

Para USA™

TOUGH GUNS FOR TOUGH JOBS

“This is amazing! I burned 1,000 rounds through this gun in ten minutes. It got so hot that the barrel turned gold. We tortured this pistol for 5,000 rounds, and it shoots an inch at 25 yards.”

- Todd Jarrett
World Speed Shooting Champion

NOT ALL 1911s ARE CREATED EQUAL

Let's start with firepower. Prior to 1988, you had a tough choice: you could opt for the power of a traditional 1911, with the limitation of a 7-round magazine; or you could choose a high-capacity "WonderNine" with a far less potent cartridge. Nobody in the firearms industry came up with a solution until, in 1988, Para rewrote the book on 1911 firepower with the introduction of its double-stack .45 ACP.

Para knows that in any armed confrontation, you can always use more ammo... and the best place to have it is right in the pistol in your hand. Thanks to Para innovation, you don't have to compromise any more. Para has created a combination previously thought impossible: high capacity plus impressive stopping power. When the chips are down, high capacity beats a rapid reload every time!

What's just as important as reliable feeding? Reliable extraction. The original John M. Browning 1911 is the finest handgun design ever created. The most noticeable weak point of that excellent design however is the extractor, which can lose tension over time. This results in inconsistent extraction or even the dreaded double feed. In competition shooting, this can result in a lost match; in an actual confrontation, it can be deadly.

Innovation, not copying, gives you an unequaled edge in life. And it is Para's patented design of the Power Extractor™ (PXT™) that makes you a winner. The claw of the PXT is 50% larger than a standard extractor. This provides enormous extraction power and eliminates double feeds. With the PXT, Para has retained the classic 1911 appearance, while at the same time providing a whole new level of functional reliability.

Let's look at triggers. Para's single-action triggers have always been competition-quality right out of the box. And, as USPSA Grand Master and Triple Crown winner Todd Jarrett can attest, Para's exclusive LDA double-action trigger is another sure-fire winner.

All 1911-style pistols are not created equal, visit your Para dealer and prove to yourself that Para pistols are unequaled in quality and toughness. If you have a tough job, put a Para pistol on your side today.

The massive claw of the Power Extractor, right, is 50% larger than a conventional extractor, left, giving you positive feeding and extraction every shot.

GET WARTHOG POWER

WARTHOG

It is an ugly beast that shines with beauty when you need its .45 firepower. This is the original super-compact .45 with truly awesome firepower. There is no smaller, more powerful 1911-style, 10+1 semi-auto .45 ACP in the world.

Product Code: WHX1045R

- ALSO AVAILABLE Stainless Finish, Product Code: WHX1045S

NITE HAWG

If you are on a mission that requires you to see and not be seen, the micro-compact Nite Hawg is there to answer your call. The Nite Hawg gives you 10+1 rounds of .45 ACP, while boasting a non-reflective all-black finish and tritium night sights that allow you to see your sights even in low-light situations.

Product Code: NHX1045N

HAWG 9

Want more rounds in the same micro-compact, ultra-light frame? Switch to 9mm and get a Hawg 9. This pistol holds 12+1 rounds of 9mm stopping power and, with the integral ramped barrel, you can shoot +P ammunition.

Product Code: WHX129R

- ALSO AVAILABLE Restricted Capacity, Product Code: WHX129RR

SLIM HAWG

This Hawg went on a diet to give you the flatness of a single-stack frame. The Slim Hawg holds 6+1 rounds of .45 ACP firepower, has Griptor™ grasping grooves to help control recoil, and comes in corrosion resistant stainless steel.

Product Code: PSHX645S

- ALSO AVAILABLE Covert Black Finish, Alloy Frame, Product Code: PSHX645R

“The Para-Ordnance Hawg 9, a 24-ounce double stack featuring the company’s bushingless recoil system and massive, dead-reliable Power Extractor... may well be the perfect platform for the 9mm Parabellum.”

- The Editors of GUNS & AMMO Magazine

ULTRA COMPACT FIREPOWER

When you need the most rounds in the smallest package, you need a Hawg. Only the Hawg family delivers 10 rounds of .45 ACP or 12 rounds of 9mm firepower in the world’s smallest 1911-style pistol. It is an extraordinary handgun... only 6.5 inches long and 4.5 inches high including the magazine.

Too small for your big hands? No worries, all the Hawgs come with a bonus. Like all Para pistols, they are shipped with two magazines. The first comes with a standard floor plate for maximum concealment. The second magazine comes with a grip extension on the floor plate. It adds length to the grip, giving you more holding surface and better control, with no sacrifice of magazine capacity.

www.para-usa.com/firepower

LITE HAWG .45

The Lite Hawg .45, with its built-in light rail, gives you the option of adding a light or laser to the pistol. The added heft of the solid steel frame minimizes felt recoil when shooting this big bore .45. This Hawg holds 10+1 rounds of .45 ACP firepower.

