Sporting Firearms

Big Bore Lever Action Rifles

Model 1895M in 450 Marlin Working together, Marlin and Hornady Manufacturing have developed a potent 45 caliber belted cartridge that is an upgrade on the classic 45/70 Government. It's the most powerful cartridge ever offered in a Marlin lever action rifle. We've harnessed all

this power into a compact 7 lb. package. Like the Model 1895G Guide Gun, this Marlin lever action features an 18½" Ballard-type cut rifled barrel, a 4-shot tubular magazine, and a straight-grip American black walnut stock with ventilated recoil pad and swivel studs.

NEW Model 1895MR in 450 Marlin Now the smashing power of the formidable 450 Marlin belted cartridge is available in a full-size rifle with a 22" barrel, ensuring full 450 Marlin ballistics of 2100 feet-per-second with the 350 grain bullet. The new Model

1895MR has a blued finish, an American black walnut pistol grip stock with fluted comb, cut checkering and a ventilated recoil pad. Sights include an adjustable semi-buckhorn folding rear, and ramp front sight with brass bead and Wide-Scan™ hood. The solid-top receiver is tapped for a scope mount, and the rifle comes complete with offset, right or left hand, hammer spur for scope use.

Model 1895G "Guide Gun" The hunter who's looking for plenty of power in a compact, stow-anywhere package will find the ideal solution in our Model 1895G. The mighty 45/70 Government cartridge has proven its worth on every species of large North American game from Maine to Alaska. This rugged lever action rifle weighs only 7 lbs., and features an 18½" barrel with Ballard-type cut rifling.

Model 1895GS The lever action 45/70 carbine that can take on any kind of game can also take on any kind of weather. Our best-selling Model 1895G Guide Gun is available in stainless steel. The receiver, barrel and all major metal parts are machined from stainless steel, and most other metal parts are nickel-plated. It features an 18½" stainless steel barrel with Ballard-type cut rifling, a 4-shot tubular magazine, an adjustable semi-buckhorn folding rear sight and ramp front sight with brass bead and Wide-Scan™ hood. The stock is American black walnut with cut checkering and a ventilated recoil pad.

The Classic Model 1895 The tried and true configuration of this famous 45/70 rifle. It features a 22" barrel with deep-cut Ballard-type rifling and an American black walnut pistol grip stock with cut checkering and swivel studs.

Model 444 A big bore favorite that combines the power of the big 444 Marlin cartridge—which generates nearly 1½ tons of muzzle energy—with the quick and super-smooth Marlin lever action system. Its 22" barrel makes the 444 a real joy to handle, no matter what the conditions.

Model 1895M in 450 Marlin

NEW Model 1895MR in 450 Marlin

New Hornady 444 Light Magnum

444 performance has been taken to a new level with this new Hornady cartridge. Loaded with the proven, high performance 265-grain bullet, it achieves a velocity improvement of over 100 f.p.s.

Lever Action Centerfire Rifles

It's hard to think of a time when the Marlin lever action centerfire hasn't been regarded as *the* American hunting rifle. No ifs, ands or buts. For well over a century, these classics have been virtually synonymous with dependability, flawless performance and accuracy, at a reasonable price. The action, for example, is as smooth as any you've ever experienced. It's made with six machined and heat-treated steel forgings for greater strength. There's a clean, flat, solid top receiver that not only keeps out rain, snow and debris, but also makes a perfect base for mounting a scope, low and centered. There's also true side ejection, instead of the "angle ejection" you'll find in some top-opening lever action rifles.

NEW Model 336Y "SpikeHorn"

Here's the first Marlin lever action to offer the proven deer-getting power of the 30/30 cartridge in a compact format, ideal as a woods gun and equally suited to the younger or smaller-statured hunter. Only 34" in length, featuring a 16½" Micro-Groove®-rifled barrel, it weighs just 6½ pounds. And the new 336Y SpikeHorn features a

short (12½" length of pull) American black walnut pistol grip stock with fluted comb and cut checkering. Sights include an adjustable semi-buckhorn folding rear, and ramp front sight with brass bead and Wide-Scan™ hood. The solid-top receiver is tapped for a scope mount, and the SpikeHorn comes complete with offset, right or left hand, hammer spur for scope use.

