

**LEUPOLD & STEVENS, INC. IS A PROUD SPONSOR OF THESE AND OTHER FINE ORGANIZATIONS:**

Audubon Society of Portland, Birders' Exchange, Cornell Lab of Ornithology, Jackson Bottom Wetlands, Natural Resources Defense Council, Royal Society for the Protection of Birds, and World Series of Birding.

**TITLE SPONSOR OF OREGON CASCADES BIRDING TRAIL**

The Oregon Cascades Birding Trail is a network of prime birding destinations linked by existing highways and byways throughout the Oregon Cascades. The trail

extends more than 1,000 miles along 2 north-south routes traversing the Eastern and Western Cascades, showcasing the region's spectacular scenery and wildlife for birders from around the globe. The routes, which include over 100 prime birding sites, are linked by crossings throughout, as well as the Columbia Gorge section at the north end and the Mt. McLaughlin loop at the south. Leupold & Stevens, Inc. is very proud to have joined with the American Bird Conservancy and the National Forest Foundation as a title sponsor of such an important and forward-looking project as this. For more information on the Oregon Cascades Birding Trail, visit the trail Web site at [www.oregonbirdingtrails.org](http://www.oregonbirdingtrails.org).

Leupold offers our profound gratitude to all the ardent outdoor enthusiasts without whom the photography in this catalog would not have been possible. Special thanks are additionally extended to Miss Ashley Weeks and the entire Weeks family, Mr. John Anderson, Mr. Dave Lauten and Ms. Kathy Castelein of the Oregon Western Snowy Plover Project (Oregon Natural Heritage Information Center), the professional and volunteer staff of Jackson Bottom Wetland Education Center ([www.jacksonbottom.org](http://www.jacksonbottom.org)), and the owners and avid kayakers of Scappoose Bay Kayaking ([www.scappoosebaykayaking.com](http://www.scappoosebaykayaking.com)).

AMERICA'S OPTICS AUTHORITY®

**2009 OBSERVATION**

# ALWAYS LOOKING AHEAD

From humble beginnings in 1907 to today, the Leupold® name has come to mean rugged, reliable, and long-lasting binoculars and spotting scopes.

For more than a century, Leupold has been on the leading edge of optical technology, and our dedicated American workforce has consistently delivered the advancements that make us America's Optics Authority®. From specialized lens and prism coatings that improve light transmission, to rugged, waterproof design and construction, we strive to constantly push the limits with our products. Every binocular and scope we produce is backed by more than

100 years of experience, and we think they are well worth the extra effort required to achieve this level of performance.

Leupold & Stevens is proud to be family-owned and following the philosophical foundation laid out by Fred Leupold, its founder. While our focus has shifted from surveying equipment to sport optics, and our business has evolved from a small shop in Portland to an advanced campus of engineering and manufacturing space in Beaverton, Oregon, Leupold & Stevens believes in the same principles Fred laid down over a century ago:

"We solemnly promise never to let down on quality, the customer is entitled to a square deal."

— Markus Friedrich "Fred" Leupold

## NEW FOR 2009

### NEW» NORTHFORK™ SERIES BINOCULARS – PAGE 7

Superior performance and European styling makes the Northfork™ an attractive new binocular for 2009. With a 45mm objective, fully multi-coated lenses, and Super High Reflection (SHR) prisms, the Northfork delivers an incredibly bright and clear picture in any light.

### NEW» OLYMPIC COMPACT DUAL HINGE SERIES BINOCULARS – PAGE 8

Compact, durable binoculars always have a place in a serious birder's kit, so we're introducing the Olympic Compact Dual Hinge binoculars. Weighing in at only 15 ounces and a slight 4.3 inches, it excels when space is limited. It still features fully multi-coated lenses and Super High Reflection (SHR) prisms to provide superior optical performance.

