

**Savage Arms**  
The Definition of Accuracy

2008

*The revolutionary Savage AccuTrigger™ is just one of the features built into a Savage Rifle that gives it the accuracy by which all others are judged.*

## Chairman's Letter

### Dear Valued Customer,

On the following pages you will find products and calibers that are designed specifically for your shooting needs. You will also see a number of our employees going through the painstaking process of making the best-shooting firearms in the industry.

Our employees are not only dedicated; they are knowledgeable in the fine art of making a quality product, while maintaining individual attention to detail. No single detail makes a Savage firearm exceptional, but rather the confluence of many seemingly small things that other manufacturers may overlook.

For 2008, Savage will emphasize overall quality, innovative product features and value for the dollar. We have dedicated more of our engineering talent towards improving long-distance accuracy, ease of manufacturing and product longevity through design and material improvements. Be it a rifle or a shotgun, it will be the best that we can make.

To be a viable manufacturer in today's global economy, you must be on a journey – more a “work in progress” than a destination. We are moving forward and you, the consumer, are the beneficiary.

The Savage family stands behind every firearm manufactured and we set a high standard for ourselves – that way, we will not disappoint you. We will continue to deliver the best rifles and shotguns available, regardless of price.

For Savage Sports Corporation,

Ronald Coburn  
Chairman & CEO

2003 Shooting Industry Academy of Excellence Manufacturer of the Year.  
2007 National Association of Sporting Goods Wholesalers, Chairman's Award for Industry Leadership.

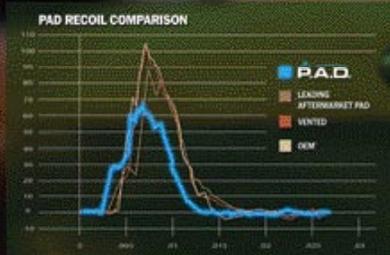

## P.A.D.

from **Savage Arms**

Beginning in 2008, many Savage rifles will come equipped with the new Personal AntiRecoil Device (P.A.D.) This high-grade recoil pad reduces felt-recoil more than any other option available. In fact, the P.A.D. absorbs 27% more recoil more recoil than the leading aftermarket pad and 45% more than the leading OEM and vented pads.

- Leading aftermarket pad reduces recoil by 18% from OEM solid and vented pads
- P.A.D. reduces recoil by 45% from OEM solid and vented pads
- P.A.D. reduces recoil by 27% from the leading aftermarket pad
- 30-06 with P.A.D. has 21% less recoil than 243 with OEM pads

\*Original Equipment Manufacturer

## BOWTECH

REFUSE TO FOLLOW

Savage Welcomes BowTech to the Savage Family of outdoor brands. BowTech, the largest bow company in the world, manufactures and distributes the industry's finest compound bows and archery equipment. Divisions include BowTech and Diamond Archery, Stryker Crossbows and WaterDog Surface Technologies.

Savage's acquisition of BowTech gives the corporation superior products in all of the hunting/competition/recreational and police markets, which includes compound/crossbow archery and accessories, black powder/smokeless muzzleloaders, rim-fire rifles, center-fire rifles, shotguns, indoor/outdoor ranges and accessories, fixed and moving target systems and tactical shoot houses.

As part of our commitment to bring you the best products possible, Savage Sports Corporation reserves the right to change materials and/or specifications without notification.

## The New Savage AccuTrigger™

*A revolutionary concept that redefines how triggers function.*

### Why Savage Developed the AccuTrigger

At Savage, we're constantly searching for new products and innovations that provide a true benefit to shooters. The trigger is one area that has always captured our attention.

Most triggers found in firearms produced today have a very heavy pull. The reason is quite simple: liability. Because manufacturers cannot afford to build firearms with triggers that could accidentally discharge; they've resorted to heavy trigger pulls. Even though factory triggers can usually be adjusted to some extent, such adjustments can create unsafe conditions and usually void the warranty.

Savage challenged its engineering team to design a completely new trigger system that gives shooters what they want – an easily adjustable trigger with a crisp release and no creep. This project took several years, but our revolutionary AccuTrigger meets all of these objectives.

### Adjustability, Added Safety And Enhanced Accuracy

The Savage AccuTrigger gives the flexibility to set trigger pull to individual preferences without having to pay a gunsmith to adjust it. Even when adjusted to its lowest setting, the AccuTrigger is completely safe. When maintained and adjusted as intended, the AccuTrigger cannot accidentally discharge during normal use, even if it is jarred or dropped. Furthermore, the crisp, clean, light trigger pull allows the shooter to maximize the rifle's accuracy potential.

