

V-SERIES

KM CONVERSION KITS

FEATURING WHITE and IR LEDs IN ONE HEAD

MODERNIZE YOUR SUREFIRE WEAPONLIGHT

THE SUREFIRE STORY

In the 1980s SureFire created compact high-intensity lights designed specifically for mounting on firearms. Today, SureFire WeaponLights remain the standard by which all others are measured, and we continue to harness the latest technology to create illumination tools for those whose lives may depend on them. The latest results of SureFire's innovation are the V-Series all-LED KM conversion heads. For elite special operations groups, S.W.A.T. teams, and anyone else who goes in harm's way, there simply is no substitute.

V-SERIES KM HEADS

- White and IR output in one dual-LED head
- No infrared filters needed
- No filaments to burn out or break
- Feature extended tactical runtime

SureFire's V-Series KM conversion heads provide brilliant white light and invisible infrared illumination for use with NVDs, from one sealed dual-LED assembly, with no need for IR filters. The KM heads replace old incandescent heads, which have filaments that can burn out or break, or they can replace your white-light-only LED heads, which produce negligible infrared output unsuitable for use with NVDs. They're easy to install: (1) unscrew your old head, and (2) screw in the appropriate KM head—no tools needed (see below). The next page has compatibility information based on the SF WeaponLight you currently use.

Once the KM head is installed, (3) push and twist the bezel selector ring to select the required light spectrum for the task at hand. Switching between LEDs is simple, and the self-locking selector ring ensures that the type of light output you choose stays locked in place, until you decide otherwise. Then merely activate your WeaponLight—in white or IR—using the integrated pushbutton switch or any tape switch you have installed.

1

Turn existing head counterclockwise to remove.

2

Turn new KM conversion head clockwise to install.

3

Push selector ring forward, rotate to desired light spectrum setting, and release to select.

◀ Each KM head features two high-performance LEDs and a precision Total Internal Reflection (TIR) lens that maximizes light output and produces a tight, extended-reach beam with a bright beam center and generous peripheral illumination to assist with situational awareness. And since these V-Series heads are comprised of two solid-state LEDs (one for white and one for IR), they are virtually indestructible, run far longer than incandescent lamps—and typically never need replacing. This means you can travel lighter since there's no need to carry spare lamps, IR filters, and you'll use far fewer batteries.

- ▶ **VIRTUALLY INDESTRUCTIBLE WHITE AND IR LEDs**
REGULATED TO MAXIMIZE OUTPUT AND RUNTIME
- ▶ **TOTAL INTERNAL REFLECTION (TIR) LENS**
PRODUCES TIGHTLY FOCUSED BEAM WITH
GENEROUS PERIPHERAL ILLUMINATION

- ▶ **HIGH-STRENGTH AEROSPACE ALUMINUM CONSTRUCTION;** MIL-SPEC HARD ANODIZED FOR EXTREME DURABILITY
- ▶ **COATED, TEMPERED WINDOW**
- ▶ **O-RING AND GASKET SEALED**

THE SUREFIRE NO-HASSLE WARRANTY

Lamps will burn out, batteries will be used up, and switches may eventually wear out. Almost everything else is covered by our no-hassle warranty. For complete details visit www.surefire.com/guarantee.

ILLUMINATION TOOLS WARRANTY

SureFire warrants its illumination tools, edged weapons, and pen products to be free from defects in workmanship and materials, including any LEDs housed within the illumination tools, for the lifetime of the original owner. We will repair, replace, or refund your original purchase price of these products, at our discretion, if it is determined by us to be defective. Electronics, chargers, and rechargeable batteries are covered for a period of two years with proof of purchase. Normal wear and tear—including lamps burning out, headbands and headpads wearing out, batteries draining, ink cartridges running out, and switches wearing out—is not covered, nor is damage resulting from misuse, abuse, neglect, battery damage, use of other than SureFire-brand batteries or accessories, or altering these products from their original state. Parts and accessories for illumination tools are not covered by this warranty.

WARRANTY DISCLAIMER

The warranty is exclusive and, to the extent permitted by applicable laws, shall be in lieu of all other warranties, express or implied, including, without limitation, any warranty of merchantability or fitness for a particular use or purpose. SureFire disclaims any and all liability for product malfunctions, physical injuries, or property damages that result in whole, or in part, from the criminal, negligent, or improper use of the product, or from modifications or alterations thereto. In no event shall SureFire be liable for any incidental, special, or consequential damages relating to the purchase, use, or performance of any SureFire product.

WARRANTY CLAIMS

For repair or replacement contact Customer Service at 800-828-8809 (toll free) or 714-545-9444 and obtain a Return Merchandise Authorization number (RMA#). Then package the unit carefully and return (no CODs please) to:

SureFire, LLC.
