Accuracy – After shooting 5,000 rounds, including the grueling 1,000 round Hot Gun Torture Test, the out-of-the-box Para PXT 1911 was able to deliver this 10-round group from a benchrest at 25 yards measuring 1.92 inches with the center 7 shots grouping 1.02 inches.

SUPER DYNAMIC TECHNOLOGY™ MAKES PARA PISTOLS HOT GUN TOUGH

It's the first major breakthrough in firearms in fifty years and now the secret is out. Para uses Super Dynamic Technology (SDT™) developed in the aerospace industry to build its handguns. SDT is a revolution in firearm manufacturing that leaves ordinary handguns out in the cold.

To put up or shut up about the superiority of Para pistols with SDT, World Champion Speed Shooter Todd Jarrett was challenged by Shooting Gallery host, Michael Bane, to the Ultimate Hot Gun Torture Test.

How fast could Jarrett put 1,000 rounds of .45 ACP through a factory stock Para 1911? Bane knows that heat is the number one enemy of regular guns and he wanted to see how much this one could take. For a warm up, 1,000 rounds of 230-grain ball ammunition were shot through the stock out-of-the-box Para pistol.

The pistol was cleaned and on the Blackwater USA range, Jarrett started pouring magazine after magazine of 155-grain frangible ammo with a muzzle velocity of

1,150 feet per second through the pistol as fast as he could pull the trigger.

With three people loading the magazines to keep up with Jarrett's trigger finger, the pistol started to get hot. Shooting 93 rounds a minute, it was estimated that the pistol's stainless steel barrel reached temperatures in excess of 550 degrees. 10 minutes and 44 seconds later, Jarrett had established a world record.

The reliability of the Para 1911 doesn't end there. Jarrett and the other shooters put 3,000 more rounds of ammo through the Para 1911 as soon as it cooled down. A total of 5,000 rounds were shot through the pistol. There were no malfunctions of any kind, that's right ZERO malfunctions.

We do not recommend that you torture your 1911 for 4,000 rounds without cleaning it. But if your 1911 is a Para, it can take it.

Every Para pistol is built on one simple principle: **Use the best technology to produce the best pistol.**

• Todd Jarrett has used Para pistols for over 18 years to win National and World Championships. He is shown here with his Special Edition Signature .40 Hi-Cap pistol.

The superiority of Para's Super Dynamic Technology gave Jarrett an out-of-the-box 1911 that could establish a world record for how fast you can shoot 1,000 rounds of .45 ACP ammunition through a 1911 pistol. A total of 5,000 rounds were fired through the pistol, and there were ZERO malfunctions.

GET WARTHOG POWER

WARTHOG

It is a stunningly effective handgun. This is the original super-compact .45 pistol with truly awesome firepower. There is no smaller, more powerful 1911-style, 10+1 semi-auto .45 ACP in the world. Its three-dot fixed sights make for quick acquisition of your sight picture.

Product Code: WHX1045R

WARTHOG

Now the world's most famous micro-1911, the Warthog, comes in all-weather stainless steel, so you don't have to fear rust when it's your job to be on duty no matter how bad it is outside. This Hawg, like the original Warthog, holds 10+1 rounds of powerful .45 ACP. The stainless frame adds 7-ounces of muscle to this Hawg to soak up recoil.

Product Code: WHX1045S

FORGET ABOUT THE DOG, I'VE GOT A WARTHOG™

It is an ugly beast that shines with beauty when you need its .45 firepower. The Para Warthog is the world's smallest .45 ACP, 10+1 round, semi-automatic pistol. It is unbelievably powerful for its compact size... only 6.75 inches in length and 4.5 inches high including the magazine.

The genius of Para gives you the reliability you need in a 3-inch 1911-style pistol, from its unique dual recoil spring system to its cone barrel lockup. The Power Extractor was designed for flawless feeding and extraction with the fast cycling time of the Warthog's compact slide.