A newly designed teardrop safety is an additional feature on centerfire rifles with the AccuTrigger. This provides better acquisition of the safety button and operates more smoothly and quietly.

### How Does The AccuTrigger Work

The AccuTrigger is designed with an integrated AccuRelease™ that must be completely depressed or the rifle cannot fire. While the trigger is being pulled, the AccuRelease is intentionally depressed, which unblocks the sear and allows the rifle to discharge.

### Adjusting The AccuTrigger

Adjusting the AccuTrigger is easy. Simply remove the stock and rotate the return spring using the tool supplied with the rifle. The AccuTrigger has a single adjustment location and is designed so it cannot be adjusted below the minimum setting.

The Savage AccuTrigger™ has a single adjustment location

- Capable of being adjusted by the owner
- Trigger pull weight varies by model from 6 oz. to 6 lbs.
- Completely safe – no danger of accidental discharge even at the lowest setting, when properly maintained
- Crisp release with no creep

### The AccuTrigger vs. Other Triggers

Sophisticated software was used to compare objective measurements of the new AccuTrigger with competitors' triggers. These comparisons confirmed that there is a quantifiable and repeatable difference between the AccuTrigger and other triggers tested. This test demonstrated that the new Savage system has a lighter pull than all the other major brands. In fact, the AccuTrigger was lighter than a top-of-the-line imported brand and a custom aftermarket trigger. Testing also revealed the AccuTrigger was much smoother, crisper, broke cleaner and demonstrated less creep than any other factory-built trigger tested.

### New Target AccuTrigger

The Precision Target Rifle line, Precision Target Actions, and select Model 12's also feature the new addition to the revolutionary AccuTrigger line. The Target AccuTrigger™ is adjustable from approximately 6 oz. to 2.5 lbs. What's more amazing is that it is still completely safe, even when adjusted to the lightest setting. When properly maintained, the Target AccuTrigger cannot accidentally discharge during normal use even if dropped or jarred.

*Meet the future of the industry – the Savage AccuTrigger – the system that makes all others obsolete.*

# Special 50th Anniversary

The front and rear mating surfaces of the receiver are heat treated at 1550 degrees. This unique induction-hardening process heats both ends of the receiver without heating the entire length, which can warp the receiver and degrade accuracy.

Gold Plated barrel bands.

## 110 - 50th Anniversary

AccuTrigger™ NEW Model 110 - 50th ANNIVERSARY

### A Savage Classic in a Limited Edition

Even if you can remember back to 1958, here's a piece of trivia you may not know. The top TV shows that year were *Guns, Smoke, Wagon Train, Have Gun Will Travel* and *The Rifleman*. Savage introduced its Model 110 in 1958 but, unlike those TV Westerns, it's still around. In fact, we're celebrating the 50th anniversary of this classic with a limited edition. Only 1,000 rifles will be produced.

The Model 110 50th Anniversary is a classically styled short action model and the first ever Savage bolt-action rifle chambered in 300 Savage. This special edition features a high luster blued barreled action and a high-grade hinged floorplate with 24-karat gold plating and etch block scroll pattern on both sides of the receiver. Other luxury details include 24-karat gold plated double barrel bands, 24-karat gold plated trigger and Savage embossed recoil pad. The semi-fancy American walnut stock has a unique classic checkering pattern and shadow line cheekpiece.

The Savage Model 110 is 50 years old and going strong. In fact, the Savage Model 110 was the first bolt-action rifle to be offered in a left hand model. Don't miss out on a chance to own this fine example of luxury and craftsmanship. The barn door is open... jump on the wagon before it's too late.

24 kt gold plated and etch block scroll pattern to both sides of receiver.

Semi-fancy American Walnut stock with unique classic checkering pattern.

High grade floorplate with 24 kt gold plating and etch block scroll pattern.

# Precision Actions

Induction-hardening of the critical mating surfaces of the receiver is paramount to ensure the superior accuracy of a Savage rifle is maintained for decades to come.

## Savage Precision Actions

Our new line of Precision Actions makes it possible for gunsmiths to add the same action found in our Precision Target Rifles, Varmint Rifles and Hunting Rifles to customized firearms. The actions are available in both standard and .223 bolt heads, and are offered in two configurations: Right Bolt/Right Port and Right Bolt/Left Port. The stainless Precision Target Actions also come with the Target AccuTrigger™, adjustable from 6 oz. to 2.5 lbs.

