| RUGER® RIFLES |

“Nice rifle.”

Rarely can words ignite a sense of pride in a man like those two can. It’s at once a compliment and a request to check out the goods – an appeal to our sense of camaraderie that has been honored since the advent of gunpowder. In hunting camps and on firing ranges all across the land, it is a ritual that bonds us all and instills in most of us at one time or another, a healthy tinge of envy.

RUGER® M77® HAWKEYE® | CENTERFIRE RIFLES |

Ruger® M77® Hawkeye® All-Weather | HK77RFP
.338 Federal | Stainless Matte Finish/Synthetic Stock

Ruger® M77® Hawkeye | HM77R
.30-06 Caliber | Blue Matte Finish/American Walnut Stock

The new Ruger® M77® Hawkeye® is available in most standard, magnum and varmint calibers. For traditionalists, we offer a new, slim American walnut stock with a soft, red recoil pad matched to a matte blued barrel and action. These rifles also feature a one-piece stainless bolt based on the rotating Mauser-type controlled-feed extractor – the most positive feeding and extracting system available. For more inclement engagements, the Hawkeye All-Weather® is offered with a black synthetic stock, recoil pad and matte finish stainless barrel and action. **Both versions feature Ruger's new LC6 trigger – the lightest, crispest bolt-action trigger we've ever offered** – hammer-forged barrels and integral scope mounts. Scope rings are included. And let's not forget the M77 Hawkeye's new steel floorplate with a patented latch design that eliminates any chance of "dumping" your payload while hunting.

RUGER® M77® HAWKEYE® RIFLES FEATURE:

Wood-stocked models feature a new American walnut stock with slimmer, more rounded profile with extensive, deep-cut checkering on the grip and wrap-around checkering on the forend.

Hammer-forged, matte-finished blued alloy steel barrels (stainless steel on All-Weather models) for exceptionally consistent and repeatable accuracy.

Solid-steel floorplate features engraved Ruger logo and patented latch for easy unloading without having to chamber each cartridge. Exclusive design eliminates accidental release, "dumping" your ammunition.

Ruger's all-new LC6™ trigger features light, crisp performance right out-of-the-box.

Mauser-type controlled feed extractor for reliable performance.

All-new Red Eagle soft recoil pad helps absorb the most punishing recoil.

Three-position safety that allows bolt to be locked – or the rifle to be loaded and unloaded with safety on.

Integral scope bases and free Ruger rings (an \$80 value) can never shoot loose.

Available in left-handed version for standard-length action models mid-year 2007. See page 52 for specifications chart.

New LC6™ trigger features smooth, crisp performance right out-of-the-box.

Red Eagle recoil pad helps absorb the most punishing recoil.

