# X Series Bolt Action Rifles

*Marlin*<sup>®</sup>  
America's Favorite Riflemaker

**Accuracy Assured** The XL7 is the best rifle in its class. Built with the latest in riflemaking design and technology, it has practical features that matter to practical hunters: An innovative accuracy enhancing trigger; a smooth, dependable, easy to cycle action; a precision button rifled barrel; a pillar bedded synthetic stock and an easy to carry lightweight design.

While a thoroughly modern rifle, the X-Series' best feature is that it's a Marlin. Built with over 130 years of riflemaking experience, the XL7 continues Marlin's tradition of producing great hunting rifles at a great price. Accurate and dependable, the XL7 is Marlin's next generation of hunting rifle for any generation of hunter.

# XL7

**NEW Model XL7** The XL7 has been built for those who demand premium features at a fair price. Noteworthy features include Marlin's NEW adjustable Pro-Fire™ trigger system, a Marlin designed Soft-Tech™ recoil pad, a raised cheek piece for shooting comfort, a fluted bolt for speed and smoothness, a pillar bedded stock for accuracy enhancement, precision-button rifled barrel with recessed "target style" muzzle crown, a fully enclosed bolt shroud for your protection and a solid one-piece scope base. Priced right, the XL7 is a rifle that you can be proud of at a price you can afford.

**NEW Model XL7C** Camouflage is gaining popularity daily, and that's why we equipped the XL7C with one of the most recognized camo patterns in the world: Realtree APG HD®. This model possesses all the great features of the XL7, but stylishly camouflage-dipped. It'll make your next stalk a picture-taking event!

<b>Sights</b>	No sights provided. One piece scope base included	No sights provided. One piece scope base included
<b>Length</b>	42.5"	42.5"
<b>Weight</b>	6½ lbs.	6½ lbs.

**Soft-Tech™ Recoil Pad:** *The XL7 butt stock is capped with a true recoil pad, not just a rubber plate. Exclusive to Marlin, the Soft-Tech pad significantly reduces felt recoil, making the XL7 more pleasant to shoot than other rifles in its class.*

**Precision Button Rifled Barrel with Recessed Target-Style Crown:** *The target style muzzle crown on the XL7 is deeply recessed like a precision target rifle. This crown protects the rifling at the muzzle end much better than standard "sporting" rifle muzzle crowns, preserving accuracy.*

**Pro-Fire™ Trigger System:** *Marlin's innovative Pro-Fire trigger system is user adjustable, virtually creep free and can be set to break at a crisp 2-1/2 lbs. Available only from Marlin, the Pro-Fire's trigger release prevents movement of the trigger until it is depressed.*

**Fluted Bolt:** *Marlin's fluted bolt design decreases surface area and resulting drag, making the XL7's bolt one of the smoothest actions available.*

**Fully enclosed bolt shroud with cocking indicator:** *The XL7's fully enclosed bolt shroud protects the shooter in the event of a pierced primer or case failure. An easy to see cocking indicator is visible under the bolt shroud when the gun is cocked.*

**Barrel nut construction:** *The barrel is joined to the receiver by a barrel nut, ensuring consistent and accurate headspacing, resulting in greater accuracy.*

## Accuracy Assured

It takes more than just one feature to make an accurate rifle. That's why Marlin's X Series offers the best combination of accuracy-enhancing features in its class.

- 1. Pro-Fire™ Trigger System:** Virtually creep free, and user-adjustable to a crisp 2-1/2lbs
- 2. Recessed Target Style Muzzle Crown:** Deeply recessed crown protects rifling and accuracy
- 3. Barrel Nut Construction:** Ensures consistent and accurate headspacing for accuracy
- 4. Pillar Bedding:** Steel pillars incorporated into the stock guarantee a solid union with the action

# Lever Action 308 Marlin Express Centerfire Rifles

*Marlin*<sup>®</sup>  
America's Favorite Riflemaker

Another one of our successful collaborations with Hornady Manufacturing led to the introduction of last year's Models 308MX and 308MXLR, chambered for Hornady's 308 Marlin Express ammunition. A hot .30 caliber rimmed cartridge designed for maximum velocity, flat trajectory and smashing downrange energy, finally there is a traditional lever action rifle worthy of western game.