Product Code: RHX1045E (Light sold separately.)

LITE HAWG 9

The Lite Hawg 9 means business with 12+1 rounds of 9mm plus an integral light rail, so you can add a light to identify your target in low light conditions. The solid steel frame makes for soft shooting, even with +P 9mm loads.

Product Code: RHX129E (Light sold separately.)

- ALSO AVAILABLE Restricted Capacity, Product Code: RHX129ER

SUPER HAWG (SINGLE STACK)

Featuring a super long 6" integral-ramp, match-grade barrel and an all-weather stainless finish, the Super Hawg is a bullseye shooter's dream, at a price that can't be beat. Front strap is checkered 30 lines per inch, and it has double-diamond checkered cocobolo stocks.

Product Code: PLX745S

SUPER HAWG (HIGH CAPACITY)

Meet the "Long Tom" of the semi-auto world, a hunter's first choice for increased velocity, magazine capacity and striking power. Longer sight radius and Para's Fiber Optic front sight let you put your shot where it counts.

Product Code: PLX1445S

- ALSO AVAILABLE Restricted Capacity, Product Code: PLX1445SR

SUPER HAWGS: LONG ON PERFORMANCE

A longer sight radius and Para's Fiber Optic front sight let you put your shot where it counts, even under adverse light conditions.

Whether you are shooting bullseyes in Pennsylvania or wild boar in Texas, you need a super-tough, super-accurate handgun, and the Para Super Hawg is the pistol for you. With its six-inch long slide and match-grade ramped barrel, it is the ultimate in .45 ACP performance for accuracy and velocity.

The new Para Super Hawgs are the latest pistols from Para USA in the popular Hawg Family of pistols that started with the legendary Warthog. The six-inch integral ramp match-grade barrel is crowned to deliver winning accuracy whether you are a bullseye or action shooter. In the field you will appreciate the extra velocity that is available from the long-slide's match barrel.

Both Super Hawgs come with checkering on the front strap to give you the best grip for accuracy and recoil control.

LEARN MORE ONLINE: www.para-usa.com/superhawgs

PARA PXT 1911s

1911 OPS

Are you a dyed-in-the-wool 1911 fanatic? The OPS delivers everything you want in a compact 1911: a 3.5-inch match-grade ramped barrel, corrosion-resistant stainless frame, 7+1 rounds of .45 ACP firepower and Griptor™ grasping grooves for optimum control and consistent shot placement.

Product Code: PCWX745S

1911 LTC

The LTC, a 4.25-inch barreled 1911, comes with Para's Exclusive Power Extractor, two 8-round magazines and a match grade ramped barrel. Its powerful steel frame construction helps tame recoil, even with +P loads.

Product Code: PCX745E

- ALSO AVAILABLE Alloy Frame, Product Code: PCX745R

1911 LTC

You'll always be able to count on this LTC, thanks to its all-weather rust-resistant stainless steel frame. This 8+1 round compact powerhouse features a 4.25-inch match-grade ramped barrel, 3-dot sights and the new positive grip safety featured on all Para single-action pistols.

Product Code: PCX745S

1911 LTC (9MM)

With higher capacity, less recoil and a cartridge that's been a world favorite for more than a century, this new 9mm LTC is destined to become an instant classic. It features a 4.25-inch ramped match barrel, 9+1 rounds of firepower and Para's non-reflective Covert Black finish.

Product Code: PCX99R

PXT SINGLE-ACTION, SINGLE-STACK

You want a 1911 that will reliably feed any bullet configuration, and provide safe support for even the hottest factory loads. And Para delivers that with its match-grade ramped barrel.

The original 1911 feed ramp configuration was designed specifically with military round-nosed jacketed bullets in mind. But a problem occurred when target shooters, law enforcement agencies and defensive shooters adopted the 1911.

What do you do if you require equally reliable feeding with lead semi-wadcutters or "flying ashtray" hollowpoints? For smooth feeding with every bullet shape, plus the safest, strongest support for +P loads, there's simply no substitute for a ramped barrel. Today, the ramped barrel still remains an extra-cost feature on the competition's higher-end 1911s, but it's standard on every Para, just one more example of the extra value built into every Para pistol.

LEARN MORE ONLINE:
www.para-usa.com/ramped

Using a new Para PXT 1911 SSP Jarrett established a world record for how fast you can shoot 1,000 rounds of .45 ACP ammunition through a 1911 pistol.

