# Cover Photo

By Bill Minneman

Though still an amazingly sharp, rifle shooter - check out the grouping he made below with the Predator - Dad now prefers to do his hunting behind the lens of a camera. Our cover photo was taken this past October when Dad crossed paths with this rather satisfied Northern Wolf while touring Denali National Park, Alaska.

## MTM Predator Shooting Rest™

Looking to buy a high-performance shooting rest that won't cost a full days pay? Here's one that fits the bill, the MTM Predator Shooting Rest, a rugged, fully adjustable, easy to transport, modestly priced shooting rest.

Attached by a central telescoping joint, the PSR is actually a two-piece unit, equally suited to both rifle and handgun enthusiasts. Loosen the telescope joint and the PSR's butt stock support not only levels the rest to uneven surfaces but also adjusts to fit various length guns. Remove the support completely and PSR becomes a highly effective handgun or front rifle rest. A precision dialed screw pedestal adjusts forearm level for exact positioning. Non-marring rubber shooting pads give solid, gripping support to (whatever the shape) gun stocks and barrels. Plus, four rubber feet provide a wide, slip-free stance on any shooting bench for an amazingly solid hold.

If you are searching for a stable, rock-solid shooting platform, at a price any gun enthusiast could afford, you'll find the MTM Predator Shooting Rest is the perfect choice. Catalog No: PSR-30 Color: Red (30)

Gripping rubber feet for no-slip, four-point footing

Non-marring rubber shooting pads support just about any shape stock or barrel

"My wife and I enjoy shooting rifles and handguns and the predator rest works great for both, I couldn't be more satisfied with the rest and the other products manufactured by your company that we have purchased."

## MTM Predator Shooting Table™

Always searching for ways to make shooting a little easier on the pocketbook and a more pleasurable experience, we bring to you the MTM Predator Shooting Table. Our new portable table offers an ample 28" x 35" surface that is as ideally suited to the back-forty shooter as it is to the prairie hunter on the go.

The perfect partner to our MTM Predator Shooting Rest, the PST stands 30" tall and is modeled after a traditional bench-rest. The wedge shaped tabletop design provides a comfortable shooting position for the left or right-handed shooter and leaves plenty of room for his or her gun, rests, ammo, logs and tools. Barrel grooves, molded into three sides of the table, provide a handy place to lean firearms once set up. Ideal for sighting-in and testing all your rifle and handgun performance, the MTM Predator Shooting Table also doubles as a maintenance bench or muzzle loaders table at the range.

Molded from extremely durable polymer, the PST offers super strength at an easy to carry, light weight - less than 13 pounds. When folded flat the MTM Predator Shooting Table is slim enough to fit inside a small sedan or even store behind the seat of a pick-up truck. Dimensions: L-35" x W-28" x H-30" (folding down to under 2.5")

Thank you for choosing to look over our 2005, MTM Case-Gard catalog. MTM is a family owned and operated, plastic injection molding facility with a primary focus on the shooting sports.

First opening it's doors in 1968; MTM Molded Products began as a simple idea for storing ammo. Our father Bill Minneman, an avid hunter since early childhood, wanted an inexpensive, sturdy container to store his reloaded ammo. At the time, everyone settled with paper bags or cardboard boxes. A toolmaker by trade, and a practical inventor by nature, Dad came up with the Case-Gard 50 series, which is still available (Page 15) in our catalog today. From ammo boxes to gun rests to clay target throwers, we now offer a huge variety of products all specifically designed for the shooting sportsman.

The photo to the right was Dad's idea. Not only is he proud that all six of his children manage to operate MTM without killing each other, but that we haven't let him down since entrusting us - over eight years ago - with his company. Rest assured, we will always honor Dad's tradition of excellence by continuing to create and produce inventive, high-quality hunting and shooting products at affordable prices, just like him.

From left to right; Carol, Doug, Steve, Al, Cheryl and Mike

*"In my book, MTM ranks equally with such legendary greats as Zippo lighters, Cross writing instruments, Ruger firearms, and Lee Precision in terms of product quality and customer satisfaction."*

-HH (Don) Dutton, Erwin, TN

## Site-In-Clean™ Rest

They don't get any handier than this clever little rest. Over and over, people tell us how practical they find the Site-In-Clean™. They just didn't expect such a reasonably priced 'plastic' rest to perform so well. This is a sturdy rest that, quite simply, will give just about any type of shooter a solid platform to fire from.

