BERETTA

500 YEARS. ONE PASSION.

# THE WORLD OF BERETTA

Welcome to the world of Beretta, a world of passion and authenticity. Beretta was born in 1526, during the height of the Italian Renaissance. Our oldest surviving company document shows how the Republic of Venice trusted us to build gun barrels for the defense of that magnificent city. We were making history then. . . as a matter of fact, we have been making history for the last half-millennium by serving our clients with enthusiasm and integrity, and by always being innovative without losing sight of our Italian heritage.

Since its inception, our company has been owned and operated by the Beretta family, with a continuity that makes us unique in history. Today, we have the same commitment to quality and attention to detail as we did in the beginning. You will find it translated to our line of sport clothing and accessories. From the durability of the fabric to the cut of the garment, our apparel is designed to meet the challenges of nature and the needs of the shooter.

Cav. Ugo Gussalli Beretta  
President, Beretta USA Corp.

## Limited Edition Leather Bound: *The World of Beretta*

The ultimate guide to Beretta firearms and the company's nearly 500-year history of gunmaking is richly bound in leather and individually signed and numbered by Cav. Ugo Gussalli Beretta.

R.L. Wilson's lavish history is illustrated. A celebration of the unique world of fine guns; 352 gilded pages with 225 color and 180 B&W illustrations. Size is 11" x 9". Published in the U.S.A.

THE UPLAND  
SPORTSMAN

*The beating of wings. The beating of your heart. The expectant and eager look in the eyes of your English springer spaniel seemingly frozen in time. It is a scene you've both played out many times before. Yet it feels as fresh and exhilarating as the first time you swung your shotgun toward the skies. No matter the day's result, this moment is reward enough. Here, success is measured in the sheer joy of watching your dog work, in the beauty of cradling a finely crafted shotgun, and in finding the opportunities to test your mettle against nature.*

*These moments are what bring you back season after season. A respect for nature, harmony, and heritage are the hallmarks of the Beretta Upland Sportsman. Hallmarks that are reflected in Beretta's superb collection of fine shotguns perfectly suited for their purpose in the field, superior upland apparel designed to meet the challenges of nature, and accessories that perfectly complement your passion and pursuit.*

B.

### A. Blaze Upland Cordura® Coat

When you’re busting through the thorniest briar patches, there’s nothing like Cordura® nylon. It’s highly abrasion resistant and very little sticks to it! A front- or back-loading bloodproof game bag opens fully with a zipper for easy cleaning — you can even hose it out. A zipper back ventilation port keeps you cool and dry on warm days. Gun patches on either side for easy shell hand access. Large shell pockets with tabs can be secured open or closed. Beretta’s removable “backpack” braces allow you to slip the coat off your shoulders and carry it hands-free. Washable. Color: saddle tan/blaze. Imported.

### Custom-Made, Slim Receiver, Limited Edition, Extra-Luxury Shotgun: 687 EELL Diamond Pigeon Combo

In Italian, EL stands for extra lusso (extra luxury). The EELL designation takes that quality to an even higher level. This is an over-under with the feel and allure of a classic game gun for the discriminating sportsman who appreciates all the finer points of a well-made shotgun. The patented locking system creates a particularly slim receiver, making it one of the most elegant, finely balanced and responsive shotguns in the world. The extensive hand-chased engraving, combined with the highly figured oil-finished walnut, makes a classic statement of your good taste.

\$278/\$300

*I* ditarod mushers, ocean racers, and hunters, who've spent enough time in the field to compare, prefer Waxwear over British oiled cotton. Used by the military as a poncho by day and a ground-water barrier by night, Beretta's field-proven, military-spec Waxwear fabric is the difference between comfort and discomfort.

This high-tear strength, waterproof 80% cotton/20% nylon wax-finished fabric performs like its very distant British cousin: oiled cotton. But with some very significant differences — no oily finish and no oily smell. The British version uses oil and fillers plus wax, which transfers to your hands and everything else it touches. Beretta's Waxwear is a totally different process that begins with a super dried fabric. Monocrystalline paraffin wax is super heated and applied under a patented process that totally absorbs the wax in the dried cloth. There is no excess. Nothing to rub off on your hands or drip onto the closet floor. Add Beretta's field-proven functional features and Waxwear takes traditional hunt gear to a new level. Hand-wash cold. Line dry. Do not iron or dry clean. Imported.

### F. Waxwear Field Chaps

Constructed of 10-oz. cotton canvas, overlaid with Waxwear. Available in two leg width sizes, I (S/M) and II (L and up). Snaps regulate the length. Color: spice. Imported.

