

*Ed Brown
Products*®

The highest grade 1911s, and
high performance hunting rifles,
engineered and handcrafted by
the legendary Brown family.

*Ed Brown
Custom Rifles*

\$3.00

Our purpose is to manufacture the absolute highest quality bolt action rifles and 1911 handguns available, with emphasis on accuracy, reliability, and a high degree of cosmetic finishing. All at reasonable prices, and delivered within 90 days. To make this possible, we manufacture almost all of our firearm components in-house on our own equipment. Our competitive advantage lies in our expert and innovative engineering, huge investments in manufacturing technology specifically for the firearms industry, and the Brown family reputation for the highest degree of quality firearm craftsmanship.

Six reasons why you should choose Ed Brown:

- **Engineering Excellence:** better ideas. All components are carefully designed, tested, and redesigned to produce the highest possible accuracy, reliability, and cosmetic finishing, regardless of expense. Behind all the latest CAD-CAM technology and computerization is a professional engineer with a lifetime of experience in gunsmithing and world class shooting competitions, who has hunted almost every type of game all over the world. Ed Brown has combined his experience and skills with large investments in technology to design and produce some of the finest and most reliable firearms money can buy. He takes only the proven, conservative concepts and combines them in tasteful ways, along with a little intelligent innovation. Ed Brown firearms have an elegant simplicity and timelessness that many identify with immediately. Our guns don't have a lot of the latest gadgets, they only have what has been proven to work time and time again. Because of this purity of design, our guns have continued to enjoy strong popularity over a period of many years, and they are immediately recognized among the knowledgeable as one of the best.
- **Precision Manufacturing:** better production. All components are manufactured to produce the highest possible accuracy, reliability, and cosmetic finishing, regardless of expense. In most cases, this means aircraft quality pre-heat treated bar stock steel. The material is machined in-house on state-of-the-art CNC machining centers to precise tolerances. We've made huge investments in the latest technology and equipment in order to consistently manufacture the very best components possible.
- **Hand Craftsmanship:** hand fitting with extreme attention to detail. When the part comes off the machine, it is carefully inspected and hand finishing by a competent craftsman who knows exactly how the parts will be used in the gun. All the firearms in our shop are hand fitted and blended with extreme precision by an expert gunsmith, and brought to perfection by one of the Browns. They are true full custom guns created by masters. This hand craftsmanship and attention to detail puts our firearms a level above the rest. The combination of leading edge technology with traditional, old-world craftsmanship is what makes our firearms unique. We go that extra mile, and it shows.
- **Ultimate Performance:** each model of firearm has a specific yet flexible combination of features, options, and calibers based on years of experience, carefully designed with the highest all-around performance in mind. These proven combinations of time tested options, added to the engineering excellence, the precision manufacturing, and the hand craftsmanship, gives you a firearm that reaches the ultimate in high performance.
- **Wide Variety:** our flexible manufacturing technology allows us to offer many different options and caliber choices to suit particular tastes. This gives you more selection and customization than you can get elsewhere.
- **Delivery within 90 days:** we are able to consistently deliver orders within 90 days, and keep most models in stock at all times.

The Savanna

Our most popular rifle, the Savanna is a superbly accurate hunting rifle intended for long ranges around the world. The number one choice is one of the .30 calibers such as the 300 Wby, with stainless steel barrel and muzzle brake.

- **Long action calibers:** 270 Win, 280 Rem, 7mm Rem Mag, 7mm Wby Mag, 30/06, 300 Win Mag, 300 Wby, 338 Win Mag, 340 Wby
- **Short action calibers:** 270 WSM, 7mm WSM, 300 WSM, 308.
- **Barrel:** Match grade, hand lapped and precision chambered Shilen barrel. Medium weight #3 contour, 23" long for standard calibers. Magnum weight #4 contour, 24" long for magnum calibers.
- **Weight:** about 7.5 lbs. with #3 standard barrel, 8 lbs. with #4 magnum barrel
- **Stock:** Hand-bedded McMillan fiberglass stock. Sporter style with cheek piece, checkering and full 1" thick Pachmayr Decel recoil pad.
- **Sights:** Talley scope mounts utilizing heavy duty 8-40 screws.
- **Features:** Ed Brown Custom action with machined steel trigger guard and hinged floor plate.
- **Base Price:** see enclosed order form
- **Additional cost options:** Left hand, Stainless steel barrel, Jewell trigger, Muzzle brake.
- **Recommended optics:** Swarovski AV 3-10 x 42mm, Swarovski PV 3-12 x 50mm, Swarovski AV 4-12 x 50mm, Swarovski PV 4-16 x 50mm

*"One of the sweetest shooting 300 magnums I've ever used."
Gen. Craig Boddington, Rifleshooter*

*"Classic styling and superior craftsmanship distinguish this fine, no-nonsense hunting rifle."
Jon R Sundra, Guns Magazine*

The Denali

A lighter weight hunting rifle designed specifically for mountain hunting. This rifle is especially suited to the 270 and 280 calibers.

