

Smith & Wesson®

2008
PRODUCT GUIDE

A Message From The President.

Smith & Wesson's mission is focused on being an industry leader and providing innovative products and services for the global safety, security, protection and sport markets. As we enter our 156th year, continued high quality, customer support and product innovation are the key objectives for Smith & Wesson.

Smith & Wesson is proud to offer our full line of handguns, tactical rifles, hunting rifles and shotguns. New models of the highly acclaimed M&P (Military & Police) handgun and rifle line include .45 caliber mid-size and compact pistols and new M&P15 standard and Performance Center rifles. Smith & Wesson revolvers continue to set the standard in the industry. New models include the Night Guard™ series and new offerings in the popular Smith & Wesson Classic revolver series. Our growing long gun line consists of the expertly crafted Elite Series™ and 1000 Series™ shotguns as well as the innovative i-Bolt™ bolt action rifle with new offerings in calibers, stocks and finishes.

Our recent acquisition of Thompson/Center Arms accelerates Smith & Wesson's entry into the long gun market, provides highly accurate rifle barrels for our products and delivers extensive expertise and experience in the hunting market. We are excited to have Thompson/Center as a key segment of our firearms portfolio and will continue to support and grow this strong brand of innovative hunting products.

We value our customers and the many ways our firearms are safely and responsibly used by sport enthusiasts, law enforcement, security and military professionals, hunters, and collectors and individuals desiring personal protection. We are proud supporters of National Rifle Association initiatives to ensure gun rights as well as supporters of a wide variety of shooting sports and events.

Smith & Wesson is firmly rooted in a tradition of quality, reliability and innovation in materials, performance and engineering while remaining committed to the American heritage of firearms ownership. When it comes to providing products for Safety, Security, Protection and Sport – you can depend on Smith & Wesson.

New Products

M&P Series

The highly acclaimed M&P (Military & Police) Series has expanded in 2008 with new models in the rifle and pistol lines. Smith & Wesson adds depth to the popular .45 ACP models with the new compact and midsize M&P45. In 9mm, the greatly anticipated 5" long-slide M&P and the special edition Breast Cancer Awareness M&P, designed in collaboration with Smith & Wesson Champion Julie Goloski, also debut. The successful M&P15 adds three new standard models and two Performance Center models to the growing line. Smith & Wesson M&P - We've got... your back.

Long Guns

Smith & Wesson continues to grow in its long gun division with the new i-Bolt™ rifles and Elite Series™ shotguns. Available in more calibers and finishes, i-Bolt rifles now come in walnut, black and camo composite stock versions and new stainless steel barrel and action versions. The Elite Silver™ Series shotguns compliment the semi-auto and side-by-side models with the new 12-gauge over-and-under. Beautiful craftsmanship, design and the Heirloom Warranty™ set the Elite Silver apart from the competition. Smith & Wesson brings legendary performance and quality to the market with Smith & Wesson Long Guns.

Revolvers

Smith & Wesson revolvers are world renowned for quality and innovative design. The new Night Guard™ Series builds on the revolver line with strong, lightweight scandium alloy frames. Configured with 2.5-inch barrels with rugged cylinders, Cylinder & Slide Extreme Duty fixed rear U-notch and XS Sights™ 24-7 Standard Dot tritium night sights, these revolvers are built for concealability and personal protection. Setting the Standard – Smith & Wesson Revolvers

Classics and Engraving

Smith & Wesson offers customers firearms of timeless beauty with Classics and Engraving. Smith & Wesson Classics beautifully resurrect cherished models from the past and add modern advantages with new additions for 2008 that include models 24, 25, 27 and 29. Smith & Wesson Engraving transforms firearms into works of art and this year offers a new design for the limited edition run of Model 41's. To commemorate the 50th anniversary of the Model 41, each firearm is machine engraved with American scrolls and lettering plated with 24kt gold. Own your piece of Smith & Wesson history with a gun that can be passed on to the next generation – Smith & Wesson Classics & Engraving.

Performance Center

The talented gunsmiths in Smith & Wesson's Performance Center introduce powerful new models to their revolver line-up in 2008. The sleek and modern design of the Stealth Hunter, the 3" Carry Comp power house and the 4" V-Comp with removable cap muzzle protector and removable compensator are all built on the successful series of Model 629's. Also new are the stainless steel, matte black Model 67 F-Comp in .38 S&W Special +P and the two-tone finish Model 627 V-Comp in .357 Magnum® with removable cap muzzle protector and removable compensator. Simply put, it's all in the name - Smith & Wesson Performance Center.

SHOTGUNS

Everything you would expect from Smith & Wesson, the Elite Series™ and 1000 Series™ shotguns offer reliability and precision to hunters and sport shooters at every level. Handcrafted with precision and care, the fixed action Elite Series are true heirloom treasures while the 1000 Series semi-automatic shotguns feature unique performance innovations, built for the field.