Model 336SS Foul weather won't faze this stainless version of our field-proven Model 336 in 30/30. Most of its major metal parts are machined from stainless steel forgings, others are nickel-plated. The pistol grip American walnut stock features classic cut checkering; and sights include an adjustable rear and ramp front sight with brass bead and removable Wide-Scan™ hood.

Model 336C Known for its rugged styling, pinpoint accuracy, and incredible dependability, this popular pistol grip carbine has a flat, solid top receiver and hammer block safety. The 336C has become one of the most popular rifles in North America. Its genuine American black walnut stock is enhanced with fine cut checkering. In addition to 30/30 Win., the 336C is also available in 35 Rem., a cartridge favored by many hunters because of its reputation as a hard-hitting brush-buster.

Model 336CC Many serious hunters favor this "stealth" version of Marlin's field-proven Model 336 30/30 Win. lever action rifle. Its hardwood stock features the best-selling Mossy Oak® "Break-Up™" camouflage pattern. Other features include a 20" Micro-Groove® barrel, 6-shot tubular magazine, swivel studs, and a receiver tapped for a scope mount.

Model 336W Created for the no-nonsense deer hunter, the Model 336W lever action has a 6-shot capacity, in 30/30 Win. The 20" Micro-Groove® barrel features adjustable rear and bead front sights, and the receiver is tapped for a scope mount. It features a gold-plated steel trigger and a blued steel barrel band. The walnut finished hardwood stock has cut checkering and comes with swivels and a padded nylon sling.

Model 336A A gutsy, no-frills 30/30 with classic styling, a 6-shot tubular magazine and 20" Micro-Groove® barrel, the 336A has a lot of the same features as the 336C, but at an even more attractive price. Its hardwood stock has cut checkering and swivel studs.

Model 1894 Centerfire Rifles

Our Model 1894's are based on an idea that made sense on the western frontier and still makes sense today: carry the same cartridge for your rifle and revolver, and you simplify your life. That's why you'll find a Model 1894 in a chambering that's right for your kind of shooting...from the ever-popular 38 Special to the mighty 44 Magnum. They all carry on the Marlin tradition of rugged reliability, superb accuracy and flawless performance.

NEW Model 1894PG

Reminiscent of the sporting lever action rifles of an earlier era, this elegant short rifle in 44 Magnum/44

Special features a 20" barrel with Ballard-type rifling, an American black walnut pistol grip stock with fluted comb, cut checkering

and a rubber rifle butt pad. Sights include an adjustable semi-buckhorn folding rear, and ramp front sight with brass bead and Wide-Scan™ hood. The solid-top receiver is tapped for a scope mount, and the rifle comes complete with offset, right or left hand, hammer spur for scope use.

NEW Model 1894FG Enthusiastic supporters of the 41 Magnum urged us to return a lever action carbine in that caliber to our line. The 1894FG offers the ideal combination of classic contours with a potent and easy-shootin' caliber. The American black walnut pistol grip stock features cut checkering, rubber rifle butt pad and sling swivel studs. The Micro-Groove® 20" round barrel is equipped with an adjustable semi-buckhorn rear sight and Wide-Scan™ hooded ramp front sight.

Model 1894SS Any weather is ideal weather for an outing with this stainless steel 44 Magnum/44 Special rifle. The 1894SS is a brush buster that spits out 10 fast shots with incredible knock-down power (in 44 Mag.), making it a favorite for deer and black bear. The stainless steel finish is complemented by a checkered American black walnut straight-grip stock. Deep-cut Ballard-type rifling maximizes accuracy with both jacketed and cast bullets.

Model 1894C Chambered for 357 Mag./38 Spl., the 1894C is the natural sidekick to the 357 Magnum or 38 Special revolver. An 18½" barrel with deep-cut Ballard-type rifling, and superb balance, together with six machined solid steel forgings and a checkered American black walnut straight-grip stock, make this an extremely quick-handling little carbine.

Four safety features: Every Marlin centerfire lever action has these safety features: (1) **Two-piece firing pin.** The rear section of the pin drops out of alignment with the front until the locking bolt is fully engaged. (2) **Trigger block.** This device prevents the trigger from being pulled until the lever is closed. (3) **Half cock hammer position.** This is the traditional lever action hammer safety position. (4) **Hammer block safety.** When engaged, it prevents the hammer from striking the firing pin, even if the trigger is pulled.