### NEW» ROGUE™ SERIES BINOCULARS – PAGE 9

Traditional, ergonomic design makes the new Rogue™ Series an instant favorite. Fully multi-coated lenses create a bright, crisp image for any application. A newly designed lock on the center focus dial secures your focus setting with a flick of the finger, and unlocks just as simple.

### GOLDEN RING® BINOCULARS WITH SWITCH/POWER® TECHNOLOGY FEATURES

#### THE SWITCH/POWER SWITCH

» A flick of your finger switches the magnification instantly and completely. The switch then stays in position until you change it.

#### LIGHTWEIGHT

» Even the 10/17x42mm is lightweight enough to be your full-time optic.

#### WIDER PERSPECTIVE

» Watching birds on the wing is easy, with a field of view of up to 376 feet at 1,000 yards.

#### PHASE COATED PRISMS

» Super-reflective, they work with the lens system to eliminate diffraction and ensure peak clarity.

#### LENS SYSTEM

» Fully multicoated lens system provides superb levels of light transmission, clarity, contrast, and color fidelity.

#### SUPERB CLOSE FOCUS

» Even butterflies will love them.

SWITCH/7X

SWITCH/12X

#### INTERCHANGEABLE EYECUPS

» Quickly switch between vented, retractable contoured eyecups, or twist-up eyecups especially suited for eyeglass wearers.

#### TRIPOD MOUNTING PORT

» Ready for use with any standard tripod.

#### SECOND GENERATION WATERPROOFING WITH ARGON/KRYPTON GAS BLEND

» Leupold pioneered the truly waterproof optic, and now, we've developed an even more reliable waterproofing method, using an Argon/Krypton gas blend that will keep your binoculars fog free for a lifetime of use.

#### RUGGED, WATERPROOF, AND GUARANTEED FOR LIFE

» Tested to survive the worst conditions possible, they're covered by Leupold's Full Lifetime Guarantee.

#### ACCESSORIES INCLUDED

» Comes complete with Leupold's quick detach carry harness, deluxe neck strap, case, and custom eye and objective covers.

CLIFF SWALLOW  
(PETROCHELIDON PYRRHONOTA)

» Made famous by their centuries-old annual return to the Mission San Juan Capistrano, Cliff Swallows frequently belie their name by building their nests under the eaves of houses.

## GOLDEN RING®

» BINOCULARS WITH SWITCH/POWER® TECHNOLOGY

Imagine using the wide field of view of your 7x binocular to track a bird on the wing. He lights on a branch, and with just a flick of your finger, you're viewing him at 12x without ever taking your eyes off him. This is no zoom...zooming can cause you to lose track of what you're viewing, as the visual field narrows. Leupold's Golden Ring® binoculars with exclusive Switch/Power® Technology feature a precision-manufactured switch in front of the focus ring that instantly and fully changes the power setting, so the object you're viewing always stays at the center of the visual field. Scan at 7x, then with a flick, you're viewing at 12x. Or scan at 10x and zero in at 17x. You get the benefit of two binoculars in one weighing a mere 21.4 ounces, and it's as easy to use as a light switch. They also offer the outstanding optical performance and the Full Lifetime Guarantee you've come to expect from Leupold Golden Ring optics. Hiking, birding, camping, at sporting events, or concerts...anywhere and anytime you'd use binoculars, you'll want Golden Ring binoculars with exclusive Switch/Power Technology.

## GOLDEN RING HD™ FEATURES

### HIGH-DEFINITION™ LENS

» Look for extremely vivid color, life-like clarity, and higher overall performance thanks to the calcium-fluoride lenses.

### LENS SYSTEM

» The DiamondCoat and Index Matched Lens System® offers superb levels of light transmission, clarity, contrast, and color fidelity.

### PHASE COATED PRISMS

» They work with the lens system to ensure peak clarity.

### SUPERB CLOSE FOCUS

» Focusing so close that even butterflies love them.

### GENEROUS EYE RELIEF AND TWIST-UP RETRACTABLE EYECUPS

» Easy and comfortable to use, with or without eyeglasses.