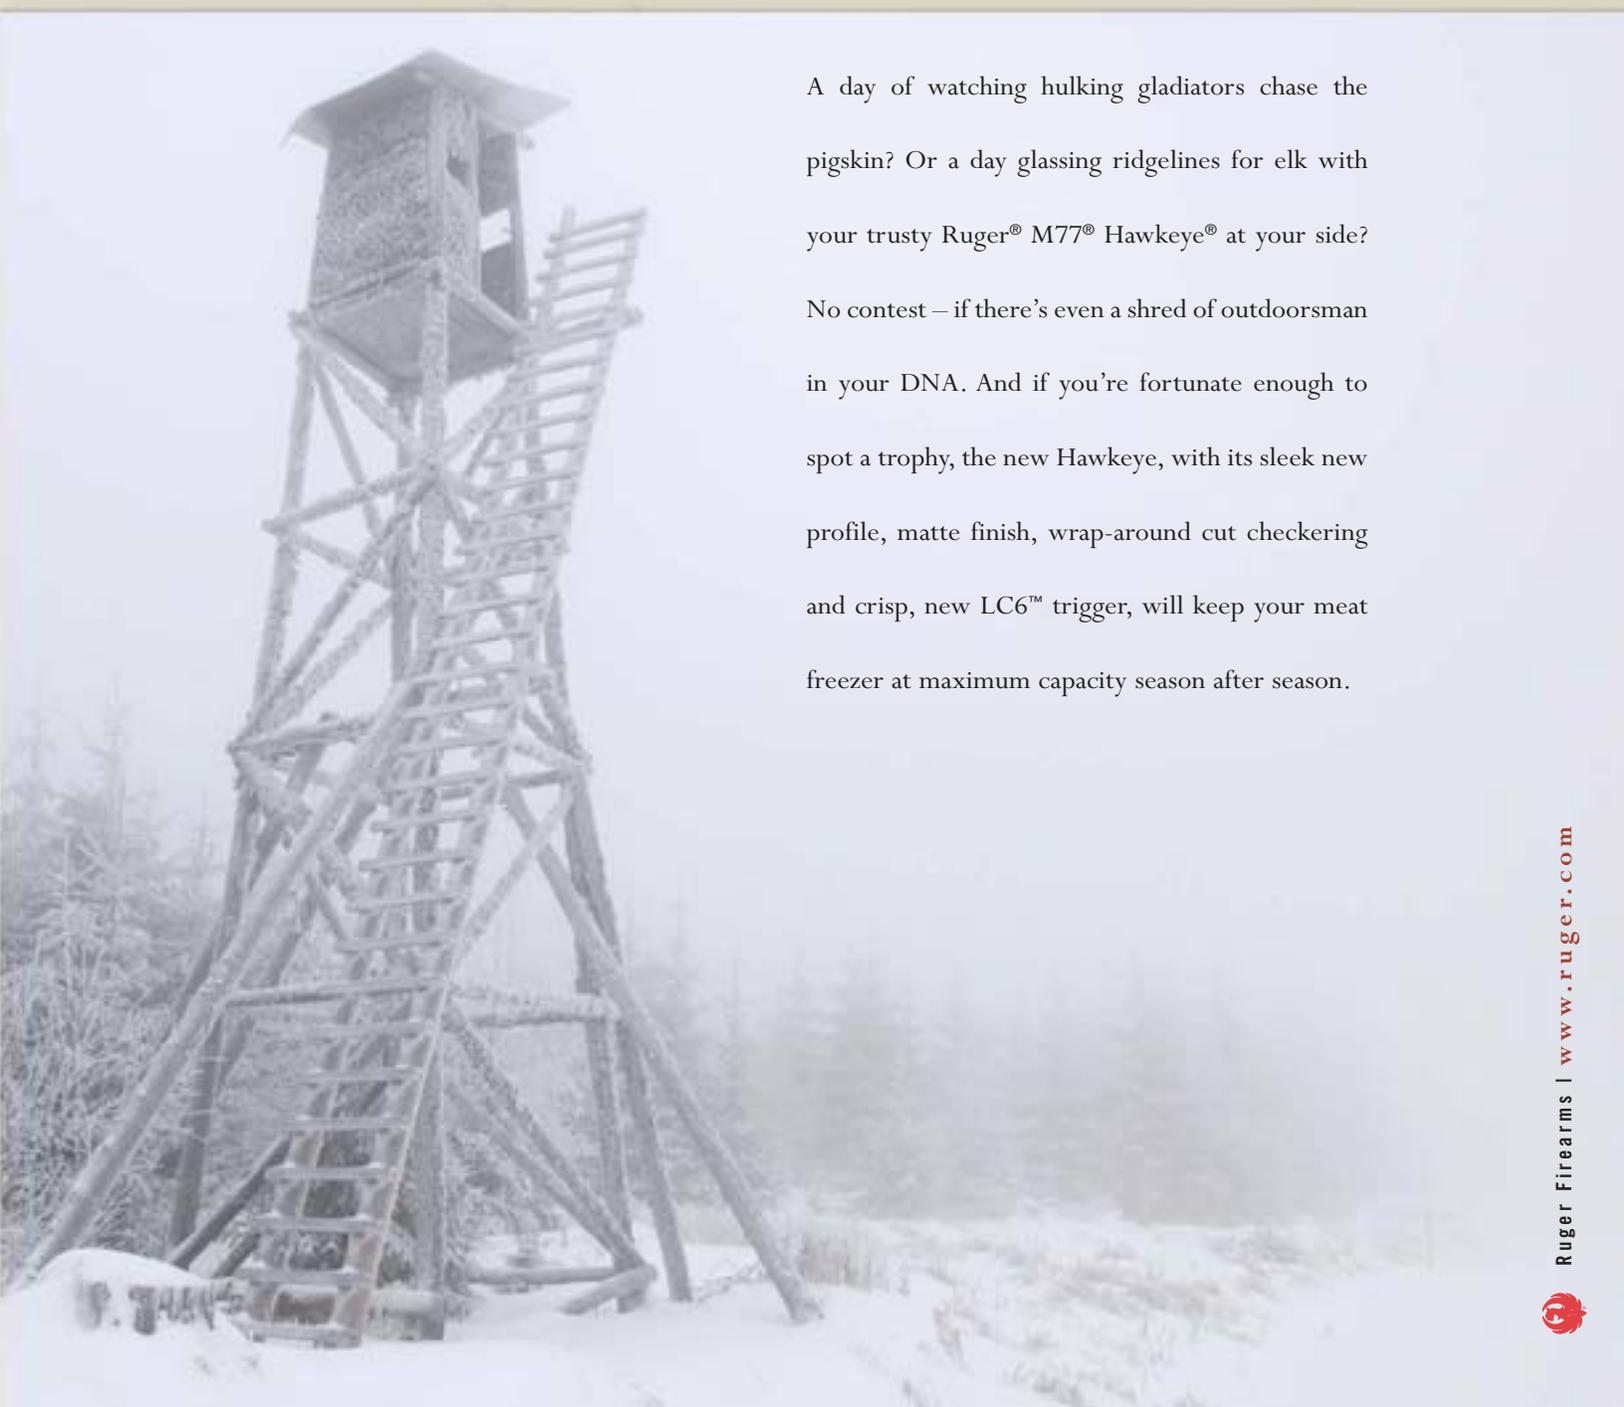

Patented Ruger scope mounting system's integral scope bases and Ruger scope rings are included.

On any given Sunday, some guys focus on point spreads.

For you it's all about the *points on the rack.*

A day of watching hulking gladiators chase the pigskin? Or a day glassing ridgelines for elk with your trusty Ruger® M77® Hawkeye® at your side? No contest – if there's even a shred of outdoorsman in your DNA. And if you're fortunate enough to spot a trophy, the new Hawkeye, with its sleek new profile, matte finish, wrap-around cut checkering and crisp, new LC6™ trigger, will keep your meat freezer at maximum capacity season after season.

RUGER® M77® HAWKEYE®
DANGEROUS GAME RIFLES IN .375 RUGER CALIBER

Ruger® M77® Hawkeye® Alaskan | HM77RSPHAB
.375 Ruger | Diamondblack™ Finish/Hogue® stock

Ruger® M77® Hawkeye® African | HM77RS
.375 Ruger | Blue Matte Finish/American Walnut Stock

Certainly Africa and Alaska are vastly different environments. In Alaska, cold and wet follow you around like a young puppy on the trail of a fresh ham bone. Which is why the M77® Hawkeye Alaskan features a textured Hogue® OverMolded™ stock with an impervious rubber skin. The Alaskan's 20" hammer-forged barrel, finished in our new ion-bonded Diamondblack™ finish, is long enough to deliver a payload accurately, yet plenty agile in brush and tight quarters. A new, soft recoil pad helps tame the .375 Ruger.

Over on the Dark Continent, there are days when the hot sun and the mosquitoes fight over who's going to make you yell uncle first. A new, classic American walnut stock with wrap-around cut checkering, like the one found on the M77 Hawkeye African, provides perfect traction for sweaty fingers. Both the African and the Alaskan feature the new, crisp Ruger LC6™ trigger to give you a clean let-off during your once-in-a-lifetime hunt. As for trying to find a more reasonably priced pair of medium bore trophy makers, forget it – they don't exist.

RUGER® M77® HAWKEYE® AFRICAN / ALASKAN RIFLES FEATURE:

Chambered in Hornady's new .375 Ruger which betters the ballistics and on-game performance of a .375 H&H Magnum and does it in a standard-length cartridge.

Alaskan Model features a 20" hammer-forged, corrosion-resistant, ion-bonded Diamondblack™ finished stainless-steel barrel.

African Model features a 23" hammer-forged, alloy steel matte blue finished barrel.

Both models feature rugged V-Notch windage adjustable express iron rear and large white bead front sights for fast target acquisition.

Ruger's all-new LC6™ trigger features light, crisp performance right out-of-the-box.

Alaskan's new Hogue® OverMolded™ stock with non-slip rubber skin provides a comfortable, secure grip in wet weather.

Mauser-type controlled feed extractor for reliable performance.

Three-position safety that allows bolt to be locked – or the rifle to be loaded and unloaded with safety on.

Integral scope bases and free Ruger rings (an \$80 value) can never shoot loose.

See page 52 for specifications chart.

New LC6™ Trigger features smooth, crisp performance right out-of-the-box.

African model features a Red Eagle recoil pad to help absorb the most punishing recoil.

Patented Ruger scope mounting system's integral scope bases and Ruger scope rings are included.

In Tanzania you'll hear the phrase "Hakuna Matata" thrown about with regularity. Maybe the folks in that part of Africa have heard about the new Ruger® M77® Hawkeye® chambered in the smoking new .375 Ruger cartridge from Hornady? After all, Hakuna Matata is the Swahili term for "no worries". And worries are precisely what you don't want on your mind when you're hunting large and dangerous game like Cape buffalo in the Okavango Delta, or grizzlies in the wilds of Alaska.

Powerful and accurate trumps
big and dangerous *every time.*

For many hunters, the M77® Mark II bolt-action rifle is that most trusted of old friends. A rock-solid performer, the M77 Mark II's one-piece bolt and hammer-forged barrel have helped make even marginal shooters into reliable meat providers. The M77 Mark II is nothing if not versatile. Case in point are the options in stocks. From classic American walnut to warp-resistant laminated wood to full-on synthetic for those really

**A friend in need is a friend indeed. Unless that friend
is talking about borrowing *your favorite bolt action rifle.***

wet and cold places. Barrel lengths range from 16-1/2" on the nimble M77 Mark II Frontier and Compact rifles to longer lengths of up to 26" – as is the case with the bullseye-making M77 Mark II Target rifles.

RUGER® M77® MARK II | CENTERFIRE RIFLES

**NEW

2007**

Ruger® M77® Mark II Frontier | KM77FRTG MKII
.338 Federal | Stainless Target Grey®/Black Laminate Stock
(Scope Not Included)

Ruger® M77® Mark II Target | KM77VT MKII
.308 Win. | Stainless Target Grey®/Brown Laminate Stock/Heavy Barrel

Ruger® M77® Mark II Ultra Light | M77RL MKII
.270 Win. | Blued/American Walnut Stock

Ruger® M77® Mark II International | M77RSI MKII
.243 Win. | Blued/American Walnut Stock

Joining the venerable Ruger® M77® Mark II line up this year are some specialty rifles that deserve consideration if trophies are on the agenda. First, there is the M77 Mark II Frontier chambered in .338 Federal – a nimble performer that sports a stainless Target Grey® finish. Next is the M77 Mark II Target: a handsome workhorse featuring a durable brown laminate stock and a low-glare, Target Grey® stainless-steel finish. The M77 Mark II Ultra Light offers Ruger value and reliability in a rifle that lightens the load. And, finally, we have the M77® Mark II International, featuring a Mannlicher-style, full-length walnut stock.

RUGER® M77® MARK II SPECIALTY RIFLES FEATURE:

*Solid steel receiver features integral scope mounts.
All M77 Mark II rifles include free Ruger scope rings.*

*All Ruger centerfire bolt-action rifles have precision
hammer-forged barrels.*

*Wood stock models feature cut-checked
American walnut stocks.*

Rugged one-piece stainless-steel bolt.

Mauser-type controlled-feed extractor for reliable performance.