### Target Actions

Target AccuTrigger™

223 Bolt Head – Right Bolt, Left Port  
Standard Bolt Head – Right Bolt, Left Port

Target AccuTrigger™

223 Bolt Head – Right Bolt, Right Port

223 Bolt Head – Right Bolt, Right Port  
Standard Bolt Head – Right Bolt, Right Port

### Sporter Action

AccuTrigger™

223 Bolt Head – Right Bolt, Right Port  
Standard Bolt Head – Right Bolt, Right Port

Actions include bolt assembly, Target AccuTrigger group assembly, barrel locknut, recoil lug, and trigger guard.

## 12 Varmint Series

### ▶ 12 Long Range Precision Varminter

Field & Stream "2006 Best of the Best Award"  
NRA's Shooting Illustrated's "2007 Golden Bullseye Award"

**Model 12 LONG RANGE PRECISION VARMINTER**  
Right Bolt, Left Port,  
Short Action, Single Shot

### *The Ultimate Factory-Produced Rifle*

Prairie Dogs beware. The Varmint series raises the bar on varmint-grade accuracy. Our revolutionary AccuTrigger™ lets you calibrate trigger pull weight from approximately 1.5 to 6 lbs. without having to pay a gunsmith. The Long Range Precision Varminter features the new AccuTrigger: The Target AccuTrigger™, adjustable from approximately 6 oz. to 2.5 lbs.

A superlative factory produced rifle, the Varmint Series features button rifled, free-floating barrels and dual pillar bedded stocks. Select different rates of twist to help stabilize heavier bullets during long range shooting – a Savage exclusive.

The top-of-the-line *Model 12 Long Range Precision Varminter* provides legendary Savage accuracy and sets the standard in long range shooting. An extra heavy, one-inch diameter

barrel with a smaller ejection port provides more rigidity to the receiver and greater precision. The right bolt/left port configuration also makes it easier to reload with your free hand. All this, plus an aluminum bedding block chassis system in H-S Precision's Varmint stock. It's easy to see why the Model 12 was named a *Field & Stream* "Best of the Best" and NRA's *Shooting Illustrated* "Golden Bullseye Award".

New additions to the 12 Varmint Series include a *Long Range Precision Varminter* featuring a detachable box magazine with a right bolt/right port and a *Varminter Low Profile* with a detachable box magazine, as well as a stainless steel rifle with a laminated thumbhole stock and detachable box magazine, the *Model 12BTCSS*. Another new addition to the series is a 6 NORMA BR chambering, available in the Long Range Varminter.

### ▶ 12 Long Range Precision Varminter

**new Model 12 LONG RANGE PRECISION VARMINTER**  
Right Bolt, Right Port  
Short Action, Detachable Box Magazine

While the AccuTrigger™ was designed using the most sophisticated computer design software available, each one is still assembled by hand to ensure the precision and accuracy you expect from a Savage.

# 12 Varmint Series

Savage rifles are assembled by highly-skilled craftsmen who pass through a rigorous training process. Training typically lasts six to eight months before the builder becomes completely proficient.

**3-Position Safety and Oversized Bolt Handle**  
All Savage rifles with the new AccuTrigger™ feature a newly designed teardrop 3-position safety that provides better acquisition of the safety button and operates smoother and quieter. The Varminter bolt handle is oversized for quick acquisition when multiple shots are required.

**Right Bolt – Left Port**  
Smaller ejection port gives more rigidity to the receiver for enhanced accuracy, and the right bolt, left port makes it easier to reload with your free hand.

Man and machine work together to build the most accurate production rifle you can buy. Every Savage receiver is hand finished and hand inspected as it goes through a multi-step manufacturing process.

## Precision Target Series

### 12 F Class

**Model 12 F CLASS TARGET RIFLE**  
Scope not included

### Pinpoint Accuracy

Whether you shoot in international competition or at the local range, our Precision Target Rifles will help you stack those shots one on top of the other. Our *12 F/TR* has a slightly rounded forend with bipod rail, adjustable cheekpiece, and is chambered in .308 Win. The *F Class* has a three inch wide ventilated forend with flat bottom, flat butt stock, and is chambered in 6.5 X 284 NORMA, as well as 6 NORMA BR – The first factory to offer these calibers.

Both models are equipped with our new Target AccuTrigger™ adjustable from approximately 6 oz. to 2.5 lbs. Other standard features include oversized bolt handle, laminated stock, and a 30 inch, extra heavy, button rifled barrel for enhanced accuracy. Both single shot models feature triple pillar bedding and a small ejection port for superior rigidity.