PXT 1911: TOUGH GUN FOR A TOUGH JOB

Just how tough is Para's PXT 1911? We asked that question of World Speed Shooting Champion Todd Jarrett, and sent him cases of ammunition to find out. Along with Shooting Gallery host, Michael Bane, we came up with the Ultimate Hot Gun Torture Test: to see how fast 1,000 rounds of .45 ACP could be poured non-stop through a Para PXT 1911. To warm up, we put a 1,000 round of 230-grain ball through the pistol. No problems. The next morning after cleaning the pistol, we started the Hot Gun Test. Jarrett chose some hot ammo, International's Green Elite NT 155-grain frangible flat point round with a muzzle velocity of 1,150 feet per second.

Speed shooting champ, Todd Jarrett, fired 1,000 rounds in just over 10 minutes at targets like this steel plate.

1911 SSP

Meet the new record-holding 1911 SSP. This basic single-stack .45 gives you the most value in a 1911 with match grade components including hammer, trigger and 5-inch ramped barrel. It comes with two 8-round magazines and hard rubber stocks.

Product Code: PX745E B

1911 SSP (.38 SUPER)

This is the ultimate South Texas Barbeque pistol. When you dress up in your best boots, favorite hat, and with a silver buckle on your hand-tooled belt, this bright stainless .38 Super with tough synthetic Mother of Pearl grips is the one you want in your holster.

Product Code: PX938P

1911 SSP (.38 SUPER)

For those who prefer their .38 Super in a more conservative package, this longtime favorite of bullseye and action shooters has cocobolo double-diamond checkered stocks. It comes with two 9-round .38 Super PXT magazines.

Product Code: PX938S

1911 LIMITED

Combining classic design with cutting-edge technology, this Para 1911 has the custom features you want the most like a Fiber Optic front sight, an adjustable rear sight, and an ambidextrous safety. It's a superlative shooter with looks to match.

Product Code: SX745S

With three people loading magazines, Jarrett started to shoot the new Para PXT 1911 SSP. The more he shot the hotter the pistol got. Barrel temperatures became so hot that the ramped, stainless steel match barrel turned a deep golden color. But the pistol never missed a beat. 10 minutes and 44 seconds after he started, Jarrett had put 1,000 rounds through the pistol establishing a NEW World Record on the range at Blackwater USA.

He let the pistol cool and then, using a Chip McCormick 10-round Power Mag, shot a group on a steel plate at 10 yards with all shots touching.

For the next several hours, the magazine loaders took turns shooting the SSP with both the ICC frangible ammo and standard white box 230-grain ball ammunition until 5,000 rounds had been shot. The tough pistol digested all of the ammo without complaint. We do not recommend that you torture your 1911 for 4,000 rounds without cleaning it. But if your 1911 is a Para PXT, it can take it.

LEARN MORE ONLINE:
www.para-usa.com/1911
www.downrange.tv

After shooting 5,000 rounds, including the grueling 1,000 round Hot Gun Torture Test, the PXT 1911 SSP was able to deliver this 10-round group from a benchrest at 25 yards measuring 1.92 inches with the center 7 shots grouping 1.02 inches.

PXT HI-CAP SINGLE ACTION

P14•45

This is the pistol that set the standard for big bore high capacity firepower. The P14•45 gives you three-dot fixed sights for easy targeting, match-grade components and a durable non-reflective finish, at a price that can't be beat.

Product Code: PX1445E B

- ALSO AVAILABLE Restricted Capacity, Product Code: PX1445E BR

BIG HAWG

The Big Hawg is big on power but lightweight on your belt. This full-size version of the Warthog gives you 14+1 rounds of .45 ACP that are delivered from its 5-inch integral ramp, match barrel. Best of all, the Big Hawg only tips the scales at 28 oz.

Product Code: PX1445R BH

- ALSO AVAILABLE Restricted Capacity, Product Code: PX1445R BHR

P18•9

The full-size Para 18•9 offers the highest capacity, 18+1 rounds, of any 9mm handgun produced today. This Para pistol gives you the winning combination of mild recoil with its full-size stainless steel frame, and a fully adjustable rear sight.

Product Code: PX189S

- ALSO AVAILABLE Restricted Capacity, Product Code: PX189SR

S14•45 LIMITED

In the quest to give you the ultimate in a custom shop pistol at a production price, Para created its Limited edition pistols. World Class shooter, Todd Jarrett, was instrumental in designing these pistols from the adjustable rear sight to the Fiber Optic front sight. Limited Hi-Cap models have 25 lpi checkering on the front strap.