The Elite Gold™ models are 20-gauge, side-by-side shotguns featuring a patent pending Smith & Wesson designed trigger plate action. The end result is a shotgun with a gracefully rounded and sculpted receiver, hand-cut checkering and engraving, AAA (grade III) Turkish walnut stock all with a precise wood-to-metal fit.

Elite Gold™

SHOTGUNS

The Elite Silver™ models are 12-gauge, over-and-under shotguns that share the same custom design features as the Gold Series, with the addition of machined, monobloc barrels. Both the Elite Gold and Elite Silver shotguns are crafted with hand engraved receivers finished in a true bone-charcoal case hardening for added protection and distinct coloring.

RIFLES

The word innovation is built into this rifle's very name. By incorporating state-of-the-art materials and patented design features, Smith & Wesson has defined the next generation of bolt-action with the i-Bolt™ line. Every detail has been developed to deliver optimal precision, from the muzzle of the Thompson/Center® barrel to the three-lug design for short 60 degree lift. These and other features deliver a bolt-action rifle with a level of accuracy and performance along with many choices in caliber, stock and finish that live up to the Smith & Wesson name.

M & P S E R I E S

The longtime favorite of law enforcement agencies, military organizations and private citizens since 1899, the original Smith & Wesson .38 Military & Police revolver was the inspiration behind the M&P Series (Military & Police). Smith & Wesson has continued the tradition with the ever expanding Smith & Wesson M&P line which includes rifles, full-size pistols, compact pistols and revolvers. Designed with direct input addressing the evolving needs of today's military and police, the M&P Series combines field experience with Smith & Wesson quality and reliability. By answering the need for a more durable, versatile, safe, and high-performing firearm, Smith & Wesson continues to proudly prove our 100-year dedication to military personnel and police officers world wide.

M&P SERIES

Tactical Rifles

The M&P15 rifle line is Smith & Wesson's version of the popular semi-automatic AR-15 rifle. These rugged, lightweight rifles chambered in 5.56mm NATO are built to perform flawlessly under varied conditions. As tough as it is effective, the M&P15 comes standard with a chrome-lined 16-inch barrel, bolt carrier and gas key. The six-position adjustable stock easily accommodates various shooting positions and user build.

PISTOLS

Smith & Wesson has been a leader in semi-automatic pistols for over 90 years and continues the tradition with a broad range of models for the sporting, law enforcement and worldwide military markets. The pistol line offers a wide variety of options, unique features and choices. Smith & Wesson pistols are built to perform both safely and accurately to fit the diverse needs of every shooter, from novice to professional.

Features

Low Profile Carry Sight or Adjustable Target Sight

External Extractor

Visual Loaded Chamber Indicator

Dovetail Front Sight

Aluminum Target Trigger

Extended Thumb Safety

Beavertail Grip Safety

Frame Materials:

- Stainless Steel
- Scandium Alloy
- Carbon Steel
- Polymer

Extended Thumb Safety

Allows Easier Access to the Safety For All Hand Sizes Ambidextrous On Some Models

Rear Sights

Low Profile Carry or Adjustable Target Rear Sights

Hammer

Skeletonized, Low-Mass Hammer for Fast Lock Time

Visual Loaded Chamber Indicator

Provides Visual Verification to Determine if the Chamber is Loaded

External Extractor

Designed for Positive Extraction and Increased Durability

PISTOLS

The Father of the 1911 pistol, John Moses Browning's extremely popular 1911 design is still a favorite among enthusiasts and competitors today. Smith & Wesson's variations of the evolved 1911 can be seen in the line of SW1911 pistols. These 1911's are manufactured with a wide variety of materials, finishes and unique features and are favorites in any collection.

PISTOLS

Rimfire

The Smith & Wesson Model 41 is the top of the line in rimfire pistols. Used by national level competitors for acute precision in competition, the Model 41 has been considered one of the best .22 Target pistols ever manufactured. In addition to the 5.5 and 7-inch models offered, Smith & Wesson is commemorating the pistol's 50 year history with a limited edition, beautifully engraved 50th Anniversary Model 41, lavishly covered with American scrolls and lettering plated with 24kt gold. REVOLVERS

Since the very first revolver from Smith & Wesson founders Horace Smith and D.B. Wesson in 1852, no other manufacturer has offered revolvers in such a wide range of size and caliber. All five frame sizes cover every need from small concealable revolvers, to the all-time favorite medium frame, to the tough large and ultra-powered, extra large frames. Accurate and reliable right out of the box, Smith & Wesson's tradition in superiority has remained unrivaled throughout the years.

REVOLVERS

The Smith & Wesson J-Frame has become the most popular small frame personal defense revolver on the market. With decades of reliable performance to its credit, the J-frame line offers models capable of firing .22 LR, .22 Magnum, .38 S&W Special and the more powerful .357 Magnum loads. Smith & Wesson offers these revolvers in three diverse hammer designs; the exposed Chiefs Special®, fully enclosed Centennial and the hammer shrouded Bodyguard®.