Not only is the Site-In-Clean™ Rest solid, but with its interchangeable gun forks and rear adjustment options it is amazingly versatile, too. Just decide on firearms ideal fork configuration, and then use the rear adjustment knob to zero-in on target.

Cleaning at the range is made simple and easy with range tools and supplies tucked inside the covered base. When it comes time to call it a day, gun forks are also conveniently packed inside for easy, compact storage.

# The Jammit™ Target Stands & Target Backers

A Favorite Among Hunters  
to Competitive Shooters

Need a quick and easy way to hang targets? With Jammit Target Stands, you'll be set in seconds. Targets can easily be moved to different yardages, offering unlimited possibilities for various shooting courses of fire.

Designed to handle the worst of elements, they'll even stand up to an occasional hit and still function for years to come. However, due to the nature of these products, MTM's normal Guarantee will not apply to target stands. We do guarantee that they will be free of manufacturer defect when you receive it, but your aim will determine how long they'll actually last. Works on non-rocky ground.

## Original Target Stand

## Portable Rifle/Shotgun Maintenance Center

Case-Gard's™ RMC-1 is an active shooter's dream. Whether at the range or hunting camp this is the maintenance center that goes where you go.

Designed to work in tandem with the Case-Gard™ Shooters Accessory Box (see below), the RMC-1 conveniently fits on top, turning into a one-piece unit, for easy transportation. The padded gun forks pop out and store in the base along with cleaning supplies. Sliding dust covers are provided to protect equipment and keep everything clean and secure inside. At the range you can use the RMC-1 to clean your barrel between testing different loads. The RMC-1 is made of chemical resistant polypropylene and comes with a 5-year guarantee.

**RMC-1-30** Dimensions: (L)23.25" x (W)11" x (H)3.5"  
Color: Red (30)

*Soft, over-molded, rubber padding on gun forks give a firm non-marring hold.*

*The Shooters Accessory Box (A-760 found on page 6) is an excellent partner to the Portable Rifle/Shotgun Maintenance Center (RMC-1), by conveniently resting and carrying the RMC-1 on top.*

## Mini Shooters Tool Box

*The "Bits and Pieces" Box*

The Mini Shooter's Tool Box is a great little container for the "bits and pieces" you need at range or in the field. The bottom of the STB-1-30 can be divided into four sections. The removable tray has six compartments for small tools, parts and accessories. The box is textured and is easy carry with a convenient handle. **Fits perfectly inside the Shooters Accessory Box.**

**STB-1-30** Dimensions: (L)7.8" x (W)4.5" x (H)4.7"  
Color: Red (30)

*MTM's Gunsmith Center handles a flipped over, scoped rifle with ease.*

*Trigger and magazine work? No problem!*

## Gunsmith's Maintenance Center

For the money, our Gunsmith's Maintenance Center is the best gun cleaning and maintaining product on the market - at least that's what our customers tell us, and we couldn't agree more.

Designed to help you quickly clean rifles or shotguns, the Gunsmith's Maintenance Center also makes an excellent support for mounting scopes, swivels, bedding of actions, etc.

The large middle section could almost be called a tub, for holding an amazing amount of tools and cleaning supplies. Separate compartments are provided for smaller items like bore solvents, rust preventives, patches and screwdrivers. The removable forks feature a non-marring, molded-on rubber padding that grips and protects your firearm for a solid hold. Forks are also designed to hold two rifle cleaning rods and one shotgun or muzzle loading rod. Each fork has two height adjustments, giving you a combination of height adjustments to hold the firearm level, upright or upside down. Once you're finished with your firearm, just pile your supplies back inside and put it away. Now that's getting your moneys worth!

**RMC-5-30** Dimensions: (L)29.5" x (W)9.5" x (H)4.5"  
Color: Red (30)

### Gun Fork Features for RMC-5, RMC-1 and SNCR

## MTM Gun Vise

MTM Case-Gard is proud to introduce another affordable alternative to a normally high-dollar shooter's item, the MTM Gun Vise. This new vise is packed with features you normally would only find in one of those pricey models, the big difference is ours sells for a fraction of the cost.