**Model 308MXLR** This model features a 24" stainless steel barrel, along with a stainless steel receiver, trigger guard plate, magazine tube, loading gate, and lever, and a full pistol grip two-tone laminated stock with swivel studs. Other features are a solid top receiver, tapped for scope mount, side-ejection, adjustable folding semi-buckhorn rear sight, and ramp front sight.

**Model 308MX** This blued lever action is also chambered for the breakthrough 308 Marlin Express. It produces 308 Win.-type performance for hunters who prefer traditional blued rifles with 22" barrels, and walnut stocks. Also, the side-ejection lever action makes the rifle ambidextrous for left handed shooters and offers an easy way to mount a scope.

Model 308MXLR (Scope not included)

Model 308MX

*The Evolution bullet provides a higher ballistic coefficient and affords dramatic velocity increases over traditional flat point loads!*

# Lever Action Big Bore Centerfire Rifles

*Marlin*<sup>®</sup>  
America's Favorite Riflemaker

**The Classic Model 1895** This is the tried and true configuration of this famous 45/70 rifle. It features a 22" barrel with deep-cut Ballard-type rifling and an American black walnut pistol grip stock with cut checkering and swivel studs.

**Model 1895M in 450 Marlin** Here is an upgrade of the classic 45/70 Government. It's the highest performance cartridge ever offered in a Marlin big bore lever action rifle. We've harnessed all this power into a compact 7-pound package. This Marlin lever action features an 18½" Ballard-type cut rifled barrel, a 4-shot tubular magazine, and a checkered straight-grip American black walnut stock with ventilated recoil pad and swivel studs.

**Model 1895G "Guide Gun"** The hunter who's looking for plenty of power in a compact, stow-anywhere package will find the ideal solution in our Model 1895G. The mighty 45/70 Government cartridge has proven its worth on every species of large North American game from Maine to Alaska. This rugged lever action rifle weighs only 7 pounds, and features an 18½" barrel with Ballard-type cut rifling.

**Model 1895GS** Our best-selling Model 1895G Guide Gun in stainless steel. The receiver, barrel and all major metal parts are machined from stainless steel, and most other metal parts are nickel-plated. It features an 18½" stainless steel barrel with deep-cut Ballard-type rifling, a 4-shot tubular magazine, an adjustable semi-buckhorn folding rear sight and ramp front sight with brass bead and Wide-Scan™ hood. The stock is American black walnut with cut checkering and a ventilated recoil pad.

**1895XLR** An XLR model is also available in 45-70 Government chambering, with a 4-shot tubular magazine, 24" stainless steel barrel, along with stainless steel receiver, trigger guard plate, magazine tube, loading gate, and lever. Full pistol grip and swivel studs. Features solid top receiver tapped for scope mount, side-ejection, adjustable folding semi-buckhorn rear sight, and ramp front sight.

**1895MXLR** The power of our 450 Marlin with the performance of the LEVEREVOLUTION™ technology results in very impressive ballistics. This XLR model has a 4-shot tubular magazine, 24" stainless steel barrel, along with stainless receiver, trigger guard plate, loading gate and lever. Full pistol grip and swivel studs. Features solid top receiver tapped for scope mount, side-ejection, adjustable folding semi-buckhorn rear sight, and ramp front sight.

**Model 444 and 444XLR** Big bore favorites that combine the power of the big 444 Marlin cartridge—which generates nearly 1½ tons of muzzle energy—with the quick and super-smooth Marlin lever action system. Its 22" barrel makes the 444 a real joy to handle, no matter what the conditions. The XLR version includes stainless steel components, 24" barrel, fluted bolt and deluxe recoil pad.

### Hot Big Bore Ammo!

Improve the performance of any Marlin big bore with Hornady LEVEREVOLUTION™ ammo. Dramatically increases velocity, accuracy and energy.