### 12 F/TR

Outdoor Life's "2007 Great Buy" Award

**Model 12 F/TR TARGET RIFLE**  
Scope and bipod not included

Every step in the manufacturing process either adds or relieves stress to the steel billets our barrels are made of. To ensure every Savage barrel is straight and precise following this process, each one is visually inspected and hand-straightened by one of our highly skilled Master Barrel Technicians before it is approved for use in a Savage Rifle.

## Predator/Varmint Series

### 10 Predator Hunter

### Right on Target with a Price to Match

The *Predator Hunter* is the newest addition to Savage's Varmint/Predator series. It brings a whole new element of accuracy and concealability for dispatching predators and other game. The Predator Hunter features a 22 inch medium contour barrel, synthetic stock with rounded forend and oversized bolt handle. The entire stock, barreled action, trigger guard and bolt handle feature a Mossy Oak Brush pattern camo to help evade detection.

The Predator Hunter is chambered in the popular .223, .22-250, .243 and .204 Ruger calibers and features the AccuTrigger™, adjustable from approximately 1.5 to 6 lbs., a Savage Arms innovation.

The *Model 40 Varmint Hunter* makes it easy to try your hand at the sport without paying a hefty price. Made for the value-minded shooter, this single-shot model doesn't skimp on features. The 24 inch free-floating, medium contour barrel with a recessed target crown is button-rifled to enhance accuracy. The barrel finish is polished to a deep, high luster blue. The easily adjustable AccuTrigger™ is standard, and the varmint style laminated stock with full beavertail provides extra stability when firing from a bench or sand bags. All this, plus a third swivel stud for use with a bipod. Chambered in 22 Hornet, this rifle offers pinpoint accuracy at a very attractive price.

### 40 Varmint Hunter

Savage rifles and shotguns are manufactured in small groups of 20 and 40 guns. Each is individually inspected and tested to ensure accuracy and quality.

## Tougher than the Toughest Weather Conditions

When going get tough, the Weather Warrior Series keeps right on hunting! With a stainless steel action and barrel and synthetic stock, the Weather Warrior is ready to go, even in the most unpredictable conditions. Dual pillar bedding, button rifling and a free floating sporter barrel all enhance the accuracy of these rifles. All models in this series feature the revolutionary AccuTrigger™.

Weather Warrior options include Savage's patented, adjustable muzzlebrake, which reduces felt recoil by 30 percent. Our feeding system comes in both hinged floorplate and detachable box magazine, both offering a straight-line feed for more reliability. Internal or blind magazine configurations are also available. The left-handed Weather Warrior comes with synthetic stock, hinged floorplate, or detachable box magazine, and stainless barreled action. So no matter what Mother Nature brings, the Savage Weather Warrior has you covered.

### Adjustable Muzzlebrake

Just twist the patented Adjustable Muzzlebrake open and reduce felt recoil by 30%. Shooting prone at the range or hunting in the deep woods with a guide at your side? Turn it closed to reduce muzzle blast.

### Hinged Floorplate

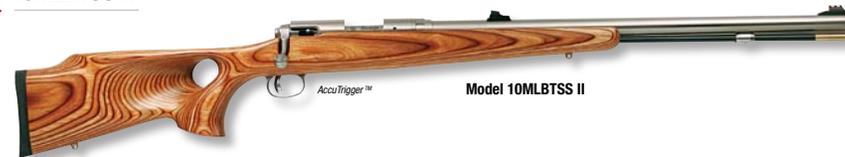

Savage's new hinged floorplate is ergonomically correct — rounds empty out easily into one hand.

Every receiver is hand finished and tested to ensure proper fit and ease of operation.

## Muzzleloader Series

### 10MLBTSS II

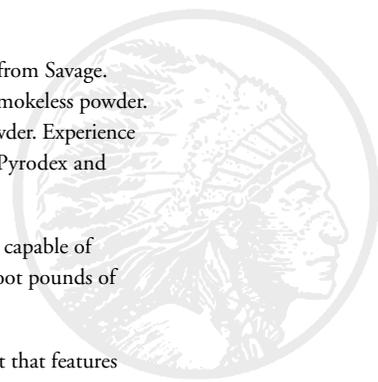

### Flexibility, Performance, Accuracy

The *Savage 10ML II* is another ground breaking design from Savage. It was designed to handle the pressure of shooting with smokeless powder. There is no cleaning required after shooting smokeless powder. Experience outstanding performance shooting with Black Powder, Pyrodex and Triple Seven as well.

