# OLYMPIC CLASS SPORTERS 2008

MADE FOR  
ETERNITY

SINCE 1856

SPORTING AND VARMINT RIFLES  
WITH THE UNMISTAKABLE ANSCHÜTZ PERFORMANCE

ONLY THE ONE WHO TRIES THE IMPOSSIBLE WILL REACH THE OPTIMUM.  
INNOVATIVE, FLEXIBLE, COMPETENT AND DEDICATED TO ACCURACY –  
SINCE 1856 WE HAVE MANUFACTURED HIGH QUALITY SPORTING, VARMINT AND TARGET RIFLES.  
MANY OLYMPIC MEDALS ARE THE RESULT OF THE PIONEERING ANSCHÜTZ TECHNOLOGY.

# PERFECTION IS TRADITION

"Experience is nothing but memory", wrote the English philosopher Thomas Hobbes. Happy is the one who can take advantage of such a good memory, like the J.G. ANSCHÜTZ company from Ulm.

The reason for the success is due to their technical process, which on the basis of 152 years experience, made the brand ANSCHÜTZ a synonym for precision hunting and target rifles up to this day.

The company was founded by Julius Gottfried Anschütz in 1856 and located in the Thuringian city of Zella-Mehlis until 1945. The founding of the company took place at the beginning of the industrialization period in Germany at a time when many were seeking unity and freedom. The entrepreneurial spirit of the founder and the following generations made the small gunsmith shop grow to become one of the leading companies in Europe for rifle and pistol manufacturing.

World War II put a sudden end to this story of success. Parts of the ANSCHÜTZ family were evacuated to the west part of Germany after the war while the company's possessions were expropriated and dismantled.

The re-establishment of the company in Ulm after the war was due to the overwhelming will of the brothers Max and Rudolf Anschütz. In the new surroundings they prudently lead the company and proved to be veritable successors of their grandfather who founded and developed the "Germania Waffenerwerk".

The management of the company remains as then, a family affair. In 1968 Max Anschütz entrusted his son Dieter with the general management who now shares it with his son, Jochen. Since 1856 the "know how" has been part of the family.

Since it's foundation, ANSCHÜTZ stands for innovation and perfection. This has not changed through the years. The name ANSCHÜTZ is inseparably connected with innumerable national and international shooting triumphs. Last but not least the pioneering efforts in biathlon shooting have made the name ANSCHÜTZ recognized all over the world.

ANSCHÜTZ products enjoy an extraordinary and worldwide reputation because of their precision, workmanship and accuracy. This is what president Jochen Anschütz - continuing the tradition - puts as a benchmark for the

future, to ensure that the long history of ANSCHÜTZ continues to give good memories far into the future.

Jochen Anschütz

1+2 Julius Gottfried Anschütz and his wife Luise Anschütz founded the company J.G. ANSCHÜTZ Germania Waffenerwerk on July 1, 1856.

3 Julius's old JGA trademark.

4 ANSCHÜTZ factory, first construction sector, 1897 with residential house in the background.

5 The "Germania", another trademark of the Germania Waffenerwerk from 1901 on.

6 The Anschütz family about 1912 in front of Julius Gottfried's house: on the left side standing you see Fritz August Anschütz, on the right side standing is Otto Veit Anschütz. Luise Anschütz is sitting in the middle.

7 JGA revolver No. 780/781: Hammerless revolver for Browning-Cartridges, cal. 6.75 mm, with screwed-in steel barrel, rifled, with swivelling trigger.

8 Richard Anschütz, the brother of Julius Gottfried (left), his son Robert (2nd from left), and his factory, about 1884.

9 Front page of the net price list to the catalog No. 25, valid from September 10, 1922.

10 Work shop rooms in the old ANSCHÜTZ factory, about 1909.

11 Shooting range, about 1909.

12 Rifle warehouse, 1909.

13 Part of the ANSCHÜTZ factory in Zella-Mehlis, about 1944. Dieter and his parents lived underneath the roof of the factory. Dieter's playground was the balcony which was built on the flat roof.