- **Long action calibers:** 25/06, 270 Win, 280 Rem, 7mm Rem Mag, 7mm Weatherby, 30/06, 300 Win Mag
- **Short action calibers:** 270 WSM, 7mm WSM, 300 WSM.
- **Barrel:** Match grade, hand lapped and precision chambered Shilen barrel. Light weight #2 contour, 22" long for standard calibers, medium weight #3 contour, 23" long for magnum calibers.
- **Weight:** about 7 lbs. with #2 standard barrel, 7.5 lbs. with #3 magnum barrel
- **Stock:** Hand-bedded lightweight McMillan fiberglass stock. Sporter style with cheek piece, checkering and full 1" thick Pachmayr Decel recoil pad.
- **Sights:** Talley scope mounts utilizing heavy duty 8-40 screws.
- **Features:** Ed Brown Custom action with machined steel trigger guard and hinged floor plate.
- **Base Price:** see enclosed order form
- **Additional cost options:** Stainless steel barrel, Jewell trigger, Muzzle brake.
- **Recommended optics:** Swarovski AV 3-10 x 42mm, Swarovski PV 3-12 x 50mm, Swarovski AV 4-12 x 50mm

"The ideal whitetail rifle." Kevin Steele, G&A

Phone: 573-565-3261 24-hour Fax: 573-565-2791 Internet: www.edbrown.com

The Damara

"I could not of asked for a better rifle and scope package. As you are well aware mountain hunting is tough and equipment has got to be utterly dependable. Your products deliver!"

Michael Hussey, Louisville, KY

A light weight hunting rifle, with an ultra lightweight graphite stock and special barrel contours specially matched for balance. Graphite is extremely strong and rigid, making for an accurate light weight rifle.

- **Short action calibers:** 22-250, 243, 6mm, 260 Rem, 7mm/08, 308, 270 WSM, 7mm WSM, 300 WSM
- **Long action calibers:** 25/06, 270 Win, 280 Win, 7mm Rem Mag, 7mm Weatherby, 300 Win Mag, 300 Weatherby Mag.
- **Barrel:** Match grade, hand lapped and precision chambered Shilen barrel. Exclusive super light weight #1.5 contour, 22" long designed for the lightest weight possible. If a muzzle brake or 24" barrel is desirable, we utilize a specially contoured #2 which incorporates the brake in it's design. Normally we supply the standard cartridges and WSMs with the 1.5 contour 22" long, and the long magnums like the 7mm Rem and 7mm Wby with the #2 barrel 24" long plus the brake. This special #2 barrel is available on the short mags with a brake at additional cost. This may be specified on the order form by indicating the muzzle brake option.
- **Weight:** 6.1 lbs. in 300 WSM with a 22" barrel. Other calibers and barrel lengths slightly more.
- **Stock:** Hand-bedded ultra light weight McMillan graphite stock, with checkering and full 1" thick Pachmayr Decel recoil pad.
- **Sights:** Talley scope mounts included utilizing heavy duty 8-40 screws.
- **Features:** Ed Brown Custom short repeater action with steel trigger guard and floor plate.
- **Base price:** see enclosed order form.
- **Additional cost options:** Left hand, Stainless steel barrel, Jewell trigger, Muzzle brake.
- **Recommended optics:** Swarovski AV 3-9 x 36mm, Swarovski AV 3-10 x 42mm, Swarovski AV 4-12 x 50mm

The Bushveld

A dependable dangerous game rifle, based on our own custom action.

- **Caliber:** 375 H&H, 416 Rem Mag, 458 Win Mag, 458 Lott
- **Barrel:** Match grade, hand lapped and precision chambered Shilen barrel. Medium weight #4 contour, 24" long. 458 calibers have heavy weight #5.5 contour, 24" long.
- **Weight:** about 8.5 lbs with #4 barrel, 9 lbs. with #5 barrel.
- **Stock:** Hand-bedded McMillan fiberglass stock. Monte Carlo style with cheek piece and full 1" thick Pachmayr Decel recoil pad.
- **Sights:** Talley scope mounts utilizing heavy duty 8-40 screws.
- **Features:** Ed Brown Custom repeater action with machined steel trigger guard and hinged floor plate.
- **Base Price:** see enclosed order form
- **Additional cost options:** Left hand, Stainless steel barrel, Jewell trigger, Quick Detach scope levers, Adjustable Iron sights, Barrel mounted sling swivel.
- **Recommended optics:** Swarovski PV 1.25-4 x 24mm, Swarovski PV 1.5-6 x 42mm, Swarovski PV 2.5-10 x 42mm

Ed Brown
Custom Rifles

The Varmint

"Im truly impressed. I know that if I do my part on the bench, this rifle will continue to amaze me. This won't be my last Ed Brown gun."

