Charles Daly[®]
The Shooting Sports Specialist[™]

MODEL 206

The Charles Daly 206 over & under shotguns are the newest addition to our extensive line of "Custom Crafted" firearms. Offering supreme elegance, superb construction and standard features usually found only in guns costing much more, the 206 range will surely please the most demanding hunter or competitive over & under shooter.

Available in 12 gauge only with single selective trigger, extractors and multi-choke tubes, or with selective automatic ejectors, you'll find construction that features chrome-moly barrels and beautifully figured and checkered select Turkish walnut stocks.

Our Field model is available with 26" or 28" barrels. Our Sporting model, in 28" or 30" ported barrels, feature a wide 10mm ventilated rib and side ventilated ribs. Our Trap model comes with the same 10mm top rib and side ventilated ribs and includes a Monte-Carlo Trap buttstock. Both competition ribs have mid-brass bead and front fluorescent sights.

MODEL 206 – FIELD GRADE

- 12 gauge with 26" or 28" barrels

MODEL 206 – TRAP

- 12 gauge 30" barrels
- Selective Automatic Ejectors
- 10mm Wide Ventilated rib with mid-bead and front fluorescent sights
- Side Ventilated Ribs
- 5 Multi-Choke Tubes
- Select Turkish walnut stocks with Monte-Carlo buttstock

- Elegant silver receiver with satin finish

- Competition barrels with 10mm wide ventilated top rib and side ventilated ribs
- Factory porting
- Mid-brass bead and front fluorescent sights

FIELD SEMI-AUTOS

Semi-autos are far and away the most popular shotguns in the market place, and Charles Daly's semi-autos are capturing that market by offering an amazing array of configurations encompassing all gauges, barrel lengths and finishes at an affordable price.

All Charles Daly semi-auto receivers are machined from solid bars of aluminum alloy creating a lightweight, yet exceptional strong and versatile, shotgun that will handle both 2-3/4" and 3" shells reliably. Interchangeable barrels are machined from chrome-moly steel, guaranteed to withstand steel shot. VR-MC models feature ventilated ribs and come standard with 3 multichoke tubes (Full, Modified, Improved Cylinder). Vented recoil pads are standard with every Charles Daly semi-auto shotgun.

Field Grade semi-autos are as versatile on the outside as they are strong on the inside. In the standard black synthetic or the revolutionary HD imaging process from Bill Jordan, they are available in Advantage MAX-4 HD, Advantage Timber HD, Realtree Hardwoods HD, Realtree AP HD and AP Green HD. Now available in 12, 20, and 28 gauges, the Daly Field Grade is the perfect shotgun for every hunting situation.

FIELD HUNTER VR-MC ADVANTAGE MAX-4® HD™

- Factory applied full coverage camouflage

SUPERIOR SEMI-AUTO WOOD

Charles Daly reaches new heights with the introduction of the next generation Superior II semi-auto shotguns. Superior II semi-autos offer the classic look of a beautiful oil finished select Turkish walnut stock mated with a hi-polished black receiver and barrel, all without a budget busting price tag. Our selection is complete with Hunter, Sport and Trap versions in many different gauges and barrel lengths.

All Superior II semi-auto receivers begin as solid blocks of aluminum and are machined on CNC equipment. Barrels are deep-hole drilled from chrome-moly steel, internally honed and polished.

Superior II Hunter models are available in 12 and 20 gauges with either 26" or 28" multi-choked barrels. Upland bird hunters will find our 28 gauge is the perfect gun for quail.

Clay bird shooters will appreciate that Superior II Trap and Sport models come with factory ported barrels, 10mm wide ventilated ribs, and brass mid-beads with red fluorescent front sights. Trap models also feature a Monte Carlo buttstock.

All Charles Daly Superior II semi-autos come with 3 multichoke tubes (Full, Modified, Improved Cylinder) and are perfect for a day of shooting sports adventure.