Product Code: SX1445S

- ALSO AVAILABLE .40 S&W Caliber, Product Code: SX1640S

- ALSO AVAILABLE Restricted Capacity, Product Codes: SX1445SR / SX1640SR

The Para Hi-Cap PXT™ has more custom extras as standard equipment than any other high-capacity pistol in its class...

From a full-length guide rod at the muzzle to the competition hammer at the rear of the slide, Para Power Extractor PXT pistols are loaded with extras. Each pistol includes our new easy-to-depress beavertail grip safety, extended slide lock safety, match-grade trigger with overtravel adjustment, skeletonized spur hammer for fast lock time and the best sight picture from our adjustable or three white-dot fixed sights.

Our full-size duty pistol, the Big Hawg, features an alloy frame. We know how much weight you already carry on your duty belt, and this Hawg makes your burden a little lighter. Like all its little Warthog brothers, the Big Hawg comes with a match-grade ramped barrel, Power Extractor, three white-dot fixed sights and a frame with integral plunger tube and grip screw bushings. And just like our standard P14•45, the Big Hawg comes standard with the custom extras you need to be the best shooter you can be.

LEARN MORE ONLINE: www.para-usa.com/hicap

Fiber Optic Front Sight

If you cannot see your sights, you cannot place your shot on the target. Practical and speed shooting champion Todd Jarrett knows this better than anyone else. When he designed his signature pistols, he specified a Fiber Optic front sight. We made it standard on all S-Series Limited Pistols as well.

TAKE YOUR BEST SHOT

TODD JARRETT SIGNATURE PISTOLS

To hit your target, there are two things your pistol must have: sights you can see, and a great trigger.

If you cannot see your sights, you cannot place your shot on the target. Practical and speed shooting champion Todd Jarrett knows this better than anyone else. When he designed his signature pistols for action shooting competition, he specified a Fiber Optic front sight. In addition to the Jarrett Signature pistols, Para made its rugged and reliable Fiber Optic front sight standard on its Limited models and on the GUN RIGHTS and NEW SUPER HAWG pistols.

Once you have the most advanced iron sight picture in the world, you need to be able to make the shot. If your trigger pull is too heavy, or if it is crunchy with backlash, you are likely to jerk the sights off the target at that crucial moment and miss your shot.

That is why Para provides match-grade hammers and triggers on all of its single-action pistols. Our match-grade trigger gives you a clean, crisp release. That, combined with the fast lock time of the skeletonized hammer, assures that when you press off the shot, you will hit your target.

www.para-usa.com/tjpistol

TODD JARRETT SIGNATURE .45

Do you want the ultimate Single Stack 1911? On his way to winning National and World Championships, Todd Jarrett earned a degree in 1911ology. He knows more about how a 1911 works than many custom pistolsmiths. His drive for perfection has created a 1911 that can put you in the winner's circle.

Product Code: PX745J

TODD JARRETT SIGNATURE .40

This is the pistol that has a magazine well as cavernous as "Jaws" so you can smoke reloads like Todd. Both Jarrett Signature models come with loads of extras like ambidextrous safeties, adjustable sights and front strap checkering.

Product Code: SX1640J

- ALSO AVAILABLE Restricted Capacity, Product Code: SX1640JR

1911 NITE-TAC

This single-action, single-stack Nite-Tac pistol carries 8+1 rounds of powerful .45 ACP. The built-in universal light rail reinforces the dustshield of the traditional 1911-style pistol, and it is beefed up for hard work.

Product Code: PRX745S (Light sold separately.)

- ALSO AVAILABLE Covert Black Finish, Product Code: PRX745B

NITE-TAC .45

Para's high-capacity Nite-Tac holds 14+1 rounds, has a 5-inch barrel, 3-dot fixed sights and weighs 40 ounces empty without a light attached.

Product Code: RX1445B (Light sold separately.)

- ALSO AVAILABLE Stainless Finish, Product Code: RX1445S

- ALSO AVAILABLE Restricted Capacity, Product Codes: RX1445BR/ RX1445SR

NITE-TAC .45

Now available in the Coyote Brown favored by the military, this Para Nite-Tac features a double-stack 14-round magazine, the ultra-smooth LDA trigger system and Para's massive integral light rail.

Product Code: RX1445E CB (Light sold separately.)

- ALSO AVAILABLE Restricted Capacity, Product Code: RX1445E CBR

PARA NITE-TACS: NO TARGETS UNSEEN

Para continues to listen to its customers. You asked for our popular Nite-Tac in a classic, single stack 1911. You got it. Para gives you the choice of steel frames with the Covert Black Para Kote™ finish or stainless steel with the classic brushed stainless finish.