The MTM Gun Vise is designed to support both rifles and shotguns for just about any kind of gunsmithing or maintenance need. It offers a fast, single adjustment clamp-down with a non-marring, rubber padded hold. High and low gun forks give the option of a level clamp-down for maintenance or a sloped clamp-down for drainage, while cleaning. Shotgun barrels are also held securely for easy cleaning. The MTM Gun Vise allows a shooter room to organize cleaning supplies, bottles and other small items into separate compartments. A divided tray slides to uncover more compartments in the base unit for tiny, easy to lose items. Eleven screw driver bit holders, molded into the unit, are just as easily suited for jags and brushes as they are bits. And, paying close attention to details, a place is provided – low and out of the way – for holding two cleaning rods.

The MTM Gun Vise rests on four skid-resistant rubber feet and is made to last from rugged, chemical and solvent resistant polypropylene plastic. Bolt it down as a permanent fixture or leave it free-standing for easy accessibility to all sides of firearm. Whatever you decide you will quickly find our new MTM Gun Vise an excellent partner to any shooter's work bench.

## Shooters Accessory Box

*Many of the world's top shooters have this versatile box in their equipment inventory!*

Designed by a diehard shooter, the Shooters Accessory Box is still one of the most versatile and flexible pieces of auxiliary equipment available today.

An eight compartment lid keeps a large variety of accessories organized and held secure with a see-thru, locking divider/cover. The ample lower section may be left undivided for oversized items. This section may also be customized by using the plastic dividers to form even more individual compartments, of various sizes.

Whether your primary interest is handgunning, rifles, or smooth bores, the Shooters Accessory Box will be a welcome addition to anyone's equipment inventory.

- Made of rugged, polypropylene plastic
- Stainless steel hinge pins
- Dual latches prevent accidental openings
- Padlock tabs

## Jag Box

Organization and Protection  
for Jags and Brushes

Rummaging around in a big shooting box to find a brush is no fun at all. MTM's Jag and Brush Case (JAG) keeps jags, brushes, bore mops and adapters organized and in one convenient palm sized container. Impervious to cleaning solvents, the JAG is made from clear smoke polypropylene so you can see, from the outside, what's on the inside. This is a box we have needed for a long time.

If you're serious about cleaning rifles  
the smart way, Bore Guides are a must!

Never clean a  
rifle without  
the protection  
of a MTM  
Bore Guide!

## Bore Guides

MTM Bore Guides allow a person cleaning a rifle to pass a cleaning rod through a rifle action without dribbling solvent or cleaning agents into the trigger mechanism and magazine. Very importantly, Bore Guides "guide" the cleaning rod straight into the chamber and barrel, reducing the chance of scratching the chamber area, bending the rod or scraping it against the internal surfaces of the trigger mechanism. Designed to fit "families" of rifle actions, Bore Guides are available in four sizes.

## Sportsmen's Rump Rester™

### Ground Hunting Seat

The Rump Rester is a lightweight, all-plastic hunting seat, designed for many long hours of use. Hunters stay up off of tree roots and rocks and are naturally placed in the ideal shooting position. With it's low profile and angled design, fishermen enjoy a comfortable seat in locations not typically suitable for a traditional folding chair, like a steep river bank.

#### Features Include:

- Webbed feet to prevent sinking or sliding
- Adjustable nylon strap for hands-free carrying
- Four, molded-in 12 gauge shotshell/slug holders
- Angled design for natural shooting position and hillside seating
- Molded in fishing rod props

Catalog No. SRR-11 Color: Forest Green (11)

## Shooters Walking Stick

This shooter-designed accessory is a combination walking stick and adjustable shooting rest. It provides assistance in traversing difficult terrain plus offers a strong, stable rest to shoot from. It is as equally useful to the handgunner as it is to the rifleman. An ideal support for the photographer's telephoto lens, the Shooter's Walking Sticks ratchet-type gun hook adjusts to 30 different heights. It is made of glass-reinforced nylon for long life in the field, yet it weighs only one pound.