Model 1894C

Lever Action Cowboy Rifles

19th Century look. (The 45 Colt has a blued bolt.)

To accommodate tang sight installation, the serial number is located on the left side of the receiver.

Model 1894 Cowboy This handsome rifle, available in 45 Colt, 357 Mag./38 Spl. and 44 Mag./44 Spl., has become the standard by which all cowboy rifles are judged. From its elegant tapered octagon barrel, with deep-cut Ballard-type rifling, to its straight-grip walnut stock and squared finger lever, this rifle is pure Old

West. To accommodate tang sight installation, the serial number is located on the left side of the receiver.

Model 1895 Cowboy For top performance in those tough long-range events, the Model 1895 Cowboy is a must for Cowboy Action Shooters. It's also an ideal big game rifle for hunters who appreciate the nostalgia of 19th Century-style firearms. This authentically Old Western-styled 45/70 features a 26" tapered octagon barrel with deep-cut Ballard-type rifling, 9-shot tubular magazine, adjustable Marble semi-buckhorn rear and Marble carbine front sight. The American black walnut stock has a straight-grip, a hard rubber butt plate and a blued steel fore-end cap. To accommodate tang sight installation, the serial number is located on the left side of the receiver.

Model 336 Cowboy For Cowboy Shooters who want a long-range rifle, we deliver the goods. And for deer hunters who appreciate the history and nostalgia of toting an octagon barreled, straight-grip rifle, this is the perfect choice. Our Model 336 Cowboy lever action in classic 38/55, fits the Old West image. It features a 24" tapered octagon barrel with deep-cut Ballard-type rifling, a full-length magazine, and a straight-grip walnut stock. To accommodate tang sight installation, the serial number is located on the left side of the receiver.

Model 1894 Cowboy Competition Carbine For serious Cowboy Action shooting competitors who want a lightning-fast carbine, our 1894 Cowboy Competition is the perfect choice. This model is chambered in 38 Special and — new for 2003 — 45 Colt. It is "factory-tuned" to meet the demands of competitive shooters, and features a 20" octagon barrel for quick sight alignment, and a western-style straight-grip walnut stock. Sights are traditional Marble adjustable semi-buckhorn rear and Marble carbine front. The receiver, bolt, trigger guard plate and lever of the 38 Special are color case-hardened for an authentic

Model 1895 Cowboy

Model 336 Cowboy

"Tequila", five-time Modern Class World Champion, has used Marlin rifles in chalking up all of his victories.

The Cowboy Competition Models have special "factory-tuning" operations performed on them to enhance levering speed and target acquisition. "Tuned" parts include: finger lever, finger lever plunger spring, hammer, breech bolt, breech bolt lock, carrier, hammer spring, and ejector.

Lever Action 22 Rifles

Model 1897 Texan The authentic look of the Old West and the economy of 22 rimfire – our Model 1897 Texan has a heap of good things going for it. For low-cost practice, Junior Cowboy Action events, varmint control and just all-around fun, this slick-handling take-down 22 lever action can't be beat. The 20" tapered octagon barrel features Micro-Groove® rifling for the best accuracy ever with 22 Long Rifle, Long or Short cartridges. The straight-grip stock is genuine American black walnut, and the carbine-style fore-end is capped in blued steel. Sights are an adjustable Marble semi-buck-horn rear and carbine front sight with brass bead.

Model 39A The incomparable Marlin Golden 39A, (along with the 1897T), represents the oldest shoulder firearm design still being made anywhere in the world. In fact, the 39's great grandfather, the Model 1891, was the first repeating rifle to be chambered for the 22 Long Rifle cartridge.

And over the years, Marlin 22's have become legendary among people who know rifles. The fact is, the Model 39 is still the standard by which all other 22 sporting rifles are judged. Understandable when you consider the clean, flat, solid top receiver, and an action machined from solid steel forgings, which are then heat-treated for greater strength.

The Model 39A also features a rebounding hammer, a hammer block safety, and it disassembles in seconds with only a coin. And the stock is crafted from genuine American black walnut and features fine cut-checkering. Thanks to Micro-Groove® rifling, a special process that produces less bullet distortion and a better gas seal, the 39A gives you the kind of accuracy most other 22's can't touch.