John Ganton, Jackson, MI

A superbly accurate full custom made varmint rifle.

- **Caliber:** 204 Ruger, 223, 22-250, 308
- **Barrel:** Match grade, hand lapped and precision chambered Shilen barrel, 24" long. Heavy weight #RV contour, or lighter weight #5 contour optional.
- **Weight:** about 9 lbs.
- **Stock:** Hand-bedded McMillan fiberglass with full 1" thick Pachmayr Decel recoil pad.
- **Sights:** Talley scope mounts utilizing heavy duty 8-40 screws.
- **Features:** Ed Brown Custom short single shot action (repeater with steel floorplate optional) with a steel trigger guard. Jewell trigger included, adjustable down to ½ pound.
- **Base Price:** see enclosed order form
- **Additional cost options:** Left hand, Stainless steel barrel
- **Recommended optics:** Swarovski AV 4-12 x 50mm, Swarovski PV 4-16 x 50mm, Swarovski AV 6-18x50mm, Swarovski PV 6-24 x 50mm

MARINE

A duplicate of the original Marine sniper rifle developed by McMillan for the Vietnam war. Much higher quality than the original because it is custom made by hand on an Ed Brown Custom action. Makes a great long range hunting rifle too!

- **Calibers:** 308 only
- **Barrel:** Match grade, hand lapped and precision chambered Shilen barrel. Heavy weight #RV contour, 24" long.
- **Weight:** about 9.25 lbs.
- **Stock:** Hand-bedded McMillan GP fiberglass tactical stock with full 1" thick Pachmayr Decel recoil pad. Special Woodland Camo pattern is molded in, not painted. Extremely durable.
- **Sights:** Leupold Mark IV or Nightforce, 30mm scope mounts utilizing heavy duty 8-40 screws.
- **Features:** Ed Brown Custom short repeater action with machined steel trigger guard and hinged floor plate.
- **Base Price:** see enclosed order form
- **Options:** Left hand, Jewell trigger
- **Recommended optics:** Nightforce 3.5-15x50, Nightforce 5.5-22x56, Swarovski PV 4-16 x 50mm

"I just wanted to thank you for building me the most accurate rifle I have ever fired, the .308 Marine Sniper. It will put 5 fed Gold Medal Match 168gr into one hole at 100 yards and recoil is negligible. It is a joy to shoot. Frankly, I think you are selling your rifles too cheaply! What an incredible bargain! Thank you!" SGT Peter Tammaro

Ed Brown
Custom Rifles

TACTICAL

The ultimate custom made tactical rifle which incorporates all known technology to produce accuracy and reliability.

- **Caliber:** 308, 300 Win Mag, 338 Lapua (338 Lapua only is single shot, #7, 27" barrel with muzzle brake)
- **Barrel:** Match grade, hand lapped and precision chambered Shilen barrel. Heavy weight #6 contour, 26" long.
- **Weight:** about 11.25 lbs. 338 Lapua model weighs about 12.25 lbs.
- **Stock:** Hand-bedded McMillan A-3 fiberglass tactical stock with full 1" thick Pachmayr Decel recoil pad.
- **Sights:** Leupold Mark 4 or Nightforce, 30mm scope mounts utilizing heavy duty 8-40 screws.
- **Features:** Ed Brown Custom repeater action (short with 308, long with 300 Win Mag), steel trigger guard and hinged floor plate.
- **Base Price:** see enclosed order form
- **Additional cost options:** Left hand, Stainless steel barrel, Jewell trigger
- **Recommended optics:** Nightforce 3.5-15x50, Nightforce 5.5-22x56

"It's a precision rifle from a man who knows how to build one. No matter what the scenario, the Ed Brown Tactical will deliver pinpoint accuracy when nothing less is acceptable."

Gary Paul Johnston, GWLE

"The rifle is without a doubt the most aesthetically pleasing Tactical rifle we have ever observed. The M702 Tactical delivers performance on a par with others costing substantially more. A very high quality rifle that delivers superb accuracy."

Charles Cutshaw, Guns Magazine

LIGHT TACTICAL

A compact, super accurate tactical rifle, great for varmints too.