## Compact Handgun Cases

### 802C & CD - Compact Handgun Cases

Offering the compact shape of a traditional gun rug, 802s are the smallest of our handgun case line. The 802s' small profile allows for protected handgun storage in tight places such as glove boxes, luggage, night stands ... etc. Handguns are held secure between two pieces of protective foam padding. Padlock tabbed to detour undesired opening.

**802C-40** For subcompacts, most compact semi-auto's and revolvers 2" or less  
Outside Dim.: 9.5" x 5.9" x 2.1" • Inside Dim.: 9.3" x 5.16" x 2"  
Color: Black (40)

**802CD** - A perfect backdrop to a favorite handgun, the 802CD shares all of the compact features of the 802C, plus the impressive addition of faux velour lining.

**802CD-42** Same size as 802C  
Color: Charcoal Gray (42)

### 803-40 - Compact Handgun Cases

Slightly larger than our 802s, the 803 is the perfect fit for a standard Colt 45 Caliber, 1911-A1. It accommodates all pocket-sized handguns with barrel lengths of 3" or less. The 803, with most pistols, leaves just enough room inside for a spare magazine. Handguns are held secure between two pieces of protective foam padding. Padlock tabbed to detour undesired opening.

**803-40** For subcompacts, most full size semi-auto's and revolvers under 3"  
Outside Dim.: 9.5" x 6.5" x 2.2" • Inside Dim.: 9.0" x 5.6" x 2"

## Long-Term Handgun Storage Case

The 804 is the ideal gun safe box, accommodating semi-automatics and revolvers with barrel lengths of four inches or less. Handguns rest on a single layer of closed cell foam padding. Closed cell foam is best for long-term storage because it will not wick away gun oils as quickly as standard open cell foam.

The 804 is compartmentalized with separate sections for a handgun, a moisture absorbing, desiccant pack (included), a magazine or cleaning components and ammo. We've even included our patented 25 round ammo tray for 9MM, 38/357, 44 Mag., or 45 ACP. Padlock tabbed to detour undesired opening.

**804-40** Fits semi-auto's and revolvers under 4"

## MTM's Original Handgun Cases

### 806 & 808

Super strong latching systems prevent accidental opening of these original handgun cases. While a convenient closet-hanging feature provides a clever short-term way to hide firearms, Handguns are held secure between two pieces of protective foam padding. Double padlock tabbed to detour undesired opening.

**806-40**  
Fits automatics and revolvers with barrels 6" or less

## XX Large Handgun Case

The largest and deepest handgun case we offer, the 1400 protects up to four handguns at once in a strong, luggage style case. Extra thick foam padding not only keeps handguns safe but does a fantastic job protecting spotting scopes, radio equipment, cameras ... etc. The 1400 uses a belted lip design and two, key locked, steel latches to give the ultimate in case security.

**1400-40** Holds four automatics or revolvers  
Outside Dim.: 18.5" x 13.5" x 5.0" • Inside Dim.: 16.8" x 12.1" x 4.7"  
Color: Black (40)

# Snap Latch Handgun Cases

Adding to MTM's trusted line of handgun cases are two all new sizes, the Two Pistol and Four Pistol Handgun Cases. Both cases are modeled after our affordable 807 offering the same durable construction, reliable snapping latches and large comfortable handle. Each is made of rugged polypropylene with a handsome textured finish. Thick foam padding and double padlock tabs are provided for the utmost in protective security.

# Sportsman's Utility Case

One of the most versatile cases you'll ever find, the Sportsman's Utility Case (SU4) will carry and thoroughly protect just about any type of gear that a sportsman could need for a great day outdoors.

The foam padded, top section of the SU4 features a large, 18.5" x 10.5" lift out tray, offering a choice of two height positions, for a huge variety of storage options. Delicate items up to 4 inches thick are held safely sandwiched between protective foam padding, for worry-free transportation. Plenty of room for the rest of the sportsman's gear is provided in the spacious compartment below.

Engineered to endure, the Sportsman's Utility Case is made of luggage grade polypropylene plastic using two strong snapping latches and a center padlock tab. Know your gear will be protected with a Sportsman's Utility Case.