CU34250387

Sizes I (S/M)/II (L-up)

# GUN 6 SERIES

## Beretta Breakthrough Development

It all started with the development of a unique shell fabric blend that couldn't be constructed; but here it is! And the only place in the world you can find it is at Beretta. We've finally blended the yarn that defines toughness and durability . . . Cordura® nylon with that standard for comfort and breathability. . . cotton. Alchemy, but we accomplished it.

BERETTA  
**BREAK  
THROUGH**

### A. Gun 6 Jacket

That's just the beginning. Look at all of these additional functional features:

- GORE-TEX® waterproof breathable seam-sealed construction

*Explorer and journalist Richard Wiese leads his horse through deep snow in the Yampa River Valley of Colorado's Rocky Mountains wearing a Beretta Gun 6 Jacket. In 2002, Wiese became the youngest president in The Explorers Club's hundred-year history. He currently hosts a nationally syndicated television show, "Exploration with Richard Wiese".*

*"We were tracking elk on horseback and some of the ridges were exceptionally windy with snowdrifts over 8 feet deep. The horse I had been riding was a bit skittish (understandably) when he stepped into drifts over his head. To calm the horse down, I led him through some of the tougher spots," says Wiese.*

*"It was a blustery day in which I needed a rugged jacket that could handle the cold and wind. The Gun 6 jacket has a tough Gore-Tex exterior that not only handled the conditions, but also was able to survive trees and brush that would rip most jackets. I was appreciative of the large easy access pockets, too. I could not afford to drop equipment in snow that deep."*

# King Ranch Story

The Old West lives today. King Ranch, the birthplace of America's ranching industry — a trade that sparked a new way of life and contributed to the timeless romance of the cowboy — is a coveted destination for hunting and other outdoor-style adventures. The ranch's great expanse of 825,000 acres is an unspoiled habitat for a vast amount of native game as well as exotics.

Founded by Richard King in 1853, the historic Texas ranch's many accomplishments include the breeding of the Santa Gertrudis, the first American breed of cattle, as well as the first registered American Quarter Horse.

Inspired by this legendary ranch, Beretta has created a series of limited-edition guns featuring hand-chased engraving in extraordinary detail by Beretta's Master Engravers. Look for the "Running W" checkering pattern on stocks and fore-ends, rope-bordered logo engravings, and hinge pin engraving inspired by the King Ranch living room ceiling decorations.

**A.-B. Briar Vest & Pant for Top Field Performance**

Thick brush and briars seem to go hand in hand with our favorite hunting grounds. Beretta's breakthrough cotton/Cordura® field blend finally solves that problem. Designed for top performance in the field, this fabric combines the high abrasion resistance of light-weight Cordura® with the durability and softness of garment-washed cotton canvas. Briars and brush slide right by unnoticed. The vest features ambidextrous shooting patches that accommodate a removable recoil pad, a drop-down one-piece nylon game pocket, deep easy-entry front pockets with shell loops, and security pockets. The pants are cut from the same superior cloth and designed with complete field functionality. Sewn-down front pockets, hidden-button flap pockets, and a Cordura® facing keep tangled underbrush at bay. Washable. Colors: 75)green, 82)tan. Made in Italy.

**D. Beretta Signature Polo**

The Trident logo on the chest signifies this is not just any polo shirt, but one with Beretta's legendary quality in every detail. We began with pure cotton pique because its hexagonal weave tends to wick moisture to the surface more rapidly. Then we reinforced the side vents for durability and tailored it with the classic longer tennis tail to ensure that this polo is as fit for action as it is for fashion. Ribbed cuffs and collar trimmed with contrasting stripe. Washable. Colors: 58)navy, 73)green. Made in Italy.

E.

**E. Beretta Red Line Jean**

Jeans originated in Genoa, Italy, in the 17th century as workpants for the navy. From this Italian tradition comes our newest jean and the last pair you'll wear forever. We took the top 10 best-selling jeans and the best technicians, then put them both together to create the best fitting and finished jean on the market. Featuring the very latest in denim construction, our Red Line Jeans are made of substantial 14-ounce denim for durability, woven in a 3x1 left-hand twill which is difficult to produce but results in superior softness, and dipped nine times in indigo for a rich, lasting color. Then we trimmed the jean in Beretta silver hardware and washed it down for exceptional comfort and color. Washable. Color: indigo. Made in the U.S.A.

Gerald McRaney —  
host of the TV series  
“The World of Beretta.”

## THE WORLD OF BERETTA TV ON OLN

The widely acclaimed “World of Beretta” television series showcases big game and wingshooting adventure from across the globe each fall on OLN. Host Gerald McRaney has been a major network star for nearly 30 years in such long-running hits as “Simon &

Simon,” “Major Dad,” “The Promised Land,” and HBO’s Emmy winning “Deadwood.”

