

Savage Sports Corporation 2005

*110 Years of  
Classic American  
Firearms*

# Dear Valued Customer,

Savage Sports Corporation is committed to serving the shooting, hunting and outdoor community with superior firearms, ranges and accessories. A privately owned company, Savage Sports Corporation includes three well known, American firearm brand names — SAVAGE ARMS, STEVENS, and FOX— as well as Savage Range Systems (SNAIL), the leader in bullet collection technology. Our three firearm brands give the shooting enthusiast everything they could possibly need, from price advantage, to top-of-the-line quality and everything in between.

SAVAGE ARMS is proud to celebrate 110 years of manufacturing and in keeping with our time-honored tradition of developing products that are the best in the industry, will continue to pioneer numerous new technologies, markets and consumer products that are peerless. SAVAGE will always represent the most accurate rifle money can buy, while STEVENS firearms will denote the best value to the consumer. FOX, a brand we will develop in the future, will be our flagship quality, with no compromise at any level.

SAVAGE RANGE SYSTEMS offers range technology that is both environmentally superior and effective in collecting bullets, either in an indoor facility or outdoors. Recently, the introduction of large-scale “SNAIL” systems has positioned Savage Sports Corporation to expand traditional markets while serving the needs of police, military and private clubs in both national and international arenas.

At Savage Sports Corporation, we're proud of the products and markets we serve, and this year, we're introducing a new knife, THE HUNTERS EDGE. Available exclusively from our new online store at [www.savagearms.com](http://www.savagearms.com), it is another indication of our commitment to providing a functional and quality tool designed by hunters for hunters. We encourage you to review SAVAGE at our website to get a full appreciation of the depth of our company.

SAVAGE SPORTS CORPORATION — the shooter's choice.

For Savage Sports Corporation,

Ronald Coburn  
Chairman & CEO

## THE NEW SAVAGE ACCUTRIGGER™

*A revolutionary design that will forever change the way shooters expect triggers to function.*

### WHY SAVAGE DEVELOPED THE ACCUTRIGGER

At Savage, we're constantly searching for new products and innovations that provide a true benefit to shooters. The trigger was always one significant area that captured our attention.

Most triggers found in firearms produced today have a very heavy pull. The reason is quite simple... liability. Manufacturers cannot afford to ship firearms with triggers that could accidentally discharge; therefore, they design firearms with heavy trigger pulls. Even though factory triggers can usually be adjusted, any adjustments made to factory triggers can create an unsafe condition and usually void the warranty.

Savage challenged its engineering team to design a completely new trigger system to give shooters what they wanted — an easily adjustable trigger with a crisp release and no creep. It took several years, but Savage's revolutionary AccuTrigger meets every shooter's objective.

### HOW ACCUTRIGGER BENEFITS THE SHOOTER

*Adjustability and added safety are the first benefits.*

The Savage AccuTrigger gives the shooter flexibility to set trigger pull to individual preference without having to pay a gunsmith to adjust it. Also, even when adjusted to its lowest setting, the AccuTrigger is completely safe and cannot accidentally discharge during normal use from being jarred or dropped when maintained and adjusted as intended. A newly designed teardrop safety is an additional feature on rifles with the AccuTrigger. It provides for better acquisition of the safety button and operates smoother and quieter.

*Enhanced accuracy is another benefit of the Savage AccuTrigger*

The crisp, clean, light trigger pull allows the shooter to maximize the accuracy potential of the rifle.

### HOW DOES THE ACCUTRIGGER WORK

The AccuTrigger is designed with an integrated AccuRelease™ that must be completely depressed or the rifle cannot fire. While pulling the trigger, the AccuRelease is intentionally depressed, which unblocks the sear and allows the rifle to discharge.

- Trigger pull approximately 1-1/2 lbs. to 6 lbs.
- Capable of being adjusted by the owner
- Completely safe – no danger of accidental discharge even at the lowest setting
- Crisp release with no creep

Savage AccuTrigger™ has a single tool adjustment location.

### ADJUSTING THE ACCUTRIGGER

Adjustment of the AccuTrigger is easy. Simply remove the stock and rotate the return spring with the tool supplied with the rifle. The AccuTrigger has a single adjustment location and is designed so it cannot be adjusted below the minimum setting.

### WHAT MODELS FEATURE THE ACCUTRIGGER

The AccuTrigger is available in all 12 Series Varmint, Law Enforcement, Muzzleloaders, the Model 40 Varmint Hunter, and most centerfire hunting models, including the Package Series. The adjustability range varies depending on the model.

In centerfire hunting models, muzzleloaders, and the Model 40 Varmint Hunter, the AccuTrigger is adjustable from approximately 2-1/2 to 6 lbs. In the 12 Series Varmint and Law Enforcement Series, the AccuTrigger is adjustable from approximately 1-1/2 lbs to 6 lbs.

### COMPARING THE ACCUTRIGGER TO THE COMPETITION

Savage used sophisticated software to compare objective measurements of their new AccuTrigger with competitors' triggers. These comparisons confirmed there is a graphic and repeatable difference between the AccuTrigger and all other triggers tested. This objective method of testing demonstrated the new Savage system has a lighter pull than all the other major brands. In fact, the AccuTrigger was lighter than a top-of-the-line imported brand and a custom aftermarket trigger. Testing also revealed the AccuTrigger was much smoother, crisper, broke cleaner and demonstrated less creep than any other factory-built trigger tested.

*See and use the future of the industry — the Savage AccuTrigger — the system that makes all others obsolete.*