# 150 YEARS ANNIVERSARY VERSION

## MODEL 1710 D HB CLASSIC

**ANSCHÜTZ**<sup>®</sup>

DIE MEISTER MACHER

### 150 Years Anniversary Version Model 1710 D HB Classic stainless steel limited edition:

Anniversary version of the ANSCHÜTZ hunting repeater 1710 D HB Classic with a number of anniversary extras in limited edition. With heavy, stainless steel barrel manufactured in the famous ANSCHÜTZ special process. A real anniversary edition because the 150 years logo can be found on the back stock, the barrel is decorated with the original "Germania" logo from 1901. Finally the founder's logo from 1856 is engraved in gold on the black steel trigger guard. The trigger blade is also golden. This extraordinary model is completed by a beautifully grained walnut classic stock with two versions of special, high-quality checkering at pistol grip and fore-end. A reliable partner for hunting in renowned ANSCHÜTZ quality and a model for aficionados who want to own the extraordinary.

150 years logo.

JGA founder's gold plated logo from 1856.

# MODEL 54 MATCH ACTION

## 1700 SERIES SPORTERS

The model 54 Match action is the championships winner which is the basis for the 1700 series Sporters. It has dominated national, international, and world championships and Olympic Games for over 45 years.

Each 1700 series Sporter is engineered and built with the same attention to workmanship, accuracy and quality as its Olympic target rifle brethren.

### Action:

CNC precision machined from a solid block, with the bolt lugs recessed machined eccentrically within the action for proper bedding.

The bolt face is fully recessed for full cartridge head support. Dual locking lugs with claw extractor and cartridge guide insure positive feeding. The bullet head is guided perfectly into the chamber, just like the ANSCHÜTZ Olympic Biathlon competition rifles.

A unique in line, very light firing pin design gives the ANSCHÜTZ 54 Match action the world's fastest lock time. Grooved, 11 mm receiver rail is drilled and tapped, and will take most American made rings and bases. American tip off mounts are available from B-Square, Millet, Redfield and Blount.

### Safety:

Wing type safety completely encloses the firing pin. When activated, it pulls the firing pin back from the bolt face, positively locking it into a safe position.

### Trigger:

Single stage (fully adjustable by professional gunsmiths from 2 to 4.4 lbs.). The same Olympic experience and engineering goes into every trigger. True Match quality, they are manufactured to watch makers tolerances, making ANSCHÜTZ triggers unparalleled by any other rifle for lock time, feel, and crispness. Factory set to 2.2 lbs.

### Barrel:

8 groove (for rimfire) or 6 groove (for center fire) Olympic Match ANSCHÜTZ target grade, precision chambered, button rifled and lapped to Olympic competition specifications. Target crowned. A test target is included which attests to each individual rifle's accuracy.

### Sights:

Folding rear sight adjustable in height in connection with a sporting ramp front sight with bead adjustable in height with hood (where applicable).

### Stocks:

#### 1. Classic

Classic styling and sleek, clean lines make these rifles a pleasure to shoot. Stocks are shaped from select straight-grained European walnut, accented by hand checkering at the pistol grip and forearm with border. Grooved black polymer butt plate and swivel studs.

#### 2. Monte Carlo Custom

Unusual grace, beauty and handling blend perfectly with the inherent accuracy of this outstanding rifle. The fine Monte Carlo stock is shaped from European walnut and has a distinctively comfortable, hand-carved roll-over cheek piece for sighting comfort with iron sights or scope. The Wundhammer swell pistol grip is further enhanced by a rosewood grip cap, and both schnabel fore-end and pistol grip are hand checkered in the pattern. Grooved black polymer butt plate and swivel studs.