- **Calibers:** 204 Ruger, 223, 308
- **Barrel:** Match grade, hand lapped and precision chambered Shilen barrel. Medium weight #5 contour, 21" long.
- **Weight:** about 8.75 lbs.
- **Stock:** Hand-bedded McMillan fiberglass with full 1" thick Pachmayr Decel recoil pad.
- **Sights:** Talley scope mounts utilizing heavy duty 8-40 screws.
- **Features:** Ed Brown Custom short repeater action, steel trigger guard and floor plate.
- **Base Price:** see enclosed order form
- **Additional cost options:** Left hand, Stainless steel barrel, Jewell trigger
- **Recommended optics:** Nightforce 3.5-15x50, Swarovski AV 4-12 x 50mm

"Just a note to say how much I appreciate the quality of your workmanship and finished product. The bottom line is that both rifles are incredibly accurate and shoot exactly where I aim. Keep up the good work. For the money, there isn't a better rifle on the market in my opinion."

Chris Jackson, St. Louis, MO

Classic Custom

"Just a note of appreciation extended to you after receiving my Classic Custom. It is superb! Perfect in every way. Beyond my expectations." William Houston

"If there is a better 45 ACP out there, we'd like to see it!"
Guns & Ammo staff

The Classic Custom features the following:

- Exclusive Ed Brown forged frame and slide, handfitted with precision for long lasting wear. Frame and slide are hand-polished to remove tool marks.
- 5" Government model slide, single stack government model frame.
- Weight: approximately 37 ounces.
- All Ed Brown premium **Hardcore**® components are hand-fitted to the exclusive Ed Brown frame and slide.
- 30 LPI checkering on forestrap and mainspring housing.
- Special mirror finished slide, with 50 LPI serrations on back of slide to match Bo-mar adjustable sight, top of slide is flattened and finely grooved at 40 LPI.
- Traditional "square cut" cocking serrations on rear of slide only.
- Ejection port is lowered and flared for improved ejection.
- Polished feedramp, hand-fit extractor and ejector ensure feeding with high quality ammunition.
- Ed Brown premium match grade barrel and solid steel bushing.
- Memory Groove Beavertail grip safety.
- Ambidextrous tactical thumb safety.
- Bo-Mar adjustable rear sight buried deep into slide, cross dovetail front sight.
- Two-piece guide rod for smoother cycling and easier disassembly.
- "Commander style" slotted and chamfered hammer mated with Ed Brown perfection sear, both are machined from the highest quality alloy bar stock steel, making for a light trigger pull and crisp break which will last for thousands of rounds.
- "Three hole style" long aluminum trigger.
- Mag catch with Oversize 40 LPI checkered button.
- Ed Brown seven round magazine with reliable steel follower. Extra magazines tested with gun optional.
- Beveled magazine well
- Exotic checkered Cocobolo wood grips with traditional double diamond pattern.
- Firearm is rigorously test fired for function and accuracy.
- Ed Brown Products branded deluxe Cordura pistol rug with internal magazine pockets, and external zippered accessory pocket.
- Ed Brown Products 1911 Owner's Manual and all necessary wrenches.
- See enclosed Handgun Order Form for options and pricing.

"I retail several high end custom and semi-custom handgun lines, but I believe that Ed's guns are far and above the finest I've ever handled. I can't think of a higher recommendation. And as for reliability, accuracy, as well as customer service, I can truthfully say that these pistols have the best track record of any upper end 1911 that I've ever dealt with. Thanks again for making a wonderful product available to those who want the very best!"

Respectfully, Allan Yoast, Allan Yoast Firearms, Austin, TX

"I am an avid handgun shooter and retailer for custom and semi-custom 1911s. Ed Brown handguns are a significant part of my product line because of the quality and craftsmanship demanded by the Ed Brown family. The Brown family business is responsive to the customer demands as shown by the new KOBRA and KOBRA CARRY. With Ed Brown handguns, the customer buys quality up front, not after tinkering, tweaking, or adjusting the handgun. I firmly believe customers get what they pay for, up front or back end."

ROCKY MOUNTAIN

Grip Safeties, Thumb Safeties, Housings

Memory Groove Beavertail Grip Safety

The number one grip safety in the world! More shooters specify the Ed Brown Beavertail than all others combined. Sweeps so high on the gun it is countersunk so a Commander-styled hammer will drop into it. Our grip safety gets your hand as deep into the gun as possible. This reduces felt recoil because it better aligns the centerline of the bore with the axis of your forearm. It also improves natural pointing ability, leading to better accuracy. This grip safety has Memory Grooves machined into a raised pad on the rear for positive depression of the part. With normal use, your hand becomes accustomed to the feel of the grooves, and will remember where the perfect grip is for consistent shooting. The Memory Grooves also aid in depressing the safety for the shooter with thin hands. No need to pin the grip safety! If you have ever failed to activate a grip safety, you need this part! 3D CAD designed to remove the maximum amount of metal from the frame without weakening it, you simply cannot get a better designed part. Uses a .250 radius cut on the frame centered on the thumb safety pin hole. Complete installation instructions included. See our beavertail installation jig #886 for an easy way to establish this .250 radius.