Solid steel forgings:

The breech-bolt, hammer, trigger, lever and two-piece receiver are all carefully machined from solid steel forgings, then heat-treated for even greater strength and durability.

Self-Loading 22's with Tubular Magazines

Nobody in the world sells more self-loading 22 rifles than Marlin. In fact, we've made well over eleven million to date. And it's pretty easy to see why they're so popular, once you see what goes into them. Their simple, fast actions are known far and wide for uncompromising reliability, and their ability to stand up under the wide range of conditions you'll encounter when shooting or hunting.

Model 60 An economically priced rifle that's earned the title of "most popular 22 in the world." Since the Model 60 was first developed in 1960, it has continuously represented a great value. It has a 19" Micro-Groove® rifled barrel, cross-bolt safety, manual bolt hold-open and a patented automatic "last-shot" bolt hold-open, a safety feature that locks the bolt half way open after you've fired the last shot, allowing you to see clearly into the open action. And with features such as its sleek hardwood stock, a brass inner magazine tube, which completely eliminates the rust problems you come up against with steel tubes, and a precision-crowned

muzzle for enhanced accuracy, it's easy to see why the Model 60 continues to be one of America's best selling rifles.

Model 60C The world's most popular 22 rifle is also available with a camouflage stock. With features identical to the Model 60, the Model 60C comes with a hardwood Monte Carlo stock featuring the popular Mossy Oak® "Break-Up™" camouflage pattern.

Model 60SSK Here's the self-loading 22 rifle that earns its keep when the weather's not fit for man nor beast. The stainless steel Model 60SSK features a black-stained hardwood Monte Carlo stock with nickel-plated swivel studs. Like all Model 60's, it has a 14-shot tubular magazine, cross-bolt safety, manual bolt hold-open, and automatic "last-shot" bolt hold-open.

Model 60SS How do you improve upon the simplicity and reliability of the world's most popular 22 self-loader? We've given it the all-weather versatility of stainless steel. The barrel is made from stain- and corrosion-resistant stainless steel. Most other metal parts are nickel-plated. The deluxe 60SS features a 19" tack-driving Micro-Groove® barrel, 14-shot tubular magazine, positive cross-bolt safety, manual bolt hold-open, and our patented "last-shot" bolt hold-open, which locks the bolt half way open after the last shot is fired. The handsome Monte Carlo stock is crafted from a striking grey/black hardwood laminate, and sports a full pistol grip, swivel studs and a rubber rifle butt pad.

Model 60SB America's favorite self-loading 22 rifle also comes in weather-proof stainless steel, with a press-checkered, walnut finished hardwood stock. The tubular magazine holds 14 Long Rifle cartridges. The adjustable semi-buckhorn rear sight is complemented by a ramp front sight with high-visibility post and cutaway Wide-Scan™ hood.

Model 60
The world's most popular 22 rifle.

** Laminated stocks are available as replacements for some current and previously manufactured Marlin 22's. Contact your dealer for details.

Cross-bolt safety. All Marlin 22 caliber self-loaders feature a convenient cross-bolt safety located in the rear of the trigger guard.

Brass inner magazine tube. All Marlin tube-loading 22's have brass inner magazine tubes. Unlike steel tubes, brass can't rust.

Automatic "last-shot" bolt hold-open. An important safety feature on all Marlin self-loading 22's, our patented automatic "last-shot" bolt hold-open locks the bolt half way open after the last shot has been fired, allowing the shooter to see clearly into the open action.

Laminated Stocks.** The Models 60SS, 883SS and 882L feature laminated hardwood stocks. In addition to their ruggedness and good looks, laminated stocks are noted for their stability through a wide range of temperature and moisture variations.

Model 60SS

Model 60SB

Self-Loading 22's with Clip Magazines

If you're looking for a rifle that gives you the convenience of a removable clip magazine, at a reasonable price, Marlin has 22 self-loaders that are right on target. And right on the money.

Model 7000 The super-accurate Model 7000 features an 18" heavy target barrel, a black fiberglass-reinforced synthetic stock with molded-in checkering and swivel studs, a nickel-plated 10-shot clip magazine, and an automatic "last-shot" bolt hold-open.

No sights are provided . . . it's built to be scoped. 1" scope ring mounts are provided.