McRaney also has the distinction of being the last gunfighter to square off against Matt Dillon in the final episode of “Gunsmoke,” one of the longest-running television series in history. “That was a childhood fantasy come true,” says McRaney.

He was a hunter long before becoming an actor, however, and is one of hunting’s most outspoken advocates in the Hollywood community and was awarded the 2005 “Man of the Year” by the Hollywood Celebrity Shoot for his ongoing efforts to promote the shooting sports.

He has traveled from the plains of Africa to stalk leopard and buffalo to the plains of western Alberta to hunt Canada geese and ducks with “The

World of Beretta.” “The best television ‘job’ that I’ve ever had” as he described it to “Access Hollywood” in a 2005 interview.

## A. “Mac Hat” Fedora

The trademark of Beretta TV host Gerald “Mac” McRaney, this wool felt fedora is lightweight, water repellent and packable. Just roll or scrunch it up and stuff it into your pocket or gear bag — it springs back to shape every time. Aussie-style, pure wool fedora is made for us by the Bollman Hat Company, America’s oldest. Trimmed with a genuine leather and feather band. Made in the U.S.A.

## B. The Best of The World of Beretta DVD

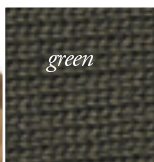

The World of Beretta celebrates the spirit and adventure that is the hallmark of the hunter’s soul. Join television star Gerald McRaney as he takes you inside the remarkable world of Beretta. From the mountains to the marshes, the series explores the many subtle nuances that have made hunting a pastime for the ages. Always entertaining and ever-informative, The World of Beretta takes a significant step

past the rest of the outdoor genre to deliver a series worth watching time and time again. Approximately 60 minutes.

## THE FABRICS OF DUCA VISCONTI DI MODRONE

*There are few mills left in the world that weave the finest fus-tian fabrics: pure cotton cor-duroy and moleskin. Founded in 1830 in Milan, at a time when silk and linen ruled the Italian fabric industry, Duca Visconti di Modrone began weaving cotton. Not just any cotton. Their quality became legendary and the Duca Visconti di Modrone label became synonymous with luxurious clothing. Their looms were thought to produce the most beautiful velvet in the world. Today, that tradition of excellence continues as this historic Italian mill produces the highest quality moleskin and corduroy found anywhere in the world.*

A.

yellow

tobacco

## MOLESKIN: THE RUGGED, SOFT SPORTING FABRIC

*Pure cotton moleskin, with its lofty nap and durable dense weave, has been a favorite of sports-men since the 19th century. Comfortable, long-lasting and with a denseness that wards off the chill winds of the hunting fields, this ruggedly soft fabric remains popular today, yet increasingly hard to find in its authentic form. The key to great moleskin is a combination of the best quality cotton and a tight, dense weave. The resulting raised nap is sheared and brushed to achieve the soft, felt hand for which moleskin is renown.*

**A. Tibuurzi Moleskin Jacket**

Dashing and stylish, this luxuriously soft moleskin jacket is fit for royalty, but was inspired by a 19th-century Italian desperado with a flair for fashion. Known as the Italian Robin Hood, Domenic Tiburzi was a beloved bandit with an uncanny ability to escape the law. Legend has it, this was his jacket of choice. No wonder, with Beretta's signature removable braces, four zippered security pockets, and nylon-lined sleeves for easy on-off, it is perfectly suited for an "active" lifestyle. Dry clean. Colors: 20)yellow, 83)tobacco. Made in Italy.

**A. English Wool Tweed Coat with Button-Out Insulated Lining**

It's a shame somebody hadn't done this before: combine a soft, unconstructed wool jacket with an insulated liner for all-season wear. But Beretta has and you won't find anything else like it. The tweed is English wool at its softest, but everything else about this coat (Jacket or coat? You decide.) harkens back to all things Scottish. When the winds blow and the air turns chill, the button-out vest insulated with ultrathin Thermore® and the button-up collar will keep you plenty warm. In a nod to modernity, the vest has a special pocket for your cell phone. The bi-swing back, expandable front bellows pockets, wonderfully supple leather elbow patches, and a slew of pockets inside and out make this the most functional and comfortable tweed you'll ever own. Wool blend. Dry clean. Made in Italy.

C.

