## Join The Trophy Club

Hunters who hunt with Magnum Research products are invited to join the Magnum Research Trophy Club. When you join, you will receive a certificate of membership and a free Trophy Club T-shirt that will make your friends extremely jealous. (Color and fabric content may vary.)

To join, just provide some basic written information and a photograph of yourself with the trophy and the pistol or rifle you used. Your name should be noted on the back of the photo, and the following information should be noted on a 3" x 5" index card:

- Name • Address • Type of animal
- Type and caliber of firearm (must be a Magnum Research product) • When and where the hunt took place • Other interesting details or circumstances • T-shirt size (M, L, XL, XXL)

Entries should meet the following guidelines:

- 1) Any game harvested in a fair chase is a "trophy."
- 2) The photo should be tasteful. The hunter and the firearm should both appear in the photo with the trophy.
- 3) The photo should be taken at or near the site of the hunt (not in the hunter's den with a mounted trophy).

Photos and facts may be used in Magnum Research's promotional materials. (Photos cannot be returned.) Trophy Club photos and cards should be sent to Magnum Research, Attention: Trophy Club, 7110 University Avenue N.E., Minneapolis, MN 55432.

## The Platform

The entire Mark XIX Component System is based on a single platform. With its gas operation, rotating bolt and all-steel construction, this is the heart of the firearm. Once you've purchased a Mark XIX Desert Eagle, you can change the barrel length or the caliber in seconds, if you have the appropriate Mark XIX components on hand. (See the listing of components on the facing page.)

## The Desert Eagle Pistol

The Mark XIX Desert Eagle Pistol offers true interchangeability. Six different pistols are available — .357 Magnum, .44 Magnum or .50 A.E., each with a 6-inch or 10-inch barrel. Purchase one pistol and you have the platform to build the other five with a simple switch of components.

The Mark XIX barrel takes ring mounts directly (see page 8). The .357 and .44 barrels have been fluted to reduce overall pistol weight. And the Desert Eagle still provides unmatched accuracy and control.

### The .50 Action Express is recommended for experienced shooters.

.50 A.E. Desert Eagle Pistol, Mark XIX, 6-inch barrel, standard black	DE50	\$1,299.00
.50 A.E. Desert Eagle Pistol, Mark XIX, 10-inch barrel, standard black	DE5010	\$1,399.00

### The .44 Magnum is powerful enough for hunting deer and other large game.

.44 Magnum Desert Eagle Pistol, Mark XIX, 6-inch barrel, standard black	DE44	\$1,299.00
.44 Magnum Desert Eagle Pistol, Mark XIX, 10-inch barrel, standard black	DE4410	\$1,399.00

### The .357 Magnum Desert Eagle Pistol was the first semi-auto handgun capable of firing magnum-caliber ammo with high accuracy and very low recoil.

.357 Magnum Desert Eagle Pistol, Mark XIX, 6-inch barrel, standard black	DE357	\$1,299.00

# The Custom Hunting Shop

## Custom-Finished Pistols

A custom finish adds a layer of distinction to the sheer power of the Desert Eagle. 24K gold appointments can also be added to pistols with any overall finish. Standard pistol finish is black oxide. Custom finishes shown below, clockwise from top right of photo, are: 24K gold (GO), polished & blued (PB), bright nickel (BN), matte chrome (MC), brushed chrome (BC), polished & blued with gold appointments (PBGO), satin nickel (SN), and polished chrome (PC). Titanium carbon nitride (TCN), titanium gold (TG) and black chrome (BKC) finish also available. The titanium gold tiger stripe (TG-TS) finish is only available on the .50 A.E. We are unable to offer the TG-TS finish on the .44 or .357 pistols due to the fluting on the barrels.

**Please Note: The magazine that comes with your custom-finished Desert Eagle Pistol will have a custom-finished base plate and a black oxide body.**

PB, BN, MC, BC, SN, or PC finish	Note 2-letter code	\$240.00
Black chrome finish	BKC	\$350.00
GO, TG, TCN or TG-TS finish	Note code	\$500.00

# Shooting Sharpeners

## Scope Mounts & Rings for Mark I & VII (shown at left)

Look-through scope mount clamps to .357, .41 or .44 Desert Eagle (any barrel length). Field-installable, no drilling or tapping. Fully compatible with our scopes and sights. Compatible with scope rings (not shown) listed below that clamp directly onto scope mount.

Scope mount, standard black finish	DEP350B	\$39.00
Scope rings, 1", black	DEP379	\$25.00
Scope rings, 1", silver	DEP378	\$25.00

## Scope Mount for Mark XIX Pistols

This mount (not shown) attaches directly to the top of your Mark XIX barrel and will give you a wider variety of scope mounting possibilities. This mount would be required if you are looking to use scopes with integral bases. If you have any mounting questions, please contact our Customer Service Department at 1-800-772-6168, Monday-Friday 8:30-4:30 CST.

