Model 150 Series CO2 Pellgun Pistol - Operating

To Charge Pistol With CO2:

Make certain there is no pellet in Barrel. Fire pistol to exhaust residual gas.

- 1. Unscrew and remove knurled Tube Cap (If unable to turn by hand DO NOT attempt to remove with pliers or other tools as this denotes the gun is under pressure). Hold muzzle end down and used Powerlet will drop out.
- 2. Insert Powerlet in Tube, neck down. Screw Tube Cap firmly into place by hand.
- 3. Cock pistol to full power position. (Pistol has two ranges of power. First click of cocking rod is for minimum power, Second click is for maximum power). Pull Trigger to pierce Powerlet and to release gas in Chamber. Peligun is now ready for loading and shooting.

To Load and Shoot Pistol:

1. Put Safety bar on "Safe" by pushing to right.

Never use steel darts or other hard missiles. Use only Crosman Super Pells for accurancy and long barrel life.

Instructions..

- 2. Turn Breech Cover and draw back to open Breech. Place pell (nose forward) in Breech Loading recess. Advance Breech Cover and turn to right for locking.
- 3. Cock pistol, to power of your choice, by pulling Cocking Button until it clicks. Button will automatically return to position.
- 4. Select target, push Safety to left for "Fire" position, red band visible, aim and shoot.

To Unload Pell from Barrel:

Put Safety bar on "Safe" by pushing to right.
Open Breech Cover. Insert 3/16" ram rod in
muzzle end of Barrel and push pellet out into
loading channel. DO NOT ATTEMPT to shoot
a lodged pell out with another pell.

Care of Pellgun:

The Model 160 Series Crosman CO2 Pellgun Pistol is a precision built gun of the most modern design and construction. Materials have

been carefully selected for quality and long life. Before it is released for shipment, it has passed numerous rigid inspections and has been test fired for performance. Treat it with the same fine care that you give your other valued possessions and it will give you many hours of carefree pleasure and enjoyment.

Lubricate all moving parts sparingly with light machine oil as needed. Wipe off blued steel parts with an oily rag to prevent rust and preserve the finish. DO NOT USE special penetrating oils as they may be harmful to valve seats.

FUN

10 LOAD and SHOOT

- 1. Put Safety bar on "Safe" by pushing to right.
- 2. Turn Breech Cover and draw back to open Breech. Place pellet (nose forward) in Breech Loading recess. Advance Breech Cover and turn to right for locking.