REVOLVERS

The K-Frame revolver is one of the most important innovations in Smith & Wesson history. Built specifically to handle the .38 S&W Special cartridge, the .38 Military & Police is now known as the Model 10. Since its introduction, the K-Frame has been a favorite for military and police professionals as well as target shooters and enthusiasts. Today's K-Frame is available in .22 LR and .38 S&W Special.

Smith & Wesson's Extra Large Frame (X) revolvers are the most powerful production revolvers ever built. The Model 460XVR™ was released in 2005 and sports the highest muzzle velocity of any production revolver on the planet. This handgun launches 200-grain, .460 S&W Magnum bullets at approximately 2,300 feet per second. The X-Frames come equipped with compensators to reduce felt recoil.

REVOLVERS

REVOLVERS

The Smith & Wesson Model 500 is one of the most powerful production revolvers ever built. After its introduction in 2003, the Model 500, with its all-stainless steel frame and two-piece barrel, lifted industry standards and handgun tolerances to new heights. The 500's massive five round cylinder holds rounds powerful enough to stop the largest game.

Since the 1850s, Smith & Wesson has supported sport shooting, a part of the American firearm heritage, with new products and activities to keep the challenge alive. Along with sponsoring a wide variety of shooting sports and events across the country, Smith & Wesson is especially proud to sponsor the successful careers of Doug Koenig, Jerry Miculek and Julie Goloski - three of the world's most legendary shooters as they compete and win with Smith & Wesson firearms.

Completing the line between main production and the Performance Center, the Smith & Wesson Pro Series represents the next step from standard models. These firearms are offered with a variety of enhancements yet still remain true to "stock." Bringing competition specifications and features to factory models, the Pro Series offer that ready-to-go package while still maintaining production line integrity.

PERFORMANCE CENTER

The name says it all. Smith & Wesson's Performance Center has been providing highly specialized services for the most demanding firearm enthusiasts since 1990. Highly skilled and experienced gunsmiths conceptualize, engineer and handcraft products from the ground up that bridge the gap between classic beauty and high-tech innovation. With attention to detail and precision, the Performance Center serves competitive shooters, avid collectors, sport enthusiasts, hunters and law enforcement professionals who demand the very best.

FEATURES

Hand-Cut Chamber & Polished Feed Ramp
Reduces Wear While Increasing Accuracy and Reliability

Adds even more reliability by eliminating ammunition feeding friction.

Precision Crowned Muzzle
Gas escapes evenly as the bullet exits that results in added stabilization of the bullet and better accuracy.

Hand-Lapped Frame & Slide Rails
This process eliminates play between frame and slide for reduced wear and increased reliability.

Hand-Polished and Stoned Internal Action
The resulting crisp, clean action reduces wear and increases reliability.

Oversized Beveled Magazine Well
Funneled for High-Speed Change

PERFORMANCE CENTER

Performance Center guns originate from standard designs or are created from the ground up. From hand cutting and fitting to fine tuning for precision, these firearms are top performers. Products from the Performance Center are the ultimate expression of old-world craftsmanship blended with modern technology.

- Priority pick up and delivery service.
- Customer must call Customer Service at 1-800-331-0852 to set up Express Service.
- Round trip freight and handling prepaid and billed at corporate rate.

Express Service Packages are designed for unaltered guns from 1990 and newer. Finishing and major component replacement (barrel, cylinder, frame or slide) cannot be done as Express Service.

CLASSICS

Now you can own a piece of history in the making with the Smith & Wesson Classic revolver line. The Classics bring coveted models, with their designs harkening back to the most famous collectibles ever constructed, back in production. Each model, known for its legendary performance, has been enhanced with modern advantages. They are the timeless best of both worlds – Smith & Wesson Classics.

Custom Engraving

Smith & Wesson firearms have been renowned for their performance and function for over 150 years. Now, they can also become timeless works of art. Any new revolver, pistol or classic firearm from Smith & Wesson which you already own, can be custom engraved to create a personal masterpiece. The application of precious metals, and the art of embellishment, results in a one-of-a-kind piece that reflects not only the skill and vision of the master engraver, but also the artistic expression of the owner. Only Smith & Wesson can provide the added value of authenticity direct from the manufacturer.

Laser Engraving

Choose to add scrollwork, lettering or animal motifs to your firearm with LaserSmith™ technology. An inexpensive, fast way to add elegance, character and individuality to any carbon or stainless steel component of your firearm, Smith & Wesson gives you the opportunity to beautifully personalize your Smith & Wesson. (Alloy frames cannot be engraved.)

Handcuffs

Since 1920, Smith & Wesson has produced quality handcuffs using the same engineering, materials and workmanship found in renowned Smith & Wesson handguns. Fabricated from the finest carbon or stainless steel, the internal locks are heat-treated and the handcuffs feature smooth ratchets for ease of cuffing. All Smith & Wesson handcuffs come with a double locking system to prevent tampering and provide that extra measure of security. Pin lock models feature a pushpin that provides a means to prevent tampering and further tightening to help prevent injury.