Scope mount XIX, black	DEP351B	\$79.00
Scope mount XIX, silver	DEP351S	\$79.00

## Ring Mounts

Specially designed see-through ring mounts let you continue to use your fixed sights, too. Rear ring is angled back to prevent scope from being affected by muzzle blast. These rings fit all Mark XIX pistols; no other scope mounts are required if using scopes without an integral base. Black and matte silver finishes are pictured above in 1-inch-size.

Ring mounts, 1", black	DEP380	\$29.00
Ring mounts, 1", matte silver	DEP380S	\$29.00
Ring mounts, 30mm, black	DEP381	\$35.00

**Also available in these finishes while supplies last:**

Ring mounts, 1", polished chrome	DEP380PC	\$50.00
Ring mounts, 1", polished & blued	DEP380PB	\$50.00
Ring mounts, 1", satin nickel	DEP380SN	\$50.00
Ring mounts, 1", bright nickel	DEP380BN	\$50.00

Our "see-through" ring mounts let you continue to use your fixed or adjustable sights on your Mark XIX pistol.

## Desert Eagle Sights

Low-profile Millett® sights (see large photo) with white or orange front ramp and white rear sight are adjustable for windage and elevation. Sights work in sets, not individually, on all Desert Eagle models, but front sights are available separately for your extra barrels.

Trijicon® night sight set, 3-dot green front/rear (not shown), is the brightest, strongest and safest for enhancing night fire accuracy. For all sights, some fitting is required. Consultation with your gunsmith is suggested.

Millett sights, white front, white rear	DEP300/W	\$75.00
Millett sights, orange front, white rear	DEP300/O	\$75.00
Millett front sight, white	DEP301/W	\$29.00

# "Baby" Desert Eagle Pistol

## 9mm, .40S&W, .45 ACP

The baby of the Desert Eagle family offers an excellent handgun value and plenty of firepower. The grip is exceptionally comfortable and well-liked by shooters.

The double action/single action Baby Eagle is available in 3 calibers, with some style variations. The compact (short frame and barrel) and semi-compact (short barrel) pistols have the same excellent shooting characteristics as the standard Baby Eagle and are ideal for shooters with smaller hands.

All Baby Eagles are made of steel except the versions with polymer frames. Custom finishes can be ordered on steel pistols. Brushed chrome or polished chrome is an additional \$220.00. Titanium gold or titanium carbon nitride is an additional \$500.00. Magazines remain matte black. See page 14 for more information on custom finishes.

**Suggested retail price is \$549.00**  
**(for steel models in matte black**  
**and polymer models in black).**

*To purchase a Baby Eagle Pistol, please see your favorite federally licensed firearms dealer. Magazines, grips and caps can be obtained from your dealer or directly from Magnum Research.*

## Custom-Jeweled Components

This custom finish offers a relatively inexpensive way to jazz up the components of your Magnum Research products, including the Desert Eagle Pistol\* (DEP), Baby Eagle Pistol (BEP), Biggest Finest Revolver (BFR) and Mountain Eagle Rifle (MER). The prices listed are for *jeweling your components*, which you will have to ship to Magnum at your own expense.

Custom jewelery of safety levers	(DEP)	GS-JEWL-SL	\$15.00
Custom jewelery of hammer	(DEP, BEP)	GS-JEWL-H	\$15.00
Custom jewelery of trigger	(DEP, BFR, BEP)	GS-JEWL-T	\$10.00
Custom jewelery of bolt assembly	(DEP, BEP, MER)	GS-JEWL-B	\$20.00
Custom jewelery of other components	(DEP, BEP, MER)	GS-JEWL	Call
Install trigger stop (your trigger)	(DEP)	GS-TS	\$20.00

\*Only brushed chrome, polished chrome, and bright nickel Desert Eagle finishes can be jeweled. Why not the other finishes? Matte chrome and satin nickel are too dull to jewel, 24K gold is too soft and titanium is too hard to jewel, and the polished & blued finish is susceptible to rust if jeweled.

The .17Mach-2 barrel and bolt kit.

Installed on a Ruger® action with Barracuda forest camo stock.

## General Features

- The Desert Eagle Pistol is a gas-operated, semi-automatic pistol with a rotating bolt for positive lock-up.
- The barrel is locked in place, assuring a high degree of accuracy. Maximum effective range with the standard 6-inch barrel is 200 meters (650 ft.).
- The polygonal rifling reduces barrel wear and enhances the obturation between the bullet and the bore, thus increasing accuracy.
- Anatomically formed grip, ideal hand seating angle and comfortable grip dimensions permit rapid, accurate, instinctive shooting. The combat-type trigger guard is designed for two-handed shooting.
- The Desert Eagle Pistol fires standard ammunition.
- When the last round in the magazine is fired, the slide locks open, permitting rapid change of magazine and immediate chambering of a round for instant resumption of firing.