- 3 multichokes in 28" or 30" factory interchangeable barrels
- Wide 10mm ventilated rib
- Mid-bead center sight and fluorescent bead front sight
- Select oil finished Turkish walnut stocks

SUPERIOR II TRAP VR-MC 12 GA.

- 3 external multichokes in 30" factory ported interchangeable barrels
- Wide 10mm ventilated rib
- Mid-bead center sight and fluorescent bead front sight
- Select oil finished Turkish walnut stocks with Monte Carlo comb

FIELD PUMPS

Charles Daly pump action shotguns are the definition of affordable reliability and available in an amazing number of finishes, gauges, and barrel lengths. Like our semi-autos, our pump action shotguns feature receivers machined from blocks of aluminum making them extremely light weight, incredibly strong and capable of handling 2-3/4" and 3" shells. The interchangeable barrels are bored from chrome-moly steel rods, internally honed and highly polished. Perfect for the use of steel shot that waterfowl hunters demand.

Charles Daly pumps are available in black synthetic, Advantage Timber HD, Realtree Hardwoods HD, Realtree AP HD and AP Green HD patterns. Our youth models are also available in the Advantage Timber HD pattern.

All Charles Daly pump shotguns come with recoil pads. VR-MC models come with 1 multichoke tube (Modified).

FIELD HUNTER VR-MC ADVANTAGE TIMBER® HD™

- Factory applied full coverage camouflage
- 12 ga. - multichoke in 24", 26", or 28" barrels

- 20 ga. - multichoke 22" interchangeable barrel
- Youth buttstock with 1-5/8" shorter length of pull; upgradeable to full size
- Lightweight aluminum receiver and synthetic stocks

SLUG PUMPS AND AUTOS

Charles Daly has two choices in both pumps and semi-autos for the serious slug shooter that requires performance, versatility, and an unbeatable price.

The pump and semi-auto FRB shotguns are available in 12 gauge with 22" fully rifled barrels with a choice of adjustable rifled sights or a cantilever scope mount. For versatility, we offer a combo barrel model with an additional 28" vent rib, multichoke barrel. To fit your hunting situation, the FRB models are offered in black finish or Realtree AP HD.

Our model ERCT pump and semi-auto shotguns offer a choice of 12 or 20 gauge with a 22" smooth bore chrome lined barrel and an extended rifled choke tube. Again available with either adjustable rifled sights or cantilever scope mounts and options of black, Realtree Hardwoods HD, or Realtree AP finishes. A truly versatile shotgun at an exceptional price to meet the demands of the deer and turkey hunter.

FIELD FRB SEMI-AUTO ADJUSTABLE SIGHTS

- Fully adjustable sights
- 12 ga. - 22" fully rifled interchangeable barrel
- Available in black or Realtree AP camouflage and as combo with 28" multichoke barrel

- 12 or 20 ga. - 22" smooth bore barrel with extended rifled choke tube
- Youth model available with 1-5/8" shorter buttstock
- Available in black or Realtree Hardwoods HD camouflage

MAXI-MAG 3 1/2" PUMPS AND AUTOS

Available in semi-auto or pump action, The Charles Daly Maxi-Mag is the perfect special purpose 12 gauge shotgun for the waterfowl or turkey and is a must to own for any hunter.

Specifically chambered for 3-1/2" shells and available in black synthetic or High Definition camouflage patterns, the Charles Daly Maxi-Mag shotguns are not just a modified version of our 3" field grade models, but designed from the ground up to safely handle the most powerful 3-1/2" loads. The interchangeable barrels made from chrome-moly steel are factory ported, internally honed and hi-polished, ready to withstand the rigors of steel shot loads.

All Charles Daly Maxi-Mag semi-auto shotguns are so reliable we guarantee they'll cycle with all 12 gauge loads from 2-3/4" 1-1/4 ounce of shot on up to the most powerful 3-1/2" load. Maxi-Mag pumps will handle all 2-3/4", 3", and 3-1/2" loads.