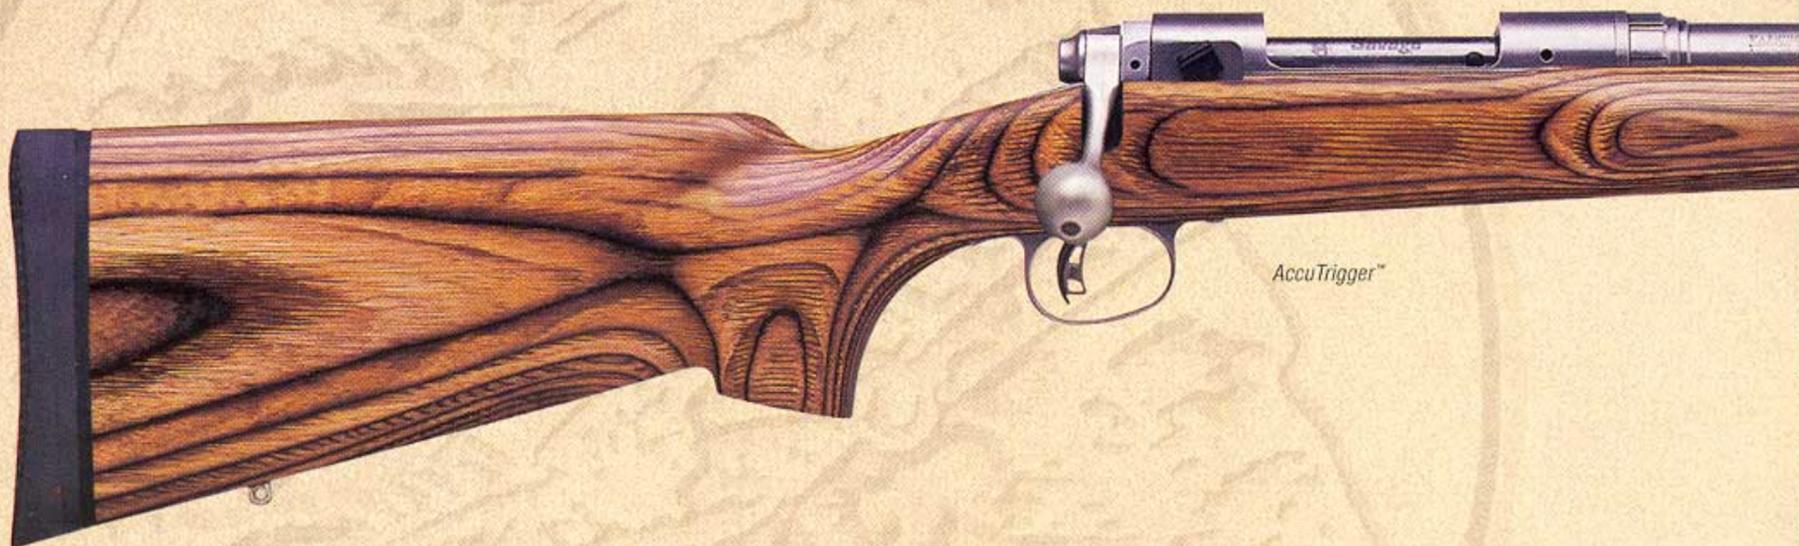

AccuTrigger and AccuRelease are trademarks of Savage Sports Corporation  
US Pat. No. 6,553,706

# 12 Series Varmint

Widely acclaimed for their out-of-the-box accuracy, Savage varmint rifles offer the best value, hands down. With standard features like the revolutionary AccuTrigger™—giving the shooter the flexibility to adjust trigger pull easily from approximately 1½ to 6 lbs—free-floating button-rifled barrels, dual pillar bedding and an oversized bolt handle for quick acquisition, this series offers all you've come to expect in a Savage varmint rifle.

The Model 12 Varminter Low Profile has a host of features, including a 26" heavy, fluted, stainless barrel and offers the shooter a true, varmint style stock with extra-wide beavertail forend for more stability when shooting from a bench or sandbags. For the left-handed shooter, Savage is proud to offer its newest addition to the series, the 12 Varminter Low Profile Left Hand. Time-tested and accurate, the Savage 12 Series Varmint rifles are the best on the market today!

*Shooting Industry Academy of Excellence Rifle of the Year 2003*

Model 12BVSS-S – Single Shot, Short Action  
Model 112BVSS – Long Action

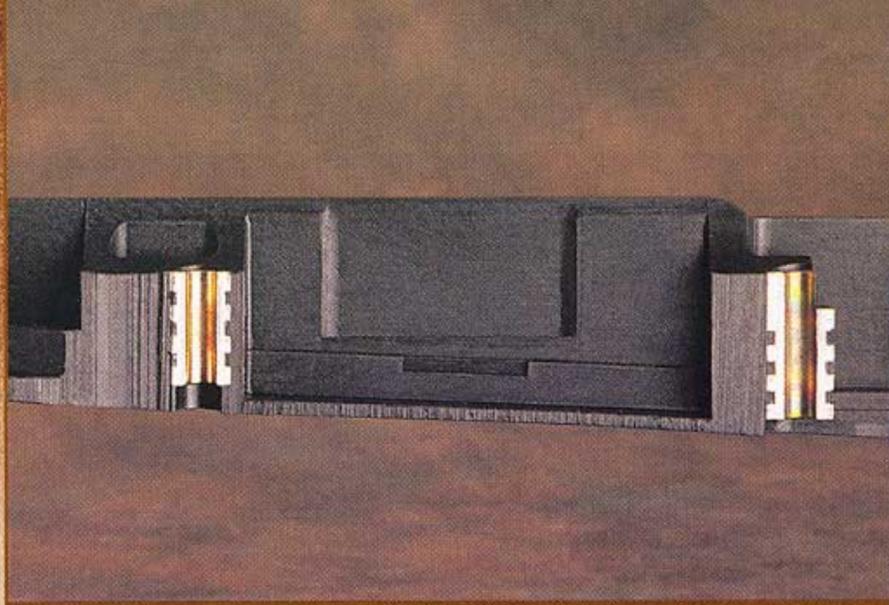

AccuTrigger™

Model 12FVSS – Short Action

**3-Position Safety and Oversized Bolt Handle**

All Savage rifles with the new AccuTrigger™ feature a newly designed teardrop 3-position safety that provides better acquisition of the safety button and operates smoother and quieter. The bolt handle is oversized for quick acquisition when multiple shots are required.

**Dual Pillar Bedding**

Pillar Bedding is used to enhance accuracy by providing maximum stability for the action. "Dual Pillar" bedding is accomplished by permanently embedding two steel pillars in the stock. Front and rear action screws are inserted through the two pillar sleeves into the receiver to provide steel-to-steel contact points.

**SAFETY TIP**

Never use alcohol or drugs before or while shooting.

# 40 Varmint Hunter Series

Varmint hunting has always held an allure as the sport for the ultra-accurate rifle. The notion that varmint-grade accuracy means a high price has deterred many an avid hunter from trying his hand at the sport. Now Savage is changing all that by bringing single-shot, pinpoint accuracy to the value-minded shooter in the Model 40 Varmint Hunter.