This 50 caliber muzzleloader with 209 Primer ignition is capable of exceeding velocities of 2,300 fps with more than 3,000 foot pounds of knockdown energy.

The 10ML II is also the only muzzleloader on the market that features the AccuTrigger™ and is capable of shooting 1.5 inch groups at 100 yards. The Savage muzzleloader makes shooting safe, clean and simple.

### 10MLBSS II

# Muzzleloader Series

Every Savage rifle is meticulously crafted with a delicate balance of modern, high-tech methods and Old-World hand craftsmanship to produce legendary out-of-the-box Savage accuracy.

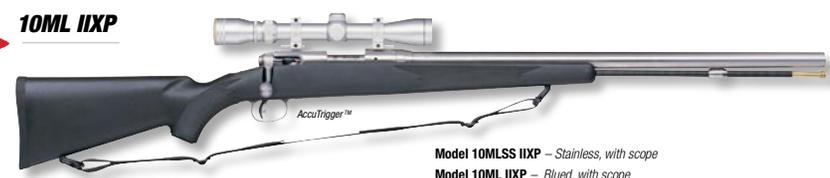

Primer Carrier

**209 Primer Ignition**  
For ease of use and a sure-fire seal, the 209 primer fits into a primer carrier in front of the bolt face.

**Muzzleloading Without the Mess**  
You choose the propellant—modern smokeless powder for maximum performance or traditional black powder, Pyrodex or other black powder substitutes.

## The Classic Series

### 14 Classic

**Model 14 CLASSIC** – Short Action, Hinged Floorplate  
**Model 114 CLASSIC** – Long Action, Hinged Floorplate

### The New Gold Standard in Gunmaking

The Classic Series represents a rare combination of craftsmanship and quality at an attractive price. All rifles in this series feature a stock crafted from American walnut, with wraparound checkering, high luster blued barreled actions, and the revolutionary AccuTrigger™.

Our Classic Series includes three models, each one subtly different from the others. The *Classic* features a satin lacquer stock with Monte Carlo comb and cheekpiece, and a hinged floorplate. The *Euro Classic* features a detachable box magazine, Monte Carlo stock with cheekpiece, and a traditional oil finish. The *American Classic* has a satin lacquer finish and the elegant lines of a traditional straight stock with a detachable box magazine. All three models provide the new straight line feeding system for consistent reliability.

We have added new aesthetic features to the Classic Series comparable to those found on rifles costing several times more. We introduced a jeweled bolt for a touch of elegance. The bolt release is now tucked away in front of the trigger guard for added convenience and a more streamlined appearance.

New for 2008, you will find the American Classic available in left hand, in both short and long action configurations.

The Savage Classic line offers a level of performance rarely found in a factory bolt action rifle. For those who appreciate fine craftsmanship and superb quality, this is the hands-down choice.

# The Classic Series

The extractor pin and springs in every Savage bolt assembly are hand assembled and carefully aligned in the proper position by a skilled craftsman.

**Free-Floating Barrel**  
The barrel is floating for enhanced accuracy.

**Hinged Floorplate**  
Savage's new hinged floorplate is ergonomically correct — rounds empty out easily into one hand.

**New Bolt Release**  
The bolt release is tucked away in front of the trigger guard for a sleeker receiver profile.

**Detachable Box Magazine**  
Savage's new detachable box magazine is a smoother design with a straight-line feed for more reliability.

Every Savage rifle passes through the hands of many skilled craftsmen. Those who perform the critical steps stamp each gun with their personal mark and they are accountable for the quality of their work.

### America's Go-To Model

Widely acclaimed as the best, most accurate rifle in the industry, the Savage 110 action is the foundation of every Savage centerfire rifle manufactured today. This is the gun that has earned Savage its reputation for outstanding accuracy. The Hunter series is available in a variety of calibers and stocks and comes with either detachable box magazine or hinged floorplate. An internal or blind magazine is also available in both short and long action.

This very popular model is available in many options and configurations. Our youth model incorporates a patented, adjustable muzzlebrake that tames recoil by 30 percent. This model is ideal for women, too. Savage offers more left-handed models than any other manufacturer and you'll find short and long left-hand models in both synthetic and wood stocks, in the Hunter Series. This rifle is built with the best, easily adjustable, trigger in the industry – the AccuTrigger™ – for unparalleled safety and precision. Whatever configuration you choose, this legendary series offers unparalleled reliability, out-of-the-box accuracy and exceptional value.