Like all Nite-Tacs, add your favorite light or light and laser combination to our integral universal rail on the frame of the pistol to identify your target. Para spared no expense in designing this frame. The massive integral light rail reinforces the dustshield of the traditional 1911-style pistol and it is beefed up for hard work. It will not flex like add-on light rails bolted to thinner dustshields.

Now, you have the choice of a single stack 1911, or a high capacity pistol. Get the Nite-Tac that best fits your hands and cut through the darkness to illuminate your target.

LEARN MORE ONLINE:
www.para-usa.com/nite-tac

Light the Night: Nite-Tacs

Para has created the ultimate duty pistol with the addition of our universal light rail to our most popular models. Light sold separately.

PARA GUN RIGHTS PISTOLS: SAVE A BUNDLE AND PROTECT YOUR RIGHTS

We've taken two of our most popular pistols and added several hot new features and bundled them into the best 1911s we can build. And then we priced them well below our competition. Why would we do that? Because these models come with a priceless bonus: for each of these pistols sold, we'll automatically make a donation to the National Rifle Association's Institute for Legislative Action, or ILA. Get a great gun and support the NRA-ILA.

The first one is the Para PXT 1911 SSP Gun Rights pistol, a classic single-column 1911 in stainless steel. And, since Para invented the high capacity 1911 .45, the second model is the famous P14•45 Gun Rights pistol.

They're both packed full of the most popular features you want, starting with our new Fiber Optic front sight. To hit your target, you need sights you can see. Para's new Fiber Optic front sight is the brightest front sight in the world.

These pistols, like all Para pistols, give you match-grade, ramped and crowned, stainless steel barrels for out-of-the-box X-Ring accuracy.

The pistols come with competition hammers and triggers—so you get a clean, crisp trigger break every shot. It's a trigger that, straight out of the box, brings out your inner marksman, making you the best shot you can be.

You cannot buy a better 1911 from anyone. And we stand behind that statement with our Gold Medallion Lifetime Service Policy.

LEARN MORE ONLINE:
www.para-usa.com/gunrights

PXT 1911 SSP GUN RIGHTS PISTOL

This is the ultimate 21st Century 1911. You get the durability of stainless steel, the reliability of the Power Extractor, the brightness of a Fiber Optic front sight and two 8-round PXT magazines. For each Gun Rights pistol sold, Para will automatically make a donation to the NRA-ILA.

Product Code: PX745S GR

P14•45 GUN RIGHTS PISTOL

Para invented the High Capacity 1911 and with this Gun Rights model, you get 14+1 rounds of .45 ACP. And only Para gives you match grade, ramped barrels in every pistol for accuracy and safety.

Product Code: PX1445S GR

- ALSO AVAILABLE Restricted Capacity, Product Code: PX1445S GRR

NEW PDA CARRY OPTION™

PDA (9MM)

Small, light, fast and carrying 8+1 rounds of low-recoil 9mm Luger ammo, the Para PDA 9mm is a lot of reassurance in an ultra-compact package. PDAs are sized like Snubbies but they have 3-inch match grade barrels because you need accuracy in a defensive pistol.

Product Code: CSX89R

PDA (.45 ACP)

When you need to respond in seconds and outside help is minutes away, the Para PDA .45 ACP is your able companion. A full 6+1 rounds of potent .45 ACP firepower are on tap when you squeeze the smooth LDA trigger. It won't weight you down at 24 ounces.

Product Code: CWX645R

PERSONAL DEFENSE ASSISTANT

The decision to own a handgun for self-defense is a tough choice for many people. For those citizens who have decided that they are going to be responsible for their own personal safety, and in states where concealed carry permits are issued, Para leads the way with its innovative line of light double-action Carry Safe™ pistols.

The newest concealment choice from Para is the new PDA (Personal Defense Assistant) pistol, offered in either 9mm or .45 ACP. In 9mm, the PDA is the world's smallest 1911-style pistol. Its lightweight alloy frame was designed around cartridges with the same overall length of the 9mm cartridge. This PDA tips the scales at a mere 23 ounces.

The compact 9mm powerhouse holds 8-rounds of firepower in the magazine and reloads faster than any two-inch snub-nosed revolver.

LEARN MORE ONLINE: www.para-usa.com/pda9

LDA CARRY SAFE™

CARRY

The award-winning Para Carry, just 6.5 inches long and 4.75 inches high, was declared the "World's Smallest DAO .45 Auto" by the editors of GUNS & AMMO magazine when it was introduced in 2001. It gives you 6+1 rounds of .45 ACP.