Don't think that popular price means it's short on features, either. The Model 40 features a sleeved, free floating, heavy contour, button-rifled barrel, with a recessed target crown. The revolutionary AccuTrigger™ is now also a standard feature and gives the shooter flexibility to adjust the trigger pull from approximately 2-1/2 to 6 lbs, easily. The varmint styled laminated stock provides extra rigidity that resists accuracy-robbing movement, and the forend has a full beavertail for firing from sand bags or a bench. There's even a third sling swivel stud for use with a bipod.

If you've always wanted to try varmint hunting, the Savage Model 40 Varmint Hunter chambered in the popular 22 Hornet, is the perfect rifle, at a price you can afford!

*Bringing pinpoint accuracy and the revolutionary AccuTrigger™ to the value-minded shooter*

**NEW** Model 40 VARMINT HUNTER – Single Shot

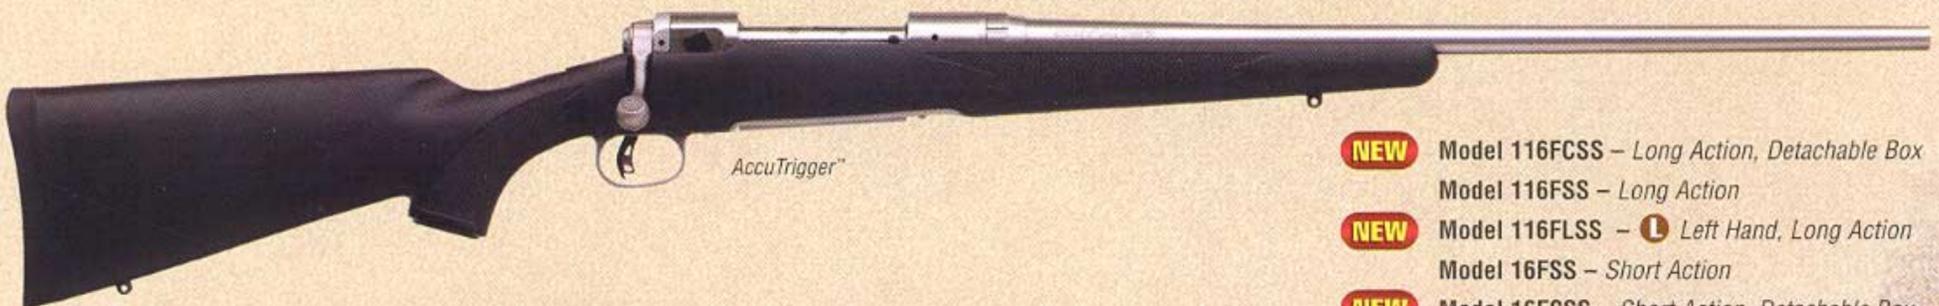

# Weather Warrior Series

Some hunters are afield on days when the rest are warming their feet by the fire. For them, Savage offers the Weather Warrior, a rifle tough enough for any condition. It starts with a stainless steel action and barrel for maximum corrosion resistance. The barreled action is dual pillar bedded into a synthetic stock impervious to moisture. For 2005, Savage introduces a new detachable box magazine to this series. It's a smoother design with a straight-line feed for more reliability. This diverse line includes left-hand models in both short and long actions, and the patented adjustable muzzlebrake on the AK model, allows you to tame the recoil on even the largest of calibers.

*Tough enough for  
the worst weather conditions*

- Model 16FLSS – **L** Left Hand, Short Action

#### Adjustable Muzzle Brake

Just twist the patented Adjustable Muzzle Brake open and reduce felt recoil by 30%. Hunting in the deep woods with a guide at your side? Turn it closed to reduce muzzle blast.

#### SAFETY TIP

Always treat every firearm as if it were loaded.

# Muzzleloader Series

*Smokeless muzzleloading is clean, safe, and simple*

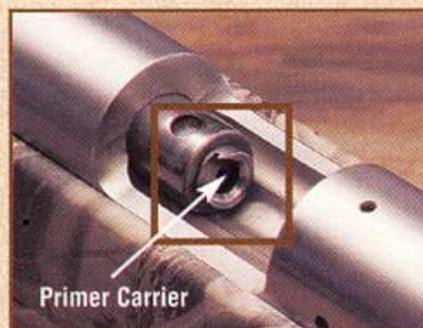

## 209 Primer Ignition

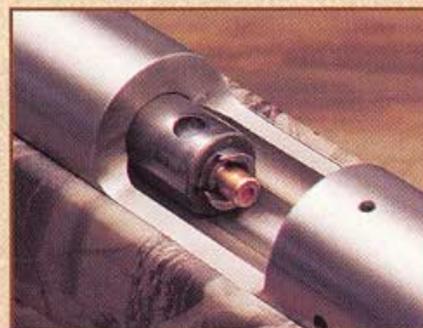

For ease of use and a sure-fire seal, the 209 primer fits into a primer carrier in the front of the bolt face.

## Muzzleloading Without the Mess

You choose the propellant. Modern smokeless powder for maximum performance or traditional black powder, Pryrodex or other black powder substitutes.

Primer Carrier

Accessory Kit

Accessory Kit contains: 5 Powder Vials, 2 Vent Liners, Vent Liner Pick, Powder Dippers, 20 Hornady Bullets, 20 MMP Sabots (packed with bullets), Gun Cleaning Patches, TW25 B High Tech Lube, .50 Cal. Cotton Bore Mop, and .50 Cal. Bronze Bore Brush.

Call it innovation...call it thinking out of the box...at Savage, we call it listening to the desires and needs of the hunter. That's why we developed the world's first smokeless powder muzzleloader, the 10ML-II. Designed to shoot smokeless powder, the 10ML-II's barrel and hardened breech plug are designed to safely contain the pressures from shooting smokeless. And, since smokeless powders are non-corrosive, the 10ML-II is a muzzleloader hunter's dream come true. There is no need to clean it at the end of the day. Clean it next week or next month—you decide.

The Savage 10ML-II is versatile. With the revolutionary AccuTrigger™ a standard in this series, you can set trigger pull weight to your own requirements (from approximately 2½ to 6 lbs), easily. You also have the option of choosing the propellant. Use smokeless powder, black powder, Pyrodex or other black powder substitutes—the choice is yours. This 50 caliber rifle with 209 primer ignition can deliver 1½" groups at 100 yards and produces velocities exceeding 2,300 fps. Choose a package model with scope, a stainless or blued action and take your pick of stocks. With more than 3,000 ft lbs of knock down energy, the 10ML-II is muzzleloading perfection that caters to every taste.

