John Taliaferro Thompson

Thompson Submachine Gun

General John T. Thompson, a graduate of West Point, began his research in 1915 for an automatic weapon to supply the American military. World War I was dragging on and casualties were mounting. Having served in the U.S. Army's ordnance supplies and logistics, General Thompson understood that greater firepower was needed to end the war.

Thompson was driven to create a lightweight, fully automatic firearm that would be effective against the contemporary machine gun. His idea was "a one-man, hand held machine gun. A trench broom!" The first shipment of Thompson prototypes arrived on the dock in New York for shipment to Europe on November 11, 1918 the day that the War ended.

In 1919, Thompson directed Auto Ordnance to modify the gun for nonmilitary use. The gun, classified a "submachine gun" to denote a small, hand-held, fully automatic firearm chambered for pistol ammunition, was officially named the "Thompson submachine gun" to honor the man most responsible for its creation.

With military and police sales low, Auto Ordnance sold its submachine guns through every legal outlet it could. A Thompson submachine gun could be purchased either by mail order, or from the local hardware or sporting goods store.

Dillinger's Choice

While Auto Ordnance was selling the Thompson submachine gun in the open market in the '20s, Gen. Thompson was uncomfortably aware of what the guns could do if in the wrong hands. To his distress, the submachine gun turned out to be the weapon chosen by gangsters.

The "Tommy Gun", literally, made the '20s roar.

Possessing tremendous firepower, the Thompson submachine gun was an effective weapon. The Thompson was used by gangsters, such as John Dillinger, Al Capone and Baby Face Nelson.

Courtesy William J. Helmer / Goddard collection

Even while under surveillance, a smiling John Dillinger takes time to throw a party and pose with his famous wooden pistol, and Sheriff Holley's Thompson.

"The Modern Army": mechanized U.S. Army cavalrymen with their (overstamped) Model of 1928 Thompsons, 1938.

The U.S. Coast Guard issued Thompsons to patrol boats along the eastern seaboard. In 1928, Auto Ordnance made a new Navy model to be used by Marines on Naval gunboats.

World War II began, and the Army recognized the need for the submachine gun. The Thompson, simplified and more durable with the butt stock removed and a 30 shot stick, became the constant companion of American soldiers. Story, after story, tells how it was the fire of the Thompson submachine gun that protected the villages, saved the troops and won the battles in Europe and the Pacific.

Historical Research

Kahr Arms is proud to preserve the legacy of Auto-Ordnance Corporation, the original maker of the famous Thompson submachine gun. To assure the historical accuracy of the Auto-Ordnance design, Kahr researched the original engineering drawings. Hundreds of U.S. military microfiche and hand drawings of the Thompson models dating back to 1919 were examined.

Thompson Submachine Gun - A Piece of American History

The Thompson submachine gun is a historical firearm. Each one is the union of original design, quality materials and fine workmanship. An American legacy preserved.

Carried by the gangsters in the '20s.

Trusted by the troops during World War II.

Find out how it feels to hold a Thompson submachine gun!

Put a Piece of American History in Your Hands.

Trusted Companion for Troops

It was, also, in the mid '20s that the Thompson submachine gun was adopted for service by an official military branch of the govern-

ment. The U.S. Coast Guard issued Thompsons to patrol boats along the eastern seaboard. In 1928, Auto Ordnance made a new Navy model to be used by Marines on Naval gunboats.

Thompson Long Guns

COLLECTIBLE • LEGAL TO OWN† • SHIPPED WITH (1) 30 ROUND REFURBISHED, SURPLUS MAGAZINE (While they last)

† Tommy Guns are banned in CA and CT.

New and improved features!!

Thompson 1927A-1 / 1927A-1C (Lightweight)

MODEL: T1 / T5

All the classic details of the time honored original are reproduced in today's semi-auto Thompson. The frame and receiver are machined from solid steel or aluminum. The wood is genuine American walnut. This .45 caliber carbine features a 16 1/2" finned barrel, compensator and is available with a blued steel receiver or a lighter weight aluminum receiver. This configuration is our most popular.

* Shown with optional 50 rd. drum magazine. Available in both steel & aluminum receivers.

Thompson M1/M1-C (Lightweight)

MODEL: TM1 / TM1C

Here is a .45 caliber semi-automatic version of the world's first and most famous military rifle. The Thompson M1 was used victoriously in battles throughout the world, inscribing its place for all times as a legend among military firearms. We offer the same attention to craftsmanship today that made the original so highly regarded. The look and feel are authentic, right down to the side bolt action. The frame and receiver are milled from solid steel or aluminum, the wood is genuine American walnut and the overall finish is a blued steel or black anodized aluminum.

