blind, detail missed or area unseen. See our website or call for full details.

The Smith & Wesson Academy

Law enforcement personnel from every state and over 50 foreign countries prepare for and exceed the demanding needs of today's law enforcement with our training, both on site and on location.

The Smith & Wesson Armorer's School offers the most current gun maintenance procedures and technologies to ensure department firearms remain within factory standards as well as safe operating condition. Courses concentrate on the function of various parts, fitting procedures and inspection techniques.

Homeland Security Training. Smith & Wesson and International Security & Defense Systems (ISDS) provide advanced counter-terrorism training courses for military, law enforcement and security personnel.

For complete information on Smith & Wesson educational programs call 1-413-846-6461 or visit smith-wesson.com.

Shooting Sports Center

The Smith & Wesson Shooting Sports Center offers a full range of shooting instruction with a 20-lane public range as well as multiple training ranges and a retail store stocked with quality Smith & Wesson products and guns. Call 1-413-846-6400 for hours and directions.