#### Short and Long Actions

Savage offers rifles in short and long actions. The short actions are almost a full inch shorter and provide a lighter more compact action for all of today's shorter cartridges. The long actions are designed to handle cartridges through the .300 Win Mag.

## Law Enforcement Series

### 10FCPXP HS Precision

### The Tactical Advantage

Built for pinpoint accuracy, Savage rifles are ideal for tactical situations when the stakes are highest. In fact, the Savage Law Enforcement Series is now the official precision rifle of the New York State Police Mobile Response Team. Every heavy contour barrel in this series is button rifled for enhanced accuracy and features a recessed target crown. There is no need to lap the bolt, because the floating bolt head ensures both lugs have full bearing on the locking surface. And the headspace on every rifle is set at absolute minimum.

Standard features include an oversized bolt handle that permits rapid acquisition for follow-up shots. Our crisp, clean AccuTrigger™ allows the user to easily adjust trigger pull weight from approximately 1.5 to 6 pounds. Stock choices include the H-S Precision Tactical, the Choate, McMillan, or our standard synthetic stock. These models also offer a new feature, a detachable box magazine with straight line feed.

The specialized package model features a Leupold 3.5-10x40mm tactical scope with Mil Dot reticle, a Farrell Pickitiny style Rail Base, Burreis Zee Rings, flip-open lens covers, and a Harris bipod – all enclosed in a high performance, weatherproof Storm Case™ for easy transport. When accuracy is the only option, there is no better choice.

*Every Savage rifle is proofed and test fired a minimum of two times to ensure safety, accuracy and function before it can be shipped.*

# Law Enforcement Series

The Savage Service Department takes tremendous pride in satisfying our customers' needs. Nearly every rifle is test fired at 100 yards for accuracy before it is shipped back to its owner.

**Rugged Storm Case**  
This specialized package model is protected by a high performance, weather-proof Storm Case™ for easy transport.

### 10FCM Scout

**Model 10FCM SCOUT**  
– Short Action, Detachable Box Magazine  
Scope, rings, bases and bipod not included

### Savages for All Seasons

The scout rifle concept developed by the late Col. Jeff Cooper describes the ideal general-purpose rifle as a lightweight carbine-length rifle chambered in .308 with a long eye-relief scope mounted far forward for quick target acquisition. At 39.75" overall length and 6.25 lbs., the *Savage Scout* fits the bill and then some. It's a compact, lightweight short action rifle with detachable box magazine, barrel-mounted scope mount, ghost ring sights and a sling. The *Savage Model 210F* is a highly specialized bolt action shotgun with a classic design. The 12 gauge, 3-inch chambered slug shotgun consistently earns accolades for accuracy and reliability.

### All Around Excellence

Savage's all-around line of Model 64 Rimfire rifles can handle everything from casual plinking to small game hunting. And they're designed to meet the needs of everyone from novices to serious marksmen. The Model 64 family is available in blue or stainless, with wood or synthetic stocks, and comes equipped with a smooth-feeding detachable 10-round magazine. Be sure to check out our new heavy barrel model with a brown laminated thumbhole stock. It's a tack-driver! Savage has been making Rimfire rifles for more than 100 years, and we continue to build on this tradition of excellence. With the Semi-Automatic Rimfire Series, we've created a combination of value and versatility that's hard to match.

## Magnum Rimfire Series

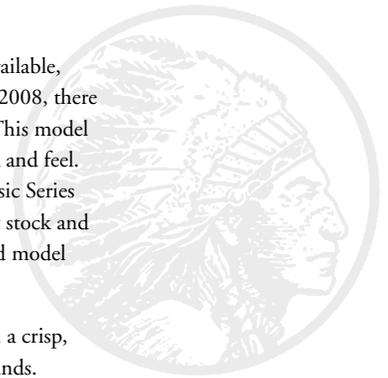

### 93 Classic T

### The Model of Versatility

Savage offers the widest selection of 22 magnum rifles available, and every one is built to perform like a Savage. New for 2008, there is the *93 Classic T* model featuring a thumbhole stock. This model represents traditional styling with a touch of today's look and feel. The Classic model looks just like Savage's centerfire Classic Series with a high-luster blue barreled action, American walnut stock and wraparound checkering. The *93 BTVSS* is heavy-barelled model with a stainless barrel and an attractive thumbhole stock.