### ERGONOMIC DESIGN

» A wonderful in-hand fit that becomes more comfortable the longer you hold them.

### INTERPUPILLARY DISTANCE LOCK

» Lock in the distance between your eyes, to easily use these binoculars one-handed.

### RUGGED, WATERPROOF, AND GUARANTEED FOR LIFE

» Tested to survive the worst conditions possible, they're covered by Leupold's Full Lifetime Guarantee.

### ACCESSORIES INCLUDED

» Comes complete with Leupold's quick release binocular harness, case, and custom eye and tethered objective covers.

DIAMOND COAT™

ARCOON KRYPTON™

## 12-40x60mm FEATURES

### POWERFUL, CLEAR, BRIGHT OPTICS

» The versatility and clarity, even at 40x, is simply amazing.

### CONSTANT LONG EYE RELIEF

» A generous eyepiece and a constant 30mm of eye relief, the longest eye relief of any spotting scope on the market.

### LENS SYSTEM AND COATINGS

» Multicoat 4<sup>th</sup> lens coatings and an anti-glare interior maximize light transmission and minimize diffraction for greater clarity and contrast.

MULTICOAT™

### SOFT-SIDE, FORM-FITTING CASE

» Both the 12-40x60mm spotting scope and the 12-40x60mm HD spotting scope include a form-fitting, soft-side case. It easily opens to reveal the eyepiece, objective lens, and tripod mount, so it can even remain on the scope, providing extra protection during use.

» Replacement 12-40x60mm spotting scope soft case – SKU #53715

## 12-40x60mm HD FEATURES

### HIGH-DEFINITION OBJECTIVE LENS

» Substantially enhanced color fidelity results in exceptional resolution and contrast, particularly at 40x.

### LENS SYSTEM

» The Index Matched Lens System offers our highest levels of light transmission, clarity, contrast, and color fidelity.

INDEX MATCHED LENS SYSTEM™

### EYE RELIEF

» 30mm of constant eye relief, unmatched by any spotting scope on the market.

### DIGITAL CAMERA COMPATIBILITY

» Use the HD capability of your Golden Ring spotting scope to the maximum advantage while digiscoping. Fits any 58mm digital camera lens, includes adapter plates to fit 28mm, 37mm, 43mm, and 52mm digital camera lenses.

» Digital Camera Adapter – SKU #58380

## 10-20x40mm COMPACT FEATURES

### EXTREMELY COMPACT

» Just 15.8 oz and 7.5" long, it's powerful enough to take anywhere and small enough to pack anywhere.

### LENS SYSTEM

» Standard Multicoat lens coatings for high resolution, and optimal brightness and contrast.

### USE HANDHELD OR MOUNTED

» Perfectly balanced for handheld use, and ideal for any tripod, monopod or Leupold's TrekPod II. The 10-20x is a great choice for those who prefer or need a monocular.

## 15-30x50mm COMPACT FEATURES

### COMPACT SIZE

» Just 21.5 oz and 11" long, it fills a niche between our smallest and full-size spotting scopes.

### LENS SYSTEM

» Standard Multicoat lens coatings for high resolution, and optimal brightness and contrast.

### 12-40x60mm HD KIT INCLUDES

» The HD spotting scope; a Leupold compact, adjustable tripod; a window mount for your vehicle; and a digital camera adapter; all in a hard-side, reinforced case with custom padding.

GOLDEN RING  
12-40x60mm HD KIT  
BROWN

# SEQUOIA®

## » SPOTTING SCOPES

There's a time and place when you want to get closer – much closer – to what you're trying to view, and a binocular just doesn't have the muscle. Enter the powerful Leupold Sequoia® spotting scopes. Both the Sequoia 15-45x60mm and 20-60x80mm spotting scopes give you the reach you're looking for, with the exceptional light transmission needed for peak clarity, optimal contrast, and true, vivid color. They're also ergonomically designed: focus can easily be adjusted while viewing, and with the choice of either a straight or 45° angled eyepiece you'll be able to view comfortably from any position with either model. It's the attention to detail in the creation of the Sequoia that makes it the spotter that you'll want to use everywhere – from the field to your deck.