Model 795 This rugged, economical 22 self-loader has the wide appeal that's made it a winner. The lightning-fast Model 795 features an 18" barrel, 10-shot clip magazine, and an automatic "last-shot" bolt hold-open. Its stock is black fiberglass-reinforced synthetic with molded-in checkering and swivel studs. It's fitted with an adjustable open rear sight and a ramp front sight.

Model 795SS Marlin has taken the popular Model 795 self-loader and replicated it in weather-cheating stainless steel. The Model 795SS is designed and built to be an all-season favorite, with a virtually indestructible black fiberglass-reinforced polycarbonate stock with molded-in checkering and swivel studs. An 18" Micro-Groove® rifled barrel makes for optimum 22 Long Rifle accuracy.

Model 70PSS Stainless If you like to take a rifle with you when you're backpacking, boating, four-wheeling or just taking a hike, the Model 70PSS, with its 7-shot clip magazine, is a natural for you. You can take it apart or put it together in a matter of seconds. And, this all-weather version of the famous "Papoose" enjoys the versatility of stainless steel construction, combined with a rugged fiberglass-filled black polycarbonate stock. It's also equipped with an automatic "last-shot" bolt hold-open, as well as a manual hold-open. It comes in a padded carrying case with built-in flotation.

Model 7000

The 70PSS is an easy-to-transport, quick takedown self-loading 22 you can take with you just about anywhere in its padded, floatable Cordura® carrying case.

Quick, easy assembly. The 70PSS can be taken down and reassembled in seconds.

Automatic "Last-Shot" Bolt Hold-Open. In addition to a manual bolt hold-open, all Marlin self-loading rifles have a feature that holds the bolt half open after the last shot has been fired.

Model 70PSS

22 Magnum Rifles

At first glance, it's hard to tell these sleek, good-looking 22's aren't true "big game" rifles.

With their Monte Carlo stocks, left and balance, they are as close to an authentic big game rifle as a 22 rimfire ever gets.

All models feature legendary Marlin Micro-Groove® barrels. Unlike conventional rifling, our exclusive Micro-Groove® rifling results in considerably less distortion of the bullet and a better gas seal, for unrivaled accuracy.

And just to make sure that every rifle we make is as accurate as we say it is, each one is sighted-in on our test range, and verified by closed circuit TV.

Model 83TS If you're looking for a 22 Magnum bolt action rifle at a very attractive price, and with the toughness and stability of a fiberglass-reinforced polycarbonate stock, our Model 83TS fills the bill. It features a 22" Micro-Groove® barrel, a 12-shot tubular magazine, and a receiver grooved for a scope mount.

Model 883SS This was the first stainless bolt action rifle with the Marlin name on it. The barrel and receiver are made with 400 Series stainless steel. In addition, the following parts are also made from low maintenance stainless steel: striker knob, trigger stud, and outer magazine tube. Most other parts are nickel-plated.

The handsome Monte Carlo two-tone brown laminated stock is equipped with swivel studs and a rubber rifle butt pad. The rear sight is an adjustable folding semi-buckhorn, and the ramp front sight has a high visibility post and cutaway Wide-Scan™ hood. The 883SS has a 22" barrel, featuring famous Micro-Groove® rifling, and a tubular magazine with a big 12-shot capacity.

Model 883 Similar to the 883SS, the Model 883 has a traditional walnut stock with cut checkering, and a blued steel finish. It features a semi-buckhorn folding rear sight, and a ramp front sight with a brass bead and Wide-Scan™ hood.

The potent 22 Magnum has a significantly flatter trajectory than the 22 Long Rifle, and far more muzzle velocity and energy.

Red Cocking Indicator. All Marlin bolt action models show a red dot on top of the striker knob when the firearm is cocked.

17 Magnum Rifles and 22 Magnum Rifles

Model 17V Here's fast company for smallbore hunters. Our Model 17V was the blued steel launching platform for the 17 Hornady Magnum Rimfire. Firing a high-performance V-MAX boat-tail jacketed bullet, it generates at least 25% more muzzle velocity than the 22 Win. Mag. The Model 17V features a heavy 22" 17 caliber barrel, 7-shot clip, and a rugged walnut finished hardwood Monte Carlo stock with sling swivel studs. The receiver is grooved for a tip-off scope mount, and we include 1" scope rings.