**Typical 1710:**  
10-shot .22 l.r. test fire group at 55 yards.

**Typical 1717:**  
5-shot .17 HMR test fire group at 55 yards.

All ANSCHÜTZ firearms are delivered with a security keyed gun lock Item No. 711.7250 as shown on page 4

# MODEL 64 MATCH ACTION

## SPORTERS

### 1416/1516/1517 Series Sporters:

The Model 64 Match action is a lighter action than the Model 54, but still retains full ANSCHÜTZ match quality workmanship, accuracy and perfection and is used also for our 1903 target rifles.

### 64 Match action:

CNC precision machined with cam cocking bolt. The bolt face is fully recessed for full cartridge head support. Target type knob on bolt handle. Claw extractor and cartridge guide ensure positive feeding. The bullet head is guided perfectly into the chamber, just like the ANSCHÜTZ Olympic Biathlon competition rifles. Grooved, 11 mm receiver rail is drilled and tapped, and will take American made rings and bases.

### Barrel:

8 groove Olympic Match ANSCHÜTZ target grade, precision chambered, and button rifled to Olympic competition specifications. Target crowned. A test target is included with all Sporter Models which attests to individual rifle accuracy.

### Trigger:

2.5 lbs. single stage trigger 5094. Fully adjustable by professional gunsmiths from 2 to 4.4 lbs. The trigger is basically the same as used in the ANSCHÜTZ 1903 target rifle. Factory set to 2.5 lbs.

### Safety:

Lateral sliding safety disables the trigger, allowing unloading in the "Safe" position.

### Stocks:

#### 1. Classic

Elegant Classic straight lines, shaped from European walnut, checkering at pistol grip and forearm with black polymer butt plate and swivel studs accent the unique appearance.

#### 2. Classic Beavertail

The handsome American Classic line is shaped out of European walnut, combined with a distinctively beautiful Beavertail forend which gives this stock an extraordinary appearance. The exclusive ANSCHÜTZ silken mat finish of this stock and the cut checkering at the pistol grip provides both beauty and protection.

### Sights:

Folding rear sight is adjustable in height as is the hooded sporting ramp front sight.

All ANSCHÜTZ Olympic Class Sporters have 11 mm receiver rail and are drilled and tapped for scope mounts to fit

- B-Square.
- Bushnell.
- Ironsighter # 91 front and rear.
- Leupold.
- Millett Universal 22 TP series.
- Redfield 47365.
- Simmons.
- Talley.
- Warne 721.
- Weaver 91 front and rear.

**Typical Target 1416:**  
10-shot .22 l.r. test fire group at 55 yards.

**Typical Target 1516:**  
5-shot .22 WMR test fire group at 55 yards.

**Typical Target 1517:**  
5-shot .17 HMR test fire group at 55 yards.

# MODEL 64 MATCH ACTION MULTI PURPOSE SERIES AND MODEL 64 R SPORTER TARGET

These models represent the finest example of a quality moderately priced match rifle. The rifle is built on the fine 64 Match action coupled to a full size target barrel.

The model **64 MP R** Multi Purpose is equipped with the two stage Match trigger 5098, factory set to 10 oz.

The model **1517 MP R** Multi Purpose is equipped with the two stage Match trigger 5106, factory set to 1 lbs 9 oz.

Both triggers are fully adjustable (by a qualified gunsmith only!) for weight, creep, and length of pull.

- 25 1/2" heavy Match barrel diam. 0.89".
- Weight: 9 lbs.
- .22 long rifle - 5-shot magazine for .17 HMR - 4-shot magazine.
- Two stage Match Grade target trigger with adjustable lop; for 64 MP R 10 oz. for 1517 MP R 1 lbs 10 oz.

- Beavertail hardwood stock with adjustable butt plate and accessory rail with black removable insert.
- 11 mm grooved receiver rail, drilled and tapped for scopes and target sights.

Adjustable rubber butt plate with 1/3 inch spacer.