## The Ultimate Hunter

Build your fantasy Desert Eagle with our wide selection of pistol-enhancing accessories. The items featured here are a brushed hard chrome custom finish (see p. 6), Hogue 1-piece rubber grips with finger grooves (see p. 11), a Leupold scope, ring mounts, and Millett sights (all pp. 8-9).

*Accessories must be purchased separately.*

## General Features

The 7/8" dovetail rib on the barrel has cross slots to accommodate scope rings (available as an option). This integral scope base means no additional mounting hardware is required.

## Safety

The safety is ambidextrous — it can be operated by right-handed and left-handed shooters. When the safety is on, the firing pin is blocked, disconnecting the trigger bar from the sear at the same time. Extensive tests in accordance with military specifications include drop tests that show the Desert Eagle is safe from accidental firing.

## Construction

Desert Eagle Pistol parts are machined or precision-cast and machined to strict military standards from high-quality steel.

### THE DIFFERENCE BETWEEN THE MARK VII .357 AND MARK XIX .357

#### **THE MARK VII DESERT EAGLE .357 PISTOL**

**Barrel:** the six, ten and fourteen-inch all have a 3/8" dovetail on top.

**Slide Assembly:** the slide is physically smaller in size lower to accommodate the barrels with the 3/8" dovetail.

**Frame Assembly:** same as Mark XIX configuration, with two-stage trigger and plastic grips.

**Appointments:** same as Mark XIX configuration, safety levers are hook-shaped, slide release lever has three steps for ease of operation.

The Mark VII Desert Eagle .357 Magnum pistols are convertible to XIX. The conversion kit (part #CONV..) consists of a complete slide assembly, barrel, gas piston, recoil spring assembly, magazine and grips. A costly conversion.

#### **THE MARK XIX DESERT EAGLE .357 PISTOL**

**Barrel:** the six and ten-inch all have a 7/8" dovetail on top with cross-slots for scopes.

**Slide Assembly:** the slide is physically larger in size higher to accommodate the barrels with the 7/8" dovetail.

**Frame Assembly:** same as Mark VII configuration, two-stage trigger, same plastic grips.

**Appointments:** same as Mark VII configuration, safety levers are hook-shaped, slide release lever has three steps for ease of operation.

The Mark XIX Desert Eagle .357 Magnum pistols are convertible to other XIX calibers (.50 A.E./.44) by simply switching barrel, magazine and bolt assembly.

### THE DIFFERENCE BETWEEN THE MARK VII .44 AND MARK XIX .44

#### **THE MARK VII DESERT EAGLE .44 PISTOL**

**Barrel:** the six, ten and fourteen-inch all have a 3/8" dovetail on top.

**Slide Assembly:** the slide is physically smaller in size lower to accommodate the barrels with the 3/8" dovetail.

**Frame Assembly:** same as Mark XIX configuration, with two-stage trigger and plastic grips.

**Appointments:** same as Mark XIX configuration, safety levers are hook-shaped, slide release lever has three steps for ease of operation.

The Mark VII Desert Eagle .44 Magnum pistols are convertible to XIX. The conversion kit (part #CONV..) consists of a complete slide assembly, barrel, gas piston, recoil spring assembly, magazine and grips. A costly conversion.

#### **THE MARK XIX DESERT EAGLE .44 PISTOL**

**Barrel:** the six and ten-inch all have a 7/8" dovetail on top with cross-slots for scopes.

**Slide Assembly:** the slide is physically larger in size higher to accommodate the barrels with the 7/8" dovetail.

**Frame Assembly:** same as Mark VII configuration, two-stage trigger and plastic grips.

**Appointments:** same as Mark VII configuration, safety levers are hook-shaped, slide release lever has three steps for ease of operation.

The Mark XIX Desert Eagle .44 Magnum pistols are convertible to .50 AE by simply switching barrel and magazine. To convert to the .357, you also need to switch the bolt assembly.

### THE DIFFERENCE BETWEEN THE MARK VII .50 AE AND MARK XIX .50 AE

#### **THE MARK VII DESERT EAGLE .50 AE PISTOL**

There is no difference; it is the same as the Mark XIX. When we first produced the .50 AE pistols, we called them the Mark VII series, but as we changed the .357 and .44 to share the same slide assembly as the .50 AE, we decided to call this series the Mark XIX.