**C. Viyella Shirt**

A classic Viyella shirt is unassuming at first glance, but its legendary quality, durability and comfort are anything but. Viyella fabric is a luxurious blend of 80% long staple Pima cotton and 20% merino wool, made exclusively by William Hollins & Company Ltd., world famous for superb British textile craftsmanship since 1784. Cotton gives this unique fabric a light, soft, comfortable hand, while the wool gives it a touch of warmth. Dry clean. Color: buff with brown, sage and burnt orange plaid. Imported.

*LU27791425 Sizes M-XXL \$150*

**D. The PB Rugby Polo**

The personal monogram of Pietro Beretta, patriarch of the family business in the first half of the 20th century, is reserved for a few special places: the entranceway to the Beretta villa in Gardone Val Trompia and on Beretta's Premium Guns. Our classic rugby polo shirt is so well made, we thought it deserved a place of honor there, too. Designed after Franco Gussalli Beretta's personal rugby shirt, the PB Rugby Polo is constructed of premium cotton pique in a hexagonal weave. The construction helps this handsome shirt's fabric wick moisture to the surface rapidly, allowing you to keep cool in the heat of battle. The traditional small woven collar is designed to reduce tear during the rough and tumble of a scrum. Beretta's Trident logo embroidered on the upper back. Washable. Color: blue. Imported.

*Our Guarantee*

If, for any reason, you are not completely satisfied with your purchase, we will refund your money or exchange your product.\*

**For Best Fit . . . Please use the following charts to determine your size when ordering.**

**Neck:** Measure a shirt collar that fits you well. Lay collar flat. Measure from center of button to far end of buttonhole.

**Arm (Sleeve Length):** With arm relaxed at side and slightly bent, measure from center back neck, over point of shoulder, down the outside of the arm to the wrist.

**Chest/Bust:** For chest, measure just under arms and across shoulder blades holding tape firm and level. For bust, measure at the fullest point of the bust.

**Waist:** Measure around your waist where you normally wear trousers.

**Hips:** Measure around the fullest point of seat while standing.

**Inseam:** Measure similar pants that fit you well. Lay them flat, with the front and back creased smooth. Measure from the crotch to the bottom of the leg hem along the inseam.

## THE WATERFOWLER

*Up before dawn on a cold and damp November morning. Coffee is brewing, your gear is carefully packed, and your retriever is waiting anxiously to do what he was born to do. As you head for the waiting shore, it seems a moment for which you, too, were born. Crouched in a blind with your dog quivering against your leg. The thunder of wings above. The hope of the day ahead. Then that one heart-stopping, defining moment: the shot, the splash, the retrieve.*

*These are the slices of time that stir the soul, that define the American Waterfowler's passion for the pursuit of the wild places. It is a passion backed by the confidence that your Beretta shotgun and gear are absolutely up to this specific challenge — no matter what the elements throw at you. That's a confidence, backed by 500 years of tradition and technological innovation, you can count on with every zip of the jacket or pull of the trigger.*

**Xtrema2**

**BERETTA  
BREAK  
THROUGH**

**The Lowest Recoil of ANY Gun Ever Made!**

In 2002, Beretta introduced the original Xtrema. This gun quickly garnered *Field & Stream's* "Best Gun of the Year Award," *Guns & Ammo's* "Editor's Awards for Gun of the Year," and *American Rifleman's* "Golden Bullseye Award." In the relentless pursuit of excellence, our engineers have once again set the benchmark for a "do-it-all" shotgun in the form of the new Xtrema2 — *Shooting Illustrated's* "Shotgun of the Year." This superb autoloading shotgun was designed and built to reliably function 2¾-inch, 1-ounce loads through brutal 3¼-inch magnum loads — interchangeably if you so desire. The Xtrema2 has more recoil reduction features than any other shotgun on the planet!

### A. Shotgun Swiftach® Sling Kit

A sling is mighty handy when you're slogging out to the blind with a load of decoys. Our ambidextrous Swiftach® Sling requires no drilling. Simply attach the front loop to the magazine tube cap and the gun's butt into the molded stock cap at the rear.

The anti-skid stock cap keeps your gun clean when you stand it up in the boat or the blind. Articulated sling conforms to either shoulder for a comfortable carry on the longest trudge. Made in the U.S.A.

### B. Waterfowl Camo Jacket

The jacket only Beretta could make. Designed to meet the specific needs of the waterfowler, you won't find this fully loaded, super lightweight jacket anywhere else. Constructed of waterproof and breathable MAX-4® HD poly fabric, the jacket has been antimicrobial finished for scent removal and completely seam sealed. Every seasoned hunter will appreciate the body warmed duck call pockets positioned against the body to protect against freezing and the double expandable drop-down seat. Gusseted zip neck closure adjustments let you put on lots of layers underneath for cold weather hunting. Insulated with Beretta body protection layer and lined with bloodproof nylon, this is a jacket for all seasons. Washable. Color: MAX-4® camo. Imported.