Beavertail Grip Safety Installation Jig

This is an easy to use jig for installing our beavertail grip safety. This heat-treated tool slips into the frame through the thumb safety hole and allows you to make the .250 radius cut on each side of the frame perfect the first time, even if you only have simple hand tools to work with. The jig is heat-treated super hard so hand filing right up against it is okay. The buttons screw together and hold themselves on the gun for easy installation. It is perfect for gauging as well as fine finishing and has great value as a reusable professional tool. Complete installation instructions included.

-----	--	--------------

Government Model Mainspring Housings

Ed Brown mainspring housings are fully machined from solid bar stock steel. No cheap castings or plastic is used. Sharp checkering is machine cut into each housing for precision and straightness, then finished by hand. The **SHAKESKIN** housings have scales instead of checkering, as pictured on the Kobra pistol. The arched housings are grooved 20 lpi for a positive gripping surface. The Government Model housing features drop-in installation in all full-size 1911 pistols including full size Para-Ordnance pistols such as the P-14 and P-16. All housings will work great with any finish or type of steel, including aluminum.

Ambidextrous Safety

The most ergonomic and attractive thumb safety on the market! Widest design 1/4" levers for 'high thumb' shooting style, wider than any of its competitors. This allows the shooter to rest the thumb on top of the safety as Jeff Cooper and others recommend. The tactical version has the levers trimmed to a slender 1/8" profile for better carry and concealment. Shaped for shooting comfort, the lever is angled slightly to keep the thumb from contacting the slide and has a double angle to fit the thumb perfectly. The ambidextrous safety includes both left and right sides needed for the either hand operation. Perfect for certain competitions, left hand shooters, and as a tactical component. May be custom trimmed to any slimmer proportions with no loss of style or function. Designed for all 1911 type frames and made from high quality steel. Requires minor gunsmith fitting for safe operation and includes complete instructions.

Mainspring Housing with Drop-In Maxi-Well

Our standard mainspring housing with a precision machined slot, and a drilled and tapped hole cut into the bottom. This superior two-piece design allows easy, drop-in installation of our included maxi-well, as well as easy removal of the maxi-well in seconds, without disassembling the pistol. Greatly increases magazine well opening for flawless magazine changes and speedy reloading. No grip modifications required.

Bobtail™ Housing

A unique, patented modification to your Government Model frame that transforms it into a round-butt pistol. It consists of a specially manufactured housing and frame modification. The **Bobtail™** removes a full 3/8" of excess metal from the bottom rear of the gun, where the mainspring housing pin is located. This not only reduces the weight, but solves two well-known problems of carrying a 1911. First, it drastically increases comfort during carry. There is no sharp butt to poke you in the ribs. Second, it increases concealment during carry, because the hardest thing to conceal on a 1911 style pistol has always been the sharp, projecting butt. Get our re-useable installation jig to easily locate the new hole in the frame for the **Bobtail™** housing.

Ed Brown Barrels and Guide Rods

Gun Test Magazine rates the Ed Brown Barrel for 45 ACP #1, Buy It!

Barrel accuracy comes from using the highest quality materials and manufacturing methods. Ed Brown Products is committed to both. Ed Brown barrels are completely manufactured in-house by our own craftsmen, using the most modern CNC machinery and manufacturing methods available. The barrels are made from T-416 modified, gun barrel quality stainless steel bar stock, just like a benchrest rifle barrel. This is without a doubt the best and most reliable way to produce top quality barrels. No forgings are used to try to save a buck. T-416 is certified pure, there are no foreign materials, and no hard or soft spots to worry about. It is stress-relieved and heat-treated prior to final rifling and refinishing. Ed Brown barrels are precision machine cut from a 3 pound chunk bar of this top quality steel. Our barrels are rifled by precision broach in the original six lands and grooves, one turn in sixteen, left hand twist as originally designed by John Browning. This deep cut, broached rifling gives superior accuracy with all types of bullets, including lead. No cheap, quick pass-through button rifling is used. Our barrels are heat-treated by an aerospace certified heat treat facility, and sub zero frozen for maximum strength and stress relief. This means more accuracy and longer barrel life to the shooter. We have also cut the dimensions to max tolerance on the outside of the barrel. This means less fitting work for you, and more accuracy. Gunsmiths and hobbyists love our precise, pre-fit dimensions on our drop-in models. This gets you on the range quicker enjoying the accuracy improvement your new barrel provides. All this extra trouble and expense ensures you the finest, most accurate barrel possible. These barrels are quite simply the best on the market.