## Centerfire Lever Action Safety Features

### Four safety features:

Every Marlin centerfire lever action has these safety features:

- 1.) **Two-piece firing pin.** The rear section of the pin drops out of alignment with the front until the locking bolt is fully engaged.
- 2.) **Trigger block.** This device prevents the trigger from being pulled until the lever is closed.
- 3.) **Half cock hammer position.** This is the traditional lever action hammer safety position.
- 4.) **Hammer block safety.** When engaged, it prevents the hammer from striking the firing pin, even if the trigger is pulled.

# Lever Action 336 Centerfire Rifles

*Marlin*<sup>®</sup>  
America's Favorite Riflemaker

It's hard to think of a time when the Marlin lever action centerfire hasn't been regarded as *the* American hunting rifle. No ifs, ands or buts. For well over a century, these classics have been virtually synonymous with dependability, flawless performance and accuracy, at a reasonable price. There's also true side ejection, making it an ambidextrous action—an added advantage to left-handed shooters—and makes mounting optics quick and easy.

**Model 336C** Known for its rugged styling, pinpoint accuracy, and incredible dependability, this popular pistol grip carbine has a flat, solid top receiver and hammer block safety. The 336C has become one of the most popular rifles in North America. Its genuine American black walnut stock is enhanced with fine cut checkering. In addition to 30/30 Win., the 336C is also available in 35 Rem., a cartridge favored by many hunters because of its reputation as a hard-hitting brush-buster.

**Model 336W** Created for the no-nonsense deer hunter, the Model 336W lever action has a 6-shot capacity, in 30/30 Win. The 20" Micro-Groove<sup>®</sup> barrel features adjustable rear and bead front sights, and the receiver is tapped for a scope mount. It features a gold-plated steel trigger and a blued steel barrel band. The walnut-finished hardwood stock has cut checkering and comes with swivels and a padded nylon sling. Now also available with a factory-mounted and bore-sighted 3-9x32mm scope.

**Model 336SS** Foul weather won't faze this stainless version of our field-proven Model 336 in 30/30. Most of its major metal parts are

machined from stainless steel forgings, others are nickel-plated. The American walnut pistol grip stock features classic cut checkering, and sights include an adjustable rear and ramp front sight with brass bead and removable Wide-Scan<sup>™</sup> hood.

**Model 336XLR** Chambered in 30/30 and in 35 Rem., this model features 5-shot tubular magazine, fluted bolt, 24" stainless steel barrel, along with stainless steel receiver, trigger guard plate, magazine tube, loading gate, and lever. Full pistol grip and swivel studs. Features solid top receiver tapped for scope mount, side-ejection, adjustable folding semi-buckhorn rear sight, and a ramp front sight. LEVEREVOLUTION<sup>™</sup> ammo has turned the venerable 30/30 and the potent 35 Rem. into 250+ yard deer rifles!

# Lever Action 1894 Centerfire Rifles

*Marlin*<sup>®</sup>  
America's Favorite Riflemaker

**Model 1894** Reminiscent of the sporting lever action rifles of an earlier era, this elegant short rifle in 44 Magnum/44 Special features a 20" barrel with Ballard-type rifling, an American black walnut straight-grip stock, cut checkering and a rubber rifle butt pad. Sights include an adjustable semi-buckhorn folding rear, and ramp front sight with brass bead and Wide-Scan™ hood. The solid-top receiver is tapped for a scope mount, and the rifle comes with offset, right or left hand, hammer spur for scope use.

**Model 1894C** Chambered for 357 Mag./38 Spl., the 1894C is the natural sidekick to the 357 Magnum or 38 Special revolver. It features an 18½" barrel with deep-cut Ballard-type rifling, and superb balance. This an extremely quick-handling little carbine.

**Model 1894SS** Any weather is ideal weather for an outing with this stainless steel 44 Magnum/44 Special rifle. The 1894SS is a brush buster that spits out 10 fast shots with plenty of knockdown power (in 44 Mag.), making it a favorite for deer and black bear.