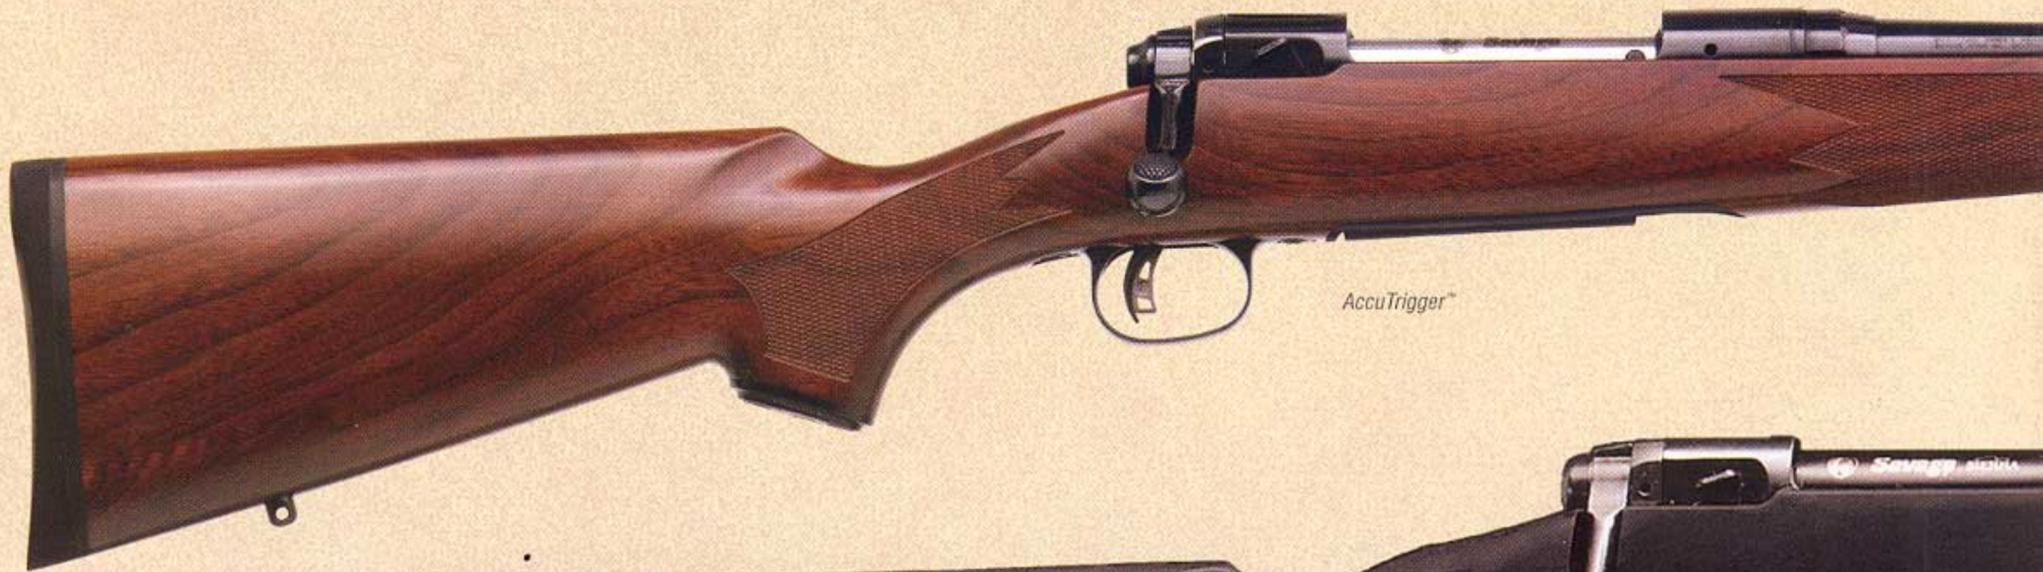

DO NOT use smokeless powder in any other muzzleloading firearm unless expressly recommended to do so by the manufacturer.