All Ed Brown Guide rods are machined from high quality 416 heat-treated stainless steel. Because of their solid steel design, all one-piece guide rods may be cut down to any length for use in shorter slides. One piece guide rods are also ideal for use with bull barrels. Wrench and plug are included with all two-piece guide rods. All Ed Brown plugs are machined from either blue or stainless, top-quality stress-proof steel. Guide rods smooth out the cycling of the pistol, extend the life of the recoil spring, and add weight to the front of the gun, thus reducing muzzle flip and recoil.

Drop-in Barrels - (bushing, link, and link pin included)

Part #	Length	Caliber	Feedramp	Price
925-45	5"	45ACP	Standard	\$185
9243-45	4.25"	45 ACP	Standard	\$185

Bull Barrels - (link and link pin included with bull barrels)

The bull barrel is intended to add weight to the muzzle of the gun which reduces recoil and muzzle flip for faster follow up shots. It eliminates the bushing thus simplifying the pistol. Made slightly oversize at the muzzle so that it can be precisely fitted to the inside of the slide. Gunsmith fitting is required.

925-45B	5"	45ACP Bull	Standard	\$185
---------	----	------------	----------	-------

Two-Piece Guide Rod Assembly

Two-piece guide rods are preferred for standard 5" guns because they will disassemble much easier. Will drop-in to all 1911 types with correct slide length. Commander length will fit guns with 4 1/4" barrels. Allen wrench and plug included.

889	Two-Piece Guide Rod Assembly for 5" slide	Stainless	\$27.50
889-C	Two-Piece Guide Rod Assembly for Commander (4.25" slide)	Stainless	\$27.50

Heavy Duty One Piece Guide Rod Assembly

The assembly of the head, rod and stainless steel recoil spring plug. Intended for drop-in installation in standard Government Model pistols. May be shortened for installation in shorter slides. Disassembly will require a bushing wrench. Not intended for bushing type comp guns, use #889 for those.

884	Guide Rod Assembly	Stainless	\$24.50
-----	--------------------	-----------	---------

Heavy Duty 1911 Guide Rod & Head Only

Our own heavy duty head with a guide rod installed. Used for 'bushingless' compensator installations, and other custom jobs.

882	Guide Rod and Head Only	Stainless	\$16.50
-----	-------------------------	-----------	---------

Heavy Duty 1911 Guide Rod Head Only

This is a high performance rod head for the custom guide rods used by most gunsmiths in compensator guns. It allows a pistolsmith to make his own guide rod using drill rod, tungsten steel or whatever. Made from special shock-resisting tool steel. Absolutely unbreakable!

880	Head Only	Tool Steel	\$15.00
-----	-----------	------------	---------

Machined Barrel Links

Match grade barrel jobs need a precisely made link to complete the job. These links are machined from aircraft quality stainless steel bar stock, not stamped.

925	Standard Barrel Link	.278 hole spacing	\$6.25
-----	----------------------	-------------------	--------

Solid Barrel Bushings

All spring type collet bushings are subject to breakage and are replaced with the solid type as a rule with professional gunsmiths. We offer a drop-in replacement in blue and stainless that will work on most 1911 types with little or no fitting, and an oversize gunsmith fit version, also in both blue and stainless. Specs: Heat treated alloy and stainless steel. Drop-In: .581 ID, .699 OD. Oversize: .575 ID, .705 OD.

832	Drop-In Bushing	Blue	\$18.95
833	Drop-In Bushing	Stainless	\$19.95
832-M	Oversize Bushing	Blue	\$18.95
833-M	Oversize Bushing	Stainless	\$19.95

Recoil Spring Guide

Standard replacement 1911 recoil spring guide, but made from heat treated steel. Used for rebuilding existing guns or assembling new guns in the standard configuration. Available in blue only.

882-STD	Recoil Spring Guide	Blue	\$15.00
882-CMD	Recoil Spring Guide for Commander	Blue	\$15.00

Standard Guide Rod Plug

As supplied on our Government Model Assembly, now sold separately for those making up special types of their own design, or for use as a replacement.

881	Standard Plug Only	Stainless	\$7.95
-----	--------------------	-----------	--------

Slide Recoil Buffers

Precisely molded polyurethane buffers mount on the recoil guide and prevent the metal to metal contact that occurs when the gun is fired. Prevents frame damage. Will last about 1,000 rounds. 6 pack.