# Lever Action 39A 22 Rifle

Model Golden 39A

**Model 39A** The incomparable Marlin Golden 39A represents the oldest shoulder firearm design still being made anywhere in the world. In fact, the 39's great-grandfather, the Model 1891, was the first repeating rifle to be chambered for the 22 Long Rifle cartridge.

The fact is, the Model 39 is still the standard by which all other 22 sporting rifles are judged. Understandable when you consider the clean, flat, solid top receiver, and an action machined from solid steel forgings, which are then heat-treated for greater strength.

The Model 39A also features a rebounding hammer, a hammer block safety, and it disassembles in seconds with only a coin. The stock is crafted from genuine American black walnut and features fine cut-checkering. Thanks to Micro-Groove® rifling, a special process that produces less bullet distortion and a better gas seal, the 39A gives you the kind of accuracy most other 22's can't touch.

(See more about Micro-Groove® rifling on the back cover)

# Autoloading 22's with Tubular Magazines

*Marlin*<sup>®</sup>  
America's Favorite Riflemaker

Nobody in the world has sold more autoloading 22 rifles than Marlin. In fact, we've made well over eleven million to date. And it's pretty easy to see why they're so popular, once you see what goes into them. Their simple, fast actions are known far and wide for uncompromising reliability, and their ability to stand up under the wide range of conditions that you'll encounter when shooting or hunting.

**Model 60** An economically priced rifle that's earned the title of "most popular 22 in the world." Since the Model 60 was introduced in 1960, it has continuously represented a great value. It has a 19" Micro-Groove<sup>®</sup> rifled barrel, cross-bolt safety, manual bolt hold-open and a patented automatic "last-shot" bolt hold-open, a safety feature that locks the bolt open after you've fired the last shot, allowing you to see into the open action. And with features such as its sleek walnut-finished hardwood stock, and a precision-crowned muzzle for enhanced accuracy, it's easy to see why the Model 60 continues to be one of America's best selling rifles.

**Model 60C** (See inset page 13) The world's most popular 22 rifle is also available with a camouflage stock. With features identical to the Model 60, the Model 60C comes with a hardwood Monte Carlo stock featuring a popular camouflage pattern.

**Model 60SB** America's favorite autoloading 22 rifle also comes in weather-proof stainless steel, with a walnut finished hardwood stock. The tubular magazine holds 14 Long Rifle cartridges. The adjustable semi-buckhorn rear sight is complemented by a ramp front sight with high-visibility post and cutaway Wide-Scan<sup>™</sup> hood.

**Model 60SN** The classic Model 60 with a rugged economical black synthetic stock with molded-in checkering and swivel studs. It also has all of the great features of the standard Model 60. Also available with a factory-mounted and bore-sighted 4x20mm scope

**Model 60S-CF** Here's our stainless steel Model 60 with the high-tech look of a carbon fiber pattern synthetic stock. It also features molded-in checkering and swivel studs.

**Model 60SS** How do you improve upon the simplicity and reliability of the world's most popular 22 autoloader? We've given it the all-weather versatility of stainless steel and the rugged good looks of a two-tone laminated stock. The barrel is made from stain and corrosion-resistant stainless steel. Most other metal parts are nickel-plated. The deluxe 60SS features a 19" tack-driving Micro-Groove<sup>®</sup> barrel, 14-shot tubular magazine, positive cross-bolt safety, manual bolt hold-open, and our patented "last-shot" bolt hold-open, which locks the bolt open after the last shot is fired. The handsome Monte Carlo stock is crafted from a striking grey/black hardwood laminate, and sports a full pistol grip, swivel studs and a rubber rifle butt pad.

Specifications subject to change without notice

**Model 60**  
The world's most popular 22 rifle.

**Cross-bolt safety.** All Marlin 22 caliber autoloaders feature a convenient cross-bolt safety located in the rear of the trigger guard.

**Automatic "last-shot" bolt hold-open.** An important safety feature on all Marlin autoloading 22's, our patented automatic "last-shot" bolt hold-open locks the bolt open after the last shot has been fired, allowing the shooter to see into the open action.