 **SAFETY TIP**  
Never transport a loaded firearm.

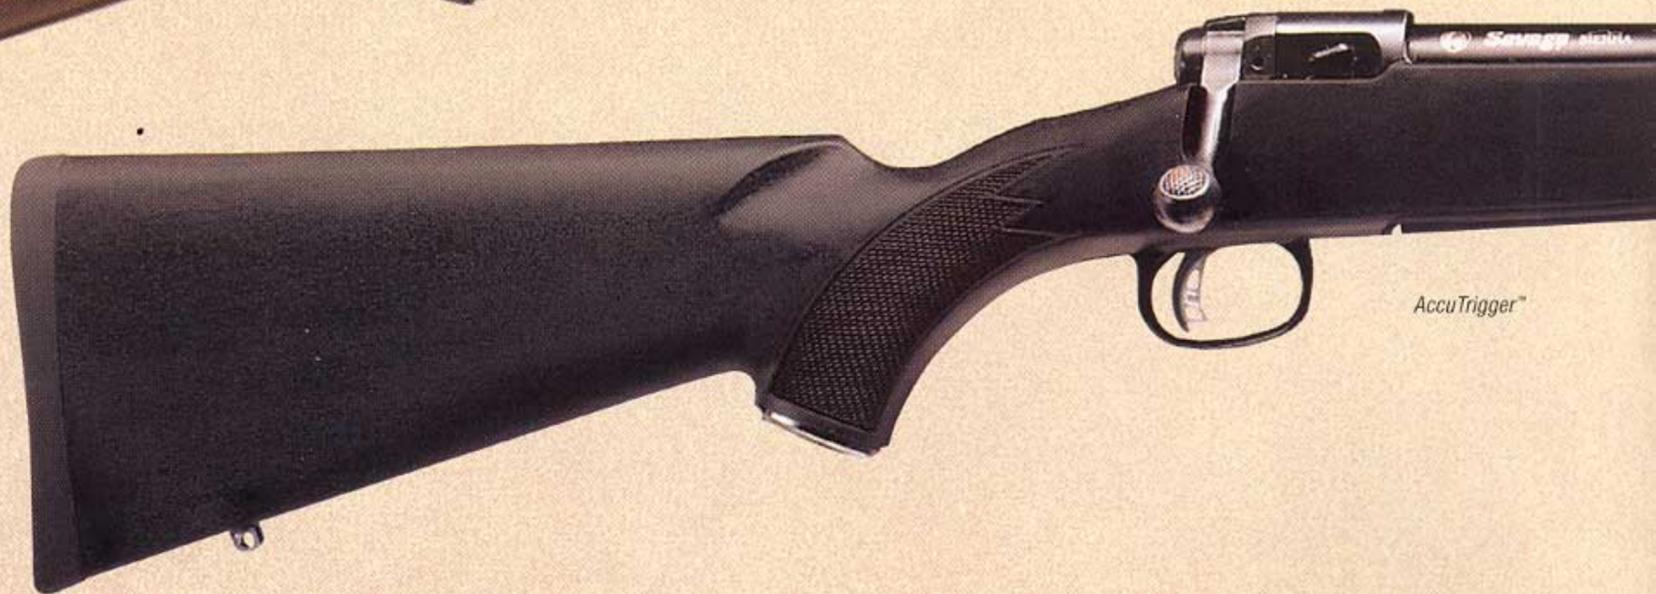

# Ultra Light and Classic Series

*Designed for discriminating hunters  
with distinctive needs*

AccuTrigger™

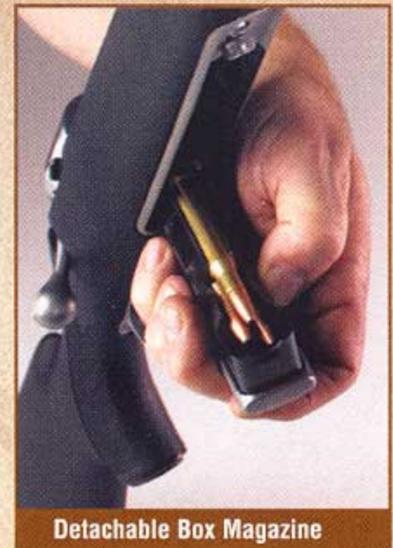

AccuTrigger™

The Savage Model 14/114 American Classic is a timeless representation of the gun maker's art reflected in wood and steel. A classic style with a traditional straight comb, the stock is crafted from American walnut, finished in satin lacquer, and features fine cut checkering with contrasting black forend tip. The barreled action is polished to a deep, rich high luster blue and the pistol grip cap highlights a detailed Savage Indian Head Medallion. This superior rifle offers a level of performance rarely found in a factory bolt-action rifle and is manufactured to the tightest tolerances utilizing the highest production standards available. It's the "beauty" in the Savage line, designed for the discriminating sportsmen with distinctive needs.

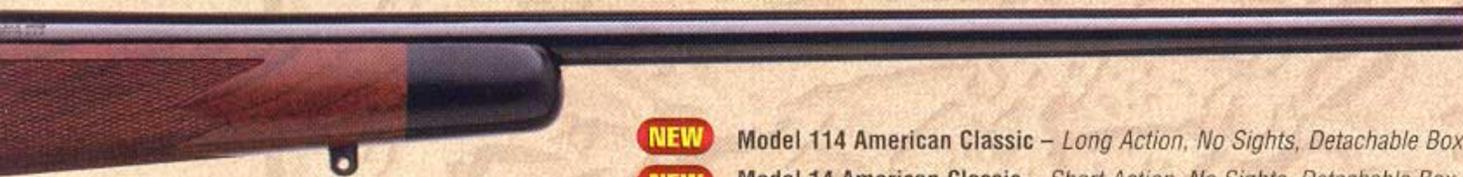

The unique ultra light series is designed to excel in a variety of tough shooting and hunting situations. Lightweight and quick handling, the Savage Sierra is a rifle that's a pleasure to carry, even at the end of the day. It's the only answer for those who want quality and accuracy for backcountry hunts where every pound counts. The 20" barrel and six-pound weight make packing this rifle the easiest part of the hunt. Its short action handles everything from the 243 Win to the potent 300 WSM.

Both the Savage Model 14/114 American Classic and the Savage Sierra now feature detachable box magazines, new for 2005. The new detachable box magazine offers a smooth, straight-line feed for more reliability every time. All models feature the revolutionary AccuTrigger, allowing you to safely set trigger pull weight to your own personal specifications.

**Detachable Box Magazine**

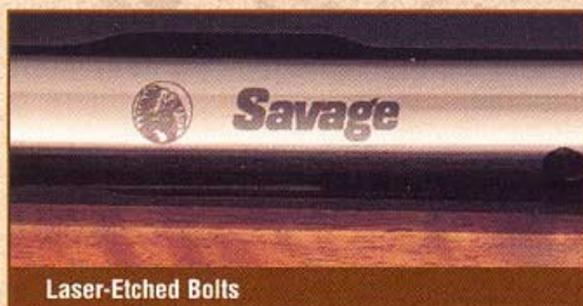

Savage's new detachable box magazine is a smoother design with a straight-line feed for more reliability

**Laser-Etched Bolts**

All Savage centerfire rifles have "laser-etched" bolts featuring a custom Savage Logo for the unique touch of quality and class.

**Indian Head Medallion**

The American Classic Rifle features a detailed, brass Indian head medallion.