*Three-position safety lets the shooter lock the bolt,
or load and unload, with the safety engaged.*

*Ruger M77 Mark II Frontier rifle features alternate scope
mounting positions – conventional or “scout.”*

*Ruger M77 Mark II Target rifles feature Ruger’s unique,
two-stage target trigger, which is precision adjusted at
the factory to provide a short “take-up” stage, followed
by a crisp, light target pull, with no creep or overtravel.*

See page 52 for specifications chart.

RUGER® 77/22® & RUGER 77/17®
| .22 AND .17 CALIBER ROTARY MAGAZINE BOLT ACTION RIFLES

Ruger® Target Grey® K77/22-VBZ | .22 LR
Ruger® Target Grey® K77/22-VMBZ | .22 Mag.
Ruger® Target Grey® K77/22-VHZ | .22 Hornet

Ruger® 77/22-R | .22 LR (20" Barrel)
Ruger® 77/17-RM | .17 HMR (22" Barrel)

Ruger® K77/22-RP All Weather | .22 LR

RUGER® 77/22® AND 77/17® RIFLES WITH DETACHABLE ROTARY MAGAZINES FEATURE:

Solid steel receiver features integral scope mounts. Patented Ruger scope rings included free.

Precision, hammer-forged barrels.

Rugged one-piece stainless-steel bolt.

Three-position manual safety.

Ruger patented detachable rotary magazines feature a unique rotor to separate cartridges and provide reliable feeding. Stainless-steel lips and feed ramps guide cartridges into the chamber smoothly.

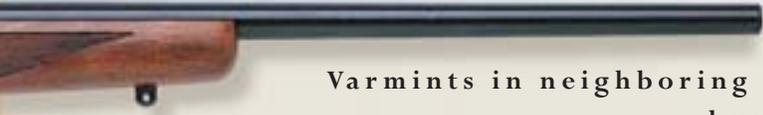

Ruger rotary magazines provide reliable feeding.

Target Grey® models feature low-glare stainless-steel components and black laminate stocks.

Target Grey Varmint models feature weather-resistant brown laminate stocks.

See page 52-53 for specifications chart.

With incredibly high velocity, and a trajectory flatter than Christmas tree sales in July, Ruger® rimfire .17-caliber bolt-action rifles spell trouble for varmints overcome with a false sense of security. The .22- and the .17-caliber rimfire bolt-action rifles are built to centerfire standards. Hammer-forged barrels, stainless one-piece bolts, a three-position safety and Ruger's patented, smooth-feeding rotary magazines are standard fare for these long-range tack drivers – as are scope-mounting set-ups and rings that are included at no additional cost. Now that's pure genius.

Varmints in neighboring area codes are
hunkering down *in their burrows.*

RUGER® NO. 1 SINGLE SHOT RIFLES FEATURE:

All Ruger No. 1 rifles include patented Ruger scope rings at no extra charge. 1-V and K1-V Varmint models include scope mounting blocks and Ruger rings.

Robust, sculptured receiver forms a rigid support for barrel and stock. Sporter and Tropical models feature Alexander Henry-style forends.

Sliding tang safety provides instant visibility and accessibility.

Strong, compact breech mechanism.

Wood stock models feature handsome cut-checked American walnut stocks.

New large calibers offered for hunting dangerous game.

See page 53 for specifications chart.

You get more out of one cartridge than most guys get out of a full magazine. *Show off.*

There's just something genuinely American about keeping things simple. Particularly where it concerns fine firearms. For over forty years, the Ruger® No.1 single-shot rifle has attracted an impressive and loyal following. You would be hard-pressed to find a more beautiful production example of American walnut and steel craftsmanship than the No.1. But the beauty of the No.1 is more than aesthetic. This well-balanced, fast-handling classic is compact and incredibly strong. A time-honored and proven breech mechanism has delivered the goods on every continent and in just about every powerful cartridge you can imagine. Like which ones you ask? Well the .338 Federal and 9.3x74Rmm are the most recent. For a complete breakdown, please refer to our caliber chart on page 53.

NEW
for
2007 | Ruger® 10/22® Target | 10/22-T
.22 LR | Blued / Laminate Stock

All Ruger®10/22s feature a patented, smooth-feeding rotary magazine and come in a myriad of models. This year, two Target models debut in stainless and blued – both with ten-round capacities – and weigh in at a scant 6 lbs. All .22LR models come with a free Weaver®-style scope base adapter so you can mount your favorite optics.

RUGER® 10/22® RIMFIRE RIFLES FEATURE:

All 10/22 models use the patented Ruger detachable rotary magazine, which mounts flush with the stock.

All models include a combination .22 tip-off and Weaver®-style scope base adapter.

Rifle models feature correctly proportioned tapered forends with no barrel bands, flat buttplates and high-visibility fiber optic front and rear sights.

Target Rifles feature hammer-forged, target-crowned heavy barrels and target triggers.

Compact model features slim, rifle-style hardwood stock with short (12-3/4") length-of-pull and short (16-1/8") barrel and high-visibility fiber optic sights.

Deluxe models also feature cut-checked walnut stocks, rubber butt pads and sling swivels.

All .22 LR models include a combination .22 tip-off and Weaver®-style scope base adapter.

Detachable rotary magazine features a unique rotor to separate cartridges and minimize misfeeding.

See page 53 for specifications chart.

“Suitable” works for targets, but not for target rifles.
That’s when you want *exceptional*.

While some would argue that the recycling craze is a fairly recent phenomenon, we beg to differ. In fact, we think we can trace it back to the early sixties when a little rimfire autoloading .22 rifle was introduced by Ruger. Over 5,000,000 have been sold since 1964. As a result, all types of cans have found deeper purpose, plinking has been elevated to art form and generations of target shooters and hunters have earned their stripes with a Ruger® 10/22® at the range, in the field and “out back”.

Ruger® 10/22® Compact | 10/22CCR

.223 Rem. | Matte Stainless / Black Laminate Stock
Adjustable Harmonic Dampener

The new Ruger® Mini-14® Target Rifle chambered in the popular .223 Remington is the first minute-of-angle Mini. With an adjustable harmonic dampener on the barrel, you can tune it to your ammo for great shooting at the bench or in varmint country. All-Weather® Ranch rifles feature a black synthetic stock with a matte stainless finish and free integral mounts and rings.

Ruger® All Weather® Mini Thirty | K-Mini Thirty-P
7.62x39mm Caliber | Matte Stainless / Synthetic "All Weather" Stock

Ruger® Ranch Rifle | Mini 14/5
.223 Rem. | Blued / Hardwood Stock

RUGER® CENTERFIRE AUTOLOADING RIFLES FEATURE:

All Ruger Mini-14 and Mini Thirty Ranch Rifles feature protected blade front and adjustable "ghost ring" aperture rear sights, for fast, accurate target acquisition.

Integral scope bases never shoot loose and accept Ruger scope rings, included at no extra charge.

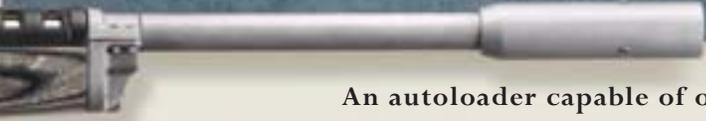

Side-ejection to clear low-mounted scopes.

Patented recoil buffer system to help protect scopes.

Wood stock Ranch Rifles feature flat, rifle-style recoil pads.

See page 53 for specifications chart.

The Mini 14's reputation out in the field is well documented. But now, enter a new chapter in the storied history of the famous Ranch rifle. '07 marks the introduction of the Target Model. The Mini-14s designed for the field feature medium-weight barrels – making them ideal for working and carrying around from sunup to dusk. The new Mini-14 Target Model differs in that it carries a hammer-forged, heavy matte stainless-steel target barrel. It has a recessed target crown and an adjustable weight on the barrel, so you can tune your rifle to your

An autoloader capable of one-inch groups at 100 yards is impressive.

A rifleman who can shoot fast one-inch groups at 100 yards from a benchrest is *action hero material*.

ammunition. A high comb black laminate stock with a flat forend gives it great manners at the range, as do a ventilated handguard and a three position rubber buttpad that enables you to change your length-of-pull by up to 1.5."