## Deluxe, 100 Round Rifle Ammo Cases

The R-100 series holds 100 rifle rounds in perfect security. Originally designed for the silhouette devotee, R-100s are appreciated by serious ballistics experimenters, varmint hunters (especially prairie dog shooters), big bore competitors ... anyone requiring "something extra" in the way of ammo supply. R-100s use an adjustable inner tray, to offer two height positions for different cartridge lengths. With the addition of our new Magnum size tray, the R-100 series now carries well over 85 different case sizes. Bullets are carried either bullet-tip up or in the protected down position. Four "fingers" built into the bottom of each cartridge compartment protect bullet from tip damage.

- Polypropylene construction won't crack, chip, contract, expand or warp
- A scuff resistant, textured finish
- An integral "living-hinge" with our one million open-close cycle/10 year guarantee
- Snap-Lok latch to prevent spilling – it only opens when you want it open
- Recess handle lies flat for easy storage and stacking
- Pressure sensitive load label for recording load and sight data

The calibers listed below are for "bullet tip up" position. **see Rifle Bullet Chart, on page 16, for the full detailed list of caliber fit for the R-100 series.**

**R-100-** 219 Zipper, 22-250, 22 Savage High Power, 220 Swift, 224 Weatherby Mag., 243 Winchester, 25-06, 250 Savage, 270 Winchester, 30-06 U.S. Springfield, 30-30 Winchester, 30 Remington, 300 Savage, 308 Winchester, 32 Winchester Special, 35 Remington, 35 Whelen, 378 Steyer, 6mm PPC USA, 6mm Remington, 7mm BenchRest, 7.5 x 54 S. ## Deluxe, 50 Round Rifle Ammo Cases

Created mostly from customer suggestion, these 50 round rifle cases were designed for the ultimate in ammo protection and ease of transportation. From 17 Rem. to 500 Nitro, bullets are carried either bullet-tip up or in a protected down position. Four "fingers" built into the bottom of each cartridge compartment keep bullets (in the down position) protected from tip damage. This is important because tip damage can alter bullet flight characteristics.

### H-50 features include:

- A generously proportioned handle for easy carrying
- Extra space between most rounds to facilitate removal when wearing gloves
- A scuff resistant, textured finish
- Polypropylene construction won't crack, chip, contract, expand or warp
- Integral "living-hinge" with our one million open-close cycle/1year guarantee
- Snap-Lok latch that protects contents from spilling – it only opens when you want it open
- Pressure sensitive load label for recording load and sight data

The calibers listed below are for "bullet tip up" position, some of the rimmed cartridges will fit better "bullet tip down," and thus using an H-50 one or two sizes smaller may be desired. **See Rifle Bullet Chart, on page 16, for a detailed list of caliber fit.**

# ATV Dry Box™

## A Removable Dry Box for Tractors and ATVs

MTM has provided sportsmen with O-Ring sealed, dry box protection for years. MTM offers that same dust-free protection for tractors and ATVs.

The Sportsmen's ATV Dry Box is a two-piece kit consisting of MTM's medium sized Sportsmen's Dry Box along with a heavy-duty mounting tray. SDB-1ATV attaches easily to almost any ATV tractor, boat, etc. Installation takes just minutes and once the mounting tray is installed, the dry box is held firm with the provided bungee cord. Simply release the bungee cord and the dry box is free to go. Designed to fit tubular or composite ATV racks, all necessary mounting hardware is included.

### Includes:

O-Ring Sealed Dry Box • Lift-Out tray • Heavy-Duty Mounting Tray • Mounting Hardware • Bungee Cord

## Rifle Rain Coat

Don't Get Caught in the Rain Again!

How many times have you been caught - in a sudden downpour - wishing for a quick way to protect your firearm from the damaging rain?

Wish no more! Introducing the Rifle Rain Coat (RRC), MTM Case-Gard's quick-fix to a problem shooting sportsmen face all the time. Conveniently fitting into a pocket or shooting bag, the Rifle Rain Coat unfolds into a heavy-duty, 3 mil. thick, polyethylene sleeve. Measuring a full 60 inches long, the RRC easily slips over rifles and shotguns, offering excellent short term rain protection for the foulest of weather.