Every model in the series features Savage's AccuTrigger™, a crisp, clean trigger that adjusts down to approximately 2.5 pounds. The AccuTrigger prevents accidental discharge, even at the lowest setting. For economical plinking or small game, the Magnum Rimfire is the very definition of versatility.

Every barreled action of a Savage rifle is meticulously crafted with a delicate balance between modern, high tech methods and Old World hand craftsmanship.

# Magnum Rimfire Series

Savage's sophisticated vibratory polishing system uses various media and chemicals to polish the barreled actions to a satin or high-luster finish, depending on model.

Savage craftsmen hand set the firing pin protrusion of every rifle to narrow tolerances to ensure reliable ignition and accuracy.

### Safety First for Beginners

Start your own family tradition. The Savage 22 has initiated generations of young shooters into the sport, ensuring that fun and safety go hand in hand. The perfect rifle for novices, the Savage 22 offers the added protection of the AccuTrigger™, single shot bolt action with one-round-at-a-time shooting. The AccuTrigger cannot accidentally discharge if jarred or dropped – even at the lowest setting – when properly maintained and adjusted.

The Cub, our junior youth model, is designed for the youngest shooter. The Cub is a scaled-down conventional bolt action rifle with a target-style peep sight to help perfect every shot. Our Cub T model has a laminated, vented thumbhole stock with swivel studs. And for 2008, you'll even find a Pink Laminated Thumbhole model. The Stevens Favorite, a traditional falling block model, is available in either a standard or a takedown model.

Every rifle in this series offers superior control and unlimited enjoyment for all levels of rimfire shooters. A single shot model from Savage has fun and safety built in, making it the right choice for beginners.

**Peep Sights**  
Aperture rear sight adjustable for windage and elevation.

*Every barreled action is precision tested to ensure straightness is maintained during the hand-swinging assembly process.*

## Mark II Rimfire Series

### ▶ **Mark II Classic**

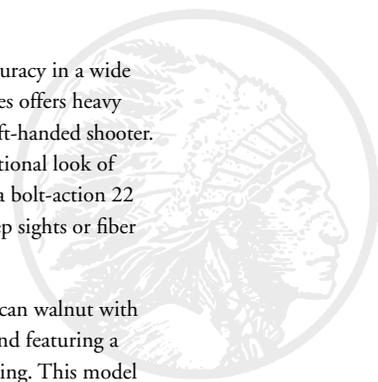

### *Rich in Features but Easy on the Wallet*

The Mark II line from Savage gives you match-grade accuracy in a wide range of choices and at a price you'll appreciate. The series offers heavy barrels for precision shooting as well as versions for the left-handed shooter. Stock choices include camo, black synthetic, or the traditional look of wood with Monte Carlo comb. Everything you want in a bolt-action 22 repeater is here – including stainless or blued barrels, peep sights or fiber optic sights.

The new *Mark II Classic* has a stock crafted from American walnut with a contrasting black forend tip, finished in satin lacquer and featuring a traditional Monte Carlo comb with wraparound checkering. This model has the great look and feel of a centerfire.

All models are equipped with our revolutionary AccuTrigger™ as a standard feature. The AccuTrigger features a user-adjustable trigger pull, so there's no need to pay a gunsmith to modify it. The AccuTrigger provides a crisp, clean trigger pull, which enhances accuracy.

The Mark II series makes a big impression in every area except your wallet!

# Mark II Rimfire Series

Savage Arms is the only manufacturer that hand-swings every barrel and action to ensure the headspace is set to an absolute minimum, rather than within an acceptable tolerance range. This ensures proper alignment and maximum accuracy.

### The Complete Package

Savage originated the package model and continues to offer the best out-of-the-box models on the market. A Savage package rifle offers the complete package – rifle, scope, rings and bases included. The revolutionary AccuTrigger™, available on bolt action models, combines safety with adjustability. So whether you're plinking or hunting, the AccuTrigger, when properly maintained, cannot discharge accidentally if jarred or dropped. All models in the Rimfire Package Series offer scopes that have been mounted and boresighted. Be sure to look at the new Camo Rimfire Package model in 17HMR, 22 Magnum and 22LR. The stock, barreled action, 3-9x40 scope and rings are all completely covered in the Mossy Oak Brush pattern camo. You won't find a cooler looking rimfire rifle anywhere!