Product Code: CWX645S

- ALSO AVAILABLE Covert Black Finish, Product Code: CWX645B

CARRY (GAP)

The compact .45 GAP cartridge means you get a smaller frame and more compact grip for better concealability and more recoil control. This remarkably small pistol gives you the stopping power and capacity of the original Carry, with 6+1 rounds of .45 GAP, in a pistol that you can really wrap your hands around.

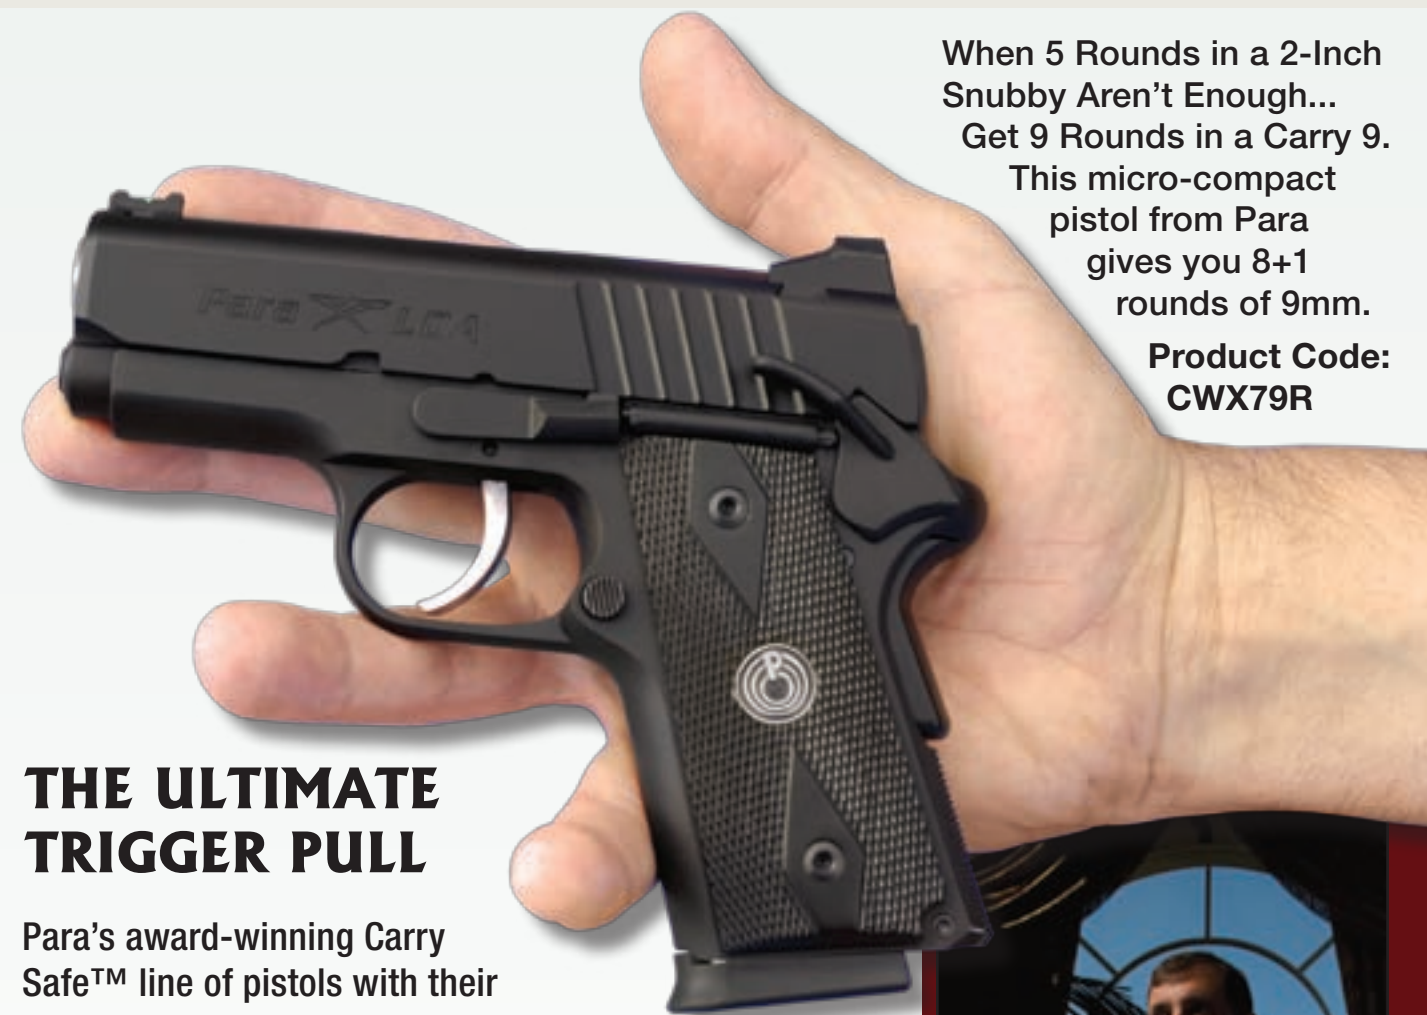

Product Code: CWX645G

CARRY 9

The micro-compact Carry 9 gives you 9 rounds of 9mm firepower in your hand. At 24 ounces, it is one of the lightest and shortest 1911-style carry pistols you can own. The handsome Covert Black finish helps maintain the low profile you want, and Para's exclusive Power Extractor™ assures faultless reliability.

Product Code: CWX79R

When 5 Rounds in a 2-Inch Snubby Aren't Enough...
Get 9 Rounds in a Carry 9.
This micro-compact pistol from Para gives you 8+1 rounds of 9mm.

Product Code:
CWX79R

THE ULTIMATE TRIGGER PULL

Para's award-winning Carry Safe™ line of pistols with their triple-safety system let you carry them hammer-down but ready for action when needed. And all of the Para Carry Option pistols have flush hammers and a rounded grip safety to prevent snagging on clothing. Add the reliability of the Para Power Extractor™ and the LDA's sweet trigger and you have a series of carry pistols that can't be beat.

Many handgun reviewers have likened the LDA trigger pull to that of a superbly tuned double-action revolver. "This is simply the smoothest double-action system that is currently produced," said Sheriff Jim Wilson, in Shooting Times, about Para's exclusive light double-action ignition system. "The trigger pull is smooth, light and consistent, and as a result, the hits are very consistent, too."

LEARN MORE ONLINE:
www.para-usa.com/carrysafe

CONCEALMENT OPTIONS: LDA CARRY SAFE™

CCO - Companion Carry Option

With its 3.5-inch barrel and extra concealability features, this may well be the ultimate defensive handgun. This one has it all... 7+1 rounds of .45 ACP, flush hammer and bobbed beavertail, and Para's Griptor™ grasping grooves on the front strap of the pistol that aid in controlling recoil during rapid fire.

Product Code: CWX745S

CCO (GAP)

