New Side Charging Receiver for AR15's and Variants!

**ASA's Exclusive New
Side Charging Upper Receiver
Now in .223, 9mm and .308 Caliber!**

Constructed from 7075 BILLET aircraft aluminum adding more rigidity. Allows for rapid operation of bolt without disturbing the shooting position. No more fumbling to charge scoped weapons. The unique carrier keyway cover takes the place of the standard charging handle hole and eliminates the possibility of gasses being discharged into the face in the event of a primer failure.