The Warthog's match-grade ramped barrel delivers incredible accuracy in a micro compact pistol. But the innovations don't stop there. The frames have integral plunger tubes and grip screw bushings and ultra-thin polymer grips.

Do you have monster sized hands? No worries, all the Hawgs come with a bonus. Like all Para pistols, they are shipped with two magazines. The first magazine comes with a standard floor plate for maximum concealment. The second magazine comes with a grip extension on the floor plate. It adds length to the grip, giving you more holding surface and better control, with no sacrifice of magazine capacity.

When you need the elite superiority of a micro-compact .45, get Warthog Power.

HAWGS: STRONGER, TOUGHER AND MORE FIREPOWER THAN ANY OTHER COMPACT 1911

“The Para Hawg 9, a 24-ounce double stack featuring the company’s bushingless recoil system and massive, dead-reliable Power Extractor... may well be the perfect platform for the 9mm Parabellum.”

The Editors of Guns & Ammo Magazine

When you need the most rounds in the smallest package, you need a Hawg. The pistol’s compact frame makes it easy to carry into any situation, yet the small size won’t mean a sacrifice in stopping power. The contoured grip and beavertail grip safety give you control over the pistol, without having to risk hammer bite.

Regardless of the situation, you can find the right Para Hawg to back you up. The Slim Hawg, true to its name, gives you the timeless reliability of a single stack, single-action 1911, while the Hawg 9 has 12+1 rounds of 9mm.

LEARN MORE ONLINE:
www.para-usa.com/hawgs

Match Grade Cone Barrel: *Battle-hardened pros know that if trouble is waiting on the other side of the door they can’t afford to miss. That is why Para puts match-grade barrels in all Hawgs. The cone lock up on the slide is the ultimate for hard core reliability in micro-compact 1911s.*

HAWG 9

Want more rounds in the same micro-compact, ultra-light frame? Switch to 9mm and get a Hawg 9. This pistol holds 12+1 rounds of 9mm stopping power and, with the integral ramped barrel, you can shoot +P ammunition.

*Product Code: WHX129R
- ALSO AVAILABLE Restricted Capacity, Product Code: WHX129RR*

NITE HAWG

If you are on a mission that requires you to see and not be seen, the micro-compact Nite Hawg is there to answer your call. The Nite Hawg gives you 10+1 rounds of .45 ACP, while boasting a non-reflective all-black finish and tritium night sights that allow you to see your sights even in low-light situations.

Product Code: NHX1045N

SLIM HAWG

This Hawg went on a diet to give you the flatness of a single-stack and easy carry of an alloy frame. The Slim Hawg holds 6+1 rounds of .45 ACP firepower in a lightweight package that only tips the scales at 24 ounces.

Product Code: PSHX645R

HEAVY-DUTY HAWGS

SUPER HAWG (HIGH CAPACITY)

Meet the “Long Tom” of the semi-auto world, a hunter’s first choice for increased velocity, magazine capacity and striking power. The superior sight radius of the Super Hawk and its extra bright fiber optic front sight make it easy for you to hit your target.

Product Code: PLX1445S

- ALSO AVAILABLE Restricted Capacity, Product Code: PLX1445SR

SUPER HAWG (SINGLE STACK)

This is a bullseye shooter’s dream, a 6-inch integral-ramp match barrel for accuracy and a long slide for match winning sight radius. The classic brushed stainless finish with double-diamond checkered cocobolo stocks makes for a .45 that looks as good as it shoots. To give you the best grip, the front strap is checked 30 lpi.

Product Code: PLX745S

BIG HAWG

The Big Hawk is big on power but lightweight on your belt. This full-size version of the Warthog gives you 14+1 rounds of .45 ACP that are delivered from its 5-inch integral ramp, match-grade barrel. Best of all, the Big Hawk only tips the scales at 28 oz.