And speaking of rapid fire accuracy, Team Ruger, shooting these very Target Mini 14s, won not one, but two Shooting Industry's Masters competitions against teams shooting AR-15 target rifles.

**RUGER MODEL 96™

*Rimfire models include combination .22 tip-off
and Weaver-style scope adapters.*

Sliding cross-button safety.

See page 53 for specifications chart.

Quick. Reliable. Powerful.

Three very attractive qualities in *man-eater country.*

Let's face it, hunting dangerous game in Africa isn't for everyone. And not just any rifle will do when you're face-to-face with creatures capable of inflicting serious pain or worse. Accuracy, power and reliability are a given with any rifle worthy of making the trip through customs. So what separates an adequate African big game rifle from an extraordinary one? If you thought price, the answer is no. While it's easy to assume that M77® Mark II Magnums enveloped in premium Circassian walnut and fitted with folding-leaf express rear sights on solid barrel ribs are unattainable firearms, nothing could be further from the truth. Thanks in large part to Ruger's manufacturing expertise and fanatical practicality, M77 Mark II Magnums are not only well made, they're an incomparable value that just happen to possess semi-custom fit and finish. The M77 Mark II Magnum's one-piece bolt utilizes a non-rotating Mauser-type controlled-feed extractor, which helps the big Ruger Magnum's fixed-blade type ejector spew spent cases with vigor as the bolt moves fully rearward. Couple that with longer actions designed to house today's most popular African big game calibers, and Ruger's legendary reliability, you can see how any hunting trip to Africa should start with a visit to your local Ruger retailer.

Ruger® M77® Mark II Magnum | M77RSM MKII
Available in .375 H&H, .416 Rigby and .458 Lott
Blued/Circassian Walnut Stock

RUGER® M77® MAGNUM CENTERFIRE RIFLES FEATURE:

One-piece bolt features a non-rotating Mauser-type, reliable, controlled-feed extractor. Fixed-blade type ejector positively ejects the empty cases as the bolt is moved fully rearward.

Premium-grade, cut-checked Circassian walnut stock with steel grip cap.

Patented floorplate latch for easy unloading.

Folding-leaf express rear sights solidly affixed to integral barrel rib.

Barrel mounted sling swivel base to protect hand during recoil.

See page 52 for specifications chart.

A day afield with a companion builds a bond.

This is especially true if the companion has *four legs instead of two.*

| RUGER® SHOTGUNS |

The bond developed between hunters during a day in the field is special. The bond between a hunter and his dog is even more special, and must really be experienced first hand to be fully appreciated. Man and dog working in perfect harmony, awaiting the thunderous flush of grouse or the cackle of a pheasant taking flight. It is at that very moment when all the fine attributes of a carefully crafted, American-made Ruger® Red Label over-and-under or Gold Label® side-by-side shotgun come to the forefront. And then at the close of the day, as the hunter returns in the failing light, his gun cradled in the crook of his arm with his dog at close-heel nuzzling the full game vest, comes the absolute contentment born of the perfect communion of man, dog and gun.

A day of friendly competition at the range shooting sporting clays can dial up the rivalry in any friendship. Of course, the quickest way to diffuse the tension is to hand over the Red Label to your partner for a round. In short order, his confidence and your friendship will regain solid footing. Can a shotgun do all that? If it's one of the classically styled, modern over-and-under shotguns from Ruger, then the answer is a resounding yes. Available in 12, 20 and 28 gauge, Red Label shotguns represent the finest in American gun making with three different frames perfectly scaled to their corresponding gauges. A balanced combination of cut-checked walnut and steel, Red Label shotguns feature shallow receivers made of finely polished, brushed stainless steel with no exposed pins or screws. As a result, it sits perfectly in your hands – and shoulders easily. Barrels are back-bored and made of hammer-forged steel, for years of loyal service. A dovetailed, free-floating rib helps with instant target acquisition and five steel-shot-compatible Briley® screw-in chokes are included at no additional cost. Artisan factory engraving is available from the Ruger Studio. Of course, you'll be complimented. It's a Ruger.

SIDE-BY-SIDE SHOTGUNS**

Ruger® Gold Label® | KSXSS-1228
12 Gauge | 28" Barrels

Ruger® Gold Label® | KSXS-1228
12 Gauge | 28" Barrels

Ruger® Gold Label® side-by-side shotguns are available in both straight grip and pistol grip configurations. Both models feature solid, non-glare matte ribs, hand-finished, rust-blued barrels and mechanical non-inertia triggers for lightning-fast handling and firing. Gold Label barrels are lightweight, hammer-forged steel and they're back-bored to help take the sting out of recoil. The classic lines of the Gold Label are a study on how to combine metallurgy and fine woodwork. By carefully marrying a finely polished, brushed stainless steel receiver with no exposed pins or screws to a premium-grade American walnut stock with slender forends featuring fine-cut checkering, the 6-1/2 lb. Ruger Gold Label achieves an aesthetic elegance surpassed only by its capabilities in the field. This fine shotgun is finished off with selective ejectors that kick out empties with requisite authority for quicker reloads and follow-up shots.

RUGER® GOLD LABEL® SHOTGUNS FEATURE:

Hand-finished, rust-blued barrel assemblies with non-glare matte rib.

Finely polished, brushed stainless steel round-action receiver has clean lines with no exposed pins or screws.

Convenient top tang safety with barrel selector.

Five steel-shot-compatible Briley® screw-in chokes and choke tube wrench are included.

Lightweight, hammer-forged steel barrels are back-bored to reduce felt recoil.

3" chambers.

Trim, slender Gold Label weighs only 6-1/2 lbs.

Mechanical (non-inertia) single trigger.

Premium-grade American walnut stocks with finely cut checkering.

See page 54 for specifications chart.

Selective ejectors kick out empties with authority.

Nothing can ruin a good pheasant hunt like squabbling among siblings about who's going to get dad's side-by-side when he reaches his expiration date. It's understandable though. A fine shotgun like a Ruger® Gold Label® can invoke a myriad of emotions in people; envy and pride prime among them. Here you have

Genes are passed on. Wealth is passed on.

Ruger Gold Labels, *those you have to earn.*

a bonafide American-crafted, perfectly balanced, superb-handling, lightweight side-by-side capable of putting a quiver in the stiffest of upper lips on the other side of the Atlantic and beyond. The first classic American production side-by-side to be introduced in fifty years, the Ruger Gold Label shoulders and swings with the fluidity you'd expect to find in a rare, handmade British double gun. Ruger has proudly managed to create an American classic using modern manufacturing techniques and materials along with time-honored hand-crafting. The result is an uncommon shotgun that will undoubtedly become an heirloom for generations to come.

You always remember your first.
Especially when it hangs around *for a few decades.*

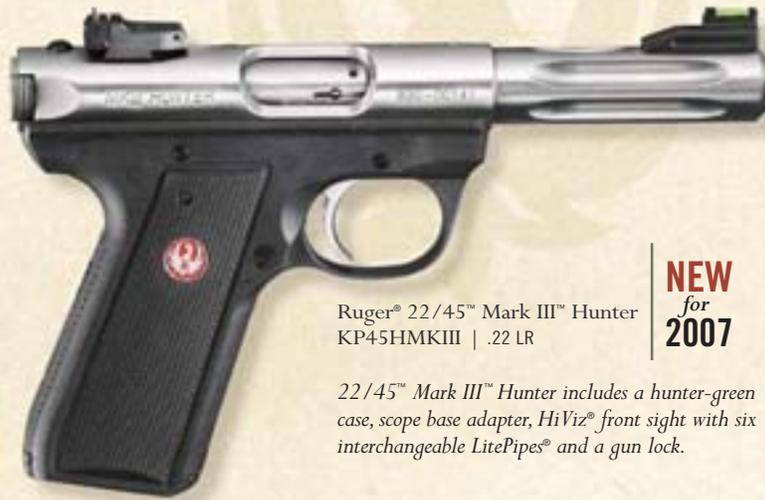

| RUGER® PISTOLS |

You don't ever forget the first time spent rimfire shells pile up at your feet as you gaze out at a row of perforated soup cans in the distance. And how about the adrenaline rush that made you oblivious to a five-below wind chill on your first foray into rabbit country? These are the moments that laid the foundation for your hunting and shooting passion – a love affair that undoubtedly began with a .22 pistol. In all likelihood, that .22 was a Ruger.® The gun that started it all for Ruger back in 1949. Much has changed since '49 and, thankfully, a lot hasn't. Ruger .22s and their many fine rimfire and centerfire autoloader brethren remain immensely popular among shooting and hunting purists and enthusiasts. Ingeniously simple and notoriously reliable, Ruger pistols exemplify the very best in American craftsmanship and functionality. Which may explain why for so many hunters and shooters, their first Ruger is rarely their last.

