
VALKYRIOR 556 ROTARY GUN™

97% of the fun of a Mini-gun® at 10% the price.

- Six barrels, belt-fed – Basically a hand-cranked Mini-gun® in .223 caliber.
- Rate of fire – As fast as you can crank it.
- Includes a tripod, EOTech Holosight®, and one thousand links.
- Packed in a re-usable military style wooden crate.
- Only 10 available in the first run.

- 7.62 mm and .50 BMG versions are also in development.

X - PROJECTS

The Valkyrior 556™ is the first of our X-Projects. We continue to work on the development of other projects.

While not giving away any details, we can safely say that no one has ever offered anything like these toys to the general public.

Keep an eye on our website for further details!

Special note to our loyal customers:

We have discontinued our production of the Browning M1919-SA, the Browning M2-SA, and the M3A1 carbine to allow us to concentrate our energies on the development and production of the DeLisle, Valkyrior 556™, and X-Projects.

Because of our involvement with the war effort, our production of civilian firearms will be reduced. Order yours early !

US M3-A1 “GREASE GUN” .45 CAL SEMI-AUTO

***Introducing the
Fixed Stock Retrofit Service***

We can now retrofit a collapsible stock on to your older Clinton-ban welded buttstock.

Please Note: There are no new M3-A1 SA carbines available at the present time. Pending orders are still being filled, though.

Introducing the M3A1 Pistol

Limited production run.

Includes 8 inch barrel.

Comes with one 30 round magazine (where legal).

Available Winter 2005.

THE DELISLE COMMANDO CARBINE® .45 cal. Bolt-action, Silent Carbine

Designed to be a truly silent weapon, the DeLisle is considered by many to be the most effective firearm of its type ever produced.

With only 167 originally produced, the DeLisle is one of the rarest of the WWII firearms. Now, for the first time, collectors can own one.

Using original blueprints, our DeLisle is a dead-ringer for the original. Every detail has been painstakingly reproduced, to make a truly authentic collector's piece.

Also available with dummy suppressor, for non-Class III states.

Introducing the DeLisle 2000™

An updated version of the DeLisle Commando Carbine®.

Folding stock, pistol grip, regular .45 cal 1911 mag.

Weaver rail for scope or red dot sight. Includes red dot sight.

Includes state of the art suppressor.

Available in Summer 2006.

CUSTOMER FEEDBACK

“Nicest copy [of the DeLisle] that I’ve ever seen.”
Herb Woodend, Former Director of the British
Pattern Room at Enfield Lock, England

“[DeLisle] works unbelievably well; most
noticeable sound is 'thump' of the 230 grain
projectile hitting target.”

Ian Skennerton (Author of the definitive book on
the DeLisle “The DeLisle Commando Carbine”)
on his website at: www.skennerton.com

When I saw your prototype of a new one [DeLisle]
a few years ago, I knew that I had to have one. I am
very pleased with it (serial number 3). Though I
can't compare it directly with an original DeLisle,
yours is almost certainly made with greater care and
with a better barrel.

Captain Monty Mendenhall (Firearms Author)

“I feel your company fills a void for the collector
who cannot obtain a fully automatic weapon ... and
will try to steer any business I can your way.
Thank you.”

Tom P.

“I received my gun last week and it was more than
I expected. The finish, look, and feel are classic.
Thanks for a beautiful weapon.”

Mike M. (Northridge, CA)

“Even some vets I met at the range didn't even
realize it [M3A1 SA] was a new gun and not an
original!”

Jeff G.

“I took my new M1919-SA out to the range this
weekend - 3,000 rounds without a hitch! You can
use me as a reference for your guns anytime.”

Terry Dyer (Machinegun gunsmith)