**Will not accept drum magazines. Available in both steel and aluminum receivers.

Thompson 1927A-1 "Commando"

MODEL: T1-C

The semi-auto (Commando), features parkerized metal and all wood stock, rear grip and horizontal forend in a durable black finish. With the same hard hitting .45 caliber, features and quality of our 1927 A1 deluxe model, it comes complete with a 30 round magazine and black nylon sling.

***Accepts both Stick and Drum Magazines

Thompson SBR

MODEL: M1SB

This is a stunning reproduction of the Thompson military model made famous during WWII. The operation is semi-auto, fires from a closed bolt and has a 10.5" long barrel. The frame and receiver are machined from solid steel and the stock is genuine American walnut. The finish is blued steel.

**Semi-Auto Operation
10.5" Barrel**

**Will not accept drum magazines

Thompson Short Barrel Rifles must be shipped to a Class 2 manufacturer or Class 3 dealer directly from our factory in Worcester, MA. The transfer paperwork between Kahr Arms/Auto-Ordnance and the dealer, known as a Form 3, must be completed and approved by the NFA branch, Bureau of Alcohol, Tobacco and Firearms (BATF) before the Thompson SBR can be shipped to the dealer. The customer needs to pay a \$200 transfer fee directly to the BATF. Your local dealer can assist you in this process.

Thompson 1911 Pistols

Thompson Custom 1911 Models

The Thompson Custom 1911 frames are machined on high precision computerized machinery from a 420 stainless steel casting and a 7075 solid aluminum block. The slide is machined from a solid stainless steel billet utilizing specialized tooling to reduce set-up and refixturing. The combination of high precision equipment and fewer set-ups result in a higher quality and more consistent final product at a lower price.

The slide and frame are finished in an attractive matte finish, markings are laser-engraved including the distinctive Thompson bullet logo on the slide. Front and rear sights are black with serrations and are dovetailed into the slide. The ejection port is flared and the slide has front and rear serrations machined at a slight angle. The mainspring housing is checkered and the frontstrap is machine checkered at 20 lines per inch. Additional features include an adjustable trigger, combat hammer, stainless steel, full-length recoil guide rod, extended beavertail grip safety; extended magazine release; checkered laminate grips with a Thompson bullet logo inlay and a checkered slide stop lever.

ACCESSORIES

CASES

Violin Case

Pamper your classic Thompson with this impressive carry case. Made of vinyl coated presswood and lined completely with a high quality dense foam, it will capture the attention (and envy) of all who see it. With an overall length of 37", this case will accommodate one gun, one drum and extra stick magazines.

Gold hardware with keyed locks.
Dimensions: 43"L x 15.5"W x 3.75"D.

FBI Replica Thompson Hardcase

Our top of the line gun case is a modified replica of the famous FBI Hard Case. Constructed of selected hardwoods with a black leather-look covering, it is fully lined with a fine velour-type material and has an overall length of 2'9". Custom tailored compartments will accommodate the Thompson long guns (with detached buttstock)* 10 Rd. or 50 Rd. drum and extra stick magazines.

Dimensions: 33"L x 6.25"W x 10"D. Black exterior with blue velvet interior. Gold hardware with keyed locks.

* 1927A-1 Buttstock must be removed for rifle to fit properly in case.

"Tommy Gun" Padded Carry-All Rifle Case

A black nylon carrying case with a single drum magazine pouch and triple stick magazine pouches. This case includes a reinforced handle and sling with shoulder pad.

Gold embroidered Thompson logo.

Thompson Rifle Case

This is a high quality polymer molded scoped rifle case with dense foam cutouts. The cutouts are designed to securely hold and protect your Thompson rifle, drum and stick magazines. The case can be easily locked with padlocks by utilizing two openings in the handle area. Available in black only.

Dimensions: 54" x 14.5" x 4.5"

MAGAZINES

10 round drum and 50 round drum magazines*

A Thompson is just not a Thompson without the most famous accessory item ever - the Drum Magazine. The impressive look and feel of the Drum Magazines are unsurpassable. Each authentic drum is entirely U.S. manufactured to be as close to the original specifications as possible. The 10 round and 50 round drum magazines each have a diameter of 6 3/4". Each drum is shipped with a drum installation tool (Third hand) and a Thompson manual.

* Some states prohibit the sale of 50 round drum magazines; check your local laws before purchasing.

30 Round Stick Magazine

The 30 round magazines are reconditioned surplus magazines. It may not fit your gun perfectly when received. It has been prepared at our factory to fit as closely as possible. Since there are minor variances in the magazine locking position of each rifle an exact factory fit cannot always be achieved and minor fitting may be required by a competent gunsmith.

Drum Magazine Pouch

Specially designed to hold a single Thompson 10 or 50 round drum magazine. Made of a tan "surplus" canvas material with a 5" belt loop sewn on the back for belt carry. The shoulder strap is adjustable. The front flap closes with a metal clasp and post.
