

Cleaning Tips

Ask for the
**Tetra® Gun
Accessories**
Specific to the Caliber
You're Cleaning

IMPORTANT: Check to be certain that the **FIREARM IS NOT LOADED** before you begin the cleaning process. Clean your firearm from the breech end whenever possible. Otherwise, take precautions not to push debris into the action.

1. Saturate the bore with Tetra® Gun Copper Solvent. This can be done with a brush, mop, patch or directly from the bottle. Let the solvent work on the fouling for 10-15 minutes.
2. Run a bronze or nylon brush through the bore 5-10 times. Note: Spray the brush with Tetra® Gun Action Blaster™ degreaser. This will clean the brush for the next use and make it last longer.
3. Hold the muzzle down over a rag. Spray-clean the action and chamber with Action Blaster™. Then use Action Blaster™ to spray down the barrel to wash out solvent and fouling residue. Run a clean patch through the bore to remove remaining residue.
4. **Wet Patch:** Saturate a mop or patch with Tetra® Gun Lubricant (shake well first). Run it through the bore about 20 times. This will fill pores with fluoropolymer particles and begin the bonding process. Change your patch if necessary.
5. **Dry Patch:** Run a clean, dry patch or mop through the bore about 20 times. Change your patches as needed. This will remove oil and dry the barrel, while completing the bonding process. Note: It is a good idea to shoot 2 or 3 "fouling" shots to achieve dry barrel conditions in order to promote best accuracy.
6. Use Tetra® Gun Spray Lubricant (SLC) on exterior surfaces for one-step cleaning, lubing and protecting. Just spray it on and buff it dry!
7. Clean all internal mechanisms with SLC, then wipe dry with a clean cloth. Avoid getting SLC on wood finishes and low quality plastics (SLC will not harm polymer parts and frames).
8. Use Tetra® Gun Grease for heavy wear areas like bolts, rails, slides, locking lugs, guide rods and pivot points. Grease stays where you apply it and can be wiped or buffed dry while still providing excellent lubrication.
9. Tetra® Gun Lubricant is the right choice for bore conditioning, protecting exterior surfaces and lubricating hard-to-reach points like decocking levers, ejectors, firing pins, rotating lugs and any places you want a lube to migrate and cover surfaces.

Tetra Gun®

Professional Gun Care

2004

PRODUCT BROCHURE

ValuPro™ Gun Cleaning Kits

New, affordable Tetra® Gun ValuPro™ line of quality gun cleaning kits is for shooters looking for the highest value, convenience, portability and time savings when cleaning their firearms.

Each ValuPro™ Kit Contains:

Reusable storage case, Grease (1/3 oz.), Triple Action™ (2 oz.), Bronze Brush, Bore Mop, Cleaning Rod and appropriate extension pieces.

ValuPro™ Handgun Cleaning Kit

- Accommodates most popular calibers
- Rod blued for rust protection

Item #	Size
810-C	.22-.25 Cal.
815-C	.357/.38 Cal./9mm
820-C	.40-.41 Cal./10mm
825-C	.44-.45 Cal.

ValuPro™ Rifle Cleaning Kit

- Universal design for all rifle types
- Collapsible cleaning rod, blued for rust protection

Item #	Size
830-C	.22/.223 Cal./5.56mm
835-C	.243-.257 Cal./6mm
840-C	.270-.284 Cal./6.5-7mm
845-C	.30 Cal./7.62mm

ValuPro™ Shotgun Cleaning Kit

- Universal design for all shotgun types
- Quality aluminum, collapsible cleaning rod

Item #	Size
850-C	12 Gauge
855-C	20 Gauge

Performance Lubricants

Tetra® Gun Grease

Protect metal-to-metal surfaces with heavy duty fluoropolymer grease

- Reduces friction & protects from rust
- Widest operating temperature range from -100°F to 750°F
- Bonds to metals; smooths & protects
- Quick to apply, easy to use
- Doesn't attract fouling
- Low odor
- Won't migrate

Item #	Size
004-B	1 oz.

Tetra® Gun Lubricant

Fluoropolymer penetrating lubricant and bore conditioner

- Reduces friction, wear & fouling
- Provides rust protection
- Widest operating temperature range from -100°F to 750°F
- Bore conditioning for increased velocity, improved accuracy & easy cleanup
- Migrates to hard-to-reach places
- Low odor

Item #	Size
302-B	1 oz.
303-C	4 oz.
304-C	8 oz.

Tetra® Gun Spray

Fluoropolymer cleaner and light lubricant

- "SLC" all-in-one gun care product
- Cleaner, lubricant & preservative
- Quick evaporating solvent combined with light polymer lubricant
- Excellent for hard-to-reach places
- Removes fouling
- Provides rust protection
- Black powder bore cleaning

Item #	Size
201-C	3.75 oz.
202-C	8 oz.