**Model 60SB**

**Model 60SN**  
Available with a factory-mounted 4x20mm scope

**Model 60C features** a hardwood Monte Carlo stock with Realtree™ camouflage pattern.

**Model 60S-CF features** a synthetic stock dipped with a carbon fiber pattern, giving it a racy, high tech look.

**Model 60S-CF**

**Model 60SS**

**Laminated Stocks\*.** The Models 60SS, 983S, thumbhole stock models, and the XLR series feature two-tone laminated hardwood stocks. In addition to their ruggedness and good looks, laminated stocks are noted for their stability through a wide range of temperature and moisture variations.

# Autoloading 22's with Clip Magazines

*Marlin*<sup>®</sup>  
America's Favorite Riflemaker

If you're looking for a 22 rifle that gives you the flexibility of a removable clip magazine at a reasonable price, Marlin has autoloaders that are right on target. And right on the money.

**Model 795** This rugged, economical 22 autoloader has the wide appeal that's made it a winner. The Model 795 features an 18" barrel, 10-shot nickel-plated clip magazine, and an automatic "last-shot" bolt hold-open. Its stock is black fiberglass-reinforced synthetic with molded-in checkering and swivel studs. It's fitted with an adjustable open rear sight and a ramp front sight.

**Model 795SS** We've taken the popular Model 795 autoloader and replicated it in weather-beating stainless steel. The Model 795SS is designed and built to be an all-season favorite, with a virtually indestructible black fiberglass-reinforced synthetic stock with molded-in checkering and swivel studs. An 18" Micro-Groove<sup>®</sup> rifled barrel makes for optimum 22 Long Rifle accuracy.

**Model 70PSS Stainless** If you like to take a rifle with you when you're backpacking, boating, four-wheeling or just taking a hike, the Model 70PSS, with its 7-shot clip magazine, is a natural for you. You can take it apart or put it together in a matter of seconds. And, the all-weather "Papoose" enjoys the versatility of stainless steel construction, combined with a rugged fiberglass-filled black synthetic stock. It's also equipped with an automatic "last-shot" bolt hold-open, as well as a manual hold-open. It comes in a padded carrying case with built-in flotation.

And like all Marlin rifles, they are made in America, by American craftsmen.

# 17 HMR Thumbhole Stock Rifles

*Marlin*<sup>®</sup>  
America's Favorite Riflemaker

*Hunting varmints has never been more fun now that we've combined the accuracy of a 917 with the comfort of thumbhole stocks.*

**NEW Model 917VT** Featuring a brown laminated thumbhole stock and blued heavy barrel, this new model also includes 4 and 7-shot clip magazines, and is grooved for scope mount and is drilled & tapped for a scope base.

**NEW Model 917VST** For those who prefer a stainless model, this grey-black laminate thumbhole stock features a heavy stainless steel barrel, receiver and striker knob. Like all Marlin bolt action rimfire rifles, they include our popular T-900 fire control system.

**NEW Model 917VT**

**NEW Model 917VST**

*Raised cheek piece properly positions the shooter's eye to the rifle scope.*

*Popular thumbhole stock design aids comfortable and accurate shooting.*

**Ideal for:**

- Targets 
- Small Game 
- Varmints

# 17 HMR Bolt Action Rifles

*Marlin*<sup>®</sup>  
America's Favorite Riflemaker

**Model 917** This no-nonsense model features a black synthetic stock, a 22" sporter barrel with open sights, and comes with a 4-shot and a 7-shot clip magazine.

**Model 917S** Identical to our 917, but features a stainless steel barrel and nickel plated swivel studs.

**Model 917V** Here's fast company for smallbore hunters. Our Model 917V was the blued steel launching platform for the 17HMR. Firing a high-performance V-MAX boat-tail jacketed bullet, it generates at least 25% more muzzle velocity than the 22 Win. Mag. The Model 917V features a heavy 22" barrel, double bedding screws, and special inletting to enhance accuracy. It now comes with both a 4-shot and a 7-shot clip, and has a

rugged walnut finished hardwood Monte Carlo stock with sling swivel studs. Now available with a factory-mounted and bore-sighted 3-9x32mm variable scope.