**Model 64 MP R Multi Purpose**  
**Model 1517 MP R Multi Purpose**  
shown with accessories, as shown on page 4

For a limited time  
also available with  
stainless steel barrel

## 64 Match action Sport and Target Repeater:

Bolt action repeater, with detachable 10-shot magazine. Action is cam cocking with claw extractor and cartridge holder, recessed bolt face for full cartridge head support. Sliding safety.

A great quality moderately priced ANSCHÜTZ medium weight target rifle for intermediate and advanced Junior Match competitions when fitted with basic target rifle accessories like the ANSCHÜTZ 6834 micrometer sight set, 6226 position hand stop and 4846 single shot magazine block adapter. The target stock fits right and left hand shooters, is vertically and horizontally adjustable at the butt plate, which can be extended with additional 1/3" thick spacers. 2 spacers come with the rifle.

The ergonomic pistol grip is stippled. The forearm has an aluminum target rail for target rifle accessories like a hand stop. The 21 1/4" heavy target barrel with 0.87 muzzle diameter is grooved for ANSCHÜTZ target front sight and chambered and rifled to ANSCHÜTZ target barrel specifications. The "ANSCHÜTZ Accurate" 64 R Sporter Target is ready to go right out of the box, you don't need to add other market target barrels, target stocks or rework the trigger.

To convert the rifle for varmint hunting or plinking, just install a scope on the 11 mm grooved receiver.

**Trigger:**  
Two stage Match trigger 5098, factory set to 10 oz.

# MODEL 64 MATCH ACTION BENCHREST SERIES

## Model 64 Match Action Benchrest Series:

These repeater rifles based on the 64 Match action offer benchrest shooters high ANSCHÜTZ quality at a very favourable price.

Both models are equipped with the two stage Match trigger 5098, factory set to 230 g / 7.4 oz. The trigger is fully adjustable (by a qualified gunsmith only!) for weight, creep and length of pull.

Prepared for fitting variably adjustable butt plate carrier with tilting column guide.

Possibility to adjust trigger weight.

## Model 64 S BR Benchrest Model 1517 S BR Benchrest

Accessories shown on page 4

- The model 64 S BR, cal. .22 l.r. is equipped with a 20" heavy match barrel diam. 0.89",
- The model 1517 S BR, cal. .17 HMR is equipped with a 22" heavy match barrel diam. 0.89".
- Special treatment of target crown like ANSCHÜTZ Match rifle model 1907 for both models.
- Weight: 9.5 lbs.
- For .22 long rifle - 5-shot magazine, with single shot adapter to be used as single loader.
- For .17 HMR - 4-shot magazine.
- Two stage Match Grade target trigger 5098 with adjustable lop, factory set to 7.4 oz.

- Flat beavertail hardwood stock with rubber butt plate 4709 A, backend prepared for variably adjustable butt plate carrier with tilting column guide; millcut for additional weights.
- Grooved receiver rail, drilled and tapped for scopes mounts and telescopic sight.

Target crown like model 1907.

# ANSCHÜTZ SPORTING RIFLES

**ANSCHÜTZ Sporting Rifles are assuredly among the most accurate, if not the most accurate and precisely made small bore firearms in the world!**

ANSCHÜTZ Sporters are assembled with the same precision rifling, the same bolt assemblies (sporterized in scale), by the same ANSCHÜTZ craftsmen, using the same manufacturing equipment and assembly processes

with quality standards as used in the manufacture of the world famous and record setting ANSCHÜTZ Target Rifles. The best small bore shooters in the world have been winning and setting world records with ANSCHÜTZ for the past fifty years.

ANSCHÜTZ firearms and "ANSCHÜTZ ACCURACY" are not for everyone. If you want an adequately accu-

rate rifle that is capable of hitting a tin can size target at 25 to 50 yards you do not need "ANSCHÜTZ ACCURACY." If you are a discriminating shooter and appreciate fine craftsmanship, precise function and demand world class accuracy that will consistently hit dime sized targets at 50 yards or "off hand" silhouettes at 100 yards - you need "ANSCHÜTZ ACCURACY."