Product Code: PX1445R BH

- ALSO AVAILABLE Restricted Capacity, Product Code: PX1445R BHR

SUPER HAWGS: LONG ON PERFORMANCE

Whether you are shooting wild boar in Texas or bullseyes in Pennsylvania, you need a super-tough, super-accurate handgun, and the Para Super Hawk is the pistol for you. The six-inch long slide gives you a superior sight radius and increased velocity for peak performance from the .45 ACP cartridge.

The new Para Super Hawgs are the latest pistols from Para USA in the popular Hawg Family of pistols that started with the legendary Warthog. The six-inch integral ramp match-grade barrel is crowned to deliver winning accuracy whether you are a bullseye or action shooter. In the field you will appreciate the extra velocity that is available from the long-slide’s match barrel.

A longer sight radius and Para’s fiber optic front sight let you put your shot where it counts, even under adverse light conditions.

Front Strap Checkering

Both Super Hawgs come with checkering on the front strap to give you the best grip for accuracy and recoil control.

PARA PXT 1911s

1911 LTC (9MM)

With higher capacity, less recoil and a cartridge that's been a world favorite for more than a century, this new 9mm LTC is destined to become an instant classic. It features a 4.25-inch ramped match barrel, 9+1 rounds of firepower and Para's non-reflective Covert Black finish.

Product Code: PCX99R

1911 LTC (.45 ACP)

The Lt. Colonel has a 4.25-inch barrel on a full-size frame. This combination makes it the most popular 1911 compact pistol in the world. Para adds its exclusive Power Extractor Technology and a Match-grade integral ramped stainless barrel to make it the best 1911 in its class. It comes standard with two 8-round PXT magazines. You have 8+1 rounds of .45 ACP at your command. Quality like this is enhanced with our Regal finish.

Product Code: PCX745R

NOT ALL 1911s ARE CREATED EQUAL

Using the superiority of Super Dynamic Technology, Para has produced the toughest 1911 pistols ever made. The SDT slides and frames are precision machined and hand fitted to give you a silky smooth fit, superb accuracy and exception service life.

Using advanced genius profiling, the original John Browning design was analyzed for optimum performance using the latest data analysis. One area kept coming up in both the computer scans and real world user experience that was less than perfect. It was the extractor.

SDT parameters were employed to redesign the extraction system of the 1911. The result was Para's new internal extractor. This radical new approach to firearms design allowed Para to increase the head of the extractor by 50% and to give it self-adjusting tension on the case. The Para Power Extractor's unique design earned a patent.

What does SDT mean in your hands? Para frames and slides have longer service life than ordinary 1911 parts and that is backed up with our Gold Medallion Lifetime Service policy. If you need extreme reliability without the sacrifice of accuracy, Para pistols have proven to be up to the task with torture tests like the Hot Gun Challenge.

LEARN MORE ONLINE:
www.para-usa.com/pxt

Power Extractor™

Innovation, not copying, gives you an unequaled edge in life. And it is Para's patented design of the Power Extractor (PXT™) that makes you a winner. The massive claw of the PXT, right, is 50% larger than a standard extractor, left, giving you positive feeding and extraction every shot.

PXT HI-CAP SINGLE-ACTIONS

P14•45

This is the pistol that rewrote the book on .45 ACP high capacity firepower. You can always use more ammo... and the best place to have it is in the pistol in your hand. The P14•45 comes standard with two 14-round high capacity magazines.

Product Code: PX1445E B
- ALSO AVAILABLE Restricted Capacity, Product Code: PX1445E BR

P18•9

Super Dynamic Technology gave Para the edge to produce a reliable, high capacity 9mm pistol with a stainless steel frame that eats up recoil. The rear sight is adjustable to let you dial in the mega-variety of 9mm loads available today. It comes with two 18-round magazines.

Product Code: PX189S
- ALSO AVAILABLE Restricted Capacity, Product Code: PX189SR

THE HANDGUN THAT CREATED A SHOCK-WAVE OF FIREPOWER

Prior to 1988, you had a tough choice: you could opt for the power of a traditional 1911, with the limitation of a 7-round magazine; or you could choose a high-capacity "Wonder Nine" with a far less potent cartridge. Nobody in the firearms industry came up with a solution until Para rewrote the book on the 1911 firepower with the introduction of its double-stack .45 ACP frame.