Ruger® 22/45™ Mark III™ Hunter
KP45HMKIII | .22 LR

NEW
for
2007

22/45™ Mark III™ Hunter includes a hunter-green case, scope base adapter, HiViz® front sight with six interchangeable LitePipes® and a gun lock.

Ruger® 22/45™ Mark III™ Pistol
KP512MKIII | .22 LR

Ruger® 22/45™ Mark III™ Pistol
P45GCMKIII | .22 LR

The Ruger® 22/45™ Mark III™ has its manual safety, magazine latch and bolt hold-open latch in the same locations as the 1911 .45 pistol. It is perfect for 1911 shooters looking for a low cost way to practice. Choose from Hunter, Standard and Target models, all featuring a slim “.45” polymer grip frame with checkered grip areas for precision shooting.

RUGER® 22/45™ MARK III™ RIMFIRE PISTOLS FEATURE:

*White-dot front and rear sights for faster target acquisition.
Contoured ejection port.*

Tapered bolt ears.

Frame-mounted magazine release button.

Precision-molded polymer grip frame with a serrated front strap and checkered grip panel areas and back strap for comfortable non-slip hold.

Same grip angle as the 1911 pistol.

All adjustable sight Mark III pistols are drilled and tapped for Weaver®-style scope base adapter (included).

22/45™ MARK III™ HUNTER MODELS ALSO FEATURE:

HiViz® light-gathering front sight.

Micro-adjustable V-notch rear sight.

6-7/8" or 4-1/2" target-crowned fluted bull barrel.

Hunter-green case, scope base adapter, HiViz® front sight with six interchangeable LitePipes® and a gun lock.

See page 55 for specifications chart.

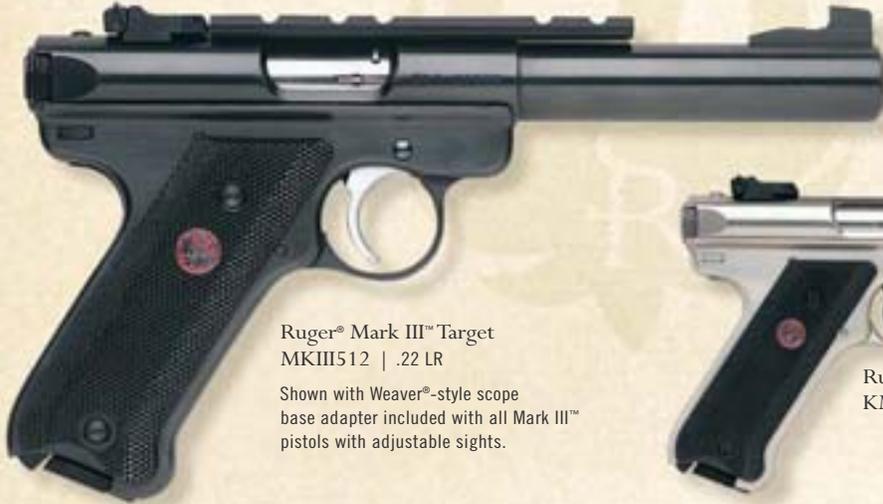

It's hard to argue with sound fiscal pragmatism – especially when you're building a case for purchasing yet another pistol. You love to shoot your 1911, but you realize how costly that can get. So, in order to save money, you're purchasing a Ruger® 22/45™ Mark III.™ What spouse could object to a pistol that saves money? In the bargain, you get a pistol that is configured with a slim polymer grip frame, manual safety, a magazine latch and a bolt hold-open latch – all like your beloved 1911. Other goodies available on some models of the Mark III include a fluted barrel and a HiViz® fiber optic front sight. All of which you are under no spousal obligation whatsoever to divulge.

Steadiness. Focus. Frugality.

All signs of a true marksman.

Shown with Weaver®-style scope
base adapter included with all Mark III™
pistols with adjustable sights.

Ruger® Mark III™ Stainless Target
KMKIII512 | .22 LR

Ruger® Mark III™ Standard
MKIII6 | .22 LR

Ruger® Mark III™ Stainless Competition
KMKIII678GC | .22 LR

Variety and functionality are hallmarks of the entire line of Ruger® Mark III™ rimfire pistols. Highlights of the Ruger Mark III Target Pistol include a Weaver®-style scope base adapter – available on adjustable sight pistols – a patented loaded chamber indicator, an easy-to-grasp tapered bolt, a left side magazine release button and an unobtrusive internal lock. Each model comes with a Ruger safety lock and a storage case.

RUGER® MARK III™ RIMFIRE PISTOLS FEATURE:

Ruger Mark III Standard pistol models feature fixed sights.

Precision-adjustable target sights included on all Mark III Target pistols.

Weaver®-style scope base adapters included with all adjustable sight Mark III pistols.

Patented loaded chamber indicators on all Mark III models.

Magazine release button located on left side of frame.

Tapered bolt ears.

Unobtrusive internal lock.

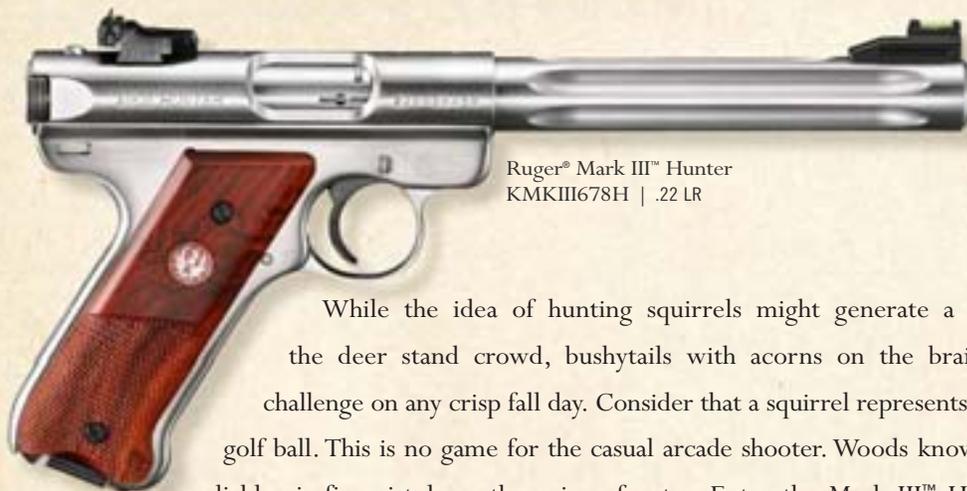

Magazine release button on left side of the frame.

See page 55 for specifications chart.

“What kind of hunter hunts squirrels?”

The kind that won't come home *empty handed.*

Ruger® Mark III™ Hunter
KMKIII678H | .22 LR

While the idea of hunting squirrels might generate a snicker or two among the deer stand crowd, bushytails with acorns on the brain can prove a worthy challenge on any crisp fall day. Consider that a squirrel represents a target no larger than a golf ball. This is no game for the casual arcade shooter. Woods know-how and a top-notch, reliable rimfire pistol are the price of entry. Enter the Mark III™ Hunter. Here you have a pistol of pedigree with features like a HiViz® light-gathering sight with six interchangeable LitePipes® and a Weaver®-style scope adapter to mount your favorite optics. Cocobolo wood with fine checkering makes for a great grip and a handsome presentation. Tapered bolt ears provide smooth chambering while a micro-adjustable, V-notch rear sight sets the stage down range quickly.

RUGER® MARK III™ HUNTER RIMFIRE PISTOLS FEATURE:

HiViz® light-gathering front sight.