**All Marlin bolt action rimfire rifles feature the advanced T-900™ Fire Control System.**

**Model 917VR** This has all the features of the 917V, plus a newly designed black synthetic stock.

**Model 917VS** Varmints beware! This rifle features a heavy 22" stainless barrel and now comes with two clip magazines – our standard 7-shot, and a 4-shot. The grey/black hardwood laminate Monte Carlo stock is stable in the worst of weather, and comes complete with nickel-plated sling swivel studs.

**Model 917VSF** (See inset page 17) Rounding out the 17HMR bolt action line is the 917VSF. It has all the features of the 917VS, plus a stainless fluted barrel. Flutes not only enhance the graceful lines of the rifle, they also dissipate heat and slightly reduce barrel weight.

**Model 917VS-CF** This version of our 917VS features our handsome synthetic stock dipped in a carbon fiber pattern.

# 22 Win. Magnum Bolt Action Rifles

*Marlin*<sup>®</sup>  
America's Favorite Riflemaker

At first glance, it's hard to tell these sleek, good-looking 22's aren't true "big game" rifles. With their Monte Carlo stocks, heft and balance, they are as close to a centerfire rifle as a 22 rimfire ever gets.

All models feature the legendary Marlin Micro-Groove<sup>®</sup> barrels. Unlike conventional rifling, our exclusive Micro-Groove<sup>®</sup> rifling results in considerably less distortion of the bullet and a better gas seal, for unrivaled accuracy. See more about Micro-Groove<sup>®</sup> rifling on the back cover.

And just to make sure that every rifle we make is as accurate as we say it is, each one is sighted-in on our test range.

**Model 983** The Model 983 has a traditional walnut stock with cut checkering, and a blued steel finish. It features a semi-buckhorn folding rear sight, and a ramp front sight with a brass bead and Wide-Scan<sup>™</sup> hood.

**Model 983T** If you're looking for a 22 Win. Magnum bolt action rifle at a very attractive price, and with the toughness and stability of a fiberglass-reinforced synthetic stock, our Model 983T fills the bill. It features a 22" Micro-Groove<sup>®</sup> barrel and a 12-shot tubular magazine.

**All Marlin bolt action rimfire rifles feature the advanced T-900<sup>™</sup> Fire Control System.**

**Model 983S** This was the first stainless bolt action rifle with the Marlin name on it. The barrel is made with 400 Series stainless steel. The handsome Monte Carlo two-tone brown laminated stock is equipped with swivel studs and a rubber rifle butt pad. The rear sight is an adjustable folding semi-buckhorn, and the ramp front sight has a high visibility post and cutaway Wide-Scan<sup>™</sup> hood. The 983S has a 22" barrel, featuring famous Micro-Groove<sup>®</sup> rifling, and a tubular magazine with a big 12-shot capacity.

**Model 982VS** Here's a real treat for varmint hunters. The Model 982VS is a tack-driving stainless steel 22 Magnum bolt action repeater with a heavy 22" Micro-Groove<sup>®</sup> target barrel, anchored with double bedding screws. It now comes with a 4-shot as well as a 7-shot nickel-plated clip magazine. We've fitted this rifle with a black fiberglass-reinforced synthetic stock with molded-in checkering, and nickel-plated swivel studs.

**Model 982VS-CF** Identical to 982VS, with the added feature of our carbon fiber dip pattern on a fiberglass-filled synthetic stock. Comes with 4-shot and 7-shot clip magazines.

**Model 925M** This economical 22 WMR comes with a 4-shot and a 7-shot clip magazine, and a Monte Carlo walnut-finished hardwood stock with swivel studs.

