

KENT

CARTRIDGE

“IN A CLASS BY ITSELF”

PRODUCT GUIDE
2004

*The Kent Cartridge Company believes
that hunting should be a memorable experience.*

*Sacrificing quality for low price is not
what shooting is all about.*

*Pull the trigger on any of the innovative
Kent products and see for yourself why
Kent Cartridge is in a class by itself.*

Kent IMPACT™ Tungsten Matrix® continues to be the only true alternative to lead. Tungsten Matrix® is a patented blend of pure tungsten powder in a polymer matrix specifically developed to match the physical and ballistic properties of premium quality lead shot.

Tungsten Matrix® pellets are uniform in size, have consistent density and superior muzzle velocities to deliver maximum energy to the target.

Other tungsten products are restricted to the limitations of steel. These limitations are not found in Kent Tungsten Matrix® products because of Kent's unique lead-like characteristics. That also means Kent IMPACT™ Tungsten Matrix® pellets are safe for use in older Nitro-Proofed or high grade fixed choke barrels.

If you have never pulled the trigger on Kent's Tungsten Matrix® you are in for a very pleasant surprise. Unmatched performance must be seen for it to be truly appreciated. Just pull the trigger.

Note: Tungsten Matrix® shot performs with traditional chokes from cylinder through x-full.

IMPACT™ Waterfowl

*Available in a 100 round case for 12ga. Substitute a "C" for the "K" when ordering. Safe for use in nitro proofed barrels designed for smokeless powder ammunition.

Did You Know?

Tungsten is a very hard and heat resistant metal. It is twice as heavy as lead. Our patented technology allows us to combine tungsten powder with a blend of advanced polymers to give you a malleable shot pellet that is physically and ballistically comparable to lead.

In a Class by Itself.

IMPACT™ WATERFOWL

Reflexes and accuracy combine to make Upland Game hunting one of the most demanding shooting sports. Tradition and history also play a big part in the sport's attraction. Kent believes that none of these considerations should come at the expense of the others. This is why we produce innovative, premium quality shotshells that offer performance while providing load and size combinations that will allow you to shoot your cherished gun - and shoot it well.

Kent offers a broad range of IMPACT™ Game loads from lite 20 gauge to super fast pheasant at an incredible 1425 fps. We will continue to offer the venerable 16ga. shotshell for those of you who love to shoot your "Sweet 16"... Innovation, quality and lead-like performance that is safe for your old side by side...

Start your own tradition.

IMPACT™ Turkey combines the lethal power of Tungsten Matrix® and the physical and ballistic properties of premium quality lead shot.

IMPACT™ High Performance Turkey Load

Product	Gauge	Shell Length	Dram Equivalent	Velocity F.P.S.	Shot Charge	Shot Size
K123NT46-5	*12	3"	MAX	1330	1 5/8 oz.	5

*Available in a 100 round case for 12ga. Substitute a "C" for the "K" when ordering. Safe for use in nitro proofed barrels designed for smokeless powder ammunition.

Turkey hunters demand the utmost in lethality and consistent, tight patterning. More than anyone else they know every shot counts. In patterning percentages and velocity, Kent Diamond Shot® loads are favored by seasoned shotgunners.

The Kent Ultimate® Turkey lineup includes the awesome 3 1/2 inch models. All of our Ultimate® Turkey loads contain Kent's hard hitting Diamond Shot® lead.

Diamond Shot® provides better patterning and penetration of standard lead shot.

With Kent Ultimate® Diamond Shot® turkey loads, the next time you're staring down a monster "Tom", all you have to do is pull the trigger.

Did You Know?

KENT-Gamebore produces some of the finest shot in the industry. See for yourself how Tungsten Matrix® and Diamond Shot® compares to other brands by cutting open the shells and comparing the uniformity and consistent density of the shell. Just a few of the reasons why Kent is "in a class by itself".

ULTIMATE® TURKEY

Ultimate turkey loads...
...at a great price!

In a Class by Itself.

All of Kent's waterfowling knowledge combined with quality components and extreme performance make Kent Fasteel® a truly premium shotshell at an economical price.

Fast, faster, fastest. Much has been said about speed in steel shotshells and rightfully so. The only way to increase performance in a steel shotshell is with increased speed. Kent's Fasteel® offers a total of 32 options in the 1425 to 1560fps range. That's a lot of knockdown power for just about any kind of shooting where non-toxic steel is your choice.

Advanced powders and Precision Steel™ components achieve the level of performance a Fasteel® shooter demands...

...Every time you pull the trigger.

FASTEEL[®] WATERFOWL

Kent All Purpose introduced quality to the promotional shotshell market. In appreciation for the popularity of this new addition to the growing family of Kent products we have expanded the All Purpose Dove & Quail and Game & Target lineup.

The same Diamond Shot® that drops turkeys in their tracks, stones wild flushing pheasants and smokes demanding clay targets is available in an ever increasing variety of economical All Purpose loads.

You owe it to yourself to enjoy the amazing bang for the buck that Kent All Purpose loads provide for the value conscious shooter.

As with all Kent products the proof is in the performance...

Just pull the trigger.

Did You Know?

Not only is Dove hunting considered the most demanding of all wing shooting experiences, the opening day for doves is the biggest shooting day of any hunting season.

Kent Velocity® Diamond Shot® gives you a quality shotshell at a reasonable price without sacrificing performance.

Diamond Shot® and premium components produce a shotshell that gives you a competitive advantage. Posting good scores is important and every hit counts but sometimes that's not enough. To the competitive shooter Kent's Velocity® provides the edge you need to not only smoke the target but the competition as well...

One shot at a time.

VELOCITY® SPORTING

We take our Upland shooting seriously. Palms sweating, heart pounding, dog rock solid... What happens next is up to you. The right shot, tight patterns and hard hitting Kent Diamond Shot® help make this moment a part of a successful hunt. Rugged Texas foothills, prairie plains and northern woodlands require specific shotshell ballistics. Kent's Ultimate® Diamond Shot® provides the value you need at a price you can afford.

Kent understands a day in the field is more than a walk in the park. It's a way of life. Enjoy it to the fullest.

Game Loads

Pure Gold

Available in a true 2 1/2" case with a fibre wad specifically for old English guns. Ballistically designed for those long range shots.

Game & Hunting

A standard game load available in 16, 20, 28 and 410 gauge sizes.

Traditional Loads

Pure Gold Paper

For the traditional shooter we provide a 2 1/2" varnished paper case with a fibre wad. A traditional load manufactured to meet modern day shooting requirements.

Specialty Loads

Super Game

For the discerning shooter who relies on first class performance. Suitable for 2" chambered guns.

Black Powder

For the true traditionalist Gamebore manufactures a true Black Powder load in 12, 16 and 20 gauges at 2 1/2" lengths.

The Gamebore Cartridge Company is part of the extended Kent-Gamebore family of quality shotshell manufacturers. Gamebore is a recognized provider of quality game loads, traditional cartridges and specialty loads. For the shooter looking for traditional 2, 2 1/2 or 2 3/4 inch shotshells in gauges 12, 16, 20, 28, and 410 - Gamebore has the shell for you. Gamebore also produces IMPACT™ Tungsten Matrix® in a totally biodegradable 12 gauge shotshell with paper hull and patented fibre shotcup.