The CCO Gap is the .45 GAP version of the Para CCO. It has the stopping power of the .45 ACP, but the compact .45 GAP cartridge makes for a smaller frame and more compact grip. The CCO Gap has a 3.5-inch match-grade ramped barrel and carries 7+1 rounds of ammo.

Product Code: CWX745G

CCW

Winner of the 2003 GUNS & AMMO Gun of the Year Award, the Para CCW offers the ideal balance between concealability and shootability. Its 4.25-inch barrel on a compact frame is what handgun writer Wiley Clapp refers to as "the optimum concealed carry pistol."

Product Code: CCWX745S

CARRY 12

Para's Carry 12 is one of the most powerful carry pistols on the market today. With a 3.5" barrel and 12+1 rounds of .45 ACP, it's easy to conceal, and it comes standard with low-mount, three-dot tritium night sights.

Product Code: CTX1245N

- ALSO AVAILABLE Restricted Capacity, Product Code: CTX1245NR

TAC-FOUR

The Tac-Four is a powerful tactical pistol. The 4.25" barrel and snag-free contours make it perfect for concealed carry, and the 13+1 rounds of .45 ACP firepower and LDA trigger system make it a commanding combat pistol.

Product Code: CTX1345S

- ALSO AVAILABLE Restricted Capacity, Product Code: CTX1345SR

UNDERCOVER WITH PARA

When you're going undercover, you need a carry pistol that is compact and easy to conceal. Para's award-winning Carry Safe™ line of pistols with their triple safety system let you carry them hammer down but ready for action when needed.

Para's LDA trigger system gives you the same smooth trigger stroke with every shot, but with the security of a hammer-down carry. Bump the slide lock safety off a Para LDA and you still must cock the hammer with a pull of the trigger before the pistol will fire.

Yet, if you do need to fire your LDA, the sweet stroke of its trigger is smoother than many out-of-the-box single action triggers. And all of the Carry Option pistols have flush hammers and rounded grip safeties to prevent snagging on clothing.

LEARN MORE ONLINE:
www.para-usa.com/cco

LIGHT DOUBLE-ACTION (LDA) SINGLE STACK

COMPANION

When you want a .45 that can go with you, anywhere, anytime... this is it. The Companion is a compact pistol with a 3.5-inch barrel and it holds 7 round of .45 ACP in the magazine. It's flat, practical and, with its Black Watch finish, it is a defensive pistol worthy of protecting a king.