Drilled and tapped for Weaver®-style scope adapter (included).

Micro-adjustable V-notch rear sight.

6-7/8" target-crowned, fluted bull barrel.

Uniquely checkered Cocobolo wood grips.

See page 55 for specifications chart.

The Mark III Hunter includes a hunter-green case, scope base adapter, HiViz® front sight with six interchangeable LitePipes® and a gun lock.

The best partner a cop could have.
With all due respect to K9 units *of course.*

Ruger® KP345° Pistol

Ruger® P345° Pistol
P345PR | .45 Auto
(Shown with Insight M3
Flashlight, not included.)

Ruger® P90™ Pistol
P90 | .45 Auto

The hope is always that you won't need it, but if the time ever comes when you have to call on your firearm in a life-saving situation, you want to make sure that it's a reliable and accurate centerfire pistol made in America. The Ruger® P90™ and polymer-framed P345° are at their best when conditions and situations are not. Made with either custom-compound polymer or hard-coated, aircraft-quality aluminum frames, steel slides and polycarbonate grip panels, Ruger centerfire pistols provide years of trouble-free service and a good measure of confidence.

RUGER® .45 CALIBER CENTERFIRE PISTOLS FEATURE:

P345 PISTOLS:

Dovetailed, three-dot sight system for fast, precise target acquisition.
Picatinny rail option.
Loaded chamber indicator.
Comfortable, rounded trigger.

Custom compounded polymer frame with long-strand fiberglass filler and exclusive Ruger Camblock designed to help reduce felt recoil.

Slim contoured grip frame with checkered areas for a comfortable, non-slip hold.

P90 PISTOLS:

Hard-coated aluminum frame.
Polycarbonate grip panels.
Fixed, three-dot sight system.

See page 55 for specifications chart.

Ruger® centerfire pistols have a lot going for them.

In particular, the all important *“don't mess with me”* factor.

With years of reliable service in the public sector, the Ruger® pistols chambered in 9mm and .40 S&W have more than earned a place in your holster. Whether it's a hard-coated, aircraft-grade aluminum or reinforced polymer frame – either offers superb performance and peace of mind.

Ruger® P95™ Pistol
KP95PR15 | 9mm with Picatinny rail

Ruger® P89™ Pistol
P8915 | 9mm

Ruger® P95™ Pistol
P95DPR15 | 9mm
Decock-only model with Picatinny rail

*15-round magazines are not available in all states and locales; 10-round magazines are available where required to meet state and local regulations limiting magazine capacity.

RUGER® 9MM & .40 S&W PISTOLS FEATURE:

Picatinny-style accessory rail (P95).
Matte-finished reinforced-polymer frame (P95).

Re-contoured, rounded trigger guard.
Non-slip textured grip areas.
Ambidextrous safety.

See page 55 for specifications chart.

Many, it seems, are born with the revolver gene. *Amen.*

| RUGER® REVOLVERS |

What is it that makes us love revolvers even if we've never laid eyes on a John Ford epic? Hard to say, but the love of shooting and revolvers in particular can blossom into a full-blown, lifelong labor of love. Trust us on that one. We've had the "bug" from day one. A mere four hunting seasons after we opened our doors we introduced the original Ruger® Single Six® and haven't looked back. Since 1949, it's been a succession of innovation and reverence for what works guiding our every effort.

New Vaquero® Single Action Revolvers	38	Old Army® Black Powder Revolvers	43

Ruger® New Vaquero® Revolver
NV455 | .45 Colt | Color Case Frame Finish

Ruger® Stainless New Vaquero® Revolver
KNV35 | .357 Mag.

Ruger® Stainless Engraved New Vaquero® Revolver
Available only on Model KNV455 | .45 Colt
(see below)

RUGER® NEW VAQUERO® SINGLE ACTION REVOLVERS FEATURE:

Blued New Vaquero models feature “color case” finish on frame.

Traditional beveled cylinder for ease in holstering.

Patented Ruger reverse indexing pawl for easier loading and unloading.

Original-size, pre-1962 “XR-3” style steel grip frame with checkered “hard rubber” grips, for authentic “Old West” feel and handling.

Handsome, larger crescent-shaped ejector rod head in traditional form.

See page 56 for specifications chart.

*This year the Ruger Studio is offering the “Cowboy Pair”— a matched set of handsomely engraved and consecutively numbered New Vaquero .45 Colt revolvers. Collector’s case included.
For information on other engraving services, contact the Ruger Studio at 203-259-7843*

Cowboy action shooters aren't the kind of folks you want to disappoint. These pistoleros know their guns, and expect reliability and authenticity. So, you better design a single action that features an easy holstering, traditional beveled cylinder and a handsome crescent shaped ejector rod head. The New Vaquero's patented transfer bar mechanism and loading gate interlock guard against accidental discharge, providing added peace of mind during recreational or competitive shooting. Since the Ruger® New Vaquero's arrival on the cowboy action

Some things you can't fake: A "Howdy, good to meet you" handshake, and the feel of a real single action chambered in .45 Colt *are the top two for a cowboy action shooter.*

shooting scene no other single action has come close to rivaling its popularity. The New Vaquero® owes part of its success to its lineage. That's evident in the mid-sized steel frame and cylinder, scaled down to the same specs as the original 1955 Ruger® Blackhawk.* An original pre-1962 "XR-3" style steel grip frame with checkered "hard rubber" grips provides that authentic "Old West" feel and the handling characteristics cowboys and cowgirls love.

* Do you own an "old model" (pre-1973) Ruger Single Six, Blackhawk, Super Blackhawk or Bearcat single action revolver? If you do, please see page 58 for important free safety information.

**RUGER® NEW MODEL SUPER BLACKHAWK®
| SINGLE ACTION REVOLVERS**

Ruger® New Model Super Blackhawk®
Bisley Hunter Revolver
KS47NHB | .44 Rem. Mag.

The Hunter is the only large caliber, solid-ribbed barreled, single action machined for scope rings – which, by the way, are included.

Ruger® New Model Super Blackhawk® Revolver
S47N | .44 Rem. Mag.

Ruger® New Model Super Blackhawk® Revolver
KS45N | .44 Rem. Mag.

If you prefer your hunting at ground level and close in it's hard to beat – on second thought, it's impossible to beat – the thrill of hunting with the venerable Ruger New Model Blackhawk® or New Model Super Blackhawk® revolvers. It's been that way for fifty plus years. The iconic New Model Ruger Blackhawk single actions are more than capable of handling today's powerful loads in a variety of calibers. Their durability is the stuff of legend, and they've even been known to bring home the bacon, so to speak, regardless of what mother nature might throw in their path.

RUGER® NEW MODEL SUPER BLACKHAWK® SINGLE ACTION REVOLVERS FEATURE:

Ramp front and adjustable rear sights.

Coil springs throughout for durability.

Traditional Western-style grip, long acknowledged to be one of the most comfortable and natural pointing of any grip style.

Hunter models feature a heavy, ribbed barrel, machined for Ruger scope rings (included).

Bisley Hunter models feature longer black laminate, Bisley-style grips, lower Bisley hammer and curved trigger.

Patented Ruger transfer bar mechanism and loading gate interlock provide an unparalleled measure of security against accidental discharge.

See page 56 for specifications chart.

**RUGER® NEW MODEL BLACKHAWK®
| SINGLE ACTION REVOLVERS**

You'll get accustomed to the "tough guy" persona *in no time.*

RUGER® NEW MODEL SINGLE SIX® / NEW BEARCAT®
| SINGLE ACTION REVOLVERS

Little *big guns.*

Ruger® Stainless New Model Single Six® Revolver
KNR5 | .22 LR / .22 Mag.

It's not always about the most powerful load and supernova muzzle energy. Sometimes you want the feel of a classic single action in a smaller caliber. Enter the Ruger® New Model Single Six® in .17 and .22 calibers: a great plinker with civil manners and classic Ruger good looks.

Ruger® Stainless New Model Single Six®
Hunter Convertible
KNR7H | .22 LR / .22 Mag.