## 17 Series

### 93R17 Classic T

### Pure Enjoyment

Rimfire shooting has never been more fun. And our popular 17 series of bolt action rimfire rifles gives you more options in these hot new calibers than any other manufacturer. The Savage line includes models chambered in either 17HMR or 17 Mach 2, from the heavy barrel varmint to sporter barrel models. Configurations include laminated, camo, synthetic or wood stocks, blue or stainless barreled actions.

Our new model, the *93R17 Classic T*, has the look and feel of a centerfire rifle. The popular model *93R17 BTVS* features a laminated, vented, thumbhole stock with a heavy stainless steel barrel. For varmint shooting, we offer the *93R17 BV* with a high luster blued finish and varmint-style laminated stock.

Every model in this series comes with the built-in adjustability and safety of the AccuTrigger™. And every model provides tack-driving accuracy powerful enough for dispatching small game and varmints. Whatever you choose – the 2,550 fps of the 17HMR caliber or the laser-like trajectory of the 17 Mach 2 – you'll be right on the mark.

### The Definition of Value

The Stevens rifle is the right rifle at the right price. All barrels in this line are button rifled with painstaking precision by gunmakers trained in the Stevens tradition. The *Model 200* is available in both long and short actions, in a variety of calibers, and features a dual pillar bedded gray synthetic stock. All barrels are free floating for enhanced accuracy.

Our rimfire selection offers many options, from the single shot 22 to the popular tack-driving 17 HMR. There is also a scaled down, youth version, perfect for the beginner, and a package model complete with scope. From centerfire to rimfire, every model delivers reliability, accuracy and unsurpassed value. Stevens is the "must buy" model for discriminating hunters and riflemen who know great value when they see it.

## Stevens Gold Wing

Before receiving a serial number, every Savage rifle and shotgun is tested, inspected and test fired. After successfully passing each of these steps, a Savage rifle “earns” its individual serial number.

### Go for the Gold!

The Stevens 512 Gold Wing is a gun you’ll be proud to carry at a price that reminds you why Stevens is *The Definition of Value*. This well-built, reliable over/under shotgun gives you many features usually found only on more expensive models.

Built by Turkish craftsmen to Savage’s precise specifications, the Stevens Gold Wing box-lock action over/under is loaded with upgrades: chrome-lined barrels, brass mid-rib bead and front sight, gold-plated single selective mechanical trigger and mono-block construction. The single selector switch is integrated into the tang-mounted safety and located right where you want it. The 12, 20, and 28 gauges all come with five screw-in choke tubes, while the .410 has fixed M/IC chokes. And all frames are scaled precisely to the gauge for superior balance.

The Stevens over/under includes a black chrome, sculpted receiver with a raised gold pheasant, laser engraved trigger guard and forend latch. The Turkish walnut stock is finished in satin lacquer and beautifully laser engraved with fleur-de-lis checkering on the side panels, wrist and Schnabel forearm.

This feature-rich shotgun is unmatched in quality and lavish in every way – except for the price!

12 GA 20 GA 28 GA .410

All frames are perfectly scaled for superior handling qualities and weight distribution.

new Model 512 GOLD WING

# Milano Shotgun Series

For over 100 years, Savage has manufactured innovative and state-of-the-art firearms. We proudly display a historical array of our heritage in our lobby in Westfield, MA.

## Italian Craftsmanship, Enduring Quality

Italian craftsmanship is legendary, and that is why we went to the famed Brescia Valley of Northern Italy to build Savage's new Milano shotgun. The Milano is crafted by skilled artisans from the finest materials, including Turkish walnut stock and a jeweled monoblock. The stock and forend feature a tasteful satin lacquer finish with laser engraved checkering. A barrel selector switch is incorporated into the tang mounted safety. The Milano also comes with removable choke tubes in the 12, 20 and 28 gauges, as well as a gold plated, single selective mechanical trigger.

In any configuration, the Milano is built to provide superior handling and perfect weight distribution – the result of receivers which are precisely scaled to their gauge. Standard features include automatic ejectors, chrome lined barrels, fiber optic front sight and a brass mid-rib bead. When handsome elegance is what you're looking for, look no further than the Savage Milano.

12 GA 20 GA 28 GA .410

All frames are perfectly scaled for superior handling qualities and weight distribution.

Westfield, MA 01085

Didn't see the exact Savage rifle you've been dreaming of in this catalog? For a modest special-makeup fee, we can mix and match existing calibers and components to make unique rifles for many customers whose specific needs are not met by our standard line.

Please call Effie Sullivan at 800-370-0708 ext. 6 to begin working on your new rifle today!
