**Blackened Stainless**

The KP4544, KP4044 and KP9094 matte stainless slides are blackened using an ultra hard and super thin coating. This coating has been used successfully in the knife industry to protect blades from corrosion and scratches.

## STAINLESS FRAME MODEL, 3.5" BARREL

The K Series steel 9mm was the first design rolled out of the factory in 1995, and the line of concealed carry handguns has continued to grow ever since. The P & K Series have proven themselves as being the best concealed carry / back-up gun on the market by offering high quality and total reliability in a compact THIN package. Other features include a Lothar Walther 3.5" polygonal rifled match grade barrel, smooth DAO trigger, stainless or blackened stainless slide and an option for night sights. This compact size Kahr, available in 9mm, .40 S&W and .45 ACP, offers excellent balance in the hand.

The Kahr CW series has the combination of features that makes it the best Concealed Carry Pistol in the market. It has the ideal combination of stopping power and shooting comfort, and is smaller, THINNER and lighter than competitive brands. The CW Series' natural point of aim and low-felt recoil make them the ideal guns to shoot and carry.

With the introduction of new manufacturing processes in the production of the CW series, the Kahr pistol represents an unrivaled value.