Ruger® New Bearcat® Revolver
SBC-4 | .22 LR

If ever a single action was made for plinking, the New Bearcat® is it. And here, small doesn't mean doing without or giving something up. The smallest member of the Ruger® single action line-up is made for today's .22 LR ammo, making it the ideal baked-beans can perforator.

RUGER® NEW MODEL SINGLE SIX® / NEW BEARCAT® SINGLE ACTION REVOLVERS FEATURE:

NEW BEARCAT® FEATURES:

- Ruger's lightest and most compact revolver.*
- Unfluted cylinder with bear and cougar rolled engraving.*
- Blade front sight and notch rear sights.*
- Patented Ruger transfer bar mechanism for added safety.*

NEW MODEL SINGLE SIX® FEATURES:

- Convertible models come with two cylinders.*
- Classic single action style.*
- Patented Ruger transfer bar mechanism for added safety.*
- Hunter model has solid barrel rib for easy mounting of optics.*

See page 56 for specifications chart.

**RUGER® OLD ARMY
| BLACK POWDER REVOLVERS**

A gun divided against itself cannot stand.

Might explain why *there are two models.*

Johnny Reb or his Union counterpart would have a hard time distinguishing a Ruger® Old Army® black powder revolver from the genuine article. Well, at least until they fired it. At that point, twenty-first century improvements like the unflappable loading lever/ramrod, durable coil spring mechanism and precision adjustable sights on certain models would be too “back to the future” not to notice.

Ruger® Old Army®
BP5F | .45 Caliber

Ruger® Stainless Old Army®
KBP-7 | .45 Caliber with adjustable sights

The Ruger® Old Army® “cap and ball” black powder revolver features a reliable coil-spring mechanism and an interlocking rammer and base pin assembly that will not unlatch during recoil.

RUGER® OLD ARMY BLACK POWDER REVOLVERS FEATURE:

Easily disassembled without special tools, making black powder clean-up far quicker and easier, especially in the stainless steel version.

All coil spring construction.

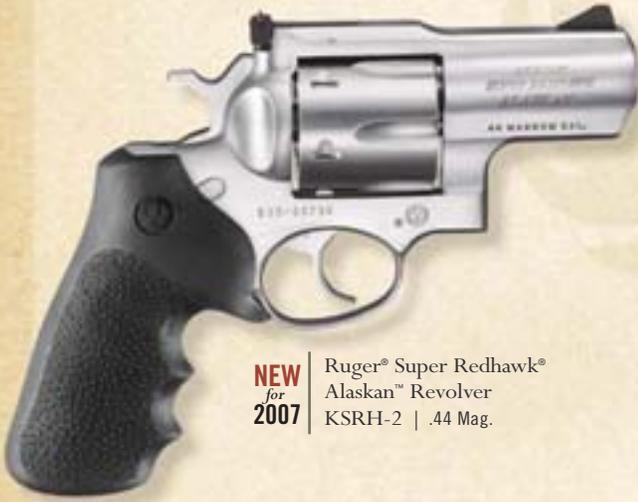

Patented interlocking rammer and base pin assembly that will not unlatch during recoil.

Adjustable sight models have precision adjustable rear sight and ramp front sight.

See page 57 for specifications chart.

RUGER® SUPER REDHAWK®
| DOUBLE ACTION REVOLVERS

NEW
for
2007 | Ruger® Super Redhawk®
Alaskan™ Revolver
KSRH-2 | .44 Mag.

The word stout comes to mind whenever the conversation turns to the Ruger® Super Redhawk® Alaskan™, available in the formidable .454 Casull, .480 Ruger, and now in the popular .44 Magnum. It's the perfect revolver in bear country, where you might need wallop on demand. Away from the permafrost and the menacing glare of grizzlies, the Alaskan .454 Casull displays polite manners at the range when loaded with regular .45 Colt ammo. So sighting in and practicing with your Alaskan won't necessitate an endurance contest. If you don't need the howitzer-like potency of the .454, try the .480 Ruger or the new .44 Magnum Super Redhawk Alaskan with the same energy absorbing Hogue® Tamer™ Monogrip® as the .454.

Ruger® Stainless
Super Redhawk® Revolver
KRH-44 | .44 Mag.

Ruger® Target Grey® Stainless
Super Redhawk® Revolver
KSRH-7454 | .454 Casull & .45 Colt

RUGER® SUPER REDHAWK® DOUBLE ACTION REVOLVERS FEATURE:

Available in .44 Magnum, .454 Casull and .480 Ruger calibers.

Standard models feature integral scope mounts and free Ruger rings.

Compact Alaskan model comes in stainless steel with Hogue® Tamer™ Monogrip to help cushion recoil.

Patented single spring mechanism for both hammer and trigger.

Triple-locking cylinder for more positive alignment.

Choice of standard stainless or low-glare Target Grey® corrosion-resistant finishes.

See page 57 for specifications chart.

Beefy *big iron.*

It's a well-known fact that Ruger® Redhawk® double action revolvers can stand up to the rigors of powerful cartridges and less than kid glove treatment. The secret to their durability lies partly in the extra metal girth in the gun's top straps, and in key stress points surrounding the barrel. That's why they can withstand the repeated pounding imposed by today's powerful magnum cartridges. A patented triple-locking cylinder mechanism helps ensure dependable operation shot after shot.

NEW
for
2007

Ruger® Redhawk®
KRH-444 | .44 Rem. Mag.
Special Hogue® Grip / 4" Barrel

Ruger® Redhawk®
RH-445 | .44 Rem. Mag.

RUGER® REDHAWK® DOUBLE ACTION REVOLVERS FEATURE:

Micro-adjustable rear sights.

Solid steel frame with no side-plates.

Six-shot capacity.

Patented triple-locking cylinder mechanism for positive alignment.

Trigger guard assembly can be easily removed from bottom of frame for maintenance.

See page 57 for specifications chart.

RUGER® SP101® / GP100®
| DOUBLE ACTION REVOLVERS

Compact without *compromise.*

All Ruger® double action revolvers feature integrated subassemblies for easy takedown and routine maintenance. Medium-framed GP100® models and the smaller-framed SP101s all benefit from the same triple-locking cylinder design found in the larger-framed Super Redhawk® models that locks the cylinder into the frame at front, rear and bottom. Critical stress points on the GP100 and the SP101® are reinforced with extra steel and all their frames are solid steel – no side plate shenanigans here.

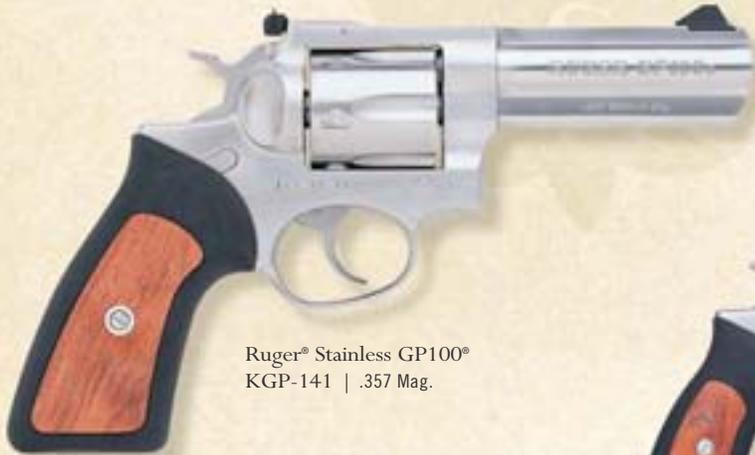

Ruger® SP101® Revolver

RUGER® GUN SAFES:

Ruger offers gun safes to help our customers meet their responsibility to store Ruger firearms safely. Our standard safe features 28-1/2" overall depth and easily stores up to 27 long guns, with shelf space for handguns and accessories. It weighs 680 pounds and is 30" wide, 60" tall. Standard features include 3/16-inch solid door, reinforced with 3-inch angle frame; Sargent & Greenleaf lock; concealed internal hinges; recessed solid steel door to reduce pry-points; active door bolts that extend a full 2-inches; Diam-A-Shield™ Hard plates providing 30 times the drilling protection of other brands; six one-inch diameter chrome plated bolts; Quad Sleeve™ relockers which are designed to trigger when the safe is attacked by a torch, impact, or prying, resulting in a complete lockup; and Class II fire protection providing a fire rating of 1200° F for 60 minutes. Finished in a durable textured finish with Sturm, Ruger "Eagle" and logo. All Ruger gun safes meet or exceed the requirements of an "acceptable gun safe" under California Penal Code Section 12088 and regulations issued thereunder. A variety of sizes and finishes are available.