Cleaning Solvents/Finishing Products

Tetra® Gun Copper Solvent

Quickly removes contaminants from firearm barrels

- Use as the first step in bore conditioning
- Fast acting, extra strength formula
- Won't "etch" the barrel
- Removes: copper, lead, plastic, carbon & dirt

Item #	Size
501-C	4 oz.
601-C	8 oz.

Tetra® Gun Action Blaster™ Degreaser

Maximum strength cleaner/degreaser for difficult metal cleaning tasks

- Liquifies & eliminates carbon fouling
- Quick evaporating solvent
- Extremely economical & efficient
- Black powder bore cleaning

Item #	Size
007-C	18 oz.

Tetra® Gun Blue & Rust Remover

Quickly removes rust and old blue easily without damaging the base metal

- Removes rust from guns, tools, gauges & other precision equipment
- Fast acting
- Easy to use

Item #	Size
001-C	3 oz.

Tetra® Gun Liquid Blue

Excellent for scratches & touch-ups

- New additive package further enriches color & reduces achievement time
- Easy to use
- Non-streaky

Item #	Size
002-C	3 oz.

ProSmith™ Cleaning Rods

ProSmith™ Premium Rods clean barrels quickly and easily without damage

- Heat-treated stainless steel coated with DuPont® TufCoat™
- Exclusive spinning Delrin® handle
- Screw-on Delrin® bushing & brass collar center the cleaning rod in the barrel to prevent scraping
- Fits standard accessories (8/32 thread-rifle/handgun; 5/16-27 thread-shotgun)

A. ProSmith™ Premium Rifle Rods

Item #	Size	Length
907-C	.17 Cal.	29"
908-C	.17 Cal.	36"
910-C	.22 Cal.	29"
915-C	.22 Cal.	36"
920-C	.30 Cal.	29"
925-C	.30 Cal.	36"
930-C	.22 Cal.	44"
935-C	.30 Cal.	44"

B. ProSmith™ Premium Universal Shotgun/Black Powder Rod

940-C	Universal	34"
-------	-----------	-----

C. ProSmith™ Premium Universal Twin-Tip Handgun Rod

905-C	Universal	8" each side
-------	-----------	--------------

D. ProSmith™ Premium Universal Handgun Rod

900-C	Universal	8"
-------	-----------	----

E. ProSmith™ Universal Bore Guide

- High quality, anodized T6 aluminum construction
- Ideal accessory for breech to muzzle cleaning
- 2 specially tapered tips for maximum range of calibers
- Tip #1 for .22 Centerfire / Tip #2 for .243 & larger
- Extra long tube lengths
- Convenient fluid port for cleaning solvents

Item #	Size	Length
950-C	Universal	12"

ProSmith™ Accessories

ProSmith™ Cotton Bore Mops

- Used for applying lubricants & cleaning solvents
- Absorbs contaminants
- Close tolerances for perfect bore fit
- Durable & reusable
- 8-32 male thread
- 5/16-27 male thread (12 & 20 Gauge)

Item #	Size
1019-C	.17 Cal.
1020-C	.22 Cal.
1022-C	.243/6mm
1024-C	.270/.284/7mm
1026-C	.30 Cal.
1028-C	.357/.38/9mm
1030-C	.40/.41 Cal.
1032-C	.44/.45 Cal.
1034-C	12 Gauge
1035-C	20 Gauge

ProSmith™ Phosphor Bronze Brushes

- Removes stubborn contaminants from firearm barrels
- Close tolerance for perfect bore fit
- Will not harm or scratch barrel
- 8-32 male thread
- 5/16-27 male thread (12 & 20 Gauge)

Item #	Size
999-C	.17 Cal.
1000-C	.22 Cal.
1002-C	.243/6mm
1004-C	.270/.284/7mm
1006-C	.30 Cal.
1008-C	.357/.38/9mm
1010-C	.40/.41 Cal.
1012-C	.44/.45 Cal.
1014-C	12 Gauge
1015-C	20 Gauge

ProSmith™ Brass Jags

- 8-32 male thread
- Accommodates all ProSmith™ cleaning rods
- Machined from high quality brass
- Maximum cleaning power
- Excellent durability
- Perfect bore seal & fit

Item #	Size
965-C	.22 Cal.
968-C	.243/6mm
970-C	.270/.284/7mm
972-C	.30 Cal.
974-C	.357/.38/9mm
976-C	.40/.41 Cal.
978-C	.44/.45 Cal.
980-C	12 Gauge
982-C	20 Gauge