**D-F. WATERPROOF XTREMA GEAR**

Built to take what nature dishes up, Xtrema Gear bags are designed to be the best field gear available. Sealed on the outside to keep the insides dry, the brushed, 800-denier polyester fabric is coated with polyurethane and RF welded together to be tough, quiet, and waterproof. Unique extended top with full-width zippers allow for easy access for the largest of hands. Designed to be the best field bags on the planet today, every pocket, every strap is there for a purpose. Every zipper is sealed, not sewn, with a stormproof urethane coating. The cloth is soft and quiet in the field and will not get stiff and brittle like vinyl. Simply hose down to clean.

**D. Xtrema Gear Waterproof Field Bag**

The perfect day bag with plenty of room for a few boxes of shells or dog training gear. The bottom snaps together in the middle to reduce the bulk and size, making it ideal for a bit of a lunch and a field guide for an afternoon of birding or just walking the fields between seasons. Exterior pockets for game calls, shells, maps, and personal extras. 6" x 14" x 12". Color: Max-4 camo. Imported.

**Gun Sock Prevents Corrosion and Rust**

The first gun sock designed for the transport and storage of wet firearms from the field. Unlike silicone-based gun socks, the Beretta VCI (Vapor Corrosion Inhibitor) gun sock does not trap moisture. Instead it uses VCI technology to form a protective chemical barrier that stops rust and corrosion from occurring. This technology works so well, the sock is perfect for long-term storage. Sock is made of soft spun yarns that will not abrade wood or metal finishes. Additional VCI for recharging the gun sock is included.

# BERETTA

500 YEARS. ONE PASSION.

## THE VICTORY SHOOTER

*The scorecard, the moist palms, and the lineup of like-minded competitors might indicate otherwise. But as the clays fly across your line of vision, you stand alone, competing against no one but yourself. Every inch of your being is focused, balanced, alert, working in unison. There's no denying you are here to win, to stand proudly on the podium. But more than anything else, you are here to perform unfalteringly. To prove you've shot your very best.*

*To compete successfully, the Victory Shooter requires dependable performance. Not just from themselves, but from their shotgun and the specialized apparel and accessories that work together to give them a competitive advantage. Designed for maximum performance in any event, Beretta's competition guns and clothing are the epitome of the craft, a testament to optimum control and reliability — as gold medal winners worldwide will attest.*

A.

**A. Victory Fleece Shooting Jacket**

A jacket that satisfies the needs of the true sportsman. Constructed of warm, comfortable, non-pilling fleece with nylon taffeta-lined sleeves to give your arms a full range of movement. Nylon taslan shooting patches protect wear points. Adjustable draw cords at the bottom seal out drafts. 100% polyester filament fleece. Washable. Color: victory loden. Imported.

*Vince Hancock, 2005 World Champion, with his out-of-the-box Beretta DT10 Trident.*

**Sixteen-Year-Old Shooting Star  
Vince Hancock World Champ**

*Against formidable competition, the U.S.A.'s Vince Hancock won the 2005 World Shotgun Championship in Lonato, Italy. Using a Beretta DT10, Hancock shot one more skeet target than world champion Ennio Falco to become the youngest shooter ever to claim the title. From Eatonton, Georgia, Hancock has made a name for himself in the sport at an early age. He has already notched wins in international skeet at Olympic selection matches (the youngest ever to do so) and set a world record at the 2005 Korea World Cup to ensure the U.S.A. a place at the 2008 Olympics. Hancock, who has been shooting since the age of nine and is coached by his father, holds both the world record and junior world record in men's skeet.*

**Our Top-of-the-Line  
Competition Shotgun —**

**DT10  
Trident L Sporting**

Outside of our premium guns, the DT10 is the top of the Beretta line — a shotgun that's the ultimate in competitive arms. For the sporting clays, the DT10 L Sporting is the shotgun of choice. Like all Beretta DT10s, it features an ergonomic top lever and a detachable trigger assembly that can be removed from the frame without tools for cleaning or maintenance. This masterpiece also features a modified cross-bolt locking system with superior strength.

**TEAM BERETTA**

One of America's fastest growing sports, sporting clays require nerves of steel, exceptional powers of concentration, and split second judgment. For some it is a recreational activity; for others, like the members of Team Beretta, it is the ultimate competitive test. The best of the best, they travel the country and the world in pursuit of sporting clay's toughest competitions—the National Championship, the U.S. Open, and the ultra challenging FITASC games. Team Beretta members typically shoot from 3,000-5,000 registered targets a year with their Beretta shotguns and compete in up to 50 annual events in pursuit of their sport's top honors.

