

# **RUGER** SPORTSWEAR & ACCESSORIES

Dear Ruger Customer,

Welcome to our 2009 Ruger Sportswear and Accessories Catalog. We have a new format this year and more than 100 new products to share with you. Our new format organizes products to make it easier for you to find them, such as pages 17 and 18 with tactical gear and pages 23 and 24 with LCP and SR9 accessories. We have also laid out the products in the various areas where Ruger is a part of your life - at home, in the office, on the range or in the field. Not to worry, we still leave the back of the catalog for an easy-to-reference area with all of the accessories for your Ruger firearms.

We would also like to invite you to use this printed catalog as just a starting point for your shopping and browsing. We encourage you to go to our online catalog at our website, [www.shopruger.com](http://www.shopruger.com), where we are constantly adding new products, parts, and accessories for any new firearms we introduce during the year.

Like you, we all enjoy using Ruger products in the field and on the range, and that's how many of our ideas for new products come about. For example, the Ruger® Super Redhawk Alaskan® in .454 Casull and .44 Magnum came from a trip to Alaska and seeing the guides carry around bulky, awkward handguns for bear protection. We saw how heavy their guns got after carrying them all day and we built a better gun for them. And then two years later, we went back to Alaska and realized we had a great guide gun, but needed a new holster to work better when wearing waders. See that great new holster on page 34.

Collectively, you use our products even more often than we do. So I am also asking for your input – tell me what you want to see in new products and improvements from Ruger at our website link, “Tell The CEO.” It's right on our homepage at [www.ruger.com](http://www.ruger.com). Thousands of these emails have come in and I read every one. And many of those emails have good ideas – frankly more than we can engineer in a lifetime – and we want to keep them coming. As we see certain requests more often than others, or even a brilliant idea that appears just once, then we know what to design next.

Thank you for your support of Ruger.

Michael Fifer  
**President & CEO**

**NOTE:** Some magazines are not available for sale in all states and locales due to laws and regulations limiting magazine capacity. Prior to purchasing, please check your state and local regulations to verify that you may legally possess such magazines.

We are pleased to announce that Ruger scope rings are now packaged individually. This allows customers to purchase only the ring they need, or mix and match, without the added expense of purchasing two rings at a time. For example, the Ruger M77® Hawkeye® rifles are shipped from the factory with a #4 front ring and a #5 rear ring, which translates to a medium height scope mount. If the customer desires a high scope mount, he only needs to mount the #5 ring on the front scope mount, and purchase one new #6 ring to mount on the rear scope mount.

All rings are for 1" tube diameter EXCEPT those marked 30mm which are for 30mm diameter scopes.

Scope ring heights are identified by a number manufactured into the lower half of the ring. Below is a complete new ring chart showing the Part Number and Catalog Number for each scope ring. When ordering scope rings, please use the 5-digit Catalog No. (90XXX). If you have questions about which rings fit your pistol or PC carbine rifle, please contact the Arizona Customer Service Department at **928-778-6555**. Questions about rifle or revolver scope rings should be directed to the New Hampshire Customer Service Department at **603-865-2442**.