The frame was redesigned with built-in plunger tubes and grip bushings, leaving no possibility of the loose or lost parts that plagued the old Model 1911 design. Frame wall thickness around the slide stop hole was made 20% greater for extra strength under stress.

Para's pistol design incorporated more features than John M. Browning had ever envisioned. The double-column, tapered Para magazine offered inherently superior and more reliable feeding characteristics and, coupled with a beveled magazine well, ensured faster, surer and more instinctive reloading. The ejection port was flared for consistently reliable operation, and the safety features included a positive slide lock safety, a grip safety, and an internal firing pin block. The result was the now world-renowned P14•45 pistol.

www.para-usa.com/ramped

SDT Barrel Secret #1:

For smooth feeding with every bullet shape, plus the safest, strongest support for +P loads, there's simply no substitute for a ramped barrel. You may find ramped barrels in other 1911s, but it is always an extra-cost add on.

SDT Barrel Secret #2:

One of the secrets to out-of-the-box accuracy is the match chamber in Para's stainless steel match-grade barrels. Para is the only manufacturer that gives you a match-grade ramped barrel as standard equipment in all PXT pistols.

GUN RIGHTS PISTOLS

PARA GUN RIGHTS PISTOLS: PROTECT YOUR RIGHTS

We've taken two of our most popular pistols, added several hot new features and bundled them into the best 1911s we can build. And then we priced them well below our competition. Why would we do that? Because these models come with a priceless bonus: For each pistol sold, we'll automatically make a donation to the National Rifle Association's Institute for Legislative Action, or ILA.

The first one is the Para PXT 1911 Gun Rights pistol, a classic single-column 1911 in stainless steel. And, since Para invented the high capacity 1911 .45, the second model is the famous P14•45 Gun Rights pistol.

They're both packed full of the most popular features you want, starting with our new fiber optic front sight. To hit your target, you need sights you can see. Para's new fiber optic front sight is the brightest front sight in the world.

The pistols come with competition hammers and triggers—so you get a clean, crisp trigger break every shot. It's a trigger that, straight out of the box, brings out your inner marksman, making you the best shot you can be.

LEARN MORE ONLINE:
www.para-usa.com/gunrights

Lifetime Service
At Para, we believe that providing you with the best pistol means that we will stand behind that pistol 100% for as long as you own it. We will provide the original retail purchaser of any one of our pistols with all necessary service, free of charge, for the lifetime of the pistol, where adjustment or repair is required due to some defect in materials or workmanship.

1911 GUN RIGHTS

This is the ultimate 21st Century 1911. You get the durability of stainless steel, the reliability of the Power Extractor, the brightness of a fiber optic front sight and two 8-round PXT magazines. For each Gun Rights pistol sold, Para will automatically make a donation to the NRA-ILA.

Product Code: PX745S GR

P14•45 GUN RIGHTS

Para invented the High Capacity 1911 and with this Gun Rights model, you get 14+1 rounds of .45 ACP. Only Para gives you match-grade ramped barrels in every pistol for accuracy and safety.

Product Code: PX1445S GR
- ALSO AVAILABLE Restricted Capacity, Product Code: PX1445S GRR

PXT HI-CAP LTD

S14•45 LIMITED

In the quest to give you the ultimate in a custom shop pistol at a production price, Para created its Limited Edition pistols. World Class shooter, Todd Jarrett, was instrumental in designing these pistols from the adjustable rear sight to the fiber optic front sight. Limited Hi-Cap models have 25 lpi checkering on the front strap.

Product Code: SX1445S

- ALSO AVAILABLE Restricted Capacity, Product Code: SX1445SR

S16•40 LIMITED

The S16•40 Limited has the incomparable Power Extractor™ for feeding and extracting reliability, 16+1 rounds of .40 S&W firepower, and a host of custom-shop extras. This is the gun of choice for World Champion Todd Jarrett when he competes in USPSA Limited events.