Team Beretta in front of the Beretta mobile showroom. From left to right: Bruce Ney(DE) — DT10, Gregg Wolf(MN) — 687EELL, Diane Sorantino(NJ) — Teknys, Will Fennel(SC) — DT10, Scott Robertson(TX) — Teknys, Dan Carlisle(TX) — DT10, Travis Mears(TX) DT10 Sporter.

Not present: Casey Atkinson(GA) — DT10, Joe Carey(NJ) — AL391, Nick Gamel(MO) — DT10 Sporter.

Frames, shooter shaped; yellow, clear and smoke lenses; cleaning cloth and side shields

E.

Case has room for 6 pairs of lenses. You can order additional colors and shapes on our website: [shopberetta.com](http://shopberetta.com)

### E. Sport System Glasses

Superior individual fit, style, and protection for the shooter, sailor, or motorcyclist. Finally, a system of glasses to fit all your sporting needs. Featuring the finest polycarbonate lenses available and the highest quality ophthalmic components, these glasses allow you to custom fit them to your face and your sport. Frames have spring hinges, adjustable nose bridge (height and width), temple tips, and nose pads. The Sport System comes with Shooter lenses (for maximum protection on the range) in three colors: yellow, clear, and smoke (you can order additional colors and shapes on our website, [shopberetta.com](http://shopberetta.com)). The lenses meet both CE and ANSI standards for impact, UV, and IR protection. The molded, foam-lined case includes a pair of side shields, micro fleece cleaning cloth, and small screwdriver. Choose from three all-metal, aircraft aluminum frames: 100)antique gold, 101)matte black, or 102)gun metal grey. Imported.

## 1526 SPORTSWEAR

*The sheer beauty is in every luxurious detail. From the rich baroque spirals hand chiseled by Master Engravers to the extraordinary cut of cloth and harmonious stitching found in the world's finest Italian apparel. Here, there are no compromises; here, only the very best will do. Every shotgun is created of hand-selected wood, hand engraved and hand fitted. Every article of clothing is fashioned from only the finest fabric in impeccable Italian design.*

*The 1526 is the collection that defines Beretta. That represents living at its very best. Not only is this the collection that the Beretta family is most hands-on involved with, this is the lifestyle the Berettas themselves live.*

*This is their legacy; this is their passion. There is, quite simply, no finer example of Beretta's heritage of unflagging dedication to extraordinary performance and outstanding quality than in this collection, which is enveloped in the Italian sense of craftsmanship and style unrivaled worldwide.*

**A. Steel Fabric Quilted Coat**

Perhaps the most unique coat or vest you'll ever encounter. True, the fabric is woven with actual steel fibers, but it is the inimitable style of the channel-quilting and the look and feel of the metallic integrated cloth that pulls you in. Developed as a field fabric, the Cordura® and steel fiber blend's ripstop weave is guaranteed to perform against rips and abrasions. But the cloth is also amazingly lightweight, making it perfect for layering.

The coat is very warming with their ultrathin, breathable Thermore® insulation that creates a microclimate around your body to maintain your natural warmth. Fully lined with fleece-lined handwarmer pockets. Dry clean.

Color: beige. Made in Italy.

*SO10*  
**BERETTA'S ULTIMATE MASTERPEICE**

Handmade, Master Engraved, Gracefully Slim SO10 — The Ultimate Masterpiece

Seventy years after the first modern Beretta over-and-under (the S1 launched in 1933), a new true sidelock shotgun is born: the SO10 EELL over-and-under. It is the deserving successor of the famous Beretta SO series hunting and competition shotguns that have earned their reputation, on the Olympic podium and on the most exclusive hunts in the world. Known from Europe to America to Africa for being the most functional, elegant and exclusive over-and-unders in the world. Drawing from this very long experience, and under the dedicated guidance of the Beretta family, the most gifted designers and gunsmiths of the company have created the new SO10 EELL, a synthesis of aesthetic refinement, function and performance that place it at the peak of the world's prestigious over-and-under offerings.

**A. Red Paisley Wool Scarf**

Nothing warms a cold winter day like a long scarf. Especially one handsomely styled and crafted from pure Italian wool. Reversible with solid burnt orange backing. Dry clean. Approximately 70" x 10" with a short fringe. Made in Italy. *SF38022338* **\$150**

**B. Velvet Maramana Jacket**

Soft, luxurious Italian velvet with just a bit of stretch woven in for comfort gives this Tuscan-style jacket a sensual hand. Fleece-lined handwarmer pockets make the fully lined jacket just right for cool, fall days. Enjoy the distinctive Beretta touch with our trademark removable shoulder braces, interior zipped security pockets, fully lined rear game bag, and nylon-lined front bellows pockets. 98% cotton/2% Lycra. Dry clean. Color: khaki. Made in Italy.