**SAFETY TIP**

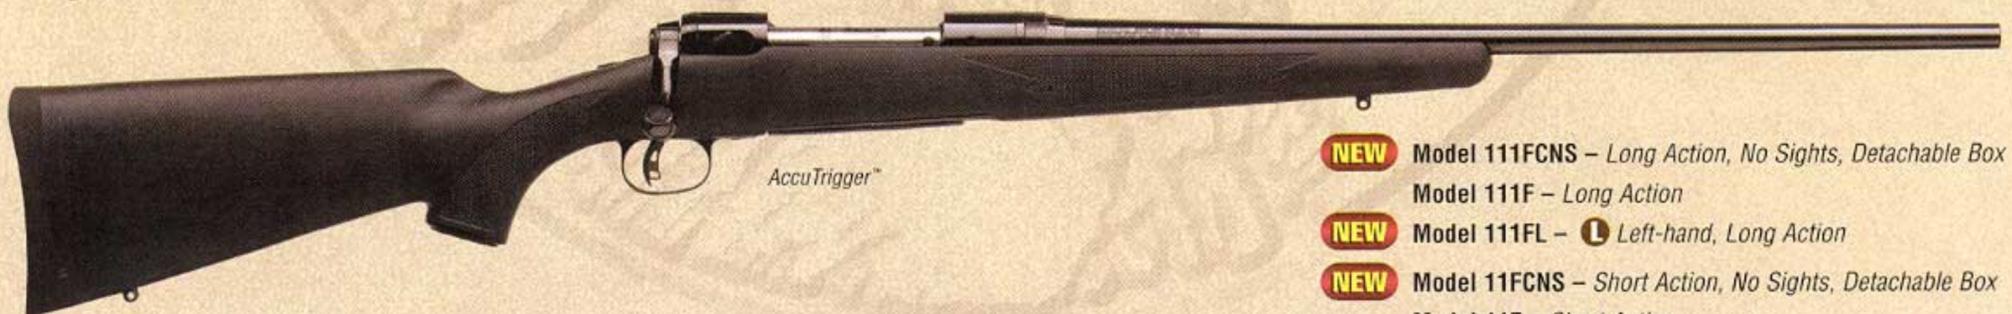

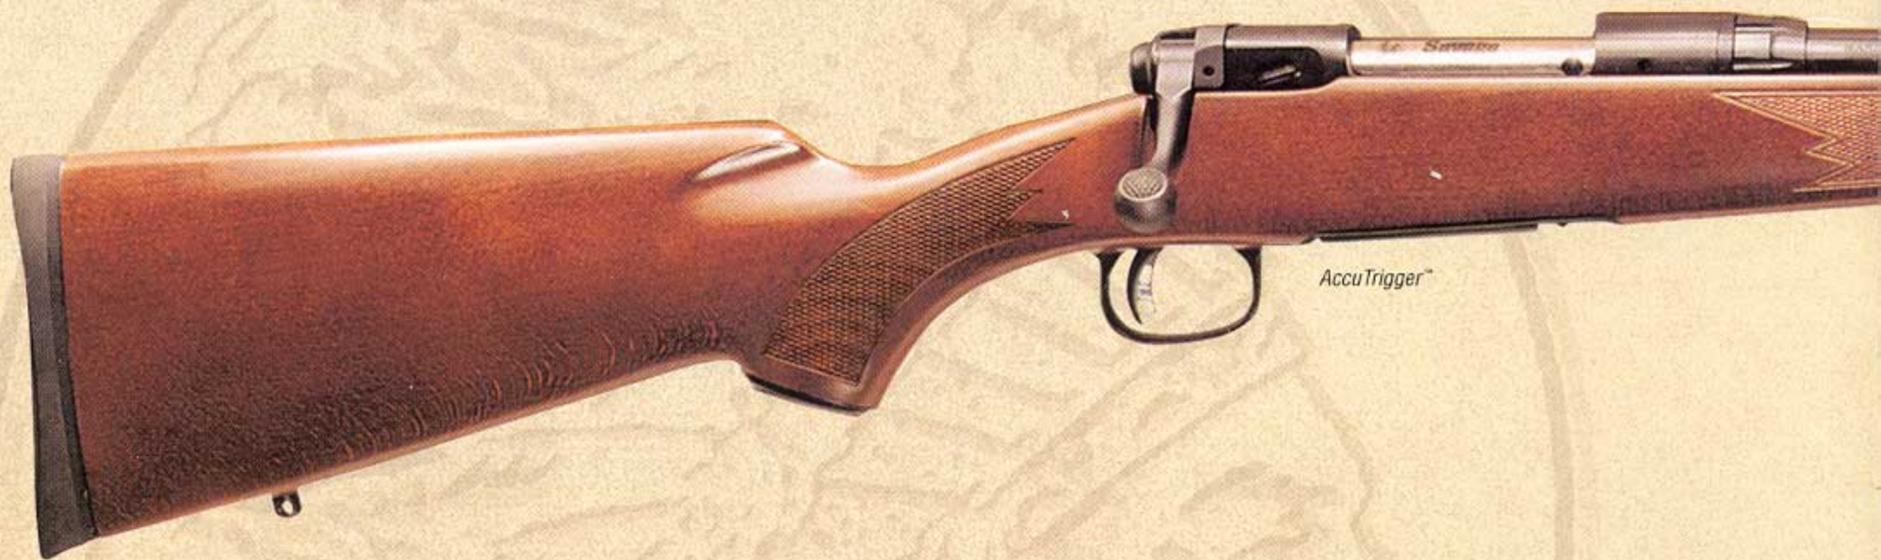

Always be sure the barrel is clear of any obstructions.

# Hunter Series

A mainstay of the Savage line, the Hunter Series with the legendary 110 action, has proven itself through the years by giving the American hunter unmatched accuracy, reliability and value. It's the rifle that's chosen season after season, by hunters of all ages, for its out-of-the-box accuracy and time-tested, proven design.

Today, there's a value-packed Savage rifle for every hunter. Choose a traditional long action that digests ammunition from the 25-06 to the 338 Win Mag. Or select a short action that shaves almost a full inch from the receiver length and feeds everything from the 223 REM to the 300 WSM. The new detachable box magazine offers a smooth, straight line feed for more reliability every time.

From left-handed models to stock choices in synthetic or hardwood, Savage has them all. There is even a rifle for the growing youngster in three popular calibers. And, every Hunter model comes equipped with Savage's AccuTrigger™ for easy, safe, trigger adjustment. The Savage Hunter Series offers you the best in accuracy, reliability and value.

**Actions**

**SHORT AND LONG ACTIONS:** Savage offers rifles in short and long actions. The short actions are almost a full inch shorter and provide a lighter more compact action for all of today's shorter cartridges. The long actions are designed to handle cartridges through the .300 Rem. Ultra Mag.

**Dual Pillar Bedding**

Pillar Bedding is used to enhance accuracy by providing maximum stability for the action. "Dual Pillar" bedding is accomplished by permanently embedding two steel pillars in the stock. Front and rear action screws are inserted through the two pillar sleeves into the receiver to provide steel-to-steel contact points.

# Specialty Series

Dedicated hunters truly appreciate the quality and innovation Savage brings to the world of shotgun performance. Based on the proven Savage 110 rifle action, the Savage turkey gun, the model 210FT, is the perfect choice for turkey hunters no matter what the environment. This durable 12 gauge features a 24" barrel and a camo synthetic stock and delivers the utmost in bolt-action shotgun performance. It's the perfect choice for matching wits with a Tom.

Want the finest slug shotgun on the market today? Look no further than the model 210F. A classic design, this 12 gauge 3" chambered shotgun is a slug gun with all the accuracy and reliability you'd expect in a Savage rifle. This highly specialized bolt-action shotgun shows the world what slug gun hunting can be, at its very best.

