The most trusted SUV in America.*

Ford Explorer has been America's best-selling SUV 12 years running and has inspired more people to come back to an Explorer than any other SUV in its class.** Why? Because Explorer has continued to innovate, giving people what they need in an SUV. Like a fully Independent Rear Suspension and the enhanced control of the available AdvanceTrac® Enhanced Stability Control System. Together, they give Explorer its smooth ride and driving control. Another is the available third row that folds faster and easier than any other in its class.** And then there's the standard Personal Safety System™ that uses advanced sensors to determine occupant position and crash severity. And with other features like the available Quad Bucket Seating Group and Rear Seat DVD Entertainment System, you'll find that Explorer does more than offer security, capability and convenience – it's an SUV you can count on for years to come.

*Based on repurchase numbers among '93-'03 new vehicle buyers.

**Class is mid-size SUVs.