Model 17VS Varmints beware! The Marlin Model 17VS bolt-action repeater also chambers Hornady's hot 17 Magnum Rimfire cartridge, at a muzzle velocity of 2,500 fps, the fastest rimfire round ever. It fires a high-performance 17-grain V-MAX boat-tail jacketed bullet. This 7-shot, clip-fed rifle features a stainless steel receiver and a heavy 22" stainless 17 caliber barrel, with 1" scope rings included. The handsome gray/black hardwood laminate Monte Carlo stock is stable in the worst of weather, and comes complete with nickel-plated sling swivel studs.

Model 882SS with Fire Sights® The ideal 22 Magnum bolt action for those shooters who thrive on nasty weather. The 7-shot, clip-fed 882SS features a stainless steel barrel and receiver, with other parts

either stainless steel or nickel-plated. The Monte Carlo stock is made of super-rugged black fiberglass-filled polycarbonate with handsome molded-in checkering and nickel-plated swivel studs.

Model 882L This rifle offers the features of the Model 882 with the addition of a super-tough laminated hardwood stock. Proven to be very stable, even in extreme temperature and moisture conditions, laminated stocks also have a dramatic appearance.

Model 882 The 882 Magnum sports a 7-shot clip magazine for quick loading and unloading. Other features include a thumb safety, 22" Micro-Groove® barrel and a genuine American black walnut stock with handsome cut checkering and swivel studs.

Model 882SSV Here's a real treat for varmint hunters. The Model 882SSV is a tack-driving stainless steel 22 Magnum bolt action repeater with a heavy 22" Micro-Groove® target barrel, anchored with double bedding screws. The 7-shot clip magazine is nickel-plated. We've fitted this rifle with a black fiberglass-reinforced synthetic stock with molded-in checkering and nickel-plated swivel studs. No sights are provided; the receiver is grooved for scope mounts, and 1" scope rings are provided.

Model 25MN This economical 22 Magnum comes with a 7-shot clip magazine, a Monte Carlo walnut finished hardwood stock with swivel studs, and a grooved receiver top for easy scope mounting.

Model 25MNC The economical Model 25MN 22 Magnum is also available with a camouflage stock. With features identical to the Model 25MN, the Model 25MNC comes with a hardwood Monte Carlo stock featuring the popular Mossy Oak® "Break-Up™" pattern.

Bolt Action 22 Rifles

Classic looks and loads of features.

These bolt action 22's have the styling and features you would expect from Marlin. Our receivers are made from machined steel. What's more, the barrels of all Marlin 22 rifles have our exclusive Micro-Groove® rifling to give them superior accuracy. These rifles also feature a red cocking indicator that clearly appears on top of the striker knob whenever the rifle is cocked, and a safety with high visibility "FIRE" and "SAFE" positions. Bolt handles are shaped so that you can mount up to a 1" scope, and the receivers are deeply grooved for solid scope mounting.

Model 880SQ This heavy target barrel rifle was designed to meet the demand for a highly accurate "Squirrel Rifle". It has a 7-shot clip magazine

and a black synthetic stock with swivel studs. Add a matte-finished barreled action with double bedding screws and you have the ideal 22 repeater for difficult shots at squirrels, other small game, and varmints. No sights are provided, but 1" scope ring mounts are included.

Model 880SS This handsome bolt action repeater is crafted from stainless steel. It also features a rugged black synthetic stock, adding even more durability and weather resistance.

Model 81TS If you prefer an economically priced, tube loading repeater with classic looks and features, the Model 81TS is the perfect choice. It has a 22" Micro-Groove® barrel, and a black fiberglass-filled synthetic stock with swivel studs and molded-in checkering. And its full length magazine holds 25 Short, 19 Long or 17 Long Rifle cartridges.

Model 25N This clip-loading 22 rifle represents one of the best buys around in a bolt action repeater. It features an all-business hardwood stock with swivel studs, a 22" Micro-Groove® barrel and a 7-shot clip magazine.

Model 25NC Based on the sturdy, economical Model 25N, this 22 clip-fed bolt action rifle has everything you want. It comes with a 22" Micro-Groove® barrel, adjustable rear sight and a receiver grooved for a scope mount. The Model 25NC comes with a hardwood Monte Carlo stock featuring the popular Mossy Oak® "Break-Up™" camouflage pattern. Perfect for blending into the woods.