Giving a traditional European idea an all-American twist, the model 24F from Savage remains a true combination gun — offering rifle and shotgun capabilities with a simple change of the barrel selector. Unique to the hunting scene, this model has become a classic in the hands of American hunters for generations. Whatever the requirements, you'll be ready with the versatile model 24F!

# Striker Series

Whatever game you're after, Savage has a Striker that masters the job. The ambidextrous grip design features a left-handed bolt action with right side ejection. For small game, the Sport Striker series is offered in 17HMR, 22 LR, and 22 Mag. There's even a package model with scope and case included. If big game's your interest, the Striker Model 516FSAK is chambered in calibers from 243 WIN to 300 WSM. With Savage's patented adjustable muzzle brake, taming the recoil on the most powerful rounds is easy. Just twist the muzzle brake open and you'll reduce the felt recoil by 30%. With models featuring an all-stainless or blued barreled action and a dual pillar bedded stock, the Striker series delivers rifle-like accuracy with a big punch.

# Semi-Automatic Rimfire Series

Rimfire rifles in 22 LR add more fun to your shooting than almost anything else for the money. Savage has known this for over a century and continues to improve and expand on this great rifle series. Whether plinking for fun, serious marksmanship practice or just the magic moment when a youngster takes his first shot, you can count on a Savage 22 semi-auto. This proven line of value-packed rifles is available in blue or stainless steel, with wood or synthetic stocks. Every member of the Model 64 family comes equipped with a smooth-feeding detachable 10-round magazine. Package models include rings and a scope. From casual plinking to serious hunting, this versatile line of Savage model 64 rimfire rifles can handle it all.

# Magnum Rimfire Series

While the 22 LR reigns supreme for economical plinking and the smallest game, certain shooting conditions call for the extra stopping power of the 22 WMR. Savage offers the widest selection of 22 magnum rifles available. The traditionalist will gravitate to the falling block Steven's Favorite, a revival of a classic design from a century ago. It features a full octagonal barrel and a genuine hardwood stock and forend. The modern hunter will like the looks of the model 93FVSS, which combines a receiver and heavy target barrel, both made of stainless steel, with a synthetic stock that can shrug off any weather. It's even available as a package with rings and a scope.

# Single Shot Rimfire Series

Generations of young shooters have learned what fun safe shooting is with a Savage 22. The single shot bolt action is the perfect rifle for beginners due to the inherent safety of one-round-at-a-time shooting. Great Granddad may well have learned on a Stevens Favorite, offered in either the standard or takedown model, and that's a family tradition you can carry on. For the youngest shooter, the Cub, a scaled-down conventional bolt-action rifle, features peep sights and a two-position safety. There's even a youth model with color laminated wood for the style-minded youngster. Start your own family tradition with a bolt-action single shot model from Savage — offering superior accuracy and unlimited enjoyment for all levels of rimfire shooters.

# Mark II Rimfire Series

Savage's Mark II line lets you have a .22 rifle the way you want it. Matching handsome good looks with target grade rifle accuracy, this series offers a wide range of configurations. Need a heavy barrel for precision shooting? The Mark II FVT fits the bill, with an ultra-stable synthetic stock and target peep sights. Want to blend in while hunting in the deep woods? Choose the Mark II with camo synthetic stock. Still like the traditional look? Select a wooden stock with Monte Carlo comb. There are even versions for the oft-forgotten left-hander. Whatever you need in a bolt-action .22 repeater, Savage offers it in the Mark II.

Model 93R17 Camo

Model 93R17-FVSS  
Model 93R17-FV - *Blued*

The 17 HMR caliber has taken the shooting world by storm. Delivering a velocity of 2,550 fps, and 25% faster than the 22 WMR, the 17 HMR caliber has earned its place in today's line-up of popular calibers. From the heavy barrel varmint to the sporter barrel models, these bolt-action rifles come in almost every configuration: laminated, camo, sythetic or wood stocks, blue or stainless. And, for those who love the classics, you can choose the Steven's Favorite falling-block also featured in a takedown version. There's even a model for the left-handed shooter. Savage continues to lead the way, offering the largest selection in this new caliber. If you've been waiting to try the 17 HMR, wait no longer! Savage has the rifle for you!

# 17 Mach 2 Series

A shorter version of the super-accurate 17 HMR, the new 17 Mach 2 provides tack-driving accuracy powerful enough for dispatching small game and varmints. Slightly longer than the standard 22 LR, the 17 Mach 2 delivers laser-like trajectory that's nearly seven inches flatter at 150 yards with a velocity of 2,100 fps. Combine this with the unmatched variety and choices offered in Savage's popular Mark II series, and it brings a whole new element of fun to rimfire shooting. Best of all, you can shoot box after box of this economical ammo without shooting a hole in your budget. It's the perfect match for Savage's Mark II series featuring Savage's legendary out-of-the box accuracy at an unbeatable value.

# STEVENS®

From the first rifle ever built, Stevens has staked their reputation on building a standard of rifle quality that has never varied to this day. Each rifle in the Stevens line is designed to meet the requirements of hunters and riflemen who are particular about their equipment and insist upon the best value available. Every part is made from select materials and is carefully gauged and inspected during the manufacturing process. Each barrel is button rifled with painstaking precision by highly skilled gun makers trained in the Stevens tradition. Any Stevens rifle you select will be found to possess those qualities of safety, reliability, accuracy and value, which have long been associated with the Stevens name.

The new Stevens Model 200 carries the spirit of fine workmanship and honest value. Featuring a dual pillar bedded, gray synthetic stock, with button rifled free-floating barrel, the Model 200 is the best value in a bolt-action rifle. Offered in a variety of calibers, in short or long action, it's the perfect rifle at a reasonable price.