Product Code: CX745S

TAC-S

Step up to a 4.25-inch barrel and a full-size frame for more velocity and another round of .45 ACP. The Tac-S gives you 8+1 rounds of potent .45 ACP firepower, solid steel construction and the security and shootability of the LDA trigger system. This flat carry pistol comes in our Coyote Brown finish.

Product Code: DCX745E CB

LDA SSP

This "Super Sport" or "Single-Stack" Pistol is a full-size, stainless gun with a 5-inch ramped barrel. The LDA SSP combines the natural balance of a 1911 with the natural stroke of the LDA that simply makes you the best shot you can be.

Product Code: DX745S

The LDA trigger gives you a fast, clean, reliable trigger pull when you need it the most.

Para's light double-action (LDA) trigger system gives you the smoothest trigger you have ever felt on a double-action handgun of any kind, whether it is a revolver or an autoloader.

The LDA was not invented to replace the single-action trigger on the 1911 pistol. We could have put the LDA trigger into any style of pistol. We consider the ergonomics of the 1911-type pistol to be the best in the world for an autoloading pistol.

For those who must have a hammer-down carry, or just prefer the safety of a double-action trigger, Para gives you the bonus of a true Light Double-Action trigger. It makes you a better shot because it has the sweetest trigger you have ever pressed!

LEARN MORE ONLINE: www.para-usa.com/LDA

LIGHT DOUBLE-ACTION (LDA) HIGH CAPACITY

HI-CAP .45

The Hi-Cap .45 is the successor to the original Para 14.45 LDA. It still has the trademark accuracy that led GUNS & AMMO to proclaim the 14.45 LDA Handgun of the Year in 1999, plus the PXT's feeding and extracting reliability.

Product Code: DX1445S

- ALSO AVAILABLE Restricted Capacity, Product Code: DX1445SR

HI-CAP LIMITED .45

The Hi-Cap Limited .45 gives you the strength of 14+1 rounds of powerful .45 ACP firepower, coupled with all the extras that will make you a better shooter, from an ambidextrous safety to adjustable sights.

Product Code: TX1445S

- ALSO AVAILABLE Restricted Capacity, Product Code: TX1445SR

"I LOVE THIS TRIGGER!"

Todd Jarrett has pulled more triggers on more semi-automatic pistols than anyone else we know. And when he says, "I love this trigger!" you know he means it. Why does Todd love the LDA trigger? Because it is so smooth, so repeatable, it is almost impossible to break a bad shot with it. That is what we are talking about when we refer to the natural stroke of the LDA trigger.

Now, if you are a "Cocked and Locked" dyed-in-the-wool 1911 fanatic then you probably have no interest in anything that John Browning did not design a hundred years ago.

But if you have ever carried your 1911 and looked down to see that it was "Cocked and Unlocked" well then you might want to look at a pistol with the great ergonomics of the 1911 and a trigger system that is smooth with the same trigger pull every shot. The Para LDA pistols can be carried ready for action, and you never have to worry about them being unlocked.

Todd can tell you he loves it and we can talk about it until we are blue in the face, but there is only one person that can prove to you how remarkable a trigger it is. And that person is you. You owe it to yourself to visit your local gun shop and try a Para LDA trigger.

The Best Double-Action

Para's LDA, or Light Double-Action, triggers are a known advantage on the range where the smooth trigger pull helps you hit your target more consistently, shot after shot.

Para's LDA Carry Safe pistols allow a hammer-down carry for instant readiness and a trigger pull so light and smooth, that you'll be less likely to jerk your shot off target.

MATCH-GRADE TRIGGER

The Para match-grade trigger with overtravel stop eliminates backlash for a clean, crisp break. Combine this with Para's competition hammer, which is skeletonized for quicker lock time, and each bullet is launched precisely upon your command. Align the sights, press the trigger, and hit your target.

NEW REAR SIGHT

When you need to hit your target, you need sights that you can see. Para's new rugged rear fixed sight gives you a solid sight picture. It comes with two white dots and is combined either with a post front sight with white dot, or our Fiber Optic front sight. Optional are our fixed sights with tritium tube inserts to give you superior Night Sights.

Tough Job: Torture Test a 1911 and Establish a World Record

On January 5, 2008, using a new Para PXT 1911 SSP, World Speed Shooting Champion Jarrett established a world record for how fast you can shoot 1,000 rounds of .45 ACP ammunition through a 1911 pistol. After the torture test he shot groups for accuracy. For more details, see page 11. To see the video, go to www.downrange.tv.