## Clay Target Throwers

### EZ-Throw-II™ The Original

The EZ Throw-II™ keeps the sport of shooting clays affordable and fun. This one-piece plastic thrower, featuring MTM's unique "power curve," can send clay targets faster and farther than many mechanical throwers. With a little practice you and your buddies can challenge each other with jump birds, curves and ground skimmers. The EZ-II throws both right and left-handed.

## Archery Products

As with all MTM Case-Gard products, our archery line was created out of necessity. When MTM President, Steve Minneman, started bowhunting as a teen he fell in love with the sport. But, he also found the sport was seriously lacking in affordable accessory products. Always thinking as the inventor - just like his father Bill, founder of MTM - the more he would hunt the more product needs he would find. Though he had to wait until he finished college, once permitted, ideas turned into products in rapid succession.

### Bow Maintenance Center

Created in 1996, the Bow Maintenance Center received the distinguished recognition of Bow Hunter Magazine as being named "One of the Best New Archery Products" for that year. We have to agree. With a choice of nine holding positions, we look at this incredible product as the "extra set of hands" you always seem to need for bow maintenance. Two specially designed padded forks effortlessly grip a bow at two points - keeping it firmly held in whatever position needed. A fully assembled bow, with sights and stabilizers, is completely accessible for adjustment, maintenance and repair. The nine-cavity base lets you organize and keep specialty tools right where you need them. At home or away, when used with a portable bow press, the Bow Maintenance Center makes it possible for you to fix just about anything - without the need to call on an "extra set of hands".

### Master BowHunter Case

Includes Divided  
Accessory Case

Ideal for field and range equipment, the Master BowHunter Case offers 10 separate storage compartments with literally NO WASTED SPACE. All items stowed in the top section of this roomy case are held securely in place and in full view with a large transparent divider. The BH-760's removable base divider allows for custom configuration of larger supplies. Each Master BowHunter Case is also provided with a 10" x 6" x 2", divided accessory case for smaller archery equipment. The built-in broadhead wrench and foam pad broadhead holder are an added convenience that will surely be put to good use.

### Broadhead Tackle Box

This tackle box uses a convenient lift-out tray to hold 12 of virtually any type broadhead available today. Once blades are sharpened, the BH-12 keeps them sharp by suspending broadheads during transport. Also provided is a handy broadhead wrench that incorporates a broadhead alignment checker to determine proper tip alignment. Below the lift-out tray, three compartments are available for sorting extra blades, tips and tools.

Dimensions: 11.7" x 5" x 4"  
**BH-12-09** Color: Camo (09)

### Magnum Broadhead Box

The Magnum Broadhead Box is for bowhunters who like to keep all their broadheads in one place. Conforming to the shape of each individual broadhead, 20-plus broadheads are held securely in place by two special foam inserts. Each BH-20 is supplied with a divided, translucent box for storing smaller items such as blades, nocks and tips.

## Arrow Cases

Molded from impact resistant polypropylene plastic, MTM arrow cases do their job in a superior manner. Arrows stay-put using positional foam holders. No matter how bumpy the ride, archers can feel confident they will always find their arrows safe and protected inside an MTM arrow case. Each case features cross vector latching to resist impact related openings. Padlock receivers are placed at both ends for added security.

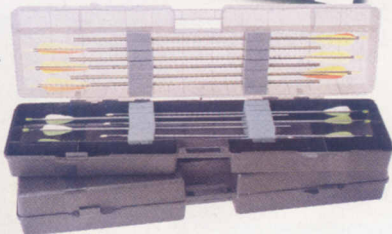

BH-37S

## Arrow-Plus Box

This uniquely styled box carries arrows plus much more. The choice is yours, the Arrow-Plus Box accommodates up to 36 arrows or 18 arrows plus an average size quiver. It can even handle two removable sights by their sight bars. Four spacious compartments offer a place to keep wrist guards, tabs, stabilizers, sights, foot steps, range finders ... etc. Several of our BH-1s and BH-2s fit quite nicely here. The convenience of a built-in broadhead wrench is also a nice plus.