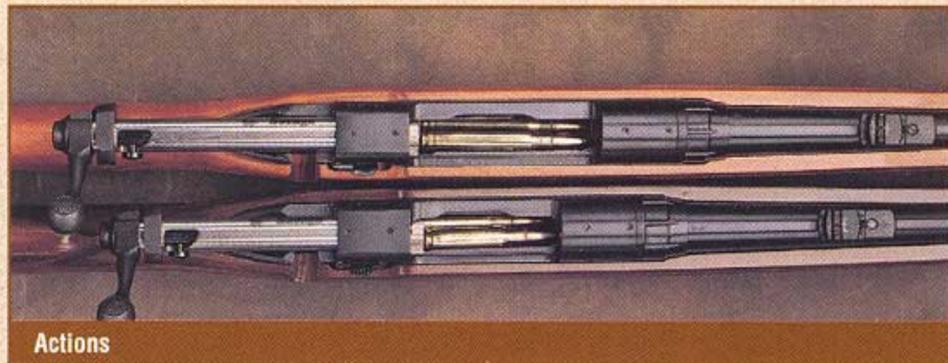

# STEVENS®

*The Definition of Value*

**NEW** Stevens Model 200 – Long Action  
**NEW** Stevens Model 200 – Short Action

*Reliability,  
accuracy and  
value*

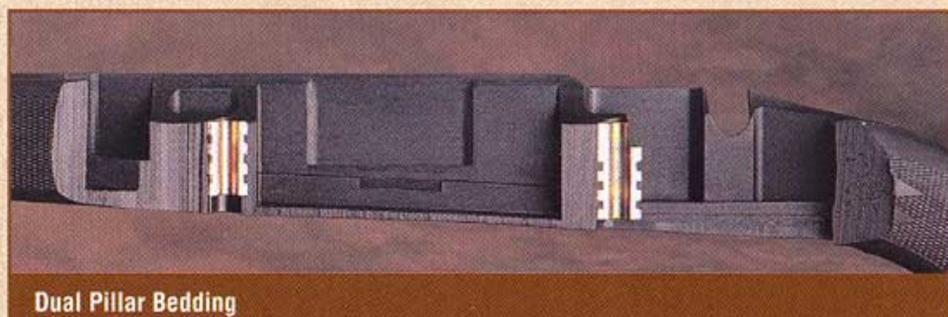

**Actions**

**SHORT AND LONG ACTIONS:** Stevens offers rifles in short and long actions. The short actions are almost a full inch shorter and provide a lighter more compact action for all of today's shorter cartridges. The long actions are designed to handle cartridges through the .300 Win Mag.

**Laser-Etched Bolts**

A custom touch, all Stevens rifles feature laser engraved bolts.

**Dual Pillar Bedding**

Pillar Bedding is used to enhance accuracy by providing maximum stability for the action. "Dual Pillar" bedding is accomplished by permanently embedding two steel pillars in the stock. Front and rear action screws are inserted through the two pillar sleeves into the receiver to provide steel-to-steel contact points.

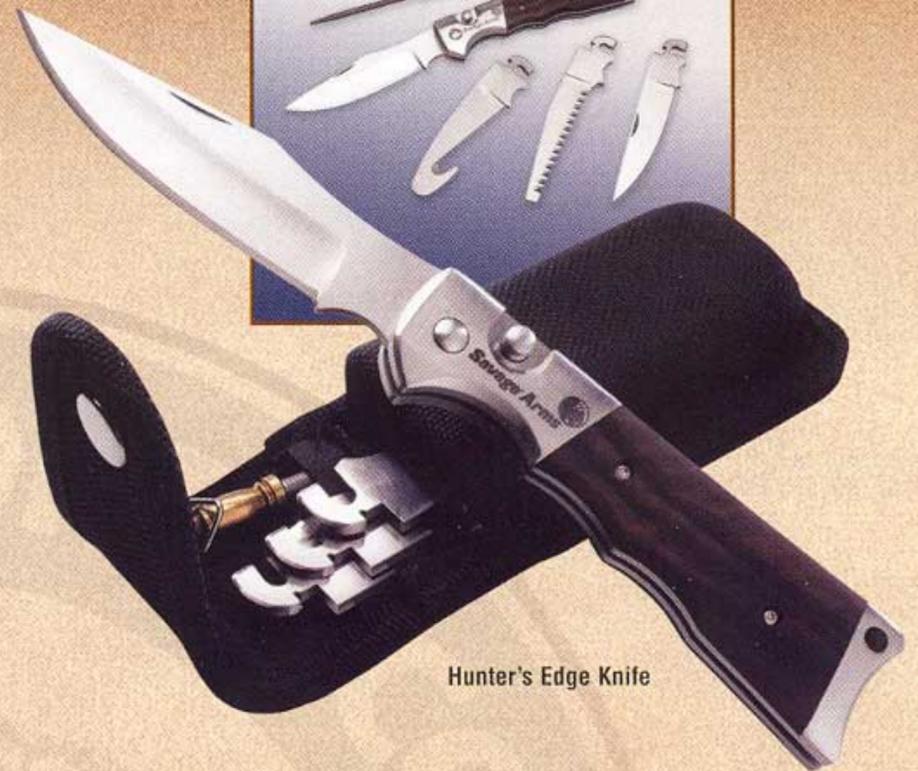

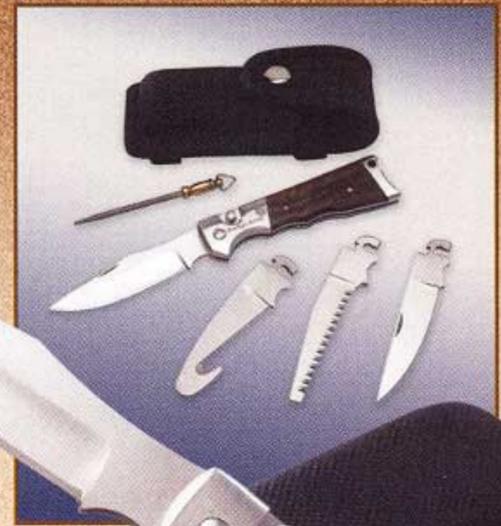

# Order Savage Merchandise Directly Online!

Now you can order logo merchandise at [www.savagearms.com](http://www.savagearms.com)! Visit the new Savage online store, for hats and more, along with exclusive, online only products. New items are being added everyday. There's the signature Savage Arms cap with embroidered Indian Head logo and "The Definition of Accuracy" on the back, along with many others. All hats are made in the USA and feature a fabric adjustment strap with brass buckle.

The new Savage Arms knife, the Hunter's Edge, is a rugged, reliable, lockback knife with exchangeable blades. Four knives in one, the Hunter's Edge features a clip blade, file/utility blade, saw blade, and guthook blade, all in a compact sheath for easy transport. There's also a sharpening tool for superior sharpness at all times. The Hunter's Edge, by Savage Arms, is a functional tool made for hunters by hunters with the quality you expect from Savage, at a reasonable price.
