RING USE GUIDE		
SADDLE HEIGHTS FOR ALL WEAVER RINGS		
RING SIZE	SADDLE HEIGHT	FITS OBJECTIVE LENS SIZE
1" Low	0.089	Thru 38mm
1" Medium	0.168	Thru 40mm
1" High	0.332	Thru 42mm
1" Extra High	0.560	Thru 50mm
1" See-Thru	0.750	Thru 50mm
30mm Low	0.288	Thru 33mm
30mm High	0.500	Thru 44mm
1" Tip-Off	0.25	Thru 36mm
1" Tip-Off See-Thru	0.750	Thru 45mm

NOTES

- Shimming is probably required for perfect scope alignment.
- Rear base may require modifications for correct fit to military actions.
- Front base may require modification for correct fit.
- Gun will have to be drilled and tapped.
- Front base screws must be shortened by grinding.
- May require bolt and/or safety alteration, otherwise firearm cannot function safely and properly. Consult with a qualified gunsmith.
- Pivot mount usable only on sporterized guns with suitable front and middle signs.
- Remove rear sight to use.
- The handiest way to pinpoint the correct base for Winchester 52 & Winchester 70 Long Action Rifles is to check the spacing of the tapped holes for the rear base and compare it to the hole spacing for the front base. Does it have:

HOLE SPACING THE SAME	HOLE SPACING IS DIFFERENT
Model 52 Use 46 & 46	Model 52 Use 25 & 57
Model 70 Use 47 & 46	Model 70 Use 49A & 46
- The Weaver type base built into this rifle will accept Weaver rings but our highest ring (1" See-Thru #49513) still isn't high enough to clear the front sight.
- The Weaver type base built into this rifle will accept any Detachable Top Mount Weaver Ring.
- Rifle has a Grooved Receiver for Tip-Off Rings.
- RUGER MARK II PISTOL
 - Weaver only offers a clamp on base with 1" rings (System 306)
 - Ruger supplies a short base and 1" rings with factory drilled and tapped pistols.
 - Contact Ruger at (602) 778-6555 for a longer base and 30mm rings.
- Bolt clearance problem may exist and scope will not be centered.
- Base accepts Tip-Off Rings only.
- TO-9, TO-10 & TO-11 Bases accept either Detachable Top Mount Rings or Tip-Off Rings. Each have crossbolt slots and 3/8" grooves for both applications.
- Must be factory drilled and tapped.
- One-piece base attaches to barrel and extends back over receiver.
- Requires the use of Thompson/Center Base Adaptor.
- Requires drilling and tapping 4 holes in receiver and relief space cut in stock to clear base.
- Rear base is positioned on top of receiver and front base is positioned on the barrel. Drilling & tapping required. One-piece base mounts with 2 set screws and newer guns are factory drilled & tapped.