# 22 Bolt Action Rifles

## Classic looks and loads of features.

These bolt action 22's have the styling and features you would expect from Marlin. Our receivers are machined from solid steel bars. What's more, the barrels of all Marlin 22 rifles have our exclusive Micro-Groove<sup>®</sup> rifling, giving them superior accuracy. These rifles also feature a red cocking indicator that clearly appears on top of the striker knob whenever the rifle is cocked, and a safety with high visibility "FIRE" and "SAFE" positions. Bolt handles are shaped so that you can mount most 1" scopes.

**Model 980S** This handsome bolt action repeater has a barrel crafted from stainless steel. It also features a rugged black synthetic stock, adding even more durability and weather resistance.

**Model 980S-CF** (See inset below) A stainless steel model dipped with our carbon fiber pattern synthetic stock for a high-tech look and rugged durability.

**Model 981T** If a tube-loading bolt action 22 is what you are looking for, Marlin is the only place you will find it – in our 981T. It has a 22" Micro-Groove<sup>®</sup> barrel, and a black fiberglass-filled synthetic stock with swivel studs and molded-in checkering. And its full length magazine holds 25 Short, 19 Long or 17 Long Rifle cartridges.

**Model 925** This clip-loading 22 rifle represents one of the best buys around in a bolt action repeater. It features an all-business hardwood stock with swivel studs, a 22" Micro-Groove<sup>®</sup> barrel and a 7-shot clip magazine.

**Model 925C** Based on the sturdy, economical Model 925, this 22 clip-fed bolt action rifle has everything you want. It comes with a 22" Micro-Groove<sup>®</sup> barrel and an adjustable rear sight. The Model 925C comes with a hardwood Monte Carlo stock featuring a popular camouflage pattern, perfect for blending into the woods.

**Model 925R** Here is our Model 925 featuring a black synthetic stock with molded-in checkering and swivel studs. Now also available with a factory-mounted and bore-sighted 3-9x32mm variable scope.

**Model 915Y Single Shot** A perfect way to introduce children to the sport is with the Model 915Y, 22 compact rifle. This single shot is scaled down for smaller frames, it cocks on opening, and features an easy-load feed ramp, and a thumb safety that can be left engaged while loading and unloading.

### Model 915YS Single Shot

Regardless of the weather, any day spent shooting with the grown-ups is a great day for a youngster. And here's a great beginners' single shot that can shrug off rain, snow and mud. The Model 915YS is the stainless steel version of our Model 915Y, with the same easy-load feed ramp and positive safety features. The Monte Carlo walnut-finished hardwood stock features a full pistol grip.

If you're looking for long-term value and dependability in a bolt action 22, you don't need to look any further.

**Model 980S-CF**  
This version of our 980S features our new synthetic stock with a hi-tech carbon fiber pattern.

# L.C. Smith Shotguns

Back in 1945, Marlin bought The Hunter Arms Company of Fulton, NY, the maker of the legendary L.C. Smith side-by-side shotgun. Nicknamed the "Elsie", this sidelock double gun was made for a few years in the Marlin plant before being phased out due to high manufacturing costs.

Although we have not been able to bring back the L.C. Smith as an American-made gun, we do have European craftsmen building models worthy of the great L.C. Smith name. These side-by-sides feature box lock actions with side plates to echo the look of the original Smith guns.

And, although there were no over-and-under L.C. Smiths, we are offering 12- and 20-gauge models with the same excellent level of quality.

**Model LC28-DB** Superbly balanced 28 gauge, built on a true 28ga. frame. Features include: 26" blued barrels, with hard chromed bores and interchangeable choke tubes (IC, M, F); raised, solid rib, with front bead; hinged single selective, mechanical trigger; auto selective ejectors; box lock action and case-colored finish; push button, top tang, manual safety, with integrated barrel selector; walnut pistol grip style buttstock and semi-beavertail forearm with classic L.C. Smith checkering pattern. Honored in 2007 with Field and Stream's "Best of the Best" in shotgun category.

**Model LC410-DB** A side-by-side .410 bore, beautifully crafted with fleur-de-lis checkered walnut stock, single selective trigger, selective automatic ejectors, three choke tubes (IC, M, F), and a solid, matted rib. The case-colored receiver has gold game bird embellishments on the sides and bottom.