22 Single Shot Rifles

Model 15YN Beginning shooters start right with the Model 15YN youth rifle. This single shot is scaled down for smaller frames, it cocks on opening, and features an easy-load feed ramp and a thumb safety that can be left engaged while loading and unloading.

Model 15YS Regardless of the weather, any day spent shooting with the grown-ups is a great day for a youngster. And here's a great beginners' single shot that can shrug off rain, snow and mud. The Model 15YS is the stainless steel version of our Model 15YN, with the same easy-load feed ramp and positive safety features. The Monte Carlo walnut-finished hardwood stock features a full pistol grip.

If you're looking for long-term value and dependability in a bolt action 22, you don't need to look any further.

America's Favorite Riflemaker

Congressional Sportsmen's Foundation

The Congressional Sportsmen's Foundation serves as American sportsmen's link to Congress in order to ensure that current and future generations will have the right and opportunity to hunt, fish, and trap.

Governed by a Board of Directors comprised of industry and conservation leaders, the Congressional Sportsmen's Foundation educates Members of Congress, staff, and federal officials to better understand and represent their hunting, angling, and trapping constituents. In this way the CSF promotes legislation and policies favorable to conservation and responsible management of our nation's fish and wildlife resources.

To learn more about CSF activities and how to become a member, write: The Congressional Sportsmen's Foundation, 110 North Carolina Avenue, SE, Washington, DC 20003, Phone: (202) 543-6850, Fax: (202) 543-6853, or online: www.sportsmenslink.org.

Buffalo Bill Historical Center

The Cody Firearms Museum, one of four outstanding museums at the world-renowned Buffalo Bill Historical Center, is home to the world's most comprehensive assemblage of American arms, as well as European arms dating back to the 16th century. To see some of Marlin's finest and most historically significant firearms, visit the Buffalo Bill Historical Center in Cody, Wyoming. Call (307) 587-4771 for more information.

The Comprehensive History of Marlin

Written by the late William S. Brophy, Marlin's Senior Technical Manager and Official Company Historian for many years, this prodigious book details the history of the Marlin Firearms Company and its products through 1990. The hardbound volume contains 696 pages and over 2,000 illustrations.

For more information, write to Marlin Firearms Co., 100 Kenna Dr., Dept. H, P.O. Box 248, North Haven, CT 06473-0905.

The Other Branch of the Marlin Family

In November of 2000, Marlin purchased the assets of H&R 1871®, Inc., a Massachusetts-based manufacturer of single shot shotguns and rifles.

Founded in 1871 (one year after Marlin), the original company started in a plant in Worcester, Massachusetts, producing handguns (as did John Marlin).

The company subsequently moved to Gardner, Massachusetts, and today employs over 200 people. Marketing its products under the brand names of Harrington & Richardson and New England Firearms, H&R 1871 is the largest manufacturer of single shot shotguns and rifles in the world.

Support Your Sport

If we are going to preserve cherished hunting and shooting traditions, we must all get involved in spreading the truth, as well as contributing time and money to worthwhile conservation organizations.

Join a sportsmen's club. Buy Duck Stamps. Write letters to editors. And join the NRA. Learn the advantages of National Rifle Association membership. Write: National Rifle Association, 11250 Waples Mill Road, Fairfax, VA 22030.

Marlin proudly supports the Hunting & Shooting Sports Heritage Fund.

Safety Notes

Marlin firearms are packed and shipped with an Owner's Manual. To assure safe and proper use, you should read and understand it before you load and fire your firearm. If you do not get one with your firearm, write to us, giving the model number and serial number. Write: Owner's Manual, Marlin Firearms Co., 100 Kenna Dr., P.O. Box 248, North Haven, CT 06473-0905.

Marlin firearms are designed and manufactured to handle standard factory-loaded ammunition which conforms to SAAMI (Sporting Arms and Ammunition Manufacturers' Institute Inc.) standards with dependability and safety. Due to the many bullet and load options available, the element of judgement involved, the skill required, and the fact that serious injuries have resulted from dangerous handloads, Marlin does not make any recommendations with regard to handloaded ammunition.