411 Sunapee Street,
Newport, NH 03773
Tel: (603) 865-2442
Fax: (603) 863-6165

NOTICE: Weights of all Ruger firearms, and rifles in particular, may vary from published weight because of variations in wood density, bore size, barrel length and style. All weights specified in this catalog are approximate. All ammunition that appears in this catalog is shown actual size only when noted. Sturm, Ruger & Co., Inc. does not manufacture scopes, and scopes are not included with any firearm purchase.

All prices in this catalog are suggested only. At Sturm, Ruger & Co., Inc., we list suggested retail prices because we feel this information is an aid to our customers in examining our products. Sturm, Ruger & Co., Inc. does not sell firearms directly to consumers. Ruger products are stocked and sold by thousands of federally licensed independent retailers in the United States and in many foreign countries. We believe there are many benefits to purchasing firearms from a specialty firearms store where you can receive the advice and knowledge of an experienced retailer.

The Sturm, Ruger & Co., Inc. Eagle logo, SR design, 10/22, AC-556, All-Weather, Arms Makers for Responsible Citizens, Bearcat, Blackhawk, Gold Label, GP100, Hawkeye, M77, Mini Thirty, Mini-14, Old Army, P345, P85, Redhawk, **RUGER**, Ruger 77/17, Ruger 77/22, Ruger 77/44, Ruger 77/50, Ruger SP101, Ruger Vaquero, Security-Six, Service-Six, Single Six, Speed-Six, and Target Grey are registered U.S. trademarks. "The Frontier" is a registered trademark of New Colt Holding Corp.

All specifications and prices are subject to change without notice.

AN IMPORTANT FREE SAFETY OFFER FROM RUGER

Do you own an "old model" (pre-1973) Ruger Single Six, Blackhawk, Super Blackhawk, or Bearcat single action revolver like these?

Three frame screws identify the "old model" Single Six, Blackhawk, and Super Blackhawk made from 1953 to 1972. Serial numbers below 93-00000 identify old Bearcat and Super Bearcat models made from 1958-1972.

The patented Ruger Conversion Kit is an entirely new operating system for these revolvers. **It can help prevent accidental discharges caused by a drop or blow to the hammer if the user has failed to take the basic safety precaution of keeping the hammer down on an empty chamber. That's very important!**

This mechanism can be factory-installed without any further alteration. The frame and other major parts will not be affected by this conversion. The value of the gun will not be impaired, and we will return your original parts for collector's purposes.

To receive a **free** factory safety conversion, write to us at Sturm, Ruger and Company, Inc.; Lacey Place, Dept. KC; Southport, CT 06890. We will provide you with a shipping container and instructions. You only pay initial shipping to our factory. We will cover all other charges including return shipping costs. Please write to us without delay if you have one of these guns, and tell your friends about the availability of this kit. Remember that the safest way to carry any older single action revolver, regardless of manufacturer, is with the hammer down on an **empty** chamber.

PLEASE WRITE TO US AT:

Sturm, Ruger & Co., Inc., Department KC, Lacey Place, Southport, CT 06890 for full details and a **FREE** shipping box.

If your revolver has the words "New Model," "Bisley," or "Vaquero" on the frame, this offer is not applicable.

RUGER INVITES YOU TO TAKE YOUR BEST SHOT — and send it to us. We are looking for great photos of Ruger owners enjoying the shooting sports. Your image may show up on www.ruger.com or in Ruger marketing materials. There's a whole world waiting to see you and your Ruger. For complete details visit: www.rugerphoto.com

BASIC RULES OF SAFETY

Learn the mechanical and handling characteristics of the firearm you are using.

Always keep the muzzle pointed in a safe direction, finger off the trigger and safety "on."

Firearms should be unloaded and securely stored when not in use.

Be sure the barrel is clear of obstructions before using.

Be sure of your target and what lies beyond it before you shoot.

Wear shooting glasses and hearing protection when you shoot.

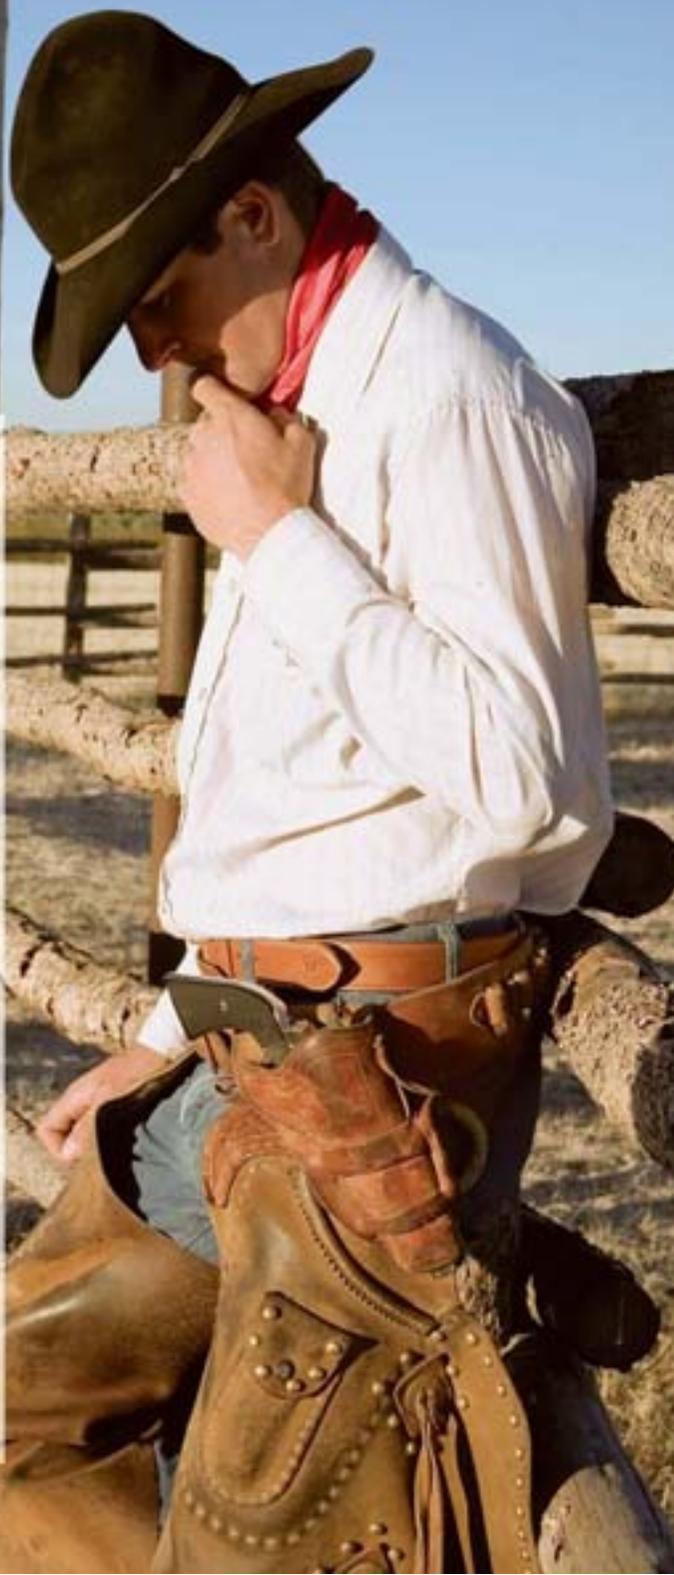

Never climb a tree or fence with a loaded firearm.

Don't shoot at a hard surface or at water.

Never transport a loaded firearm.

Avoid alcoholic beverages or drugs when shooting or handling a firearm.

See also page 58 for a **FREE** safety offer and page 48 for gun safes.