The Maxi-Mag Turkey package is available in your choice of semi-auto or pump action; it comes completely masked in Advantage Timber HD or Realtree Hardwoods HD camo with 24" barrel topped with Hi-Viz TomBuster LitePipe sights, an extended XX-Full ported turkey tube (semi-autos come with 3 additional choke tubes, pump shotguns come with one interchangeable choke tube), quick detachable sling swivels and a matching Uncle Mike's camo sling, all at a price you won't believe possible in a 3-1/2" chambered shotgun.

- Factory ported barrels

FIELD 1911

There are an extraordinary amount of standard features in the Charles Daly Enhance 1911 pistols. Loaded with enhancements that are found in pistols costing hundreds more, all models include an extended hi-rise beavertail grip safety, combat trigger, combat hammer, beveled magazine well, flared and lowered ejection port, dovetailed front and rear sights, and hand checkered double diamond hardwood grips. The EFS and EMS models include snag-free low profile sights, an ambidextrous safety and the EFS has an extended slide release. Two magazines are supplied with each 1911 pistol, along with a lockable high impact carrying case.

All Daly 1911 A-1 pistols are built from the finest steels on state of the art CNC machining equipment. Tolerances are extremely tight, insuring superb accuracy and function. Field Grade models are satin finished blued steel. From the EFS (5" barrel - 8 shot magazine), to the EMS (4" barrel - 8 shot magazine) to the ECS (3-1/2" barrel - 6 shot magazine), Daly Field 1911's now come in every size you need. For competition or concealed carry, Daly has them all.

FIELD EFS

- .45 ACP with 5" barrel
- Flared & lowered ejection port
- Front & rear dovetail sights
- Ambidextrous safety
- Hi-rise beavertail grip safety
- Beveled magazine well
- Low profile snag-free sights

FIELD EMS

- .45 ACP with 4" bull barrel
- Flared & lowered ejection port
- Front & rear dovetail sights
- Ambidextrous safety
- Hi-rise beavertail grip safety
- Beveled Magazine Well
- Low profile snag-free sights

FIELD ECS

- .45 ACP with 3-1/2" bull barrel
- Flared & lowered ejection port
- Front & rear dovetail sights
- Contoured thumb safety
- Hi-rise beavertail grip safety
- Beveled magazine well
- Low profile snag-free sights

BUL M-5

Charles Daly raised the bar for pistol shooters with the introduction of the Daly M-5 polymer framed 1911 A-1 by BUL. Built in Israel and using state-of-the-art production techniques, BUL manufactures its line of pistols to the highest standard of precision and quality you've come to expect from Charles Daly. Every gun is tested for function, accuracy and reliability. The M-5 stainless steel beaver-tail grip safeties are an advanced design lowering the pistol deeper into your hand, reducing muzzle flip and felt recoil. The raised contact pad with serrations insures a full activation and sure grip every time. With a rounded trigger-guard, the Daly M-5 is compatible with a wide range of holsters and accessories.

The Daly M-5 1911 A-1 pistol in Government, Commander, and Ultra X compact are available in .45ACP with the Ultra X also available in 9mm. From the ultimate in concealed carry to an affordable Government model, we are hundreds of dollars less than the competition.

DALY M-5 COMMANDER

- .45ACP with polymer frame
- 4-1/3" Barrel
- Stainless steel beaver-tail grip safety

COWBOY LONG GUNS

Charles Daly has 5 new models of rifles and shotguns that will certainly get the attention of the active cowboy shooter, the hunter, the long range target shooter, to the replica collector. To compliment the Charles Daly 1892 lever action standard and take down rifle, we have added to the rifle line the 1892 Lever Action Large Loop carbine in .45ACP, the new and carryable designed Little Sharps rifle of 80% scale in many calibers, and the "Buffalo Stick", full size 1874 Sharps in 45/70.

The new Charles Daly Classic Coach shotgun with external hammers and the new Charles Daly 1887 Lever Action shotgun will definitely get the competitive juices flowing in the cowboy action shooter. Take an adventure into the Wild West with your Charles Daly cowboy long gun!