Product Code: SX1640S

- ALSO AVAILABLE Restricted Capacity, Product Code: SX1640SR

FOR THE FEW, THE BRAVE, THE BOLD

Para's Limited pistols were birthed out of the crucible of practical pistol competition. They are the direct result of World Champion shooter Todd Jarrett who has championed Para pistols for over 18 years. Jarrett has won more than 100 championships including 9 USPSA National Championships and the IPSC World Championship.

The Limited pistols are a total package that includes all the most-asked-for custom features for a fraction of the price of a custom pistol. Each Limited pistol has a full-length recoil guide system that eliminates spring bind. Front and rear slide serrations make for easier slide retraction.

The ambidextrous safety facilitates southpaw or "support hand" shooting. The adjustable rear sight allows you to dial in your load for match winning accuracy. The fiber optic front sight increases your sight acquisition on tough targets that demand precise hits.

It is no surprise that these winning pistols have also found their way into the field. They are the most requested pistols by elite law enforcement units and officers who purchase their own firearms.

Individual Officer Purchase

For those in Law Enforcement who have to purchase their own duty pistols, or simply choose to carry the best, Para has the easiest program in the industry for you. We have a special Individual Officer Purchase Kit that you can use at any storefront gun shop in the country. Everything about this program is tailored for you, the Law Enforcement professional. Call us today to receive your Para Individual Officer Purchase Kit.

PERSONAL DEFENSE ASSISTANTS

PDA (9MM)
Product Code: CSX89R

PDA (.45 ACP)
Product Code: CWX645R

The decision to own a handgun for self defense is a tough choice for many people. For those citizens who have decided that they are going to be responsible for their own personal safety, and in states where concealed carry permits are issued, Para leads the way with its innovative line of light double-action Carry Safe™ pistols.

The newest concealment choice from Para is the new PDA (Personal Defense Assistant) pistol, offered in either 9mm or .45 ACP. In 9mm, the PDA is the world's smallest 1911-style pistol. Its lightweight alloy frame was designed around cartridges with the same overall length as the 9mm cartridge. This PDA tips the scales at a mere 23 ounces.

LDA CARRY SAFE™

CARRY

The award-winning Para Carry, just 6.5 inches long and 4.75 inches high, was declared the "World's Smallest DAO .45 Auto" by the editors of GUNS & AMMO magazine when it was introduced in 2001. It gives you 6+1 rounds of .45 ACP.

Product Code: CWX645S

CARRY

The super-compact .45 ACP Para Carry has just taken on new duties. The Para Carry in Covert Black features the non-reflective, highly-durable Para Kote™ finish with rich black polymer stocks and a subdued medallion making it the perfect companion for those deep cover assignments.

Product Code: CWX645B

LDA SINGLE STACK CARRY OPTION™

"I now think the Griptor is... the best treatment for an auto pistol's front strap I have ever tried. The Griptor really works well."

Jan Libourel, Gun World editor

When you're going undercover, you need a carry pistol that is compact and easy to conceal. Now, Para brings you Griptor™ grasping grooves, located on the front strap of the .45 ACP Single Stack Carry Option pistols. These grooves give your hand more grasping surface. They naturally help you to control recoil during rapid fire.

Para's award-winning Carry Safe™ line of pistols with their triple safety system let you carry them hammer-down but ready for action when needed. And all of the Para Carry Option pistols have flush hammers and a rounded grip safety to prevent snagging on clothing. Add the reliability of the Para Power Extractor™ and the LDA's sweet trigger and you have a series of carry pistols that can't be beat.

LEARN MORE ONLINE:
www.para-usa.com/carrysafe

CARRY 9

The micro-compact Carry 9 gives you 9 rounds of 9mm firepower in your hand. At 24 ounces, it is one of the lightest and smallest 1911-style carry pistols you can own. The handsome Covert Black finish helps maintain the low profile you want, and Para's exclusive Power Extractor™ ensures faultless reliability.