# LEUPOLD®

## » BINOCULARS

A general purpose binocular must be compact and easy to use anywhere without sacrificing optical quality. Our Katmai® 6x32mm delivers a field of view that is perfect in the boat or at the track, while the 8x and 10x models are ideal for serious birders.

The Pinnacles Series is a high-performance binocular, with an optical system to rival European binoculars that cost three to four times as much. Fully coated lenses and prisms give a bright, clear sight picture, making the Pinnacles an ideal choice for birders.

For those users seeking powerful magnification and large objective lenses, the Northfork Series is ideal. Large on performance, this is a binocular for serious birders with a superior lens and prism system that provides unmatched clarity.

**MOJAVE® SERIES**

8x42mm 10x42mm 10x50mm 12x50mm

Looking for high-performance optics in an easy to handle package? Look no further than the Cascades® Series. The trim, ergonomic design keeps them in hand through any condition. When you need a performance binocular to fit your needs, and your hands, it's time for the Cascades.

From backpacking to birdwatching to watching the big game, the Mesa Series can do it all. Traditional Porro prism design provides strong three-dimensional image resolution at a price that puts the performance within reach. The Mesa Compact provides the visual benefits of the full-size, but in an inverted Porro prism design you can take anywhere.

Slim design and powerful magnification make the Acadia™ a great optic for sporting events. The multi-coated lenses and phase coated prisms will make sure the image is crisp and clear. Next time you're going out to the ball game, take the Acadia Series with you.

# LEUPOLD®

» BINOCULARS

**NEW» ROGUE™/ ROGUE COMPACT**

Porro prism binoculars provide great depth of field, strong stereoscopic vision, and excellent depth perception. Rugged and reliable, with fully multi-coated lenses for greater light transmission, the Rogue is a true value binocular.

### ROGUE FEATURES

BLACK

### LENS SYSTEM

» Fully multi-coated lenses optimize light transmission, enhancing brightness, clarity, and contrast.

### PORRO PRISM ADVANTAGES

» This traditional lens system excels at transmitting a three-dimensional image.

### RUGGED AND WATERPROOF

» No matter what the application or conditions, these binoculars will perform without fail.

## THE LEUPOLD® GOLDEN RING FULL LIFETIME GUARANTEE

Leupold and Stevens, Inc. is an American, family-owned, fifth-generation company that has been designing, machining, and assembling precision optical instruments for 100 years. Leupold's success has been built on our commitment to your absolute satisfaction, and our commitment to building the best high-performance outdoor optics. It's for these reasons that we offer the Leupold Full Lifetime Guarantee.

If any Leupold Golden Ring product is found to have defects in materials or workmanship, we will, at our option, repair or replace it. FREE. Even if you are not the original owner. No warranty card is required. No time limit applies.

## THE LEUPOLD GREEN RING™ LIMITED LIFETIME WARRANTY

Leupold Green Ring™ optics are engineered and manufactured to standards set and monitored by Leupold, with the goal of reliable performance at a reasonable price.

Leupold Green Ring non-electronic products are warranted for as long as the original owner owns them. We warrant them to be free of defects in materials and workmanship, and to function satisfactorily under normal use conditions. If at any time a Leupold Green Ring non-electronic product is found to have a defect in materials or workmanship, Leupold will, at our discretion, repair or replace it free of charge, when requested by the original owner.

The warranty is void if damage results from unauthorized repair, alteration, or misuse. The warranty is given solely to the original owner and is not transferable.

If you would like more information regarding the construction or use of your precision-engineered Leupold optics, visit our Web site at [www.leupold.com](http://www.leupold.com).