**C. Pure Wool Ribbed Sweaters**

Beautifully tailored in pure, lightweight wool, this short sleeve mock turtleneck and four-button cardigan go together wonderfully as a set or on their own. Each sweater is ribbed and slightly fitted in the Italian style to give definition to the wearer. Soft and pleasingly warm, wool is naturally wrinkle resistant and long-wearing. Dry clean. Colors: 38)red, 80)tan, 75)green. Made in Italy.

**C.-F. African Wildlife Glass Paperweights**

Glass paperweights have their origin in mid-19th-century Italy. Today they are a highly collectible commodity. These modern, heavy glass paperweights are adorned with finely detailed pewter heads and tails of four of the Big Five game animals. Hefty enough to hold down a sheaf of documents in a stiff Saharan sirocco. About 3" x 5 1/2". Made in South Africa.

H.

**G. Wool Houndstooth Blazer**  
The rich, earthy colors and textures of the Italian countryside come to life in the handsome weave of this statement-making pure wool blazer. The checkered palette of greens, browns and lilac in this sporting blazer is countered by an abundance of leather details. The asymmetrical alignment of the leather pockets and shoulder patch add interest and intrigue. Finished with woven leather buttons and a leather placket. Fully lined. Dry clean. Made in Italy.  
*GD9A636082 Sizes 38-48 \$580*

### The Beretta Winery

Just to the south of Italy's Lake Iseo, the soft morainic hills of the Brescian territory slope gently down to the plain and the town of Brescia. This is Franciacorta, an historic land of abbeys and priorates. It is an enchanted realm of ancient remains, grand villas, castles, churches and convents set in a majestic landscape. Fertile soil along with a mild and favorable climate have made Franciacorta a seat of viniculture and winemaking since the Middle Ages at very least . . . more probably from the days of the Roman Empire. Here, in an impressive old country residence in Monticelli Brusati, is the designated seat of the Azienda Agricola "Lo Sparviere" belonging to the Gussalli-Beretta family.

In the centuries-old cellars of "Lo Sparviere," in ancient vaults of stone, the old ways of winemaking live on. Traditional, time-tested equipment and instruments dating to antiquity are still used by vintners with generations of experience to draw on. Yet, modern production and bottling techniques are not overlooked wherever they can enhance the overall quality of the wines. This singular approach to winemaking, which has evolved over the years, brings new life to very old wines, both still and sparkling, with remarkable richness, aroma and complexity.

A.

#### A. Wine Rest & Sommelier's Tool

Vino del Cacciatore from the centuries-old cellars of "Lo Sparviere" deserves to be transported to the dining table in style. This leather wine rest with brass snaps will do the job nicely. The stainless steel, dual spring sommelier's tool resides in the handle and will pull a dry cork without straining. Imported.