805	Slide Recoil Buffers	6 pack	\$5.95
-----	----------------------	--------	--------

Standard Recoil Spring Plug

An exact duplicate of the standard 1911 recoil spring plug. For those building, or rebuilding a 1911 desiring the factory configuration.

881-STD	Recoil Spring Plug, Blue	\$7.95
881-STD-S	Recoil Spring Plug, Stainless	\$8.95
881-CMD	Recoil Spring Plug for Commander	Blue \$7.95
881-CMD-S	Recoil Spring Plug for Commander	Stainless \$8.95

Custom Rifles

Frame & Slide Components

Barstock Hardcore® Hammer with chamfered edges

Completely machined from barstock, these hammers are guaranteed for life against breakage. Improved design with a beautiful chamfer machined all the way around the outside, and also inside the hole. Narrowed half-cock notch eliminates sear damage. Commander style spur, finely serrated for positive gripping surface. Sides are narrowed to eliminate drag on slide. Lowered strut pin hole reduces full-cock spring pressure. Hammer hooks precisely machined at 020-.022 perfectly square with sharp corners, ready for light, final stoning. Made from alloy steel or stainless steel, heat treated Rc 52-54. The perfect mate for this hammer is our #874 Perfection Sear.

896Hammer.....Blue\$49.95
897Hammer.....Stainless\$54.95

Perfection Sear

Computer designed and fully machined from top quality bar stock for the perfect profile. Recommended as a perfect fit with our Hardcore® Hammer #896 and #897 for the best trigger pull possible with the least amount of hand labor - no jigs necessary. Hammer contact angle already prepped ready for your favorite clearance angle. Specs: 4340 tool steel, heat treated to 50 Rc.

874Perfection Sear\$29.95

Hammer Strut

Our hammer strut has perfected geometry for the longest lasting wear possible. Made of heat treated tool steel, fits all 1911 types. The obvious choice for competition guns and all rebuilds.

823Hammer Strut\$6.95

Match Grade Sear

Our standard model high quality sear for any 1911. Machine-cut from 4340 Alloy steel for longer-wearing, cleaner breaking triggers. Assures positive sear/hammer engagement. Required for fine match grade trigger pull jobs. Requires small amount of hand fitting to hammer for a perfect trigger pull. We recommend our sear jig #951 for this purpose.

812Sear\$19.95

Sear Jig

The one jig you need for the 1911 sear. A larger, rounded design fits comfortably in your hand for ease of use. Packaged with .020 shim and complete instructions that cover every detail of the 1911 trigger job, along with many helpful hints to get the job done right. Made from stainless steel for a rust free life on your bench.

951Sear Jig\$37.50

National Match Trigger

The classic three hole design long trigger made from strong yet lightweight aluminum, with heat-treated steel bow. Finely serrated pull surface for better feel and control. Includes stainless steel adjustable overtravel set screw. Slightly oversize in height for precise hand fitting to your frame.

1001National Match Trigger for single stack frames\$19.95

Disconnector

Fully machined, heat treated steel for long lasting, increased wear applications. Will work with all 1911 pistols including the Hi-Capacity types.

811Disconnector\$16.95

Plunger Tube

High quality steel plunger tube fully machined from bar stock, with extra length studs for positive crimping. Will work with all 1911 types including the Hi-Capacity types. Don't let a loose, poor quality plunger tube tie up your gun.

821.....Blue.....\$14.95 821-SStainless\$15.95

Slide Stop

For positive, last round engagement and tighter, longer-lasting lockup with custom barrels. Attractive grooves for positive, non-slip application. Made from hardened tool steel for increased wear. Will fit all 1911 pistols High-Capacity types. The Hardcore® slide stop is guaranteed for life against breakage.

1911 Firing Pins

Factory firing pins are often weak and subject to failure. These top quality firing pins are precision turned from heat-treated tool steel. Proper weight for positive ignition with heavy duty springs and any type primer. Usable with all 1911 type pistols including Colt Series 80 and 70. Springfield 38 Super and 9mm slides use the oversize diameter pin for heavy loads. At present we are the only manufacturer making the correct size pin for the Springfield 38 Super slides. All Ed Brown, Baer and newer Caspian slides use the 38 Super firing pin, Part #825. If you are unsure which pin you need, measure the diameter near the tip where the pin strikes the primer and compare to the listings. The Hardcore® firing pin has a LIFETIME guarantee against breakage.