Product Code: CWX79R

Fiber Optic Front Sight

Every Carry 9 has 3-dot sights with bright fiber optic front, because under stress you need to see your sights to hit the target.

GET 9 ROUNDS IN A CARRY 9

Only Para Carry Safe™ pistols have the light double-action or LDA trigger system. This patented trigger system allows you to safely carry one of our LDA pistols concealed with the hammer down. When the thumb safety is on, the trigger is disengaged.

Yet, if the need should arise, in one swift motion you can push off the thumb safety and fire the pistol with a light, smooth press of the trigger. The remarkable LDA trigger system has won four "Gunny" awards from the readers of Guns & Ammo magazine. The trigger's smooth, natural stroke makes you the best marksman you can be.

We sincerely hope that you never have to use one of our Carry Safe pistols for anything other than shooting at targets... but if you do, we make you the best when it counts.

● PARA 1911 GI EXPERT

GI EXPERT

The product code for this 1911 tells it all, it stands for Get Innovation in a 45. Press the trigger on this 21st Century 1911 pistol and your jaw will drop at the clean, crisp trigger. Everything you want to make you an Expert shot is here, from the muzzle with its stainless steel 5-inch barrel for accuracy to the grip safety that is contoured for the skeletonized spur hammer to prevent hammer bite.

Product Code: GI45

Faster than you ever dreamed possible, the hammer on the GI Expert is skeletonized for the fastest lock time. The high visibility rear sight is drift adjustable on the rear of the slide.

To hit your target you need to see your front sight and on there is no way to miss this one. Instead of being staked on the modified post, this white dot is dovetailed into the slide for durability.

THE 1911 THAT MAKES YOU AN EXPERT SHOT

A 1911 for the 21st Century – it feels like an old friend, the one that the company armorer worked over for you to earn your Expert Marksman's badge. Using new millennium technology Para has built you a production .45 that is silky smooth with a crisp, clean trigger that makes you the best shot you can be.

Para's NEW GI EXPERT delivers:

- Expert Firepower – Two 8-round .45 ACP magazines.
- Expert Sight Picture – 3 white-dot sights that you can see.
- Expert Accuracy – premium stainless steel barrel and full metal bushing.
- Expert Trigger – to make you the best shot you can be with a clean, crisp break.
- Expert Hammer – skeletonized spur for faster lock time and to prevent hammer bite.
- Expert Reliability – the best service, Para's Gold Medallion Lifetime Service Policy.

To Shoot Like an Expert... Get a Para 1911.

LEARN MORE ONLINE:
www.para-usa.com/expertshot

One of the secrets to a crisp, clean trigger is the lightweight medium length trigger on the GI Expert. The trigger shoe is serrated so you can feel the precise break of the hammer.

Pinpoint accuracy starts with a premium stainless steel barrel that is crowned at the muzzle. And it is fitted with a full metal bushing for a precise lock up in the slide.

2009 SPECIAL EDITIONS

For each month in 2009, Para will be unveiling a special pistol that will only be produced that month of the year. These finely crafted special use pistols are produced by Para's gunsmiths in limited numbers to insure the highest level of quality possible.

PXT MAGAZINES

All Para PXT magazines are made in our factory so they perfectly fit your Para pistol. PXT magazines are designed with a removable floor plate to make them easy to service and clean. Each Para pistol is shipped with two PXT magazines.

GUN BLOGGER WEEKEND AT BLACKWATER

Para USA, along with Blackwater USA, sponsored a weekend of first-class instruction at the most exclusive training facility in the United States.

The top ten gun bloggers in our contest got an invitation to shoot a special Para pistol and learn the shooting secrets of a World Champion from Todd Jarrett. Blackwater USA hosted the event at their facility in North Carolina. Gun Blogger Michael Bane and a video crew recorded the event for Down Range TV.

WATCH VIDEO OF THE GUN BLOGGER EVENT:
