104 YEARS OF SATISFIED CUSTOMERS

Leupold & Stevens, Inc. is an American, family owned, fifth-generation company that has been designing, machining, and assembling precision optical products for 104 years.

More than 700 employees in our Beaverton, Oregon, facility are committed to your absolute satisfaction. This commitment has been the heart and soul of our organization founded by Fredrick Leupold in 1907, whose dedication to our customer was summed up with these words:

"We solemnly promise never to let down on quality; the customer is entitled to a square deal."

THE BEST IN EVERY POSSIBLE WAY.

Webster defines "synergy" as the combined effort being greater than the individual parts. A most befitting description of our new binocular and spotting scope project.

A dedicated team of Leupold® designers, engineers, and production and quality control specialists left no stone unturned to re-think, re-engineer, and re-produce a line of optics unlike any other in the industry. From a distinctive look and feel in hand, to the superior optics, to the rugged dependability that is synonymous with the Leupold name, Synergy Built™ binoculars and spotting scopes reflect the best we have to offer in every way.

FEATURES

LENS SYSTEM

» Fully multi-coated lenses are combined with L-Coat™ BAK4 prisms to provide excellent photopic transmission for a clear, bright image under any condition.

COLD MIRROR COATED PRISMS

» This innovative technology improves the reflectiveness of the prisms for even greater color reproduction, resolution, and clarity.

TOUGH AND WATERPROOF

» 100 percent rugged and nitrogen filled, they feature a black rubber armor coating.

WIDER FIELD OF VIEW

» BX-3 Mojave binoculars deliver a wider field of view than similar competitive models.

TWIST-UP EYECUPS AND LONG EYE RELIEF

» BX-3 Mojave offers generous eye relief and twist-up eyecups that make them easy to use, with or without eyeglasses.

IMPROVED CLOSE FOCUS

» BX-3 Mojaves provide improved close focus (7 to 10 feet), depending on model.

LIMITED LIFETIME WARRANTY

» BX-3 Mojave binoculars are covered for as long as you own them.

KATMAI®

Full-size performance in a pocket-sized package. Leupold Katmai® binoculars give you exceptional brightness and clarity in a design that easily fits into a cargo pocket or waistpack. Kayaking to backyard birding, the Katmai line of binoculars has all the power and comfort needed to be your full-time optics.

32mm OBJECTIVE LENS

» Full-size lenses deliver full-size light transmission and exit pupils in a compact binocular body.

WIDER PERSPECTIVE

» Wide field of view (up to 425 feet at 1,000 yards) lets you scan more area in open, rolling country.