Firing Pin Stop

A high tolerance heat treated alloy steel firing pin stop for all 1911 pistol types. Made to max tolerance on width for a snug fit with the extractor. The standard part is for Series 70 guns, but we also offer an 80 series part which has a relief cut for the 80 series components. Also available as a super tough Hardcore® part, which carries a LIFETIME guarantee against breakage.

Glock Front Sight Installation Tool

The Glock front sight is held on with a screw. Neat idea, but up until now there was no way to get to it. If you own or work on Glocks, you need this tool! This specially designed tool will slip into the many types of magnetic screwdrivers, and allow a professional installation of the Glock front sight screw. Fits all Glocks. Certain Glocks may require opening the hole in the slide just slightly.

952.....Glock Sight Tool\$12.50

Ed Brown Gun Springs and CD-ROM

1911 Bench Reference CD-ROM

A complete manual on the 1911 written by Ed Brown, 1991 Pistolsmith of the Year. This CD gives you step-by-step instructions and detailed photos for disassembly, reassembly, maintenance and proper handling. It then goes into complete installation and fitting instructions for practically all accessories. Also included are chapters on trouble shooting and reloading. Packed full of valuable information. A must for all who work on the 1911! Use the electronic search feature, zoom in on photos or diagrams, or print a hardcopy for insertion in a three ring binder as you prefer. Runs on PC or Mac with CD-ROM drive and graphics type operating system such as Windows. Adobe Acrobat Reader included.

950-CD.....CD-ROM Bench Reference\$31.95

Ed Brown Gunsprings

Most shooters set up the gun to suit themselves depending on their load, bullet weight and grip on the gun. You should have the ejected brass land from five to ten feet away from your feet. If the brass falls on your feet, or fails to eject, you need a lighter spring. If the brass lands fifteen to twenty feet away, you need a heavier spring. It is always a good idea to have a replacement spring on hand.

Recoil Springs for Government Models

913-G.....13 pound (Light)	\$9.95
9165-G.....16.5 pound (Standard)	\$9.95

General Sales Policy

Retail Part Sales

No minimum order. Acceptable forms of payment for Ed Brown Products, Inc. include MasterCard, Visa, certified check, or personal check. Personal checks are held 21 days for clearance. Acceptable forms of payment for Ed Brown Custom, Inc. are certified check or personal check only. Shipping and handling charges are \$7.95 per shipment and will be sent via US Mail or UPS. Extra shipping charges may apply to some packages, and will apply to special requests such as UPS Next Day, 2nd Day and 3 Day Select shipments.

Our products may be purchased online via shopping cart at www.edbrown.com, or via phone or fax. Please call or email if you need any help ordering. Our regular business hours are 8am to 4:30pm Central Standard Time, Monday through Friday. Our sales staff is ready to answer your questions. Please note, all shipping charges, listed prices and policies are subject to change without notice.

Retail Firearm Sales

You may order directly from us, or one of our authorized dealers. We require a signed order form and 25% deposit with all firearm orders, and cannot accept trades. We will ship your order to any dealer you choose upon completion, providing we have a copy of their valid Federal Firearms License signed in ink. Your FFL dealer will then handle the paperwork to legally transfer the firearm to you. Customer pick-up of purchases at Ed Brown Products, Inc. and Ed Brown Custom, Inc. is possible if prior arrangements have been made. Due to carrier regulations, all handguns must be shipped via overnight service.

Returns & Exchanges

We care about our customers' satisfaction and will stand behind our products 100% with a remedy if a problem of our own fault is brought to our attention. All returns and refunds no fault of our own are subject to a 20% restocking fee. We cannot accept returns or exchanges of products that were purchased from one of our dealers or distributors. You **MUST** return all products to the **place of purchase** with a valid invoice to receive any form of credit or exchange - no exceptions. A Return Authorization Number from one of our sales associates is **REQUIRED** for any return or exchange to Ed Brown Products, Inc., or Ed Brown Custom, Inc.

Warranty & Disclaimer

Due to the complexities of compliance with Federal warranty law, all products represented in this catalog are sold as is, without any formal written warranty or guarantee of any kind, except for our **Hardcore**® parts which are guaranteed for life if they have not been modified or hard chrome plated. No liability is expressed or implied for damage or injury which may result from the improper use or installation of any parts sold or produced by Ed Brown Products, Inc., or Ed Brown Custom, Inc. We recommend that the installation of all our parts be checked by, if not installed by, a professional gunsmith.

Hardcore®

Look for the **Hardcore**® label throughout our catalog. Each part labeled **Hardcore**® has a **LIFETIME GUARANTEE!** A special heat-treating process allows us to make these parts super tough, and we can guarantee them for life against breakage. Guarantee voided if modified or hard chrome plated.