### Handmade Pewter

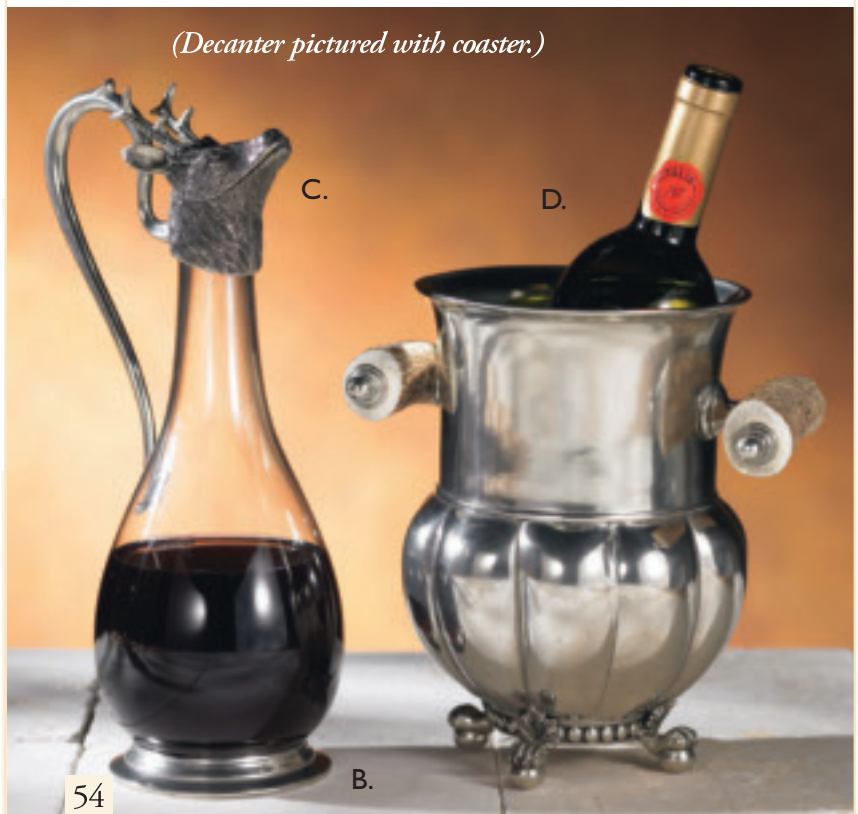

Centuries ago, pewter was reserved for special occasions at the tables of the wealthy. In the hands of master artisans, the quiet gleam of the metal could be fashioned into intricately detailed works of art. This proud tradition can still be found today. Beretta is pleased to present this collection of handmade pewter accessories — many of them adorned with naturally shed staghorn. Each is crafted of an alloy that is 95% tin, the optimum mix to keep the metal rigid for everyday use. We recommend cleaning all pewter pieces, including staghorn, with warm soapy water for best results.

#### B.-D. Pewter Wine Serving Set

You've spent time selecting the right wine to serve your guests. Make the presentation of your choice a special occasion, whether serving a chilled chardonnay or decanting a treasured red. Our 9" high pewter bucket with natural staghorn handles is just right for chilling white wine at the table. Showcase your red wine with this glass decanter adorned with a pewter handle and roe's head that opens for pouring. The all-pewter wine coaster serves as an elegant placeholder on the sideboard or table.

**E. Pewter Candleholder**

Bring the intimate glow of candlelight and the passion for sporting pursuits to your table. Intricately detailed pewter antlers on a sculpted acorn, pinecone and leaf base wrap majestically around the substantial glass hurricane pillar candleholder. Approx. 4"W x 9"H. Candles not included.

*VB131*

*\$225*

**F. Pewter & Staghorn English Mug**

With its striking 5" staghorn handle capped with a pewter tip, this English-style tankard is sure to be as much a conversation piece as it is a drinking mug. Approx. 5.5"H.

*VB100*

*\$65*

**G. Pewter & Staghorn Candelabra**

Candlesticks were among the earliest uses of pewter in castles and upper-class homes. This five-arm pewter candelabra adorned with staghorn in the base sets an elegant table for dinner. Approx. 15"W x 10"H.

*VB104*

*\$325*

**H. Pewter & Ceramic Bowl**

Filled with pinecones for the holiday or used as a centerpiece for the dining room table, this graceful serving bowl will command attention. Removable ceramic serving bowl trimmed with pewter sits on a pewter base of detailed pinecones, acorns and leaves from which the antlers regally rise. Bowl is 9.5" diameter; antler base is approx. 15"W x 10"H.

*VB130*

*\$250*

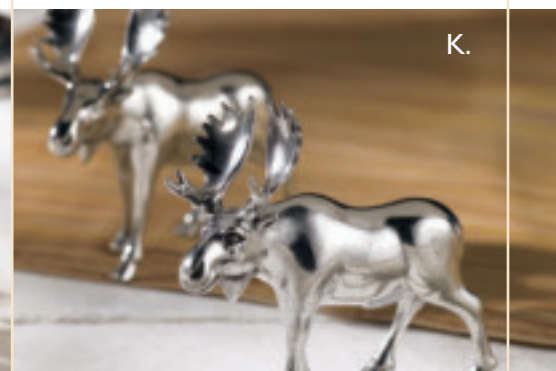

**I.-K. Pewter Wildlife Salt & Pepper Shakers**

Prized for centuries at the dinner table, pewter has a long tradition of being cast in the form of wildlife salt and pepper shakers. Intricately sculpted sets catch all the details of each species and stand at the ready to season your meal.

**B. Heirloom, Hand-Engraved Silver Money Clip**

Exquisite hand-finished engravings make Beretta's Premium Grade Guns the most unique and exclusive in the world. The sideplates of these magnificent firearms particularly lend themselves to the free artistic reign of the Master Engravers. We've captured all the elegance and beauty of the Beretta sideplate in this hand-engraved, sterling silver money clip. Made exclusively for Beretta by Italian silversmith Miracoli, whose handmade silver work is considered among the best in the world. This is a work of art you'll use and treasure for years. Comes in a black velvet drawstring pouch perfect for making an impressive presentation. About 3.5" long and 1" wide. Made in Italy.