**Model LC12-DB** This 12-gauge double barrel features a 3" chamber, a single trigger, selective automatic ejectors, three choke tubes (IC, M, F), 28" chrome-lined barrels with a solid rib and a bead front sight. Its walnut stock is checkered, and has a fluted comb, a beavertail forearm and a recoil pad. Case-coloring on the receiver and side plates adds an elegant touch.

**Model LC20-DB** This 20-gauge side-by-side model has the same features as the 12-gauge, except its chrome-lined barrels are 26".

**Model LC12-OU** A handsome over-and-under that features a 3" chamber, a single selective trigger, selective automatic ejectors, automatic safety, three choke tubes (IC, M, F), 28" chrome-lined barrels with ventilated rib and bead front sight. It has a checkered walnut stock with a fluted comb and recoil pad.

**Model LC20-OU** The 20-gauge version of the L.C. Smith over-and-under has all the same features as the 12-gauge, except its chrome-lined barrels are 26".

Model LC28-DB, our 28 gauge side by side was honored in 2007 with Field & Stream's "Best of the Best" in the Shotgun Category.

### Hunting Knife with Sheath

A handsome fixed-blade hunting knife in a design that dates back over a century. Overall length is 8¼", featuring a 4½" blade with traditional "match striker" ridges on the backspine, a feature that also provides thumb stability. Has a stacked leather handle, and carbon steel blade with etching of Marlin logo. Comes with leather sheath; made by Marble's Outdoors of Gladstone, MI. (Quantities are limited).

Price: \$106.05

Marlin proudly supports the  
Hunting & Shooting Sports Heritage Fund.

### The Other Branch of the Family

In November of 2000, Marlin purchased the assets of H&R 1871, Inc., a Massachusetts-based manufacturer of shotguns and rifles.

Founded in 1871 (one year after Marlin), the original company started in a plant in Worcester, Massachusetts.

The company subsequently moved to Gardner, Massachusetts, and today employs over 200 people. Marketing its products under the brand names of Harrington & Richardson® and New England Firearms®, H&R 1871® is the largest manufacturer of single shot shotguns and rifles in the world.

### Support Your Sport

If we are going to preserve cherished hunting and shooting traditions, we must all get involved in spreading the truth, as well as contributing time and money to worthwhile conservation organizations.

Join a sportsmen's club. Buy Duck Stamps. Write letters to editors. And join the NRA. Learn the advantages of National Rifle Association membership. Write: National Rifle Association, 11250 Waples Mill Road, Fairfax, VA 22030.

### Marlin's Micro-Groove® Technology:

Unique in design, exceptional in quality, 45 years of superior accuracy

Micro-Groove® rifling has become synonymous with rimfire accuracy. Although designed in the late 50's and later patented in 1963 by Marlin, the Micro-Groove® barrel continues to be revolutionary in terms of accuracy, creating a rimfire bore with many more lands and grooves than conventional rifling (see images to right). This system results in a bullet or bullet jacket not deeply grooved or distorted when fired (as is the case with conventionally made barrels), and the less distortion, the greater the accuracy. Micro-Groove is only available from Marlin Firearms.

Conventionally rifled barrel

Micro-Groove® rifled barrel

### Safety Notes

Marlin firearms are packed and shipped with an Owner's Manual. To assure safe and proper use, you should read and understand it before you load and fire your firearm. If you do not get one with your firearm, write to us, giving the model number and serial number. Write: Owner's Manual, Marlin Firearms Co., 100 Kenna Dr., P.O. Box 248, North Haven, CT 06473-0905.

Marlin firearms are designed and manufactured to handle standard factory-loaded ammunition which conforms to SAAMI® (Sporting Arms and Ammunition Manufacturers' Institute Inc.) standards with dependability and safety. Due to the many bullet and load options available, the element of judgement involved, the skill required, and the fact that serious injuries have resulted from dangerous handloads, Marlin does not make any recommendations with regard to handloaded ammunition.
